(c) Members' question and answer session.

7      **Work Programme 2015/16** *(Pages 101 - 106)*      5.40 pm

8      **Carers Update** *(Pages 107 - 108)*      6.10 pm

9      **Date of next meeting**

The next meeting of the Community and Adult Services Scrutiny Committee is scheduled to take place on Wednesday 8 July 2015 at 4.30pm.

**Marie Rosenthal**

**County Clerk & Monitoring Officer**

Date: Thursday, 28 May 2015

Contact: Andrea Redmond, 029 2087 2434, a.redmond@cardiff.gov.uk

### Terms of Reference

To scrutinise, measure and actively promote improvement in the Council's performance in the provision of services and compliance with Council policies, aims and objectives in the area of community and adult services, including:-

- Public and Private Housing
- Disabled Facilities Grants
- Community Safety
- Neighbourhood Renewal and Communities First
- Advice and Benefits
- Consumer Protection
- Older Persons Strategy
- Adult Social Care
- Community Care Services
- Mental Health and Physical Impairment
- Commissioning Strategy
- Health Partnership
- Cardiff Partnership Board
- To assess the impact of partnerships with and resources and services provided by external organisations including the Welsh Government, joint local government services, Welsh Government Sponsored Public Bodies and quasi-departmental non governmental bodies on the effectiveness of Council service delivery;
- To report to an appropriate Cabinet or Council meeting on its findings and to make recommendations on measures, which may enhance Council performance and service delivery in this area;
- To be the Council's Crime and Disorder Committee as required by the Police and Justice Act 2006 and any re-enactment or modification thereof; and as full delegate of the Council to exercise all the powers and functions permitted under that Act.

DINAS A SIR CAERDYDD**

**COMMUNITY AND ADULT SERVICES SCRUTINY COMMITTEE**

**3 June 2015**

---

**2015/16 DRAFT BUSINESS PLANS: COMMUNITIES, HOUSING & CUSTOMER  
SERVICES AND HEALTH & SOCIAL CARE**

---

**Purpose of Report**

1. To provide Members with background information to facilitate the scrutiny of two draft Business Plans, with the draft Communities, Housing & Customer Services Business Plan attached at **Appendix A** and the draft Health & Social Care Business Plan attached at **Appendix B**.

**Scope of Scrutiny**

2. This item will enable Committee to pass comments to the Cabinet to consider when they receive the draft Directorate Business Plans. At this meeting Committee can scrutinise:
  - a. the Directorates' contribution to delivering the Council's Corporate Plan 2015-17 and the Organisational Development Programme, via the commitments detailed in the Action Plan;
  - b. the milestones and timescales for delivering the commitments in 2015-16;
  - c. the resources it has to deliver these commitments in 2015-16;
  - d. the challenges it faces as a service in 2015-16; and
  - e. the Directorate's key achievements during 2014/15.
3. The whole of the Health & Social Care Directorate falls within the remit of this Committee. The majority of the Communities, Housing and Customer Services Directorate falls within the remit of this Committee, apart from the Customer Services section, which the Policy, Review and Performance Scrutiny Committee has the lead in scrutinising, and the Libraries and Adult Community Learning section, which the Economy and Culture Scrutiny Committee has the lead in scrutinising.

## Background

4. The Corporate Plan 2015-17 was approved at Council on 26 March 2015. It sets out four key priorities for Cardiff:
  - a. Education and skills for people of all ages;
  - b. Supporting people in vulnerable situations;
  - c. Sustainable economic development as the engine for growth & jobs;
  - d. Working with people and partners to design, deliver and improve services.
  
5. The accompanying report stated that *'Directorate Delivery Plans will provide an important link between the Corporate Plan, the work of directorates and the objectives set for individual employees. Directorate Delivery Plans will also further integrate financial and service planning, more detailed action about progressing Corporate Plan Improvement Objectives, as well as details of other important activities not included in the Corporate Plan. In addition, Directorate Delivery Plans will provide clear lines of responsibility, increased accountability and be subject to effective management challenge and scrutiny. This will ensure that team and individual employee objectives are aligned with Council's key strategic priorities.'*<sup>1</sup>
  
6. Members will also recall that the Cabinet considered proposals to create an Organisational Development Programme in May 2014. Five programmes have been created underneath this Programme, which contain projects that are led by the Communities Directorate e.g. Independent Living, Mobile Working and Scheduling, Community Hubs and the Housing Partnership Projects.
  
7. The draft Business Plans follow a standard format, which is:
  - Introduction;
  - Core Business;
  - Key Achievements from 2014/15;
  - Aspirations/ Challenges for 2015/16;
  - Budget;
  - HR statistics;
  - Action Plan and Performance Measures.

---

<sup>1</sup> Points 10 and 11, Corporate Plan 2015-2017 Cover Report – Agenda Item 2 Cabinet Meeting 19 March 2015

8. The Business Plans are structured around the Corporate Plan priorities, with the Action Plan split into three parts, as follows:
  - a. Corporate Plan and Cardiff Partnership Priorities;
  - b. Core Business Priorities; and
  - c. Planning for the Future.
  
9. Each Action in the Action Plan has its own reference number and shows the linkages to the Corporate Plan Priority and Improvement Objective, the Medium Term Financial Strategy and the partners that are involved in work.

### **Communities, Housing and Customer Services Business Plan 2015-16**

10. Members are reminded that some of the work of this Directorate falls outside the remit of this Committee i.e. adult community learning, libraries and the sections relating to Customer Services and C2C. All of the sections under the 'supporting people in vulnerable situations' heading fall within this Committee's terms of reference, as do sections on neighbourhood regeneration and hubs.
  
11. To assist Members, listed below are the relevant pages and improvement objectives that fall within the terms of reference of this Committee:
  - a. People at risk in Cardiff are safeguarded – **Appendix A, page 21;**
  - b. People in Cardiff have access to good quality housing – **Appendix A, pages 21-23;**
  - c. Communities and partners are actively involved in the design, delivery and improvement of highly valued services – **Appendix A, page 24;**
  - d. The City of Cardiff Council has effective governance arrangements and improves performance in key areas – **Appendix A, pages 25- 27.**
  
12. The section on Core Business Priorities (**Appendix A, page 28**) contains the following commitments that fall within the terms of reference of this Committee:
  - a. CHCSBP1 – 18 inclusive (**Appendix A, page 28 – page 36**);
  - b. CHCSB1 – CHCSB5 inclusive (**Appendix A, page 37 - 38**);
  - c. CHCSB10 –CHCSB12 inclusive (**Appendix A, page 40 - 41**).

13. The section on Planning for the Future (**page 48, Appendix A**) contains the following potential impacts that fall within the terms of reference of this Committee:
- a. Increasing costs and increased demands that the costs of providing Health and Social Care in Cardiff grows significantly and consumes a much higher percentage of the authority's budget. (**Appendix A, page 48**);
  - b. The delivery of frontline service provision is ceased to meet the required savings as a result of maintaining and running multiple buildings in areas of the city. (**Appendix A, page 48**);
  - c. Scoping potential possibilities for revenue generation associated with 24/7 services (**Appendix A, page 50**).

#### **Health & Social Care Business Plan 2015-16**

14. Members are reminded that all the work of this Directorate falls within the remit of this Committee. The Business Plan is attached at **Appendix B**. All the improvement objectives fall within the terms of reference of this Committee and are shown at **Appendix B, pages 14 – 19**.
15. The section on Core Business Priorities is at **page 20, Appendix B**, whilst the section on Planning for the Future commences on **page 22, Appendix B** and contains the following potential impacts that fall within the terms of reference of this Committee:
- a. Risk of budget overspend and non-achievement of savings;
  - b. Inability to respond to need in a timely way;
  - c. Failure to deliver improved choice and control for citizens;
  - d. Impeded access to services;
  - e. Increased dependency of vulnerable people putting pressure on service;
  - f. Increased costs for residential and nursing care home placements;
  - g. Failure to protect people from harm, abuse and neglect;
  - h. De-stabilisation of integration projects and multi-disciplinary working;
  - i. The implementation of the Social Services and Well Being (Wales) Act 2014 will place new duties and responsibilities upon already pressurised services;
  - j. Increasing costs and increased demands that the costs of providing Health and Social Care in Cardiff grows significantly and consumes a much higher percentage of the authorities budget.

## **Way Forward**

16. Councillor Susan Elsmore (Cabinet Member Health, Housing and Well Being), Sarah McGill (Director for Communities, Housing and Customer Services with interim responsibility for Health and Social Care), Jane Thomas (Assistant Director for Communities and Housing) and Stuart Young (Resources and Performance), have been invited to attend to give a presentation and to answer Members' questions.

17. Members may wish to explore the following areas:

- a. Whether the Directorates are supporting delivery of the Corporate Plan via the commitments detailed in the Action Plan;
- b. Whether the milestones and timescales for commitments are appropriate and achievable;
- c. What the arrangements are for monitoring implementation of the Business Plan commitments;
- d. Whether the performance measures are appropriate and fit for purpose;
- e. The Directorates' resource levels and whether these are sufficient to resource the commitments in the Action Plan;
- f. How the Directorates' are planning for the future; and
- g. The Directorates' key achievements during 2014/15.

## **Legal Implications**

18. The Scrutiny Committee is empowered to enquire, consider, review and recommend but not to make policy decisions. As the recommendations in this report are to consider and review matters there are no direct legal implications. However, legal implications may arise if and when the matters under review are implemented with or without any modifications. Any report with recommendations for decision that goes to Cabinet/Council will set out any legal implications arising from those recommendations. All decisions taken by or on behalf of the Council must (a) be within the legal powers of the Council; (b) comply with any procedural requirement imposed by law; (c) be within the powers of the body or person exercising powers on behalf of the Council; (d) be undertaken in accordance with the procedural requirements imposed by the Council e.g. Scrutiny Procedure Rules; (e) be fully and properly informed; (f) be properly motivated; (g) be taken having regard to the Council's

fiduciary duty to its taxpayers; and (h) be reasonable and proper in all the circumstances.

### **Financial Implications**

19. The Scrutiny Committee is empowered to enquire, consider, review and recommend but not to make policy decisions. As the recommendations in this report are to consider and review matters there are no direct financial implications at this stage in relation to any of the work programme. However, financial implications may arise if and when the matters under review are implemented with or without any modifications. Any report with recommendations for decision that goes to Cabinet/Council will set out any financial implications arising from those recommendations.

