SUMMARY OF EVALUATION RESPONSES

Ser	Committee
1.	**What Councillors need to Know** • Significant majority of positive responses • 1 Disagree response regarding insufficient time allocated to the course. • No suggestions for improvement

2.	**Information Governance and Data Protection**
	• Majority of positive responses (75%)
	• Comments included:
	   o Too many slides with too much information, some very small writing, and unsupported with hard copies to enable this to be followed.
	   o It felt that the organisations requirements were being delivered, without ensuring that participants are adequately able to implement what's being taught in the way they make use of their technology or handle their case work.
	   o Keping to time
	• Suggestions on how we can improve this learning opportunity included:
	   o Provide different levels of course depending on expertise of participants.
	   o Follow up with dedicated one to one support.
	   o Perhaps some more examples scenarios/case studies to illustrate and application of relevant legislation

3.	**Supporting Equality in Cardiff's Diverse Communities**
	• Majority of positive responses (75%)
	• Aspect/s of this training course could be improved?
	   o It was a bit unfortunate that there was such a long discussion about the difficulties in balancing different strands of diversity. It didn't seem quite the right place to have that discussion, as lots of attendees would have been coming across some of this for the first time.
	• Other suggestions on how we can improve this learning
	   o If you are consistently getting people coming a little late (because often they are balancing attending with other work commitments I just wonder if it might be occasionally reintroducing the officers for latecomers
