A Young Persons Advocacy Journey

Background

Looked after young person with a physical and learning disability , referral made by social worker for advocate to ascertain young persons views about proposed changes to contact with parents

Agreed Action

Advocate had previously worked with young person and had good rapport . Advocate worked creatively with young person , taking into account his communication needs . They worked together using pictures and symbols to discuss his views, wishes and feeling about contact with his parents . The advocate also actively listened to verbal feedback from the young person who had speech difficulties . With the young person's agreement the advocate shared the work they had done with his social worker

gwasanaeth eiriolaeth
ieuenctid cenedlaethol
national youth
advocacy service

Outcome:

The young persons views were taken forward by the social worker and new contact arrangements put in place

The advocate met with the young person to check that he was happy with the plan . The young person fed back that they were on the whole happy with the changes that had been made, but expressed to the advocate that they felt somewhat let down by their parents and was happy for the advocate to feed this back to their social worker .

The advocate received positive feedback from the social worker who stated that the young person was "really pleased" and was looking forward to the newly introduced overnight stays with mum and dad . The social worker was very complimentary of the way the advocate had been able to engage the young person and undertake this very important piece of work placing the young person at the very centre .

Briefing Paper

Social Services and Well-being (Wales) Act 2014

Part 6: Looked After and Accommodated Children

Introduction

Local authorities operate within the overall policy framework set by the Welsh Government. The Welsh Ministers' policy intentions in relation to looked after children, include seeking to de-escalate the need for formal intervention in their lives, and to strengthen the capacity of families to care for their children wherever it is safe to do so.

It is the Programme for Government along with the Social Services and Well-being (Wales) Act 2014 which establish the importance of improving the lives and well-being of children who become looked after.

Part 6 of the of the Social Services and Well-being (Wales) Act

The Social Services and Well-being (Wales) Act came into force on 6 April 2016 and has reformed social services law. It provides the statutory framework for improving the well-being of people who need care and support, carers who need support, and for transforming social services in Wales. It has transformed the way that social services are delivered, primarily through promoting people's independence to give them stronger voice and control.

Part 6 of the Act is the legislation which provides for looked after and accommodated children in Wales, including children and young people who are leaving or who have left care.

The principal duty of a local authority in looking after any child, is described (in section 78) as:

- to safeguard and promote the child's well-being
- to make such use of services available for children cared for by their own parents as appears to the authority reasonable in the child's case.

The overall purpose of Part 6 is:

- to safeguard and promote the well-being of looked after and accommodated children and care leavers,
- to enable each child or young person to achieve recovery and healing from past harm,
- to enable each child or young person to achieve personal well-being outcomes.

A child or young person's personal wellbeing outcomes must relate to national well-being outcomes. Decisions about what those outcomes are and how they can be achieved for individuals, will reflect the particular circumstances, needs and aspirations of the child or young person, their views, wishes and feelings and (where appropriate) those of their parents. The extent to which a child or young person can contribute to, and participate in defining and achieving those outcomes will depend upon their age and understanding, and they should be supported in this by a range of professionals and other people, including (as appropriate) their parents, family and friends, social workers, independent reviewing officers, independent visitors and advocates.

In general, the personal well-being outcomes for a child or young person will come under the following headings:

- protection from abuse and neglect
- promotion of physical and mental health and emotional well-being
- promotion of physical, intellectual, emotional, social and behavioural development
- maintenance or development of family or other significant personal relationships
- involvement in education, training and recreation activities
- development and maintenance of social relationships and involvement in the local community
- social and economic well-being (including not living in poverty)
- living in suitable accommodation.

The Code of Practice on the exercise of Social Services functions in relation to Part 6

Local authorities, when exercising their social services functions, must act in accordance with the requirements contained in the associated code of practice. This provides guidance on the duties. Chapters of the code address the following subjects:

- **Chapter 1: Care and support planning duties** - including health and education.
- **Chapter 2: Placements** - the ways in which looked after children are to be accommodated and maintained.
- **Chapter 3: Keeping in touch** - visits to looked after children, children in detention, and the role of independent visitors.
- **Chapter 4: Review of cases** - The role and functions of the Independent Reviewing Officer.
- **Chapter 5: Leaving care** - Arrangements for leaving care, personal advisers, pathway plans and assessments, suitable accommodation and support for higher education.
- **Chapter 6: Post-18 living arrangements** - to continue living with their former foster carers.
- **Chapter 7: Secure accommodation.**
- **Chapter 8: Children in other types of establishment** - Children accommodated by health and education authorities, or in care homes or independent hospitals.
- **Chapter 9: Death of a looked after child** - Notification and other arrangements.

Any person exercising any functions in relation to a looked after or accommodated child or young person, or in relation to those leaving or who have left care must:

- ascertain and have regard to the child or young person's views, wishes and feelings, so far as is reasonably practicable.
- have regard to the importance of promoting and respecting the child or young person's dignity.

