THE COUNTY COUNCIL OF THE CITY & COUNTY OF CARDIFF

The County Council of the City & County of Cardiff met at County Hall, Cardiff on 28 January 2016 to transact the business set out in the Council summons dated Friday, 22 January 2016.

Present: County Councillor Walker (Lord Mayor)

County Councillors Ali Ahmed, Manzoor Ahmed, Dilwar Ali, Aubrey, Bale, Bowden, Boyle, Bradbury, Burfoot, Carter, Chaundy, Clark, Ralph Cook, Richard Cook, Cowan, Kirsty Davies-Warner, Chris Davis, Derbyshire, Elsmore, Evans, Ford, Goddard, Goodway, Gordon, Govier, Graham, Groves, Hill-John, Hinchey, Holden, Howells, Hunt, Hyde, Keith Jones, Margaret Jones, Joyce, Kelloway, Knight, Lent, Lloyd, Lomax, Magill, Marshall, McEvoy, McGarry, McKerlich, Merry, Michael, Mitchell, Murphy, Parry, Patel, Phillips, David Rees, Dianne Rees, Robson, Sanders, Simmons, Stubbs, Thomas, Ben Thomas, Graham Thomas, Lynda Thorne, Walsh, Weaver, White, Wild, Darren Williams and Woodman

127 : APOLOGIES FOR ABSENCE

Apologies were received from Councillors Bridges, De'Ath, Hudson and Javed.

128 : DECLARATIONS OF INTEREST

The Lord Mayor reminded Members of their responsibility under Article 10 of the Members' Code of Conduct to declare any interest, and to complete Personal Interest forms, at the commencement of the item of business.

The following declarations were made:

<u>Councillor</u>	<u>Item</u>	<u>Interest</u>
Councillor Bale	Item 9 – Leader's Statement.	Personal Interest as a Member of the Friends of Yr Hen Llyfrgell new Welsh Language Centre.
Councillor Chaundy	Item 11 - Notice of Motion 2.	Personal Interest as parents attend Oldwell Court Day Centre two days a week.
Councillor Gordon	Item 12 - Question 12.	Personal Interest as a volunteer (cycle training) with Cardiff Pedal Power.
Councillor Hinchey	Item 11 – Notice of Motion 2.	Personal Interest as family member is landlord/ Chief Executive of Wales and West Housing Association.
Councillor Lloyd	Item 9 – Statements & Item 12 – Question 12.	Personal interest as a member of the Llanishen Reservoir Action Group.

<u>Councillor</u>	<u>Item</u>	<u>Interest</u>
Councillor Magill	Item 12 Question 19.	Personal interest as a member of the Llanishen Reservoir Action Group.

129 : MINUTES

The minutes of the meeting held on 26 November 2015 were approved as a correct record and signed by the Chairperson subject to the alteration of Min No: 102 – Declarations of interest for Councillor Monica Walsh as a Member of Unite and not GMB.

130 : PETITIONS

The following petitions were submitted to Council:

- (1) Councillor McEvoy - referred to a petition containing 600 signatures from Caerau residents asking the Council to formally object to the proposed landfill site at the former Ely Brickworks, just outside Caerau in the Vale of the Glamorgan. The Council had formally objected to the application.
- (2) Councillor Cowan – 138 signatures calling on Cardiff Council to have a Green Belt which will protect the countryside permanently on the outskirts of Cardiff and reject the Green Wedge which only offers protection for the lifetime of the Local Development Plan.
- (3) Councillor Cowan – 57 signatures calling on Cardiff Council to remove the orange stickers from bins which indicate a person or persons are elderly, vulnerable or disabled.
- (4) Councillor Gordon – from 38 Degrees with over 6000 signatories from across the City urging the Council not to cut the arts, culture and heritage in Cardiff, and urging the Council to reconsidered the proposed cuts set out in the draft budget.
- (5) Councillor Boyle – 549 signatures petitioning the Council to stop charging to replace stolen wheelie bins.
- (6) Councillor Kelloway – 4830 signatures, online and written petition collected by the Alzheimer’s Society calling for the funding of day care services at Oldwell Court in Penylan to be protected.
- (7) Councillor Bradbury referred a petition of many 100 of signatures that he would be submitting to the Vale of Glamorgan Planning Authority urging them to reject the planning application for the former Ely Brickworks site. Councillor Bradbury thanked highways officers for visiting the site with Local Members which resulted in a formal objection on highways grounds being submitted by the Council on this application.
- (8) Councillor Howells – a further 20 signatures to add to the petitions presented at Full Council on 29 January, 25 June and 23 July 2015, calling on the Council to respect the decision it made in February 2015 and carry out the necessary repairs to ensure that Roath Library reopens as soon as possible, and also including a petition from a t Adamsdown Primary Year 6 pupils Year Teacher also to save Roath Library.

131 : PUBLIC QUESTIONS

Public question 1: from Mr Joel Williams

What are you doing as Leader of our capital city to ensure the bitter rivalry and infighting which has engulfed your reign as leader of the Labour group is not impacting on the delivery of vital services – including health, education, and environmental provision – for the residents of Cardiff?

Reply: County Councillor Bale

I think it's really important to emphasise that this Labour administration is delivering for Cardiff.

You've seen through our four key priorities that we are seeing significant improvements in education, where we're investing significant sums in new schools across the city. We've seen a step change in GCSE results since we took office in 2012.

In social services, the work that we are doing in areas such as delayed transfers of care is actually now starting to pay dividends.

And I think everyone in this chamber would recognise that the administration has done in leading discussions around a £1.2bn city deal and taking forward the development of Central Square and a new transport interchange.

So I'm very comfortable and confident that this city is being served very well by this Labour administration.

Supplementary question: from Mr Joel Williams

Let's go through Labour's 2012 pledges for Cardiff: Council tax increases to be capped at under 2% -- failed; raise standards in Cardiff schools by giving greater funding – you failed on that as well; reform social services to offer a first-class service – failed on that; finally, protect Cardiff's great green spaces by delivering a green belt – well, you may fail on that tonight.

Now, tonight you have the opportunity to listen to the people of Cardiff by referencing back the Local Development Plan, securing your promised green belt. Now, it's time that Labour Councillors bale out of this failing, broken, dilapidated, Labour leadership.

I ask you again: what are you doing to ensure the bitter rivalry in division within your own Labour group is not impacting on service delivery for the citizens of Cardiff?

Reply: County Councillor Bale

I think it's absolutely critical that we take the city forward at the moment and this administration is doing just that.

Many of the examples that you've just highlighted: the educational standards of our schools – we have sought to protect educational funding; in this LDP debate today, you will see that we have secured protection that wasn't going to be there for our greenfields in this city, and that's directly because we've driven that through as a Labour administration.

I feel very strongly – and I'm not surprised that a Conservative candidate in the next general election is raising these issues for party-political purposes – but I feel very strongly that we have to serve the people of this city strongly and that's exactly what this Labour administration is doing. We've always said we're ambitious for Cardiff, and we will continue to be so.

Public question 2: from Ms Heather Ward

Can you explain what safety reports have been carried out on Caerphilly Road in respect to adding the proposed new bus lane? And, if three large HGV vehicles were to pass each other at any single spot, what margin would there be for driver error.

Reply: County Councillor Patel

Road-safety reports have been undertaken for the scheme. Your comments have been taken on board in the latest road-safety report and will be given full consideration as part of the road-safety audit process. A copy of this latest report, which addresses the issue, can be provided to you when the process is complete and information will be released through local Members.

Supplementary question: from Ms Heather Ward

Are there any alternative funding schemes or grants which could be utilised for regenerating the area of Birchgrove without installing a bus lane?

Reply: County Councillor Patel

There's been a considerable amount of consultation with the ward Members on the bus lane and, clearly, there is a demand for this. And that is certainly why this is going ahead.

Public question 3: Ms Rabab Ghazoul

Given the burgeoning reputation for arts and culture that has been built over many years, can you now demonstrate how they ecologically link with, and contribute to, the vitality of education, social services, community cohesion, criminal justice, tourism, refugee agencies, NEETs, the third age, library services, and employability, thereby assisting the Council in attracting business and commerce on the basis Cardiff is an increasingly vibrant capital city in which to invest and live?

Reply: County Councillor Bradbury

This administration fully recognises the pivotal role that arts and culture play in our capital city. Indeed, the very reason that we have continued to invest, develop, and

support this important sector is because we recognise how it reaches into every corner of the city's life, whether that is supporting the complexities of community cohesion, integration, education, or developing Cardiff's cultural profile for the wider economic benefit of not only Cardiff, but the Welsh nation.

I am afraid that I could not do justice to the complexity of response required to demonstrate the undeniable value that the arts to each of the sectors you listed in your question within the time I've got allocated today. However, I can assure you that, in recognising the value to each, we also recognise arts and culture for its own intrinsic value and its role in creating social wellbeing.

The Council has a long and demonstrable history of its commitment to the arts. The draft budget proposals to reduce current levels of financial support are only being considered as the direct result of financial challenges faced by the Council resulting from the UK Government's austerity measures.

Whatever the outcome of our final budget deliberations over the coming weeks, we will endeavour to ensure that arts and culture continue to occupy a central place in our city and its communities.

We will continue to work at strengthening and creating partnerships to help deliver the multiple social benefits and to maintain Cardiff's reputation on a local platform and the international stage.

I am grateful for the overwhelming response we have seen from the public and the arts community to the budget consultation.

Supplementary question: *from Ms Rabab Ghazoul*

What we wanted to ask on behalf of Cardiff without Culture is the creative and cultural industries, as you've just noted are drivers for transforming a city's fortunes – we know that because we've seen it the world over.

We feel strongly, as I'm sure do you that Cardiff is in a prime position to move forward exponentially as a European Capital of Culture in 2023. As citizens and as an arts community, we don't just hope Cardiff becomes the European Capital of Culture 2023 – we confidently expect it to be. There's no reason why it shouldn't.

How can the Council commit to that future with us if you pursue cuts that we feel will seriously downgrade and jeopardise the precious cultural assets and infrastructure that the arts community, in partnership with you, has been building carefully for decades?

Reply: *County Councillor Bradbury*

It's always been an ambition of this city, dating way back to the 2005 European Capital of Culture bid that that would be something that we as a city would one day achieve.

I've had meeting with the arts community over a number of years to discuss how we take the arts programme forward. It's important to note that these are just proposals

at the moment – the decision will be made in February – so I can't comment any further on the specific lines that you're talking about.

As I stated outside, I'm happy to meet with you and with all your colleagues that were here today to discuss the future of arts and culture in our capital city, and I am always lobbying Welsh Government as well to ensure they understand our unique position as a capital city and I will continue to do that.

Public question 4: from Mr Sean Driscoll

Councillor Jayne Cowan put a motion to this Council asking that the Council enforce protection of the green belt around Cardiff. You and your fellow Councillors thought it was a good idea and supported the motion. In the recent Welsh Office inspector's report at section 3:4, the inspector concluded from information provided that the land north and west of Cardiff is rated MBV (best most versatile) agricultural land.

Did you put a robust and strong case to the inspectors on behalf of the people of Cardiff and your fellow Councillors that this land be protected as green belt land?

Reply: County Councillor Patel

The answer is yes. And whilst the original motion was proposed by Councillor Cowan, it was subject to a Labour group amendment and the amended motion was then agreed by the Council following a vote.

The minutes of that meeting show that, following the debate on the motion, Councillor Cowan confirmed that she accepted the Labour group amendment.

Supplementary question: from Mr Sean Driscoll

You are correct, actually, that the Council accepted unanimously the amended motion supporting the vital need for a green belt. You, Councillor Patel, also voted personally for this. Despite that, within weeks you feebly acquiesced in killing the green belt, defying Cardiff Council's unanimous vote and frustrating the will of over 70% of the people of Cardiff. How can you justify that?

Reply: County Councillor Patel

Clearly, I don't agree with what you just said because we did not kill the green belt. We have actually put a pledge in that we will continue to carry on fighting for the green belt. But this is an independent inspector's wish. At every single meeting we've had, we consistently said that we want a green belt. The final ruling was done by the inspector and the inspector changed from green belt to a green wedge.

As far as policy-wise goes, it has the same status. The only difference – which is a big difference, which is why we'll continue to fight for a green belt – is the term of the length of how long a green belt and green wedge lasts.

132 : LORD MAYOR'S ANNOUNCEMENTS

Recognition and Awards

The Lord Mayor congratulated and commended all on their achievements and successes.

Queen's New Year's Honours List

Award	Name	Citation
Officer of the Order of the British Empire OBE	Professor Meena Upadhyaya	For services to Medical Genetics and the Welsh Asian community.
Member of the Order of the British Empire MBE	Mr Michael Andrew McCarthy	Co-Founder, Music Theatre, Wales. For services to Music in Wales.
Member of the Order of the British Empire MBE	Mr Cedric Moon	Lately Band D, Flood and Coastal Risk Management, Welsh Government. For services to Equality and voluntary service to the Deaf Community in South Wales.
Medal of the Order of the British Empire BEM	Mr Basil Edward Priest	For voluntary service to Holme Towers Marie Curie Hospice, Penarth, Vale of Glamorgan.

Schools 'Christmas Switch Off' sets the standard!

Over Christmas and New Year schools across Cardiff set the standard for the rest of us to follow by realising massive financial and environmental savings simply from switching off unnecessary gas and electrical equipment.

Over a two week period schools managed to avoid £63,000 in energy costs and avoided nearly 400 tonnes of Carbon being pumped into the atmosphere, cutting their energy use by a whopping 62% when compared with the previous fortnight.

Making sure equipment that's not in use is switched off and not left on 'standby' is just one way all of us can help realise large financial and Carbon savings at work and help us hit our target of reducing our energy consumption by 1% during 2015/16*.
*(reduction target based on a baseline consumption figure for 2013/14 consumption)

Waste Collections make finals of APSE Awards

Well done to our refuse collection service for making the finals of the prestigious Association of Public Service Excellence Awards, which recognises best and most improved performance.

Baby News

Two of our Councillors have become fathers again since our last meeting. Congratulations to Cllr De'Ath and his partner Rebecca on the birth of Nancy earlier in January; and to Cllr Bridges and his partner Sarah on the birth of their second child, Tom born on 23 December 2015.

Charity Updates

Members are advised that Councillor Ben Thomas is raising money for the 'Royal Marines Charitable Trust Fund' as his sister-in-law along with 4 other female police officers and 5 injured Royal Marines will climb Kilimanjaro in early February. For those wishing to donate an envelope is being passed around the chamber today. Councillor Thomas has indicated that he will match fund the amount raised.

Lord Mayor's Charity Fund Raising

Cardiff High School pupils and staff raised £1,500 with a non-uniform day, a Staff Christmas raffle and donations received at the annual Christmas Carol Concert;

I-Can Challenge - I am delighted to report that students from schools across the city have helped raise more than £10,000, £7,000 will go to the Lord Mayor's charity appeal.

The pupils who took part in the i-Can challenge were given a budget of £10 and 3 weeks to try make the most money possible and also make a donation to the Lord Mayor's charity, Velindre.

A total of 23 schools signed up to the festive-themed challenge. These were: St Bernadette's, Whitchurch, Pen Y Bryn, Thornhill, Ysgol Y Wern, Millbank, Rumney, All Saints, Rhydypenau, St Paul's, St Joseph's, Glyncoed, Pencae, Christ the King, Bryn Deri, Creigiau, Gladstone, Grangetown, Howells, Trowbridge and Llanedeyrn.

At the end of their project, the children made a presentation in front of three judges from the business world and there were lots of very creative ideas and very innovative ways of presenting them.

I will be hosting a reception at the Mansion House on the 12th February, where all those who participated will be presented with certificates.

A huge well done and congratulations to all of those involved.

Barclays Bank Donation

The Lord Mayor advised that Barclays Bank had agreed to match fund the money raised by the Lord Mayor's Charity with a donation of £60,000. The Lord Mayor thanked Barclays Bank for their very generous donation. This donation brought the total amount raised so far this year for the appeal to £110,000.

St David's Day Special Event Dinner

This is the first of what will hopefully become an annual event for the City of Cardiff to celebrate the national day of Wales. This year we will be joined by an array of sporting stars. Details of the event will be circulated to all Members shortly.

Once again I wish to thank the Deputy Lord Mayor for arranging a Charity Dinner and fellow Councillors for all their support in arranging events and giving generously to my Charity Appeal

133 : ADOPTION OF CARDIFF LOCAL DEVELOPMENT PLAN

The Council received the Local Development Plan for 2016 – 2026; the Inspector's Report, Adoption Statement, Final Sustainability Appraisal Report and Habitats Regulation Assessment together with a proposed programme of Supplementary Planning Guidance for adoption.

The Director Governance and Legal Services gave advice at the beginning of this item on the scope of recommendation 3 of the Cabinet proposal which repeats the text of the Planning Inspectors report and gives limited authorisation to the Officers to make any final editorial changes and presentation matters only, such as 'typographical errors'. It will not allow for any changes to policy interpretation; land use allocations or other matters of material significance.

The Cabinet Member, Transport, Planning and Sustainability, Councillor Patel formally proposed the report and this was seconded by the Chair of Planning Committee, Councillor Michael.

In proposing the report the Cabinet Member set out the importance of a robust Local Development Plan (LDP) and the consequences to Cardiff of not having an approved LDP since 1996 and an identified land allocation to provide a 5 year supply of housing; and the loss at Planning Appeal of applications on greenfield sites. The plan before Council was one that would cater for growth up to 2026 and not 2021 which had resulted in an increase in housing need from 27,442 to 41,415 - approximately 14,000 extra homes to meet the requirements of a growing city resulting in the need for the release of greenfield sites not previously identified for development.

This LDP would bring forward a plan for new homes; transport infrastructure and social community infrastructure; and over 40,000 jobs; as well as support for those on the housing list with the provision of affordable / social housing of up to 6,600 dwellings during the lifetime of the plan, which supports the administration ambition to support the most vulnerable in the city.

The Cabinet Member supported a green belt however the Independent Planning Inspector's report imposed a green wedge in the LDP. In policy terms the green belt and wedge are essential the same other than the green belt would have provided protection beyond the length of the LDP. The current administration would continue to support a green belt as part of any regional planning plan. The Cabinet Member announced that the Council would bring forward Supplementary Planning Guidance on the green wedge.

The LDP provided a secure plan for the future development of the city for its citizens. The Cabinet Member thanked Planning Policy officers unit and former Cabinet Members who had worked on the LDP over a number of years. .

The Lord Mayor advised that one amendment had been received to the report proposed by Councillor Cowan and seconded by Councillor Dianne Rees.

Councillor Cowan in proposing the amendment asked the Council to reflect on the merits of accepting the report at this meeting when it could be brought to the next meeting. Councillor Cowan raised concerns with the validity of recommendation 3 and the ability for officials to make factual changes without the consent of Council which this recommendation implied. In addition she raised concerns around the LDP proposals on the number of houses; the lack of infrastructure; the disregard of citizens views; and the inability of the Council and the administration to persuade the Inspectorate and Welsh Government of the will of Council following the approval of a Notice of Motion in October 2015.

Councillor Ralph Cook proposed a Motion without notice in accordance with Council Procedure Rule 25 (iv) to refer the LDP back. This was seconded by Councillor Woodman. The reference back was on the grounds that the Welsh Government has the power to intervene in LDP matters and Councillor Cook questioned whether this had been done. In addition, it appeared that the Planning Inspectorate required a very different level of justification for a green belt in Cardiff's LDP compared to its determination of Newport City Council's LDP. Councillor Cook suggested that an impartial view be sought from a legal expert in planning on advice on the LDP and the Council's legal position.

The Lord Mayor invited debate on the report prior to taking a vote on the reference back and the proposed amendment. During the debate Members referred to previous the LDP and Unitary Development Plans; the Inspectors hearing; the role of Welsh Government officials; and the test of soundness of LDP's. Members commented on the differences between greenbelt and green wedge; the length of protection of green belt beyond 10 years; manifesto commitments not to build on open spaces. Members raised concerns around current and previous rates of housing development; rate of growth of the city; development by appeal; concerns on the lack of transport and highway infrastructure and networking with transport interchanges. Members commented on the importance of the city region policy context; the importance of strategic planning, housing, affordable housing and transport policies; the need for Regional Development Plan; and the future local government re-organisation.

The Cabinet Member was invited to respond to matters raised in the debate prior to the votes being taken. In closing the debate the Cabinet Member commended the LDP to Council.

A vote was taken on the reference back as proposed by Councillor Ralph Cook.

The vote was as follows:

For (27)

Councillors Aubrey, Bowden, Boyle, Burfoot, Carter, Chaundy, Clark, Ralph Cook, Cowan, Davies-Warner, Ford, Graham, Hill-John, Holden, Howells, Hyde, Margaret Jones, Kelloway, Lloyd, McEvoy, McKerlich, David Rees, Dianne Rees, Robson, Sanders, Graham Thomas and Woodman

Against (40)

Councillors Ali Ahmed, Manzoor Ahmed, Dilwar Ali, Bale, Bradbury, Richard Cook, Davis, Derbyshire, Elsmore, Evans, Goddard, Goodway, Gordon, Govier, Groves, Hinchey, Hunt, Keith Jones, Joyce, Knight, Lent, Lomax, Magill, McGarry, Merry, Michael, Mitchell, Murphy, Parry, Patel, Phillips, Simmons, Stubbs, Ben Thomas, Huw Thomas, Thorne, Walsh, Weaver, White and Darren Williams

The vote on the Reference back was LOST.

The Lord Mayor called for the vote on the Amendment to the report as proposed by Councillor Cowan.

For (23)

Councillors Aubrey, Bowden, Boyle, Burfoot, Carter, Chaundy, Clark, Cowan, Davies-Warner, Graham, Hill-John, Howells, Hyde, Margaret Jones, Kelloway, Lloyd, McKerlich, David Rees, Dianne Rees, Robson, Sanders, Graham Thomas and Woodman

Against (40)

Councillors Ali Ahmed, Manzoor Ahmed, Dilwar Ali, Bale, Bradbury, Richard Cook, Davis, Derbyshire, Elsmore, Evans, Goddard, Goodway, Gordon, Govier, Groves, Hinchey, Hunt, Keith Jones, Joyce, Knight, Lent, Lomax, Magill, McGarry, Merry, Michael, Mitchell, Murphy, Parry, Patel, Phillips, Simmons, Stubbs, Ben Thomas, Huw Thomas, Thorne, Walsh, Weaver, White and Darren Williams

Abstain (4)

Councillors Ralph Cook, Ford, Holden and McEvoy

The vote on the Amendment was LOST.

A vote was taken on the recommendations as set out in the report.

For (40)

Councillors Ali Ahmed, Manzoor Ahmed, Dilwar Ali, Bale, Bradbury, Richard Cook, Davis, Derbyshire, Elsmore, Evans, Goddard, Goodway, Gordon, Govier, Groves, Hinchey, Hunt, Keith Jones, Joyce, Knight, Lent, Lomax, Magill, McGarry, Merry, Michael, Mitchell, Murphy, Parry, Patel, Phillips, Simmons, Stubbs, Ben Thomas, Huw Thomas, Thorne, Walsh, Weaver, White and Darren Williams

Against (27)

Councillors Aubrey, Bowden, Boyle, Burfoot, Carter, Chaundy, Clark, Ralph Cook, Cowan, Davies-Warner, Ford, Graham, Hill-John, Holden, Howells, Hyde, Margaret

Jones, Kelloway, Lloyd, McEvoy, McKerlich, David Rees, Dianne Rees, Robson, Sanders, Graham Thomas and Woodman

The vote on the recommendations was CARRIED.

RESOLVED – That the Council

1. adopt the Cardiff Local Development Plan 2006 to 2026 and endorse the Inspectors Report, Adoption Statement, Final Sustainability Appraisal Report and Habitats Regulation Assessment;
2. endorse the preparation of the programme of Supplementary Planning Guidance (SPG) as set out in Appendix 8 and authorise the Director of City Operations to issue SPG for public consultation prior to it being considered by Cabinet and Council for final approval;
3. agree that the Director of City Operations be authorised to correct any typographical and factual errors together with any other necessary presentational matters and consequential changes prior to the final publication of the Cardiff Local Development Plan.

134 : THE ROLE OF ELECTED MEMBERS IN SAFEGUARDING VULNERABLE CHILDREN AND ADULTS

The Council is requested to adopt the Member Protocol in relation to Children and Vulnerable Adults. Councillor Lent proposed and Councillor Elsmore seconded the report.

The meeting was advised that an Independent Review was commissioned by the Chief Executive to look into processes relating to Child Protection casework and the role of Elected Members in dealing with parents' complaints and acting as advocate in child protection proceedings. The Review made a number of recommendations which included requesting the Standards and Ethics Committee to consider the role of Elected Members in relation to social services casework and their role as advocates for service users.

The Lord Mayor invited the Chair of Standards and Ethics Committee, Richard Tebboth to make a statement on the Committees role and recommendations in relation to the independent review process and the draft Protocol which was submitted for Council approval.

The Chair of Standards and Ethics detailed the process undertaken by the Committee in September and December 2015 and that the importance of the role of Elected Members as Corporate Parents be an integral part of the Cardiff Undertaking and that the Constitution Committee be requested to consider and incorporate this amendment as soon as practicable.

The Cabinet Member, Early Years, Children & Families welcomed the report and the protocol which supported Elected Members their role of safeguarding children in Cardiff; clearly providing guidance and clarity on the separation of on roles and

responsibilities; providing assurances and guidance to officers in Social Services and provision of key contacts.

The Lord Mayor invited debate and a number of concerns were raised about the advocacy and support role of Elected Members; general information on the number of cases that occur; the terminology use; the introduction of the Social Services and Wellbeing Act statutory responsibilities of the Council; Members and Officers; concerns about Child Protection matters; Members representational roles; concerns about failure and reassurance that these are not systemic; the role of Councillors in signposting to advocacy support; the need for support and protection of vulnerable adults. It was noted that the report and protocol before the Council was an outcome from the one of the recommendations of the independent review and based on best practice advice. Members welcomed training and awareness of their roles.

During the debate Councillor Holden proposed a Motion without notice in accordance with Council Procedure Rule 25(iv) to refer the report back. The reference back was seconded by Councillor McEvoy.

The Chair of Standards and Ethics was invited to respond to matters raised in the debate prior to the votes being taken. The adoption of the protocol was for Council to approve and the Standards and Ethics Committee had a duty to provide advice to avoid Members getting in to difficulties. The protocol provides clarity and guidance for Elected Member and had been formulated following the independent consultants review and good practice guidance.

A vote was taken on the reference back as proposed by Councillor Holden.

The vote was as follows:

For (10)

Councillors Bowden, Cowan, Ford, Hill-John, Holden, McEvoy, Dianne Rees, Robson, Sanders and Graham Thomas

Against (52)

Councillors Manzoor Ahmed, Dilwar Ali, Aubrey, Bale, Boyle, Bradbury, Burfoot, Carter, Chaundy, Clark, Richard Cook, Davies-Warner, Davis, Derbyshire, Elsmore, Evans, Goddard, Goodway, Gordon, Govier, Groves, Hinchey, Howells, Hunt, Hyde, Keith Jones, Margaret Jones, Joyce, Knight, Lent, Lloyd, Lomax, Magill, McGarry, Merry, Michael, Mitchell, Murphy, Parry, Patel, Phillips, David Rees, Simmons, Stubbs, Ben Thomas, Huw Thomas, Thorne, Walsh, Weaver, White, Darren Williams and Woodman

Abstain (3)

Councillors Graham, Kelloway and McKerlich

The Reference back was LOST.

The recommendation was CARRIED by a show of hands.

RESOLVED – That Council adopt the Member Protocol in relation to Children and Vulnerable Adults as set out at Annex A of the report.

LEADER AND CABINET MEMBER STATEMENTS

135 : LEADER'S STATEMENT

Cardiff-Stuttgart Twinning Conference

The Leader was delighted to attend the first day of the three-day Cardiff-Stuttgart Twinning Conference that was held at City Hall on 14th-16th January 2016. The conference, which was funded through an EU project, brought together citizens and organisations from Cardiff and from our twin city of Stuttgart to promote the shared history of our two cities and to examine how we can build on our historic relationship to further develop transnational cooperation and civic engagement. It also provided an opportunity to explore different attitudes to European integration and the institutions of the European Union, which was particularly timely in the light of the forthcoming EU referendum. The conference was supported by a programme of cultural events to celebrate our twinning relationship and I'd like to extend my thanks to all those involved in helping to present the very best of Cardiff to our international guests.

Llanishen and Lisvane Reservoirs

On 18th January 2016, Welsh Water announced that they had secured a 999-year lease on Llanishen and Lisvane Reservoirs. This was welcome news and I am grateful to both Celsa and Welsh Water for their commitment to reaching an outcome that benefits the local community. Celsa will continue to use water from Lisvane Reservoir for its operations in Cardiff Bay and Welsh Water will be able to increase its drinking water resources in Cardiff, while contributing to the economic and cultural development of the city. Moving forward, it is important that the Council works closely with Welsh Water to facilitate public access to the reservoirs for recreational activities.

To celebrate this positive outcome and to recognise the hard work of the Reservoir Action Group, a reception will be hosted at City Hall from 2-4pm on Friday 5th February 2016. Invitations have been extended to representatives and members of the Reservoir Action Group; representatives of Celsa and Welsh Water; Councillors; MPs and AMs, and the Welsh Government Minister for Natural Resources.

Welsh Cultural Centre – Yr Hen Lyfrgell

The Leader was pleased to confirm that the official opening of Cardiff's new Welsh Cultural Centre – Yr Hen Lyfrgell is due to take place on the morning of Thursday 25th February 2016 and will be attended by the First Minister. That evening, there will also be a launch party, which will lead into a long weekend of celebrations ahead of St. David's Day on 1st March 2016.

The Lord Mayor invited questions on the Leader's Statement and the Leader responded accordingly.

136 : HEALTH, HOUSING AND WELLBEING STATEMENT

Housing Partnership Project

The Cabinet Member was pleased to attend recently the official signing of the partnership agreement between the Council and Wates Living Space, developer appointed to the Housing Partnership Project. The Cabinet Member was impressed by the enthusiasm and commitment that Wates, a family firm, showed towards the project. This is a first for Wales in both the size and ambition of the project which will not only deliver 1,500 new homes, 600 of which will be council homes, but will also help regenerate brown field sites across the city. The overall value of the scheme is £205 million.

The quality of the new housing has been set high and all the homes will be sustainable and energy efficient, including some to passivhaus standard. As part of its presence in the city, Wates Living Space has made a pledge to create extensive opportunities for local training and employment and will engage local suppliers and sub-contractors in the project. The scheme will generate almost £14 million of social value including almost 10,000 training weeks, employing hundreds of skilled and non-skilled workers during the construction and marketing of the homes. And will create a lasting economic benefit for the city.

Supporting Independent Living

Over the past year we have significantly improved our services to help people remain independent in their own homes. We have introduced a single point of contact for older person's services, providing a wide range of advice and information with multi-skilled visiting officers available to assist people in their own homes.

The Cabinet Member had recently had the opportunity to visit the Independent Living Centre (Smart House) which has been set up to demonstrate a wide range of rehabilitation and re-ablement equipment and to promote everyday living aids that promote independent living. Built to resemble a two storey home, the Smart House is very impressive and allows people to experience how adaptations such as stair lifts and hoists, look and feel in a domestic setting. The Smart House is open to residents and partner organisations to book as either a training or demonstration facility.

Welfare Reform Changes

The Chancellor's autumn statement brought news of further welfare reform changes which will impact on benefit claimants. The proposal was announced that housing benefit for tenants in social housing would be capped at the Local Housing Allowance levels; the level paid for tenants in the private rented sector. While most social housing rents are below LHA levels this change is likely to impact on tenants under the age of 35, who may only qualify for the rent of shared accommodation, and people in supported accommodation where rents can be high. The change is due to

come into effect in April 2018, but will be backdated to any social housing tenant who has taken up a new tenancy, transferred or exchanged from April 2016.

Only limited information is available about this change at present. Officers are working with our housing association partners to fully understand the possible implications of the change, to develop publicity and a plan to mitigate the impact. A full briefing will be given on this change when more information is available. In the meantime please remember that help is available in all Hubs and in particular in Central Library Hub, where there is a full range of advice available for those affected by Welfare Reform.

Sheltered Housing Tenants' Christmas Party at Butetown Centre

As Members will be aware many older people are alone at Christmas, we were therefore very keen to help bring our older tenants together over the festive period. The Tenant Participation team organised a party for tenants of all 10 of the Council's Sheltered Housing Schemes, guests were able to get to know each other over Christmas dinner with all the trimmings, and were kept entertained with music, dancing and a raffle. Members of the Telecare team were also there to provide information about the services they offer, and explain how they can help more vulnerable residents. The party, which was held at Butetown Centre, proved to be a big success with around 60 residents attending. Tenants from different schemes got talking to each other and friendships were forged. The Tenant Participation team are planning to repeat the event next Christmas.

Support for Asylum Seekers in Cardiff

Members will have seen the publicity recently about the services for Asylum Seekers and in particular the requirement for service users to wear wristbands. This is clearly not acceptable and the Leader and I have raised our concerns in a letter to the Minister responsible Immigration.

Services for Asylum seekers are commissioned and managed directly by the Home Office and the council has no direct control over the services provided by the private company employed to provide these services.

However officers from the council do aim to influence these services where they can working partnership with the Wales Strategic Migration Partnership based in the Welsh Local Government Association.

Launch of the Older Person's Commissioner's Ageing Well in Wales Programme

The Cabinet Member attended the launch of the Older Person's Commissioner's Ageing Well in Wales Programme, hosted by Julie James AM. It was pleasing to see the work being undertaken across Wales to support the Commissioner's Ageing Well agenda, and I am particularly pleased that Cardiff has developed a clear and effective Ageing Well Delivery Plan for 2016/17.

Following discussion between Council Directorates and with partner organisations, a broad ranging draft Delivery Plan went to scrutiny in September, where we received

helpful feedback from Members, from the Commissioner herself and from third sector partners.

We are incorporating this additional input into our final Delivery Plan, which Cabinet will adopt in March, alongside the Council's Strategic Equality Plan for 2016/20. The Cabinet Member was confident the Plan will enable everyone to continue to enjoy all that Cardiff has to offer, throughout their lives.

The Lord Mayor invited questions on the statement and the Cabinet Member undertook to find out whether the Smart House was open to the public. The Cabinet Member assured Council that meetings would be taking place with the Home Office in relation to standard of accommodation for Asylum Seekers and other matters.

137 : CORPORATE SERVICES AND PERFORMANCE STATEMENT

Review of Voluntary Redundancy Scheme

The annual review of the Council's Voluntary Redundancy Scheme has been completed. Cabinet agreed on 21 January 2016 that this would remain unchanged for 2016/17. This decision was based on the fact that the scheme continues to be broadly comparable to that which operates elsewhere across Wales. Cabinet also took into account that in light of ongoing budgetary challenges faced by the Council, it will be important that the scheme continues to attract volunteers. All the Trade Unions stated their clear position that the Scheme should remain unchanged, pointing out the implications of any change should fewer and fewer staff volunteer to leave.

Schools moving to on-line HR Systems

The Council's HR System - DigiGov is now being used successfully in all schools for recording sickness absence and applying the relevant stages of the Attendance and Wellbeing Policy. Schools have welcomed having increased control of absence management as well as the direct access to real time data.

We are now rolling out a training programme for school staff who will then be able to use on-line HR Systems for undertaking contractual changes, exits, requests to extend temporary contracts and also processing overtime requests.

Review of Disciplinary Policy and associated procedures

Following an extensive and inclusive review involving consultation with Directorate representatives, Trade Unions, Equality Networks and Senior Management Team plus input from PRAP, from April 2016 the Council will have:

- a revised and streamlined Disciplinary Policy incorporating clarity of responsibilities for all those who have a role in this process, standardised processes to enable robust and transparent decision making and, a new formal Fast Track disciplinary procedure available for misconduct issues. The policy will be supplemented with provision of robust monitoring data to enable compliance to be monitored at Directorate and Senior Management level.

- 6 new comprehensive guidance documents for those involved in various aspects of the process (i.e. Hearing Chairs, Investigating Officers, Presenting Officers, Managers, Employees and Witnesses) have been produced to supplement the policy to ensure a more consistent approach, and better support for those involved with investigations.
- A new “Resolution Policy” to replace the existing Grievance and Bullying & Harassment policies, with an increased emphasis on early resolution of matters, with managers and Trade Unions involved collaboratively in order to resolve issues at an earlier stage, through a range of resolution methods such as additional training, support, coaching, advice, counselling and mediation. The new Internal Mediation service (within HR People Services) has been expanded, and provisions of the service are detailed in the new Resolution policy

The new arrangements will be subject to on-going monitoring, with an interim review at 6 months and a full review after 12 months operational experience. The revised arrangements represent a major cultural shift in how disciplinary / conduct issues will be addressed within the Council in the future.

