Cardiff's Corporate Plan 2019-22

Capital Ambition Priority 1: Working for Cardiff

- 1.1 Cardiff is a great place to grow up
- 1.2 Cardiff is a great place to grow older
- 1.3 Supporting people out of poverty
- 1.4 Safe, confident and empowered communities

Capital Ambition Priority 2: Working for Wales

- 2.1 A capital city that works for Wales

Capital Ambition Priority 3: Working for the Future

- 3.1 Cardiff grows in a resilient way

Capital Ambition Priority 4: Working for Public Services

- 4.1 Modernising and integrating our public services

Capital Ambition

To outline its ambitions for the city, the Council's Administration set out a policy programme for the five years from 2017 to 2022, entitled 'Capital Ambition'. Capital Ambition identifies four priorities:

- **Working for Cardiff:** Making sure that all our citizens can contribute to, and benefit from, the city's success.
- **Working for Wales:** A successful Wales needs a successful capital city.
- **Working for the Future:** Managing the city's growth in a sustainable way.
- **Working for Public Services:** Making sure our public services are delivered efficiently, effectively and sustainably in the face of the rising demand and reducing budgets.

Delivering Capital Ambition

Delivering Capital Ambition, the Council's Corporate Plan, sets out how the Administration's priorities for Cardiff will be achieved, providing clarity on *what* will be delivered, and by *when*.

In accordance with the requirements of the Well-being of Future Generations (Wales) Act, *Delivering Capital Ambition* sets out Cardiff's **Well-being Objectives**, the **steps** it will take to achieve them and how we **measure progress**.

Glossary of Terms

- **Well-being Objective:** sets out what the Council wants to achieve
- **Outcome Indicator:** a measure of city-wide performance
- **Steps:** what the Council will do, and by when, to help achieve each Well-being Objective
- **Key Performance Measures:** measures of operational performance that indicate if the steps the Council are taking are effective
- **Target:** sets out a numerical value on Key Performance Measures to be achieved
- **Budget Setting Process:** how the Council will ensure that resources are allocated annually for the purpose of taking steps to meet its Objectives
- **Self-Assessment:** a process that directorates undertake to help shape Well-being Objectives and identify the commitments for inclusion in *Delivering Capital Ambition*

Setting Well-being Objectives

The Well-being Objectives were set following a **self-assessment** process undertaken by each directorate. This process was designed to ensure that each directorate had due regard to the sustainable development principle by encouraging a consideration of the five ways of working:

- **Long term:** The Objectives and steps in this plan were informed by the Well-being Assessment 2017, the Population Needs Assessment and work on Future Trends undertaken by the Cardiff Public Services Board.

- **Prevention:** Drawing on the evidence, our objectives and steps are designed to tackle both the immediate demand pressures on public services and the root causes of these pressures, most importantly through tackling poverty and inequality.
- **Collaboration:** The Well-being Objectives in this plan were developed in close collaboration with our public service partners, and the Public Services Board in Cardiff has adopted the same seven Well-being Objectives in its Well-being Plan, reflecting our shared aspirations and the common understanding of challenges facing the city.
- **Integration:** The Well-being Objectives cut across departmental silos, focussing on what all Council services can do to improve the well-being of the people of Cardiff, and contribute to the seven national Well-being Goals.
- **Involvement:** In developing the Well-being Objectives, we have drawn on the results of the Ask Cardiff citizen survey – which received over 4,500 responses – and on focus groups with ‘seldom heard’ groups.

The Council’s Policy Framework

Capital Ambition sets out the Administration’s policy agenda, focused on four priorities. The Corporate Plan and the Well-being Plan are key documents in delivering Capital Ambition, as they translate the Administration’s priorities into deliverable organisational objectives.

- **Corporate Plan:** focuses on the issues and services which the Council has prioritised.
- **Well-being Plan:** focuses on areas of collaborative advantage in the delivery of public services. Both the Council and the Public Services Board will measure progress towards achieving the Well-being Objectives using the same indicators of city performance. Not only will this enable partners in Cardiff to keep track of how the city is performing, it will also help demonstrate Cardiff’s contribution towards achieving the Welsh Government’s aim of improving well-being nationally.