- have regard to the characteristics, culture and beliefs of the child or young person (including, for example, language).
- have regard to the importance of providing appropriate support to enable the child or young person to participate in decisions that affect them (to the extent to which this is appropriate in the circumstances, particularly where the child or young person's ability to communicate is limited for any reason)

Any person exercising functions under any part of the Act in relation to a child who has, or may have, care and support needs, or in respect of whom functions are exercisable under Part 6, must also:

- have regard to the importance of promoting the upbringing of the child by the child's family, in so far as doing so is consistent with promoting the child's well-being.
- where the child is under the age of 16, ascertain and have regard to the views, wishes and feelings of those with parental responsibility for the child, in so far as doing so is consistent with the well-being of the child, and reasonably practicable - Section 6(4)

United Nations Conventions

In exercising their functions relating to looked after and accommodated children, local authorities are required by section 7, to have regard to Part 1 of the United Nations Convention on the Rights of the Child. Individuals must feel that they are an equal partner in their relationship with professionals. It is open to any individual to invite someone of their choice to support them to participate fully and express their views wishes and feelings. This support can be provided by someone's friends, family or wider support network, but professionals and individuals must ensure that judgements about the needs for independent professional advocacy are integral to the relevant duties under this code. When a child or young person believes that concern or problem is not being resolved and they intend to, or are, considering making a representation, local authorities must ensure that these children are advised of the availability of independent advocacy services and support to access those services.

When exercising social services functions in relation to disabled people who need care and support and disabled carers who need support, local authorities must have due regard to the United Nations Convention on the Rights of Disabled People.

Exceptional circumstances

There may be exceptional circumstances in which a local authority will have to exercise its powers in relation to a looked after child in a way which is not consistent with these duties. A local authority is allowed to do this, but only for the purpose of protecting members of the public from serious injury.

The full list of section headings in Part 6 of the Act are as follows:

WORK STREAM UPDATE – CLLR LISTER

As you will be aware from previous meetings I believe that the Terms of Reference for our Committee no longer fully reflect the work undertaken by our membership. In some circumstances expectations set in the ToR have not been met, whilst areas which are not reflected within the Tor flourish.

Under my work stream I met with Cllr Hinchey, Clare Marchant, Deborah Driffield, Gill Nurton and Mandy Farnham, to discuss potential amendments to the Committee's Terms of Reference, which will be discussed during the course of our meeting on Tuesday 2 April 2019.

I have also continued to champion the need for Elected Members across the political spectrum to understand and respect their role as Corporate Parents. It is my understanding that Democratic Services will be arranging training with Children's Services for those Elected Members who require it in the coming months.

With approximately a third of Elected Members being compliant with this training requirement, I would urge you to encourage your colleagues to undertake the training at the earliest opportunity.

As ever, my thanks to Council Officers for supporting me in my role on this Committee.

Councillor Ashley Lister

Quarterly Performance

Progress against Corporate Plan & Directorate Delivery Plan Actions

Performance Indicator Overview Quarter 3

13 no target = 11 not appropriate; 2 new indicators, baseline being set

What's working well?

- **Improved engagement with communities re: safeguarding** - the Safeguarding team have been working in partnership with local churches, mosques, our partners in Communities and the Vale of Glamorgan Council to advise on safeguarding policies with regard to Community Sponsorship schemes for refugees. The re-settlement programmes for Syrian refugees and their families in Cardiff and the Vale of Glamorgan provides an opportunity for Community sponsors including local charities, community businesses and faith groups to help build a home and stable life in the UK.
- The Report on 'A New Delivery Model for Family Help and Support in Cardiff' was agreed by Cabinet in October. It sets out a new delivery model **for integrated early help and prevention services** for families, children and young people in line with the Council's Capital Ambition commitment to have an enhanced Early Help provision. We are on target for phased implementation from April 2019.
- Welsh Government (WG) approved the Cardiff and Vale Regional Partnership Board transformation proposals '**Me My Home, My Community**', securing a £6 million investment into well-being, social care and health services in one region to deliver seamless services in line with 'Healthier Wales' (WG's health and social care plan). A second transformational proposal has been developed which includes additional proposals around children, young people and workforce. The regional partnership is on track to deliver the transformational change.

What are we worried about?

- **Increase in Demand in Children's Services:**

Significant increase in demand for residential and foster care placements for looked after children with insufficient range and availability of placements both in house and within the area resulting in an increased number of children being placed outside of Cardiff and neighbouring authorities. Children's Services is currently projecting an overspend of £4.206 million at Month 9. There are projected overspends of £4.5 million in respect of external placements for looked after children, and this is after taking into account an assumed drawdown of £950,000 contingency budget set aside for this specific purpose.