Capability Procedure for Teachers and Headteachers

The Central South Consortium Capability Procedure for Teachers and Headteachers (December 2015) has been developed by HR officers across the five local authorities in full consultation with the trade unions and in line with guidance from the Welsh Government. A separate policy for support staff is being developed.

It is recognised that the capability and commitment of employees is fundamental to providing a high standard of education to pupils, and that Governing Bodies are committed to ensuring that all employees have the opportunity to develop the appropriate skills, knowledge, competence and aptitude to undertake their roles effectively. In the vast majority of cases, employees meet and exceed the performance requirements of their roles.

However, in some circumstances, individual employees may experience difficulties in demonstrating the levels of competence required to perform their role effectively. In such situations it is important to have adopted a policy which clearly outlines the procedure to be followed and the roles and responsibilities of those involved.

The Capability Procedure sets out a constructive approach to achieving improved work performance through effective supervision, mentoring, training, performance review and development. It ensures that competency issues are dealt with efficiently in a supportive and sensitive manner within agreed time periods and with clear outcomes at all stages.

The policy is recommended for adoption by all Governing Bodies.

Income Management Project

On 11 January 2016 we went live with the first phase of a significant income management project. Over the duration of the project we are updating our methods of dealing with all forms of payments including rationalising use of Chip & Pin devices, refreshing our internet e-payments portal and ensuring that the e-payments

options will render correctly no matter what type of device payments are being made on. This supports our analysis which shows a significant shift in the numbers of citizens transacting with us via smartphones and tablet devices like iPads compared to the traditional PC users.

Mobile working for carers

We are about to go live with a short pilot, followed by a full roll-out, of mobile and scheduling technology for the Adults Services Re-ablement team. This will use the same technologies previously deployed to Community Maintenance Services to enable homecare visits to be automatically scheduled in the most efficient manner possible according to carer location, and for carers to use mobile devices to receive and record their work, removing the requirement for paper schedules and frequent office visits.

ICT Apprentices

As part of our workforce strategy and commitment to developing skills in Digital technologies ICT have this year taken on three apprentices under the corporate apprenticeship scheme. One of these started out as a work placement from the looked after children (LAC) team.

Cardiff.gov.uk/Caerdydd.gov.uk

The Council Tax portal was introduced in December to allow customers the opportunity to check their Council Tax balance, see their instalment dates and also set up or amend their direct debits. Having this facility in place in preparation for the Council's annual billing period is a great step towards customers managing their account at times that suit them without having to call and speak to an advisor.

Parking permits online has also proved to be a success with customer use increasing so that the number of applications made online has outweighed those made by post. In December 1619 applications were made online in comparison to 943 made by post.

A new splash page was introduced using photos taken by the public which have been received via Social Media. The image will be replaced every 6 weeks.

Web Key Stats for December:

During Dec 2015, visits via a mobile device exceeded desktop for the first time, this is most likely due to residents viewing the changes to services over Christmas and New Year.

- The web received 670k Page views in total from 155k users.
- Recycling and Waste page views up 49% from 84k to 137k.
- 8,890 page views received for the Budget section up 790.78% over November's 998.
- City of Cardiff Councils Twitter has gained an average of 52 followers a day in the last 90 days and now has 52,306 followers.

C2C

In December, for the 2nd month in a row C2C hit the answer rate target every day and achieved a final answer rate of 96.06%. This was from a total of 52,122 calls.

Customer satisfaction remains high with 99% stating they were satisfied with the service from C2C out of 163 surveys and 96% satisfied with the service from the Repairs Reporting Line out of 50 surveys.

Strategic Estates

On target to deliver circa £4m in capital receipts by year end for the capitalisation programme.

Lots of activity with the office rationalisation programme with various moves on going including all of the Global Link staff into County Hall. These moves are all set to deliver revenue savings.

Investment board created following approval from Cabinet, new governance and strategy being implemented to improve the performance of the portfolio. Various Community Asset Transfers progressing with a range of community groups, recently completed and imminent CATs include Maes y Coed community centre, Highfields and Oaks garden nursery, Insole Court and Grange Gardens Bowls Pavilion.

Progressing various partnership opportunities with other public sector bodies to realise savings and efficiencies, ongoing projects include Global Link assignment of lease to the Local Health Board and Llanishen Police Station project with South Wales Police.

CTS

CTS now have several operatives trained to the Institute of Occupational Safety and Health standard recognised by the HSE for the measurement of equipment subject to Hand and Arm Vibration Syndrome. The service is available to all service areas which includes all the necessary information to effectively manage vibration exposure to operatives in line with the Control of Vibration at Work Regulations 2005.

The Lord Mayor invited questions on the statement and a number of matters were raised including the additional administrative responsibilities for administration staff at schools with the roll-out of Digigov. The Cabinet Member advised that the feedback from the 52 staff who had gone through the training programme had been good; and that another 72 staff were programmed to go through the training between January and March.

The Cabinet Member in response to a question on the revised Welsh Government Local Government budget settlement advised that the recalculation process and analysis of the public consultation was being completed.

Matters were raised around increasing on-line self-service provision in addition to C2C; and the logging of calls with C2C rather than being transferred directly to a service area.

138 : EARLY YEARS, CHILDREN AND FAMILIES STATEMENT

The new Children's Services Fostering Campaign has received positive feedback since its launch in late September and the number of enquiries received by the team has seen an impressive increase of 310% compared with the same period last year.

It is important to remember however, that we still have staggering number of around 600 children needing foster homes in Cardiff and a target of 300 new carers needs to be fulfilled in order to provide the care, support and homes that are necessary. The current situation means that some children have to be placed outside of the city meaning they have to uproot and move away from their school, friends and communities and sometimes siblings have to be separated.

By providing foster carers in house as opposed placing Cardiff Looked After children with Independent Fostering Agencies, the Council will also make savings on average of approximately £450 per foster placement, per week.

The Foster Team continue to recruit and it is essential that we as a Council support them by promoting and raising awareness of the service in our local wards and communities. The City of Cardiff Council offer competitive financial packages and exceptional support and training opportunities to foster carers.

Whether you or somebody you know could foster a child, or by helping to spread the word about fostering for the City of Cardiff Council, you could help make the difference to a Cardiff child or young person. Please visit www.fostercarecardiff.co.uk to find out more and help support this vital service.

There were no questions on the statement.

139 : COMMUNITY DEVELOPMENT, CO-OPERATIVE & SOCIAL ENTERPRISE STATEMENT

IAAF/Cardiff University World Half Marathon Championship

The Cabinet Member welcomed the news that Mo Farah would, subject to confirmation of his selection for the British Team on March 7th, be joining the prestigious competition line up for the IAAF/Cardiff University World Half Marathon Championship to be hosted in Cardiff on Saturday 26 March 2016.

The Olympic champion over 5000m and 10,000m will target the race in front of a home crowd to boost his preparations ahead of the Rio Olympic Games in August. Five-time world champion Farah will make his debut appearance at these Championships.

The Welsh public will get a rare chance to witness one of athletics' global stars competing around their capital city. And even better – together with the elite races Cardiff 2016 also provides a mass race for all level of runners to compete alongside

Mo Farah by 'Running in the Footsteps of Champions'. This is a once-in-a-lifetime opportunity and I would urge everyone to sign-up before the February 29th deadline if they have not already done so.

Grangetown's Hub

Grangetown Community Hub opened its doors for the first time on Monday 11th January, bringing a broader and improved range of services to the area. The former Grangetown Library building on Havelock Place has been extended and refurbished in order to develop the Hub, so that Council and partner agencies can deliver services from a single location. This will allow customers to engage with the Council more easily, and to access key information and amenities more quickly and conveniently than ever before.

Trained staff are on hand at the new Grangetown Hub to help visitors utilise a full library service, housing and benefits advice, Into Work services, a coffee shop run by BRG Communities First, and a community room. The facility also boasts an IT suite, free PCs, internet and Wi-Fi access, and free phones to contact the Council and other services. Citizens' Advice and Communities First are also available, and there will be visits from further partner organisations to provide specialist help and advice.

The Hub is open six days a week, Monday to Saturday, including a late evening on Wednesdays (10am - 7pm). To find out more about the Hub's services and events visit www.facebook.com/grangetownhub

Rumney Partnership Hub

The new Rumney Partnership Hub opened its doors on Monday 23 November. The new hub, which operates in partnership with Communities First, will provide a range of council and partner agency services including library services, advice and benefit services, public access computers and free telephones, a children's area, multi-use community room and interview room in the former Rumney Youth Centre building on Llanstephan Road.

Story and rhyme time events every Tuesday morning at 11am, as well as job club every Monday throughout the day. To find out more about the Hub's services and events visit www.facebook.com/Rumneyhub

Roath Library

Expressions of interest in the Community Asset Transfer of Roath Library and five bids have been received. Following assessment of the bids from a financial, legal and quality point of view, two bidders have been selected to progress to Stage 2 of the process and have been invited to submit a full business case.

There are clarification meetings arranged with the two selected bidders the week commencing 1st February. At these meetings discussions will take place on the requirements from the council in terms of the communal and library space. Additionally, the evidence the council will need to see in their business plan on financing and deliverability of their proposal. To allow time for the organisations to

fully investigate, carry their due diligence and submit a fully designed and costed business plan a deadline of 1st April will be given.

At this stage, it is looking positive that a third party organisation will be identified through the CAT process to take on the running of the building and to undertake necessary repair and conversion works. However, either organisation has yet to fully cost this work.

In the meantime, a temporary lease is being agreed our Health Partners to deliver a temporary library from Cardiff Royal Infirmary. Work will now commence in the next couple of weeks to establish a service from this building. It is also hoped that some open access PC provision will also be included in the building and this is currently being investigated.

Further provision has also been put in place at Plasnewydd Community Centre. The YMCA has recently taken over the building through the council's Community Asset Transfer process and through working in partnership some library provision is now being provided. There is a selection of books available and also the council runs Story and Rhyme Time classes every Friday at 10:30am.

Cathays Heritage Library

Consultation has commenced on the relocation of the Local Studies service into Cathays Library and establish a 'Heritage Library' while retaining Branch Library provision. I believe that Cathays Library would be a better solution for our customers for the following reasons:

- Well-known and much loved historical community building- Local Studies viewed as a complementary use
- Prominent and accessible location
- Large, inviting space for customers – refurbished in 2010
- Integral meeting room available for use by local groups
- Bank of public access PCs available for use
- Wi-Fi connectivity
- Standard branch library access times – open on Saturdays
- Sustainable solution for Local Studies and Cathays Library

The changes will obviously impact on the services provided in Cathays Library. There is potential to create a centre that will provide effective library and specialist information service to all age groups across Cardiff. Heritage Development is an exciting opportunity to deliver learning activities for citizens making innovative use of available technologies. The Library service is hoping that the creation of a Heritage Centre will allow for collaboration with schools in the development and delivery of a heritage based curriculum support programme. Key elements of Branch Library provision will be retained.

Full details of the proposal as well as a link to the survey can be found at www.cardiff.gov.uk/LocalStudies Consultation close date: Monday 15th February 2016.

The Lord Mayor invited questions on the statement and a number of matters were raised including the Cathays Heritage Library and the current levels and range of library stock. The Member was reassured that the move of local history services to Cathays would add services and not reduce them; the involvement of Local Members in the process to relocate the Roath Library, and the provision open-access PC provision. The Cabinet Member advised that Local Members would have an opportunity to see the space at Cardiff Royal Infirmary, and to see the information regarding Roath Library. Additional PC space had been installed in the Community Centre in Plasnewydd as a way of mitigating the current loss of provision.

The Cabinet Member took on board the suggestion that relevant sports organisation be asked to provide on their websites information for amateur runners, such as links to running clubs, training plans, etc.,

140 : EDUCATION STATEMENT

Performance of Cardiff's Schools in 2014/15

The Cabinet Member stated that the Council continues to build on last year's improvement. In certain areas standards are improving at a faster rate than Wales as a whole e.g. Foundation phase and key stage 2. Outcomes for pupils eligible for Free School Meals are improving at a faster rate than their peers in the primary phase and key stage 3. 4.5% increase in eFSM in level 2 inclusive thresholds is greater than 3.5% improvement across Wales as a whole.

At key stage 4 a significant improvement (4.9%) in the level 2 inclusive threshold to 60%. Halving the number of secondary schools where less than 40% of pupils achieve five GCSE's grades A-C, including English, Maths and Welsh from 6 to 3.

Minority Ethnic pupils as a whole at key stage 4 perform at least in line with white UK pupils.

An increase in the number of schools in the highest benchmarking quarter and a reduction in the number in the lowest Benchmarking quarter

But we are not complacent as a Local education Authority and we have a number of areas we are concerned about including:

- Variation in standards by schools with comparable pupil populations in both primary and secondary sectors;
- The low performance in three secondary schools which has also had a negative impact on the city's overall attainment, attendance and exclusion figures;
- Impact of poverty on standards of attainment: despite improvement in performance of pupils eligible for free school meals the gap remains too wide;
- Underachievement of certain groups of learners including some minority ethnic groups, white UK pupils in schools in deprived areas of the city and Looked after Children;

- Proportion of young people who are not in employment, education and training.

Good progress had been made in reducing fixed term exclusions (Cardiff rate of 1.1 per thousand pupils was below the Welsh average of 1.6 per thousand pupils) but the figure for shorter term exclusions was well above the national average 34.3 per 1000 pupils compared to 26.7 per thousand with 8 secondary schools having exclusions considerably above Wales and Cardiff averages. Since September 2015, 2 of the secondary schools are now in line with other secondary schools with low exclusions and a further four have been successful in reducing exclusions this term

The report also throws up some other issues for example the performance of girls in Cardiff – girls’ outcomes are higher than boys in most indicators but the performance of girls does not compare as well with national figures.

Youth Engagement and Progression Strategy – The Cardiff Commitment

This paper gives a clear corporate strategic direction for Cardiff Council and was agreed by the Cabinet to secure a positive destination for every young person in Cardiff after statutory schooling into employment, education or training working with partners. Alongside the development of the strategy (building on past policy) the council would work proactively to deliver “quick wins” where possible for example with a pilot of a “Junior Apprenticeship Scheme” for 14-16 year olds. We would also review our own Corporate Framework for work experience, work placements, traineeships and apprenticeships.

Schools’ Organisational Programme

The provision of additional school places and the improvement of our school buildings is a priority for Cardiff Council and a number of new schemes have had developments over the last two months including:

- Eastern High School – planning permission for the new school has been agreed
- Outcome of consultation on the additional provision of English medium and Welsh medium places in Splott & Adamsdown - Ysgol Glan Morfa will increase from 1FE to 2FE with up to 80 part time nursery places with the provision of a new standardised 2FE primary school at the Maltings from September 2017. Moorland Primary School will increase from 2FE to 3FE with 96 part time nursery places utilising the vacated Ysgol Glan Morfa buildings from September 2017
- Outcome of consultation on the additional provision of English Medium and Welsh Medium places in the 4 wards – Ninian Park Primary will increase from 2FE to 3 FE on its current site from September 2017. A new 2FE Welsh Medium school will be built on the Hamadryad site from September 2017 but a starter school will be established at Ninian Park in the interim. Subject to the approval of the Governing Body St Mary the Virgin Primary School will expand from 1FE to 2FE
- Outcome of consultation on a new secondary school in the West of the city: a statutory notice will be published to close Glyn Derw High School and

Michaelston Community College and establish a new community High School from 1st September 2017 and to transfer the new school to new build premises on the current Glyn Derw High School site from September 2018

- Consultation on Specialist Provision for Primary aged pupils with Speech and Language difficulties: The Cabinet has agreed to consult on re-shaping specialist education and how we can best meet the needs of children. The report also recommended consulting on whether Meadowbank School should be closed from September 2017 and the building used for alternative Additional Learning Needs provision
- Outcome of consultation Gabalfa Primary School and Ysgol Glan Ceubal: It was agreed that two one FE schools for each should be built back to back on the current site.

Overall over the last two months Cardiff Council has progressed schemes totalling 90 million for the building of new schools in our city through the 21st Century Schools Programme and joint funding with the Welsh Government. A real investment in our children's education.

The Lord Mayor invited questions on the statement and a number of matters were raised including schools performance; reporting of the Welsh Government's numeracy and literacy results; welcomed the progress on the Eastern High School development however a matters was raised around the cost of the DVD on presented to Planning Committee for the Eastern High School development; issues around the banding of schools like Adamsdown and Ninian Park in view of the issues around mobility of pupils and turnover rates; improvements in foundation stage and key stage two education attainment; reduction of the exclusion rates; projection of Education budgets; safer routes to schools and the current School Organisational programme for primary and secondary education school provision.

141 : ENVIRONMENT STATEMENT

The Cabinet Member in addition to a written statement made the following oral statement to Council on an incident at Thornhill Crematorium Chapel on 27th January 2016.

A quiet shocking incident occurred yesterday at Thornhill crematorium during a funeral service. This involved an inappropriate footage being played during the service on one of the 4 screens in the chapel.

The incident occurred on just one of the monitors which was installed to replace a faulty screen and until this week we have had no reports of anything like this happening previously.

An urgent investigation has been launched and an independent specialist Audio Visual company has been appointed to analyse the systems in a bid to establish how this unfortunate incident occurred. Once this has been completed a report will be produced detailing their findings.

We sincerely apologise to the family and mourners present who witnessed this incident and will continue to offer them our help and support and provide an

explanation to the family as to how this incident occurred in due course. The Authority has waived all of our costs and fees associated with the funeral service and burial.

The following written statement was received: -

Rent Smart Wales

The launch of Rent Smart Wales – Rent Smart Wales launched on 23 November 2015 and is a landmark landlord licensing scheme hailed as UK first being hosted by Cardiff Council. The new registration and licensing scheme will prevent rogue landlords and agents from letting and managing properties in Wales. It will also raise awareness with landlords, agents and tenants of their respective rights and responsibilities.

New staff were in place on the launch date having completed 3-4 weeks of induction training, documentation to support the processes had been developed and the infrastructure and database required for launch was in place. The marketing campaign, led by Welsh Government, was implemented and publicity included Lesley Griffiths AM and the Cabinet Member visiting Willcox House with press. Further development to the website / database is required post launch to ensure system is fit for next steps in the processing of registrations and licensing applications. A review of the fees set for Agents is also under consideration.

Flat Holm Island

The Cabinet Member was pleased to report that officers are making the final arrangements for the submission of an application to Keep Wales Tidy, for Green Flag status for Flat Holm Island. Flat Holm is both a unique and precious resource and I am sure that the prospects of success in securing Green Flag status which recognises the best parks and green spaces in the country will be enhanced through the work that the Council has been undertaking with partners involved in the management and development of the Island.

Victoria Park Splash Pad

The public engagement exercise carried out by the Council for the Victoria Park Splash Pad closed last week and I am delighted that in excess of 1,000 individuals responded, through the exercise two design options were presented and there was a clear front runner that polled 74.7% of the votes. Design staff in parks are working with our project partner to finalise the installation programme and an end of May opening has been targeted.

Apprenticeships

The Cabinet Member advised that last year a number of updates in respect of on the introduction of new Apprenticeships within the Environment portfolio, and, and of his committed to the introduction and development of further schemes that seek to strengthen and secure the skills base, enhance workforce planning and provide high quality employment opportunities for young people. As the largest employer in Wales

we have an obligation to be leading the way. The Cabinet Member was pleased to report that in recent weeks we have made appointments to, two new schemes within the Parks, Sport & Harbour Authority area, one a Marine Engineering Apprenticeship and one a Business Administration Apprenticeship.

Parc Cefn Onn

Next month will see the submission of the of the Stage 2 Heritage Lottery bid for Parc Cefn Onn and through the Parks for People Funding stream, the bid has been constructed in partnership with a wide range of stakeholder organisations including the Friends of Parc Cefn Onn. The total value of the project is anticipated to be circa 650k and will see a range improvements to the site focused on improving access to the site and its heritage for a wide and diverse range of users. A decision from HLF is anticipated in July.

Leaf Fall

The Cleansing teams have had another successful autumn, working hard to tackle leaf-fall across the city. The teams targeted each ward once a fortnight, visiting those streets with the highest footfall and leaf-fall. In addition, officers and teams responded quickly to priority requests for clearance (i.e. where leaf-fall was making pathways slippery). It was good to see that no complaints were received in October, only 1 in November and 4 in December from the public.

Waste Restricting Programme

The new waste restricting programme has also achieved its first mile stone. At the end of last month over 100,000 black bins had been exchanged across the City. The next phase is removing any remaining larger bins is also underway and overall we are on track with the project delivery. The recycling tonnages are beginning to increase, with over an extra 1200 tonnes being collected in the last quarter, so I would like to thank the public for supporting the changes and increasing their recycling habits.

Neighbourhood Services City Wide Roll Out

As you may already be aware, the Neighbourhood Services Project has been successfully piloted in the South West, West and City and South Neighbourhood Partnership areas since July last year. Due to the success of the project, we are now expanding it city wide to include the East, North and South East Neighbourhood Partnership areas. The project is being expanded city wide with immediate effect. In order for us to properly measure the performance of the service, we would be grateful if you would direct all of your enquiries regarding cleansing, environmental enforcement or parks cleansing/litter issues to C2C@cardiff.gov.uk from now onwards. This is designed to enable true measurement of the successes and for us to fully capture all of the trends and issues, and, most importantly enabling a quicker operational response to you and our resident's needs.

The Lord Mayor invited questions on the statement and a number of matters were raised including future of Flat Holm Island and increase access by visitors; the

success of the leaf-fall operation in Pontcanna supported by the Cleansing team and local residents and children; drainage issues with leaf-fall and flooding clarification on the criteria for the a dispensation for a larger bin for families of six or more.

NOTICE OF MOTION

142 : NOTICE OF MOTION 2

The Lord Mayor advised that a notice of motion proposed by Councillor Carter and seconded by Councillor Kelloway had been submitted and was included on the Summons for the meeting.

The Notice of Motion was as follows:

The Council notes that:

- There are 3,726 people in Cardiff living with dementia. The total number of people with dementia in the UK as a whole is forecast to increase to over 1 million by 2025 and over 2 million by 2051 if age-specific prevalence remains stable, and increases are only driven by demographic ageing.
- In September 2014, Council unanimously agreed to work towards making Cardiff a dementia supportive community.
- Cardiff Council is a strategic partner in Cardiff & Vale University Health Board's Dementia Three-Year Plan.
- Under the Cabinet's draft budget proposals, it is proposed to withdraw council funding for the Alzheimer's Society Day Support Service at Oldwell Court in Penylan.
- Oldwell Court supports 65 people across the city with moderate to severe symptoms of dementia; care needs include support with continence and feeding. It also provides respite for carers giving much needed emotional, practical support for those with complex needs.

The Council calls on the cabinet to act in accordance with its stated aim of supporting those living with dementia and their families, by pledging to safeguard funding for services at Oldwell Court for the 2016/17 financial year.

The Lord Mayor advised that one amendment had been received

Amendment 1 was proposed by Councillor Elsmore and seconded by Councillor Hunt as follows:

Bullet point 1: the addition of the word '*approximately*' prior to 3,726.

Bullet point 1: deletion of the second sentence.

Bullet point 3: correction to factual detail with the deletion of all words following the word partner and replace with '*in the Cardiff and Vale Dementia 3 Year Plan.*'

Bullet point 4: delete all words and replace with:

In relation to the Alzheimer's Society service at Oldwell Court, it is proposed that:

- *The Council will continue to fund places for those people who currently receive a service funded by the council at Oldwell Court*
- *The Council will continue funding for these individuals until such time as the arrangements are no longer required*
- *The Council will support the Alzheimer's Society to help them secure their current accommodation into the future.*

Addition of the following resolution:

'Accordingly, the Council resolves to work collaboratively with partners to ensure that we fully meet our commitments to older people including our commitment to making Cardiff a dementia supportive city.'

The Amended Motion would then read:

The Council notes:

- There are approximately 3,726 people in Cardiff living with dementia.
- In September 2014, Council unanimously agreed to work towards making Cardiff a dementia supportive community.
- Cardiff Council is a strategic partner in the Cardiff and Vale Dementia 3 Year Plan.
- In relation to the Alzheimer's Society service at Oldwell Court, it is proposed that:
 - The Council will continue to fund places for those people who currently receive a service funded by the council at Oldwell Court
 - The Council will continue funding for these individuals until such time as the arrangements are no longer required
 - The Council will support the Alzheimer's Society to help them secure their current accommodation into the future.

Accordingly, the Council resolves to work collaboratively with partners to ensure that we fully meet our commitments to older people including our commitment to making Cardiff a dementia supportive city.

The Lord Mayor invited debate on the motion.

Following the debate a vote on the Amendment proposed by Councillor Elsmore was taken.

The vote was CARRIED

The Lord Mayor called on Councillor Elsmore as the proposer of the amended motion to give the right of reply before going to the vote on the amended motion.

A vote was taken on the Substantive Motion.

The Motion was CARRIED.

143 : NOTICE OF MOTION 1

The Lord Mayor advised that a notice of motion proposed by Councillor McEvoy and seconded by Councillor Holden had been submitted and was included on the Summons for the meeting.

The Notice of Motion was as follows:

This Council notes the challenges faced by Cardiff in terms of recycling.

The Council therefore resolves to request the Cabinet to:

1. Re-open Waungron Road and Wedal Road recycling centres; and
2. Take forward a future decentralised approach to recycling.

The Lord Mayor advised that two amendments had been received

Amendment 1 was proposed by Councillor Cowan and seconded by Councillor Dianne Rees as follows:

Point 1: First line after *and* insert '*keep open*'

Point 1: First line after Centres insert '*based on the overwhelming views of the public*'.

Point 2: Deletion of all the words up to decentralised and replace with '*undertake discussions with all Councillors and the public on their views on a decentralised approach to recycling*'.

The Amended Motion would then read:

This Council notes the challenges faced by Cardiff in terms of recycling.

The Council therefore resolves to request the Cabinet to:

1. Re-open Waungron Road and keep open Wedal Road Recycling Centres, based on the overwhelming views of the public.
2. Undertake discussions with all Councillors and the public on their views on a decentralised approach to recycling

Amendment 2 was proposed by Councillor Derbyshire and seconded by: Councillor Michael as follows: -

After The Council therefore resolves to request the Cabinet to:

Deletion of Points 1 and 2 and replace with

- (i) Take all necessary steps to ensure the Welsh Government recycling targets are met, currently 58%, but increasing to 70% by 2025.
- (ii) Ensure the council provides 2 quality HWRCs and facilitates alternative recycling provision with the third sector such as reuse centre(s), pop up shops or mobile units, for residents in other parts of the city.
- (iii) Continue to provide recycling education, enforcement and help to residents.
- (iv) Increase future recycling by working with neighbouring authorities to explore ways of finding outlets for materials currently not recycled.
- (v) Look to develop further partnerships with Councils and companies to support high recycling, such as the one with the Vale of Glamorgan and Kelda Organic Energy Limited which will provide 98% recycling and energy from food waste in 2017 from our respective Counties.

The Amended Motion would then read:

The Council note the challenges faced by Cardiff in terms of recycling.

The Council therefore resolves to request the Cabinet to:

- (i) Take all necessary steps to ensure the Welsh Government recycling targets are met, currently 58%, but increasing to 70% by 2025.
- (ii) Ensure the council provides 2 quality HWRCs and facilitates alternative recycling provision with the third sector such as reuse centre(s), pop up shops or mobile units, for residents in other parts of the city.
- (iii) Continue to provide recycling education, enforcement and help to residents.
- (iv) Increase future recycling by working with neighbouring authorities to explore ways of finding outlets for materials currently not recycled.
- (v) Look to develop further partnerships with Councils and companies to support high recycling, such as the one with the Vale of Glamorgan and Kelda Organic Energy Limited which will provide 98% recycling and energy from food waste in 2017 from our respective Counties.

The Lord Mayor invited debate on the motion and amendments.

Councillor McEvoy confirmed that he accepted the first amendment as proposed by Councillor Cowan.

At the end of the debate a vote was taken on the first amendment as proposed by Councillor Cowan.

The vote on the first amendment by Councillor Cowan was LOST.

The Lord Mayor called for a vote on the second amendment as proposed by Councillor Derbyshire.

The vote on the second amendment was CARRIED

The Lord Mayor invited Councillor Derbyshire as the proposer of the Carried amendment the right of reply following which a vote was taken on the amended Motion as agreed.

The vote on the Substantive Motion was CARRIED.

144 : ORAL QUESTIONS

Question: *County Councillor Howells*

Arts and culture make a valuable contribution to the life of the city not just in terms of the economic benefits that they bring but also in contributing to community cohesion, health and wellbeing outcomes and educational attainment. What assessment has been made on the likely impact to these benefits that the proposed budget cuts will have?

Reply: *County Councillor Bradbury*

I would refer you to the answer I gave earlier on in response to the public question, when I gave a detailed reply about our historic support – which you had a part in – and our continued support for the arts in Cardiff.

To inform the budget process for 2016/17, a series of six equality impact assessments were completed. Meetings were also held with those organisations directly involved. In addition, representatives of the arts and culture community were invited to attend scrutiny – where you were at – to present their case for continued support in the arts.

The Council has received an overwhelming response from the arts community and these responses are being carefully considered and will help to inform the very difficult and final decision-making process over the next few weeks.

Supplementary question: *County Councillor Howells*

I'm not sure if you're a follower of Cardiff Without Culture on Facebook. It's an organisation of over 50 arts organisations. In fact, one of the public questions was from a representative earlier today. But they make a very valid point, and that is that culture makes life worth living and Cardiff a city worth living in – or a "liveable city".

This year we are seeing more than £700,000 worth of cuts to the arts in Cardiff. And that's on top of savage cuts which they've had last year and the year before. And, to my mind, no assessment has been made of the wider impact of these cuts. You say equality impact assessments have been undertaken but I don't think that any assessment has been made of the wider benefit to the economy. For example, Artes Mundi – the £40,000 we put into that delivers about £2.5m to the local economy.

And, similarly, the small grants we give to little organisations do so much to promote community cohesion.

So, in light this and in light of the better-than-anticipated budget settlement we've had, can I seriously ask that you reconsider these proposals?

Reply: *County Councillor Bradbury*

I can't comment on your last point because the process is still ongoing. However, it's important to note that the £700,000 figure that's been bandied around -- £495,000 of that, including Arts Active, is tied up in the procurement exercise for St David's Hall and New Theatre. If that goes through, whoever the partnership organisation who takes over the St David's Hall will be expected to continue on that Arts Active programme.

Now, Artes Mundi themselves have accepted that it wouldn't stop if we reduce the funding, but I take on board the points you've made there.

And no one knows more about the economic benefit of the arts. That's why I was the leading Cabinet Member to give a 125-year lease to Chapter, something that took years to finalise and I was the cabinet member who did.

Supplementary question: *County Councillor McEvoy*

Is it true that you've already found the money to avoid the worst of these cuts but you're just stringing this out to detract attention from other cuts which will come in the budget?

Reply: *County Councillor Bradbury*

No, that isn't true.

Question: *County Councillor Dianne Rees*

As the Capital City of Wales, our Local Studies Collection in Cardiff is visited by researchers from all over the world. Cardiff needs its collection to be accessible to the general public, encompassing all aspects of Cardiff's history and one of which its citizens can be proud. In view of the small area of Cathays Library designated to receive the "collection", what is not being moved to Cathays Library and why?

Reply: *County Councillor Bradbury*

Subject of course to the results of the current consultation exercise, the new heritage centre at Cathays Library will host the entirety of the Local Studies Collection that was formerly based within the Central Library. Shelving capacity will be maximised to ensure that no reduction in this collection will be necessary. The intention is to add to and enhance the existing library offer at Cathays.

Supplementary question: *County Councillor Dianne Rees*

I'm very relieved to say that, subject to consultation, the collections will be preserved in their entirety.

There is a considerable body of local opinion who are very concerned that none of this collection is dissipated. And there are other cities such as Bristol and Newtown, Powys that have local study facilities which give good access to original local records.

So, can you guarantee that not only will you not be breaking up the collections but that they will all be available in an appropriate and adequate space, matching facilities elsewhere? As a capital city, this is essential.

Reply: *County Councillor Bradbury*

Well, the Local History Studies section that was formerly based within central library will be going to Cathays. As you know from the Cabinet meeting that we had the other week when we considered this item, we set up a stakeholder group with partners right across, including Glamorgan Archives, the University, etc. to talk about how we can best display the rest of the work.

The fact is it's doing nobody any good being locked away in Dominions Way, where it's completely inaccessible and is costing us a lot of money. This is about getting the collections to the best locations which are most accessible and saving some money at the same time.

Supplementary question: *County Councillor Clark*

Could you clarify that, if the collection is going to be moved from Dominions Way, what would happen to the space in Dominions Way? Would that be leased, sold off – what would happen to that, please?

Reply: *County Councillor Bradbury*

We don't own Dominions Way, we rent it.

Question: *County Councillor McEvoy*

How many commercial leases have been sold by the Council since May 1st 2012?
How much has each one been sold for and for what period of time?

Reply: *County Councillor Bale*

The Council has granted 173 commercial leases since 1st May 2012 and I'm more than happy to get Officers to provide some information, subject to clarification on any issues of commercial confidentiality, in due course.

Question: *County Councillor Thorne*

Why has the Council contracted out the Contact Centre for Children's Services, which serves our most vulnerable children, to a private company based in Kent and moved away from in-house collaborative and charitable model of delivery?

Reply: *County Councillor Lent*

The decision to externally commission the supervised contact service formed part of the directorate savings in the 2015/16 budget, which was agreed by Council in February last year. The expected efficiency savings arising from this decision were based on the whole service being provided at scale by a single provider.

Due to the fact that the service was one that could be delivered by a range of providers (Including both Swanstaff voluntary sector organisations and private-sector providers), it was not permissible to undertake a single tender exercise and, therefore, a full tender was undertaken in order to procure the service.

A range of organisations submitted tenders and Swanstaff was awarded the contract as they scored the highest in the evaluation process.

I understand that the organisation has already contacted the Council's Economic Development service to seek assistance in making links with commercial landlords in order to identify local properties in the east and west of the city that would make suitable locations for the delivery of supervised contact.

Question: *County Councillor Clark*

What is the total revenue from each of the following Council income streams for the period April-December 2015 inclusive?

- Civil parking enforcement
- Moving traffic offences
- Resident parking permits
- Council car parking charges

Reply: *County Councillor Patel*

The Council's financial records show that the actual income received from April to December 2015 was as follows:

- Civil parking enforcement : £1,344,377
- Moving traffic offences: £1,882,104
- Resident parking permit: £235,178
- Council car parking charges for on- and off-street parking: £3,685,682

Supplementary question: *County Councillor Clark*

Obviously there is a cost to running these services, but if there is any remaining revenue after these costs are met, can you commit to ensuring that the necessary

funding is invested to address the numerous potholes and often poor road surfaces on Cardiff's roads?

Reply: *County Councillor Patel*

With all of these things, there are many projects which are in the pipeline. The parking strategy, as many of you will be aware, we've just been consulting on and there are many things which many of your Members have asked for. So all of those are the kind of things we will be looking at, and some of those funding will come from the civil enforcement. So, obviously, what we're going to be doing is looking at the whole range and, certainly, that will cover a large number of things.

Supplementary question: *County Councillor Richard Cook*

We have just passed the LDP at this meeting and you'll not be surprised for me to say that, in order for us to move to this 50/50 modal split, which we are moving very slowly at the moment, we have to increase cycling, we have to increase walking. I've asked you this before and you've been very reluctant to, but will you actually consider spending 50% of this £7m, by my rough mathematics, on walking and on cycling and then 50% on other modes (i.e. roads).

Reply: *County Councillor Patel*

As you are aware, I have already made it very clear – this is not a decision that is made by myself, this is a decision that will be taken by Full Council with anything to do with the budget, and that has been very clearly emphasised to you on a number of occasions. There is no such thing – and you are well aware, you've been on this Council long enough to know – that you cannot just say 50%.

Question: *County Councillor Graham Thomas*

Cardiff Council has objected to the Vale of Glamorgan Council's planning application to redevelop the Ely Brickworks due to the impact of heavy traffic and the impact on the environment. This was done following consultation with residents and local Councillors.

How will Cardiff Council ensure it remains consistent given the LDP proposals are on a much larger scale, affect our residents even more directly, and will have a much greater impact for similar reasons?

Reply: *County Councillor Michael*

I should just clarify that the planning application in question has been received by the Vale of Glamorgan Council as a Local Planning Authority but has not been admitted by the Council itself, which is what your question actually implies.

From a Cardiff perspective, all planning applications within the Council's administrative boundaries will continue to be assessed on their merits having regard to policy considerations and other relevant material factors.

Responses from local Members and residents will also continue to help to inform the consideration of submitted proposals.