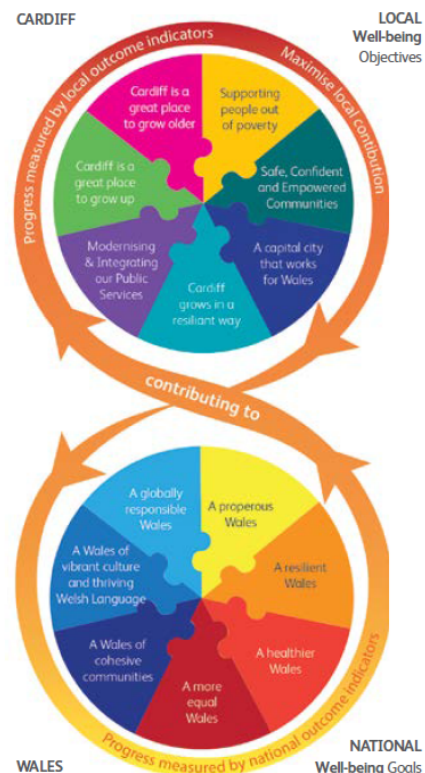

Contribution to National Well-being Goals

The Welsh Government has set out national Well-being Goals. Cardiff Council and the Cardiff Public Services Board have agreed local Well-being Objectives, which are complementary with the national Well-Being Goals. In order to measure Cardiff's progress towards achieving the seven Well-being Objectives, a series of high-level outcome indicators were selected which provide objective measures of the city's performance.

Outcome indicators are high-level indicators which measure long-term trends. They provide an overview of the city's performance, both over time and relative to other cities and local authorities. The trends they measure are difficult to influence directly and no single body or organisation can be held accountable for delivering them. Because both Cardiff Council and the Cardiff Public Services Board are working towards the same seven Well-being Objectives, it was agreed that the Council and the Public Services Board should adopt a complementary set of indicators when measuring progress against the Well-being Objectives.

Delivering Capital Ambition focuses on those outcome indicators most relevant to the Council, with most of the data sets allowing Cardiff's contribution to national performance to be tracked and measured.

A full set of outcome indicators are published annually by the Cardiff Public Services Board, most recently in the [Cardiff in 2018](#) report, which provides an annual snapshot of how the city is performing

Cardiff in 2019: Fast Growing and Changing Demography

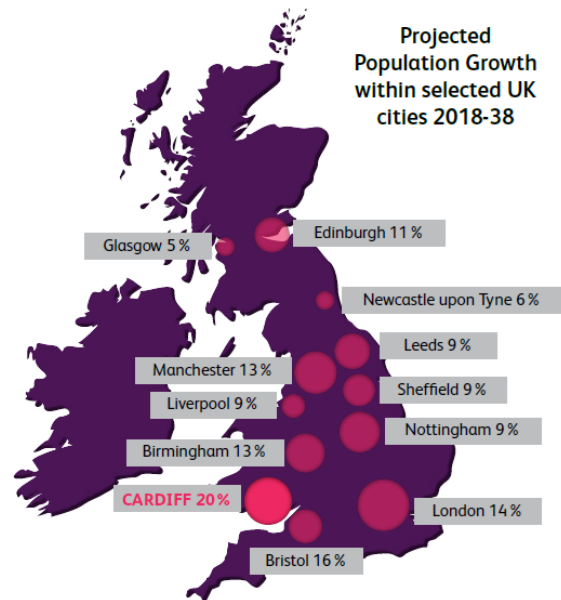

Over the last decade Cardiff grew by around 11%, or 34,600 people, and this growth is set to continue, with the Welsh capital projected to be the fastest-growing major British city.

Cardiff is also by far the fastest-growing local authority in Wales. Over the next 20 years the capital city is set to see a larger growth in population than the other 21 local authorities in Wales put together.

That so many people are choosing to live and work in Cardiff is good news, but it will strain our city's infrastructures and put new demands on our public services.

This is because the city's population growth will not be spread evenly across age groups. For example, the expected 24% increase in school age children over the next 20 years will mean that more school places and more teachers will be needed.

Similarly older people – particularly those over 85 years old whose numbers are expected to nearly double in the next 20 years – are more likely to need to go to hospital or the GP surgery, or need help from social care services.

An unequal city

The gap between rich and poor in the city is too wide, and it is growing. For example, unemployment rates in Ely are around fifteen times higher than those in Lisvane.

Differences in health outcomes are even more pronounced, with a healthy life expectancy gap of between 22 and 24 years between the most and least deprived communities and mortality from, for example, heart disease seven times higher in Riverside than it is in Thornhill.

Percentage of population living in 10% Most Deprived Areas of Wales, 2014

In fact, if the 'Southern Arc' of Cardiff, from Ely in the West to Trowbridge in the East was considered a single local authority, it would be far and away the most deprived in Wales. This deprivation damages too many lives, it places pressure on public services and it breaks the bonds that help to create a strong society.