- **Average caseloads in Children's Services:**

The average social worker caseload increased to 19.5 in December 2018, from 16.9 in September 2018. There is no caseload weighting system within the service to support caseload measurement according to complexity.

- **Children's Services Social Work Vacancies:**

The percentage of vacancies stands at 30.9% despite a long standing target of 18%, identified as being a corporately significant indicator for achieving outcomes in the service area. It is important to note that vacancies are being covered by agency workers.

- **Increase in Demand in Childrens' Services:**

- Action plan in place to address demand at the front door.
- Appropriately “step down” cases to Early Help Services.
- Fostering and residential placement projects to increase local availability of placements.
- Developing a Commissioning and Market Position Strategy to map future demand and availability and help us shape the market.

- **Average caseloads in Children's Services:**

An action plan to address these high caseloads is being delivered, including assessment of the ability to move non case holding social workers / case holding social workers who are not at capacity to Intake & Assessment. Permission has been given for all parts of Children's Services to go outside MATRIX to recruit agency workers and to recruit additional agency workers over and above establishment levels. Systems and processes are being amended to ensure cases can be closed down in a timely way. A caseload weighting system to understand the complexity of cases is being developed.

- **Children's Services Social Work Vacancies:**

To address our concerns regarding Social Worker vacancies, a Workforce Project Group is in place, working to an action plan which includes timeframes, progress reporting responsibilities and issues. The group meets monthly with tasks undertaken in-between meetings. The plan is divided into three priorities: Recruitment, Retention and Career Development and includes a number of approaches:

- Increasing exposure in the market place with a targeted recruitment programme.
- Development of a website to promote Social Work in Cardiff and improve the application process.
- Development of a strategy of Recruitment, Retention and Reward - a draft is currently at the consultation stage, with a launch due in the new year.
- A wider range of student placements and commitment to the First Three Years in Practice.
- Improved and transparent developmental opportunities for existing staff.
- A consistent approach to tasks with clear expectations and measurements.
- Clear and consistent induction and supervision processes and policies.
- Gain a clearer understanding of turnover to input into workforce planning.

Key Performance Indicators – Corporate Plan

CS LAC 58 Percentage of children in regulated placements who are placed in Cardiff

Staff 1 The percentage of social worker vacancies in all teams

YOS 1 The number of children entering the criminal justice system.

CS LAC 58 % of children in regulated placements who are placed in Cardiff = 55.7% (371 / 666) The PI counts only children placed within the LA boundaries and excludes children placed in neighbouring authorities close to their home area and attending Cardiff schools. Please see page 23 for a breakdown of placements.

Staff 1 – **Vacancies** – please see Workforce section page 25.

YOS 1 - The total **number of FTEs** during Q3 is 26, compared to 25 in Q2, indicating the number of first time entrants may be stabilising as the changes to the procedures have been embedded. 20 cases could not be diverted from becoming an FTE because they had previously been referred to the Divert Service or the offences committed were either too serious or for an offence that is automatically sent to court such as motoring offences. 5 young people were eligible for a referral to Divert but 3 cases were convicted in courts outside of our local area and 2 cases were sent to the Crown Court having been charged with adult co-defendants committing serious offences.

Key Performance Indicators - Directorate Delivery Plan

Strategic Directorate Priority 1 - Safeguarding

SSWB 27 Percentage of re-registrations of children on Child Protection Register during the year and within 12 months from deregistration

3 / 57 = 5.3%. 3 of the 57 children registered during the quarter had been on the CPR within the previous 12 months. The 3 children were siblings.

SSWB 28 Average length of time for all children who were on the Child Protection Register during the year.

The average length of time on the CPR for the 89 children who were deregistered during quarter 3 was 323 days. Higher than previous quarters this is mainly due to a couple of large sibling groups being deregistered together.

Strategic Directorate Priority 2 - Prevention & Independence

SSWB 24 Percentage of Well-being assessments completed within statutory timescales

SSWB 25 Percentage of children supported to remain living within their family

SSWB 26 Percentage of looked after children returned home from care during the year

SSWB 24 = 69.3% (451 / 651) of **well-being assessments** were completed within 42 days, during quarter 3. There has been a 17% decrease in the number of assessments that were completed this quarter, 651 compared to 786 during quarter 2. This is in the context of a 23% increase in the number of contacts requiring assessment, 806 compared to 654 in Quarter 2. The number of wellbeing assessments that were incomplete at the end of Quarter 3 was 528; an increase of 65.5% from 319 at the end of quarter 2, of which 64 and 31 were respectively out of time. All Well-being assessments that come in are screened for priority and acted upon accordingly.

SSWB 25 = % of **children supported to remain living within their family** = 868 / 1,753 = 49.5%. Of the 1,753 children with a Care and Support Plan at 31st December 2018, 868 were being supported to live at home (i.e. were not being looked after).

