Draft Budget – Solution to 2017/18 Budget Gap

2017/18 Savings Themes

Theme	Description
Working with Partners and Others	Considering the way in which we work alongside the public, partner organisations and others. There are opportunities to explore new operating models and alternative delivery arrangements, join up services and consider the sharing of assets and the use of multi-agency teams.
Income/ Commercialisation	Identifying how the Council can make better use of its assets and how to offer its services to the public, third sector, or private sector organisations. Examples include opportunities in respect of income generation (in both existing markets and the exploration of new markets) and alternative delivery arrangements.
Internally Facing / C&P	Reviewing internal business processes, covering the need to realign services downwards in non-front line areas, through business process efficiencies and reductions to more closely reflect available resources. Ensuring that we secure value on all our contracts.
Review of Grants & Subsidies	Reviewing those services which are either subsidised by the Council, or those for which a grant is currently given to an outside organisation in order to provide the service. Examples may include exploring the possibility of private corporate sponsorship of events.
Use of Technology	Understanding the ways in which we can make better use of technology, in our internal functions as well as continuing the shift to online services, customer focus and enabling technology, encouraging people who are able to use digital services to do so.
Second/Third Year of Proposals	Considers those proposals where additional savings are planned beyond the financial year in which it was originally proposed.

Page 17

Capital Programme 2017/18 – 2021/22

Affordability of borrowing to fund capital

Key Messages:

- Council Budget Strategy Report – “As the Council realigns itself strategically to lower funding levels it will need to consider the level of debt and potential financial resilience issues that may be a consequence of increasing borrowing.”
- Council Budget Strategy Report – “Capital financing costs as a percentage of controllable revenue budgets are increasing. This clearly limits the scope for additional borrowing in future years and reduces the Council’s overall flexibility when making decisions on the allocation of its revenue resources”
- Borrowing is a long term commitment to the revenue budget – Must be Prudent / Sustainable / Affordable now as well as long term
- Wellbeing and Future Generations Act
- Strategic Long Term Commitments we will need to fund in addition
 - Cardiff City Region City Deal
 - 21st Century Schools Band B from 2019/20
 - Current projects such as Transport Interchange and City Centre Public Realm assumed to be funded by capital receipts and external funding