Southern Arc

No end to austerity

At the same time as a rapid growth in demand, the city's public services have been enduring a long period of financial austerity.

During the past ten years the Council has made almost a quarter of a billion pounds in cumulative savings, and reduced the number of its non-school staff by 22%.

Looking ahead, the Council must close a budget gap of £92.9m over the next three years. This is the gap between the amount of funding available to the Council and the amount needed to maintain services for a fast-growing population. This means that there is no end to austerity in sight for public services in Cardiff. It will also mean that, in the medium term, the amount of funding available for 'non-statutory' services like parks, libraries or waste collection will make their continued delivery very challenging.

Well-being Objective 1.1:

Cardiff is a great place to grow up

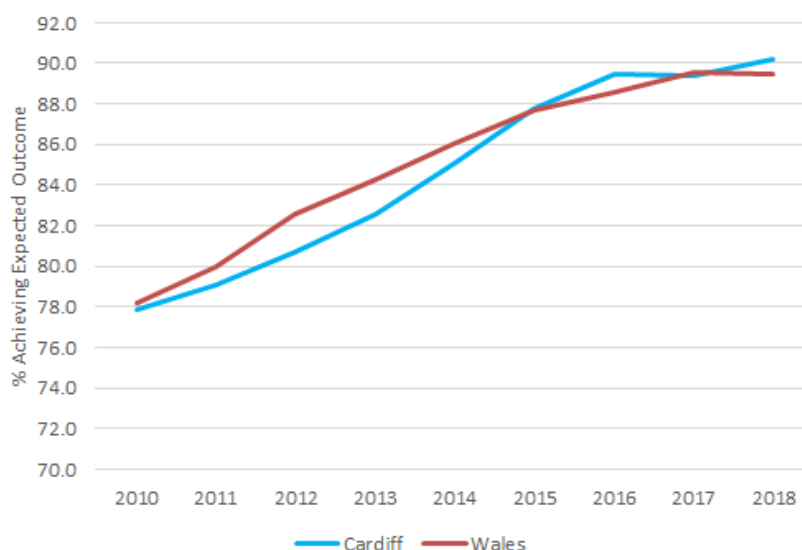

For most children and young people in our city, Cardiff is a great place to grow up. The performance of our city's schools and the achievements of learners are both improving fast and the city offers a wealth of opportunities in work, learning, sports, leisure and culture.

However, not all of our young people are benefitting from these opportunities. Much more needs to be done to address inequality in achievement and to support those children and young people who are disadvantaged – whether through disability, poverty, family circumstances, illness, neglect or abuse – to fulfil their potential.

¹ The Capped 9 points score measures a learner's results for 9 of the qualifications available in Wales. The 9 qualifications measured will include the learners' results for 5 specified subject areas; English/Welsh, Maths/Numeracy, two sciences and the Welsh baccalaureate. The remaining 4 results will be based on the best grades from the other qualifications. It is considered a more inclusive measure of performance.

Progress Made

- **New schools have been opened across the city** – Gabalfa Primary School, Howardian Primary School, Ysgol Gymraeg Glan Ceubal and Ysgol Gymraeg Glan Morfa all opened in September 2018. Eastern Community Campus, the new partnership between Eastern High School and Cardiff & Vale College, was officially opened in April 2018.
- **GCSE results improved again last year and are above the national average.** This is consistent with the strengthening pattern of provision as reflected in Estyn inspections and categorisation during the previous school year.
- **The attainment gap between pupils in receipt of those in receipt of free school meals and those not continues to close** with the gaps at the end of Key Stages 2 and 4 now both less than the Welsh average.
- **The ‘Cardiff Commitment’ is helping to ensure that every child has access to training, employment, or further education when leaving school.** Over 200 businesses have engaged to date and 120 have made specific pledges to support schools and young people.
- **A new preventative support service for children and families** is being developed and implemented at pace.
- **The Child Friendly Cardiff Strategy has been launched,** charting the path towards achieving UNICEF accredited Child Friendly City by 2022.

Priorities for 2019/20

Every School in Cardiff is a Great School

Education remains the top priority for young people in Cardiff, the most vital investment into the city’s economy and the surest route out of poverty for our city’s children and young people.

The performance of schools in Cardiff has improved consistently over the past five years. Results for 2017/18 show that Cardiff schools are performing well across a wide range of performance indicators at all Key Stages. In addition to improving overall attainment at Key Stage 2 and Key Stage 4, the gap in attainment between those eligible for free school meals has also narrowed, most significantly at the end of primary school.