### **RECOMMENDATIONS**

The Committee is recommended to:

- I. consider the information in the report , appendices and provided at the meeting;
- II. decide whether they would like to make any comments to the Cabinet and;
- III. decide the way forward for any future scrutiny of the issues discussed.

## Introduction

### Corporate Business Plan

The City of Cardiff Council can no longer do all the things it has done in the past. With reducing funding and increasing demand, the Council must be clear about its priorities. Three tightly focused priorities have been maintained and a fourth priority introduced which recognises the need to change the way services are delivered.

### Our priorities:

- Education and skills for people of all ages;
- Supporting people in vulnerable situations
- Sustainable economic development as the engine for growth and jobs;
- Working with people and partners to design, deliver and improve services.

For each priority, a limited number of improvement objectives have been established; and for each improvement objective, high level commitments and performance indicators have also been identified.

### Measuring Progress

To ensure there is a clear accountability for delivering each objective a Lead Member, or in some instances Members, are identified. The delivery of the Corporate Plan will be monitored through the Council's strengthened Performance Management Framework, including:

- Performance Challenge sessions of the Council's Senior Management Team;
- Joint Cabinet and Senior Management Team Performance Challenge meetings;
- A Challenge Forum involving Members; Senior Officers and external peer support to challenge the Council's progress against its improvement journey and delivery of the Corporate Plan.

Aligned monitoring and reporting cycles for finance and service performance information will further support this and afford far greater visibility of the Council's overall performance position – against which progress will be monitored on an ongoing basis

## Key Terms

### City Wide Outcomes

- Seven high level outcomes which have been agreed with partners, and are contained in Cardiff's Single Integrated Plan – "What Matters".
- Achieving these outcomes require action across a range of organisations.

### Council Priorities

- The Council's priorities recognise the most important areas that need to be addressed in the short to medium term.

### Improvement Objectives

- For each priority 2-3 Improvement Objectives have been identified. These reflect specific areas where the Council wishes to see improvement.
- Improvement Objectives are expressed clearly and simply, to explain the future condition (or specific outcome) we want to achieve.

### Commitments

- Commitments are specific initiatives that the Council will undertake to deliver the Improvement Objectives and contribute to City Wide Outcomes

### Measuring Progress

- Progress will be measured by a basket of indicators.
- These will include nationally set indicators (known as NSIs and PAMs), service improvement data which is collected by local authorities across Wales, and local indicators chosen by the Council.

# The Policy Framework

# Core Business – Housing & Communities

## Council Housing

- The service manages and maintains 13,663 council homes, 1,197 leaseholder properties and 2 Gypsy sites across the city.
- The **Community Maintenance Service** manages and provides a responsive maintenance and improvement service that ensures homes are of a decent standard and are safe and secure. The service also carries out a planned programme of improvements and delivers disabled adaptations for both council and private properties.
- The **Tenancy Team** ensures that Council tenants and leaseholders comply with their tenancy conditions, offering help and advice to tenants. The team ensures that properties are occupied and well looked after and takes enforcement action where necessary to ensure that this is the case.
- The **Finance Teams** work to prevent and recover rent arrears, housing benefit overpayments and recoverable repairs.
- The **Caretaking Services Team** aims to maintain the cleanliness of over 800 Council blocks.
- The housing **Anti-Social Behaviour Team** works with those suffering from anti-social behaviour, as well as the perpetrators, to resolve the issue where possible, or to take action against the perpetrator if necessary.

- The Social Lettings Unit manages the Common Housing Waiting List and the Common Allocation process, working closely with Housing Associations to ensure that properties are let to those most in need. The unit also manages empty properties (voids) and ensures they are let promptly.

## The Benefit Service

- The Service helps nearly 38,000 households within Cardiff to pay their rent or their Council Tax through payment of Housing Benefit and Council Tax Benefit. The Service also assesses claims for free school meals.

## Community Hubs

- The service manages community hubs in St Mellons, Llanrumney, Ely and the City Centre Advice Hub in Marland House and provides key services in the Butetown Hub. All Hubs offer a wide range of services such as library services, housing and benefit advice, Into Work advice and general Council enquiries such as waste management and street lighting.

## Advice Services

- The **Housing & Benefit Enquiry** service provides Housing, Benefit and related advice across the city and by telephone.
- **Into Work Services** provides job clubs, work based training and provides local labour market support and expertise to employers.

- **Housing Advice** - A new Housing Solutions service is now offered in Hubs across the city with all applicants to the Common waiting list offered tailored housing advice to meet their needs. Cardiffhousing.co.uk website offers information about rented and affordable accommodation in Cardiff and aims to help those looking for a home to make choices about the most suitable option for them. It also offers landlords the opportunity to advertise their properties, provides information about required accommodation standards, accreditation options and other issues.
- **Money Advice** is provided by the Council's Money Advice Team in the Advice Hub in Marland House. The Advice Hub also provides a range of other advice from partners such as Citizens Advice Bureau on a wide range of issues such as welfare benefits Council Tax, Debt, Consumer, Savings, Loans, Gas and Electricity.

### **Housing Policy Team**

- Responsible for delivering the Council's strategic housing function and for developing the Housing Strategy.
- Responsible for quality of services and for working with Cardiff tenants to promote participation in housing management.
- The team also manages the Council's Corporate Grants process.

### **Homelessness**

- Manage the Council's homelessness duties, including the provision of hostels and the management of temporary accommodation, providing housing advice and housing options.

### **Independent Living Service**

- Helps clients' independent living and quality of life within their own home environment, by providing a holistic service including advice about specialist housing solutions, disabled adaptations, income maximisation and activities to prevent social isolation .
- The service also provides targeted loans to older people to repair homes within the private sector.

### **Supporting People**

- The Supporting People programme delivers housing-related support to vulnerable clients in a variety of settings. Services are provided in house and by a range of partner support providers.

### **Neighbourhood Regeneration**

- Coordinates neighbourhood regeneration strategies and improvement programmes.
- Implements local regeneration programmes, including neighbourhood renewal schemes, estate regeneration and alley-gating.
- Improves local community facilities and amenities, including the Hub development projects and Community Shopping Centres regeneration.

### **Housing Development**

- Delivers the Social Housing Grant programme throughout Cardiff working with Registered Social Landlords (RSL) to deliver new Affordable Housing schemes and manage the delivery of the Council's Low Cost Home Ownership Scheme.
- Implements stock remodelling/improvement schemes focusing on removing hard-to-let properties and tackling issues associated with poor design, inappropriate stock and anti-social behaviour.
- Delivers new build council housing projects such as the Housing Partnership Programme and develop strategies to improve Housing Revenue Account (HRA) Land & Assets.
- Manage enquiries relating to the management and sale of HRA land.
- **The Compliance Team** co-ordinates programmes of work and associated resources in relation to the HRA. It also plans, checks and reviews issues of Health and Safety compliance for the service area incorporating internal and external workforces and other stakeholders.

# Core Business – Communities & Customer Services

## Corporate Customer Service Team

- Our **Corporate Complaints** Team has corporate responsibility for complaints sent to the Council. Support is provided to all service areas, including training and ensuring that all service areas adhere to the Council's Complaints Policy. The team also liaise and advise service areas who require support when dealing with customer complaints and act as the first point of contact for the Public Services Ombudsman for Wales.
- The **Member Enquiry Service** is facilitated by this section and our staff are here to support Members who require assistance with their enquiries, produce reports on enquiries uploaded onto the system, ensure enquiries are answered within required timescales and support our Service Area Co-ordinators who require support using the system.

## Adult Community Learning

**Adult Community Learning** provides a broad range of adult learning opportunities in a variety of locations across the city. The courses are targeted at a wide spectrum of learners, from those living in the most deprived areas of the city who are disengaged from learning and in need of further education or training; and those wanting to participate in learning as a recreational activity or for personal development, health and wellbeing.

## Technical Corporate Customer Service Team

- To develop a customer management strategy.
- To manage and develop the Council's web presence.
- Single Customer View – developing a customer management approach through the use of new technologies (e.g. SAP CRM).

## Cardiff 24/7 Services

Cardiff 24/7 Services offer a number of services to a diverse range of customers across the city. Many of the services delivered are available across the 24 hour period on each day of the year including bank & public holidays;

- Telecare Cardiff provides a 24 hour support service to over 3500 customers through dispersed and hard wired alarms, sensors and monitors. The team includes a Mobile Response Warden Service which provides assistance to people in their own homes often at times of distress (e.g. a fall). This service is accredited by the Telecare Services Association.
- Sheltered Accommodation Services provide approximately 300 older people with a scheme managed housing provision.
- Out of Hours Services- Call and incident management for a range of council and partner agencies.
- Concierge Services at 2 high rise accommodation blocks.

## Connect to Cardiff

C2C offers access through 11 channels including a bilingual telephone service, email, web chat, fax, SMS text messaging, voicemail, Minicom, internet and letter. C2C is open 8:30am – 6pm Monday to Friday. C2C handles and signposts all council related enquiries and our core services are:

- Council House Repairs
- Waste Management
- Council Tax & Recovery
- Housing benefit and Council Tax reduction
- Highways defects, including faults to street lights
- Parking Enforcement & moving traffic contraventions
- Adult Contact & Assessment

## Libraries

Cardiff Libraries deliver reading, information and digital services to the citizens of Cardiff.

This is achieved through a network of buildings across the city including:

- Central Library,
- 17 full-time branch libraries (2 within leisure facilities, 3 Community Hubs),
- 3 part-time branch libraries,
- A prison library within HMP Cardiff,
- Stacks and Stock Support Department
- A mobile and housebound service

The Communities, Housing and Customer Services Directorate has supported the City of Cardiff Council in achieving its overall aims for change. This includes leading on the approach to customer service that improves the customer experience whichever channel they choose to interact with us, whether this is via phone, internet or face-to-face. The directorate has also been a key driver, reorganising services to show that we can meet some of our budgetary challenges through reshaping services as opposed to ceasing the services.