Supplementary question: *County Councillor Graham Thomas*

So the Vale of Glamorgan have received this application to redevelop the derelict mineral site to take waste and supply of building materials. But on Ely Brickworks, Cardiff Council have objected to this application, I understand, believing that residents in the area would be subject to adverse impacts of heavy vehicle movements and there are sufficient grounds for the Vale to refuse the application given the likely impact of noise, vibration, dust, and general inconvenience from heavy vehicle movements.

Now the Ely Brickworks will require up to four HGVs an hour. However, the extension to Creigau Quarry will involve 146 HGV movements per day. Much more than Ely Brickworks, and the arguments are much the same: HGV movement, noise, dust, vibration. The similarities in the two cases are very similar.

So, please can you make sure that the residents of Creigau get the same respect shown to them when the application is considered?

Reply: *County Councillor Michael*

I think you should understand that I can't comment on an application on another authority.

As I said in the reply, every application will be judged on its individual merits. And that's exactly what we're going to do, wherever the application comes.

Supplementary question: *County Councillor McEvoy*

What is your view on the buffer-zone policy, and specifically its impact on the application from the Vale for the landfill site next to Caerau? And will your department be objecting on the grounds of the buffer-zone policy.

Reply: *County Councillor Michael*

The Vale of Glamorgan has refused [possibly "received"] this application. The Vale of Glamorgan quite rightly asked our Officers for their observations. This was duly done.

The Council officials acted exactly as they should, and our views have been told to the Vale.

The decision to do with it is not a matter for me, not a matter for you – it's a matter for the Vale. You are free to actually go to the Vale planning meeting – and if you don't know the date, I'm happy to give you the date, I'll even give you the bus fare if you want – you can do anything you like there. They make the decision, not us.

Question: *County Councillor McEvoy*

What guarantees does the Council offer that existing properties in Cardiff West won't be subject to higher flooding risks due to greenfield site development and what extra flood defences have been put in?

Reply: *County Councillor Patel*

The greenfield development in the LDP has been carefully considered against all relevant factors by the independent inspectors, who have concluded that the plan meets the LDP tests of soundness.

All future planning applications will be considered on their merits having regard to policy considerations and other material factors, including flood risk. The Council, therefore, has the ability to refuse planning permission for any future development proposals which are considered unacceptable in terms of flood risk.

Supplementary question: *County Councillor McEvoy*

You haven't actually answered the question, which is not surprising. I draw your attention to the second part of it: what extra flood defences have been put in?

Reply: *County Councillor Patel*

As you should be aware, with any planning application, when a planning application goes in, what they will do the Committee and, of course, the Officers, will look at all the planning guidance and all the protection will be put in there. In fact, with the new LDP and the new SPGs, we'll have far more protection. Unfortunately, you don't want those protections because you've just refused the LDP.

Supplementary question: *County Councillor Dianne Rees*

When the conditions are put in place to deal with flooding issues and also with building matters, will there be adequate numbers of Officers available to check that those conditions are being properly implemented? And I refer at the moment to planning applications which have been granted in my part of the ward where runoff of soil has been blocking up drains locally. So will there be sufficient Officers available to check, particularly on the scale of these developments which are proposed, that those conditions are being enforced?

Reply: *County Councillor Patel*

Yes, there will be.

Question: *County Councillor Magill*

Until now, Cardiff has been without an LDP since 2006 because the then Lib Dem/Plaid-run Council irresponsibly failed to produce a sound plan. The failure to

produce an LDP made it much harder for the Council and residents to protect open spaces from unsuitable development.

For years, the Labour Council, Julie Morgan AM, and campaigners have argued for a green belt for the north of Cardiff. Despite objections from developers, the Independent Planning Inspector has approved Cardiff's first green wedge to protect this land north of the M4 for the life of the LDP.

Whilst his decision means this wonderful landscape will be better protected than previously, will the Council continue to lobby for this protection to remain after 2026?

Reply: *County Councillor Patel*

Yes, we will continue to campaign for a green belt as we have done since 2012. I would also like to thank you and your ward colleagues for your campaign on the green belt and, of course, Julie Morgan as well.

Supplementary question: *County Councillor Magill*

I am glad to hear that you will continue to press for green belt designation for 2026 onwards. In the meantime, could you confirm that the LDP now being in place means that the land north of the M4 is now protected from now until 2026?

Reply: *County Councillor Patel*

I'm pleased to be able to say "absolutely". You know, clearly, the opposition didn't want that protection because they've turned the LDP down just now.

Supplementary question: *County Councillor Dianne Rees*

I'm really surprised at Councillor Magill's question because she's asking whether the Cabinet Member can guarantee that the Council will continue to lobby for protection to remain after 2026. Well, that shows incredible confidence you'll be still there in those times. But I think it's highly unlikely that either Councillor Patel or Councillor Magill will be in control, and neither will the Labour Party after 2026.

Question: *County Councillor Carter*

Will the Cabinet Member extend the current free pupil transport to Llanishen High School beyond the current academic year?

Reply: *County Councillor Merry*

To extend free transport, we would not only need to consider cost but also consistency and equitable treatment of other children in Cardiff, and I'm sure that's a point you will appreciate. I have asked officers to provide me with legal advice to confirm the position and I am happy to meet to discuss that further.

I have total sympathy for the parents in Llanedeyrn who have found themselves in this situation due to the way that the catchment areas were drawn up originally. What

I would hope, going forward, is that the building of the new school in the east of the city will relieve some of the pressure on St Teilo's. And, obviously, while it's a longer term prospect, within the LDP plans we've just passed there is a strategic site plan for a new high school in western Pontprennau.

Supplementary question: *County Councillor Carter*

Could you ask Officers to get some urgency as to get this judgement? I would appreciate an offer of a meeting. I think certainly if it was dealt with before Easter that would be very helpful. I'm conscious we have lots of anxious parents approaching us formally and informally about this with that clock ticking. So if you could give an assurance that you will at least try to get a decision from Officers by the spring that would be very helpful, I think, to mitigate some of the concerns.

Reply: *County Councillor Merry*

I'm not sure whether that was a question or not, Joe, but yes, of course. In terms of the advice I've had from Transport Officers, without saying too much, I actually wanted to have that confirmed legally.

Supplementary question: *County Councillor Weaver*

Could I just check – am I right in thinking that the previous Council did make it very clear that this was a time-limited transport offer? And was one of the justifications for it precisely because of the very short nature of the closure, which obviously could not possibly apply once the period of time has elapsed?

Reply: *County Councillor Merry*

It was time limited, which is why we're affected now, and some of the grounds given in that decision were about the short notice of the closure of Llanedeyrn and, obviously, those are grounds that are difficult to sustain now.

Question: *County Councillor Cowan*

Will the Cabinet Member make a statement on his view of the importance of Pedal Power to the residents of Cardiff?

Reply: *County Councillor Patel*

Pedal Power's value to Cardiff residents is principally through the promotion of general health and wellbeing through cycling and physical exercise, thereby promoting the Council's strategic objectives.

T

he charity provides cycle-hire facilities at locations in Pontcanna and Cardiff Bay for use by the public, including families and visitors to the city. Pedal Power also engages with communities to promote access to cycling opportunities, including women-only cycling and adults with learning disabilities.

Supplementary question: County Councillor Cowan

What discussions or meetings have you had personally with Pedal Power since their representations?

Reply: County Councillor Patel

A number of Cabinet Members have been over to Pedal Power back last year, and we've had a considerable amount of dialogue with them. Regarding the budget issues, what I'm going to be able to say straight clear: there's no decision been made – we won't know until we come into the Council chambers.

Supplementary question: County Councillor Howells

I'm sure, Councillor Patel that the grant we give to Pedal Power covers much of its back-office costs, which is something that some of the other grants it has won't- it can't be used for. And the threat of there being the possible need to charge for assessments for people with disabilities or to charge for carers to use the services that Pedal Power provide is very worrying for a lot of people in Cardiff.

So can I ask that you lobby very hard your colleagues on the Cabinet to ensure that this £10,000 – which, in the scheme of things, considering the better-than-anticipated settlement you've got – is not a lot, that this is reversed? And then can I also add the question which Councillor asked: have you yourself visited Pedal Power?

Reply: County Councillor Patel

The answer was very clear, actually. I did say "many of us", which meant me as well. The answer is "yes" – as simple as that. And regarding like I said earlier on with my previous answer that no decisions have been yet made on the funding.

Question: County Councillor Holden

How many horses grazing public land has the council seized using the laws provided to it and how many of those horses have been destroyed due to lack of appropriate facilities to house them?

Reply: County Councillor Derbyshire

The Control of Horses (Wales) Act came into force on 28th January 2014 and since that time, Cardiff Council has seized 178 horses from public land. Of these:

- 91 were rehomed to charities,
- 61 were returned to their owners upon payment of fines, and
- 26 were destroyed humanely due to problems relating to their temperament and not because of any lack of appropriate facilities. Every attempt is made to rehome every horse safely but, for some horses, it is unfortunately the only outcome.

Supplementary question: County Councillor Dianne Rees

On every journey from the east of the city to the bay along Rover Way, one sees tethered horses on a very short rein grazing in shocking conditions on grass highway verges. Why is this tolerated by the Council?

Reply: *County Councillor Derbyshire*

It isn't generally tolerated by the Council. The difficulty we have is always what to do about the horses at the time and if they're not in a distressed condition, for instance, it's very difficult to deal with because it's also the Police get involved, as you know. It's been an ongoing problem in the city for as long as I've been a Councillor – since 1999 – and before then.

It's a real challenge for us. I came across a horse very recently in Pengham Green that was probably dead on the grass verge and the Council has to deal with that. It's a difficult situation. We haven't got – and I will have to talk about resources here – we haven't got the resources to go around and seize all those horses and do something about them just like that. We've got to be selective about how we do it.

Question: *County Councillor Weaver*

If the LDP has passed, how quickly will we start to see new Supplementary Planning be published or consulted on?

Reply: *County Councillor Patel*

One of the benefits of having a new LDP in place is the opportunity to prepare and approve a new suite of updated Supplementary Planning Guidance to provide the best possible guidance on development proposals consistent with the plan.

Some 28 SPGs are already programmed to be prepared in three tranches over the next 18 months. Officers have already started work on drafting SPGs, including guidance on HMOs.

I would also like to thank you and your ward colleagues for your involvement in the HMO SPGs.

Supplementary question: *County Councillor Weaver*

I think it's really important the Council cracks on with all the planning guidance, which should be as up to date as possible now that we have the LDP. What I'm going to ask you is to urge that the HMO policy that will affect – potentially could affect the entire city – but is particularly important in Cathays and Roath is a priority. We want to see us use all the powers to have to ensure that the houses of multiple occupation in this city are of good quality for the tenants in them, and their neighbours, and that we ensure a balanced mix of housing in every ward in the city.

Reply: *County Councillor Patel*

I would certainly agree with that. And, certainly now, we've got to be able to do new SPGs because of the LDP, whereas with an old LDP – or old "plan", I should say –

which is nearly 20 years old, our hands were tied, whereas now we've got a new SPG which will cover all of those things.

Question: *County Councillor Bowden*

Will the Cabinet Member give details on what the Council is doing to raise teaching standards in Cardiff schools?

Reply: *County Councillor Merry*

The Council delivers support, monitoring, challenge, and intervention to schools in Cardiff through joint working with the Central South Consortium and the Welsh Government Challenge Cymru programme.

The Council is working with the Central South Consortium to raise teaching standards in Cardiff to develop high-quality teaching and learning across all sectors, including specific strategies for literacy and numeracy; Commission appropriate and tailored services from the Consortium to challenge and support school improvement; and to improve pupil tracking and target setting.

Our recent strategy has been focussing on strengthening partnerships to raise standards and, where necessary, taking action where standards were not improving. We can see the impact through improved outcomes, better engagement, and a change in professional practices.

Supplementary question: *County Councillor Bowden*

Are you supportive of the Teach First scheme, which is the independent charity which has placed participants right across secondary schools in Cardiff in areas where there is significant deprivation? There is strong evidence from more established work that they've done in England that Teach First is having a real impact on improving pupil outcomes and, on some of the more softer outcomes like inspiring more of our young people to aim for university or an apprenticeship.

Reply: *County Councillor Merry*

I actually met with representatives from Teach First two weeks ago and I have to be honest – I was very, very impressed by what they said. What I particularly appreciated was their clear moral focus on actually raising the standards of education across the board, but particularly in some of our most deprived communities.

Supplementary question: *County Councillor Boyle*

Staff from a number of local schools, including the two at which I am a governor, recently visited Cyril Jackson Primary School in Tower Hamlets, which has just received two excellent grades from Ofsted. That school, with a standard two-form entry has, we've been told, a head teacher and five members of a senior leadership team, none of whom teach and all of whom are free to focus on delivering consistency of teaching.

What's the key lesson from that in terms of driving up teaching standards?

Reply: *County Councillor Merry*

I have to be honest, Joe – I have enough issues keeping track of what we're doing in Cardiff, let alone Tower Hamlets. I mean, clearly there are funding issues but we have, as a local authority, done very well protecting funding compared to other Welsh councils.

Question: *County Councillor Sanders*

Will the Cabinet Member commit to review the road repair schedules in light of the adverse weather making many roads across the city very dangerous?

I know of several examples of large potholes appearing causing car damage in Rhiwbina. I am very grateful to workmen who undertook emergency repairs in the pouring rain one evening. Perhaps another use for the pot of money generate from fines for driving in bus lanes!

Reply: *County Councillor Patel*

Yes, we are currently considering options for the implementation of an improvement programme to address localised carriageway deterioration in the city.

Supplementary question: *County Councillor Sanders*

Can I just ask – you said you're considering options – could you give me a timescale of when those options will be decided on? And also could you confirm that any funding that might be needed will be found and whether the famous funding from the bus lanes might be a place to get it from?

Reply: *County Councillor Patel*

Obviously, I can't give an exact time of when it will happen but certainly there is a programme that we are looking at, which is going to be city wide, which we are doing on a yearly basis – we look at all the roads. And, of course, some of the funding will be coming from those avenues which we already touched on – some reinforcement areas, etc. But, at this moment, there is a programme and I can assure you we will be looking at those roads.

Supplementary question: *County Councillor Howells*

We all know, driving through the city that the number of potholes is increasing. And you only have to drive through Adamsdown to see evidence of that. Metal Street in particular – I've reported potholes there on three occasions. Each time, they've been filled in, repaired, but the pothole has reappeared. So we need something more substantial.

So could I urge you, in situations like that where there is an ongoing issue where potholes can't have a little patch-up repair – where they need proper road resurface – that you use some of the money that you've got now from the moving-traffic offenses and the civil parking enforcement to do a proper job on roads like Metal Street?

Reply: *County Councillor Patel*

I do understand the concerns you've expressed. Obviously, not ideal if a pothole keeps having to be repaired. But you haven't, or I certainly haven't received any emails from yourself regarding those problems

Please let me know if you've got a repeated problem of that nature because if you have, what we would certainly need to look at is a catalogue of problems of , say, potholes reappearing constantly, we would have to look at doing a permanent repair, and I would have to talk to the Officers to say "why are we constantly going back to the same pothole when they could be done on a more permanent basis?"

Question: *County Councillor Woodman*

From the beginning of the rollout of smaller black wheelie bins across the city to date, how many bins have been reported stolen and how many people have paid the £25 charge to replace them, please, and during this time period, how many people have been charged a fee for the provision of bins of any description when starting a Council tenancy or taking up occupancy within a house of multi-occupancy (HMO), and the total monies received by the Council from this charging when a tenancy begins or occupancy of an HMO?

Reply: *County Councillor Derbyshire*

There have been – you got your pen ready? – 239 reports of lost or stolen bins. In these cases, 219 payments were made of £25 for replacement bins. If a property does not have a bin due to it being missing, lost, or stolen, then the occupant is charged in accordance with the existing charging policy. The number of payments made in communal bin can be made available and I can provide you with the additional information following the meeting. We treat everyone the same whether they're living in a house or an HMO property. The policy now addresses the long-standing inconsistency in bin charges that existed previously between householders and HMO tenants.

The Council would not get involved in any negotiations as to whether the tenant, property management company, or landlord makes a payment. These issues are specific to the individual tenancy agreements.

Supplementary question: *County Councillor Woodman*

The reason I've asked this question is I've been made aware – only I still have to check it out 100% – that somebody took over a Council tenancy and, because the food bin wasn't there or their waste bins, they were charged £25 to replace bins. Now, if someone takes over a Council tenancy, I'm sure you would agree that property should be ready for them to move in and it isn't their fault if the bins are not there – they should be provided by the Council.

So can you confirm – I know it touches a bit on Councillor Elsmore's portfolio – that anyone taking over a Council tenancy should not have to pay to replace bins that are not there when they take over the tenancy?

Reply: *County Councillor Derbyshire*

In terms of the food bin, there is no charge for replacing the food bin – neither the kitchen caddy or the one that goes out. In terms of the other bins, I'm seeking some clarification myself on that and there is currently – I understand it's to do with whether or not the housing side of Council pay for the bin or whatever. So there's something that we need to clarify on that, and I'm seeking clarification at the moment on that.

And I'll also, just to give you some comfort – as normally with these things – I will be reviewing this policy over the next few weeks, particularly in line with other councils, whether or not we're doing the same sorts of things that are being done elsewhere to make sure we're trying to be relatively consistent in our approach.

Supplementary question: *County Councillor Cowan*

I don't agree with charging for stolen bins but I'd just like to say thank you, Councillor Derbyshire for clarifying the matter, because I was under the impression that the green and black bins were charged but also the brown food caddies outside.

Is there any charge at all for the small brown caddies and has it always been consistently no charge for people for the replacement of those?

Reply: *County Councillor Derbyshire*

I can't categorically say there's never been a charge for it because, obviously, I've only been in the post for two years. What I can say is that, since I've been in charge, there hasn't been a charge.

Question: *County Councillor Cowan*

Will the Cabinet Member confirm that no branch library will have funding withdrawn in the financial year 2016/17 which would cause it to close?

Reply: *County Councillor Bradbury*

As stated previously, there has been a firm commitment made by this administration to fund branch library services until the end of this Council term in 2017.

Library Officers are looking at opportunities for securing alternative funding streams, including possible commercial aspects, in order to make the service more sustainable in the longer term. However, there are no plans to close any branches or withdraw funding.

Question: *County Councillor McEvoy*

What assurance can the Cabinet Member give that Child Protection Conferences in Cardiff are properly chaired and that children's allegations of abuse are properly recorded and acted upon?

Reply: *County Councillor Lent*

As you have already been advised on numerous occasions, I am able to confirm that, following an external independent complaints investigation and a subsequent review by a second and highly regarded independent professional, the governance and monitoring arrangements in relation to child protection case conferences are robust, effective, and appropriately recorded and managed.

Further improvements to this process have included refresher training for all conference chairpersons and the planned introduction of contemporaneous audio recording at all conferences, supported by appropriate information governance measures.

In addition, all children entering the child protection conference arena are offered an independent advocate from the National Youth Advisory Service, subject to parental consent. More recently, this is now supported by a protocol designed to encourage parental consent.

Supplementary question: *County Councillor McEvoy*

I welcome the audio recording because at least now parents won't feel the need to record conferences because of a lack of trust.

If the system is robust, then how can a chair who discounted the allegation of abuse from a child, firstly; secondly, refused to discuss a paedophile disclosure, and thirdly, made up a load of allegations about an elected member and then withdrew them when it became apparent that a recording of the conference actually existed – so how can a person like that still chair child protection conferences in this city? How? Please explain.

Reply: *County Councillor Lent*

Councillor McEvoy, you're never going to get it, are you, that you've made allegations here which are unfounded, you've disclosed possibly confidential personal information. It's just your view – you've had the opportunity to come and discuss any concerns that you have and all you're doing in this chamber is sowing doubts that don't need to be there.

We've said time and time again, and this will be shown in all the inspections that go on, that our procedures are robust. And you are- you know, it's just ridiculous what you're doing.

Question: *County Councillor Hunt*

Local people, the Reservoir Action Group, and we as Llanishen Councillors are all delighted that after a 12-year battle, the community has achieved its aims with Welsh Water acquiring a 999-year lease on Llanishen and Lisvane Reservoirs. Can we be assured that you will ensure that the Council gives whatever support it can to Welsh Water to achieve their aspirations to refill Llanishen Reservoir and to give public access to the site?

Reply: *County Councillor Patel*

I agree that this is excellent news. And I would like to thank you and your ward colleagues, and of course Julie Morgan AM, for the considerable efforts put in by all of you and by many people and organisations over so many years.

I can assure you that the Council will provide all the support it can to help Welsh Water in fulfilling their aspirations to refill the reservoir and restore public access.

Supplementary question: *County Councillor Hunt*

Would you agree with me that, on the basis of the Local Plan decision that we've now taken, that it's vital that consideration is given to the particular highway concerns that have been brought up as far as the reservoir development is concerned – over the last few years especially when the matter was considered at the public inquiry relating to the reservoir – and can you give an assurance that those particular aspects will be considered at any future development or consideration?

Reply: *County Councillor Patel*

Absolutely without any doubt. This is something which many of you have worked on so long, and we've got to do everything possible to make sure that this is absolutely restored back to where it was hopefully.

Supplementary question: *County Councillor Graham*

First of all, I'd like to welcome the administration's success on this matter. It's great to see.

I'd merely like to remind the Cabinet that Members of quite a lot of political parties across the political spectrum have been involved for many, many years in this campaign – the Liberal Democrats, and from my own party I can say that our previous Member of Parliament, Jonathan Evans, and the current Member of Parliament, Craig Williams, have been hugely involved in this campaign. So I'd just like to remind the Council of that. Also former Councillors, as well.

And I hope that, in the reception that you are holding for this success, I hope that you extend invitations to members of parties in Cardiff North who have been involved over many years on this matter.

Reply: *County Councillor Patel*

In fact I did mention it in my sentence because I did say “many people and organisations”. And let's be honest and truthful here – Julie Morgan AM has been involved in this for the last 10 years, so she's been clearly campaigning for that. But, like I said very clearly – you should be listening closer – I did say “many people and organisations over many years have been involved.”

Question: *County Councillor Boyle*

In light of the growing pressures on school places, is it worth exploring whether the Howardian Centre could be spared from demolition and brought back into permanent use as a school?

Reply: *County Councillor Merry*

Councillor Boyle, people are usually asking me to build them a new school. Arrangements have been made to accommodate the children in the new Howardian Primary School Howardian Centre building for a temporary period as there are sufficient suitable facilities for the transition period.

However, in the longer term, the Howardian Centre is neither suitable for the delivery of the modern curriculum for a full two-form-entry primary school, nor for the purpose of providing secondary education.

Officers are looking at the different options to provide appropriately for the demand in this area, along with the other catchments that are experiencing significant growth across the city.

Supplementary question: *County Councillor Boyle*

Thank you, that's very useful because there have been rumours circulating that the Howardian Centre was going to be retained in some form and brought back once the new primary school had been moved into its new build. It's useful to have the clarification that there is no long-term future for the Howardian Centre as it stands now. And I'm right in understanding that?

Reply: *County Councillor Merry*

Just one quick point on that is, obviously, we have given a very clear direction about the community use of schools and I know there is a loss to the local area but that is something we can discuss.

Question: *County Councillor Graham Thomas*

Earlier this month there was a serious three-vehicle accident on Llantrisant Road near its junction with Croft y Genau Road. Two cars left the road completely, one landing on its roof.

I have been campaigning for years to get this area made into a 40mph zone, as accidents happen all too frequently on this busy stretch of road. This has been evaluated and approved for investment but I am still waiting for an implementation date. When will it happen?

Reply: *County Councillor Patel*

I am pleased to confirm that the necessary Traffic Order has been obtained to make the speed limit 40mph through the junction. Officers are now in the detailed design

process and we intend to implement the scheme before the end of the current financial year.

Supplementary question: *County Councillor Graham Thomas*

I was dismayed to learn this morning of two more accidents on that exact same stretch of road amongst residents' supports of lack of gritting, although I don't know how factual that bit is. This is possibly one of Cardiff's worst black spots at the moment for accidents and something has to happen quickly.

The local and the wider community urgently needs a review of this stretch of road. We need an update on drainage – is there water freezing on the road? Is there sufficient gritting? More speed signs – a speed review.

Would you please keep this high on your agenda before we have any more of these stray incidents?

Reply: *County Councillor Patel*

Certainly. Anyone who has an accident anywhere, that investigation will have to take place in a proper manner. And, obviously, the experts will have a look at what caused that and the feedback will come back and, obviously, if it is ice or if it's something else, we will have to look at if there is any measures we can put in to try and mitigate those. Obviously, sometimes it is not always down to the condition of the road – it could be many other reasons as well. But what I can say is the question you've asked, that is certainly going to be implemented.

Question: *County Councillor Magill*

It is fantastic to see that our four-year campaign as candidates and Councillors for Llanishen and Thornhill to save Llanishen Police Station as a community hub is coming to fruition and that the recent public consultation has resulted in such positive feedback. Please could you confirm the timetable for the new hub being operational?

Reply: *County Councillor Bradbury*

The positive feedback from the public consultation on the Llanishen Hub proposals is encouraging and will be reported to Cabinet in March, seeking authority to proceed with the project.

Subject to the decision of Cabinet, the current programme for converting part of the Llanishen Police Station into a community hub is for work to start late autumn, with the hub opening in spring next year.

There is a preliminary programme and is dependent on:

- planning and other necessary consents being obtained,
- completion of detailed design and specifications,
- the outcome of tender processes and contractor appointment, and
- finalisation of lease arrangements with the Police.

Ward Members will be kept informed of the progress.

Supplementary question: *County Councillor Magill*

It's obviously a very welcome development in Llanishen Village and people will be very pleased that we're making this progress. It's very encouraging to see how many people took part in the consultation and who were supportive of what was being proposed.

As you know, Llanishen has a library in outdated accommodation that's planned to move into the hub. Some people appear to think this impacts on Rhiwbina Library. Please could you confirm that this is not the case?

Reply: *County Councillor Bradbury*

I can confirm that is not the case.

Supplementary question: *County Councillor Cowan*

I find it a little bit worrying that the Lord Mayor has got a copy of the supplementary when you're not supposed to know what Councillor Bradbury's actually going to speak from his mouth. That's deeply worrying but that that's for another day.

Councillor Bradbury, in your opinion, do you think hubs will be replacing libraries in the future?

Reply: *County Councillor Bradbury*

I think the hub model is certainly working and it's been noted by Mold, it's been noted by Welsh Government, and it's certainly a better model than the model we have in England where, under the UK government in England, over 400 libraries, because of cuts to local governments in England, have closed.

I would rather merge services and look at ways to keep the library service going than close libraries, which has been the case in England due to the massive amount of local government cuts that the party that you're now a member of has presided over.

Question: *County Councillor Howells*

Did Cardiff Council submit an application for the 2016 Stonewall Workplace Equality Index?

Reply: *County Councillor Bale*

You will be aware, Councillor Howells, that back in 2011 under the previous administration, the applications to take part in this survey were stopped as a result of resource constraints and capacity issues. However, I have asked Officers to look again at that decision.

I can also confirm that I have asked Officers to develop a submission, along with the Cabinet Member for Education, to the Stonewall Education Index by the end of

March this year. This measures how well we perform homophobic, biphobic, and transphobic bullying in our schools.

Supplementary question: County Councillor Howells

Thank you for that. That's the most encouraging response I've had on this question for a number of years. And you know I've been asking it every year because the Workplace Equality Index is more than just how we are assessed in terms of our LGBT equality – it's also how we compare with our peers. So, to see a list announced last week which had the National Assembly for Wales, the Welsh Government, RCT Council, Carmarthen Council – and congratulations to them, by the way, for their achievements – but to not have us there was, quite frankly, an embarrassment. If they can do it, I see no reason why we should continue to snub it so I'm glad that you're reconsidering the decision.

As you said, we have a proud record on LGBT rights on Cardiff Council. I don't see any reason why we should be keeping that in the closet.

Reply: County Councillor Bale

Clearly, I wasn't a Councillor at the time of the decision in 2011 to actually cease participation in this. But what I will say is that I know Councillor De'Ath is doing considerable work with Officers on our equality plan making sure that not just in areas such as homophobic bullying, but more broadly, we are looking at the equality agenda and doing what we can in the city to promote that.

Question: County Councillor White

What pressure can this Council bring to bear on the Government to ensure that asylum seekers are not subjected to the inhumane red wristband treatment that was meted out in our city?

Reply: County Councillor Elsmore

As I referred to earlier and many Members will be aware, services for asylum seekers in Cardiff are managed by Clearsprings/Ready Homes. This company operates under contract with the Home Office and we have no direct control over the operation of their services.

The practice you refer to is absolutely unacceptable.

On Monday this week, the Leader and I wrote jointly to James Brokenshire MP, the UK Government Immigration Minister, to express our concerns. We also requested an urgent update on action taken to rectify the current situation and to prevent any similar issues arising in the future.

I am assured that the practice has been withdrawn.

Supplementary question: *County Councillor White*

What's this Council doing, together with partners, to make asylum seekers feel really welcome in this city?

Reply: *County Councillor Elsmore*

It's very, very important, as you said, to emphasise the work that we're doing across the public sector with partners.

We're working to ensure that our welcome is as warm as possible and that we can live up to our status as a city of sanctuary; we're working with health to ensure that the appropriate clinical services are in place; our housing partners, in terms of accommodation; the third sector, who provide so important support services, are available; our leadership group, which is going to meet next on the 10th of February; and we are planning a comprehensive system of services and support both for adults and children. I'm working, importantly, with cabinet colleagues in Children's Services and Education so that our services are joined up. We're also working, of course, importantly, with our civic organisations, Citizens Cymru, Muslim Council of Wales, Jewish representatives, and our City of Sanctuary representatives. I spoke with Jonathan Cox, who is our deputy director of Citizens UK and he updated me saying that Cardiff has a refugee welcome committee and all sorts of things are going on.

Supplementary question: *County Councillor Dianne Rees*

While this was undoubtedly a deeply insensitive error of judgement, it is also completely insensitive to describe the wearing of red wristbands as inhumane and to compare it to the treatment meted out by Nazis, who murdered millions of innocent people in the Holocaust. And this was on Holocaust Remembrance Day.

Question: *County Councillor Dilwar Ali*

Cardiff Bay is a well-known, thriving tourist destination, recently highlighted in the news about how it could look with a Barcelona-style beach. Can you explore the financial cost?

Reply: *County Councillor Bale*

Thank you very much for this question, Councillor Ali, and I did see the article about the possibility of a Barcelona-style beach in Cardiff Bay. We obviously have many excellent visitor attractions including the Cardiff beach which will run again from July to early September in Roald Dahl Plass as it is hugely popular. We are looking at a master plan of Cardiff Bay and we obviously will be looking at opportunities including whether there is potential to increase the usage of recreational leisure activities in the Bay as part of that work.

Supplementary question: *County Councillor Dianne Rees*

I'm interested in this question. I'm just wondering if the Leader could also explore the provision of sunshine – Barcelona-style sunshine – for Cardiff Bay Beach. And, also, perhaps Julie Morgan could help.

Reply: *County Councillor Bale*

I'll certainly ask her when I see her next.

Question: *County Councillor Dilwar Ali*

During the work to convert Llandaff North Library into a new community hub, will there be any alternative facilities, such as a mobile library, in the area?

Reply: *County Councillor Bradbury*

Officers are currently engaged in scoping the potential to deliver temporary library provision in the area to ensure that inconvenience to the citizens is limited as much as possible.

Alternative sites that have the potential to host book collections are also being identified and a schedule of these is being prepared.

The Neighbourhood Development Librarians will also visit the area to ensure that Library Reader Development Programmes, such as the Summer Reading Challenge, will continue to be delivered prior to the reopening of a much improved library and Hub facility in Llandaff North.

Supplementary question: *County Councillor Cowan*

I understand previously that there were issues with the mobile vehicles and whether or not they were in an appropriate state to take out to people, whether or not they were fit for purpose. Are they all fit for purpose and are they in operational use, now?

Reply: *County Councillor Bradbury*

Yes.

145 : URGENT BUSINESS

The Lord Mayor advised that he had received one item for urgent consideration by Council from Councillor McEvoy.

The Lord Mayor ruled the matter could not be considered at this meeting as it did not meet the tests of Rule 22 (k) and Rule 35 of the Council Procedure Rule.

146 : APPOINTMENT OF LOCAL AUTHORITY GOVERNORS TO SCHOOL GOVERNING BODIES

The Council was advised that the Local Authority Governor Panel had met on 21 January 2016 to make recommendations for approval by Full Council.

RESOLVED - That the following appointments to Local Authority School Governors be approved: -

(a) Existing School Governor Vacancies

School	Ward	Start of Vacancy	Approved
Willows High School	Splott	26/11/2015	Rachel Jones
Woodlands High School	Caerau	10/12/2015	Ann Cocchiara
Ysgol Gyfun Gymraeg Glantaf	Llandaff	09/01/2016	Rhodri ab Owen
Gladstone Primary School	Cathays	04/11/2015	Sarah Crosbie
Glan Yr Afon Primary School	Llanrumney	14/09/2015	Emma Haygarth
Kitchener Primary School	Riverside	05/07/2015	Ceri Veysey
The Court School	Llanishen	22/07/2015	Joshua Parmar
Trelai Primary School	Caerau	04/11/2015	Rachel Maycock
Tremorfa Nursery School	Splott	20/09/2014 02/12/2015	Charlotte Squire-Davies Natalie Stork
Ysgol Gymraeg Coed-Y-Gof	Fairwater	11/02/2014 24/09/2015	Charmaine Smikle Ceri Landers
Ysgol Pencae	Llandaff	04/07/2015	Gwyn Roberts

(b) Future LA Governor Vacancies

School	Ward	Start of Vacancy	Approved
Fitzalan High School	Canton	27/01/2016	Shashikala Mansfield
Radyr Comprehensive School	Radyr	27/01/2016	Gary Johnson
Fairwater Primary School	Fairwater	24/02/2016	Cllr Paul Mitchell
Grangetown Nursery School	Grangetown	18/05/2016	Cllr Lynda Thorne
Radyr Primary School	Radyr	18/03/2016	Ceri Evans
Springwood Primary School	Pentwyn	24/02/2016	Della Perrins
St Monica's C/W Primary School	Cathays	27/01/2016	Daniel Caunt
The Hollies School (Pentwyn)	Pentwyn	23/03/2016	Brinley Groves
Ysgol Pwll Coch	Canton	27/01/2016	Helen Sharkey

147 : APPOINTMENT OF LOCAL AUTHORITY, PARENT AND STAFF SCHOOL GOVERNORS TO NEW TEMPORARY GOVERNING BODIES

The Council was requested to appoint Local Authority Governors and Parent Governors to new Temporary Governing Bodies for both the proposed new secondary school in the West and the proposed new Welsh-Medium primary school on the Hamadryad site. The Local Authority Governors Panel met on 21 January 2016 to consider the applications for the Local Authority Governor positions and their recommendations are contained in Appendix 1 to this report. The Panel also noted the applications for the Parent Governor positions.

RESOLVED - That the following appointments of Local Authority and Parent School Governors to the Temporary Governing Bodies be approved:

- (a) Appointments to the Temporary Governing Body for the proposed new secondary school in the West of Cardiff

School	Ward	Start of Vacancy	Approved
Local Authority (5 x LA Governor appointments required)	Ely/Caerau	01/02/2016	Keith Brooks Dewi Jones Janice Lane Cllr Jim Murphy Zenny Saunders
Parent (6 x Parent Governor appointments required)	Ely/Caerau	01/02/2016	Lorraine Clark Ruth Dophin Julie James Asha Singh

- (b) Appointments to the Temporary Governing Body for the proposed new Welsh-Medium primary school on the Hamadryad site

School	Ward	Start of Vacancy	Approved
Local Authority (2 x LA Governor appointments required)	Butetown	01/02/2016	Mair Parry Jones Cllr Ali Ahmed
Parent (3 x Parent Governor appointments required)	Butetown	01/02/2016	Dylan Foster Evans Iona Edwards

148 : COMMITTEE MEMBERSHIP

RESOLVED - That the following nominations to Committees and Outside Body be approved

Committee	Nominations
Planning Committee	Cllr Keith Jones
	Cllr Kirsty Davies-Warner
Community & Adult Services Scrutiny Committee	Councillor Julia Magill
	Councillor Ralph Cook
Economy Scrutiny Committee	Councillor Simmons
Environment Scrutiny Committee	Councillor Susan White

149 : URGENT DECISION TAKEN IN RESPECT OF TRELAI PRIMARY SCHOOL

The Council received for information the following urgent officer decisions taken in accordance with the Council's Scrutiny Procedure Rule 13(a) in respect of Trelai Primary School.