These improvements are testament to the good work taking place in schools across Cardiff, and will have changed the lives of many young people for the better. We want to see similar gains over the years ahead, and looking to the long term, we will work with schools to embed the new curriculum and to develop, in partnership, a new vision for education in the city ‘Cardiff 2030’.

To support this, we will continue to deliver our £450m investment programme into building new schools while continuing to upgrade the quality of school buildings across the city, enhancing capacity and improving the city’s teaching and learning environment, particularly in our most deprived communities.

Despite the undoubted progress, there is still much to do to fulfil the ambition for all children and young people to attend a great school and be provided with every opportunity to succeed. Foremost among these is the need to improve educational attainment for key groups of vulnerable young people, including those educated other than at school and those children currently in care, and to continue to close the socio-economic gap in educational attainment. This plan contains focussed programmes of work to ensure that this happens and that **all** children and young people in Cardiff can realise their potential.

Becoming a Child Friendly City

Through delivering the Child Friendly Cardiff Strategy we will put the voices, priorities and rights of children and young people at the heart of our policies and strategies, and find new ways to involve young people in the big decisions about their lives, their public services and the city's future.

Supporting Vulnerable Children and Families

Outcomes for vulnerable children, and particularly for those who enter the care system, are too low with the impact felt through the life of the child and across the city's public services. Across the UK, a steep rise in the number of children needing protection is placing huge pressure on local Councils. Cardiff is no exception, with the number of children looked after having risen by 62% over the last seven years.

This plan commits to the delivery of transformational change across the child's journey through a comprehensive programme of interventions to better support vulnerable children and families. This will include the delivery of a new integrated early help and prevention service for children and families designed to reduce the impact of adverse childhood experiences. This plan also contains commitments to increase the range of available placements so that those children who are put into care, where appropriate, are able to retain their support network including family, friends and school.

Well-being Objective 1.2:

Cardiff is a great place to grow older

Our ambition is for the Cardiff to be a great place to grow older, where older people are empowered, healthy and happy, making valuable contributions to community life and the city economy, supported by excellent public and community services.

As the city grows, and life expectancy continues to increase, the number of older people living in Cardiff aged between 65 and 84 is expected to rise significantly; 40% in the next 20 years. The number of people aged 85 and older is also expected to nearly double by 2038. Though the majority of older people are in good health, increased life expectancy has meant a greater number of people suffering from ill health in later life and relying ever more on public services. To meet this challenge, the Council is working with partners to manage demand by joining up social care, health and housing, with the goal of keeping people happy and healthy, living in their own homes and local communities, for as long as possible.

Progress Made

- The **number of people receiving domiciliary care is at its lowest since December 2015** demonstrating the positive impact of joined-up, preventative work.
- **100% of clients felt able to live independently in their homes** following support from Independent Living Services and the average number of calendar days taken to deliver a Disabled Facilities Grant is better than targeted.
- **An integrated model of dementia care**, delivered with partners including the Cardiff & Vale University Health Board, is being implemented at the refurbished **Grand Avenue Day Centre, which opened in October 2018**.
- **A first falls clinic to support people to remain independent at home** also opened in October 2018, delivered through the Health and the First Point of Contact teams.

Priorities for 2019/20

Joining up Social Care, Health and Housing Services

To meet the demand pressures of an aging society, we are re-focussing investment on helping prevent hospital admissions, accelerating safe hospital discharge and promoting independent living. We know that this is what older people and their families prefer, that it saves money across the city's public services, and most importantly, that it delivers better health outcomes.

This plan commits to accelerating our proven approach to integrated working across public services and aligning our resources and services at a community level, allied to the delivery of the new Older Persons Housing Strategy and the programme of work to refurbish Day Centres across the city.

Creating Age-Friendly Communities

Enabling older people to continue to contribute to their communities, developing inter-generational approaches and improving access to community activities can dramatically improve physical and mental health, reducing the risk of falls and of hospital admissions. Allied to the reforms to join up services, this plan commits to an acceleration of community-based preventative action to support older people to live active and independent lives.

Dementia Friendly City

By 2035 it is predicted that over 6,000 people in Cardiff will be living with dementia, up from 3,400 people today. As a Dementia Friendly City the Council is committed to being a city where people with dementia are understood, respected and supported. In practice this will mean creating communities where people with dementia feel active, engaged and valued and public services which understand and respond to the needs of people living with dementia.