## Our priorities:

- **Education and skills for people of all ages** [page 6](#)
- **Supporting vulnerable people** [page 7](#)
- **Sustainable economic development** [page 10](#)
- **Working with people and partners to design, deliver and improve services** [page 11](#)

## Education and Skills for people of all ages

### Adult Community Learning:

Adult Community Learning (ACL) has undergone a notable transformation following several challenges including significant reductions on Welsh Government ACL grant funding. As a result of these financial challenges, the ACL programme was split into 2 programmes; Learning for Work and Learning for Life. Learning for Work continues to be a programme funded by Welsh Government focussing on 'priority learners':

- Anyone aged 16 and above accessing an ACL basic skills and/or ESOL programme, including contextualised basic skills and citizenship courses

The Learning for Life 'recreational' programme is not eligible for grant funding and has been based on a cost neutral model for what are termed as 'non priority learners'. A large proportion of these learners (65%) are aged over 50 and these courses have a fee attached, however there is also a concessionary rate available. In the 1<sup>st</sup> year of splitting this programme, the cost neutral programme has to date, been sustainable. This was achieved through taking a more business minded approach including a reduction in spend on buildings, improved marketing of the service and delivery of courses.

- Those who are not currently in education, training or employment and are in receipt of state benefits or support (excluding state retirement pension)
- Those aged 50 plus who are not in full-time employment
- There is also a DICE (Disability Inclusion in Community Education) programme that is included within both the grant funded and cost neutral programmes

across the city to help and support people to 'Get Online'. This has proved hugely successful and there are currently 41 volunteers assisting. This has helped people to gain confidence and invaluable work experience.

- 10 of these volunteers have been successful in finding paid employment, using the volunteering experience as a stepping stone back into work

now allocate approximately 50 vouchers a month.

- Assistance was provided for 119 families affected by the benefit cap through awarding them a Discretionary Housing Payment and working in close collaboration with the Into Work Advice team.

- 17 have found employment and are therefore no longer affected by the cap,
- All were helped with budgeting and debt and were assisted to apply for grants / discounts and benefits that they were entitled to,
- Nine have been awarded PIP or ESA (support) which means they are no longer affected by the cap.

## Supporting vulnerable people

### Into Work Advice:

Overall client footfall has doubled across the city since the redesign of the Local Training and Enterprise to the new Into Work service. Drop-in job clubs are now used to assist more job seekers rather than one to one CV appointments. This empowers the client to become more digitally included and also ensures more people have instant access to the help and support they need to find employment. Key achievements of this service include:

- 3 jobs fairs have been held, with over 150 employers and thousands of job seekers attending.
- The number of people attending accredited work skills training has doubled and the number of people attending non accredited training has increased nearly 10 fold since April 2014.
- The pass rate for the accredited courses remains high with an average of 91% passing.
- Guaranteed interview events have been piloted in two community hubs by the Into Work team that has resulted in over 50 clients finding employment.
- In conjunction with Communities 2.0 a new volunteering co-ordinator post was created to recruit volunteers from

### Advice:

During the past year the **Advice Team** has provided assistance to citizens with a variety of different needs, including:

- The team assisted clients to obtain over £5.1 million in previously unclaimed benefits and to obtain over £290,000 in one off payments.
- The team became a distributor for food bank vouchers, as previously there was no central point at which those in need could apply. The team

### Intermediate Care Fund:

Intermediate Care Fund was set up by Welsh Government to drive forward collaborative working between Social Services, health and housing and with Third and Independent Sector partners. The Fund will support people to maintain their independence and remain in their own home. It will be used to avoid unnecessary hospital admissions, inappropriate admissions to residential care, as well as preventing delayed discharges from hospital.

As part of the project during 2014/15 the following was achieved:

#### **Independent Living Gateway:**

The Directorate piloted a new Independent Living Service. The main priority for this service is to provide a holistic service to our over 60 residents to enable them to remain independent and in their own homes. This holistic approach saw the joining up of services such as disabled facilities grants, welfare benefits, housing benefits, financial assessments, assisted waste service and enabled us to provide multi skilled Visiting Officers to deal with a range of council services during one visit to the customer. The pilot explored delayed transfers of care within local Hospitals and saw the recruitment of housing resettlement officers who are based within the hospitals. This project is seeing real results in helping with people being discharged safely to their homes in a timely manner.

This project is aimed at alleviating problems associated with delayed discharge and transfers of care within hospitals. The Step-down units are fully adapted to cater for a wider range of needs therefore they can offer individuals an alternative to remaining in a hospital bed. These units are intended for short-term use whilst a home is being adapted or an individual is adapting to using equipment. The step-down flats offer a homely environment and incorporate;

- Fully functioning hoist systems,
- Height adjustable kitchens,
- Automatic video door entry systems,
- A fully accessible wet room,
- Specialist beds and chairs,
- A specialist toilet,
- A Community Alarm system,
- Automated window openers,
- Mobile care support.

It is anticipated that significant savings from the Health & Social Care budget can be achieved through the use of the step-down flats releasing a hospital bed in a timely way with a high turnover of referrals.

#### **Smart House:**

A state of the art 'Smart House' has been developed. The smart house provides a unique training facility which demonstrates a range of rehabilitation and re-ablement equipment as well as aides that promote and sustain independent living.

The new facility is located in the Joint Equipment Service warehouse in Llanishen which offers a secure and managed location.

The facility has been designed to resemble a 2 storey house and includes a range of equipment including; height adjustable kitchen units, through floor lifts, video door entry system, a range of shower/bath rooms, & ceiling track hoist system.

Everyday living aides are also on show. The facility is managed by Cardiff Council and is open to partners and citizens, via a

booking system, to see adaptations and everyday living aides in a domestic setting.

Health & Social Care staff can also be trained at the facility and citizens can try out various equipment such as hoists and lifts, and see first hand what adaptations will look like in their home.

**Welfare Reform:**

The impact of Welfare Reform continues to be successfully mitigated through the proactive work that the directorate has put in place over the past 12 months, this includes:

- Close working with private landlords,
- Effective use of discretionary housing payments,
- Timely communication with tenants,
- A streamlined process and priority waiting list for those wanting to downsize as a result of the social housing size restrictions,
- Welfare Reform Group is working well in coordinating multi-agency activity and developing appropriate interventions,

- Effective support is in place in the Hubs, with the central Advice Hub providing comprehensive advice services for those affected by Welfare Reform.

The success of this approach is illustrated in a range of performance measures, including

the numbers of tenants that are in rent arrears, where we are currently performing above the average of our local authority partners and registered social landlords in Wales. The approach from Cardiff was strongly commended in the Auditor General's

[‘Managing the Impact of Welfare Reform Changes On Social Tenants Report’](#) in January 2015, which stated that

- “Good examples include the City of Cardiff Council, which has also included a number of external representatives on their task, and finish group to ensure that they are able to feed into the action plans devised by the Council.”

- “While all councils recognise the need to rely

more on partnership agencies providing services, the extent of this approach across Wales is mixed. Some strong good-practice examples of

effective joint working we identified include the City of Cardiff Council's advice hub”

- “Effective and clear leadership on welfare reform also varies from council to council. Often it is not clear who the ‘lead’ councillor is, and while the plans tend to be officer rather than councillor led, there is often more than one ‘lead’ officer. The best example of clear accountability was in the City of Cardiff Council, where the Chair and Cabinet member for Health, Housing and Wellbeing headed Cardiff’s approach to welfare reform”

**8 Years No B&B:**

Against a backdrop of Welfare Reform changes and a difficult economic climate it is especially pleasing that the directorate recently celebrated 8 years of not placing residents in Bed & Breakfast Accommodation. This is a major achievement as we are the only Authority in Wales to achieve this status. This has been achieved through dedicated partnership working with Registered Social Landlords and service providers, but also through successful management of case work.

## Neighbourhood Regeneration:

During 2014/15 we were successful in an application to Welsh Government's Vibrant & Viable Places programme securing £1M grant funding to support regeneration projects in Grangetown. This year has also seen the completion of Phase 1 of the Trowbridge Mawr estate regeneration programme.

We have implemented Neighbourhood Renewal Schemes at:

- Clarendon Road,
- Pethybridge Road,
- Bedford Street,
- Lydstep Park,
- Ann Street,
- Glenwood (Picture above),
- Parc Coed Y Nant.

Delivery of Phase 1 of Beechley Drive shops redevelopment scheme (picture above) was also achieved, along with the installation of 80 new gates under the alley-gating programme for priority lanes. We also completed the final phase of street improvements in North Grangetown Renewal Area.

## Community Benefits

All external contractors working for the council are required to put benefits back into the community through a mixture of employment, training and community support. This is measured annually by the Welsh Government.

Over the past year the Council's main contractors have sponsored or made donations, through the Community Benefits scheme, to a variety of projects in Cardiff including:

- After adoption charity
- Children in need
- Big sleep out
- Cardiff food bank

The contractors have also provided over £43,000 worth of in kind contributions (labour, goods and services) including:

- Mentoring
- Provision of kitchen at The Women's Centre
- Painting community facilities

Over the past year the scheme provided apprenticeships for 18 people, with a total of 468 apprenticeship weeks, 10 NVQs were completed through the scheme and 13 work experience/internship weeks took place.

Additional benefits provided included the below contributions through the past year:

- £116,000 to third sector enterprises based in Wales
- £14 million to SME (Small and Medium Enterprises) based in Wales

Cashable benefits provided through the scheme include:

- £19 million direct investment to Welsh based contractors
- £15 million of revenue to businesses based in Wales
- £94,000 in landfill fees saved
- £22,000 in cash donations

# Working with people and partners to design, deliver and improve services

## Hubs:

The **Hub Programme** is an example of delivering significant savings while at the same time improving face-to-face services available to the residents of Cardiff. It is viewed as an example of best practice and has been commended by Welsh Government with the Deputy Minister stating that he thought Cardiff's approach was the "future for libraries in Wales".

In June 2014, the **Ely/Caerau Hub** opened bringing a range of Council and partner services all under one roof, including housing and welfare advice, into work and digital inclusion training, library and information services, with multi-skilled staff and extended opening hours. Partner organisations such as CAB, the Credit Union and the ACE Communities First team complement the delivery of Council services, while Hafal operate a community café. Since its opening, the hub has been hugely popular with over 110,000 visitors and 6,000 customers receiving advice regarding Benefit matters. Library services are also popular at the Hub with 900 new library users, over 32,000 book issues and over 44,000 internet bookings so far in 2014/15.