RESOLVED – That Council note the urgent officer decisions taken in accordance with the Council's Scrutiny Procedure Rule 13(a) in respect of Trelai Primary School to

- (i) Intervene in Trelai Primary School pursuant to the School Standards and Organisation (Wales) Act 2013 ('the SSOW Act 2013'); and
- (ii) Appoint an additional Governor and nominate her to be Chair of the governing body pursuant to Section 6 of the SSOW Act 2013.

(The meeting finished at 22.45pm)

150 : WRITTEN QUESTIONS

In accordance with the Council Procedure Rules, Rule 17(f) Written Questions received for consideration and response for the meeting are set out below.

COMMUNITY DEVELOPMENT, CO-OPERATIVES AND SOCIAL ENTERPRISE
(COUNCILLOR PETER BRADBURY)

WRITTEN QUESTION FROM COUNTY COUNCILLOR GOVIER

The transfer of local services to the community has struggled over the last few years even with the Stepping Up tool. Is the Cabinet now reconsidering this approach as a way of sustaining council services?

Reply

Over the last 18 months, considerable progress has been made in transferring community assets to local organisations. Examples include the former Splott Library, Plasnewydd Community Centre, Pentreban Community Centre and the Cardiff International Sports Stadium.

In line with our previously agreed strategy, we have 3 transfers likely to be completed by the end of March 2016, a further 8 transfers scheduled for completion early in the next financial year and 11 transfers towards the end of 2016/17.

As such, the Council is not reconsidering its approach to the transfer of services, but will of course continue to review the lessons learned from each transfer, with a view to making any improvements to the process going forward.

EARLY YEARS, CHILDREN AND FAMILIES (COUNCILLOR SUE LENT)

WRITTEN QUESTION FROM COUNTY COUNCILLOR THORNE

What is the cost of Taxi's in Children's Services in this financial year and how many trips does this cover?

Reply

The current expenditure in the 2015/16 financial year, which includes

recharges received only up to November 2015, is £30,346.89. This figure relates to a total of 1234 journeys by taxi that were made mainly by clients of Children's Services, but also by council officers.

98% of this spend (£29,604.70) was incurred by clients and is based on a total of 1144 journeys.

EDUCATION (COUNCILLOR SARAH MERRY)

WRITTEN QUESTION FROM COUNTY COUNCILLOR BOWDEN

What arrangements are in place for the monitoring and Estyn inspection of children who are home-schooled in Cardiff?

Reply

In Cardiff, all known Elective Home Education (EHE) children are registered on the Council's database as soon as we are informed by the local authority school. The EHE Adviser is then informed.

When a child becomes EHE, they receive a letter requesting a meeting with the parent and child to discuss the education being provided and to look at examples of work and learning.

Local authorities have no automatic right of access to a parent's home. Parents may, if they wish to, permit access to their home, or request an alternative venue for a meeting. At the initial meeting, the nature and frequency of future contact will be agreed.

Alternatively, parents may wish to provide information that an appropriate education is being provided in another form, such as a written report.

Schools have a very important role in monitoring the well-being of their pupils and sharing concerns with, or making referrals to, Children's Services when a child is believed to be 'in need' or abuse or neglect is suspected. When schools are no longer able to fulfil this responsibility because a child is receiving their education at home, the Local Authority will inform Social Services that the child is to be home educated.

This information will be retained on the local authority database. However, no further action will be taken unless additional information is received indicating that Social Services involvement is required, and this decision will then be reviewed.

Likewise, because certain health services are accessed by being on a school roll, the UHB is informed of each child being educated at home.

Estyn does not inspect parents who home educate, but they would include EHE in an inspection of the local authority.

There is no legal requirement for parents to inform local authorities of the fact that they intend to educate at home. This makes it particularly difficult for local authorities to keep track of certain groups of children, including for example:

- Those who have never attended a maintained school;
- Those who have never attended a maintained school in that local authority's area;
- Those who have finished primary education in one school but have not started secondary education in another; and
- Those where the school they have been attending has closed.

WRITTEN QUESTION FROM COUNTY COUNCILLOR BOWDEN

Can you provide a breakdown of the numbers of school admissions applications that have been made in Cardiff (other than the cyclical applications for Yr R & Yr 7 and Nursery) and children placed, since September 2015 to date and broken down by month and Primary/Secondary sector?

Reply

Number of In-Year Pupils whose parent(s) have requested admission from 01/09/2015 to 19/01/2016

Date Application Received	Sep-15	Oct-15	Nov-15	Dec-15	Jan-16	Total
Primary School sector	201	138	169	101	48	657
Secondary School sector	72	60	50	33	26	241
Total	273	198	219	134	74	898

Number of In-Year Pupils agreed admission whose application was received from 01/09/2015 to 19/01/2016

Date Application Received	Sep-15	Oct-15	Nov-15	Dec-15	Jan-16	Total
Primary School sector	124	87	102	39	4	356
Secondary School sector	41	24	23	4	0	92
Total	165	111	125	43	4	448

It should be noted that the number of school preferences per pupil applications considered by the Council is significantly higher than indicative of above data (1626 preferences).

Of the 898 applications received during this period (September 2015 to date), 448 have been placed. The 450 children that have not formally been placed following their application will either be families with children already in school that have requested to change and that have chosen not to remove their children from waiting lists at their preferred schools, or children that are unplaced based on the preferences stated in their application (because their preferred schools are full) and who have not selected alternate options from the schools offered by the Council.

All current In-Year applications are being processed within the time-scales required by the Welsh Government as per School Admissions Code pt 3.17:

“Once received, such applications must be considered without delay and a formal decision either to offer or to refuse a place should be made and notified to the applicant within 15 school days or 28 calendar days whichever is the sooner.”

WRITTEN QUESTION FROM COUNTY COUNCILLOR BOWDEN

How many Primary and Secondary school children are on the Admissions list and currently awaiting a place at a school in Cardiff?

Reply

Over and above the annual admissions rounds for which processing has not been concluded, a total of 79 pupils (who applied through the In-Year application process) are currently awaiting outcomes of their application, of which 41 pupils are currently not in school.

WRITTEN QUESTION FROM COUNTY COUNCILLOR BOWDEN

What impact will there be on the outcomes of pupils in Cardiff Schools following the decision by the Assembly Minister, Huw Lewis, to allow children to take holidays of up to 10 days in any academic year without any fear of a Fixed Penalty Notice?

Reply

Further to the Minister’s statement, subsequent media coverage suggested that guidelines about holidays in term time have changed. The Council’s guidance to schools on holidays in term time and the use of Fixed Penalty Notices (FPNs) and nevertheless remains unchanged. The Council will continue to operate the FPN scheme in line with its existing Code of Conduct.

In 2012, the Council asked schools and head teachers not to authorise holidays in most circumstances, whilst acknowledging that the regulations make provision for holidays and that a pupil *may* be granted leave of absence from school to go on holiday. Head teachers ultimately retain discretion in this and have been using that discretion sensibly.

Parents do not have an automatic right to withdraw their child from school for a holiday and, in law, have to apply for permission from the school in advance.

Therefore, the Council is requesting continued support for Cardiff’s approach to holidays in term time and encourages head teachers to continue not to authorise requests for holidays in term time where, in the

head teacher's view, there would be a negative impact on the pupil on the basis of a number of factors. As stated in the Minister's letter to schools, these include the time of year of the proposed trip; the length and purpose of the holiday; the duration of the holiday and its impact on continuity of learning; the circumstances of the family and wishes of the parents; and the overall attendance pattern of the child.

As a FPN is not a mandatory accompaniment to an unauthorised holiday request, if a head teacher feels that a family's circumstances do not warrant a FPN being issued, they have the discretion not to request a penalty notice.

However, if, in the opinion of the head teacher, there would be a negative impact on the pupil on the basis of the factors stated in the Minister's letter to schools, the Council continues to advise that the head teacher requests a FPN.

The approach to holidays in term time and FPNs was introduced in Cardiff to help raise attendance and, in turn, improve outcomes for our pupils. Both have helped to achieve this aim as part of a suite of interventions backed by strong and consistent messages.

In the academic year 2012-13, holidays in term time in Cardiff schools accounted for 46,264 days (92,529 sessions) of absence and a huge amount of lost learning and disruption to classes and teaching. In 2014-15, this number had reduced to 36,508 days or (73,016 sessions). This is still too many days of lost learning.

We have taken legal advice and are confident that both schools and the Council have acted lawfully using discretion appropriately. However, schools are advised to check that their attendance policies, websites and literature fully reflect the guidelines and ensure that there are no references to zero tolerance or a blanket ban etc. If there are any such references, these should be removed.

For schools wishing to continue to raise and maintain their attendance levels by tackling holidays in term time through the use of FPNs, support from both the Council and the Education Welfare Service will continue to be provided to issue FPNs in line with the existing Code of Conduct.

WRITTEN QUESTION FROM COUNTY COUNCILLOR CARTER

How many letters has the council sent to parents concerning the withdrawal of funding for the free bus to Llanishen High School?

Reply

316 letters were issued to all parents of pupils living within the former Llanedeyrn High school catchment area, who are due to transfer to Llanishen High School in September 2016.

WRITTEN QUESTION FROM COUNTY COUNCILLOR CARTER

How many people have contacted the council objecting to or expressing concern that they will now need to pay for their children's bus travel?

Reply

I am advised that the Council has only received one phone call in relation to this issue and, once the position was explained, the parent appreciated that they had received a free pass in the past for an older child attending the school.

WRITTEN QUESTION FROM COUNTY COUNCILLOR THORNE

What is the full cost of Taxi's employed to take children to school in this financial year and how many daily trips does this include please?

Reply

The Council does not record transport costs specifically for taxis as Specially Adapted (wheelchair) Vehicles (SAVs) can be licensed as either taxis or minibuses.

There are approximately 584 daily taxi trips (AM & PM journeys) costing £2.8million and approximately 110 daily SAV trips (AM & PM journeys) costing £850k.

WRITTEN QUESTION FROM COUNTY COUNCILLOR WOODMAN

Please advise which Cardiff schools have been involved with International School Linking visits during the period 5/4/15 to 31/12/15, with visits to another country.

Please advise how each trip was funded, and which Cardiff City councillors were involved in arranging such a visit.

Please advise if any Cardiff city councillors also took part in an overseas visit and how their trip was funded, and how each Cardiff city school was chosen to participate and how each councillor was chosen to participate in any way.

Reply

Schools are not chosen for projects as the International School Linking office sends out calls for expressions of interest. The interested schools are then added to project applications. The council officer involved is the coordinator for these international projects and is sometimes required to attend transnational project meetings.

The schools that took part in International School Linking projects are as

follows:

Schools involved	Council Officers arranging & travelling	Councillors travelling	Date of visit	Country	Funding source
Peter Lea Primary The Hollies Cantonian	Coordinator	None	8-10 July 2015	Germany	EU - Comenius Regio
Mary Immaculate High School	Coordinator	None	1-3 June 2015	Poland	EU - Comenius Regio
Mary Immaculate High School	Coordinator	None	22-23 June 2015	Poland	EU - Comenius Regio
Greenway Primary	Coordinator	None	12-16 April 2015	Spain	EU - Comenius Regio
Ty Gwyn Special School	None	None	14-17 April 2016	Spain	EU - Comenius Regio
Greenway Primary Pencaerau Primary Lansdowne Primary Baden Powell Primary Roath Park Primary	Coordinator	None	12-17 April 2015	Spain	EU - Erasmus+
Greenway Primary Pencaerau Primary Lansdowne Primary Baden	None	None	21-26 September 2015	Poland	EU - Erasmus+

Powell Primary					
Lansdowne Primary Tredegarville Primary	None	None	8-14 November 2015	Denmark	EU - Erasmus+
Llandaff City CiW Primary	None	Cllr Ali Ahmed (no funding available)	1-7 November 2015	Bangladesh	Teachers ONLY funded by DfID / British Council Connecting Classrooms
Roath Park Primary St Fagans Primary Springwood Primary Willowbrook Primary	None	None	10-14 October 2015	France	Self funded flights only

ENVIRONMENT (COUNCILLOR BOB DERBYSHIRE)

WRITTEN QUESTION FROM COUNTY COUNCILLOR McEVOY

How many cleansing hours have been put into Riverside, Canton, Radyr, Ely, Caerau, Llandaf, Pentyrch and Creigiau every weekend, from start of September to end of December? Please state where.

Reply

Whilst we have cleansing teams contracted to work weekends in the city centre, in the rest of the city, we have a limited number of staff operating on weekends as the majority of work can be undertaken during the working week.

Due to demand in certain areas, we do have a small number of teams in for a few hours at weekends specifically to litter pick and empty litter bins in areas with shops and high footfall. Areas that are attended regularly include shop fronts in Canton, Ely, Fairwater, Llandaff and Riverside. It is not possible to state exactly how long teams spend in each ward as we do

not record time spent in this way and demand can vary from week to week.

Occasional weekend (and weekday) work also takes place to support community initiatives, which can include the provision of litter pickers and bags for community groups who will clear litter/leaves in an agreed location. Cleansing operatives then attend at a given time in order to collect the full bags and sweep the area, as required, to complete the cleanse of the street.

Such activities have taken place in Roath and Pontcanna and we are currently liaising with community groups in other areas to put similar initiatives in place (e.g. in Riverside and Ely). Again, the hours that are required in terms of cleansing staff time can vary.

HEALTH, HOUSING AND WELLBEING (COUNCILLOR SUSAN ELSMORE)

WRITTEN QUESTION FROM COUNTY COUNCILLOR GOVIER

We urgently need to increase the council's access to housing stock in order to meet the need of some of the most vulnerable in our City. I was disappointed that we lost the opportunity for close to 1000 homes on the Dumballs Road site; what plans do we have to meet the current (not future) need in our City?

Reply

It is true that Cardiff has considerable need for new affordable houses: there are over 10,000 people currently on the housing waiting list; and the recently completed Local Housing Market Assessment indicates that we need to deliver over 2,000 new affordable homes per year for the next 5 years to meet current and future demand for housing in the city.

With regard to current need, a new housing allocations policy has been adopted over the past year, which ensures that those residents on the waiting list in most need and who are most vulnerable are prioritised for housing. Ensuring that the Council maximises opportunities to develop new affordable housing is of paramount importance to us.

With regard to Dumballs Road, you will be aware that the regeneration scheme that was proposed originally was not affordable for the Council, but dialogue has continued with the developer, which could still result in a substantial number of affordable homes on the site.

However, this is not the only site under consideration and officers are developing a 5-year affordable housing delivery plan identifying all new build delivery opportunities and detailing how many new units are likely to be built over this period. This 5-year plan will form part of the updated Housing Strategy document.

Some of the main delivery routes are detailed below:

The council is undertaking its own build programme through the Housing Partnership Programme. This project will directly deliver around 600 new council houses over the programme period 2016-2025. More immediately, 196 new council houses will be delivered between 2016 and 2019.

Other opportunities to directly build new council houses outside of the HPP are also being explored using land that the council holds and we hope to deliver another 200 properties over the next 5 years in this way.

The Council's LDP has been approved by Welsh Government Planning Inspectors. This is an important milestone for us as a large amount of affordable housing units will be delivered through developer contributions (Section 106 requirements) to be negotiated on each of the identified sites. Whilst at this stage we are unsure of the exact numbers of units these sites will deliver year-on-year, it is estimated that they have the capacity to deliver around 4,500 new affordable units over the 15-year LDP period.

Registered Social Landlord (RSL) developments funded through the Social Housing Grant (SHG) programme have the potential to deliver around 900 new properties over the next 5 years, with another 100 properties planned on development sites they own outside of the SHG programme.

This is not an exhaustive list and officers are also investigating other routes to maximise the delivery of affordable housing. The way in which planning gain monies can be used to bring forward developments is important, along with ensuring that we always have 'RSL shelf' schemes available to take any Social Housing Grant slippage that becomes available from the Welsh Government at year end – in 2014/15, Cardiff was successfully awarded an additional £1,307,829 in SHG slippage this way. (Cardiff's current annual allocation of SHG is £4.2 million per year).

It must be noted that development is a long-term delivery method and just as important is our ability to re-let void properties quickly. We must also ensure we make the best use of our existing housing stock.

SKILLS, SAFETY AND ENGAGEMENT (COUNCILLOR DAN DE'ATH)

WRITTEN QUESTION FROM COUNTY COUNCILLOR GOVIER

How will the scrutiny arrangements work for the regulatory services collaboration?

Reply

The two scrutiny committees whose terms of reference cover the Regulatory Services Collaboration are the Environmental Scrutiny

Committee and the Community and Adult Services Scrutiny Committee. Between them, they have the scope to scrutinise large parts of the statutory functions of trading standards, environmental health and licensing.

The two committees considered the Regulatory Services Collaboration when developing their work programmes for 2015/16 and agreed to programme a joint meeting in March 2016. It was felt that this approach would optimise their collective efficiency and avoid wasted effort.

Points 5.4 and 5.5 of the Shared Regulatory Service Joint Working Agreement states that arrangements for scrutiny should reflect the following qualities:

5.4 – as and when required by an Overview and Scrutiny committee or an Audit Committee of participants, the Chair of the Joint Committee (or in his absence the Vice Chair), shall attend a meeting of such Overview and Scrutiny Committee or Audit Committee, together with the Head of Regulatory Services to account for the activities of the Joint Committee.

5.5 – Participants will liaise about requests from their Overview and Scrutiny Committees and Audit Committees, and shall consider joint scrutiny arrangements with a view to avoiding duplication of effort.

Conversations have been taking place between the scrutiny functions in Cardiff, Bridgend and the Vale of Glamorgan Councils to explore how joined up scrutiny between these three authorities can be arranged. Adequacy of resources to undertake joint scrutiny has been identified as a challenge by all three authorities.

The Chairs of the Environmental Scrutiny Committee (Cllr Mitchell) and the Community and Adult Services Scrutiny Committee (Cllr McGarry) also met in November 2015 to reflect on this challenge and to plan how they can best arrange scrutiny in this area.

Cardiff's key task is to ensure that councillors provide appropriate and effective scrutiny of the Regulatory Services Collaboration, as far as it is required to optimise governance and service delivery for the citizens of Cardiff. If this can be achieved in partnership with the two other authorities, this is to be welcomed, but if this does not prove possible then the two Cardiff scrutiny committees will continue to exercise their collective capacity to effectively scrutinise the services delivered to Cardiff as required.

We also want any scrutiny that is undertaken in Cardiff to be of benefit to our partner authorities and, similarly, would wish to benefit from any scrutiny of this project undertaken by both Bridgend and the Vale of Glamorgan Councils.

The three authorities have agreed to pilot an approach, commencing with

a joint Community and Adult Services Scrutiny Committee & Environmental Scrutiny Committee meeting in Cardiff, which is due to be held on Thursday 3rd March 2016.

The City of Cardiff Council will write to the other two authorities inviting their scrutiny committee members to submit any questions which they deem relevant to this meeting. Any submitted questions will be asked by the appointed Chair of the joint meeting and the response will be captured in a letter written to representatives of the Shared Regulatory Services Joint Committee. A copy of this letter will be provided to the scrutiny committee members from Bridgend and the Vale of Glamorgan Councils. A copy of the minutes of the joint scrutiny committee meeting held in Cardiff will also be circulated to the same group of councillors.

Prior to the end of the current 2015/16 municipal year, Cardiff will engage with Bridgend and the Vale of Glamorgan to discuss the merits of this pilot scrutiny exercise and assess future options for scrutiny of the Regulatory Services Collaboration. Key drivers will include consideration of resource allocation and avoidance of duplication of work. Through this process, we expect relationships and joint working opportunities to evolve over time and that effective partnership scrutiny arrangements will ensue.

WRITTEN QUESTION FROM COUNTY COUNCILLOR GOVIER

Will any KPI's be changing as a result of regulatory services collaboration; if so, which ones?

Reply

The KPIs for the Shared Regulatory Service will continue to be collected in their current format for the 2015/16 financial year and form part of the corporate performance reporting process for each Council.

The Shared Service has drafted a new business plan, which will be the subject of consultation next month with a range of stakeholders. Along with the established national indicators, the plan contains a number of new performance indicators. These indicators will reflect the impact that the Shared Service has in supporting local communities. Examples of these include:

The proportion of domestic rented properties improved as a result of regulatory intervention;

The percentage of businesses who feel that regulatory intervention (inspection, advice etc.) has improved their compliance.

The consultation on the business plan will be undertaken from the middle of February and until the end of March. The business plan is then expected to be considered and approved by the Joint Committee in mid May. The final list of indicators agreed following the consultation will be

contained in the approved plan.

WRITTEN QUESTION FROM COUNTY COUNCILLOR THORNE

What are the full costs, including writing, printing and delivery, of all consultation brochures that the Council has undertaken in this current financial year?

Can you list the consultations and the costs separately please?

Reply

I have asked officers to undertake work to collate this information as cost figures for the production and distribution of consultation documents are held within directorate and specific project budgets. As a result, I will provide you with this information in writing in due course. In terms of the annual corporate consultation exercises that fall within my own portfolio, I can confirm that the cost of production of the annual Ask Cardiff Survey for 2015 was as follows:

Printing and delivery of Ask Cardiff general surveys to Libraries / Leisure Centres / Hubs / Stakeholders (5000 English / 1000 Welsh)	£2,025.19
Printing of Ask Cardiff general surveys to post out (4100 English / 100 Welsh)	£2,852.89
Ask Cardiff Survey posted (3990)	£1,790.20
Return by Freepost	£310.00
Total =	£6,978.28

In terms of the 2016/17 Budget Consultation survey, the cost of printing 5,000 English and 1,000 Welsh language copies of survey was £2,101.

TRANSPORT, PLANNING AND SUSTAINABILITY
(COUNCILLOR RAMESH PATEL)

WRITTEN QUESTION FROM COUNTY COUNCILLOR RALPH COOK

Please provide in detail the dates, periods in hours, the names of the Local Authorities and other people present and the subjects discussed at meetings with neighbouring authority politicians and/or officers about Cardiff's Local Development Plan that were attended in person by Cllr. Ramesh Patel since he took on responsibility for the LDP.

Reply

As you should be aware, by the time that I took on portfolio responsibility for the LDP, the Deposit Version of the Plan had already been approved. Therefore, the relevant substantive and strategic cross-boundary matters had already been addressed and captured in both the Preferred Strategy and Deposit Plan, so there was no necessity to undertake further dialogue

at Cabinet Member level. The key work in this respect was the collaborative cross-boundary working exercise, which was completed during 2012 and forms part of the LDP evidence base.

My primary role has therefore been to secure the adoption of the LDP. I believe that I have capably fulfilled this role and thank all Members and Officers who have helped reach this major milestone for our city.

WRITTEN QUESTION FROM COUNTY COUNCILLOR RALPH COOK

Please also detail the dates and periods involved (in hours) of Cllr. Ramesh Patel's attendances at the Planning Inspectorate hearings into Cardiff's Local Development Plan?

Also please provide details of all the hearing dates and times during which the hearings took place?

Reply

Firstly, I want to thank you for the role that you played as the Cabinet Member responsible for progressing the LDP up to the Preferred Strategy stage. Had you continued your involvement in the process up to the examination stage, then you would have understood that it is normal practice for officers of local authorities to present evidence to the Hearing Sessions in support of the Plan, not Cabinet Members.

Whilst I continued to hold regular meetings with officers to discuss the numerous matters emerging, officers presented evidence during the Hearing Sessions as has been the case in the examination of plans for other local authorities. Therefore, there was no requirement for me to attend the Hearing Sessions which took place between 13th-16th January, 20th-23rd January, 3rd-6th February, 10th-13th February, 25th-27th February and 28th-29th September, all during 2015.

WRITTEN QUESTION FROM COUNTY COUNCILLOR GOVIER

Nottingham Council have recently launched a not for profit energy company called Robin Hood Energy. Are there any plans to progress Cyd Cymru to the next stage of development with the setting up of our own energy company to meet the energy challenges for many residents in the City?

Reply

Nottingham's Robin Hood Energy Company is a recent addition to a small number of local authority owned Energy Services Companies (ESCOs), which have been created to supply and trade in energy on a not-for-profit basis. Bristol and Plymouth also have similar examples.

Although there are no approved plans to set up a similar arrangement in

Cardiff, we are watching the progress of these companies to assess the risks and value of such a scheme. The clear benefits to citizens that these schemes offer need to be balanced against the resource and costs required to establish them, as well as other associated risks from competition from larger established energy supply companies etc. Our connection with the UK Core Cities group and the Great Western Cities initiative will give us access to information to assist in this evaluation.

In the meantime, the Cyd Cymru collective switching scheme has helped well over 1,000 customers across Wales to reduce their energy bills by switching to better tariffs that we negotiate on their behalf. In addition, some of the energy conservation and advisory services that the ESCOs provide are also currently being provided by the Council through various initiatives such as our ARBED/ECO energy efficiency schemes and our "Little by Little" energy advisory service.

WRITTEN QUESTION FROM COUNTY COUNCILLOR McEVOY

How many road traffic accidents have there been in the Cwrt-yr-Ala Road area in the last 5 years and what were the details and reference numbers?

Reply

The police database only records injury collisions. These records have been checked for the last five years and only two were recorded in the Cwrt-yr-Ala Road area within Cardiff:

Record 1

Crash Ref. No: 0209102
Severity: Slight
Date: 09-05-2011
Location: Junction of Cwrt Yr Ala Road and Lauriston Park
Vehicle 1: Pedal cycle
Vehicle 2: Car

Record 2

Crash Ref. No: 1301237
Severity: Serious
Date: 19-07-2013
Location: Cwrt Yr Ala Road north of Heol-yr-Odyn
Vehicle 1: Motor cycle over 500cc
Vehicle 2: Car

There were no recorded injury collisions in Heol-yr-Odyn, Lôn yr Efail, Lauriston Park or Heritage Park in Caerau.

End

**CITY & COUNTY OF CARDIFF
DINAS A SIR CAERDYDD**

COUNCIL:

25 FEBRUARY 2016

CABINET PROPOSAL

CORPORATE PLAN 2016-18

Reason for this Report

1. To enable Members to consider and approve the Council's Corporate Plan for 2016-2018 and recommend it to Council for approval.

Background

2. The Corporate Plan forms part of the strategic policy framework set out within the Council's Constitution and is considered annually by the Council. The document outlines the organisation's strategic policy priorities and forms part of the required statutory improvement framework as it discharges the Council's obligations under the Local Government (Wales) Measure 2009 to publish a stage one plan, setting out how the Council plans to achieve its priorities for improvement. The Corporate Plan usually covers a three year period and is subject to an annual refresh.
3. The Council has to develop the Corporate Plan for 2016-2018 in the context of sustained severe financial pressures. The Budget Strategy 2016/17 report that was considered by the Cabinet in July 2015 set out a potential savings requirement of £47.378 million for the financial year 2016/17 and £117 million for the period 2016/17–2018/19.
4. The Wales Audit Office (WAO) Corporate Assessment report of the City of Cardiff Council, which was published in September 2014, found that the Corporate Plan 2014-17 lacked "sufficiently clear measures of success". The Corporate Assessment also noted that "variation in the way in which directorates describe outcomes, confused use of terminology and lack of clarity about the improvement sought ...mean that the Plan does not provide a clear reference point from which performance can be evaluated in the future." However, the report also noted that "the Council produced a more concise document with the aim of establishing a clearer focus on priorities".
5. In October 2014, Cabinet considered the report entitled, "Repositioning Cardiff as Europe's Most Liveable Capital City: Vision, Values and Corporate Planning". The report outlined the Council's approach to strengthening corporate and partnership planning in order to deliver the

organisation's vision and address key organisational issues including those identified in the previous Wales Audit Office Corporate Assessment. The Corporate Plan 2015-17 was developed in this context and forms the template for the refreshed Corporate Plan for 2016-18.

6. The Wales Audit Office published the Council's Annual Improvement Report for 2014-15 in August 2015 in which it was noted that "the Council had made a step change in improving the quality of its 2015-16 Improvement Plan when compared to the previous year."

Issues

7. The Cabinet has established a new vision for Cardiff to be "Europe's most liveable capital city." This vision will be achieved by delivering seven outcomes which have been jointly agreed by public service and third sector partners in the city. These outcomes are included in Cardiff's Single Integrated Plan – "What Matters":
 - People in Cardiff are safe & feel safe
 - Cardiff has a thriving & prosperous economy
 - People in Cardiff achieve their full potential
 - Cardiff is a great place to live, work & play
 - People in Cardiff have a clean, attractive & sustainable environment
 - People in Cardiff are healthy
 - Cardiff is a fair, just & inclusive society
8. In addition, the 'Liveable City Report' captures how the city is performing against a range of high level indicators associated with each outcome and will be published annually.
9. The Corporate Plan captures the Council's contribution to delivering Cardiff's seven outcomes, setting out the organisation's priorities and what will be done to deliver against these priorities. It should be noted that other city partners have an important contribution to make, and whilst the Council works with many of them on a range of issues, the Corporate Plan focuses on the Council's contribution to the city.
10. With reducing funding and increasing demand for services, the Council must be clear about its priorities. The four priorities which formed the basis of the Corporate Plan 2015-18 have therefore been maintained. The Corporate Plan 2016-18 continues to be structured around the following four corporate priorities:
 - Priority 1 – Better education and skills for all
 - Priority 2 – Supporting vulnerable people
 - Priority 3 – Creating more and better paid jobs
 - Priority 4 – Working together to transform services
11. For each priority, a limited number of high-level improvement objectives have been established and for each improvement objective a number of commitments and performance indicators have been identified to

measure progress. The priorities of the Corporate Plan are also consistent with the organisation's co-operative values.

12. The Cabinet also agreed on 21 January 2016 to include an additional new corporate commitment in the 2016/17 Corporate Plan under Priority 3 (Creating more and better paid jobs). This relates to 'The Cardiff Commitment' and seeks to ensure that 'young people in Cardiff make a successful transition into employment, education or training'.
13. The "business as usual" and more service focused change will be included in Directorate Delivery Plans prepared by individual directors. The Directorate Delivery Plans will continue to provide an important link between the Corporate Plan, the work of directorates and the objectives set for individual employees. Directorate Delivery Plans will also further integrate financial and service planning, more detailed action about progressing Corporate Plan improvement objectives, as well as details of other important activities not included in the Corporate Plan.
14. In addition, Directorate Delivery Plans will provide clear lines of responsibility, increased accountability and be subject to effective management challenge and scrutiny. This will ensure that team and individual employee objectives are aligned with Council's key strategic priorities. This will support the Council's continued drive to improve compliance with organisational performance management requirements, including Personal Performance and Development Reviews (PPDRs). In this way, the Council will maintain an overview and manage the key organisational functions of:
 - identification and delivery of priorities;
 - service and financial planning;
 - timely performance management integrating financial and service performance; and
 - objective setting for and performance of individual members of staff.
15. The Corporate Plan 2016-18 includes clear priorities, a reduced number of improvement objectives to deliver the priorities and clear terminology for how the plan will be structured. The development of the Corporate Plan 2016-18 has also been informed by the findings of the consultation on the budget proposals for 2016/17.
16. Following the publication of Quarter 3 performance results for 2015/16 in late January 2016, proposed targets for inclusion in the Corporate Plan 2016-18 were discussed by Cabinet Members and Directors at 'Star Chamber' sessions that were held in early February 2016. The Corporate Plan includes a basket of performance measures with clear targets, which consist of a mixture of (statutory) National Strategic Indicators (NSIs) and Public Accountability Measures (PAMs) as well as "Local" indicators selected for their particular relevance to directorates. The Appendix to the Corporate Plan includes details on past performance to enable trend analysis, benchmarking information on the Council's relative position (where available) and targets for 2016/17 and 2017/18.

17. All Councillors were invited to a Member briefing session on the Liveable City report and draft Corporate Plan 2016-18, which was held on 11 January 2016. This provided an opportunity for Members to learn more about the development of the Corporate Plan 2016-18 prior to formal consideration by all Scrutiny Committees during February 2016.
18. The Policy Review and Performance Scrutiny Committee was provided with an early opportunity to help inform the development of the Corporate Plan 2016-18 when it considered a draft version of the Plan on 12 January 2016. Members were briefed on the approach undertaken to 'refresh' the Corporate Plan for 2016-18 and were able to comment on the draft commitments and targets. A draft version of the Corporate Plan 2016-18 was also provided to each of the Council's five Scrutiny Committees for consideration alongside the draft budget proposals for 2016/17 between the 15th and 17th February 2016.
19. The Corporate Plan 2016-18 and relevant supporting documents will be published on the Council's website. To ensure the Corporate Plan and, more specifically, the Council's priorities and objectives are communicated effectively, a suite of stakeholder appropriate documents will be continue to be produced. These include a shortened "community facing" version of the Corporate Plan, which does not include some of the technical detail required by statute, and a "Plan on a Page" for staff and Members that assists in crystallising the key messages contained in the Plan.

Reason for Recommendations

20. To enable the draft Corporate Plan 2016-2018 to be considered by the Council on 25 February 2016 and to be published thereafter, subject to any consequential amendments.

Financial Implications

21. This report sets out the Council's Corporate Plan for the period up until 2018. Implementing these strategic priorities and improvement objectives will need to be in accordance with the amounts set out in the February 2016 Budget Report which included the revenue and capital budgets for 2016/17, the indicative Medium Term Financial Plan for the period up to 2019/20 and the indicative Capital Programme for the period up until 2020/21.
22. Some of the objectives contained in this report will need to be the subject of further reports so that detailed financial implications can be determined when further financial information is known. The Plan clearly identifies the demand and financial pressures within which the Council is operating in terms of both revenue and capital budgets with associated impact on the level of borrowing. As such it is important that the financial implications and risks of actions in the Corporate Plan are considered as part of robust business cases. This is particularly the case for proposals

which are not yet fully developed to be included in the current budget proposals, such as significant infrastructure developments of City Deal. Such projects will need to be carefully appraised for the financial impact and affordability and considered as part of the Council's Medium Term Financial Plan for future years

Legal Implications

23. The Local Government Measure 2009 sets out the Council's obligations to ensure continuous improvement in the exercise of its functions. This report sets out the steps taken in identifying and consulting on the improvement objectives contained in the Corporate Plan for 2015-2017. The Corporate Plan is part of the Policy Framework and a decision on whether to adopt the draft Corporate Plan is a matter for full Council.
24. The Council has to satisfy its public sector duties under the Equalities Act 2010. Decisions must have due regard to the need to (a) eliminate unlawful discrimination (b) advance equality of opportunity and (c) foster good relations on the basis of the protected characteristics defined in the Act. The Council needs to make its decision to make a proportionate and rational decision with proper regard for its equality duty.

CABINET PROPOSAL

Council is recommended to

1. approve the Corporate Plan 2016-2018 as set out in **Appendix A** to the report;
2. delegate authority to the Chief Executive in consultation with the Leader of the Council to make any consequential amendments to the Corporate Plan following consideration by Council on 25 February 2016.

THE CABINET
18 February 2016

The following Appendix is attached:

Corporate Plan 2016-18

Our vision is for Cardiff to become Europe’s most liveable capital city. This Plan sets out what the Council will do to achieve that ambition, how we will do it and how we will measure our progress.

People love living in Cardiff. It’s got the capital city feel, but with a real sense of community. It’s got the benefits of a big city, but without many of the drawbacks and it is a city where having a great career or a great quality of life isn’t an ‘either/or’ question.

The recently published Liveable City Report sets out how Cardiff is performing on a wide range of issues which together make a great city. The Report takes a fascinating look at life in the city, highlighting where we are performing well, whilst also identifying where we need to improve. Overall, it paints a picture of a city that’s going places, but equally one where deep inequalities persist.

As a Council we are clear about our priorities for taking the city forward and tackling inequality:

- Better education and skills for all;
- Supporting vulnerable people;
- Creating more and better paid jobs;
- Working together to transform services.

Despite ongoing public sector austerity, we are making progress in each of these priorities.

In **education**, we have protected school funding, spending more and delegating a greater proportion of budget to schools than other Welsh local authorities. We are investing £168m to modernise our schools, and our focus on improving performance has helped GCSE results improve by 10% since 2012.

We have backed our commitment to **supporting vulnerable people**, spending around £91m on adult social services and £137m on social services. We provide over 13,000 social homes for people in most need, and have recently signed a contract to deliver another 1400 affordable homes in the city. We have worked with our partners to make 2,320 offers of accommodation to help those affected by the UK Government’s Welfare Reform programme.

We’re **creating more and better paid jobs** in the city through the regeneration of Central Square, the new bus interchange, alongside a new Local Development Plan and the proposed £1.2bn Cardiff Capital Region City Deal.

We’re making efficiencies and **transforming our services**. Our community hubs are a great example, where a number of different partners offer a range of services all under one roof. This improves access to services and helps us save money. That is why I was pleased to see three new community hubs open in Cardiff Central, Grangetown and Rumney over the last year.

