What are the objectives of the Policy/Strategy/Project/ Procedure/ Service/Function?

It is recommended that the Council initiate the procurement of;

A new recycling and refuse collection fleet to replace the existing vehicle fleet.

Replacement Hook loader vehicle fleet. The vehicles are currently supplied through the Councils short-term hire agreement; therefore, these vehicles are built to a standard specification. Establishing a contract hire agreement would support the requirements of the service, improve vehicle specification and provide resilience to vehicle break down with onsite support.

A new small mechanical sweeper fleet. The sweepers are currently provided by the supplier via a three-year contract hire agreement, with maintenance included in the rental cost.

This EIA supports the Waste and Recycling, Hook loader and Small Mechanical Vehicle Cabinet Paper (December 2017) expressing the need to progress a new procurement exercise.

It is proposed that the Council to run its own open procurement with individual lots to establish if there is scope for savings to realise through the appointment of one supplier to deliver economies of scale.

- a) Lot 1 HGV (RCV's and Hook Loaders)
- b) Lot 2 Small Mechanical Sweepers

The target outcomes of carrying out such a procurement allows the Council to satisfy equality requirements by ensuring the procurement strategy provides opportunity to;

- Obtain the most economically adventurous tender for facilitating vehicles to deliver an efficient and effective service whilst ensuring the Councils SSIP procurement requirements are maintained.
- Maintain the statutory obligation of Recycling and Waste Collection Service and provision of HWRC sites for Cardiff residents.
- The provision of a bulk waste collection service for the Commercial Waste Customer base.
- Maintain an efficient and effective street cleansing service through the use of mechanical sweepers.
- Support the Council's Sustainable Development Agenda by maximising tender opportunities to local providers, as well as opportunities to provide training and skill development to the local workforce.
- Support the Council's Sustainable Development Agenda including energy
 management, transport, improving air quality and reducing vehicle emissions.
 Vehicle emissions is a function of the consumption of fuel, which in the case of
 commercial vehicles is predominantly diesel in the UK. The procurement
 exercise will explore the potential to evaluate different vehicle types to
 support a move within the fleet to the use of more sustainable fuels.
- Reduce accidents and damage costs to the Council through the use of vehicle safety technology.
- Assess the impact of the vehicle procurement on the users (Council employees), consideration will be given to the training provided for operation, maintenance and repair of the vehicles and its ancillary equipment.
- Assess the latest vehicle ergonomics and design ensuring vehicle is accessible and does not restrict its current users.
- Establish any negative impact to those who use the Welsh Language with regards to vehicle signage, operator instructions and safety warnings.

The procurement methodology will also consider the vehicle providers values specifically; Openness and accountability – ability to provide appropriate Management Information and Key Performance Indicators. Leadership and organisational commitment (culture, reflective make up of local population).

In respect of the in-house Central Transport Services Maintenance Team, a service improvement plan has been developed and is being implemented for the development of an effective and efficient Workshop. Once this has been fully completed, the Inhouse Team would be able to compete with the external market on a range of specialisms and provide potential for partnership working, on both cost and quality of service delivery.

A key improvement from the current arrangements is that the proposed vehicle tender would support the service improvement plan through the re-introduction of damage repair to LGV vehicles to the workshops and upskilling the existing fitters and opportunity to grow the team. This will also assist with increasing social value with potential for vehicle fitter apprenticeships.

2. Please provide background information on the Policy/Strategy/Project/Procedure/Service/Function and any research done [e.g. service users data against demographic statistics, similar EIAs done etc.]

Background

This project will deliver the procurement of recycling & waste collection vehicles, hook loader vehicles and small mechanical sweeper vehicles. The replacement of these vehicles will allow the service area to meet the demands of front line service delivery and subsequently improve performance and safety within the operation.

There are potential synergies as all the vehicle types are currently maintained externally and all vehicles provide a related service provision. The Council has potential to benefit from economies of scale and achieve more competitive pricing whilst making best use of resources in carrying out a single procurement exercise as opposed to three individual procurements.

The Council has potential to benefit from economies of scale and achieve more competitive pricing whilst making best use of resources in carrying out a single procurement exercise as opposed to three individual procurements.

The Agreement will be a contract hire basis that includes maintenance and support through additional "service reserves" vehicles and an onsite defect clinic. The key objective for the contractor is to maintain the frontline vehicle requirements for all defined operational hours.

In order to meet statutory obligations and customer expectations in terms of a high quality, reliable and safe service, it is essential the Council operate a modern, reliable and well-maintained fleet of vehicles. Therefore, in the new procurement exercise is required to satisfy statutory waste collection requirements.

3 Assess Impact on the Protected Characteristics

3.1 Age

Will this Policy/Strategy/Project/Procedure/Service/Function have a **differential impact [positive]** on younger/older people?

| | Yes | No | N/A |
|----------------|-----|----|-----|
| Up to 18 years | х | | |
| 18 - 65 years | х | | |
| Over 65 years | х | | |

Please give details/consequences of the differential impact, and provide supporting evidence, if any.

The continued provision of the waste vehicle fleet is expected to have a positive impact for people of all age groups. It is anticipated that evaluation criteria will give a high priority to quality of user consultation and delivery.

It is proposed that the detailed specification will give significant emphasis to support frontline users and should the procurement involve a maintenance agreement / the need to maintain a frontline fleet at all times that this will be supported by performance indicators that monitor issues that are important to service delivery, for example:

- Vehicle off road indicators
- First time fix
- Quality of work
- Number of vehicle defects and how quickly they are addressed.

This procurement will support the Councils approach to sustainable development, including energy management, transport, improving air quality and reducing vehicle emissions.

What action(s) can you take to address the differential impact?

It will be a requirement that vehicle providers deliver training and awareness to relevant employees.

It is proposed that the detailed vehicle specification will give positive emphasis to support welsh speaking employees and Cardiff residents and will comply with the new Welsh Language standards under the Welsh Language (Wales) Measures 2011.

What action(s) can you take to address the differential impact?

It will be a requirement that vehicle providers deliver training to relevant employees in welsh where required

All vehicle livery & safety information will be in both Welsh & English.

Where possible to facilitate all vehicle audio alarms will be in both Welsh & English.

4. Consultation and Engagement

What arrangements have been made to consult/engage with the various Equalities Groups?

We require all of our contractors or suppliers to agree to abide by Cardiff Council's Equal Opportunities Statement. Where we believe a contractor or supplier fails to comply with our values in relation to equality and diversity, we will cease the issue of the contract.

We will ensure that equalities issues are a common theme across our training and development; in addition, Cardiff Council requires its staff and any contractors to behave in accordance with the values set out in the Equality Act.

Understand the effect of policies, practices and decisions:-

- Identify key equality issues for Cardiff Council
- Identify where the workforce reflects the community it serves
- Identify any imbalances and where action needs to be taken to reduce them
- Develop evidence based equality objectives and measure progress

All policies and processes are reviewed periodically within the contract time and, should any issues arise that may affect the Protected Characteristics, these are addressed.

All policies and processes are adhered to in respect of Procurement.