## Cardiff.Gov.UK:

The development of Hubs are a key way for interacting with customers who either don't have access to the internet or require more intensive support. However, if we are to achieve the savings that the authority needs to make we need to where possible interact with customers through the most efficient channel.

The web

project was led by the directorate and during 2014/15 the council launched

the new corporate website, built within SharePoint. This simplified the website, only putting on critical information that customers need to access quickly. The change was hugely successful and achieved a **4 star SOCITM** review in March 2015, a progression from the 1 star status which had been in place since 2013. Cardiff is the **ONLY** Welsh authority to have achieved 4 stars and be among the top 20 for the best developed local government sites in the UK.

## Development of Alarm Receiving Centre:

A review of the services available to customers living in high rise accommodation blocks owned by City of Cardiff Council evidenced the need to upgrade the services for residents to include a new and enhanced remote **Concierge Service** and also the CCTV provision at each site. Work is well underway to deliver a state of the art **Alarm Receiving Centre (ARC)** which will provide a range of services to residents in phase one and a wider customer base in phase 2 of the project.

**Libraries:**

The provision of libraries are a key component of the hubs programme, however it is identified that the reach of the libraries service could be enhanced through the creation of a Qualified **Neighbourhood Development Librarian**. The funding is made available from the savings associated with the Hub programme and during 2014/15 two posts were created. These have commenced improving the services on offer at the Hubs including running Storytime and Rhymetime sessions, additionally a key aspect of this role is providing outreach library services in the community.

This outreach approach enabled the **Summer Reading Challenge** to achieve an 18% increase in children participating. Library services attended key events such as the Cardiff Bay Beach as well as partnerships with local primary schools.

Libraries in Wales are evaluated against the **Welsh Public Library Standards** and this year was the most successful performance to date, achieving 7 out of the 9 requirements and partially achieving the remaining 2, this was the 3rd and final year of the 4th framework.

Over the past year Central library and stock support has been reviewed and restructured to provide a more efficient service.

**Central Library** has also successfully delivered the European programme and secured ongoing funding to continue the provision of the European direct information centre within the central library.

**CMS Mobile Working & Scheduling Implementation:**

In May 2014 CMS and C2C implemented a system where customers can report repairs and obtain an appointment at the first point of contact; the customer is also given text confirmation on booking and a reminder 24 hours prior to the visit taking place. At the same time the Scheduling technology was introduced, mobile working was also introduced for the workforce who now receive

all jobs via a smart phone and all completion information is updated via interface into the back office systems. Since implementation over 70,000 appointments have been made and over 90% of those appointments kept.

During this period a strategic decision was made to increase responsive works carried out internally. To achieve this 20 additional tradespeople have been recruited along with 6 Apprentices. This together with the implementation of mobile working has meant that the amount of jobs completed by the in house workforce has almost doubled since April 2014.

**Implementing Allocations Policy:**

The new allocations policy was introduced on the 19th of January 2015, prior to the policy being implemented training and briefing sessions were given to over 300 Officers. These involved officers from Cardiff Council, as well as officers from all the Housing Associations, Women’s Aid, BAWSO and many support/advice agencies. The new policy is aimed to assist and house the people with the greatest housing need, rather than those who have been on the waiting list for a long time with no housing need. This ensures that the needs of the applicant and their families are put first. Tailored housing advice is now offered in the Community Hubs across the city.

**Solar Panels:**

During 2014/15 solar PV panels were installed in 100 council properties on the Trowbridge Mawr estate in Trowbridge. This scheme is being run as an initial trial into wide scale solar panel installation to determine how these systems are used by residents.

The Solar PV systems use the sun’s energy to create electricity which can be used by the tenant through the use of everyday electrical items, benefitting the tenant by reducing electricity bills. The electricity produced by the panels can not be stored and any unused electricity is exported to the Grid. The council receives a payment for every unit of electricity exported.

In addition to improving the energy efficiency rating of each property, this pilot will help the service to better understand potential opportunity for installations to other properties at a later date

The PV systems installed are expected to require very little maintenance as the glass panels are self-cleaning. The panels are also expected to continue to provide a useful source of clean energy for the next 25+ years, it is anticipated that this will create worthwhile financial benefit for our tenants as well as helping to offset carbon dioxide emissions through creation of green energy in Cardiff.

**Investment in our housing stock:**

Investments have been made to the housing stock to make the buildings more energy efficient and increase their SAP rating. Examples of the works carried out to improve efficiency of Council houses are shown in the table below, as can be seen performance exceeded the challenging targets set:

	Target	Actual 2014/15
Inefficient boilers replaced with ‘A’ rated systems	900	1,200
Over cladding homes to improve energy efficiency	60	122
Installation of solar panels	100	100
Roof replacements	40	58

## Aspirations / Challenges for 2015/16

Over the next 12 months reducing budgets mean that we will have to be absolutely clear about the areas that are most important to, and make the biggest difference for, the people of Cardiff. These aspirations are aligned to the Authority's key priorities:

### Our priorities:

- **Education and skills for people of all ages** [page 14](#)
- **Supporting vulnerable people** [page 15](#)
- **Sustainable economic development** [page 16](#)
- **Working with people and partners to design, deliver and improve services** [page 17](#)

## Education and skills for people of all ages

### Adult Community Learning:

Income generation opportunities will continue to be developed over the coming year through the Learning for Life Programme, maintaining a cost neutral programme. Alongside this we will

be maintaining the grant funded Learning for work programme, which meets the needs of learners who are living in areas of deprivation in Cardiff, working to keep learners engaged to complete their course, and increasing their opportunities of further education and employment.

### Libraries:

In line with the Hub Strategy, Neighbourhood Development Librarians will continue to be recruited, working out of existing Libraries and Hubs to carry out work in the community. Neighbourhood Development Librarians will be recruited for each Neighbourhood Partnership area in line with the implementation of the Libraries Strategy. The Neighbourhood

Development Librarians will also support the development of the Mobile Library provision for schools, which aims to capitalise on existing funding streams and provide a modern and flexible service to schools across the City. This is part of plans to develop commercial opportunities available to the library service, with the aim of financially supporting the provision, where possible. Another improvement being made to the library service is the upgrade of self service kiosks within Libraries and Hubs. This, along with the implementation of electronic data interchange processes and delivery infrastructure, aims to provide a more efficient, streamlined service while maintaining performance against the Welsh Public Library standards.

## **24/7 Services & the Alarm Receiving Centre (ARC) Project:**

The Cardiff 24/7 Services team are currently undertaking a restructure which will see significant growth in the staffing levels and services available. Growth includes the development of a remote CCTV/ Concierge service and a patrolling locality warden service with the ARC project due to be completed early in the summer of 2015. The centre will provide a Category 1 State of the Art centre, which will facilitate a range of services both for internal Council customers and the wider community of Cardiff and beyond.

### **Tenant Participation:**

Over the coming year, the Tenant Participation team will continue to encourage tenants and leaseholders to get involved and engage with the council via different methods such as the Cardiff tenants website and the Tenants Voice meetings as well as special interest groups and Estate Event days. The Team will continue to work to help bring households out of poverty, with a focus this year on providing funding available for necessary courses to develop work skills.

## **Independent Living Service:**

Following the pilot of the new Independent Living Service in the previous year, this year will see a review of the Service's success and the identification of any issues going forward, working to increase the number of people able to remain in their own homes.

### **Preparing for Universal Credit**

2015/16 will see the start of the implementation of Universal Credit in Cardiff. The service will build on the success of the Advice and Community Hubs in providing banking advice and digital inclusion activities. Services for Council tenants will be developed to provide dedicated support to those making the transition to Universal Credit.

### **Housing Partnership Project (HPP):**

The 2015/16 financial year will see the completion of the procurement exercise to appoint a partner developer for the HPP and the commencement of the building programme. This is a challenging process but by September 2015 a preferred partner developer should be identified. Development of the first site within Phase 1 should commence early 2016. Targets have been included within the business plan for this scheme.

## **Local Housing Market Assessment:**

A Local Housing Market Assessment will be carried out on behalf of the council, to enable us to predict future housing need for the city. The report will enable us to develop a housing needs policy for the next 5 years and feed into a review of older person housing within Cardiff as well as a review of the allocations policy for older persons.

### **A New Housing Strategy:**

A new Housing Strategy will be developed based on the information gathered in the Local Housing Market Assessment, the learning from the new Allocations Policy and a review of homelessness. The new strategy will set the way forward for housing in Cardiff and how this will support vulnerable people into the future.

# Sustainable economic development

## Empty Council Properties (Voids):

A key challenge for the directorate over the next 12 months is to continue to improve the time taken to return vacant properties back into use with sustainable tenancies, this will include:

- Reducing the number of properties with contractors for repairs for long periods.
- A review of the additional works carried out to properties during void works.

- Carefully monitoring the number of properties becoming vacant, this can fluctuate significantly during year.
- The continued impact of welfare reform
- The introduction of new procedures to let properties without works where possible.

## Neighbourhood Regeneration:

During 2015/16 we will begin Phase 2 of the Trowbridge Mawr estate regeneration programme, as well as progressing the existing estate regeneration schemes at Skaithmuir

Road, Hodges Square, Loudoun House and Channel View. We will also progress the Clare Road / Penarth Road regeneration programme through

shop-front and environmental enhancement works. This year we will implement Neighbourhood Renewal Schemes at Wentloog Road, Birchgrove, Trenchard Drive and Llanishen Village. We will also see the establishment of a delivery route for the Maelfa redevelopment scheme, following redefinition of project scope during 2014/15.

A 2 year alley-gating programme will be agreed and we will progress prioritised schemes through the year. The development of an estate regeneration strategy will also take place, to determine future priorities for comprehensive estate improvement schemes.

# Working with people and partners to design, deliver and improve services

## Hubs:

Following the success of the Hub strategy in 2014/15, we will continue the roll out across the City during the coming year. By Quarter 2 the Central Library Hub will be in place, with the Advice Hub services currently based in Marland House moving into the

## Central Library

building. The new Hub will also include a digital floor, which will improve on the facilities available for the existing digital inclusion sessions in the

advice hub and provide computer access to those using the library facilities as part of the Welsh Public Library Standards. Later in the year, Rumney Partnership Hub will be launched, following consultation on changes to community provision in Cardiff East. The Hub, located on Llanstephan Road, will provide accommodation for the ECLP Communities First team, as well as library, training, meeting

and interview rooms. This year will see the completion of Grangetown Hub and the St Mellons Hub phase 1 extension, as well as progress works on the future Hubs in Llandaff North, Fairwater, Llanedeyrn and Llanishen. The Hub strategy's link with the Libraries service supports us in achieving the Welsh

## Government

directive relating to community run and supported provisions.