In the face of increased demand for our services and rapidly reducing budgets we are delivering for the city.

I believe great cities need great public services. No matter the scale of the challenge, we are committed to delivering great public services for the people of Cardiff, and to making the capital city of Wales a great place to live and a city of opportunity for everyone, regardless of background.

**Cllr Phil Bale | Leader,
City of Cardiff Council**

Our Vision for Cardiff:

'To be Europe's most liveable Capital City'

Being a liveable capital city means achieving seven shared outcomes

Co-operative Council: Delivering the Vision

We will be a Co-operative Council, **connected to the citizens and communities** of Cardiff

Cardiff will **connect Wales to the world** and be a **Capital city that attracts business, investment, talent and tourism**

Co-operative Values: We Are Cardiff

Open
We are open and honest about the difficult choices we face, and allow people to have their say on what's important to them and their communities

Fair
We champion fairness, recognising that with less resource we need to prioritise services for those who need them most.

Together
We work with our communities and partners across the city to deliver the best outcomes for the people of Cardiff

Our Priorities:

Better education and skills for all

Supporting vulnerable people

Creating more and better paid jobs

Working together to transform services

Delivering Our Vision

The Cabinet’s vision for Cardiff is to become **“Europe’s most liveable capital city”**.

This vision will be achieved by delivering seven outcomes which have been jointly agreed by public service and third sector partners in the city, as identified in Cardiff’s Single Integrated Plan - **“What Matters”**:

- **People in Cardiff are safe and feel safe**
- **Cardiff has a thriving and prosperous economy**
- **People in Cardiff achieve their full potential**
- **Cardiff is a great place to live, work and play**
- **People in Cardiff have a clean, attractive and sustainable environment**
- **People in Cardiff are healthy**
- **Cardiff is a fair, just and inclusive society**

The ‘Liveable City Report’ captures how the city is performing against a range of high level indicators associated with each outcome and will be published annually.

The Corporate Plan captures the Council’s contribution to delivering Cardiff’s seven outcomes, setting out the organisation’s four corporate priorities and what specific improvement objectives have been identified

in order to deliver against these priorities (see table below). **Other city partners have an important contribution to make** and, while the Council works with many of them on a range of issues, this plan focuses on the Council’s contribution to the delivery of the seven city-wide outcomes. It is not an expression of everything the Council does, but a statement on the strategic priorities of the organisation.

Directorate Delivery Plans will provide greater detail on how objectives contained within this plan will be delivered, and will also contain details of Council activity which is not included in this Plan. Each individual employee’s contribution to Corporate & Directorate plans will be captured through the Personal Performance and Development Review process.

Statutory Requirements

This Corporate Plan meets the Council’s duty to publish an Improvement Plan and set improvement objectives in line with the requirements of the **Local Government (Wales) Measure 2009**. The Council’s improvement objectives are identified under each of our priorities.

The City of Cardiff Council also supports the aims of the **Well-being of Future Generations (Wales) Act 2015** and welcomes the move to place sustainability at the heart of decision-making in Wales. The Act identifies **national well-being goals for Wales**, towards which the City of Cardiff Council is committed to contributing. The Council and its Public Service Board partners believe delivering the well-being goals will rely on effectively coordinating all local resources as part of a whole area approach. The City of Cardiff Council’s well being objectives will therefore be the outcomes identified within the What Matters Strategy.

This approach effectively demonstrates the contribution of the Council, and the collective contribution of local organisations across Cardiff, to the national outcomes framework set by Welsh Government.

The Council is also committed to all its statutory obligations, such as the duties expressed within the Single Equality Act and the Welsh Language Standards.

“Well Being Goals”	Local Area “Well-Being Objective” (Cardiff’s 7 outcomes)	The City of Cardiff Council Priorities	Improvement Objectives
A prosperous Wales	Cardiff has a thriving and prosperous economy	Creating more and better paid jobs	3.1 3.3
	People in Cardiff achieve their full potential	Better education and skills for all	1.1 1.2 1.3
A resilient Wales	Cardiff is clean, sustainable and attractive	Creating more and better paid jobs	3.2
		Working together to transform services	4.1
A healthier Wales	People in Cardiff are healthy	Supporting vulnerable people	2.3
A more equal Wales & A globally responsible Wales	Cardiff is fair, just and inclusive	Supporting vulnerable people	2.1 2.2
		Working together to transform services	4.1
A Wales of cohesive Communities	People in Cardiff are safe and feel safe	Supporting vulnerable people	2.1 2.3
A Wales of vibrant culture and thriving Welsh language	Cardiff is a great place to live, work and play	Creating more and better paid jobs	3.1
			3.2

Delivering the vision: Europe's Most Liveable Capital City

Pressures facing the city: Austerity and Growth

The Council's vision will need to be delivered against a backdrop of pronounced financial pressures and increasing demand for public services.

Between 2013 and 2034 Cardiff's population is expected to increase dramatically, with the city experiencing the biggest percentage increase in population of any major British city. This growth is a sign of success – people want to live in Cardiff. However, it will also put additional demand pressure on public services. It will mean, for example, a big increase in the number of school age children and the number of older people, which in turn will put greater pressures on a number of important council services such as schools and adult social care.

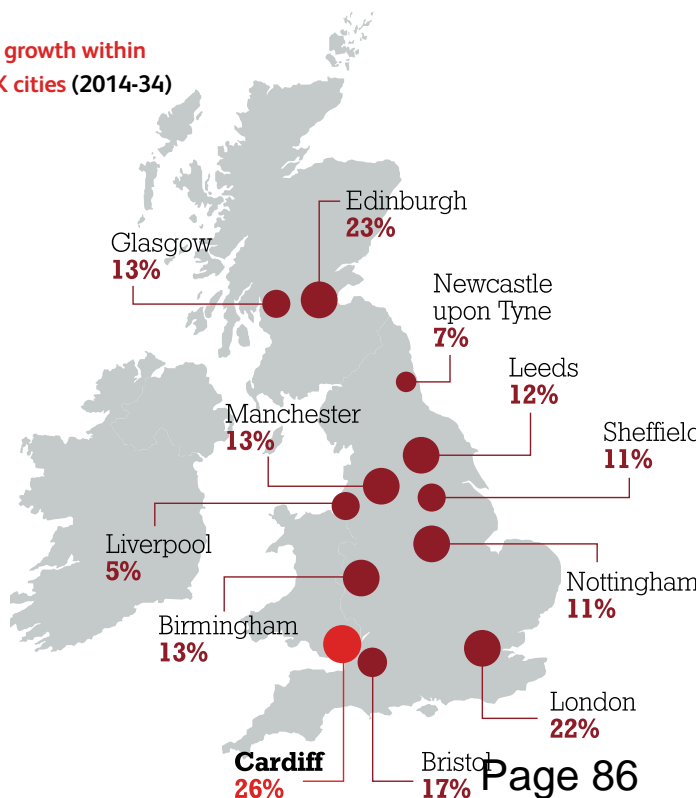

At the same time, the amount of funding available for public services is projected to continue to fall. The Council faces a budget shortfall of **£78m over the next three years**, in addition to the **£190m reduction in the budget over the past decade**. Less money means that providing the support

and services people need is becoming more difficult. These pressures are faced by other public and third sector organisations in the city as well. Over the next three years, public services across Cardiff need to save in excess of £100m each year. We must therefore guard against costs and pressures being unintentionally pushed onto other organisations or providers.

This will require close working with our partners. It will also mean that a number of difficult choices will need to be made about which services are delivered - and how they are delivered - in the future

PUBLIC SERVICES IN
CARDIFF WILL HAVE
**LESS MONEY,
MORE PEOPLE
NEEDING SUPPORT,**
AND THE **FASTEST
GROWING**
POPULATION IN THE UK

Population growth within selected UK cities (2014-34)

Our Workforce

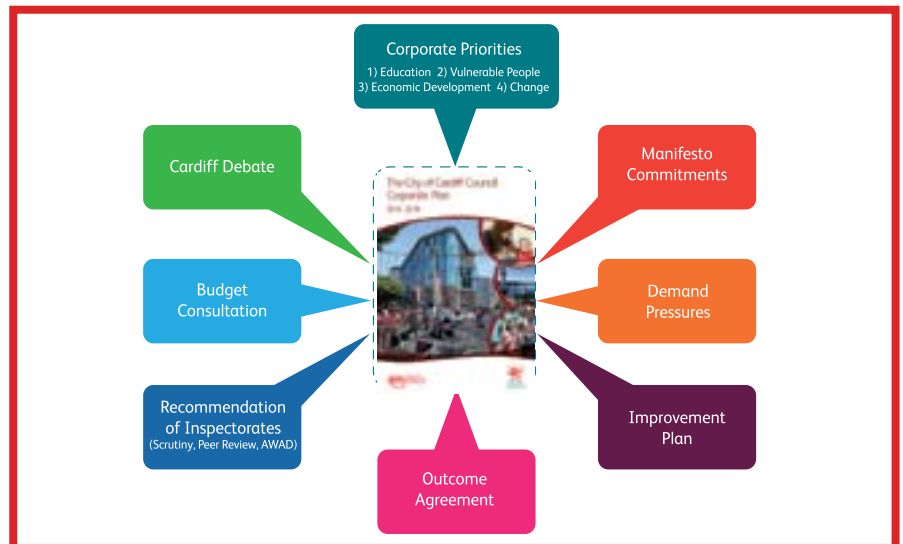

The Council believes that our workforce is our most valuable asset. Council employees are responsible for delivering services across the city and its communities every day and, in delivering this plan, the contribution of staff will be crucial.

In 2015/16 a programme of staff engagement has been underway to ensure that the organisation understands the challenges front-line staff experience in delivering service priorities, and fully considers the opportunities that they identify to improve performance. This has included Chief Executive roadshow events, where members of staff get to meet the Council's Chief Executive and discuss the Council's priorities, as well as a 'staff ambassadors' scheme which now has over 150 members.

Recognising the need to ensure staff interests are fully understood during a period of organisational change, the Council and the Trade Unions have agreed to work in partnership on a programme of reform. The agreement will see the Council's Leader, Cabinet and Trade Unions work together to reform the delivery of Council services. Key principles will include working together to provide a level of certainty for staff on major issues, to protect jobs wherever possible and to reform council services in a cost-effective manner.

Shaping the Corporate Plan

A number of factors help shape the Corporate Plan, including local priorities and the views of the citizens of Cardiff, national priorities as set by the Welsh Government, and the recommendations of inspectorates and audit bodies in relation to the Council's performance and areas for improvement. The Council is committed to openness and engagement and has been running the Cardiff Debate - an extensive programme of citizen engagement - to provide an ongoing conversation with citizens, communities and partners. The graphic below illustrates how the Council is responding to some of the feedback and themes emerging from the consultation undertaken to date:

Cardiff Debate Feedback	Responding to Community Voices
<p>Which services are a priority for you and your family?</p> <ul style="list-style-type: none"> Health Services (12.9%) Education & Skills (9.8%) and Keeping Children Safe (9.5%) 	<p>Education and Supporting Vulnerable People are clear priorities for the Corporate Plan. There are specific objectives about integrating health and social care and promoting independent living, which is known to have an impact on health and quality of life.</p>
<p>Which services so you and your family use?</p> <ul style="list-style-type: none"> Parks and Green Spaces (24.3%) Sports, Leisure & Cultural Facilities (16.6%) City Travel (13.7%) Libraries, Community Centres & Hubs (13.0%) 	<p>The Sustainable Economic Development priority includes a number of objectives to improve transport in the city.</p> <p>This plan's 4th priority (Working with people and partners to design, deliver and improve services) has specific objectives on ensuring sustainable long term provision of non-statutory but highly valued services such as cultural and leisure centres, libraries and community services.</p>
<p>What matters most to you in the delivery of that service?</p> <p>Strong emphasis on service quality as opposed to other factors such as cost, proximity of services to home and who delivers the service.</p>	<p>This is addressed in this plan's 4th Priority: Working with people and partners to design, deliver and improve services. A three year Organisational Development Programme (ODP) has been established to ensure that Council services can change to meet the challenges of growth and austerity.</p>

Between 11th December 2015 and 12th January 2016 the Council consulted on its draft budget.

This was a wide-reaching process including 20 Community Engagement events and a Youth Council event. The online version of the survey had 11961 views, with the accompanying video played 5294 times. In addition 5000 hard copies of the questionnaire were distributed, ensuring greater accessibility. This all contributed to 3348 completed questionnaires.

A large proportion of respondents (88.5%) recognised the crucial fact that a budget gap means there are difficult choices to be made. There was strong support for exploring new ways of working (76%) as well as increasing digitalisation of services (88.1%).

Just over 1 in 3 respondents (34.3%) said they supported the idea of community and third sector groups running more services, with a similar number (35.1%) being unsure or opposing (31%).

The difficult question of charging more for some services received a fairly positive response, with close to half (46.5%) supporting this proposal.

While the Cardiff Debate and budget consultation are just two of several elements shaping the Plan, they have helped ensure services are responsive to local need and their outcomes have been considered in the development of the Plan.

The Need to Prioritise

The City of Cardiff Council can no longer do all the things it has done in the past. With reducing funding and increasing demand, the Council must be clear about its priorities.

Our priorities:

- Better education and skills for all;
- Supporting vulnerable people;
- Creating more and better paid jobs;
- Working together to transform services.

For each priority, a limited number of improvement objectives have been established.

For each improvement objective, high level commitments and performance indicators have been chosen, and associated targets have been identified to measure progress.

To ensure there is a clear accountability for delivering each objective, a Lead Member, or in some instances Members, are identified.

Measuring Progress

The delivery of the Corporate Plan will be monitored through the Council's strengthened Performance Management Framework, including:

- Performance Challenge sessions of the Council's Senior Management Team;
- Joint Cabinet and Senior Management Team Performance Challenge meetings;
- A Challenge Forum involving Members, Senior Officers and external peer support to challenge the Council's progress against its improvement journey and delivery of the Corporate Plan.

Aligned monitoring and reporting cycles for finance and service performance information will further support this and afford far greater visibility of the Council's overall performance position – against which progress will be monitored on an ongoing basis.

› Key Terms

City Wide Outcomes

- Seven high level outcomes, which have been agreed with partners and are contained in Cardiff's Single Integrated Plan – "What Matters".
- Achieving these outcomes requires action across a range of organisations.

Council Priorities

- The Council's priorities recognise the most important areas that need to be addressed in the short to medium term.

Improvement Objectives

- For each priority 2-3 Improvement Objectives have been identified. These reflect specific areas where the Council wishes to see improvement.
- Improvement Objectives are expressed clearly and simply, to explain the future condition (or specific local outcome) we want to achieve and are therefore outcome focused improvement objectives.

Commitments

- Commitments are specific initiatives that the Council will undertake to deliver the Improvement Objectives and contribute to City Wide Outcomes

Measuring Progress

- Progress will be measured by a set of indicators. The measures contained in the main body of the Plan are those which the Council believes are the most important and relevant for Cardiff.
- Appendix A contains nationally set indicators (known as NSIs and PAMs), service improvement data which is collected by local authorities across Wales, and local indicators chosen by the Council.

Delivering for Cardiff:

Our Core Business

Everyone in Cardiff uses public services and many of them are provided by the Council. It is sometimes easy to forget about all the important services that the Council delivers - every day - to people across the city.

Each year the Council **delivers over 700 services to 352,000 residents in 151,000 households**, helping to support local communities and improve the lives of local people. Many will be aware that the Council is responsible for collecting bins, cutting grass and cleaning streets, but it also provides support for older people and people with disabilities, it runs schools and manages a high quality housing stock, as well as looking after children who are in care.

The Council also ensures delivery of **leisure facilities across the city** which makes a positive impact on the health and well-being of communities. **Parks and green spaces** - which are a huge part of the city's appeal - are maintained by the Council. The Council will continue to work with

"friends groups" to make the best use of important natural assets and vital recreational areas. This is in addition to working with partners to improve community engagement and local management of green spaces and community facilities.

Supporting the city's **leisure and recreational offer** not only ensures that people in Cardiff have a wide choice of physical activities, but it also helps keep people healthy and reduces the likelihood of long term health problems.

Cardiff has a long and successful track record of delivering **major sporting events**. Hosting **Rugby World Cup matches and the first Test match in the Ashes Cricket series in 2015** again demonstrated the city's capacity to deliver globally recognised events. In the next few years, the city will host the **World Half Marathon**, a leg of the Volvo Round the World Race and club football's biggest game – the **Champions League Final**.

Cardiff has a strong cultural offer but, due to budgetary pressures, the Council needs a new model to support art and culture in the city. By working with artists and communities, art and culture are being taken out of museums and galleries and into the communities of Cardiff. It is an exciting agenda and a real demonstration of how the Council can support the Arts in the future.

As well as those living in the city, over 80,000 people commute into Cardiff every day from across the city-region. This represents over one third of the city's workforce. Keeping the city and the city-region moving is therefore a top priority. This will require planning and delivering with our neighbours across the Cardiff Capital Region.

Within the city boundaries the Council plays a crucial role as it **maintains roads and highways** as part of a wider strategy for dealing with traffic and congestion. Other important issues, like fixing potholes, are also addressed whilst a joined up transport strategy to keep the city moving during peak traffic is taken forward by the Council. This includes encouraging a shift towards more sustainable modes of travel, enabling people to get around Cardiff in a convenient, safe and more environmentally friendly way.

Council staff continue to work every day to keep Cardiff's streets clean and the Council also **monitors air quality and noise** and ensures that **public and consumer safety** is upheld to the highest standards.

While the financial pressures are undoubtedly challenging, the Council will continue to deliver and support a wide range of public services on behalf of citizens and communities across the city. Doing so will be fundamental to delivering the vision of becoming **Europe's most liveable capital city**.

Our Priorities and Improvement Objectives

Priority 1: Better education and skills for all

- 1.1 Every Cardiff school is a good school
- 1.2 Looked after children in Cardiff achieve their potential
- 1.3 Adult learners achieve their potential

Priority 2: Supporting vulnerable people

- 2.1 People at risk in Cardiff are safeguarded
- 2.2 People in Cardiff have access to good quality housing
- 2.3 People in Cardiff are supported to live independently

Priority 3: Creating more and better paid jobs

- 3.1 Cardiff has more employment opportunities and higher value jobs
- 3.2 Cardiff has a high quality city environment that includes attractive public spaces and good supporting transport infrastructure
- 3.3 All young people in Cardiff make a successful transition into employment, education or training.

Priority 4: Working together to transform services

- 4.1 Communities and partners are actively involved in the design, delivery and improvement of highly valued services
- 4.2 The City of Cardiff Council has effective governance arrangements and improves performance in key areas
- 4.3 The City of Cardiff Council makes use of fewer, but better, buildings

Priority 1:

Better education and skills for all

Priority 1: Better education and skills for all

The Council is committed to helping all citizens and communities achieve their full potential, and to developing a well-educated workforce that the city's growing economy requires. Creating an excellent and inclusive school system and high quality opportunities for adult learning are therefore amongst the Council's highest priorities.

Because education doesn't begin and end at the school gate, meaningful collaboration with partners in the public, private and third sectors, and with parents and citizens across Cardiff will be essential to delivering the improvement required, and to making sure that this priority is achieved. All this forms an important part of delivering against our city wide outcome of helping people in Cardiff achieve their full potential.

City Performance

Relative to the UK core cities, Cardiff has a high number of adults educated to degree level or equivalent, as well as a low number of people with no qualification. This suggests that the city has a highly skilled workforce.

Standards achieved by learners in Cardiff schools are now improving at a faster rate than previously and many at a faster rate than the rest of Wales. 2014 saw a significant step forward in nearly all measures but we want to see further and more rapid improvement in performance. We have put in place clear plans to drive this improvement across the Council and in all schools, working closely with the Central South Consortium.

year 2014/15 build on the improvements seen the previous year and indicate that improvement actions are now having a positive impact on outcomes for learners. However, we want to see further and more rapid improvement in performance, in particular for vulnerable learners facing challenges and barriers to successful learning and attainment. We have put in place clear plans to drive improvement across the Council and in all schools, working in partnership with the Central South Consortium.

In 2014/15, in the **primary phase**, at the end of the **Foundation Phase** and **Key Stage 2**, improvements continued at a faster rate than across Wales. The proportion of pupils achieving the Foundation Phase Indicator and Core Subject Indicator is in line with national averages. At **Key Stage 4** there has been further significant improvement in the Level 2 inclusive threshold to 59.3%. This has halved the number of secondary schools where less than 40% of pupils achieve five GCSEs grades A*-C including English or Welsh and mathematics from six to three since 2013/14.

School Performance

Within Cardiff's schools, standards of attainment continue to improve in all key stages and in many indicators at a faster rate than across Wales as a whole. Despite this strengthening picture, outcomes at the end of each key stage are not yet high enough. The results for the academic

% with no qualifications (aged 16-64)

Jan - Dec 14

Source: Annual Population Survey

% with NVQ4+ (aged 16-64)

Jan - Dec 14

In the **primary sector**, the proportion of schools in the categories requiring least support (green and yellow in the national categorisation model), is in line with both the Consortium and Wales figures, with around a third of primary schools in these two support categories. In the **secondary sector**, the proportion of schools in the green and yellow categories is below both the Consortium and Wales figures, with just under half of Cardiff schools in these two support categories

Attendance in primary schools

continues to improve. The primary figure for 2014/15 was 95.1%, above the average primary attendance for Wales of 94.9%, and Cardiff is now 6th out of the 22 local authorities in Wales. The 2014/15 overall **attendance figure for secondary schools** remained the same as in the last academic year at 93.8%, which matches the Welsh average. This places Cardiff 11th out of the 22 local authorities in Wales for secondary school attendance.

Areas of particular focus in the year ahead are:

- Standards of pupils' literacy and numeracy, particularly in some schools in the more disadvantaged areas of the city;
- The proportion of pupils leaving school and not continuing to ongoing education, employment or training;
- The achievement of vulnerable pupils, particularly at Key Stage 4 in the Level 1 and Level 2 thresholds;
- The markedly low performance in three of the city's secondary schools where the local authority has now taken intervention action;
- The number of schools which have been judged in Estyn's inspections to have standards, provision and leadership which are not good enough.

The percentage of pupils assessed at the end of Key Stage 2, in schools maintained by the local authority, achieving the Core Subject Indicator, as determined by Teacher Assessment

Source: Data Unit Wales (2015)

The percentage of pupils aged 15 at the preceding 31 August, in schools maintained by the local authority who achieved the Level 2 threshold including a GCSE grade A*-C in English or Welsh first language and mathematics

Improvement Objective 1.1: Every Cardiff school is a good school

1 What do we want to achieve?

Our vision is that all children and young people in Cardiff attend a good school and develop the knowledge, skills and characteristics to become personally successful, economically productive and actively engaged citizens.

Over the next five years we will be striving to:

- Deliver consistently excellent outcomes for learners;
- Secure the best people to lead, teach, support and govern our schools;
- Offer inspiring, sustainable, community focused schools fit for the 21st Century;
- Deliver a self-improving school system, forming strong and dynamic partnerships between schools in the region;

- Ensure that schools are connected with the communities they serve and with business and enterprise in the city region.

The Council will make significant investment in new school buildings to transform some secondary schools and to meet the needs of the rapidly growing primary age population in both English and Welsh medium schools.

We also need the best leaders and teachers to be supported by good governing bodies. We will work closely with the Central South Consortium to achieve this and we want our schools to make the most of partnerships with colleges, universities, business and the creative and cultural sector in Cardiff.

We expect schools to ensure that every school leaver moves on successfully into ongoing education, employment or training and we will work together to deliver targeted support to address barriers to learning and ensure progression for all learners. This will focus on learners with the greatest need for support, including looked after children, those eligible for free school meals and those with additional learning needs.

2 Commitment

In order to achieve the above the Council will:

Lead Member

Deliver the Schools Organisation Programme including the completion of Band A investment projects by 31 March 2019	Cllr Sarah Merry
Contribute to the development of a regional 'Central South Wales networked learning community', run by schools for schools by September 2017, focused on improvements in the quality of leadership, teaching and learning	Cllr Sarah Merry
Implement the requirements of the new curriculum for Wales - 'Successful Futures' - by September 2021, commencing with the introduction of the Digital Competence Framework in all Cardiff schools by September 2016	Cllr Sarah Merry
Implement the new statutory framework for supporting children and young people with additional learning needs, in accordance with the legislative framework, by 2021	Cllr Sarah Merry
Turn around the performance of the minority of Secondary Schools that are causing concern by July 2018	Cllr Sarah Merry
Improve and sustain the expertise of Cardiff schools in Mathematics and English, increasing capacity in teaching and learning at all levels	Cllr Sarah Merry
Address the persistent impact of poverty on attainment and the marked variations between schools in the attainment of FSM pupils	Cllr Sarah Merry

Improvement Objective 1.1: Every Cardiff school is a good school

3 Measuring Progress

Measure	Target 2016/17
<p>Increase the proportion of schools where Standards are judged by Estyn to be good or excellent on a 3 year rolling basis.</p> <ul style="list-style-type: none"> • Primary Schools • Secondary Schools • Special Schools 	<p>80%</p> <p>50%</p> <p>100%</p>
<p>Increase the proportion of schools where Capacity to Improve is judged by Estyn to be good or excellent on a 3 year rolling basis.</p> <ul style="list-style-type: none"> • Primary Schools • Secondary Schools • Special Schools 	<p>80%</p> <p>50%</p> <p>80%</p>
<p>Increase the percentage of Cardiff schools categorised as 'Green' in the annual Welsh Government School Categorisation process.</p> <ul style="list-style-type: none"> • Primary Schools • Secondary Schools • Special Schools 	<p>30%</p> <p>22%</p> <p>71%</p>
<ul style="list-style-type: none"> • Increase the percentage of pupils assessed at the end of Key Stage 2, in schools maintained by the local authority, achieving the Core Subject Indicator, as determined by Teacher Assessment 	89.62%
<ul style="list-style-type: none"> • Increase the percentage of pupils aged 15 at the preceding 31 August, in schools maintained by the local authority, who achieved the Level 2 threshold at KS4, including a GCSE grade A*-C in English or Welsh first language and mathematics 	65%
<ul style="list-style-type: none"> • Increase the percentage of pupils achieving the Level 2 threshold (5 GCSEs at A*-C) at KS4 	87.08%
<ul style="list-style-type: none"> • Increase the percentage of pupils achieving Level 1 threshold (5 GCSEs at Grade A*-G) at KS4 	97.81%
<ul style="list-style-type: none"> • Increase the percentage of FSM pupils assessed at the end of Key Stage 2, in schools maintained by the local authority, achieving the Core Subject Indicator, as determined by Teacher Assessment 	81.14%
<ul style="list-style-type: none"> • Increase the percentage of FSM pupils achieving the Level 2 Inclusive threshold (5 GCSEs at A*-C, including English or Welsh first language and mathematics) at KS4 	45.45%
<ul style="list-style-type: none"> • Increase the attendance at secondary school 	95%
<ul style="list-style-type: none"> • Increase the attendance at primary school 	95.4%

Improvement Objective 1.2: Looked after children in Cardiff achieve their potential

1 What do we want to achieve?

The Council is committed to providing high quality care and support for looked after children to help them achieve their potential. Closer working across Council Directorates, Cardiff schools and partner organisations is crucial, and is supported by the Corporate Parenting Advisory Committee and a new Corporate Parenting Strategy.

The commitment and quality of support provided by the Looked After Children Education Team was commended in feedback from the Care and Social Services Inspectorate Wales, following an inspection in May 2014. More young people are now

being supported at university and, though challenges remain, the overall picture is one of stability and improvement. A new scheme was launched in April 2014 to provide care leavers with opportunities to secure work placements in Council departments and those already placed have acquired new work related skills. This supports wider efforts to ensure positive progression routes for all care leavers. As a result of work concerning Transitions undertaken by the Children and Young People Scrutiny Committee during 2014-15, the Cabinet agreed to increase the grant payable to care leavers on leaving care from £1,100 to £2,000.

The new Corporate Parenting Strategy sets out the shared vision of the City of Cardiff Council and the Cardiff & Vale University Health Board to work together to ensure the best possible outcomes for children who are looked after or who have left care, so that they can be happy and lead fulfilling lives. By virtue of its role as 'Corporate Parent', the Council has a duty to nurture, respect and be ambitious for all its looked after children and young people, as every good parent would for their own child.

2 Commitment

In order to achieve the above the Council will:

Lead Member

Embed key elements of the Corporate Parenting Strategy in collaboration with partners by March 2017

Cllr Sue Lent

3 Measuring Progress

Measure	Target 2016/17
% of all care leavers in education, training or employment at 12 months after leaving care	tbc*
% of all care leavers in education, training or employment at 24 months after leaving care	tbc*
% attendance of looked after pupils whilst in care in primary schools	98%
% attendance of looked after pupils whilst in care in secondary schools	96%
% of looked after children returned home from care during the year	tbc*
% of children looked after at 31 March who have experienced one or more non transitional changes of school in the 12 months to 31 March	16%
% of children looked after on 31 March who have had three or more placements during the year	12%

*This new indicator is part of the Social Services and Well-being (Wales) Act 2014 Outcome Framework – see page 23 for detail.

Improvement Objective 1.3: Adult learners achieve their potential

1 What do we want to achieve?

The Adult Community Learning service is delivered through the Cardiff and Vale Community Learning Partnership and offers a broad range of adult education courses that help support the citizens of Cardiff to meet their learning aspirations. The Council is especially focussed on supporting those on low income because income poverty can have a profound impact on people's aspirations as well as broader effects on the health, well-being and safety of citizens.

The Council's contribution to Adult Community Learning in Cardiff focuses on two key areas:

- **Learning for Work:** This focuses provision on priority learners as defined by the Welsh Government, and these learners include those currently not in Education, Training or Employment and those aged 50+ who are currently unemployed. Key learning categories include English for Speakers of Other Languages and Basic Skills, Digital Literacy and Welsh medium provision.

- **Learning for Life:** This element provides opportunities for recreational lifelong learning courses on a cost recovery basis. These courses are available to all community members.

By increasing the number of accredited courses delivered to priority learners and improving levels of enrolment, the Council will support adult learners to achieve their potential. This work will build on the recent improvement in Adult Community Learning Success Rate from less than 60% to over 85%.

The Into Work Advice Service provides free help and advice for Cardiff residents searching for work or people who are looking to upskill to improve their chances of employment, including providing work preparation courses and hosting Job Clubs in 13 different Hubs and community venues to support job seekers. The Into Work team assists on average 4,000 customers every month with CV writing, application forms and covering letters, Universal Job Match help, Job Search, and help with how to use email and the Internet.

The Council also holds local and city-wide Jobs Fairs which are attended by both employers and job seekers. In conjunction with the Department for Work & Pensions, two city-wide Jobs Fairs are held during the year which brings together major employers, local providers and Council services. In addition, local employer recruitment events are held in different areas of the city and we also support local guaranteed interview events in community buildings across the city.

We are working to widen digital inclusion within communities by helping people 'get online' through learning basic computer skills, using the Internet, creating an email address, completing online applications for jobs and benefits and help with online shopping, paying bills online and social media. The digital inclusion agenda is also assisting preparations for the full roll out of Universal Credit across the city and the Council will be supporting all new claimants and helping people to maintain their Universal Credit account online.

2 Commitment

Lead Member

Increase the number of courses for priority learners in Communities First areas by March 2017 ensuring an increase in enrolment, retention and attainment, which leads to an increase in the overall success rate for learners

Cllr Dan De'Ath

By March 2017, the Into Work service will:

- Offer taster sessions in different employment sectors
- Hold 2 major Jobs fairs in collaboration with partner agencies
- Hold guaranteed interview events in community buildings across the city
- Put together an employment offer which provides sourcing, training, shortlisting and assistance in interview process to employees for organisations.

Cllr Dan De'Ath

3 Measuring Progress

Measure

Target 2016/17

Maintain the success rate at or above the Adult Community Learning National Comparator (Cardiff specific return)

83%

The percentage of Into Work Service Users who feel more 'job ready' as a result of completing a work preparation course

>90%

Priority 2:

Supporting vulnerable people

Priority 2: Supporting vulnerable people

The Council is committed to prioritising services that support the people of Cardiff who are most vulnerable. This includes older people in need of care and support, children in care, and people that require safeguarding from issues such as sexual exploitation, abuse and human trafficking. It also includes supporting those who are homeless, or need access to good quality housing.

Supporting vulnerable people is hugely important if Cardiff is to effectively manage the growing demand pressures on services, promote social justice within the city, help address inequality, and respond to the requirements of the Social Services and Well-being (Wales) Act 2014.

Difficult times mean that more people need access to support and the Council has taken a number of actions to help those in need, for example working with partners to minimise the impact on those affected by welfare reform.

Developing a better understanding of the needs of individual service users and communities, and reshaping services in response, will be crucial, as will placing an increased focus on preventative action. As part of this approach, we are committed to improving the provision of Adult Social Services through improved integration with Health and Housing Services to ensure that people in Cardiff are supported to live independently.

Doing this will require joined up working between different organisations in the public, private and third sectors because our partners in South Wales Police, Cardiff and Vale University Health Board, the Probation Service and a number of voluntary and third sector organisations also commit much of their resources to helping vulnerable people.

The Council will also prioritise the delivery of high quality and affordable social housing across the city. This will include changing the way Council housing is allocated to ensure those with the highest need have access to housing, as well as ensuring private sector homes are fit for purpose.

City Performance

While Cardiff makes the greatest contribution to the Welsh economy, the local authority has the one of the highest percentages of areas that are among the most deprived in Wales. This means that there are high levels of inequality within the city. For instance, over a quarter (28.6%) of households in Cardiff were deemed to be living in poverty, meaning that 41,256 households were classified as below the poverty line.

Percentage of Lower Super Output Areas (Areas roughly half the size of an electoral ward) in the 10% most deprived areas of Wales

Social Services and Well-being (Wales) Act 2014

The new Social Services and Well-being (Wales) Act 2014 provides the legal framework for improving the well-being of people who need care and support, and carers who need support, and for transforming social services in Wales.

The Council is working on the implementation of the Act and the associated Outcome Framework during 2016/17. As many of the measures in the Outcome Framework are new measures, it is not possible to set targets for these. Over 2016/17 the Council will work to establish a baseline position which will then enable a robust target setting

methodology to be implemented. Where the Outcome Framework Measures were previously National Strategic Indicators or Public Accountability Measures, targets have been set for 2016/17.

Days taken to get a Disabled Facilities Grant 2014 - 15

Number of Vacant Private Homes brought back into use 2014 - 15

Children in Care Approaching 18 who have a Plan of Support when they leave care

Reviews of Vulnerable Children Completed on Time

Information is shown to the nearest whole number, 2014-15

Adults Helped to Live at Home 2014 - 15

How many older people were helped to live in residential care 2014 - 15

Improvement Objective 2.1: People at risk in Cardiff are safeguarded

1 What do we want to achieve?

The Council is committed to supporting children, young people and adults who may be unable to take care of themselves, and empowering individuals to protect themselves from significant harm or from exploitation. The Council, along with its partners, will continue to play a lead role in protecting and safeguarding individuals who need care and support from abuse and neglect or any other kinds of harm.

The Social Services and Well-being (Wales) Act 2014 aims to address these issues while giving people greater freedom to decide which services they need. The aim is to offer consistent, high-quality services across the country. Cardiff is well positioned to respond to the Act, which places safeguarding vulnerable adults on the same statutory footing applicable to children under previous legislation.

The Council also recognises the need to focus on developing a range of more effective services to prevent issues escalating, which may result in vulnerable children or adults being separated or cared for away from their families. Doing this effectively will offer a better quality of life for the individual and will be more cost-effective for the Council.

2 Commitment

In order to achieve the above the Council will:

Lead Member

Improve the system for protecting children from significant harm by implementing new Multi Agency Safeguarding Hub (MASH) arrangements for managing referrals by June 2016	Cllr Sue Lent
Improve the recruitment and retention of children’s social workers, ensuring the Council achieves and maintains a vacancy rate for children’s social workers below 18 % by March 2017	Cllr Sue Lent
Implement key elements of the Cardiff Child Sexual Exploitation Strategy in collaboration with partners by March 2017	Cllr Sue Lent
Implement a fully re-commissioned domestic violence support service to meet the requirements of new legislation which ensures more integrated provision by March 2017	Cllr Dan De’Ath
Work to make Cardiff a recognised Dementia Friendly City by March 2018	Cllr Susan Elsmore
Work towards Cardiff becoming a ‘Child Friendly City’ by March 2017	Cllr Lent, Cllr De’Ath
Complete roll out of the second phase of a specialist training programme regarding the Social Services and Well-being (Wales) Act 2014	Cllr Sue Lent Cllr Susan Elsmore
Introduce and deliver within the school curriculum a WJEC accredited “Challenging Extremism” module to raise awareness and prevent radicalisation	Cllr Dan De’Ath

3 Measuring Progress

Measure

Target 2016/17

% of Children’s Services social work vacancies across the service	18%
% of re-registrations on the Child Protection Register during the year	tbc
% of adult protection enquiries completed within 7 working days	tbc
% of children supported to remain living within their family	tbc
Number of children participating in the Challenging Extremism module	1000

Improvement Objective 2.2: People in Cardiff have access to good quality housing

1 What do we want to achieve?

Housing is at the heart of well-being, and so the Council is committed to delivering high quality, sustainable and affordable homes, particularly for those in most need.

