Thoughts on the proposal

I think it is a good idea because then it won't be hard to get them later on and it will help more children.

I think it is a good idea because it will help more people with there ALN.

i think it'll be good because some children might like it being alone.

Yes, I think it's a good thing because some people may not have had these kind of rooms like my brother when he was in Baden he sadly didn't get this room. He is autistic and likes to keep to himself.

it is good because the children that go to the chooch can come down when they are angr

I think it will be very good for children in cuch and other places and have new place

It helps people and it make people feel better and it is a good thing it is a wonderful idea and i love how you thought about that idea thank you so much for a wonderful idea it is also a safe place.

yes but no. yes beacause children with anger issues like me can calm down a bit more. no because they often annoy people

Thoughts on the proposal

i think its a good idea because it will help people with additional needs and its good for people to have 5 minuets and have someone to talk to calm down and the teachers can help by sortingouttheprob

I think have it will do a lot of help to people how dot have the money for private school s

I think that children in Cardiff can get better soon or they will have to go to Hasptail and get checked and the People in the Hasptail an help them to get better and go home to their family

Thoughts on the proposal

like i said before: annoying
people

people might fight

it good for children to
come down

it is an amazing idea

I don't think there is
anything bad

No, there's nothing I don't like
about it! This idea is amazing and
I hope it ends up going well. Other
people have these opinions. But
some people may go there and
end up fighting.

i think it a good idea

I think that it might cause
some confusion and the
children might be angry

Thoughts on the proposal

putting people with ALN
they might get noight at
eachother

for putting AHD kids and
people Dasple people in
the same room

Do you like the proposal?

Schools Programme
Additional Learning Needs
Emotional Health and Wellbeing Needs – Record of Consultation
Meeting held with Pupil Representatives of
Fairwater Primary School Wellbeing Class
17 January 2024

Present: Rosalie Phillips (SOP), Joanna Phillips (SOP), Class Teacher and Learners from Fairwater Primary School Wellbeing Class.

Please note: The following is not a transcript but a contemporaneous note of the meeting

Officers visited Fairwater Primary School on 17 January 2024.

Officers met with learners from the Fairwater Primary School Wellbeing Class and talked about things they like about their class.

The following points were noted:

- The children liked everything about the class
- Being in the class allowed them to come to school every day
- They had friends
- The children were doing well with their school work
- They liked their teachers
- Watching movies was their favourite activity
- They liked coming to school now
- They liked their classroom but would like their own outdoor space
- Being in the class made it easier to do work
- They would like some more staff and a quiet space
- Their learning had improved since being in the class

Thoughts on the proposal

some time

people will feel more safe
and the wont be scared

I think that it is very good
because its helps children
learn.

that people get the help they
need and other people who
dont know they need special
needs get supported

it would help people with
learning needs

that good

it is good fuwr the school

It is good because
everyone gets to go to
school

Thoughts on the proposal

good

It would be good because there are some people in our school with disabilities and a lot of children find it hard to learn in our school and need extra help from teachers like [redacted]

Children can be more focused on their work if it's hard for them.

some people struggle on their learning so i think its a good idea to do that and it would be very nice if they let us use it [redacted]

it will really help with the people who need special learning needs so they understand things better

I think it will be good for the people that have needs so then they can have a classroom with the same people who have needs.

i feel like it would be good because not everyone can sit somewhere where their is so much people in it and it would help them learn more then how much they are learning right now

i think it would be good because some people may be left out in a regular school for having a disability but is a special school everyone is like them.

Thoughts on the proposal

we could make the school bigger because we can have more space and have a bigger playground

its good because it helps children

it is hard for them to learn in school from [redacted]

good

More kids with special needs get more space to learn in a quiet place. And the council won't have to buy places to make the schools

i think it would be better because there is more schools for kids with speshal needs

people who need it wont have to travel as far if they live in ely plus 16 people wouldn't have to go as far to get to the class and they wouldn't be scared going far away.

Children can they are learning.

