2. Overview of the Proposal

What action is the Council considering and why?

Please provide a detailed outline of the proposal. This information will support your findings in the impact assessments.

1. To provide members with an update on the current arrangements for advice provision in the city; including an update on the Council Advice Service Teams, including the Money Advice Team and dedicated Advice Line.
2. To consider the re-procurement of the Advice Services Contract, to commence in April 2024.

Advice Services in Cardiff are currently provided through a mix directly delivered 'in-house' provision through the Council's Advice Services and via contracted out provision, currently delivered by Citizens Advice and The Speakeasy Advice Law Centre. The current contract for external Advice Services ends on 31st March 2024.

The amount of Advice given by in-house teams has increased over the past 7 years, due to team expansion and the realignment of internal teams to the Advice Service, with recent additions including Welfare Liasion (money and debt support for council contract holders) and Housing Advice Services.

Whilst the Council's Advice Services can provide a range of quality robust advice to all residents of Cardiff, it is imperative that should citizens require more specialist or independent advice, this would need to be accessed through a 3rd party, separate to the Council.

It is therefore proposed that an 'Advice Partner' is commissioned who will work with the Council's Advice Services, to provide complimentary services and advice which isn't available through the Council, such as Serious Debt, Independent Housing Advice and Immigration Advice.

What are the costs and/or savings?

What will the proposal cost and how will it be funded?

How might costs be reduced through involvement and collaboration, across Cardiff Council and/or with external stakeholders?

Are there savings and how will these be realised?

It is proposed that a 5 year contract will be procured for, with the option to extend for a further 2 years should it be required. The maximum value of the contract will be £2,100,000 over the 5 years plus 2 year extension period, equating to £300,000 per annum.

The contract will be funded through council general funds, however should there be opportunity to be able to utilise relevant grant funding, this will happen on a quarterly

basis. The Council's Advice Services dedicated Bid Writer will continuously look for appropriate funding to help support the costs of the contract.

Despite inflationary pressures, the proposed yearly funding (£300,000) will remain the same each year throughout the lifespan of the new contract and will not rise with the cost of living. The static funding is due to a reduced target of the number of people being supported by the procured provision and working in partnership with Council services to ensure customers are accessing the correct level of provision.

3. Impact Assessments

Which impact assessments do you need to complete to support your proposal?

The [Impact Assessment Screening Tool](#) provides advice tailored to your proposed policy, strategy or project regarding which impact assessments may be required and who to contact to find out more.

Under the Equality Act 2010, “differential impact” means that people of a particular protected characteristic (e.g. people of a particular age) will be significantly more affected by the change than other groups.

Impact on the Protected Characteristics

Age

Will this proposal have a **differential impact [positive/negative]** on different age groups?

	Yes	No	N/A
Up to 18 years	Y		
18 - 65 years	Y		
Over 65 years	Y		

Please give details/consequences of the differential impact, and provide supporting evidence, if any.

The Council’s Money Advice Team has recently implemented a dedicated provision for young people, to receive budgeting and benefit support and to specifically support Care Experienced Young People claiming Universal Basic Income. This has had a positive impact, allowing young people to receive support in Council Buildings across the city, but also in Youth settings including schools, young person’s accommodation and youth buildings.

The introduction of both the Council’s Advice Line and Advice Partner’s phone line has meant people are still able to access support who would ordinarily struggled to leave their homes or those who are vulnerabe. This has been an invaluable addition for mainly older people, although the demand for telephone support has increased across all age ranges.

What action(s) can you take to address the differential impact?

In addition to the support provided specifically to young people, the Money Advice Team also provides support to working age people and are currently supporting those who will be affected by the Universal Credit Managed Migration. The team will also be carrying out a campaign to raise awareness of the support available during winter months, including Winter Fuel Payments and Warm packs.

The tender Quality Questions will include a section around how the providers will engage with people of different age groups and what support they will provide to encourage people to seek support.

Disability

Will this proposal have a **differential impact [positive/negative]** on disabled people?

	Yes	No	N/A
Hearing Impairment	Y		
Learning Disability	Y

Please give details/consequences of the differential impact, and provide supporting evidence, if any.

The procured provision will have a positive impact on disabled people; in line with the Welsh Government's Information and Advice Quality framework, the contract will provide five different levels of advice:

- Information
- Guidance
- Advice
- Advice with Casework
- Specialist Casework

The different types of advice under the contract will include:

- Welfare Benefits
- Budgeting/Debt
- Housing
- Consumer Advice
- Employment Advice
- Immigration Advice
- Family/Relationship Advice
- Discrimination Advice.

The contracted provision will be provided primarily from Central Library Hub and via the phone line, but regular reviews will be carried out on demand to determine whether the provision will need to be provided from other areas in the city, to reach as many communities as possible.