Demand for housing of all tenure in Cardiff is high, particularly for social housing. The Council will therefore prioritise work to increase the level of housing available for Council tenants as well as maximising the delivery of affordable housing. Achieving 100% compliance with the Welsh Housing Quality Standard also demonstrates that the housing offer for Council tenants is of a high quality.

The City of Cardiff Council works to ensure landlords and agents comply with their legal obligations under the Housing (Wales) Act 2014 and is the host licensing authority for the Welsh Government's Rent Smart Wales scheme. This is an all-Wales registration and licensing scheme, which works to prevent rogue agents and landlords letting and managing properties, driving up standards in the private rented housing sector. The scheme also seeks to raise the awareness of tenants, landlords and agents of their rights and responsibilities.

As the licensing authority for Rent Smart Wales, the Council processes landlord registrations and grants licences to landlords and agents. Landlords and agents must register by November 2016. After this date, enforcement work will begin to ensure compliance.

We also recognise that acting on homelessness is an immediate concern if we are to support the most vulnerable. That is why the Council will also ensure it has effective and efficient measures in place to support those who are homeless.

2 Commitment

In order to achieve the above the Council will:

Lead Member

Deliver circa 1500 new homes for Cardiff through the Housing Partnering Scheme, as part of a phased approach by 2024, 40% of which will be affordable housing.	Cllr Susan Elsmore
Develop a robust 5 year plan to maximise the delivery of new affordable housing units across Cardiff to help tackle housing need of all types whilst ensuring the need is addressed across all delivery methods, including Section 106 developer contributions, windfall sites and Registered Social Landlord & council house building programmes	Cllr Susan Elsmore
Continue to work with partners to mitigate the impact of the welfare reform changes and to ensure that those affected still have access to good quality housing	Cllr Susan Elsmore
Promote the Rent Smart Wales service to communicate the new requirements of landlords and agents and review related processes in preparation for the implementation of the enforcement provisions in November 2016	Cllr Bob Derbyshire
Through working in partnership, engage with Rough Sleepers in the city to support them in finding suitable accommodation	Cllr Susan Elsmore
Review the management of accommodation used by Homelessness Services by March 2017	Cllr Susan Elsmore

3 Measuring Progress

Measure

Target 2016/17

The number of additional affordable housing units provided during the year as a percentage of all additional housing units provided during the year	20%
Number of customers supported and assisted with their claims for Universal Credit	400
Additional weekly benefit awarded to clients of the City Centre Advice Team	£6m
% of Commercial Landlord Agents licensed with Rent Smart Wales (cumulative)	20%
Number of Landlords in Wales registered with Rent Smart Wales (cumulative)	26,000
% of interventions provided by the outreach service within 48 hours of a report of rough sleeping	90%

Improvement Objective 2.3:

People in Cardiff are supported to live independently

1 What do we want to achieve?

Helping people to live independently means enabling potentially vulnerable people to develop the skills they need to live on their own, supporting them with reasonable adaptation to their homes and providing more preventative services before their needs become critical. This is done by identifying an individual's strengths and skills through a re-ablement approach. Doing so provides people with dignity and independence whilst reducing the demand for domiciliary packages and traditional models of care.

To achieve this and respond to the growing demand for support, the Council must change the way it provides services. We are therefore looking at important issues such as preventing hospital admissions, facilitating quick and safe discharge from hospital and allowing people to remain at home to retain and regain their independence. In response we have established a new Gateway service, which provides a single point of contact for anybody that needs support, with an emphasis on independent living and joining up all available services.

Many young adults leaving the care system also remain highly vulnerable and need additional support from a range of agencies to enable them to live independently. The Council will therefore ensure effective transitional support is in place, and the Council's accommodation gateway for vulnerable young people is already improving access to accommodation for care leavers and young single homeless people.

2 Commitment

In order to achieve the above the Council will:

Lead Member

Improve the effectiveness of transitional support for disabled and vulnerable children approaching adulthood	Cllr Sue Lent Cllr Susan Elsmore
Promote and increase the number of adults using the Information, Advice and Assistance Service to access information and signposting to enable them to remain independent in their community and to act as a gateway to accessing advice and assistance	Cllr Susan Elsmore
Explore with the UHB the feasibility of an integrated model for the management and delivery of health and social care services in adult social care	Cllr Susan Elsmore
Work with our health partners to reduce the total number of Cardiff residents who experience a delayed transfer of care from hospital by 2017	Cllr Susan Elsmore
Continue to increase the uptake of direct payments as an alternative to direct provision of care for Cardiff adult residents with care and support needs in line with the Social Services and Well-being (Wales) Act by 2017	Cllr Susan Elsmore
Offer a Carers Assessment to all eligible adult carers who are caring for adults	Cllr Susan Elsmore

3 Measuring Progress

Measure

Target 2016/17

% care leavers aged 16-24 experiencing homelessness during the year	tbc
% of new service requests to be managed within Independent Living Services as opposed to Social Care	40%
% of cases where alternative solutions were found by an Independent Living Visiting Officer through interventions reducing the need to follow through to Social Care	45%
% of Telecare calls resulting in an ambulance being called	10%
The rate of delayed transfers of care for Social Care reasons per 1000 population aged 75 or over	25% reduction
The total number of adults in need of care and support using the Direct Payments Scheme	750
% of eligible adults who are caring for adults that are offered a Carers Assessment during the year	90%

Priority 3:

Creating more jobs and better paid jobs

Priority 3: Creating more jobs and better paid jobs

Increasing the number and quality of jobs is essential to improving the quality of life for people in the city and wider region. The Council is therefore committed to helping create the conditions that will enable businesses to succeed, attracting high quality investment and creating more and better jobs in the city.

Working closely with the business community and other public and third sector organisations – in the city, across the wider city-region, nationally and internationally – will be essential in creating the right environment to deliver sustainable economic development.

City Performance

Cardiff's economic performance is substantially stronger than any other area of Wales and the city plays a vital role in creating jobs for the city-region. Cardiff is also one of the most competitive of the UK's Core Cities, with faster jobs growth over the last 10 years and, more recently, faster rising average wages and lower unemployment rates, which are at the lowest levels since February 2009.

Other indicators, such as Cardiff's high proportion of graduates and fast growing population, point to a strong period for the city economy. The city also has one of the fastest growing financial services sectors, as well as competitive clusters in businesses such as the creative industries and advanced manufacturing. This growth has been

reflected in investment across the city in recent years, including the development taking place in Central Square. The challenge for the city is to convert its strengths into better outcomes. As it stands, the output per head in Cardiff is below the UK average. There is a need to improve overall levels of business performance and productivity and to support a greater range and choice of opportunities.

Economic success in the knowledge economy is dependent on attracting and keeping talented people, and so quality of life is becoming as important as the quality of job opportunity on offer. As Cardiff grows, its development will need to be managed in a sustainable, resilient and inclusive way if the city is to retain its high quality of life, with a particular focus on achieving a modal shift towards sustainable travel.

Improvement Objective 3.1: Cardiff has more employment opportunities and higher value jobs

1 What do we want to achieve?

The Council will work with partners in the public and private sectors to create an environment which supports the development of new business and the growth of current businesses, as well as attracting inward investment. This will require investment in infrastructure; creating a supportive environment for start-ups and existing businesses as well as a proactive

approach to securing inward investment and attracting visitors. Doing this will increase the number and quality of the jobs available for people in the city and across the city-region.

The high quality portfolio of business premises delivered in the city centre has already secured the new BBC HQ in Central Square, bringing high quality jobs into the

city centre. The Council will continue to deliver projects to help attract employment in high value sectors such as the creative industries and financial and business services.

2 Commitment

In order to achieve the above the Council will:

Lead Member

Facilitate growth in the Financial and Professional Service sector by working with partners to deliver 300,000 square feet of Grade A office accommodation within the Cardiff Central Enterprise Zone by March 2018	Cllr Phil Bale
Deliver with partners a proposal to Central Government for a City Deal for Cardiff by March 2017, along with a subsequent programme for delivery	Cllr Phil Bale
Implement a delivery strategy for regeneration of the city centre including progressing a planning application for a Multi-Purpose Arena by March 2017	Cllr Phil Bale
Work with Cardiff University to deliver the masterplan for the Civic Centre heritage quarter including a detailed options appraisal for City Hall by March 2017	Cllr Phil Bale
Develop Cardiff Bay as a creative industries cluster including a plan for the regeneration of the Mount Stuart Square heritage quarter and the continued development of the Cardiff Bay waterfront by March 2017	Cllr Phil Bale
Continue the development of the International Sports Village as a major leisure destination including a review of the plan for the waterfront site by March 2017	Cllr Phil Bale

3 Measuring Progress

Measure	Target 2016/17
Sqft of 'Grade A' office space committed for development in Cardiff	150,000
New and safeguarded jobs in businesses supported by the Council, financially or otherwise	500
Number of overnight stays in Cardiff	+2%
Number of visitors to Cardiff	+2%

Improvement Objective 3.2: Cardiff has a high quality city environment that includes attractive public space and good supporting transport infrastructure

1 What do we want to achieve?

Economic success will be reliant upon much more than delivering major urban regeneration schemes. It will demand a much broader approach to ensure that the city develops in a sustainable, resilient and inclusive manner.

Creating sustainable communities, with high quality housing, great parks and open spaces and excellent transport links, will be a priority. This will mean securing investment in Cardiff's transport infrastructure and services allowing people to travel around the city – and the city-

region – in a convenient and clean way. A new transport interchange and gateway to the city, created at the heart of the transport network, is a key priority.

2 Commitment

In order to achieve the above the Council will:

Lead Member

Work with partners to design and deliver a new transport interchange - including a new bus station - as part of a high quality gateway into the city by December 2017	Cllr Ramesh Patel
Support Welsh Government and other stakeholders in the formulation of proposals to develop the Cardiff City Region Metro	Cllr Ramesh Patel
Approve a new Cardiff City Transport Strategy following public consultation and stakeholder engagement by October 2016	Cllr Ramesh Patel
Deliver first phase of the Action Plan for Cardiff Bay by December 2016	Cllr Ramesh Patel
Work with neighbouring Local Authorities and other relevant stakeholders to prepare a Strategic Development Plan (SDP) for the Cardiff Capital Region by 2021	Cllr Ramesh Patel
Establish a strategy for asset maintenance and renewal within the new City Operations directorate by October 2016	Cllr Ramesh Patel
Develop a Cardiff Cycle Strategy, benchmarked against European best practice, by December 2016.	Cllr Ramesh Patel

3 Measuring Progress

Measure

Target 2016/17

% of highways inspected of a high or acceptable standard of cleanliness	90%
% of principal (A) roads, non-principal/classified (B) roads and non-principal/classified (C) roads that are in overall poor condition	7%
% of all travel to work trips on the transport network to be made by sustainable modes	44%
Number of green flag parks and open spaces	10
% of people cycling to work	+1%

Improvement Objective 3.3: All young people in Cardiff make a successful transition into employment, education or training

1 What do we want to achieve?

The City of Cardiff Council is committed to helping people make a successful transition into employment, education or training. We recognise the importance of having a skilled and qualified workforce for the prosperity of the city, the success of business and, most importantly, the wellbeing of our citizens and their families. We are particularly concerned with supporting some key groups of young people who may need additional support. We will ensure that they have access to vocational training to develop the skills

they need to succeed in the workplace and are connected to opportunities in the local economy, such as apprenticeship and work placement schemes.

While there has been a steady improvement year on year in the proportion of young people who are engaged in education, employment or training at age 16, there is much more to do to increase the number of young people who secure a positive destination after leaving school.

We know that we cannot achieve this by ourselves. Through the Welsh Government Youth Guarantee and Cardiff Commitment we will bring partners from the public and private sector from across the city together to help create opportunities and pathways for our young people, particularly those vulnerable groups who face the biggest barriers to progression.

2 Commitment

In order to achieve the above the Council will:

Lead Member

Improve multi agency arrangements: <ul style="list-style-type: none"> to ensure the early identification of children and young people at risk of not progressing to ongoing education, training or employment after leaving school; and to ensure that identified children and young people receive early and appropriate support 	Cllr Sarah Merry
Strengthen and extend the existing 'lead worker' model to directly support the transition of young people from school into employment, utilising European Social Fund resources to extend capacity for the next 3 years	Cllr Sarah Merry
Improve information sharing and tracking systems between partners for young people pre and post 16 by September 2016	Cllr Sarah Merry
Implement the Welsh Government Youth Guarantee and Cardiff Commitment to ensure appropriate progression routes for all learners by September 2016	Cllr Sarah Merry
Enhance the range of opportunities for young people to develop employability skills and secure employment in Cardiff	Cllr Phil Bale

3 Measuring Progress

Measure

Target 2016/17

% of Year 11 leavers making a successful transition from compulsory schooling to education, employment or training	96.5%
% of Year 13 leavers making a successful transition from compulsory schooling to education, employment or training	97%
% of young people in Cardiff Schools achieving a recognised qualification by the end of Year 11	99.5%

Priority 4:

Working together to transform services

Priority 4: Working together to transform services

The Council recognises that there is an urgent need to change the way it delivers many services to ensure that their long term sustainability is secured and that underperformance in some statutory services is addressed. In order to do so, a rolling three year **Organisational Development Programme (ODP)** has been established to:

- Review the shape and scope of the organisation and the way in which services are currently delivered to meet demand;
- Enhance citizen engagement and widen opportunities for people and communities to shape services around their needs;
- Identify delivery models that may be established to meet demand pressures and reflect budgetary realities;

- Significantly strengthen performance management, workforce development and staff engagement arrangements;
- Identify opportunities for further efficiency savings through better internal and external collaboration, integration of service delivery and better use of assets and infrastructures.

This chapter captures the work being undertaken under the Organisational Development Programme.

Organisation's Performance

The level of citizen satisfaction with Cardiff Council Services in 2015 was 69.3%, according to the Ask Cardiff Citizen Satisfaction Survey. This was higher than the reported satisfaction with local councils in England, with 67% of respondents very or fairly satisfied. While there are obvious issues with comparing two separate surveys, there were similarities in the nature of the questions asked, which suggests Cardiff is performing above the English average in terms of citizen satisfaction. It must be noted that satisfaction has decreased significantly since the 2014 Ask Cardiff Survey (from 80.8%) and the challenge will be to improve this satisfaction level at a time of budget shortfalls.

Customer Satisfaction with Council Services Ask Cardiff 2015

*Excludes 'Don't know' response

I am clear about what is expected of me through my agreed Personal Performance Objectives

City of Cardiff Council Performance against statutory indicators

Position	Cardiff attainment
Top Quartile	4 Statutory indicators (9.5%)
Second Quartile	10 Statutory indicators (24%)
Third Quartile	12 Statutory indicators (29%)
Bottom Quartile	16 Statutory indicators (38%)

In terms of Council performance against nationally set performance indicators there remains a clear need to improve. When Cardiff's performance is set against that of other Welsh local authorities, 38% of the Council's statutory performance measures are in the bottom quartile.

The Council has maintained a marked improvement in the number of permanent staff completing personal development reviews, a crucial component of an organisation where performance management is central to delivery, and staff remain clear about their contribution to the organisation's priorities.

Improvement Objective 4.1: Communities and partners are actively involved in the design, delivery and improvement of highly valued services

1 What do we want to achieve?

Responding to the budget and demand pressures that the Council and its public sector partners face means thinking differently about how services are designed, delivered and commissioned. This is particular true for those services which, though non-statutory, are highly valued by the residents of Cardiff.

This means increased partnership working, with other local authorities and public services, including co-locating services within community facilities or 'Hubs,' sharing assets or buildings, pooling budgets, or introducing multi-agency teams to work

with residents and communities to provide more integrated services. It also means being more focused about when and where services are delivered. Within the organisation, a 'One Council' approach is enabling more joined-up working between departments and makes services easier to access for residents - with a focus on increased use of digital channels where appropriate.

It also means developing and implementing alternative models for delivering services. Traditionally, the Council has been a direct provider of many services.

Through the ODP, the Council is developing other approaches, such as commissioning and working with community groups, reducing the cost of delivery while maintaining the quality of service. This approach aligns with feedback from the Cardiff Debate, which suggests that residents value the quality of services and not necessarily who is responsible for their delivery. Identifying how some services can effectively, and fairly, be commercialised and engaging people more meaningfully in designing services are also components of this agenda.

2 Commitment

In order to achieve the above the Council will:

Lead Member

Introduce a new model of provision for play services by April 2017, with a transition provision operable until the new grant commissioning model is in place	Cllr Peter Bradbury
Establish the future leisure needs of the city and develop options for alternative models for the sustainable delivery of leisure infrastructure and services by June 2016	Cllr Peter Bradbury
Ensure the new approach to the delivery of infrastructure services, including Waste, Cleansing, Parks, Highways, Design, Fleet and Facilities Management services, is operational by March 2017	Cllr Bob Derbyshire
Implement service changes for Cardiff to enable the Council to exceed its statutory recycling target (58%) by March 2017	Cllr Bob Derbyshire
In line with the agreed commercialisation strategy, develop and implement a continuing programme of specific commercial opportunities to commence by October 2016	Cllr Graham Hinchey
Progress the agreed Community Hubs development programme by delivering new Hubs in: <ul style="list-style-type: none"> Fairwater by June 2016; Splott by October 2016; Llanedeyrn by December 2016; Llandaff North by January 2017 and Agreeing plans for Llanishen and St Mellons Phase 2 Hubs by July 2016. 	Cllr Peter Bradbury
Implement phases 2 and 3 of the Customer Relationship Management (CRM) model by March 2018	Cllr Graham Hinchey

3 Measuring Progress

Measure

Target 2016/17

Maintain customer / citizen satisfaction with Council services	80.8%
% of municipal waste collected by local authorities and prepared for reuse and/or recycled	60%
% of customers who agreed with the statement 'Overall the Hub met my requirements/I got what I needed'	90%
The number of visitors to Libraries and Hubs across the City	3,000,000

Improvement Objective 4.2: The City of Cardiff Council has effective governance arrangements and improves performance in key areas

1 What do we want to achieve?

The Corporate Assessment undertaken by the Wales Audit Office in 2014 identified areas where governance arrangements could be strengthened and also emphasised the importance of effective performance management in ensuring that the

Council's priorities are delivered. Significant improvements have already been made to the Council's performance management arrangements in the last year. These will continue to be strengthened, working in partnership with the Wales Audit Office and

other external partners, with a particular focus on driving improvement in priority areas including Education and Children's Services.

2 Commitment

In order to achieve the above the Council will:

Lead Member

Further embed performance management tools consistently across the Council to ensure continuing performance improvement in key areas by 2017	Cllr Graham Hinchey
Further reduce sickness absence by March 2017 through continued monitoring, compliance and support for employees and managers	Cllr Graham Hinchey
Further improve completion rates, quality and consistency of Personal Performance and Development Reviews by March 2017 through continued provision of support and training for employees and managers	Cllr Graham Hinchey
Develop a strategy for the temporary, casual and agency workforce taking account of social inclusion and youth engagement by March 2017	Cllr Graham Hinchey

3 Measuring Progress

Measure

Target 2016/17

% of the revised set of National Strategic Indicators and Public Accountability Measures* that are in the top two quarters nationally	50%
% of revised set National Strategic Indicators and Public Accountability Measures that meet set targets	60%
% of revised set of National Strategic Indicators and Public Accountability Measures that show an improving trend	75%
The number of working days/shifts per full-time equivalent (FTE) local authority employee lost due to sickness absence	8.5
% of Personal Performance and Development Reviews completed for permanent staff	95%
% of middle managers at grade 7 and below to complete the Cardiff Managers programme	50%

*the revised basket of NSIs and PAMs exclude those measures now covered by the Social Services and Well-being Outcome Framework

Improvement Objective 4.3: The City of Cardiff Council makes use of fewer, but better, buildings

1 What do we want to achieve?

The Council owns, or has an interest in, a large property estate with a current use value of around £1bn. This includes over 500 operational buildings used to deliver Council services and around 500 properties retained for investment purposes.

The current cost of operating the property estate is the second largest call on the Council's budget, after staff, at circa £50m per annum, including planned maintenance. There is also a growing maintenance backlog in excess of £100m.

The Council will focus on reducing the cost of ownership of the operational property by rationalising the estate and by improving the quality of buildings that are retained. An important part of this agenda will involve improving co-operation around property with partners.

2 Commitment

In order to achieve the above the Council will:

Deliver the approved Property Strategy, including:

- Implement new Investment Estate arrangements in order to improve performance and returns by March 2017
- Implement annual Corporate Asset Management Plan by March 2017 to deliver £1.6m of revenue savings and £3.78m of capital receipts through Property Rationalisation
- Complete Operational Estate utilisation review to guide future use of all assets and inform decision making by March 2017

Lead Member

Cllr Graham Hinchey

3 Measuring Progress

Measure

Target 2016/17

Reduction in Gross Internal Area (GIA) of buildings in operational use	3%
Reduction in total running cost of occupied operational buildings	4.2%
Reduction in maintenance backlog	£3.2m
Revenue savings delivered through Property Rationalisation	£1.6m
Capital receipts delivered through Property Rationalisation	£3.78m
% change in the average Display Energy Certificate (DEC) score within local authority public buildings over 1,000 square metres	3%

**CITY OF CARDIFF COUNCIL
CYNGOR DINAS CAERDYDD**

COUNCIL: 25 FEBRUARY 2016

CABINET PROPOSAL

AGENDA ITEM:

BUDGET PROPOSALS 2016/17

Reason for this Report

To enable the Cabinet to:

1. Having considered and reflected on the responses to all aspects of the consultation, submit to Council their proposal for the estimates of expenditure and income in order to set the Council Tax in accordance with the Local Government Finance Act 1992.
2. Recommend to Council the strategy and plan for the control of the Authority's borrowing and investments for the year 2016/17 (the Annual Treasury Management Strategy).
3. Recognise the financial challenges facing the Council as set out in the Medium Term Financial Plan and to note the opportunities for savings.
4. Recognise the work undertaken to raise awareness of and ensure the financial resilience of the Council.
5. Recommend to Council the Prudential Code, capital expenditure and treasury indicators for 2016/17-2018/19 and the Council's Minimum Revenue Provision Policy for 2016/17.
6. Set the rent levels for Housing Revenue Account properties, service charges and management fees for leaseholders for 2016/17.
7. Agree the rates of fees and charges for Council services for 2016/17.
8. Receive an update on the City Deal and recommend to Council that the City Deal Document be signed subject to the Final Agreement being subject to approval by Council.
9. Approve the Supporting People Spending Plan for 2016/17.
10. Approve the Day Opportunities Strategy and its implementation.

Structure of the Report

1. The Council's Budget Report needs to provide sufficient assurance that a balanced budget has been set and that robust advice has been given and considered in respect of the adequacy of reserves. A Council's financial strategy needs to consider impacts over the medium term and this report includes a significant section on this aspect. Given the materiality of the current and forthcoming financial challenges it is important that this level of detail is included.
2. The following table provides an explanation of where key sections of the report can be found. In addition the implications to the report and in particular the statement made by the Section 151 Officer within the financial implications should be noted.

Budget Report Section	From Para No	Detail included within section
Background	3	Budget context, Corporate Plan & Organisational Development
Consultation & Engagement	18	Public Consultation, Scrutiny Committees and other stakeholders
Budget Update 2015/16	26	In year monitoring position
Revenue Budget	29	Welsh Government Settlement, Cardiff's Resources required and available
Financial resilience & risk	55	Financial standing, risks, financial resilience and reserves
Service Implications of budget	90	Directorate analyses, amendments post consultation, councilwide proposals
Other service matters	158	Supporting People Programme Grant Spending Plan & Day Opportunities Strategy
Medium Term Financial Plan & Strategy	172	Overview of plan, Future Outlook, assumptions, sensitivity analysis
City Deal	235	Update, arrangements for signing Deal Document
Council response to the MTFP	228	Updated budget gap, planning assumptions, savings opportunities
Housing Revenue Account	240	Budget breakdown, rent setting, service charges
School Organisation Plan	255	Progress update, investment programme, use of reserve
Civil Parking Enforcement	274	Cost and income from initiatives, investment potential
Harbour Authority	285	Grant arrangements
Capital	293	Programme, pressures, resources and prudential indicators
Treasury Management	359	Strategy, Borrowing and investment policies, prudential indicators
Implications	435	HR, Legal & Financial Implications

Background

3. The Council's key strategic documents are the Corporate Plan and the Budget. Cabinet members and officers have worked to ensure that a clear alignment exists between the Corporate Plan, the Council's service priorities and the budget setting process. This also demonstrates how the Council will interact with the statutory What Matters 2010-2020 Strategy and its update which is currently nearing completion.
4. For 2016/17, the Corporate Plan follows the direction introduced in 2015/16 which established it as a strategic and outcome focussed document. The Plan will be considered by Cabinet and Council in February 2016 and is part of the same agenda as the Budget. The priorities are confirmed as:
 - Better education and skills for all
 - Supporting vulnerable people
 - Creating more and better paid jobs
 - Working together to transform services
5. The Corporate Plan captures the Council's strategic direction while the Directorate Delivery Plans demonstrate how the Corporate Plan will be achieved. These Delivery Plans will continue to provide an important link between the Corporate Plan, the work of directorates including 'business as usual' activities and the objectives set for individual employees. All plans will need to be resourced where relevant within this budget proposal.
6. The Council recognises that cities are the centre of economic activity and social change. Therefore, whilst working with severe financial constraints on resources the Council continues to progress initiatives to develop the City and the region. Following Cabinet approval in December 2015, work on concluding the Cardiff Capital Region (CCR) City Deal with our nine local authority partners, both the Welsh and Central governments is progressing apace with real anticipation of firm support included in the Chancellor's March 2016 Budget Statement. Further information on the City Deal is included later in the report. In addition, the Great Western Cities initiative continues to develop following the initial announcement in February 2015 whereby Cardiff, Newport and Bristol will work together in key areas such as connectivity, inward investment and sustainable energy.
7. Following the establishment of the Organisation Development Programme in May 2014, Cabinet received a progress report at its meeting in July 2015. The report reflected the progress that had been made towards the delivery of a new operating model and provided assurance that the Council's transition to new ways of working was proceeding at pace. In particular, the programme had been recast to:
 - accelerate the shift to online services and mobile working
 - facilitate the move to alternative models of service delivery

- increase revenue from commercial activities where practicable
 - reduce the Council's asset base through fewer but better buildings
 - maintain progress towards creating a culture of performance management, good workforce planning and staff engagement
8. The scope and scale of the programme has a rolling three year timescale and was predicated on the assumption that every service of the Council needed to plan for a radical adjustment of delivery models to reflect an era of severe budgetary constraint. This direction of travel for the Council is evident in the budget proposals for 2016/17 and the medium term as set out throughout this budget report.
 9. Cabinet received a Budget Strategy report in July 2015 which advised of the seriousness of the financial challenges ahead as a result of both expected reductions in government funding and the increasing financial pressures being experienced by the Council. This was predicated on information and anticipated announcements which led to the formulation of the Welsh Government's (WG) budget following the Comprehensive Spending Review (CSR) in November 2015. Following the approval of the Budget Strategy report, the Council wrote to the WG and the Welsh Local Government Association (WLGA). The letter expressed concern at the continued impact on the Council and the delivery of its services as a result of WG funding scenarios that are real terms cuts and fail to keep pace with the significant financial pressures that the Council is facing.
 10. The content of the Medium Term Financial Plan (MTFP) approved as part of the 2015/16 Budget Report has been incrementally updated during the year following technical refinements to budget lines and revised assumptions in respect of anticipated financial pressures. It was not possible to revise WG funding assumptions as no new information had been published since December 2014. The July 2015 Budget Strategy report detailed these changes and revised the anticipated budget gap for 2016/17 from £51.1 million (February 2015 report) to £47.4 million. The 2016/17 Provisional Revenue Support Grant (RSG) settlement announced in December 2015 was better than the planning assumption as a result of increases in Cardiff's population but mainly as a result of the implications following the CSR and the consequent decision by WG on the shape of its budget. However, the Provisional Settlement was still a cash reduction in absolute terms of £301,000 and means that the Council has experienced a cash reduction in RSG of £12.8 million since 2014/15. At the time of writing this report WG has not announced the Final RSG settlement but has stated that little change is expected between the Provisional and Final stages for 2016/17.
 11. The Budget Strategy report had acknowledged that because of the extent of the financial challenge in the medium term an updated approach to identifying budget targets was required which led to the Reshaping the Base Budget approach. This approach sought to establish linkages between the Reshaping Service Programme and the Council's target operating model. It looked to initially identify the shape of services and then understand the link to strategic priorities. Savings were then identified against the four drivers of:

- Policy led savings
 - Business Process efficiency led savings
 - Discrete Directorate led savings
 - Income/commercialisation savings
12. Given the significant level of savings required in 2016/17 following the unprecedented levels in the previous two years, it is more important than ever that the proposals are robust, planned effectively and deliverable. Following submission, the proposals from directorates have been progressively challenged to give Council confidence that all savings:
- included within directorate proposals are owned by the relevant director
 - identify residual risk as well as an achievability risk rating
 - are technically feasible from a financial perspective
 - are recorded as to their current planning status
 - have been subjected to a robust equality impact assessment where relevant
 - are categorised as to the theme of the saving
 - Include wherever possible the full-time equivalent employee implications of the saving proposal
 - identify cross directorate opportunities or risks that have been discussed by all relevant senior officers and portfolio members
 - demonstrate transparency to ensure clarity at scrutiny committees and with other stakeholder groups
13. The Budget Strategy Report also considered the approach to the development of the Capital Programme as this is an integral part of the Council's budget. The report restated the position that the Council's General Fund Capital Programme for 2015/16 - 2019/20 demonstrated the cumulative need for additional borrowing and general capital receipts of £132 million and £6.5 million respectively but also noted the significant WG capital funding cuts over the medium term.
14. It was recognised that a review of all schemes included within the current Capital Programme would be carried out as part of the budget process for 2016/17 alongside robust consideration of new schemes. New schemes would need to relate to Corporate Plan priorities, contribute to the rationalisation of buildings and services and, where possible, be self-financing or attract a significant level of partner or external grant support.
15. As highlighted previously the impact of the inadequate level of support from WG for capital resources has been that local government has had to find a greater share of the capital funding requirement to meet essential investment. The Council continues to undertake unsupported borrowing as part of the Capital Programme and the schemes within the period 2016/17 to 2020/21 are included later in this Report and set out in detail in the appendices. Affordability indicators are included in relation to the Council's borrowing and the Section 151 Officer must consider whether the amounts contained are prudent and affordable.

16. Since then, the Council's borrowing has increased as have the local affordability indicators that demonstrate that capital financing costs as a percentage of the Council's controllable revenue budgets are increasing year on year. The level of WG revenue budget funding means that even with no new borrowing this percentage would increase as the revenue base budget reduces. Against this backdrop the condition of the Council's assets is of concern as evidenced by increasing maintenance backlogs. It will be important for the Council to relentlessly progress the recently approved strategies for Operational and Non-Operational Property assets to ensure a smaller, but fit for purpose property estate.
17. Later sections of this report review the Council's financial position across the life of the MTFP and identify both the challenges ahead and the radical nature of the actions required. Council-wide solutions across this time frame will need to be holistic and could include consideration of both revenue and capital spend. Therefore whilst approving the Capital Programme for the period up until 2020/21 Cabinet should be aware that the later years of the Programme, together with any new material commitments in respect of these later years, will be subject to an ongoing review of the Council's financial standing and resilience.

Consultation and Engagement

18. The Council's co-operative values focus on fairness, openness and working together. Greater consultation, engagement and joint working with citizens are at the heart of these values which specifically mention the importance of being "open and honest about the difficult choices we face, and leading a debate where people can have their say on what's important to them and their communities."
19. Extreme budgetary pressure is a key driver of the difficult choices facing the Council and therefore budget consultation is an important opportunity to understand what is important to our stakeholders and to encourage their involvement in shaping Council services. The consultation on the Council's 2016/17 budget proposals "Changes for Cardiff" ran from 11 December 2015 to 12 January 2016. A number of mechanisms were used to ensure the consultation was as accessible as possible:

Council Buildings – 5,000 hard copies of the questionnaire were distributed throughout Cardiff to the City's public buildings including libraries, leisure centres and hubs. The consultation was also communicated to 6,000 staff within the Council.

Online – an online question and answer session took place in December with the Leader and Cabinet Member for Corporate Services and Performance and the online version of the questionnaire was made available on the budget page of the City of Cardiff Council's website, as well as on www.askcardiff.com and www.cardiffdebate.co.uk. The consultation was promoted through email to users of libraries, council tax online account holders, council key holders, active card users, members of Cardiff Citizen's Panel and Library card holders (over 75,000 email

addresses). Links were also sent out through the Council and Cardiff Debate twitter accounts.

Community Engagement Events – 20 community engagement ‘drop-in’ events were held across the city during the course of the consultation period and an engagement forum with the Cardiff Youth Council took place. The Council’s Stepping-Up Toolkit was available at events to support community groups who may be considering opportunities to develop and manage services and assets and forms were available to record expressions of potential interest in volunteering opportunities.

Via Partner Organisations – the consultation was promoted via email to over a thousand stakeholders including partner organisations, MPs and AMs, Neighbourhood Partnerships and members of the public who expressed an interest via the previous Cardiff Debate summer events. It was promoted to 8,000 people via the Police Community Messaging Service and communicated to 7,000 staff within Cardiff & Vale University Health Board (UHB).

20. The consultation received 3,348 completed questionnaires and public views were also given via petitions, social media, attendance at the ‘drop-in’ public engagement events, and through correspondence. From this, a number of key themes emerged:
- **The financial reality:** an overwhelming 88.5% (2,708) of respondents recognised the budget gap facing the Council meant that difficult choices would be required
 - **Support for new ways of working:** over three quarters of respondent (76% or 2,320) support the Council in exploring new ways of working to deliver its services
 - **Increased Charging:** there are mixed levels of support for the Council charging more for some services if it meant they could be continued with **46.5%** (1,417) supporting the proposal 24.0%, (732) disagreeing and 29.5% (901) unsure
 - **Increased digitalisation of services:** 88.1% (2,691) of respondents supported increased digitalisation of services
 - **Community involvement:** 34.3% (1,047) of respondents agreed that community groups and the third sector should be asked to run more services and facilities - 30.6% (936) disagreed and 35.1% (1,072) were unsure.
 - **Volunteering:** 23.7% (715) of respondents are currently engaged in volunteering in the city and 887 respondents expressed an interest. The highest levels of interest for volunteering were seen in relation to libraries, litter picks and parks maintenance
21. The findings of the consultation on the City of Cardiff Council’s 2016/17 budget proposals can be found in Appendix 1(a) and can be accessed through the Council’s website.
22. In 12 November 2015 Cabinet agreed that consultation be carried out on the draft Day Opportunities Strategy. Consultation was undertaken based on the proposed model and this included writing to 1,742 service

users (all older people currently receiving a package of care) as well as events at Council Hubs. Additionally, specific consultation with partners took place. The results of the consultation have been analysed and are attached as Appendix 1(b).

23. In addition, as part of regular budget preparation, consultation has taken place through:-

Scrutiny Committees – both overall briefings and consideration of the detailed proposals were undertaken in February 2016 while some committees also invited stakeholders to discuss particular topics at their January meetings. Responses received in respect of the Scrutiny deliberations will be tabled and considered as part of the Cabinet meeting.

Trade Unions – consultation has taken place with the trade unions and any comments will be considered in advance of the Cabinet meeting.

Employees – consultation has taken place both generally through staff meetings and particularly with employees impacted by individual savings proposals.

Schools Budget Forum – following a number of briefings over the budget formulation period, the Forum met on 20 January 2016 to consider the Cabinet's budget proposals as it affected their remit. Their response is attached in Appendix 1.

Audit Committee – the Treasury Management Strategy was considered at its meeting on 1 February 2016 as part of their scrutiny function. Comments have been incorporated into the relevant parts of this report.

Issues

24. It is a statutory requirement under Section 33 of the Local Government Finance Act 1992, for the Council to produce a balanced budget. This Budget Report will set out in detail the financial issues facing all councils and the City of Cardiff Council in particular. It will outline the setting of the 2016/17 revenue budget against the context of the medium term and the continuing outlook of financial austerity, the Capital Programme and the Council's choices in respect of capital borrowing during a time of increasing difficulty in affording the historic and additional capital charges within reducing revenue budgets. It will also consider the Council's overall financial standing in respect of risks, reserves and resilience. The current and ongoing financially challenging conditions require a composite response to complex services including reshaping services, service realignment and service removal.
25. The following sections of the report provide an update on the current year, set out the impact of the WG Financial Settlement and then develop the components of the proposed budget for 2016/17.