Well-being Objective 1.3:

Supporting people out of poverty

Making sure that all our citizens are able to contribute to, and benefit from, the city's success is the golden thread running through Capital Ambition. For despite Cardiff's economic growth during the last 30 years, the patterns of poverty and inequality that emerged a generation ago remain. Indeed, if the 'Southern Arc' of Cardiff, from Ely in the West to Trowbridge in the East – an area with a population of over 150,000 people – was considered as a Local Authority area, it would be by far the most deprived in Wales.

A strong economy is vital to tackling poverty, but a focus on job creation alone is not enough. It must go hand-in-hand with concerted efforts to remove the barriers that many people face in getting, and keeping, a good job, and to improve the quality of employment on offer in the city economy.

Along with the rise in the number of people living in poverty, the rise in those facing destitution and homelessness is one of the most pressing issues facing Cardiff, with the number of those recorded sleeping rough having risen sharply over recent years. Sleeping rough is dangerous and, over the long term, causes severe damage to health: the average life expectancy of a rough sleeper is just 47 years of age, which is over 30 years younger than the general population.

Progress Made

- **The Council has successfully advocated the Real Living Wage** by increasing the number of accredited employers in Cardiff to 84, an increase of 22 in 2018. Almost half of all accredited Living Wage Employers in Wales are based in Cardiff.
- **A new Employment Service has been launched**, bringing together over 40 different services together in a single integrated support service.
- **The Council has supported those affected by Welfare Reform, with over 3,800 people assisted with their claims** since Universal Credit was rolled out in Cardiff in February 2018. In the first nine months of 2018/19, the Council's Money Advice Team also identified **£10.8million in additional weekly benefit for their clients**.
- **A new Socially Responsible Procurement Policy was launched** in May 2018 designed to help ensure that the Council maximises the benefits for communities through its annual £410 million procurement spend.
- **Last year 204 individuals were supported off the streets and into accommodation** with the Outreach Team working seven days a week. An advocacy service has also been developed to help people with intermittent periods of homelessness.

Priorities for 2019/20

A Living Wage City and Supporting the Foundational Economy

An economy which creates both more and, crucially, better jobs, paying at or above the Living Wage, is vital to tackling poverty. Cardiff Council proudly pays staff the Real Living Wage, providing an honest day's pay for an honest day's work. More broadly, public services in Cardiff employ nearly 46,000 people and contribute over £1bn of spend to the local economy. This plan commits to seek to leverage this spend as effectively as possible for the good of local people and local businesses.

Helping People Into Work

Through our Into Work service, we have brought over 40 employment services together in one place to help support people to get and keep a good job, whilst also supporting every person and family affected by Welfare Reform and the roll-out of Universal Credit. Over the year ahead we will further enhance the Into Work Service, ensuring that support is available to people to access training and develop the skills they need to succeed in the city's growing economy.

Tackling Homelessness and Rough Sleeping

There is no more striking instance of poverty and inequality than the sight of people sleeping rough on the streets of the nation's capital. What is more, the solution is not as straightforward as offering a roof and a warm bed. With nearly half of those sleeping rough reporting experience of institutional care, substance misuse and other complex needs, delivering lasting solutions will require sustained and intensive support. An integrated response across social care, health, police and housing will therefore continue to be progressed, working with the city's regional partners to help some of the city's most vulnerable citizens to access the support services available and to get the help they need.

Well-being Objective 1.4:

Safe, confident and empowered communities

Strong communities are at the heart of any successful city. They play a vital role in connecting people with the social networks and the day-to-day services we all depend on. The Council will therefore prioritise activities to make sure that communities in Cardiff are safe, that people in Cardiff feel safe and that they have easy access to the services that they need.

While Cardiff is safe for the overwhelming majority, a small number of people – particularly children and women – are subject to abuse, violence and exploitation. One of the Council's most important duties is to safeguard people in Cardiff.

We will also continue to deliver services, at the local level, in a well-planned, connected and integrated way. This means that as well working to regenerate local communities, we will seek to deliver citizen-centred services with our partners across the city whilst making the best use of our parks and green spaces as well as our sports, leisure and culture offer.

Progress Made

- **The St Mellons Hub** was successfully extended in August 2018 as part of our Community Hubs programme.
- A new **Violence Against Women, Domestic Abuse and Sexual Violence** service has been established, bringing together a number of services and funding streams into a single integrated front door.
- A brand new **Community Alcohol Partnership (CAP)**, bringing together the Council, Health Board, police and other partners, has been established to tackle the consequences of 18 to 25-year-olds drinking high levels of alcohol.
- **Cardiff was awarded Purple Flag status** for the quality, safety and diversity of the city's Night Time Economy.
- **Twelve of the city's parks and green spaces were awarded the Green Flag award**, the Keep Wales Tidy coveted international mark of quality, in July 2018 including Heath Park which received the recognition for the first time.