## Cardiff.gov.uk

Following the successful

launch of the new website during the past year, we will continue to develop the council's web presence, with particular focus on increasing transactional activity to allow customers to self-serve when making payments to council departments. To support these developments, a cohesive reporting structure will be formed, to monitor customer

access preferences and inform our channel strategy and channel shift activities.

The delivery of a commercial web vehicle for council service is also planned for this year, as well as the creation of a platform to develop client websites on a cost recovery model.

## C2C:

This year will see the implementation of the SAP Customer Relationship Management System, developed to improve the service provided to the public by C2C on behalf of the council as a whole, while reducing costs. The existing C2C application will be replaced by the SAP Customer Relationship Management System on the SAP HANA cloud platform.

In addition to this we will also be expanding C2C in order to maintain a high level of service delivery, including managing the customer contact for the Waste Restrictions Programme, while carrying out service development, alongside taking on responsibility for customer contact in further areas of the council, with plans in place to take over first point of contact Parks enquiries.

## Budget:

Budgets	Budget 2015/16		
	Expenditure £'000	Income £,000	Net £'000
Director & Business Support	895	- 374	521
Communities & Customer Services	24,566	-18,411	6,155
Community Maintenance Services	7,950	-7,950	0
Housing & Communities*	218,579	-177,970	40,609
Housing Revenue Account	60,098	-68,098	0
<b>Total</b>	<b>320,088</b>	<b>-272,803</b>	<b>47,285</b>
<b>Target 2015/16 Savings</b>			<b>£2,437</b>

(\*This include Reablement budget of Expenditure - £8,208, Income - £1,581 and net budget of £6,637)

Responding to the budget and demand pressures that the Council and its public sector partners face will mean thinking differently about how many services are designed, delivered and commissioned in the future. This is particular true for those services which, though non-statutory, are highly valued by the residents of Cardiff. The directorate has identified £2,437,000 in savings for 2015/16 all of which will have significant impact however some will require regular monitoring and an action plan to deliver.

Over the next 12 months, during the delivery of this plan, it is acknowledged that the directorate will play a key role in delivering savings.

Employee Estimates 2015-16	
	£
<b>Director and Business Support</b>	793,250
<b>Communities and Customer Services</b>	7,828,050
<b>Community Maintenance Services</b>	4,330,770
<b>Housing and Communities</b>	14,713,780
<b>Housing Revenue Account</b>	13,174,000
	<b>40,839,850</b>

## HR Stats

	%	No.
FTE Posts	63%	968
Number of Staff	100%	1,542
Temp (number of staff)	13%	199
Perm (number of staff)	87%	1,343

The directorate recognises that its workforce is its most valuable asset. Staff are responsible for delivering services across the city and its communities, every day and in delivering this plan, the contribution of staff will be crucial.

**Workforce Planning** - Within the directorate Workforce Planning takes place in a range of areas, this includes.

**Short-Term Planning** – As part of the creation of this delivery plan, workshops and management discussions have taken place to identify whether we have enough resources to deliver what we plan to provide on time. As part of this it was decided to create work plans for support staff, detailing times that staff may need to be pulled onto different projects and certain peak times that could create a restriction on leave.

**Longer-Term Planning** – This looks at ensuring the directorate has a well skilled workforce for the future, and includes programmes such as apprenticeship schemes within Housing Repairs and the 8 week workplace placements for those not in Education, Employment or Training.

**Languages** – For some of our customers they choose to or have no option but to deal with us in a language other than English it is important that we have the correct language skills. This includes where possible, frontline staff with strong skills in Welsh and community languages.

Age Profile	16-19	20-29	30-39	40-49	50-59	60+
% of Staff	0.3%	14.0%	27.0%	23.0%	26.0%	9.7%
Number of Staff	4.6	215.8	416.3	354.7	400.9	149.5

Gender	%	No.
Male	45	694
Female	55	848

Disability	% Yes	% Not Disclosed
	3%	97 %

### Stress Surveys

Due to the changes that the directorate has experienced in recent years and the changes that will take place over the next 12 months, the expectations of staff have never been greater. Although it is also expected that the authorities workforce needs to be more resilient working in an environment of increased workloads, the directorate acknowledges that work-related stress can lead to increased sickness absence and higher labour turnover. The Directorate recognises that working conditions affect worker well-being and employees working in high risk sections complete a stress survey tool to determine current working conditions and enable us to make improvements. This process has previously been carried out for C2C, but over the past 12 months the survey has been carried out on Libraries, Community Alarm and the Scheduling Teams within CMS. Areas throughout the Directorate also have regular Focus Groups where issues can be raised and discussed, and changes implemented to improve the working environment for all.

## Action Plan and Performance Measures - Part 1 – Corporate Plan and Cardiff Partnership Priorities

Outcome		People in Cardiff Achieve their Full Potential, Cardiff is a Fair, Just and Inclusive Society, Cardiff is a Great Place to Live Work and Play			
Improvement Objective		Adult learners achieve their potential		Priority	Education and Skills for People of All Ages
Link to Medium Term Financial Strategy		Welsh Government Funding		Partners	Welsh Government, CVCLP, Communities First
Ref	Directorate/Service Commitments	Officer Responsible	Milestones		
CHCSCP1	Increase the number of accredited courses delivered to priority learners by March 2016	John Agnew	Q1 - Review the outcome of term 2 (January-April) putting in place actions for term 3	The review following each term, the launch of the new ACL programme, an increase in priority learners completing accredited courses and going forward into higher education or employment.	
			Q2 - Review the outcome of term 3 (April-July) putting in place actions for term 1		
			Q3 - Launch of the new ACL programme		
			Q4 - Review outcome of term 1 (September-December), putting in place actions for term 2		
CHCSCP2	Increase the number of courses for priority learners held in Communities First areas by March 2016	John Agnew	Q1 - Review the outcome of term 2 (January-April) putting in place actions for term 3	The review following each term, the launch of the new ACL programme, an increase in priority learners in Communities First Areas completing accredited courses and going forward into higher education or employment.	
			Q2 - Review the outcome of term 3 (April-July) putting in place actions for term 1		
			Q3 - Launch of the new ACL programme		
			Q4 - Review outcome of term 1 (September-December), putting in place actions for term 2		
CHCSCP3	Increase enrolments for priority learners on a year by year basis by March 2016	John Agnew	Q1 - Review the outcome of term 2 (January-April) putting in place actions for term 3	The review following each term, the launch of the new ACL programme, an increase in priority learners enrolling in accredited courses and going forward into higher education or employment.	
			Q2 - Review the outcome of term 3 (April-July) putting in place actions for term 1		
			Q3 - Launch of the new ACL programme		
			Q4 - Review outcome of term 1 (September-December), putting in place actions for term 2		

Outcome		People in Cardiff are safe and feel safe, People in Cardiff Achieve their Full Potential, Cardiff is a Fair, Just and Inclusive Society, Cardiff is a Great Place to Live Work and Play

Directorate/Service Priorities (core business)

**Part 3 - Planning for the future**

What actions will be taken during 2015-16 to mitigate the potential impacts of or the 2015-16 and 2016-17 budget rounds?

Ref	Potential Impacts	Officer Responsible	Mitigating Actions	Performance Measures / Evidence Ref
CHCSPF1	Increasing costs and increased demands that the costs of providing Health and Social Care in Cardiff grows significantly and consumes a much higher percentage of the authorities budget.	Sarah McGill	<p>Q1 - Review the success to date of the Housing Resettlement Officers based at the Heath and Whitchurch Hospitals.</p> <p>Q2 - Review the gateway arrangements for all supported accommodation and carry out need assessment and pathways for support.</p> <p>Q3 - Develop proposals for commissioning Accommodation and Support Services</p> <p>Q4 – Implement changes to the Independent Living Gateway</p>	The review of the success of Housing Resettlement Officers and review of gateway arrangements. The implementation of changes aimed at managing the increasing demands against the available budget.
CHCSPF 2	The delivery of frontline service provision is ceased to meet the required savings as a result of maintaining and running multiply buildings in areas of the city	Sarah McGill	<p>Q1 - Consult and plan the opening of the Rumney Partnership Hub in conjunction with all partners and agree a robust Service Level Agreement. Agree plans for Llandaff North and Fairwater Hubs following community consultation.</p> <p>Q2 - Complete the works and building changes required for Rumney Partnership Hub. Commence work on the STAR Community Hub, Splott.</p> <p>Q3 - Launch the new Rumney Partnership Hub, set up robust monitoring systems for Council and all partners to enable effective reporting and identify gaps in community provision. Opening of Grangetown Hub and City Centre Hubs</p> <p>Q4 - Completion of St Mellons Hub phase 1 extension and start of work on Fairwater and Llandaff North Hubs. Implement and evaluate any changes to the service required in Rumney Partnership Hub in light of feedback from the customer surveys.</p>	The implementation of the Hub strategy to maintain service provision.

Ref	Potential Impacts	Officer Responsible	Mitigating Actions	Performance Measures / Evidence Ref
CHCSPF3	Without the implementation of the Libraries Strategy, the only option for the service to achieve the required cost savings is through an immediate closure of its branches or significant reduction of the book fund.	Sarah McGill	<p>Q1 - Commence roll out of EDI throughout the service – introducing direct delivery of the majority of Library stock to Branches and Hubs. Deliver report and key recommendations for the management of stock within the service to inform cabinet report for consideration in June. Issue tender for procurement of upgraded RFID Kiosks. Explore Local Study service solutions with Glamorgan Archives. Carry out user testing of Database Warehouse and go live with capturing information for CIPFA reports, BIMS and WPLS</p> <p>Q2 - Develop potential for literacy pilot in conjunction with Schools delivering a synergy between the Neighbourhood Development Librarians and Mobile services. ## Introduction

### Corporate Business Plan

The City of Cardiff Council can no longer do all the things it has done in the past. With reducing funding and increasing demand, the Council must be clear about its priorities. Three tightly focused priorities have been maintained and a fourth priority introduced which recognises the need to change the way services are delivered.