SSWB 26 = % of **looked after children returned home from care** during the year = Of the 1,022 children who have been looked after during the year, 48 have returned home. This PI is cumulative, and the % will increase as we progress throughout the year. In addition to the 48 children who were returned home from care, 130 children were in the care of their parents, but remain subject to a Care Order, and 96 children were placed with relative carers. It is noted that our judiciary have indicated a reluctance to discharge Care Orders, and continue to make new Care Orders as opposed to other orders, e.g. Supervision Orders.

Strategic Directorate Priority 3 - Care & Support (including transitions)

SCC/025 The percentage of statutory visits to looked after children due in the year that took place in accordance with regulations

**QUARTERLY COMPLAINTS AND REPRESENTATIONS REPORT
QUARTER 3 2018-19**

Reason for the Report

1. The Committee's terms of reference state that it will receive Children's Services Complaints reports.
2. This Quarter 3 report covers complaints and representations from 1st October 2018 through to 31st December 2018.

Introduction

3. The current Welsh Government guidance and regulations in relation to social services complaints and representations came into being on 1st August 2014.
4. The procedure places the emphasis on the initial local resolution stage – Stage 1 - with complainants being offered a discussion to resolve the matter. The second formal stage (Stage 2) provides for independent investigation. If the outcome of Stage 2 does not satisfy the complainant s/he has recourse to the Public Services Ombudsman for Wales.
5. Citizens making complaints have a right to be listened to properly and have their concerns resolved quickly and effectively. Children's Services emphasis is on listening to concerns and using this learning to improve services for everyone who uses them.
6. Complaints should be handled in such a way that the complainant is the focus, not the process, and that the particular circumstances of the complainant are taken into account (including their age or disability). Where the complaint relates to a looked after child, a child in need or a care leaver the local authority has a duty to provide an advocate as required. All children or young people who make

complaints are offered a meeting and all children and families will receive a written response to the concerns they have raised.

7. The Social Services and Wellbeing (Wales) Act 2014 devotes Part 10 to complaints and this reflects Welsh Government guidance and regulations and Council procedures. The Council is mindful that the Act will further promote people's rights and collaborative working will be actively encouraged.

A new category 'Lack of Communication' has identified 5% 2 complaints. The remaining 45% (18) of complaints were in relation to other issues including decision making and foster carer.

- b. 11 Complaints were received about the Intake & Assessment Service, which is a slight increase from 7 in Quarter 2. 16 Complaints were received regarding the Child in Need Service a large increase from 5 in Q2 (4 from young people) none were received from young people in Q2. 10 Complaints were received about the Looked after Children Service compared with 4 in Quarter 2. The remaining 3 complaints were in relation to Safeguarding and one for Data loss.

Examples of complaints concluded during the quarter are:

A complaint where we were able to put things right

A young person who was previously looked after was unhappy when informed that a social worker would need to accompany him to purchase a new mobile telephone. This complaint was resolved with an apology and a bank transfer for the amount provided was given.

A complaint where we had no case to answer

A child's relative felt that the allocated social worker was failing to safeguard the child. The social worker had spoken to the relative at length whilst the assessment was being undertaken. A safety plan was put in place to minimise any future risks. The relative was fully aware of the plan and was updated on a regular basis.

Stage 2 Independent Investigations

10. If complainants remain unsatisfied at the conclusion of the informal Stage 1, they are entitled to seek a formal Independent Investigation under Stage 2 of the procedure.
11. 2 stage 2 complaints were resolved during Quarter 3.
12. There were no S2 complaints initiated during Q3

Learning from Complaints

14. Action Plans are initiated after each Stage 2 investigation to ensure that the recommendations are implemented, lessons are learned and themes recognised.

Themes Emerging During the Quarter

15. Quarterly complaints reports are shared with managers so any emerging themes can be considered and actions can be taken to improve practice.

16. During this quarter there was an increase in contact from Advocacy on behalf of children and young people, who contacted Childrens Services to discuss new complaints or complex issues in regards to a complaint.

Update on Progress from Themes Identified in Previous Periods

17. The previously noted issue of social workers not returning calls continues to be highlighted to all Social Services staff.

Early Resolution

18. Children's Services place an emphasis on resolving issues at the earliest possible opportunity, and where these concerns are dealt with immediately they are not opened as a formal complaint. During this quarter there were 22 enquiries, the issues in these were brought to the attention of the relevant Team or Operational Managers who acted promptly to address the issues raised to the satisfaction of the individual. This prevented 22 complaints being formally opened as stage 1 complaints and resolved the issue for the complainant at the earliest opportunity.

Summary of Compliments

19. Teams are more readily sharing the compliments they receive from a variety of sources, e.g. service users and professionals, although it is recognised that further work is required to ensure that all compliments are captured and reported.