Thoughts on the proposal

good

Thoughts on the proposal

i

nothing

theres nothing im really
worried about

I'm not concerned so I don't
think that there's any
problems with it.

i dont think that there is
nothing about it

i liked it o i dont think it
was bad

it also might not be as good
because this school is really
loud it could be loud for them
they wouldn't handle it

The school might get a little
overcrowded in the mornings
and at home time

Thoughts on the proposal

not really because your offer is mostly covering everything besides from traveling but most people live close

inside the boxing shed it might be all dirty and rusty

it would be more dangerous because there would be more cars so its a higher chance of them getting hurt.

the boxing gym might smell and you might have to get a big team to clean it up and they might have to make a door from the school to go in the because the door is not in the school

good

i think if they have like 2 till 3 hours in school it is not a good idear

That if there is more people that need special needs more than 16 you would not be able to take them all.

there not enough people

Thoughts on the proposal

I dont thing thars nuthng
wruing

it could be bigger for the
people who need's help

it could be bigger for the
people who need's help

everything is a masing

what no so good is where
people dont have shool

There can only be 16
children

The most of the children on the
playground might be banging or
hitting the football on it which will
cause distraction especially when
there is P.E the children might be
shouting: [REDACTED]

That there are enough
schools in Cardiff

Thoughts on the proposal

I think we should do this as it saves carbon emissions if their wellbeing classes are closer.

I think the idea is **SPECTACULAR** and very much needed 100% support.

The pupils always feel safe and secure, and the activities suit their needs. I think it would be a good idea to have them all around Cardiff so pupils wouldn't have to travel as far.

I think it is good because they are not lonely in the car

I think it would be a great idea for other schools to have it and that we definitely need more lovely teachers for the well being rooms or schools and the thing is that there are benefits for all of us

I think the idea is a great one, I think the benefit is that children with those needs can go to school with others. They might prefer it there because they will have children that understand them.

i love how we can make a time table so the children know what they are doing and the break room is brilliant so if the kids are anxious or worried they can have a time out if they need its brilliant

I think the idea is good because it is a safe place for children with additional needs, I think that the whole lakeside staff should be really proud that we have an area for them. Its brilliant!

Thoughts on the proposal

I think that having more of the classes will help out with learning and also not just sitting and not being able to move but being able to move have their lesson time and be free.

I think the idea is great because it will help children with ALN to feel safe and hopefully give them some confidence and it will help them make new friends and it helps them develop their knowledge

I think that the idea is a brilliant proposition, I think it will help the children with special needs immensely. It will help to have many around Cardiff because they will not have to go on a journey

I think the idea is great, other schools should have well being classrooms because it is safe and a bit quicker to get to. Hopefully other schools will get well being classroom. It makes children at h

I think the idea would be great, but it could be a bit tricky as it said it might be hard for the children to adapt to their new classroom but it is a great idea .

I think that it would be good if we had more classrooms like the one for the little kids for the bigger kids and if the teachers all had special qualifications.

I think it will be so good if we could have a bit more well being in over schools but our school is so good because there is wonderful places in the well being like moive rooms a book coner

I think that having a well being is amazing for them they get the help that they need. I think other schools need to get a well being because it would help children who really need it.

Thoughts on the proposal

As it s

I think if taxi's come at the same time at everyone else it might be quite dangerous, aside from that nothing.

I think there should be some for bigger age groups like 8-10 or 10-13 etc

It's generally a good idea, however there may be a problem if some schools decline the offer or they don't have the space for one.

The children might find it hard to get used to it. From coming straight to a different school and it probably will cost a lot of money

It will cost lots, and if the children get annoyed then what if they break something? What if the staff are all ill one day, or on holiday?

I think it would cost more money for the council

I think one of the only difficulties is that the car park might get crammed.

Thoughts on the proposal

Children might not want to join the classes as they might feel like they are under pressure,

I think that there is a little bit of difficulty because of the taxis coming in and out. Also I am hoping that the taxi drivers are also safe.

maybe we kneed to make sure the teachers are kind and just go with the flow

I think that there may be a little problem with moving schools and it might be a little hard for them.