Priorities for 2019/20

Investing in Local Communities

Building on the success of our existing Hubs, we will work with the University Health Board and other public service partners to deliver a programme of expanded 'Community Well-being Hubs' bringing all community services under one roof, with new investments in the Cardiff Royal Infirmary, Butetown and Ely as well as continuing the major regeneration of Maelfa shopping and community centre.

Work will also promote relationships within communities with a strong focus on civic engagement. Just over a quarter of people in Cardiff are participating in some form of volunteering which helps to make communities more resilient, and helps people gain confidence, learn new skills and give back to those around them, benefitting community cohesion.

Safe and Inclusive Communities

Cardiff is a safe city. Cardiff citizens are a third less likely to be the victim of crime than a decade ago. Fear of crime, however, is on the rise and some communities in the city are facing specific challenges associated with drug use and organised crime. Through the newly established Community Safety Leadership Group, the Council will work with partners in the Police, Health and across communities to develop solutions that tackle the immediate issues and support people – particularly young people – who are vulnerable and at risk.

Cardiff has a long tradition of being an open and inclusive city. We will work with partners and local communities to manage the impact of the UK leaving the European Union, particularly in the case of a 'no deal' or disruptive Brexit, with a focus on supporting the city's most vulnerable citizens. The Council will seek to support the estimated 20,000-

25,000 EU nationals who will need to apply for the Citizen Settlement Scheme, with additional support for those who are most vulnerable.

Supporting Sports, Leisure, Culture and Green Spaces

The Council's parks and green spaces make a significant contribution to the social, environmental and economic well-being of the city and are crucial to the health agenda. These attributes are recognised in our vision for our parks service in providing an accessible and diverse network of spaces that are fit for purpose, provide opportunities for sport and physical activity, engage local communities, support biodiversity and resilience to climate change and make the best use of land.

To achieve this vision, the Council will work in partnership with a wide range of stakeholders to maximise the benefits of its natural assets. Healthy communities also require access to a range of leisure facilities and the Council will continue to work with others to support increases in participation in sport and play, particularly in the city's most deprived communities.

Well-being Objective 2.1:

A capital city that works for Wales

Cardiff has been transformed from a city weighed down by de-industrialisation in the 1970s to one of the most competitive in the UK. It is a young and talented city with a growing business base, a start-up culture and a thriving visitor economy. If we are to continue to deliver for the people of Cardiff and Wales however, we cannot stand still. We will therefore have a relentless focus on delivering more, and better, jobs for the people of Cardiff. The momentum seen in both the Central Square development and in Cardiff University's Innovation System demonstrates that we are well-placed to respond to the challenge.

- The ongoing **regeneration of the City Centre** has continued following the **completion of No 2 Central Square**, locating the **new Cardiff University's School of Journalism** next to the **new BBC Headquarters**.
- The funding and delivery arrangements for a **new transport interchange** have been agreed. This is at the same time as KeolisAmey being awarded the contract for delivering improvements to the South Wales Metro contract, signalling over a billion pound investment in transport infrastructure.
- Cardiff successfully **won the bid to host the Creative Cities Convention** in 2019 beating Bristol and Glasgow to land one of the UK's leading media conferences.
- Cardiff has been successful in securing a **£10 million Arts and Humanities Research Council's (AHRC) Creative Industries Cluster** bid led by Cardiff University.
- **A series of major events have been successfully delivered**, including the Volvo Ocean Race, which stopped in Cardiff for the first time in its history and in the UK for the first time in twelve years; the homecoming celebration for Geraint Thomas following his Tour de France victory; the 2018 Adrian Flux British FIM Speedway Grand Prix; the Pride Cymru Big Weekend; the Cardiff Bay Beach; the Cardiff Harbour Festival; the 2018 Extreme Sailing Series; and the National Eisteddfod.

Priorities for 2019/20

Whilst Cardiff's economy continues to perform well, growing faster than our competitor cities, we know that there is still significant room for improvement. Productivity lags our competitor cities across a range of sectors, and pockets of deprivation persist across the city. We also know that whilst the city has created tens of thousands of jobs in recent years, not everyone has benefited from that growth. Austerity and Brexit also continues to place pressure on UK cities, and in particular on our ability to fund regeneration activities.