### Our priorities:

- Education and skills for people of all ages;
- Supporting people in vulnerable situations
- Sustainable economic development as the engine for growth and jobs;
- Working with people and partners to design, deliver and improve services.

For each priority, a limited number of improvement objectives have been established; and for each improvement objective, high level commitments and performance indicators have also been identified.

### Measuring Progress

To ensure there is a clear accountability for delivering each objective a Lead Member, or in some instances Members, are identified. The delivery of the Corporate Plan will be monitored through the Council's strengthened Performance Management Framework, including:

- Performance Challenge sessions of the Council's Senior Management Team;
- Joint Cabinet and Senior Management Team Performance Challenge meetings;
- A Challenge Forum involving Members; Senior Officers and external peer support to challenge the Council's progress against its improvement journey and delivery of the Corporate Plan.

Aligned monitoring and reporting cycles for finance and service performance information will further support this and afford far greater visibility of the Council's overall performance position – against which progress will be monitored on an ongoing basis

## Key Terms

### City Wide Outcomes

- Seven high level outcomes which have been agreed with partners, and are contained in Cardiff's Single Integrated Plan – "What Matters".
- Achieving these outcomes require action across a range of organisations.

### Council Priorities

- The Council's priorities recognise the most important areas that need to be addressed in the short to medium term.

### Improvement Objectives

- For each priority 2-3 Improvement Objectives have been identified. These reflect specific areas where the Council wishes to see improvement.
- Improvement Objectives are expressed clearly and simply, to explain the future condition (or specific outcome) we want to achieve.

### Commitments

- Commitments are specific initiatives that the Council will undertake to deliver the Improvement Objectives and contribute to City Wide Outcomes

### Measuring Progress

- Progress will be measured by a basket of indicators.
- These will include nationally set indicators (known as NSIs and PAMs), service improvement data which is collected by local authorities across Wales, and local indicators chosen by the Council.

# The Policy Framework

## Core Business – Health & Social Care

The Health & Social Care Directorate advises, informs and supports citizens through a range of interventions which include community care services for adults (over 18) who need support, care or safeguarding. Our teams are aligned to the following service user groups

### **Older People with Physical or Mental Health Needs**

Provide social work intervention for service users, where there are complex ongoing needs and multidisciplinary support to older people with mental health needs, including dementia. Teams consist of social workers, nurses and psychiatrists

### **People aged 18 -64 with Physical and/or Sensory Impairments**

Provide social work intervention for service users, where there are complex ongoing needs. Also supports people with a sensory loss affecting their sight, hearing, or both sight and hearing.

### **People with a Learning Disability**

Is multi-disciplinary service, with social work, nursing and therapy staff supporting adults with a learning disability from the age of 18. The service also supports the transition process of young people moving into adult social care from Children's Services

### **People with Mental Health Issues**

Community Mental Health services offer multi-disciplinary assessment, care and support for adults with mental health problems. In addition to social care, the teams offer psychiatric interventions, counselling and therapies, and specialist forensic support

### **Substance Misusers**

Service offers interventions including assessment, support & counselling, for people with drug and alcohol problems and their families

More information to be added

## Our priorities:

- **Education and skills for people of all ages page x**
- **Supporting vulnerable people page x**
- **Sustainable economic development page x**
- **Working with people and partners to design, deliver and improve services page x**

## Education and Skills for people of all ages

---

# Supporting vulnerable people

## Intermediate Care Fund:

Intermediate Care Fund was set up by Welsh Government to drive forward collaborative working between Social Services, health and housing and with Third and Independent Sector partners. The Fund will support people to maintain their independence and remain in their own home. It will be used to avoid unnecessary hospital admissions, inappropriate admissions to residential care, as well as preventing delayed discharges from hospital. As part of the project during 2014/15 the following was achieved:

explored delayed transfers of care within local Hospitals and saw the recruitment of housing resettlement officers who are based within the hospitals. This project is seeing real results in helping with people being discharged safely to their homes in a timely manner.

## Step Down Accommodation:

6 flats have been remodelled as 'step-down' accommodation. The flats are located in Nelson House, Minton Court and Lydstep Flats.

This project is aimed at alleviating problems associated with delayed discharge and transfers of care within hospitals. The Step-down units are fully adapted to cater for a wider range of needs therefore they can offer individuals an alternative to remaining in a hospital bed. These units are intended for short-term use whilst a home is being adapted or an individual is adapting to using equipment. The step-down flats offer a homely environment and incorporate;

- Fully functioning hoist systems,
- Height adjustable kitchens,
- Automatic video door entry systems,
- A fully accessible wet room,
- Specialist beds and chairs,

- A specialist toilet,
- A Community Alarm system,
- Automated window openers,
- Mobile care support.

It is anticipated that significant savings from the Health & Social Care budget can be achieved through the use of the step-down flats releasing a hospital bed in a timely way with a high turnover of referrals.

## Smart House:

A state of the art 'Smart House' has been developed. The smart house provides a unique training facility which demonstrates a range of rehabilitation and re-ablement equipment as well as aides that promote and sustain independent living.

The new facility is located in the Joint Equipment Service warehouse in Llanishen which offers a secure and managed location.

The facility has been designed to resemble a 2 storey house and includes a range of equipment including; height adjustable kitchen units, through floor lifts, video door entry system, a range of shower/bath rooms, & ceiling track hoist system. Everyday living aides are also on show. The facility is managed by Cardiff Council and is open to partners and citizens, via a booking system, to see adaptations and everyday living aides in a domestic setting. Health & Social Care staff can also be trained at the facility and citizens can

try out various equipment such as hoists and lifts, and see first hand what adaptations will look like in their home.

#### **Integrated Assessment Implementation:**

Successful delivery of Integrated Assessment implementation on 30th April 2014. This has resulted in a simplified and streamlined assessment process for older people, increasing the time for those in need to start accessing services.

#### **Carer Support Officers:**

The deployment of 2 Carer Support Officers in hospitals funded through the Carers' Measure. This has increased the amount of support that carers have access to and helps address any barriers that they have in accessing services.

#### **Dementia Reablement Training programme:**

We have developed a Dementia Reablement Training Programme to ensure that staff working in community settings are fully equipped with the knowledge and skills necessary to support people with dementia.

#### **Autistic Spectrum Disorder (ASD)**

A joint Autistic Spectrum Disorder (ASD) Steering group has developed a robust action

plan to deliver the ASD Strategy in collaboration between Cardiff Council, Vale of Glamorgan, Cardiff and Vale Health Board, third sector, parents and service users.

#### **Day Opportunities Strategy:**

The Day Opportunities Strategy for Learning Disability 2014-17 has been delivered and we have increased a number of meaningful daytime opportunities based on the 'progression' model.

#### **Community Alcohol and Drug Team (CADT):**

The Community Alcohol and Drug Team (CADT) established a service for 5 homeless individuals in February 2015. This was achieved through with a Registered Local Landlord in identifying suitable accommodation. This suitable accommodation has provided a main building block in changing the outcomes for these individuals.

#### **Proactis:**

Implementing 'Proactis' (Electronic Tendering System) in August 2014 to improve the care and nursing home market position for older people. After five months, it is anticipated that £383,500 per year of annualised savings

through the new process for sourcing and awarding of contracts for Residential and Nursing care, supported by the process automation made possible by PROACTIS. In the first five months, the solution had issued over 300 opportunities to Residential and Nursing providers registered on the DAPL. Providers engaged fully and responded with prices that represented value. This demonstrated their confidence in a fair and transparent system that also worked for them in providing certainty that beds and services would be taken up.

#### **Matrix APL System:**

Introducing the 'Matrix' APL system to improve the commissioning of Domiciliary Care, for all service user groups, which commenced in July 2014. The key aims of this project were

- To deliver more personalised care services and a broader choice of services available for each citizen
- To achieve better control over provider performance to improve quality and reduce risk to individuals
- To increase the number of providers in key markets there by increasing capacity
- To introduce competition to the market to generate better quality care outcomes
- To ensure value for money is realised on each care package whilst protecting the quality of service delivery
- To ensure all suppliers meet the contract and performance standards set by the Council

# Working with people and partners to design, deliver and improve services

## Children's Services:

We have begun work to implement a more effective operational process for transition from Children's Services to Health & Social Care for individuals with learning disabilities.

## Age Connect:

In October 2014 a Third Sector partnership contract was awarded to "Age Connects" for a 12 month pilot project, which is mapping available third sector resources for older people in communities and will inform future commissioning plans. This project has had great success in identifying and recruiting volunteers, as at 19<sup>th</sup> May 2015 123 volunteers and a further 34 are going through the recruitment process. These volunteers are then matched with individuals that in the community help address social isolation. This could include introducing them to social or luncheon clubs or by carrying out weekly visits/phone calls. Within this project support has been provided to small community

groups increase the service that they provide, this included helping one organisation apply for funding to purchase 2 new vans.

## Community Resource Teams (CRT's):

The co-location of 2 Community Resource Teams (CRT's) in Cardiff with the C&V UHB was achieved at the end of March 2014. This has increased partnership working between the organisation and enabling decisions to be made more efficiently.

## Mental Health Deaf Services:

Health & Social Care worked closely with the C&V UHB to develop Mental Health deaf services during 2014/15.

## Partnership Working:

We have worked in partnership with the C&V UHB and the Vale of Glamorgan Council to improve the governance through the Dols Partnership Board and to analyse demand,

prioritising action to deliver Deprivation of Liberty Safeguards Assessments following the Supreme Court Judgement.

## Fund Projects:

Implementation and delivery of the Regional Collaboration Fund and Intermediate Care Fund Projects.

## Customer Satisfaction Surveys:

We have extended the Assessment and Review customer satisfaction survey to include the Learning Disability Teams and the Mental Health Services for Older People Teams. This year we have started to use the information from the surveys to inform the Provider Quality Scores for Domiciliary Care. These customer satisfaction surveys will be key in influencing the shape of the service in the future.