I think the worst thing about it is that there will be a lot more cars out sid of school so it will be anoiing that it will probley be more dangers for people walking home

I that the worst thing is that there is not much well being is over schools adhd all so mabye the kids might not want to go class and they might get over welled so

are the taxi driver a safe

how do you get the money

how long will i be build

were is your place you st

nothing

enough money as there

if schools got more money

i love this idea ay **no**

nothin

would it be quicker

how will this happen irl

will be lots of slbs

does the council have

ow long will it take to

how do you know about if

i think taxis come later

Thoughts on the proposal

Its a very good idea for
people with special needs

nice idea for people
special needs

its a good idea

I think is much better The
children need extra help rthe
children need to be good all
week

good idea for people with
special needs :)

more funny kids sounds
fun to me

good idea for people who
has special needs

I think is awesome if we have
more bases and wellbeing for
some kids that have problems
so that whould be so ace if
the do that.

Thoughts on the proposal

its good for children who got
speacial need and lots of
children need help

i think its very useful and helpful
because some children have a
hard time managing their
emotions and sometimes they just
need a quiet place

They might like it more
there and

It's good that there are bases
because people with special
needs can have a good
education just like other
children.

that more people can come and
have fun in school beacuse some
people might want to go some
where to feel safe and that is in
the class that speshelises in ther
needs ITS A GOOD IDER :)

I think it is Good it is kind of
cool

Thoughts on the proposal

no probs

no problems

no problems i think it a
good idea :smiley face
again:)

it would cost a awful lot of
money we need the lottery to
get all that money like 1million
pounds

more annoying

there are no problems
with the idea

nothig is bad about there
being basses

it might be to crowd about lunch
play and just toylet and its allredy
crowed and you will need more
teachers to lookafter them
properly

Thoughts on the proposal

I think is a good idea

nothing wrong about the idea

there might not be enough space in the school for another base

it might make them travel more and give them more anxiety to go there and there might be more bad things they dont like it there

nothing is bad about it because all children should have equal education

Thoughts on the proposal

It gives everyone the opportunity to get a comfortable education

More Welsh language options for people with learning needs

What a great idea, go for it!

It offers equal opportunity for education for children with additional needs.

It gives everyone an opportunity for a good education

Everyone treated fairly

Giving people with Needs a more equitable education

More opportunities for people who need extra support to be educated through the medium of Welsh

Thoughts on the proposal

they get the help they need

It creates an easier atmosphere for people to receive an education

Some people will need to travel less distance to get to school

It will take up space at the school but on the other hand we need more places to learn Welsh

Everyone receives an education in the best way for them

It gives everyone an opportunity for a good education

School pupils receive more support

It sounds good for the health of young people in Cardiff, and it helps people to get a full education

Thoughts on the proposal

Provide more support/new space to provide support to the people who need. Give more attention to the struggles people with ALN face at school

Give everyone opportunities to get an education. An advantage for individuals with ALN and a benefit for teachers and classes in the mainstream

It helps pupils with ALN to settle better

This proposal is very fair.

Ensuring better time at school for people with ALN

It allows everyone to learn without feeling uncomfortable

Thoughts on the proposal

More traffic

Perhaps 20 spaces might not be enough?

It will take up space

it will take up space in the school and they can affect the education of other people

Can take up space

Busy school, take part of the school away

Not enough space to build houses

Will it be open to students at Plasmawr? Also I'm not sure twenty places is enough because lots of people need help

Thoughts on the proposal

You could argue that it will continue to separate pupils with ALN from other pupils

Not enough staff

Need to consider the pressure on staff, more hassle for staff who are already busy?

Place to park

A lot of extra money needs to be invested to make sure the area lasts

It's going to be hard for people to do "drop offs" when they're in a hurry

Not much room

Busier outside of the school

Thoughts on the proposal

so people can have lots of help with ALN so they dont stugle

more children can enjoy school

i think its good because some people with ALN struggle with learning from watching teachers write on a whiteboard and they need more help than others do so i think we all should have a room for ALN.

I think it's a really good idea because more people with ALN will have a better way to learn. Will be nice to see new people at school and make more friends. More adults to help everyone.

people with ALN will get help so they dont struggle

i like that they are going to have different learning to us, so they still learn even though they are different

I think it's very good that we are thinking of other people. It's a very nice thing to help them and that is what our school dose.

I think it's a really good thing because some people have a learning disability and struggle to learn in a classroom maybe because there are too many people or they just struggle so I think it's good

Thoughts on the proposal

I think its a good idea for children with ALN because they might not need to travel as much and they could also learn sign language and meet new people

Thoughts on the proposal

Nothing

Some children find
change and moving
schools hard

it will be hard to make new
friends and with autism

Maybe the parking place for
parents because there are
going to be alot of taxis and
vans that pick children up.