Budget Update 2015/16

26. The Council's Budget Report for 2015/16 identified significant operational and financial challenges and risks in the current and medium term. These are reviewed as part of the Council's financial resilience testing and monitoring process including updates to the Corporate Risk Register. The topics included:

- The challenging financial position in respect of reducing WG resources, increasing financial pressures against a reducing controllable base budget and increasing volatility and uncertainty in respect of hypothecated grants.
- Continuing demographic demand for social care services if trendlines vary significantly from the anticipated position.
- The impact of welfare reforms, in particular the phased implementation of Universal Credit during 2015/16, on the ability of individuals to contribute to the cost of services provided where relevant.
- Reducing demand for services where the Council has historically charged for the activity and so creating an income shortfall.
- The necessity to deliver budgeted savings from reshaping services and other change proposals that are not currently fully defined.
- The potential impact on insurance costs for the Council as a result of savings proposed.
- The need to build capacity within the community to support the empowerment of communities to take greater responsibility for the delivery of services.
- The need to deliver significant levels of savings during a period of prolonged financial austerity particularly given the impact that delays to delivery of the proposal has on the budget monitoring position
- The cumulative impact of achieving the savings, within this budget in addition to the non-achievable 2014/15 savings which remain to be realised in 2015/16.
- The service impact of a significant reduction in headcount expected to take place over the medium term.
- The Council's ability to meet the costs of voluntary severance, albeit the discretionary element of the scheme will be reduced from April 2015, as the Council reshapes itself in line with available resources in these times of continuing financial austerity.
- The ability to react to new demands resulting from welfare reforms as they are progressively implemented together with financial risks in respect of the Council Tax Reduction Scheme (CTRS).
- The level of additional borrowing undertaken in previous years and proposed will require more revenue resources to be used for capital financing in future years.
- Capital schemes that are approved on the basis of generating savings, increasing income or capital receipts but which fail to do so will also increase pressure on the revenue budget.
- The potential for additional capital receipts to fall short of the amount modelled in the budget in respect of the in-principle capitalisation direction.

- The impact of the potential adoption of alternative models of service delivery and the requirement to test consequential costs and benefits of the change, for example working through any potential TUPE implications.
 - The impact of continuing to increase the support of revenue budgets from the Civil Parking Enforcement (CPE) reserve.
 - The impact on Cardiff Bus, which is wholly owned by the Council should the WG make significant reductions to the reimbursement rate in respect of concessionary fares in 2016/17.
 - The ongoing uncertainty in respect of the establishment of a permanent CTRS scheme for 2016/17.
 - The financial impact of WG allocating education grants directly to the Central South Education Consortium rather than local authorities.
 - The deteriorating position in respect of delegated schools' balances.
 - The increasing financial exposure to the Council of the School Organisation Plan (SOP) consolidated financial model as the size of the programme and associated risks increase.
 - The risk of WG levying fines if the Council fails to realise recycling or land fill diversion rates.
 - The impact of functions delivered as part of a collaborative arrangement should the planned benefits not be realised.
 - Financial exposure should the Council breach its partial exemption calculation in respect of VAT.
 - The risk associated with the final settlement sum in respect of all remaining landlord councils exiting the existing HRA subsidy system from April 2015.
27. The Council's Month 9 revenue budget monitoring position is included elsewhere on the agenda for this meeting and shows a projected overall surplus position of £988,000. However, the directorate position is somewhat different with a projected overspend position of £1.6 million after use of the budgeted contingency of £4 million. Within this figure, financial pressures continue to be evident in a number of areas and particularly within Social Services. The council position includes the effect of a potential shortfall of £6.075 million against the 2015/16 budget savings of £32.473 million together with a projected shortfall of £2.954 million against the savings shortfalls carried forward from 2014/15.
28. The Month 9 Monitoring Report also includes an update in respect of the Capital Programme. This shows a projected out-turn for 2015/16 of £89.088 million which is a variance of £29.682 million against the spending plan. This variance comprises estimated slippage on schemes amounting to £28.684 million and £0.998 million of underspend on projects. Current slippage forecasts relate to various school schemes and projects across the City Operations Directorate.

Revenue

The 2016/17 Settlement

29. At this point in the budget process the Council would usually be in receipt of the Final Local Government Settlement and would therefore have a

firm figure of Aggregate External Finance (AEF) for the forthcoming financial year. However WG's budget timetable has been delayed as a result of the UK Government's CSR with the result that this budget is predicated on the Provisional Local Government Settlement that was published on 9 December 2015. The WG has stated that there is no intention for significant variation between the Provisional and Final figures for 2016/17.

30. The main points to note from the Provisional Settlement at an all Wales level are:
- a range of change in AEF comprising a decrease in RSG and NDR between minus 0.1% and minus 4.1% with an average of minus 1.4%.
 - inclusion of an additional £35 million to prioritise schools funding together with an assumption of a protection requirement of 1.85%.
 - inclusion of an additional £21 million for Social Services.
 - the transfer into the RSG of the Outcome Agreement Grant at its current level and method of distribution.
 - no indication of future year settlement figures.
 - inclusion of the impact of the 2016/17 Council Tax Base which usually forms part of the Final Settlement calculation.
 - no damping mechanisms.
31. Responding to the Provisional Settlement, WLGA leaders said: *"Times remain tough, but this settlement at least shows that Welsh Government Ministers are listening to local government leaders and working with us to protect local services from the worst impacts of austerity. Today's settlement offers a welcome slow-down in the daunting level of budget cuts local government has experienced over recent years."*
32. *"This will not detract from the need for councils to look at how they can transform their services."*
33. The position for Cardiff within the range of change in AEF set out above shows a funding decrease of 0.1% and a cash decrease of £301,000 in comparison with 2015/16. However, the actual decrease in spending power for Cardiff will be £501,000 as a result of the funding mechanism for the 21st Century Schools Local Government Borrowing Initiative (LGBI) because of the treatment used by the WG within the settlement.
34. In addition, as part of the overall settlement for Wales, information on specific grants amounting to £485.376 million was published although this is not a final list and details are still indicative in some areas. This figure is much lower than at the same time last year as a result of some significant grants not yet known for 2016/17. These include the

Education Improvement Grant and Concessionary Fares although the transfer of the previous Outcome Agreement Grant into the settlement for 2016/17 also accounts for some of the difference. Appendix 2 lists the currently known grants at an all Wales level. At the individual authority level the position is less clear with very little information currently available for Cardiff.

35. Once known these specific grants will be available to the particular directorates as additional resources subject to the relevant terms and conditions. As a significant number of grant allocations have yet to be declared by the WG there is a risk of future notifications resulting in a reduced level of funding. Should the Final Settlement include any transfer of additional specific grants then these resources will continue to be used as had been the position in 2015/16.
36. Careful consideration has been given as to how to manage the risk of compiling the budget based on the WG's Provisional Settlement rather than the usual Final Settlement position. The WG budget timetable is such that the Final Local Government Settlement will be published on 2 March 2016 with the final debate on the WG's budget due on 9 March 2016. The statutory deadline for Councils to set Council Tax for 2016/17 is on 11 March and historically the Council's arrangements have been to hold its Budget Council towards the end of February to enable Council Tax bills to be dispatched in time for cash to begin to flow to the Council by 1 April.
37. Informally the Council is aware that the WG intends that there is to be no material change to amounts between the Provisional and Final Settlements and so the judgement arrived at is that the Council continues with its planned Budget Council date of 25 February 2016. However, it will be necessary to note that a contingent arrangement will form part of the recommendations to this report whereby the Council will either add to or draw down from General Balances if the Final Settlement produces figures different from the Provisional Settlement.
38. To exemplify, if the final settlement is £20,000 less than the provisional settlement, the Council would need to increase its draw down on the general balance. Conversely, if the final settlement is £20,000 more than the provisional settlement, the Council would transfer a sum of £20,000 to the general balance.

Resources Available

39. In December 2015 Cabinet approved the release of savings for consultation as part of the 2016/17 budget process. This report identified a budget reduction requirement of £45.645 million in respect of savings of £33.897 million and budget strategy assumptions yet to be approved of £11.748 million. In the absence of any settlement information these figures were based on the best update of the figures included in the July 2015 Budget Strategy Report.

40. When published it became clear that the Provisional Settlement had provided Cardiff with less reduction in resources than had been anticipated amounting to £11.5 million.
41. Therefore the unhypothecated resources available from WG through the Provisional Settlement are set out in the following table.

Resources	£000
AEF (RSG & NDR)	422,941
Outcome Agreement Grant (subsumed into RSG)	3,344
Unhypothecated resources from WG	426,285

42. The report to Cabinet in December 2015 in respect of the Council Tax Base implied an increase in the number of Band D equivalent properties expected by 31 March 2017. As part of that report the ultimate Council Tax collection rate was increased to 98.5% in recognition of the sustained improvement in collection statistics as evidenced over recent years. Consequently and as confirmed once the Provisional Settlement had been published, this change in the Council Tax base increased Council resources by a further £1.9 million. This position would be impacted negatively should current arrangements to support CTRS claimants change. The present arrangement is that the WG provides funding for 100% of the liability. As this funding forms part of the Settlement it does not take account of the impact of the increase in Council Tax nor does it take into account the change in the number of claimants. In both cases these will need to be managed by the Council during 2016/17.
43. The following table sets out the total resources available to finance the budget before any increase in the rate of Council Tax.

Total Resources Available	£000
Resources from WG	426,285
Council Tax (at nil increase)	144,461
Use of reserves to support the budget	2,070
Total resources available	572,816

44. The Budget Strategy report included an assumption that £1.5 million would be available to support the budget through drawdown from reserves. Following the receipt of the Provisional Settlement this has been amended to £1.1 million in order to help protect the council's financial resilience. Detail of drawdown to support this £1.1 million is contained in the Appendix on Earmarked Reserves. The review has identified that a further reduction to the provision for Council Tax bad debts can be supported following the sustained increased recovery action over recent years. This has enabled £1 million to be released to support the budget. Information in respect of reserves and balances can be found in the section on Financial Standing, Risks and Financial Resilience.

Resources Required

45. The better than anticipated settlement together with the impact of Council Tax base change and a further reduction to the Budget Requirement as a result of lower assumed energy prices all serviced to increase the Council's resources by £14.095 million against that underpinning the proposals released for public consultation in December 2015.
46. Mindful that the budget gap for 2016/17 is still a significant £33 million and that the WG settlement is for one year only, Cabinet considered the use of the additional resources alongside the following principles.
- **Review budget planning assumptions** – to reduce use of one year only solutions, to take out areas of high risk e.g. capitalisation and to support key corporate priorities – i.e. schools.
 - **Introduce a new mechanism** - to reduce future risk, improve financial resilience and allow one off investment and development in priority areas
 - **Review financial pressures** - to address emerging risk areas, to review known areas of high risk/uncertainty, to address corporate priorities
 - **Review consultation savings proposals to:-**
 - a) Improve achievability for 2016/17 by addressing the pace and scale of most challenging areas
 - b) Improve the future financial position by pushing some proposals back into future years, giving a more robust set of proposals for the medium term
 - c) Address emerging issues and moveable assumptions upon which proposals are based (e.g. tonnages)
 - d) Take account of consultation feedback
47. The following table summarises the resources required to cover base expenditure, commitments and budget realignments.

Total Resources Required	£000
2015/16 adjusted base budget (after transfers)	573,506
Employees (pay awards, increments, NI etc)	5,849
Demographic pressures	7,521
Commitments	1,067
Directorate expenditure and income realignments	2,329
Special inflation	2,266
Schools growth (net)	7,183
Financial resilience mechanism	4,000
Total Resources required	603,721

48. An expanded version of the above including the total amount of savings required is shown in Appendix 3.

Funding Gap

49. A comparison of the resources available to the Council (with no increase in the rate of Council Tax) with the resources required results in the following shortfall.

Funding Gap	£000
Resources required	603,721
Resources available	572,816
Shortfall before savings and new pressures	30,905

50. In preparing this budget proposal, the Cabinet has been aware of the need to balance Corporate Plan priorities and service requirements with the impact on Council Tax payers particularly during the current extensive period of financial constraint. The responses to the Cardiff Debate, as described elsewhere in this report have been instrumental in informing Cabinet's view on the final shape of the budget.
51. As a result, the Cabinet together with the Council's Senior Management Team have considered carefully the need to provide for new financial pressures alongside savings options proposed by directorates. A list of pressures included within the budget is set out in Appendix 4.
52. Total savings included within this budget proposal amount to £28.835 million which equates to 8% of the non schools cash limit. The position in respect of schools is set out later in this report. The detailed savings schedule is attached as Appendix 5.
53. The following table identifies that the amount to be raised from additional Council Tax in 2016/17 is £4.293 million after allowing for the adjustment in respect of CTRS amounting to £1.052 million. This will result in a Council Tax increase of 3.7%.

Budget Shortfall	£000
Shortfall before directorate pressures and savings	30,905
New directorate pressures	2,223
Sub total	33,128
Less	
Total savings	(28,835)
Net amount to be raised from additional Council Tax	4,293

54. Further details in respect of the savings included in the above table are set out in the section on Service Implications of the Revenue Budget.

Financial Standing, Risks and Financial Resilience

55. In considering the Council's budget proposals, members must have regard to the financial standing of the Council and the impact of their budget decisions on services, citizens, customers and communities. The financial challenge facing the Council in meeting its Budget Reduction

Requirement of £30.905 million this year on top of the £112.75 million in the last three years is such that the significance of reviewing the financial standing, risks and financial resilience of the Council cannot be understated.

56. As part of this process the Council's Section 151 Officer has, as the Responsible Finance Officer (RFO), a number of statutory duties including under Section 25 of the Local Government and Finance Act 2003 a responsibility to report to members on the budget including the adequacy of reserves.
57. To report on these matters, the Council's Section 151 Officer has to have regard to the overall financial context of the Council against which the budget and the adequacy of reserves is being considered. The financial standing of the Council is informed by a number of factors including: the Council's financial position in the previous year's audited statement of accounts (particularly the balance sheet), the in year position as set out in the Month 9 Budget Monitoring Report, the financial risks and issues attached to the budget for the forthcoming year and the Council's financial resilience and sustainability going forward as detailed in the MTFP.
58. During 2015/16 an increased amount of work has been undertaken in relation to the Council's financial resilience, including regular reviews of the overall snapshot of the financial position and benchmarking with other authorities facing similar financial challenges. The information gathered as part of this work will play a vital role in informing future decisions surrounding the MTFP and the adequacy of financial resources. The financial outlook over the medium term remains a matter of concern and the MTFP section will detail these challenges in respect of ongoing financial austerity, increasing financial pressures and the difficulty of setting and realising year on year budget savings.
59. The paragraphs below set out the Council's financial position at present and that contained within the 2016/17 budget. They also detail the work that has been undertaken to provide further assurance in respect of the budget setting process and the Council's reserves together with the context in which this work has taken place.
60. A key contextual factor is the Corporate Assessment Report published by the Wales Audit Office (WAO) in September 2014 and how the Council has progressed the resolution of the range of issues identified within that Assessment. This progress has recently been tested in the Follow-on Corporate Assessment that was carried out by WAO in October 2015. In addition, the WAO has undertaken a review of the financial resilience of councils across Wales. As part of their work they will rate individual councils in respect of financial planning, financial control and financial governance. The Council is currently awaiting the receipt of the reports in respect of these exercises.
61. In addition, an issue identified in the report was the Auditor's concern in respect of the uncertain prospect for achieving proposed savings and

responding to future funding levels. The Council's response to these concerns has been to review the impact of non-achievability in respect of the savings included in the 2014/15 and 2015/16 budget, which has resulted in the write out of unachievable savings for 2016/17. In addition, a due diligence exercise has been undertaken on the 2016/17 proposed savings. The future outlook for achieving the budget gap highlighted in the MTFP has been further developed this year with a thematic set of later year proposals described in the Medium Term section of this report.

62. The Month 9 Budget Monitoring Report identifies a projected surplus of £988,000, with projected overspends £5.6 million in directorate budgets offset by the £4 million general contingency. Within the directorate overspend position, there are projected shortfalls of £6.075 million against the savings targets for 2015/16, with a further shortfall of £2.594 million projected in relation to the shortfalls carried forward from 2014/15. This is a significant concern and, as such, as part of the due diligence for the 2016/17 budget process, consideration was given as to the likely achievability of these shortfalls in future years. Following this, a judgement was made that, in relation to £3.029m of these savings, the risk associated with achieving them was such that they should be written out. The consequential budget realignments that have been actioned are reflected in the directorate base budgets for 2016/17.
63. The 2016/17 budget process has been undertaken in accordance with the high level principles set out in the July 2015 Budget Strategy Report. The budget process has been rigorous and robust and has utilised the expertise of officers in directorates across the Council.
64. The following provides a detailed list identifying the processes to manage risk that have been undertaken as part of setting the 2016/17 Budget:
 - A Budget Strategy Report was presented to members in July 2015 setting out the budget principles and timetable that would be followed.
 - The Budget Strategy Report included a list of budget strategy assumptions to aid early consideration of how the anticipated budget challenges might be met.
 - Detailed budget documentation and guidance was prepared for directors to complete, to identify their savings and pressures and to identify Capital Programme bids.
 - The risks attached to all savings and growth pressures have been considered and scored in accordance with the Council's risk methodology.
 - The equalities impact of all savings and growth pressures have also been considered and impact assessments completed and updated following consultation for all those where the rating was red or red-amber.
 - The planning status of all savings has been identified to establish whether they are realised or whether general or detailed planning has been undertaken to inform the Section 151 Officer's view of the robustness of the proposals.
 - The General Contingency amount of £4 million which was established as part of the 2014/15 budget setting process has been maintained.

- The budget has continued to include Issue Specific Contingency allocations and for 2016/17 these amount to £2.468 million. Of this, £1.3 million relates to issues previously identified in respect of external residential placements in Children's Services (£950,000) and the market for recyclates from the Material Recycling Facility (£350,000) in the City Operations Directorate. An amount of £1.168 million is also included in the allocation to recognise the difficulty of predicting waste disposal tonnages in the City Operations Directorate.
 - A detailed MTFP has been developed to identify the emerging pressures that the Council will face in future years.
 - A 'Reshaping the Base' exercise has been undertaken in order to examine the minimum statutory level for services and, where services are discretionary, to consider the option to fund these services from income. The outcomes of this exercise fed into the savings proposals put forward for 2016/17.
 - Cabinet Members have been briefed on the emerging issues contained within the Provisional Settlement, along with briefings for all members on the shape of the budget and the budget process. Significant risks exist as a result of the delayed announcement of the Final Settlement and Cabinet Members are aware of the potential implications this might have.
 - Scrutiny Committees have been given the opportunity to review and scrutinise the budget proposals along with budgetary analysis sheets for all directorates.
 - The School Budget Forum has been consulted on the budget proposals in general and the proposals for schools budgets in particular.
 - The Council's Audit Committee reviewed the Treasury Management Strategy in February 2016 in accordance with their formal scrutiny role in relation to treasury matters.
 - Draft budget proposals were released for consultation in December 2015 and, as set out in other sections of the report, consultation activity has been undertaken from which a significant amount of feedback was provided to inform the decision-making process.
 - The Section 151 Officer has through Scrutiny briefings and this report made statements in respect of the financial challenges ahead and the financial resilience of both the revenue budget next year and on the medium term and the Capital Programme.
 - Lastly all Members are fully involved in the budget setting process as the approval of the Budget and Council Tax setting is a function of Council.
65. When setting budgets and reviewing the MTFP, the Council has considered the reserves that it has established and the maintenance of those reserves. The decision on the level of reserves has been considered alongside the strategic, operational and financial risks that the Council faces. These risks are identified and monitored in the Council's Corporate Risk Register as well as individual directorate risk registers and key risks are regularly brought to the attention of Cabinet. The risks are considered alongside the known financial position including commitments, spending plans and liabilities.

66. The directorate savings proposals as listed at Appendix 5 follow a similar format to last year and identify risk assessments in relation to residual risk, achievability and equality impact assessment. Appendix 6 sets out at a directorate level the breakdown of each of these ratings with the following table reflecting the breakdown at a Council level.

Risk Assessment	Residual Risk £000	Achievability Risk £000
Red	3,955	2,740
Red-Amber	5,708	8,703
Amber-Green	10,682	11,697
Green	8,490	5,695

67. As initiated in 2014/15 a Planning Status category has been included in the budget savings set out in Appendix 5. This identifies that savings of £729,000 have already been realised, £25.354 million are in the detailed planning stage and £2.752 million have a higher degree of risk as only general planning has been undertaken to date. This general planning category accounts for 9.5% of the total savings proposed of £28.835 million.
68. In recognition of both the quantum of savings required and the risk and planning status of savings put forward, a General Contingency sum of £4 million was established in 2014/15 and maintained in 2015/16. A review of the planning status and risk position has been undertaken to consider the amount that should be included in the 2016/17 General Contingency budget. The analysis compared the equivalent position at this stage last year, the overall quantum of savings and associated risks and the challenge of carrying forward savings into 2016/17 that are projected not to be achieved in 2015/16. On the basis of this information the General Contingency sum of £4 million has been maintained within the 2016/17 Budget.
69. The pressures and savings, shown in Appendix 4 and 5 respectively, set out for each item a consideration both of residual risk and achievability. In addition the following points identify a number of significant general and specific Council risks which in summary are:
- The challenging financial position in respect of reducing WG resources, increasing financial pressures against a reducing controllable base budget together with increasing volatility and uncertainty in respect of hypothecated grants.
 - Continuing demographic demand for social care services if trend lines vary significantly from the anticipated position.
 - The significant amount of savings that are predicated on the success of preventative strategies and the difficulty of tracking their impact in terms of financial monitoring.
 - The impact of welfare reforms, in particular the phased implementation of Universal Credit during 2016/17, on the ability of

individuals to contribute to the cost of services provided where relevant.

- Reducing demand for services where the Council has historically charged for the activity and so creating an income shortfall.
- The necessity to deliver budgeted savings from reshaping services and other change proposals that are not currently fully defined.
- The significant level of savings based on commercial and income initiatives that are yet to be tested in the market.
- The potential implications arising from the implementation of alternative delivery models for certain Council services.

70. In addition, other general risks to be managed include:

- The need to deliver significant levels of savings during a period of prolonged financial austerity particularly given the impact that delays to delivery of the proposal has on the budget monitoring position
- The cumulative impact of achieving the savings, within this budget in addition to the unachieved 2015/16 savings which remain to be realised in 2016/17.
- The service impact of an ongoing reduction in headcount expected to take place over the medium term but also the changing impact of alternative delivery models on the nature of the workforce.
- The ability to react to new demands resulting from welfare reforms as they are progressively implemented together with financial risks in respect of the CTRS.
- The level of additional borrowing undertaken in previous years and proposed will require more revenue resources to be used for capital financing in future years.
- Capital schemes that are approved on the basis of generating savings, increasing income or capital receipts but which fail to do so will also increase pressure on the revenue budget.
- The impact of the potential adoption of alternative models of service delivery and the requirement to test consequential costs and benefits of the change, for example working through any potential TUPE implications.
- The potential impact on insurance costs for the Council as a result of savings proposed.
- The impact on Cardiff Bus, which is wholly owned by the Council, should the WG make significant reductions to the reimbursement rate in respect of concessionary fares in 2016/17.
- The increasing financial exposure to the Council of the SOP consolidated financial model as the size of the programme and associated risks increase.
- The risk of WG levying fines if the Council fails to realise recycling or land fill diversion rates.
- The impact of functions delivered as part of a collaborative arrangement should the planned benefits not be realised.
- The potential impact on RSG funding if allowances for sparsity are included in future settlements and also any redistributive impact of specific grants transferred into the Settlement.

- The impact of the ongoing uncertainty in respect of the outcome of local government reorganisation.
71. Given the risks identified above, particularly in relation to reductions in head count, care will continue to be required to ensure that the significant changes to business processes or personnel do not impact on the financial control environment in a negative manner. In addition, as the Council moves to adopt different models for service delivery, attention will need to be given to understanding new, appropriate governance arrangements including financial accountability.
 72. The Council needs to continue to operate within a framework that ensures that it is able to maintain its current position in regard to VAT. The Council is able to recover all the VAT incurred in making exempt supplies provided that its exempt income does not exceed 5% of the total amount of VAT incurred. This calculation is known as the partial exemption calculation and applies to the Council as a Section 33 organisation. If the Council was to exceed the 5% limit in any one financial year all the input tax previously recovered on exempt supplies would need to be repaid to Her Majesty's Revenue and Customs (HMRC).
 73. Over recent years the Council's partial exemption calculation has been close to this limit and therefore the headroom in this calculation for the Council is limited. Clearly the Council needs to do all it can to minimise the risk of this 5% threshold being breached and careful management of the Council's activities, particularly in relation to the delivery of schemes included within the Capital Programme is required.
 74. In addition, challenges have arisen and new ones will be likely which will need managing and mitigation in respect of the development of alternative delivery models and significant capital projects such as a new school. For example, the tax position in respect of the new school in East Cardiff has proved particularly difficult to manage, given the structure of the development in relation to the provision of facilities for the Cardiff and Vale College, as part of this arrangement. A solution has been identified and is being progressed to deliver the most effective structure and its subsequent operation.
 75. The financial challenges ahead are such that the Section 151 Officer will continue to highlight the financial standing of the Council on a regular basis, as part of members' overall awareness of financial matters. As such, officers will continue to prepare snapshots of financial health to be reported to senior management and Cabinet on a regular basis. Similarly, WG is also considering these matters and it is likely that, in the future, accounting ratios between councils will be collated to provide comparative analysis. This information will provide further insight into the historic financial performance of councils. Whilst acknowledging that financial accounting ratios are not a direct measure of performance, they do highlight the financial impact of the decisions made by councils. They are particularly important as all councils face the ongoing financial

challenges of adapting to delivering services in an environment of reduced public resources.

76. The financial snapshots provided to Cabinet and senior management, alongside the 2016/17 Budget Strategy report, have been designed to give an overview of the financial health of the Council at a particular point in time. These snapshots provide information about past performance, including levels of reserves held, funding sources for the Council budget and financial performance ratios, such as those that demonstrate the level of working capital available, reliance upon external borrowing and net worth. In addition, information about the current year is provided, including the revenue and capital monitoring positions, the level of savings projected to be unachieved and risks relating to savings proposals accepted for the year in question. Finally, the snapshots also provide an insight into the MTFP, budget gap modelling, the capital financing requirement and affordability indicators for future years. Presenting the information in this way ensures that the future financial situation can be evidenced in the context of previous and current financial performance.
77. The snapshot displayed in Appendix 7, provides an overview of the financial health of the Council at the time of setting the budget for 2016/17. It shows the movement on reserves and key financial performance ratios during the past four financial years, highlighting the fact that reserve levels increased over 2014/15, despite the difficult financial circumstances faced by the Council. In addition, it highlights that, whilst most ratios show a resilient financial position, there has been a decrease in the working capital ratio and increase in the level of borrowing undertaken by the Council. However, both of these ratios still indicate a resilient position. The snapshot also gives a summary of the in-year monitoring positions and performance against savings targets, in line with the month 9 monitoring report. Furthermore, the snapshot gives an overview of the future years' outlook for the Council, highlighting the MTFP scenario, including financial pressures and savings requirements, the future capital financing requirement and the affordability of capital financing costs. This highlights an increasing Capital Financing Requirement (CFR) and capital financing costs increasing as a percentage of controllable budgets.

Council Reserves

78. The Council's strategy for holding and utilising reserves is set out in its Financial Procedure Rules and members, following advice provided by the Section 151 Officer, will consider both the level of reserves held and whether any amounts should be used to support the budget setting process. As part of this consideration members are made aware that the use of reserves is finite in nature and therefore care is required to ensure that their use does not create a significant budget gap which would need to be filled in the following year.
79. The Council holds earmarked reserves as outlined in Appendix 8(a), to meet known or predicted commitments, such as the Schools

Organisation Plan, insurance reserves to meet the self insurance responsibilities of the Council, reserves in connection with the HRA and school balances. The Council's total General Fund earmarked reserves, which exclude HRA and school balances, stood at £33.969 million at 31 March 2015 and are projected to be £37.587 million as at 31 March 2016. This projection includes assumptions contained with the Month 9 Monitoring report and, as such, there is potential for certain estimations to change before the end of the financial year. The projected balance as at 31 March 2017 is £32.945 million. This includes the impact of the movements stated in the following paragraphs as well as the contributions to and from other earmarked reserves in line with the purposes set against each reserve.

80. The Council also maintains a General Reserve as a contingency to help cushion the impact of unexpected events or emergencies. The Council's General Reserve as at the end of the 2014/15 financial year was £13.154 million, however as part of the completion of the Council's 2014/15 outturn position, an amount of £595,000 was transferred to the General Reserve, for use in funding the 2015/16 budget as had been approved as part of the Budget Report. The revised balance of £12.559 million is anticipated to increase in the current year with the Month 9 Monitoring report recommending that the projected surplus of £988,000 be transferred to the General Reserve. When this is taken into account the balance on the General Reserve at 31 March 2016 is projected to be £13.547 million. Following consideration of the Council's current position, in relation to risks and the advice of the Section 151 Officer, it is the intention of Cabinet not to make any use of the General Reserve to fund the 2016/17 budget. However, this is subject to no change to the General Reserve being required following receipt of the WG's Final Settlement as set out in paragraph 37.
81. In addition, the Council also holds a General Reserve in connection with the HRA, which comprises accumulated housing surpluses from previous financial years. This reserve is ringfenced for use in connection with the HRA only and cannot be used to fund the Council's overall budget. As shown in Appendix 8(b), the projected balance at 31 March 2016 is £8.438 million and it is currently anticipated that there will be no movements during 2016/17.
82. Benchmarking, undertaken internally, has identified that, as at 31 March 2015, the Council continued to have some of the lowest levels of general and earmarked reserves, compared to gross expenditure, in Wales. The General Reserve only represented 1.3% of gross expenditure in 2014/15 (1.1% in 2013/14) and earmarked reserves represented only 3.4% (3.0% in 2013/14). This further supports research undertaken by the WLGA in respect of the 2013/14 financial year, which identified that the Council had the lowest level of general reserves as a percentage of gross revenue expenditure across all councils in Wales and one of the lowest in terms of earmarked reserves as a percentage of gross revenue expenditure. As members are aware there is no set statutory minimum level of reserves and decisions made should reflect the individual position of each council.

83. The Council has historically taken a proactive role in relation to the use of its reserves and identified, as part of its 2016/17 budget strategy, that a figure of £1.5 million would be considered for release, subject to the outcome of a balance sheet review. Following receipt of the Provisional Settlement, this figure was reduced to £1.1 million to help protect the Council's financial resilience. In addition to this sum, the Council has also been able to identify £1 million for release from the Council Tax provision for bad debts. This is as a result of a review of the level of provision required, in light of improving collection rates.
84. School balances, outlined in Appendix 8(c), form part of the overall balance sheet for the Council. Therefore, the risk of any liability or debt crystallising within the school balance sheet does have the potential to impact on the overall financial standing and resilience of the Council. Whilst schools do have delegated responsibilities and budgets, these are subject to the Council's scheme of financing and adherence to the Financial Procedure Rules. Schools are forecast to have net negative balances of circa £1.6 million, as at 31 March 2016, and these are projected to decrease by a further £251,000 by 31 March 2017. However, it is anticipated that the overall level of school balances will improve over the life of the MTFP.
85. Whilst, a negative balance is of concern there are two underlying items which will improve the March 2017 balance sheet position of £1.839 million debit. In 2014/15, a significant cost was incurred by schools in respect of redundancy costs which resulted in an over spend of £1.9 million for that year. The approach taken was to spread the cost of this overspend over the following five years starting in 2015/16 with an annual payment being identified of £380,000 to be paid from the overall delegated school budget. By spreading the cost over a five year period this has resulted in a temporary position where overall school balances are overdrawn but there is a mechanism in place with identified budget to pay the amount back. Therefore three years of the pay back (£1.12 million) will not have been taken into account in the 31 March 2017 figure. In addition, a significant deficit has been incurred by Glyn Derw and Michaelston which has been taken into account and identified within the School Organisation Programme when considering the relocation and building of a new school. Deficits can only be written off if a school is closed. These two schools are scheduled to be closed in September 2017 and at this point the deficit will be cleared thus improving the overall school balance position by £1.2 million. Therefore, the £1.839 million deficit figure needs to be considered in conjunction with the £1.12 million to be returned to balances over the medium term in respect of redundancies and the £1.2 million writing off of a deficit balance upon closure of the school.
86. The above paragraph puts into context the current position on school balances but does not take away the need for continuing due diligence so that schools ensure that spending plans are in alignment with their budget and wherever possible deficit balances are avoided or reduced. Work will continue to be carried out with those schools causing

significant financial concern. Where the Council's Section 151 Officer determines that the provisions contained within the scheme or procedure rules have been substantially or persistently breached or a budget share has not been satisfactorily managed, then intervention powers will be taken to suspend delegations for that school.

87. The Council instigated a practice of borrowing against earmarked reserves to fund the substantial costs of voluntary redundancy in 2014/15. These amounts have been re-profiled as part of the 2016/17 budget and all sums borrowed from reserves are anticipated to be fully repaid by the end of 2016/17. The planned repayment profile is set out in Appendix 9. No further sums are intended to be borrowed from reserves over the medium term because as set out in the MTFP, the base budget is anticipated to be sufficient to fully cover annual costs.
88. The judgement of the Council's Section 151 Officer, taking into account the budget monitoring forecast as at 31 December 2015, the corporate budget position, the General Reserve, as well as the General Contingency budget of £4 million, is that the projected level of both general and earmarked reserves up until 31 March 2017, is adequate when considering the 2016/17 budget. The position, therefore, allows for the £2.070 million drawdown from reserves to fund the budget and also allows for the ongoing use of earmarked reserves to meet the updated profile of repayments to meet the costs of voluntary redundancy. It should however be noted that the one off release of £2.070 million from the Balance Sheet increases the budget reduction requirement by an equivalent sum in 2017/18.
89. Overall, the position in respect of risk and reserves will require careful monitoring throughout the financial year, particularly in light of the achievability of savings and further financial interventions may need to be considered. Beyond this, given the information and uncertainty contained in the MTFP, the position with regard to reserves will continue to be carefully monitored alongside the Council's general standing in respect of financial resilience.

Service Implications of the Revenue Budget

90. In compiling the revenue budget for 2016/17 the Cabinet has recognised the continuing challenge for the general public in managing their finances through the difficult economic conditions. Consequently the budget includes savings of £28.8 million but despite this and in accordance with Corporate Plan priorities, the Cabinet has achieved a balanced budget by reducing expenditure and increasing income generation in the following manner:
 - increasing external income and identifying alternative funding streams
 - exploring different and more effective ways of delivering services.
 - Identifying and progressing opportunities to work in collaboration.
 - through efficiencies in back office functions and working smarter.

91. For 2016/17, the national pay award for employees other than teachers was offered as part of the award to cover the period to March 2018. The pay related increases for teachers are contained within the Individual Schools Budget (ISB) as described in the Schools section of this report. The total cost increases for employees other than school based staff included in this budget plan are shown in the following table.

Employee Cost Increases	£000
Pay inflation (including voluntary living wage)	1,952
Incremental progression	1,170
Change to National Insurance for contracted out pension schemes	2,727
Total	5,849

92. A list of posts deleted or created as part of the budget is shown in Appendix 10. The Appendix shows that there will be a net reduction of 135 full-time equivalent (fte) Council posts overall made up of the deletion of 165.5 ftes offset by the creation of 30.5 ftes. The information below reflects posts deleted or created in respect of budget proposals. They do not include the potential fte impact of TUPE that may result from the implementation of alternative models of service delivery.

93. The budget assumes that the post deletions will result from:

Reason	fte
Voluntary redundancy	(13)
Vacant posts	(40.1)
Redeployment	(3)
Retirement	(1)
To be confirmed	(108.4)
Total number of deleted posts	(165.5)
Posts created (inc 5 temporary posts)	30.5
Net impact	(135)

94. In addition to the employee savings reflected in the directorate proposals the following council-wide savings also impact on the workforce and these have been allocated and reflected in directorate budgets:

- An efficiency saving in respect of the overall employee budget (£270,000).
- A reduction in the number of agency staff employed as a direct result of improved levels of sickness absence (£300,000).
- A managed reduction in general use of agency staff resulting in a saving of £450,000.