# Aspirations / Challenges for 2015/16

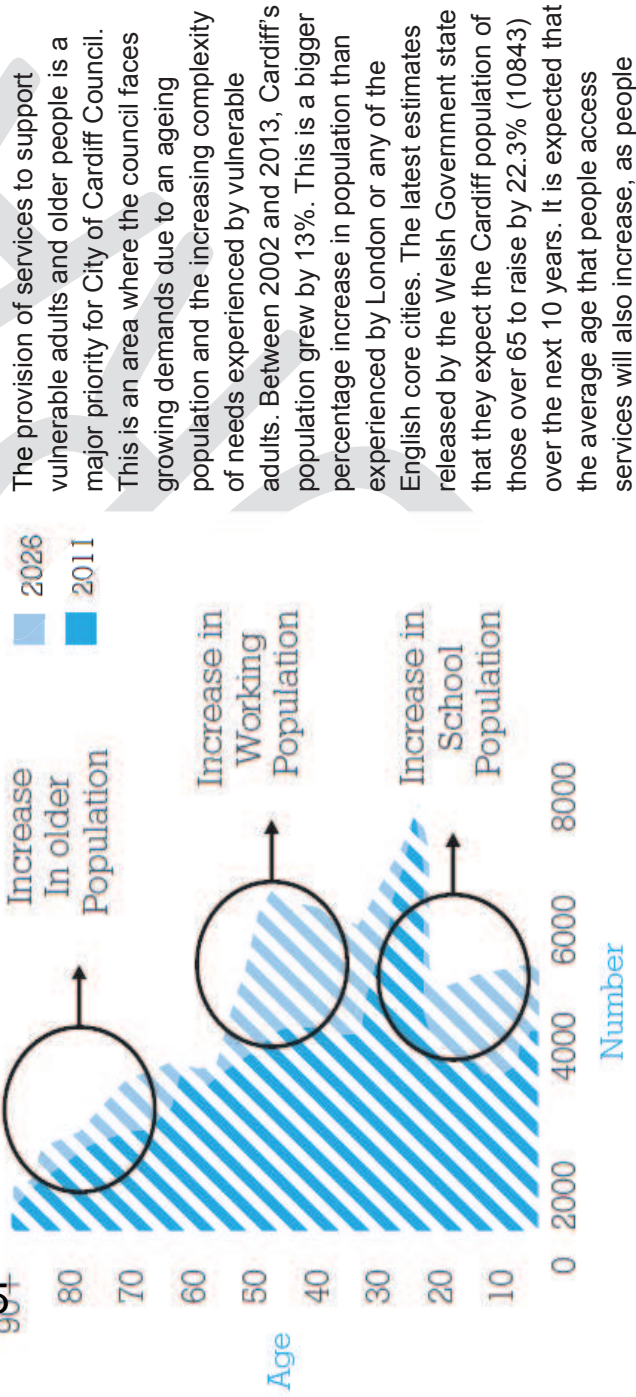

Over the next 12 months reducing budgets mean that we will have to be absolutely clear about the areas that are most important to, and make the biggest difference for, the people of Cardiff. These aspirations are aligned to the Authority's key priorities:

## Our priorities:

- **Education and skills for people of all ages** [page x](#)
- **Supporting vulnerable people** [page x](#)
- **Sustainable economic development** [page x](#)
- **Working with people and partners to design, deliver and improve services** [page x](#)

## Supporting Vulnerable People

### Rising Demographics

remain healthy and independent for longer. However when people then access adult social care their needs are greater. In Cardiff the average hours of care has increased by 30% over the past 6 years. Notably, a key statistic that will determine future demand lies in the number of people in Cardiff that are over 90, with projected figures showing an increase of 45% (1252) over the next 10 years. This demand demonstrates the difficulty that the service faces.

### Future Demand for Learning Difficulties

To improve the transition of individuals with Learning Difficulties from Children's Services to Health and Social Care future demand is now tracked. The service now knows for the next 3 years exactly the individuals that will require

adult support and their current package of care and its cost. This enables to service to be reading for this transitional demand and enables better budgetary control with future spend identified early.

**Aims of the Service**

H&SC will continue to help people to live independently, enabling vulnerable people to develop the skills they need to live on their own, supporting them with reasonable adaptations to their homes and providing services in a way that meets their needs and outcomes. Our services are key to deliver the Council’s commitment to safeguarding adults from significant harm or exploitation.

**Single Point of Access (SPA)**

To manage the increasing demands placed on the service a whole system approach to change will be scoped in line with a New Target Operating Model. The aim of the new model is to focus on demand reduction

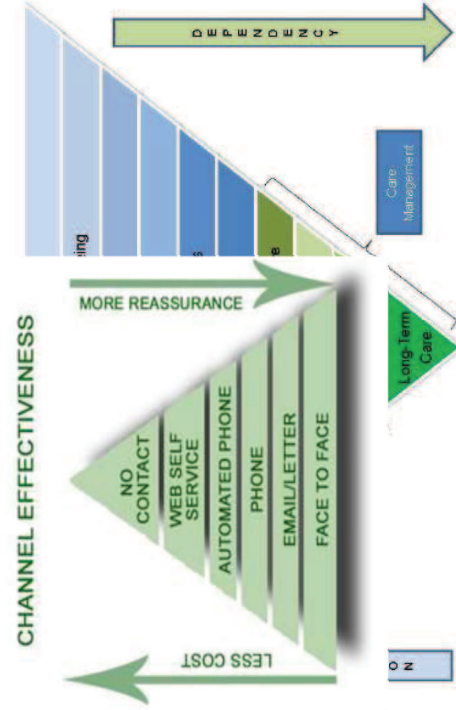

“Older people can than ever before, on the need for care group has significant

by implementing a single point of access ( SPA) for all council services for vulnerable adults. The single point of access will ensure that all contacts are either signposted or routed through the gateway / prevention service prior to accessing social care or accommodation services. The key is to provide demand resolution earlier and more cost effectively. A wider range of accommodation options will be delivered to meet identified social care needs and reduce costs including in residential care.

**Day Care**

A new approach to day care for older people will be developed, this will involve a full review of the service to ensure that the new model meets the needs of the current users and is future proofed for future generations.. There is an acknowledgement that future users may not want services delivered in the way that

MODEL SUPPORT SYSTEM FOR OLDER PEOPLE’S SERVICES

previous generations did and this review will involve full engagement

now look forward to many more years of healthy life after retirement though the health needs of an aging population put more demands and support. The shift in proportion and attitudes of the older age implications for public services. The challenges for communities and

with service users, carers, their families and representative groups to understand the need for more choice, flexibility and control. Understanding their needs and moving away from the traditional thinking on day care services and to start offering a more flexible and much more tailored choice of services for older people. To achieve this we will need to work collaboratively with third sector partners such as the Age Cymru or Age Connects to support the engagement of older people in activities of interest to them and which ensures access to universal and other services in the community.

This model provides a whole system, tiered approach that reflects service provision at all levels of dependency (green arrow). There is a preferred direction of travel (blue arrow) which will require robust gate-keeping to reduce demand for the most intensive and intrusive services. The model demonstrates how we want to shift the balance of care from traditional support services which emphasise ‘caring for adults’ to preventative approaches which emphasise ‘supporting and assessing adults’ in their own community

councils are to be inclusive, to help older people to stay healthy and active and to encourage their contribution to the community and ensure prudent healthcare. We are therefore planning now to shape our public services to meet this changing requirement.” Meaningful and Purposeful Lives - Framework for Older People 2014-2019 – Integrated Health & Social Care joint document.

**Promote Independence:**

Deliver better integrated housing support and social care with health services to improve outcomes for those who need support to live independently, including: Increasing the number of people who are able to remain at home, living independently and safely, with the minimal intervention to promote their dignity by 2017

**Increase Direct payments:**

Increase the uptake of direct payments as an alternative to direct provision of care for Cardiff residents. This empowers individuals to have more control on the care they receive to help them live more independently.

**Support Carers:**

Support carers by ensuring that all carers are offered a Carer Assessment and increasing the number of carer assessments undertaken by 2016

**Transitional Support:**

Improve the effectiveness of transitional support for disabled and vulnerable children approaching adulthood

**Expand Supported Accommodation:**

Expand the range of supported accommodation options for vulnerable young adults

# Working with people and partners to design, deliver and improve services

In order to achieve our aim we will:

## **Build Partnerships:**

Work with our health partners to reduce the total number of Cardiff residents who experience a delayed transfer of care from hospital.

Work in partnership with other stakeholders to protect vulnerable adults from harm

**Strategic Work Programme:** Continue the strategic work programme of the regional Safeguarding Adults' Board

## **Implementation of the Social Services and Wellbeing (Wales) Act 2014:**

The Act creates a new legal system for social services. The current model of social care provision in Wales is acknowledged to be no longer sustainable with services under pressure due to increased demand and

reduced budgets. The Act provides the legal framework for achieving the vision, but this can only be achieved in partnership between national and local government, the NHS, and with independent providers. Health & Social Care are engaged in the Welsh Government consultation exercises. Staff will continue to be updated as the measures for meeting the requirements of the Act are being developed.

**Independent Living Service:** Following the pilot of the new Independent Living Service in the previous year, this year will see a review of the Service's success and the identification of any issues going forward, working to increase the number of people able to remain in their own homes.

## **Local Housing Market Assessment:**

A Local Housing Market Assessment will be carried out on behalf of the council, to enable

us to predict future housing need for the city. The report will enable us to develop a housing needs policy for the next 5 years and feed into a review of older person housing within Cardiff as well as a review of the allocations policy for older person

S

## Budget:

Budgets*	Budget 2015/16		
	Expenditure £'000	Income £,000	Net £'000
Older People/MHSOP Services	40,845	(6,953)	33,892
Learning Disability Services	38,710	(4,535)	34,175
Mental Health Services	9,267	(420)	8,847
Physical Disability Services	7,802	(285)	7,517
Other Adult Services/Management/Support	7,699	(541)	7,158
<b>Total</b>	<b>104,323</b>	<b>(12,734)</b>	<b>91,589</b>
<b>Target 2015/16 Savings</b>			<b>£5,597,000</b>

(\*This does not include Reablement budget of Expenditure - £8,208, Income -£1,581 and net budget of £6,637)

Responding to the budget and demand pressures that the Council and its public sector partners face will mean thinking differently about how many services are designed, delivered and commissioned in the future. This is particular true for those services which, though non-statutory, are highly valued by the residents of Cardiff. The directorate has identified £2,437,000 in savings for 2015/16 all of which will have significant impact however some will require regular monitoring and an action plan to deliver.