It would be hard to make
friends and to actually learn
what you need to with a
learning disability

chilgren wih autism mit not
file seaf

getting made fun of or felling
diffrent and finding it hard to
make friends.

they could be really
scared and could take
some time to settle

Thoughts on the proposal

They mite be nervas and
not know anione here

Thoughts on the proposal

New pe

new friends

are they gonna go on out
field im just asking

new friends

Meet new children

Children getting what they
need in life to live

They'll have lots of friends
to play with .

New friends

Thoughts on the proposal

New friends

children getting what they need and new friends

better Learning for the kid

In my opinion I think it's a good idea because we have more children to be friends with and show them they can be apart of greenway.

I think this is a good idea because without places for children with ALN, they with have a hard time getting education.

more wellbieng

New Friends and more people to meet

New friends

Thoughts on the proposal

New friends

helping kids

i think that this would be new
but new dose not mean it is a
bad thing i think it is a good
thing cuse i can make freinds

new friends

I think this is an amazing way
to help people who need it
and in their way

New friend

Thoughts on the proposal

Nothing

More cars

More cars

More Cars

Nothing

more cars

more cars to get in the school

Nothing

Thoughts on the proposal

the only thing that would
properly be more crowded
and more cars too

I dot now

i don't have any problems
with it :)

Nuffing

Nothing

Need more things

more cars to get to shcool

I really happy about this change
and want to welcome as many
people as possible, but, it'll be a
bit more crowded in the school. It's
not a big problem though.

Thoughts on the proposal

well the only thing that dose
scary me is that more cars
and less spaces

kars

nothing

Benefits of the proposal

- More specialist school places for children with additional learning needs
- Enough places for the number of children that need them
- High quality learning spaces
- Special provision in more areas of Cardiff
- More opportunities for special provision and mainstream schools to work together

#GweithioDrosGaerdydd

#WorkingForYou

Possible disadvantages of the proposal

- Change can be hard for some pupils with ALN
- There may be more cars outside the school at drop off and pick up times

Thoughts on the proposal

Ride a bike

I think it's good because some people have anger issues and that might affect them so they need like a place to come down in our class if we are angry we walk down the hallways sometimes

It is good because some people might worry that their not doing good enough in school but at this school they will and their mums and dads won't worry much.

Park far from the school and walk

I think it's a amazing proposal it will be benefited by the ASN students very much I know change is hard for them but being with people who have the Same needs as them will make them belonged.

I think it would be a good idea because a lot of people need to calm down and then they can come back into class when they calm down

I personally think that it's a very important idea because it's for a good cause and going to help children with ALN

Children can be educated while they are comfortable in the school. They can share their feeling when they want to without having to hesitate. They can make friends with children who are like them.

Thoughts on the proposal

They can calm people
when they are angry

I think that it's a really good idea
because it's all for a good cause.
it's going towards helping children
with ALN and also help their
parents to know that there is
somewhere they can send a child

Maybe it will be helpful for
parents/guardians because it will
get them a place to learn it will
also give them there right of
education and if it is closer it will
let them get fresh air

Thoughts on the proposal

There absolutely nothing that's not good about it

There will be much more cars and people coming into the school

Lots of traffick

I feel like the proposal is great but if they are having trouble making friends they might feel lonely causing them to feel irritated, living far away is also a problem as you may be late for school.

I think that if there isn't more bases then it will be a massive struggle for children and their parents to get to the school and can be more stressing for them.

The children might not be so familiar with the other children. They can also be very nervous when they are moving schools. In the U.K there aren't many teachers to help the children.

I think it is not a good idea to not have a proposal because if you don't then they won't be able to calm down.

It's a good proposal but maybe they will feel left out that they can't do the same as all the other children who can do the things that they can't

Thoughts on the proposal

As I said the anger issues might affect them so it can sometimes take over the brain and make the brain tell the body to like be really mad and stuff I personally think that the proposal is good

Maybe if there is stairs them they might fall down the stairs and hurt them self's. If they get too angry and there is no staff they might destroy the place other children with ASL might have a fight

Do you like the proposal?