Responding to these challenges requires us to identify opportunities to exploit for the people of Cardiff, delivering a range and choice of jobs and opportunities for all. Working with the private sector, we will continue to take forward major projects, an approach that has delivered so much for our city. At the same time, we will work with the Welsh Government and UK Government to invest in our city's infrastructure to support business development.

Our approach includes expanding our commercial office offer in the city centre – based around Wales' most accessible location. We are also committed to expanding our visitor economy infrastructure, focussing in Cardiff Bay to kick-start its next phase of development. To provide a range of choice of opportunities, we will also bring forward an Industrial Strategy for the east of the city, an area that has been overlooked for too long. Underpinning this will be investment in infrastructure, be it improvements to Metro Central, or our city's digital infrastructure.

Well-Being Objective 3.1:

Cardiff Grows in a Resilient Way

Cardiff is one of Britain's fastest growing cities, and is by far the fastest-growing Local Authority area in Wales. Successful cities are those in which people want to live, and so this growth is welcomed and a sure sign of strength for the city. However, this growth will bring challenges too, putting pressure on both the city's physical infrastructures, community cohesion, its natural environment and public services. Managing the impacts of this population growth and of climate change in a resilient and sustainable fashion is a major long-term challenge for Cardiff.

Progress Made

- **The first new Council homes have been built** and tenants moved in at Broughton Crescent in Llanrumney and Willowbrook West in St. Melons.
- **The on-street cycle hire scheme has been launched** with highest usage figures outside London.
- **A £5.7 million grant to help bring 36 electric buses** to Cardiff has been approved following a joint funding bid by the Council and Cardiff Bus.
- £1m funding for Cycling Superhighways has been secured from the Active Travel Fund.
- The next phase of funding for **District Heating** has been secured through the Heat Networks Delivery Unit (HNDU) and Council match funding, with detailed plans now being scoped for the next phases of work.
- The OUTURN results for responding to **fly-tipping** are significantly above target, with 99.87% (target 90%) cleared within five working days and 90.17% leading to enforcement action (target 70%).

Priorities for 2019/20

Housing

Cardiff's Local Development Plan sets out that 41,415 new homes will need to be built by 2026. Whole new communities will soon be created that do not currently exist and making sure that these communities are well-planned and well-connected, with easy access to public services, community facilities and green and blue spaces, will continue to be a strategic priority. Capital Ambition also sets an ambitious target for building new Council homes, setting in place a requirement that 2,000 new Council homes are built in the longer term, of which at least 1,000 must be delivered by May 2022.

The Council's partnership with Wates Residential – Cardiff Living – will see around 1,500 new homes built across the city on Council land with at 600 of these being new Council homes. On top of Cardiff Living, we have implemented an additional build programme focused on delivering sustainable, accessible and quality Council homes. Furthermore, we are delivering innovative housing schemes looking at modular construction solutions, recycling shipping containers for temporary accommodation and new forms of construction that can reduce the construction time on site.

Transport and Clean Air

Given the projected increase in population, a shift to more sustainable forms of transport will be needed. With 20% more people expected to commute to work and a 32% net increase in traffic, all this will put a strain on already congested roads and local air quality.

The Council has therefore set a target for a 50:50 modal split by 2026 with 50% of journeys to be made by sustainable transport.

Getting this right will provide a boost to the city economy, to quality of life overall, and can be expected to bring major health benefits through increased levels of cycling and walking, and improved air quality. Proposals for how to meet these ambitious targets were set out in the Transport & Clean Air Green Paper, and an ambitious package of rail, bus, car and cycling projects will be brought forward in the new Transport and Clean Air Vision in 2019.

Waste, Recycling and Clean Streets

Recycling rates in Cardiff have risen drastically. The city has a good track record for recycling and composting, with recycling increasing from 4% in 2001 to 58% in 2016/2017. These improvements will need to be continued if Cardiff is to meet the Welsh Government targets of recycling 64% of waste by 2020, rising to 70% by 2025. Focus is being placed on minimising the waste produced in the first place, encouraging increased household and business recycling, and optimising our re-use and household waste recycling centre performance.

Clean streets are a priority for the city's residents. An area-based approach to frontline services will focus on tackling all forms of littering, allied to a zero-tolerance approach to those who litter or fly-tip, and through expanding community action on this important issue by extending the successful 'Love Where You Live' campaign.