**CITY & COUNTY OF CARDIFF COUNCIL**  
**DINAS A SIR CAERDYDD**

**COMMUNITY & ADULT SERVICES SCRUTINY COMMITTEE**

**3 June 2015**

**WORK PROGRAMME 2015/16**

**Purpose of Report**

1. The Constitution states that each Scrutiny Committee will set its own work programme for the forthcoming year (Scrutiny Procedure Rule 7). The Committee is now tasked with constructing a work programme for the year ahead that ensures the time available to the Committee is used most effectively, by considering items in a timely fashion that maximise the impact of scrutiny.
2. The purpose of this report is to invite Members to consider the approach they would like to take to setting the work programme for the municipal year 2015-16.

**Background**

3. This Committee's terms of reference give the Committee responsibility for scrutinising, measuring and actively promoting improvement in the Council's performance in the provision of services and compliance with Council policies, aims and objectives in the area of community and adult services, including:

- |  |  |
|--|--|
| • Public and Private Housing                     | • Older Persons Strategy                   |
| • Disabled Facilities Grants                     | • Adult Social Care                        |
| • Community Safety                               | • Community Care Services                  |
| • Neighbourhood Renewal<br>and Communities First | • Mental Health and Physical<br>Impairment |
| • Advice and Benefits                            | • Commissioning Strategy                   |
| • Consumer Protection                            | • Health Partnership                       |
|  | • Cardiff Partnership Board                |

4. In addition, this Committee is the designated Crime & Disorder Scrutiny Committee for the Council and as such has responsibility for scrutinising the Community Safety Partnership.
5. It is anticipated that the exact dates of Committee meetings will be confirmed at Full Council on 18 June 2015. Normally, Committee meetings are scheduled for each month, apart from August, meaning that there are eleven scheduled meetings.
6. In addition to the scheduled meetings, the Committee is requested to hold joint meetings with the Children and Young People Scrutiny Committee in order to receive and scrutinise the Director of Social Services Annual Report 2014-15 and the Care and Social Standards Inspectorate Wales Evaluation of Social Services Annual Report.
7. Members may also decide to hold task group meetings, where several Committee Members take on the work of scrutinising a specific area in-depth, on behalf of the whole Committee, with their report then considered by the whole Committee prior to approval.

### **Developing a work programme**

8. The work programme is normally constructed at the beginning of the municipal year but can be updated during the year. There are many scrutiny approaches open to the Committee when constructing its work programme, including:
  - a. **Policy Review & Development** – where the Committee contributes to the development of policy by scrutinising and making recommendations on proposals.
  - b. **Pre decision** - Where the Committee has evaluated and commented on proposals before they go to the Cabinet, giving the Cabinet the opportunity to know Scrutiny Members' views prior to making their decision.
  - c. **Inquiries** – where the Committee examines a clearly defined topic using a planned task group approach over a set period of time, resulting in a clear set of key findings and recommendations.

- d. **Performance Review** – where the Committee regularly analyses key performance data from the service areas within its’ remit in order to: highlight good performance; identify poor performance; examine trends over time; benchmark against other authorities; investigate management actions and examine the impact that initiatives and changes in resources have on performance and service delivery.
  - e. **Monitoring Reports** - Where the Committee undertakes monitoring of the Council’s performance and progress in implementing actions previously agreed.
  - f. **Call In** – the Council’s constitution allows for any Member to call-in a Cabinet decision prior to implementation. The Call-In period is set at seven working days after the publication of the decision on the Council’s intranet site. For a decision to be valid for Call-In it has to comply with criteria and parameters set out in the constitution. A Scrutiny Committee may recommend that a decision be reconsidered.
9. Within the above approaches, Members can choose various methods of scrutiny and evidence gathering. Members can hear from relevant Cabinet Members and internal officers as well as external witnesses such as statutory partners, third sector organisations, service user representatives, advocacy groups, parent representatives and other relevant stakeholders. Members can choose to hear items at Committee, where all Committee Members have the opportunity to scrutinise the issues, and this can either be as a one-off item or as a series of items over time, focusing on the same topic, for example scrutinising policy development, undertaking pre-decision scrutiny of the proposed policy and scrutinising the impact of the implementation of the policy. Members can also choose to consider items via short or long term task group inquiries.
10. Scrutiny Committees therefore have the opportunity to input into the development of policies and strategies, comment on operational and service delivery issues, identify potential improvements and savings, highlight good practice and reflect the voice and concerns of the public. However, given the range of subject areas covered by each Committee, Committee Members have to prioritise items.

Normally, Members prioritise items where scrutiny can have most impact, so that the time and resources available to the Committee are most effectively used.

11. Over the years, Scrutiny Services has developed various tools that Members can use to assist them to develop and prioritise a work programme. The first stage is to identify potential work programme items for consideration and prioritisation by Committee Members by: seeking suggestions from Members and stakeholders; reviewing the items recommended by the previous Committee; reviewing corporate documents, forthcoming legislation, the work programmes of relevant auditors, inspectors and regulators and partnership, consortia and regional documents; and checking other relevant documentation to identify areas within the terms of reference for the Committee.

12. Following the preparation of a list of potential items, Committee Members will need to prioritise the items. A mechanism that has consistently been used by Cardiff Council Scrutiny Committees is known as PICK, which stands for:

- Public Interest
- Impact
- Council Performance and
- Keeping in context.

13. By using the PICK mechanism, Committee Members can be assured that they prioritise areas where Scrutiny can have most impact, that are of importance to the public, that will help to deliver improved performance and that are not being investigated by other routes.

14. When Committee Members decide to prioritise an area of task group inquiry, Scrutiny Services will work with them and other stakeholders to complete a scoping report that defines: the terms of reference for the inquiry; proposed timescales; involvement of other agencies; major constraints and resource issues; and the critical success factors that can be used to judge the success of

the scrutiny exercise. This report is then brought to the whole Committee to discuss, amend as necessary and approve.

### **Way Forward**

15. Members may wish to explore the best approach to developing the 2015/16 work programme, including agreeing the approach to take to generate the initial list of items and to prioritise items. In previous years Members have held a work programming forum to consider options for the work programme and prioritise topics for consideration. The forum's proposals are then presented to Committee for formal approval of the work programme.
  
16. Members may wish to raise particular issues of interest for inclusion in the Committee's work programming forum discussions.

### **Legal Implications**

17. The Scrutiny Committee is empowered to enquire, consider, review and recommend but not to make policy decisions. As the recommendations in this report are to consider and review matters there are no direct legal implications. However, legal implications may arise if and when the matters under review are implemented with or without any modifications. Any report with recommendations for decision that goes to Cabinet/Council will set out any legal implications arising from those recommendations. All decisions taken by or on behalf of the Council must (a) be within the legal powers of the Council; (b) comply with any procedural requirement imposed by law; (c) be within the powers of the body or person exercising powers on behalf of the Council; (d) be undertaken in accordance with the procedural requirements imposed by the Council e.g. Scrutiny Procedure Rules; (e) be fully and properly informed; (f) be properly motivated; (g) be taken having regard to the Council's fiduciary duty to its taxpayers; and (h) be reasonable and proper in all the circumstances.

### **Financial Implications**

18. The Scrutiny Committee is empowered to enquire, consider, review and recommend but not to make policy decisions. As the recommendations in this report are to consider and review matters there are no direct financial implications at this stage in relation to any of the work programme. However, financial

implications may arise if and when the matters under review are implemented with or without any modifications. Any report with recommendations for decision that goes to Cabinet/Council will set out any financial implications arising from those recommendations.

## **RECOMMENDATION**

The Committee is recommended to:

- i. Discuss and agree the approach to developing the Committee's work programme for 2015-16, so that a final version of the programme can be brought back to the Committee for formal approval.
- ii. Discuss the request to hold joint meetings with the Children and Young People Scrutiny Committee and, if agreed, task the Principal Scrutiny Officer to coordinate the meetings.

---

**CARERS: UPDATE**

---

**Purpose of Report**

1. The purpose of this report is to provide Members with an update regarding the Carers Information Centre at the University Hospital of Wales, Cardiff.

**Background**

2. At this Committee's meeting on 1 April 2015, Members considered a report on progress in delivering the agreed recommendations from this Committee's Inquiry into the provision of services to adult carers of adults in Cardiff.
3. As part of this scrutiny, Members discussed the Carers Information Centre based at the University Hospital of Wales. The progress report stated that Cardiff Council had withdrawn support for the centre as the number of carers accessing the centre was disproportionate to the time given. At the meeting, Members heard that the low footfall had led to the Centre closing. This discussion was reflected in the minutes of the meeting.

**Update**

4. Health and Social Care officers have contacted scrutiny services to advise that the Carers Information Centre has not closed. Third sector agencies and volunteers are operating the Centre, with the University Health Board's Patient Experience team overseeing the work. In the last 12 months there have been nearly 1,000 visitors to the Centre.

**Way Forward**

5. As this item is for information only, there are no witnesses. Members are requested to note the update information.

## **Legal Implications**

6. The Scrutiny Committee is empowered to enquire, consider, review and recommend but not to make policy decisions. As the recommendations in this report are to consider and review matters there are no direct legal implications. However, legal implications may arise if and when the matters under review are implemented with or without any modifications. Any report with recommendations for decision that goes to Cabinet/Council will set out any legal implications arising from those recommendations. All decisions taken by or on behalf of the Council must (a) be within the legal powers of the Council; (b) comply with any procedural requirement imposed by law; (c) be within the powers of the body or person exercising powers on behalf of the Council; (d) be undertaken in accordance with the procedural requirements imposed by the Council e.g. Scrutiny Procedure Rules; (e) be fully and properly informed; (f) be properly motivated; (g) be taken having regard to the Council's fiduciary duty to its taxpayers; and (h) be reasonable and proper in all the circumstances.

## **Financial Implications**

7. The Scrutiny Committee is empowered to enquire, consider, review and recommend but not to make policy decisions. As the recommendations in this report are to consider and review matters there are no direct financial implications at this stage in relation to any of the work programme. However, financial implications may arise if and when the matters under review are implemented with or without any modifications. Any report with recommendations for decision that goes to Cabinet/Council will set out any financial implications arising from those recommendations.

## **RECOMMENDATION**

The Committee is recommended to note the update information provided in this report.