The Council's Advice Services provide support in communities across Cardiff, including Hubs, Council and Community Buildings, Food Banks, Schools, Supported Accommodation settings. The team also hosts pop up events in shopping centres, Hospitals, supermarkets and busy high streets.

What action(s) can you take to address the differential impact?

Both the Advice Partner and Council Advice Services will work collaboratively to host Advice Roadshows, targeting areas of the city according to need.

The Council's Advice Services are able to deliver a wide range of advice in Communities across the city, and have staff who can speak a number of community languages. The Into Work Advice Service (part of the Council's Advice Services) has recently implemented the Cardiff Works Ready programme and the Cardiff Works for You subsidised placement scheme, which has had a positive impact on people from under-represented communities, who have little or no work experience.

The Cardiff Works Ready programme provides additional support to become employment ready by accessing Adult Learning courses and one-to-one mentoring. The Cardiff Works for You subsidised placement initiative was launched to provide Cardiff Council temporary employment opportunities for people from under-represented communities who would normally struggle to secure employment. The initiative fully funds the first month's salary cost to allow candidates to gain work experience within the Council.

What action(s) can you take to address the differential impact?

By fully aligning the Into Work and Cardiff Works teams, there has been some fantastic outcomes for those seeking work. Additional external funding was secured to appoint Community Engagement Officers. Their role is to connect with communities that are under-represented in the current workforce and engage with younger people. The Community Engagement Officers have carried out a programme of events in the Southern Arc of the city, working with community groups to raise awareness of the types of roles available and the support on offer for those who have little or no work history.

Several specific BME Jobs Fairs have taken place in local mosques, Grangetown Pavilion and Grange Gardens. From the involvement of the Community Engagement Officers across the Into Work team, and the work with the Race Equality Taskforce, the percentage of BME applicants applying and successfully entering into the Cardiff Works pool has increased from just 7% in June 2021, to 37% at the end of March 2023. Whilst the increase has been welcomed by the whole service, a programme of further engagement events has already commenced to further increase the diversity in the pool.

	Yes	No	N/A
Socio-economic impact		N	

Please give details/consequences of the differential impact, and provide supporting evidence, if any.

The change will positively impact on those from low-incomes/living in deprived areas, through increased amount of advice provision and the level of advice given.

Increased visibility in deprived communities has already begun with a scheduled community engagement programme; the Council’s Advice Services has already seen an increase of 30% in the number of people engaging with provision over the past 12 months.

What action(s) can you take to address the differential impact?

Welsh Language

A wide-reaching bilingual communications campaign was launched in Autumn 2022 to raise awareness of the support available from both the Advice Partner and council services, for those affected by the Cost of Living Crisis. This included promoting the different types grants, discounts, discretionary funding available and dispelling myths on help available to those not just on benefits.

The campaign included radio adverts, social media, spotify adverts, Wales Online and South Wales Echo articles, adverts on buses, the iuse of iVans in communities across Cardiff. Every household in the city was also written to and received information on help available. The number of people contacting the team increased by 58% in the 3 months after the website and publicity launch (Regular, ongoing publicity continues to be carried out to further promote the services.

The new provider will be required to use a bilingual online system and promote the use of Welsh Language, , and ensure the option of Welsh correspondence is offered.

What action(s) can you take to address the differential impact?

We will ensure all promotional materials, advertising and marketing campaigns are billginual, together with the presence of Welsh speaking staff.

We will ensure recruiting managers are aware of the requirement of bilingual adverts and the need for Welsh essential posts.

Consultation and Engagement

What arrangements have been made to consult/engage with equality/ community organisations, especially those who are representative of those you have identified as being likely to be affected?

A face to face stakeholder consultation was held on 13th September 2023, with key partner organisations; a presentation was given on the current contract provision and the proposed recommissioning, followed by round table discussions. Positive comments were received around the current model of delivery, with having a presence in Central Library Hub and the new additional of the Telephone Advice and the 'One Stop Shop' feel of having both Council Services and the Advice Contract Provider located under one roof. Partners also expressed positively at having access to independent advice away from Council Services.

The event encouraged open conversations on what needed to be improved and what would add value to a future contract. Partners expressed the requirement for fully face to face provision, both drop-in and appointment based, in Central Library Hub but also in other accessible locations. Partners also discussed the increased need for more specialist advice for complex cases, with less emphasis on general information and advice. A need for a more efficient referral system/advice pathway also came high on the agenda for partners, as a number found accessing provision confusing and not knowing which service took responsibility for what area of advice.

As a result of these recommendations, a new referral system will be put in place in readiness for the start of the new contract, together with a refreshed triage system to ensure customers are directed to the correct level of support first time. A full Implementation programme will be required from the new provider which will include briefings for stakeholders and council front line staff, along with a joint publicity campaign with Council Services, to raise awareness of the support available. Accessible accommodation for face to face provision will be available to the provider as outlined in the Contract Specification.