Well-being Objective 4.1:

Modernising and Integrating Our Public Services

In the face of rising demand and reducing budgets, we are committed to modernising the Council's systems and processes to support service delivery. This will mean streamlining and simplifying the way the Council does business, making better use of the Council's asset base, finding new and better ways of working to take advantage of new technology and investing in our workforce so that they have the skills to meet the complex challenges facing public services in the 21st Century.

- The **Council's Digital Strategy has been launched** and the **Cardiff App is now available**, digitising Council services and making them more accessible.
- The number of customer contacts to the Council using digital channels, and those choosing to make payments online, has risen.
- The Council has achieved the Silver Level Corporate Health Standard Award
- The Council has generated capital receipts in excess of £23m to reinvest in valuable services and reduced the running cost of Council buildings by almost £5m.
- The **Council has increased its income streams in a number of areas**, including:
 - Highway licensing which has seen an **increase in income of 40% – or £150,000.**
 - Civil Parking Enforcement where **income has increased from £5.8m to £11.1m** in five years, with a further £200k per annum through advertising contracts.

Priorities for 2019/20

Assets and Property

The Council manages an estate of around 1,000 properties with an estimated use value of over £1.2 billion. The aim is to have fewer but better buildings in order to reduce the maintenance backlog and running costs, whilst also unlocking investment to modernise the Council estate. Since 2015 the Council has generated capital receipts totalling £23m, reduced the maintenance backlog by over £16m and reduced running costs by almost £5m. Plans are also being brought forward to deliver the £40m of capital receipts required to deliver major investment in the city, including significant investment in Cardiff schools. Good progress is also being made across the Corporate Landlord Programme, in particular in managing high priority Health & Safety issues. Even so, the Corporate Landlord functions and responsibilities remain a significant challenge in terms of the level, risk and liability which the Council needs to effectively manage.

Digital Ambition

Modernising Council services will mean using technology to help the Council better manage increasing demand for services, whilst increasingly providing digital access to services indistinguishable from that available to citizens in every other aspect of their lives. The launch of the Digital Strategy has made clear the Council's priorities of increasing the number of services available digitally, providing an accessible, informative award-winning website and deploying virtual agent to support 24/7 citizen requirements.

The launch of the Cardiff Gov App in 2018 has provided citizens with digital access to a number of Council services, including waste collection information, council tax e-billing and

reporting fly-tipping. The further development of the Cardiff Gov app will enable citizens to report other important issues, such as any instance of waste non-collections, pavement defects as well as ordering bins or bags for waste collection.

Workforce Development

Few organisations deliver such a wide variety of services – through a range of business models – so successfully. Every day, Council officers deliver some of the city’s most valuable services with commitment, creativity and compassion. That is why the Council has committed to investing in its workforce. The award-winning programme of staff engagement is supported by a package of measures designed to promote their welfare, which includes a range of health and well-being services such as the 24/7 Employee Assistance Programme and the Employee Counselling Service. The commitment to staff also includes a range of training opportunities through the Cardiff Academy, though more needs to be done to reduce the number of sickness absences which remain too high across the Council. The Council is also taking decisive action to ensure it is representative of the communities it serves, not least by creating more opportunities for young people and increasing the Welsh language skills within the workplace.

Overall Organisational Performance

Despite having to achieve budget savings of over £145m during the last five years and losing 22% of non-school Council staff, Cardiff Council has continued its journey of improvement. Over the course of recent years, the Council has been able to evidence a broad pattern of year-on-year improvement, which has been consistently reflected by external regulators and comparative data. A corporate focus on improvement and performance management has underpinned the Council’s progress, with a sustained increase in the Council’s performance relative to other Local Authorities.

The National Accountability Measures provide a set of performance indicators against which all Local Authorities in Wales can be measured. The annual performance data for all 22 Local Authorities in Wales, published in August 2018 by Data Wales, showed that in 2017/18 Cardiff Council was ranked 5th out of the 22 Welsh Local Authorities, compared to 13th in 2016/17. This means that the Council has improved its Local Authority ranking for the third year in a row.

Citizen satisfaction with Council services also increased by 7% over the last year, and Cardiff was also ranked third for the level of citizen satisfaction with Council services and emerged as one of the most trusted public service providers in Wales according to one of the Welsh Government’s most wide-reaching opinion surveys. The Council’s Annual Complaints Report also shows a decrease in complaints for the fifth year running, whilst noting an increase in compliments received. Whilst the Annual Statutory Well-being Report published by the Council in October 2018 highlights performance challenges, the Corporate Plan identifies the Council’s strategic response.