95. It should be noted that the outcome of the annual review of the Council's Voluntary Redundancy scheme was reported to Cabinet in January 2016. The approved recommendation was that no change to the current arrangements would be made for 2016/17 but there would be a further

review of the scheme early in 2017. However, the budget does include the release of £1.9 million previously set aside to meet the cost of voluntary redundancy. An element of this was identified in the 2015/16 budget as a consequence of the scheme change in April 2015 but further savings have been identified including a recalculation of future commitments based on the most recent profile of leavers.

96. The budget includes a sum of £700,000 in 2016/17 to support employees in embracing change and methods of working as the Council implements the budget proposals. This sum will be used to enhance training provided by the Council's Academy, support Workforce initiatives through the Organisational Development Programme and enable improvements to be made to performance management arrangements.
97. Further council-wide exercises on the utilisation of the Council vehicle fleet and improved management of travel and mileage allowances will achieve savings of £400,000 and £350,000 respectively.
98. Following the implementation of the first phase of the new Customer Relationship Management System and the adoption of agile working for social workers it is planned to adopt a 'Digital First' solution for all relevant service delivery in Cardiff by the end of 2017/18. Therefore, in addition to savings in respect of digitalisation included within the directorate savings, a further target of £875,000 has been included in the budget for 2016/17. Directorates will be expected to embrace the opportunities presented by digitalisation in order to achieve the target.
99. As in recent years, no allowance for general inflation has been allocated to directorates. However research undertaken has identified budgets that should be increased as there is evidence of particular pressures. Consequently an inflationary allowance has been allowed in the budget for the following items:
 - Adult social services fee increases including domiciliary care arrangements
 - Non-domestic rates
 - Schools out of county placements
 - Special Guardianship Orders
100. As expenditure on energy and fuel is significant for the Council, research is undertaken using the expertise of the energy and procurement teams across the Council. Although volatile, prices have generally remained favourable when compared against the planned resources in this area and latest pricing information suggests that it is possible to reduce existing energy budgets to reflect falling prices. As a result a reduction of £559,000 has been made to Council-wide energy and fuel budgets.
101. A review of the level of insurance cover required based on the Council's current claims history recently undertaken by our external advisor has resulted in a budget reduction of £500,000 for 2016/17.

102. The capital financing budget reflects both the repayment of principal and interest on loans for capital expenditure together with receipt of interest payments from short-term investment of surplus cash. For 2016/17 a reduction of £535,000 against the current budget has been possible. This is based on an assumption of utilising internal borrowing whilst feasible to minimise short term interest costs and maintaining a single pool of debt for the Council. Over the medium term based on the current level of capital spending additional budget of £1 million will be required. The budget for 2016/17 assumes that a dividend payment of £150,000 will be received from Cardiff Bus and this position will be kept under review.
103. It is expected that the CTRS will remain unchanged for 2016/17 and will comply with CTRS Prescribed Requirements (Wales) Regulations 2013. In addition, the scheme will continue to provide additional assistance for war pensioners by disregarding the income from war pensions including War Widows Pensions, War Disablement Pensions and income from the Armed Forces and Reserve Compensation Scheme. This is in line with the Council's commitment to support veterans and their families. The cost of this disregard is estimated at £34,000. The income from these benefits will also continue to be disregarded for Housing Benefit purposes at an estimated cost of £14,000.
104. The continuation of the Office Rationalisation project which aims to reduce the area of occupied office space and focus occupancy in the Council's core administrative buildings is expected to deliver revenue savings of £1.25 million as well as achieving capital receipts through the disposal of interests in buildings that are no longer necessary.
105. This budget proposal does not include an allowance for a general increase in fees and charges. Directors were advised that they should consider the particular circumstances for which they charge for their functions and reflect any such changes in their savings proposals. The list of proposed revisions to fees and charges in 2016/17 is shown in Appendix 11.
106. Contained in Appendix 5 are budget savings proposals that suggest the alternative delivery of services potential from a source other than the Council. At the point that these changes occur then the fees and charges specific to those services may be reviewed and in some circumstances would cease to be the responsibility of the Council.
107. Some savings have assumed securing a wider market share through commercialising areas of City Operations (£400,000), Trade Waste (£78,000) and the Alarm Receiving Centre (£300,000). Other areas have looked at achieving additional income such as the bulk loading recycling facility (£90,000), landfill gas generator contract (£100,000) and land charges (£41,000). In addition Bereavement & Registration will increase their income by £100,000 as will a review of parks charges (£38,000) and outdoor sports (£22,000).
108. In order to support further investment in the highways infrastructure an additional £360,000 will be generated through an increase in the income

from Moving Traffic Offences. Litter enforcement will also generate an additional £50,000 income. Planning fees are expected to generate an additional £100,000 with a further £50,000 being anticipated through charging for bespoke planning applications.

109. For 2016/17, the School Catering Unit will increase the price of primary school meals by £0.10 per day thus taking the charge to £11.50 per week. The cost of Secondary School meals will increase by £0.10 per day to £2.75. This will result in an additional income of £220,000 thereby reducing the cost of catering to the Council. Additional income is also planned for within advertising & sponsorship (£88,000), City Centre Management activity sites (£45,000) and Tourism (£33,000).
110. Whilst recognising the continuing difficult economic conditions, it is important that the Council is able to react quickly and appropriately to changing events both in terms of opportunities and to address shortfalls. To aid this it is proposed that the Council continues to delegate to the appropriate officer the ability to introduce and amend prices as and when needed. This decision will be taken by the Section 151 Officer in conjunction with the Cabinet Member for Corporate Services & Performance. Where appropriate a report will need to be considered by the Cabinet within a reasonable timescale of the decision. From 2017/18, there will be a presumption an assumption that unless prohibited by statute or regulation, then all fees and charges will be increased on an annual basis at least in line with the Consumer Price Index.
111. Within the budget proposals are items which further build on a commercial approach. Whilst the primary nature of the savings will be income there remains the need to ensure the commercial approach delivers savings which also focus on cost and customers. This commercial approach will be developed through the Council's Commercialism Strategy which is due to be considered by Cabinet shortly and look to deliver a range of services some of which will be achieved in the first year with others requiring time in order for the sizeable opportunities to be delivered.
112. School transport is regarded as a corporate activity in Cardiff with responsibility for policy being held by the Cabinet Member for Education & Skills while responsibility for delivery of the policy is within the portfolio of the Cabinet Member for Transport, Planning & Sustainability. Savings of £371,000 have been included from school transport and cover:
 - Full year effect of the withdrawal of non-statutory primary school transport approved as part of the 2015/16 budget (£81,000)
 - Continuation of route optimisation and re-tendering for pupils with Additional Learning Needs (£100,000) and secondary and primary school pupils (£60,000)
 - Review of transport and policy for pupils with Additional Learning Needs who live within two miles from primary school and three miles from secondary schools (£125,000)
 - Increase of bus passes prices (£5,000)

113. The budget retains the Neighbourhood Partnership Fund at £60,000 but in future each of the six Neighbourhood Areas will set the priorities for use of £10,000 during 2016/17. This is a change from previous practice which was a grant bidding process and will reduce the administration of the arrangement.
114. The Equality Act 2010 places a general duty on the Council to eliminate unlawful discrimination and promote equality according to the nine protected characteristics. To comply with this duty, directors have undertaken Equality Impact screenings for each of their savings and financial pressure submissions with full Equality Impact Assessments undertaken on any regarded as higher than Red/Amber. Following moderation by the Council's equality team these assessments have informed the budget setting process.
115. The following paragraphs provide a commentary on significant areas of change within the budget. The overall changes to directorate budgets between 2015/16 and 2016/17 are shown in Appendix 12 while Appendix 13 shows the 2016/17 Revenue Budgets related to Cabinet Member portfolios.

Amendments Since Publication of Consultation Proposals

116. As set out earlier in the report, the Council's budget proposals released for public consultation in December 2015 took account of neither the WG's Provisional Settlement nor the impact of the updated Council Tax base which was also a function of the settlement.
117. The additional resources received as a result of this better than anticipated position has enabled the Cabinet to change some proposals through reflecting on the results of the consultation exercise and they have also had regard to initiatives that improve the Council's financial resilience in the medium term. In addition, it has been possible to enhance provision for the priorities set out in the Corporate Plan.
118. As a result, Cabinet have identified a series of changes that are detailed in Appendix 14, and have been reflected in the commentaries on directorate budgets and are summarised below:
 - Reductions to savings proposals included within the public consultation document in order to take account of feedback and to address the pace and scale of change in the most challenging proposals.
 - Increased investment on priority initiatives as a combination of on-going and one-off additional funding.
 - Reduction in the proposed increase for Council Tax.
 - Amendments to budget lines as a result of updated information.

- Technical adjustments to improve future financial resilience and reduction of risk.

Directorate Commentaries

City Operations

119. Significant additional resources have been allocated to the Directorate in order to meet demographic and other financial pressures in 2016/17. In addition, allocations have also been made as part of the Financial Resilience Mechanism to provide improvements to services and infrastructure across the City during the coming financial year. These sums are allocated on a one-off basis and will then be available to support the Council's overall budget reduction targets in future years.
120. Demographic pressures totalling £288,000 have been funded as part of the budget with £197,000 in School Transport reflecting a number of specific pressures including the new Autistic Unit at Springwood and £91,000 in Waste Management reflecting the potential for increased tonnages to be collected and processed. As in the current year an earmarked contingency budget will also be maintained in order to offset any fluctuations in tonnages during the year. This will amount to £1.168 million in 2016/17. A budget realignment of £200,000 has also been made in order to reflect anticipated shortfalls in the level of income likely to be received by the Material Recycling Facility. In addition, as in the current year an earmarked contingency budget of £350,000 will be retained in order to reflect potential volatility in prices and income in this area. An amount of £367,000 has also been added to the Directorate budget in order to reflect the previous commitment to reinstate the revenue budgets for Eastern Leisure Centre once the upgrade to the facility had been completed.
121. Funding of £926,000 has been allocated to the Directorate to reflect specific financial pressures identified during the budget process. This includes £456,000 to offset the anticipated reduction in WG grant funding for the Single Environment Grant which supports a range of recycling processing and initiatives to drive recycling and avoid fiscal fines, local environmental quality improvements, prevention of fly tipping and flood prevention activities. Other financial pressures include £175,000 to support the cost of introducing new recycling initiatives for the public including mattresses, carpets and other materials such as hygiene waste and £75,000 to provide additional support for the development of supplementary planning guidance following approval of the Local Development Plan by Council in January 2016. Funding of £220,000 has also been allocated to meet pressures and fund improvements in relation to Neighbourhood Services. This includes the introduction of teams to support cleansing and enforcement activities including the provision of activities outside of normal working hours. The funding will also support tidal parking enabling a deep cleanse and help to prevent drainage issues, reintroduction of street washing to the city centre and also to provide street washing outside of the city centre in areas where liquids

can less frequently cause pavements to become unclean but also potentially hazardous. In addition two apprenticeships will be created.

122. The allocations made as part of the Financial Resilience Mechanism to provide improvements to services and infrastructure across the City during the coming financial year total £600,000. These are one-off allocations which include £320,000 to fund targeted interventions for potholes enabling approximately 3,000 potholes to be repaired. Other allocations include £100,000 for transport project delivery including increasing the number of 20 mph schemes in sensitive areas and improvements to residential parking schemes and £80,000 to support a new mobile recycling facility. A further £100,000 is also being made available to support visible street scene services including the creation of an additional enforcement unit to tackle high priority areas across the city. This is in addition to the £220,000 allocated to Neighbourhood Services as part of the financial pressures referred to above.
123. The savings proposed within this directorate total £7.586 million representing 22.8% of the net controllable budget. The savings include changes to service delivery including alternative delivery models, commercialisation and increased income generation and reduced expenditure and efficiencies within services.
124. Savings proposals based on changes to service delivery and alternative delivery models total £4.093 million. This includes £1.052 million for reshaping services within City Operations primarily through an alternative delivery model for Infrastructure Services. A saving of £850,000 is also proposed in relation to a new operating model for Leisure Services. The detailed business cases for these new models of service delivery are being developed and will be presented to Cabinet for decision in the next few months. A budget saving of £759,000 has also been identified in respect of waste disposal, this reflecting the projected savings as a result of the full implementation of the new contract arrangements in relation to Prosiect Gwyrdd. The overall costs in relation to waste disposal will be subject to a number of factors including fluctuation in tonnages. As such a budget contingency of £1.168 million will be maintained as part of the 2016/17 budget in order to offset any unforeseen cost increases. Funding is also available in the Waste Management Reserve should this be required. A saving of £450,000 is also proposed from reshaping the Grounds Maintenance Service, protecting core services but increasing productivity, whilst in relation to Regulatory Services a further saving of £310,000 is expected to be released from the Regulatory Collaboration with the Bridgend and Vale of Glamorgan Councils. The new model for Children's Play is also anticipated to release a saving of £270,000 in 2016/17 with play, including after school club activities being run from a range of community facilities within Neighbourhood Partnership areas in future. Other significant savings include £137,000 from the cessation of the contract for automated public conveniences with the units being taken out of operation from 1 April 2016 and £78,000 from the full year effect of the alternative delivery model for the Cardiff International Sports Stadium with the Cardiff & Vale College taking over the operation of the stadium in the current year. There are also proposed savings of £59,000

from the transfer of Insole Court to a community trust, £45,000 as a result of the Victoria Park paddling pool wet play improvements, £43,000 in relation to a new operator for Canton Community Hall and £40,000 from changes to the operation of the Heliport.

125. Savings proposals based on commercialisation and increased income generation total £1.416 million. This includes £400,000 from commercialisation within the Directorate including improved charging, income generation projects and areas such as sponsorship, selling services via the website and from fees and charges. A saving of £78,000 is also anticipated through increased commercialisation within Trade Waste by increasing income through the provision of new services and improved competitiveness. An increase in income from moving traffic offences will also provide a further contribution of £370,000 to fund transport and environmental improvements within the revenue budget. A saving of £128,000 is also anticipated as a result of an improved recharging process for landscape design fees with an additional £50,000 also proposed through optimising the recharging of Drainage staff costs to applicable grant schemes. Additional income of £100,000 is expected in relation to planning fees with a further £50,000 through improved charging for support on bespoke planning applications. Other significant savings include £100,000 as a result of increased income opportunities from the renewal of the landfill gas generator contract, £100,000 through reshaping services and increased income opportunities in Bereavement Services and £90,000 through income generated by optimising the marketing of transfer waste and the recycling bulk loading facility with other local authorities and businesses. A saving of £50,000 is anticipated as a result of increased enforcement powers in relation to dog fouling, highways and litter with £41,000 also projected as a result of optimising parks income through increasing sales of nursery plants and increasing income from Roath Park Conservatory and the Royal Horticultural Show. Savings are also identified in relation to Street Lighting with £33,000 from improved performance allowing alternative chargeable works to be undertaken and £26,000 through improving the recharging of design and inspection both externally and internally.
126. There are a range of proposals totalling £1.877 million based on efficiencies and reduced expenditure within the Directorate. This includes £252,000 as a result of increased productivity and plant maintenance efficiencies in relation to materials recycling, £240,000 through the alignment of core processes and identification of synergies across the directorate and £200,000 from improved digitalisation of services and payments, introducing e-auctioning to all areas of the Directorate. A saving of £105,000 is also proposed in relation to cost reductions arising from the implementation of improved customer management processes with an overall saving of £234,000 also anticipated as a result of improved business process efficiencies and contract rationalisation in the Electrical and Design Teams. Other savings include £90,000 through improved recharging for services and deletion of posts in Transportation Policy, £80,000 as a result of reduced maintenance costs following capital investment in the fans in the Butetown Tunnel and £68,000 through improved automation of the security at the Lamby Way depot. A

saving of £76,000 is also anticipated in respect of the household waste recycling centres (HWRCs) reflecting the full year effect of seasonal opening hours, charging for non-Cardiff householders and additional productivity and effectiveness once the new HWRC opens in the Summer 2016. Other significant savings include £60,000 from improved highway safety inspection resulting in a reduction in the level of insurance claims, £50,000 from rationalisation and reduction of vehicles in Highways Transport and £50,000 through a review of additional staff payments in Highway Operations. A saving of £50,000 is also proposed in relation to school crossing patrols reflecting a realignment of the budget and staffing structure. There will be no change to the number of crossings supported by patrols with locations being reviewed as officers retire. Outdoor Sports is also anticipating a saving of £50,000 reducing subsidy through reductions in employee and supplies and services costs, a remodelling of fees and charges and implementation of alternative delivery models. A range of other efficiency and cost reduction proposals across the Directorate will provide further savings of £272,000.

127. A number of addressable spend savings also impact on the City Operations Directorate. These include £371,000 of targeted savings on School Transport, £210,000 within Street Lighting including conversion to LED lighting and £175,000 in relation to the facilities management costs at the Cardiff International Sports Stadium with the Cardiff & Vale College taking a lease of the stadium in the current year. The savings also include energy savings totalling £90,000.

Communities, Housing & Customer Services

128. The savings proposed within this directorate total £1.259 million representing 7.69% of the net controllable budget. They include £250,000 in relation to the continued rollout of the Libraries / Hub Strategy including the implementation of the Cabinet decision on Roath Library to advertise for expressions of interest for a community asset transfer incorporating the re-provision of a library service in the building. The saving also relates to the vacation of the Dominions Way storage facility. A saving of £100,000 is also proposed as a result of refocussing services from the Hubs. Currently advice in the Hubs is provided through a variety of approaches. This proposal would reduce Council funded partner advice services to specialist financial advice with less complex issues delivered by the Hub Advice Officers. A number of the savings proposals are based on income generation. This includes £300,000 from further realisation of income opportunities following the creation of the Alarm Receiving Centre. Others include £49,000 from additional income in relation to the Learning for Life Programme thereby reducing the level of subsidy within the Adult Community Learning Service and £30,000 by commercially exploiting the expertise of the Council's Web Team to achieve additional income. Changes to the alignment of the Adult Community Learning Grant will also assist in delivering outcomes and a saving of £130,000 in relation to Into Work Services.
129. Budget savings are also proposed as a result of reviewing service structures and opportunities to recharge costs. This includes £142,000 in

relation to the recharging of service costs in Neighbourhood Regeneration either to capital schemes or to the Housing Revenue Account. A saving of £65,000 is also proposed through efficiencies in the allocation and recharging of management costs within the Directorate. A review and restructure of Reablement Services, refocussing towards reablement activities with fewer and better trained staff is also anticipated to provide a saving of £193,000.

130. As part of the due diligence for the 2016/17 budget process the level of risk attached to current shortfalls against budget savings targets in 2015/16 was assessed. Based on this a previous year budget saving of £35,000 in relation to reorganising the way community meals are delivered has been re-instated into the base budget for 2016/17. This reflects a change to the proposals for the delivery of this service.

Corporate Management

131. The savings proposed in Corporate Management amount to £307,000 and represent 11.26% of the net controllable budget. The proposals include efficiencies of £77,000 in Communications and Media based on a reduction in campaign budgets and £54,000 through staff reductions in the Cabinet Office. A saving of £131,000 is also proposed in relation to corporate initiatives with a reduction made to the amount available to support events and market the city. Other corporate savings include £30,000 from an anticipated reduction in audit charges reflecting increased partnership working and £15,000 as a result of savings made in relation to corporate banking charges.
132. Other corporate savings, identified as part of the addressable spend proposals include £32,000 through a net reduction in precepts and levies paid to other bodies. A further reduction of £25,000 in respect of audit fees is also anticipated reflecting a review to ensure that all areas of the Council are being appropriately charged for the audit work undertaken.
133. As part of the due diligence for the 2016/17 budget process the level of risks attached to current shortfalls against budget savings targets in 2015/16 was assessed. Based on this a previous year budget saving of £40,000 in relation to increased Communications and Media income targets has been reinstated into the base budget for 2016/17. This reflects the continued unachievability of this proposal. The budgets within Corporate Management also include £500,000 to reflect the reinstatement of the funding for the Central Enterprise Zone which was temporarily reduced in 2015/16 and £250,000 to reflect the increase to the Fire Service Levy as a result of price changes and demographic changes which impact on the relative distribution of the levy amongst constituent authorities.

Economic Development

134. Budget savings totalling £1.286 million have been proposed representing 56.13% of the net controllable budget. This includes £430,000 based on a review of costs, income and service delivery in two Arts venues.

Following public consultation a number of changes were made to proposals in respect of Arts and Culture including the re-instatement of budgets for Community Arts Grants (£68,000), Artes Mundi (£20,000) and Cardiff Singer of the World (£36,000). The £37,000 budget for the Cardiff Contemporary Initiative has also been reinstated, however a saving of £50,000 is still anticipated as a result of identifying alternative funding sources for the Arts Management budget. A number of other savings are also proposed as a result of reviewing and realigning existing services. This includes £122,000 through a new approach to funding the taxi marshalling service for the night time economy in the city centre on weekends and £95,000 from rationalising existing culture, venues and events marketing and sales provision. Other savings include £41,000 from a service redesign of Strategic Estates and £15,000 from a reduction in part time hours within Economic Development.

135. A number of the savings proposals relate to increased income generation including £88,000 through increased sponsorship and advertising in Economic Development and £86,000 from a further capitalisation of staff costs in Major Projects to reflect capital works undertaken. Additional rental income of £56,000 is anticipated from the Council's property estate through the periodic rent review process with an additional £47,000 also anticipated from increased rental income in the managed industrial workshop estate. Budget savings based on increased income are also proposed in relation to City Centre Management with £45,000 expected through the use of activity sites in the city centre and additional tourism income of £33,000 through increased local business subscriptions to the Cardiff Convention Bureau and the Cardiff Tourism Network. The budget saving of £47,000 previously proposed in relation to a reduced service in Tourism has been reinstated following the outcome of the public consultation. Other savings within Economic Development include £120,000 from a reduced subsidy to the Cardiff Business Council, £51,000 by removing the budget for the provision of discretionary grants to small to medium sized enterprises (SMEs) and £7,000 through a reduction in miscellaneous revenue support budgets.
136. As part of the due diligence for the 2016/17 budget process the level of risks attached to current shortfalls against budget savings targets in 2015/16 was assessed. Based on this a previous year budget saving of £300,000 based on savings in cultural venues has been reinstated into the base budget for 2016/17. This has been replaced by updated proposals submitted as part of the 2016/17 budget process.

Education & Lifelong Learning

137. Within Education £500,000 has been allocated in order to establish a fund that as part of the Cardiff Commitment provides opportunities for apprenticeships therefore offering another route into higher education. This is one off funding but will be reviewed as other apprenticeship schemes develop.
138. Whilst additional funds have been allocated to delegated school budgets the Education directorate has had to identify budget savings totalling

£3.074 million which represent 18.1% of the net controllable budget. They include £650,000 saving in respect of the continued remodelling of the Youth Service which commenced in 2015/16. The Council will continue to support the delivery of youth provision throughout the City, directly supporting provision with targeted Council run services for young people and communities in greatest need. A reduction in the number of Out of County placements through partnership working by reducing the number of new placements will deliver a £680,000 saving whilst reductions in the costs of existing placements will deliver a saving of £150,000. Working in partnership with Children's Services a review of Looked After Children will reduce the number of Out of County Placements (£100,000) whilst a different approach to commissioning tutors for pupils who are not educated in school will deliver savings of £149,000.

139. A restructure of the Specialist SEN teams will produce a £60,000 saving whilst a reduction in the Childcare Team will achieve a saving of £100,000. A reduction in the staffing capacity in the Education Welfare Service structure delivers £100,000 with further savings in Performance Management (£35,000) and directorate business process redesign (£100,000) respectively. Rationalisation of budgets such as energy efficiency and the revision of service level agreements will deliver a saving of £569,000 with a reduction in the contribution to the Central South Consortium contributing a further £81,000. Additional income will generate £300,000 savings through increasing school meal charges.
140. As part of the due diligence for the 2016/17 budget process the level of risk attached to current shortfalls against budget targets was assessed. Based on this a previous year budget saving of £42,000 in relation to staffing restructures has been re-instated into the base budget for 2016/17.
141. In 2015/16 delegated school budgets were increased by 3.2% which was the largest increase across all Local Authorities in Wales. For 2016/17, the delegated school budgets will increase by a further £11.185 million (5.4%).
142. Whilst there has been no formal announcement from WG there is an expectation that all Welsh Local Authorities will need to continue to demonstrate that they have met School Protection. For Cardiff this means that the 2016/17 delegated school budget of £205.609 million needed to be increased by at least 3.823 million (1.85%) excluding any changes for pupil numbers. This budget allocates to delegated school budgets an additional £7.152 million (3.47%) for non-demographic growth which exceeds protection by £3.329 million.
143. The £7.152 million will contribute to meeting 75% of the inflationary pressures facing schools such as pay awards, teachers superannuation, National Insurance, increments and free school meals.
144. In addition, demographic pressures in relation to pupil numbers (and their associated needs) have required extra resources of £4.033 million.

These demographic pressures are primarily represented by pupil increases in both mainstream and special school settings but also include the resulting increase in free school meals, breakfasts and pupils with complex needs.

Governance & Legal Services

145. Budget savings of £125,000 are proposed representing 5.32% of the net controllable budget. A saving of £50,000 is proposed in relation to the scrutiny research function. This is being offset by a one-off allocation of £50,000 to undertake a full review of the function during 2016/17. Other savings include £7,000 from a reduction in the level of directorate printing and £3,000 though the provision of in-house welsh language translation at Council meetings. There are two savings proposals based on income generation with £41,000 of additional income anticipated in relation to land charges through a combination of increased demand and price and £24,000 via a proposed invest to save initiative in respect of welsh translation.
146. Additional budget of £258,000 is proposed in order fund financial pressures. This includes £158,000 to fund additional solicitors and to meet the demands of the workload. This will enable further legal work to be carried out in-house with less reliance placed on more costly external services. In particular additional legal posts are required in order to carry out work in relation to child protection and procurement. An additional £100,000 has also been allocated to member support to enable preparation for the future implementation of the Local Government (Wales) Act.

Resources

147. Budget savings of £1.842 million are proposed representing 13.3% of the net controllable budget. This includes savings of £645,000 on employee budgets of which £322,000 relates to Finance with post reductions and other employee savings in Exchequer and Development, Audit, Service Accountancy and Business Administration. Other employee savings include £215,000 in Human Resources, £56,000 in ICT, £30,000 in the Central Transport Service and £22,000 in the Improvement and Information Team all reflecting a reduction in posts.
148. Savings based on income generation amount to £884,000. This includes £165,000 in relation to Revenue Services with £150,000 based on an extension of the recent changes to bring more of the enforcement of penalty charge notices directly under the control of Council staff and £15,000 in relation to the recovery of additional court cost income from business rates. A saving of £135,000 is also identified in relation to Security and Cleaning, this being linked to the process of implementing an alternative delivery model. An income target of £125,000 is also being introduced to reflect the Enterprise Architecture Team's support in driving out the adoption of digital services across the organisation thereby improving customer experience, increasing automation and enabling employee efficiencies. A similar target of £105,000 has also

been introduced for ICT reflecting the transitional support required in respect of alternative delivery models. Other income targets include £82,000 through the delivery of information governance responsibilities across Council services and £35,000 from reviewing the pricing and charging model for the Council's Record Centre. Additional income of £60,000 is anticipated through the sale of staff time to an employee owned mutual or local authority trading company in relation to Commissioning and Procurement and £50,000 through maximising internal income and marketing services to public sector bodies by Building Services. An income stream of £30,000 is also anticipated in relation to Security and Cleaning based on partnership working with the Alarm Receiving Centre. Other additional income targets include £54,000 of funding from the Fraud Detection Reserve in relation to Audit work, £29,000 of additional income generated by Cardiff Works and £14,000 in Project Accountancy based on support provided to Major Projects.

149. Other proposed savings reflect service efficiencies or a reduction in external costs. This includes a reduction of £111,000 in the spend on licences, network, telephony links and support and maintenance within ICT and £68,000 through procurement efficiencies in relation to the vehicle replacement programme in the Central Transport Service. A reduction of £60,000 is also proposed in relation to third sector infrastructure funding reflecting efficiencies and increased collaboration of back office functions with a reduction of £35,000 also proposed in relation to Community Safety funding. This includes savings based on the removal of obsolete mobile CCTV cameras and reductions to the events/Operation Mistletoe budget with this anticipated to be replaced by alternative funding mechanisms later in the year. Other efficiencies and savings totalling £39,000 have also been identified across the Directorate including £20,000 as a result of reduced costs in the Central Transport Service.
150. As part of the due diligence for the 2016/17 budget process, the level of risks attached to current shortfalls against budget savings targets in 2015/16 was assessed. Based on this a previous year budget savings of £26,000 in relation to charges for credit card payments has been reinstated into the base budget for 2016/17. This reflects a technical change which means that this proposal can no longer be achieved. The budget for the Resources Directorate has also been increased by £981,000 to reflect the reinstatement of the revenue budget for the Organisation Development service. This budget was temporarily reduced in 2015/16 as part of the one-off capitalisation funding available to the Council that year.

Social Services

151. Significant additional resources have been allocated in the budget in order to meet existing and new financial pressures within Social Services. This includes both Children's and Adult Services with additional budget provided to meet demographic pressures, fee increases, financial pressures including the impact of the Social Services

and Wellbeing Act and to write out unachievable savings targets from the current and previous financial years.

152. In Children's Services an additional £1.6 million has been allocated in order to reflect the budget pressures in the current financial year. This includes the increased costs of external placements for looked after children including both fostering and residential placements. The budget has also been increased by £435,000 in order to reflect the full year effect of the proposed increase to the allowances for Special Guardianship Orders. As in the current financial year a specific contingency allocation of £950,000 will also be maintained for 2016/17 in order to fund any growth in external placements should this become evident during the year.
153. In Adult Services an additional £1.6 million has been allocated in order to meet the impact of new demographic pressures in services such as domiciliary care, direct payments and residential and nursing placements. Additional budget of £1.95 million has also been allocated to meet cost increases in 2016/17 which includes a contingency for any exceptional increases in the coming year.
154. Funding of £953,000 has been allocated in order to meet specific financial pressures in Social Services. This includes £193,000 directly relating to the implementation of the Social Services and Wellbeing Act with £143,000 required to support a new duty to meet the care and support needs of the prison population and £50,000 for an advocacy service for people with care and support needs. Additional budget of £410,000 has also been allocated to fund a range of measures forming part of an Early Help Strategy in Children's Services. The proposals include the establishment of an Adolescent Resource Centre to offer support to children aged over eleven, the introduction of a safer families initiative and the development of family group conferencing. The component elements will provide additional support to families and young people and will contribute to an anticipated reduction in the number and cost of looked after children. This is reflected in the savings proposals put forward by the Directorate. From 1 April 2016, Welsh local authorities must have implemented a 'When I'm Ready' Scheme providing financial support for young people in foster care past the age of 18. Additional funding of £200,000 has been allocated to support this and to provide funding for increased pressures on the Fostering Service in relation to connected persons assessments. Additional budget of £150,000 has also been provided in order to meet the anticipated increase in the level of support payments to families with children who have no recourse to public funds. This reflects an on-going and anticipated further increase in the level of migrant families with children.
155. As part of the due diligence for the 2016/17 budget process, the level of risks attached to current shortfalls against budget savings targets in 2015/16 was assessed. Based on this, a total of £2.586 million has been reinstated into the Social Services base budget for 2016/17. This relates to seven specific savings targets, one in Children's Services and six in Adult Services. These are either considered unachievable or have a

level of risk in terms of achievability that is considered unacceptable in terms of the future budget monitoring and financial resilience for 2016/17. The most significant of these savings targets is the projected shortfall of £1.676 million in relation to efficiencies in strategic commissioning in Adult Services. Other significant shortfalls include £400,000 in relation to spot contracting for domiciliary care and £300,000 in relation to commissioned services including residential and nursing contracts.

156. The budget savings proposed by the Directorate for 2016/17 total £4.865 million and represent 3.6% of the net controllable budget. The savings include £2.035 million in relation to Children's Services, of which £1.75 million is specifically based on reducing the number and cost of looked after children in care. This includes a proposed saving of £700,000 based on the establishment of an Adolescent Resource Centre to assist in supporting young people to stay at home. Other savings in this area include £340,000 from the introduction of an 'Early Help Strategy' to promote and facilitate early interventions to tackle problems emerging for children, young people and their families and £210,000 from the introduction of a Safer Families Initiative. This will utilise and encourage volunteering in the community to provide a mentoring service aimed at reducing looked after children's admissions. As noted earlier, additional budget of £410,000 has been provided as a financial pressure in order to implement these preventative measures and to support the release of budget savings. A saving of £500,000 is also proposed in relation to reducing the number of children placed in out of area placements. This is a continuation of the savings proposed in 2015/16 based on an enhanced fostering scheme with the aim of 'stepping down' children who are in residential care into a family placement with wrap around support. Other savings in Children's Services include £130,000 from an anticipated reduction in external legal costs, £90,000 from a restructure of social work teams and £65,000 from a review of staffing in the Family Support/Youth Offending Service involving utilisation of grant funding.
157. The proposed budget savings include £2.675 million in relation to Adult Services. This includes £1.0 million which is based on a range of commissioning opportunities that have been identified by the Directorate to be targeted in 2016/17. Other savings include £350,000 which will be realised as a result of the full year effect of the new arrangements for the supported living contract which commenced in August 2015 and £250,000 from reshaping day services for older people. The day service proposals are subject to the consultation with service users but will be achieved through the development of day opportunities that will be more outcome focused. A saving of £250,000 is also proposed in relation to demand management with increased sign posting of service users to alternative forms of care and preventative services in order to reduce overall demand and cost. In addition a further saving of £250,000 is also proposed in relation to locality based service delivery with initial mapping indicating opportunities for improved service delivery and reduced costs through service redesign on a locality focussed basis. Other proposals include £200,000 from a review of the administrative arrangements for Direct Payments, £100,000 from a review of staffing within Assessment and Care Management, £100,000 from a review of commissioning within

the Community Alcohol and Drug Team, £100,000 from a review of continuing health care eligibility for Physical Disability care packages and £75,000 from a review of third sector grants. Cross Directorate savings of £155,000 are proposed with efficiency savings of £130,000 due to the integration of the Directorate's central functions and £25,000 from a reduction in travel costs arising from office rationalisation.

Supporting People Programme Grant Spending Plan

158. The Supporting People Programme provides nearly 7,000 units of housing-related support to vulnerable individuals in Cardiff to assist them to live independently and to prevent homelessness. Support can be provided in the clients own home, in hostels, sheltered housing or other specialist supported accommodation. Thirty two organisations deliver this support, the majority of which are charitable organisations. However the Council does also provide some services directly including two homeless hostels.
159. The WG provides Supporting People funding in the form of a grant and local authorities administer the funds and commission services. A multi-agency Regional Collaborative Committee (RCC) for the Vale of Glamorgan and Cardiff operates to provide a collaborative approach and share best practice.
160. The WG requires each local authority to develop a Local Spending Plan in a prescribed format that indicates the areas where the Council intends to spend the grant. This is prepared following an indicative grant allocation figure from the WG.
161. The indicative grant allocation for Cardiff for 2016/17 is £16.2million which has remained the same as in 2015/16. The level of intended spend within each spend category can be seen at Appendix 15 and is broadly similar to that of the current year, however there has been some realignment of funding.
162. Each region has been tasked by WG to ensure services for Older People are targeted at the most vulnerable and work is continuing to ensure that is the case. There has been an increase in Community Alarm service users and costs which is increasing the expected spend in this category.
163. The Council has reviewed its services for young people and due to void and demand data the number of floating support units have been reduced while at the same time increasing spend in 24 hour supported accommodation for the most vulnerable young people.
164. The proposed Local Spending Plan is a reflection of regular and ongoing engagement with all stakeholders and direct discussions with individual providers and reflects the Council's priorities for 2016/17. Work has commenced on recommissioning the Council's floating support services with the intention of procuring new services during 2016/17 for implementation from April 2017 and further information about this will be reported to Cabinet in due course.

Day Opportunities Strategy

165. A report in respect of the Council's proposed Day Opportunity Strategy was considered by Cabinet in November 2015.
166. This Strategy is aligned to the councils' key corporate policies and the new requirements as part of the new Social Services and Well-being (Wales) Act 2014. It takes into account the rising population, changing expectations from existing and future service users, and the need to address loneliness in Cardiff. At the same time, ensuring public funds are directed to those with the highest need that will achieve the best outcomes.
167. The aim of the Strategy is to prevent social isolation and enable older people to achieve their chosen outcomes based on individual level of need by:
- Providing information, advice and assistance to encourage independent access to social activities and engagement opportunities
 - Providing assistance to those who need it to access community services and activity through targeted intervention and support
 - Supporting the most vulnerable through high quality specialist day services
168. At Council on the 28 January 2016 an amended Notice of Motion was agreed that included: "In relation to the Alzheimer's Society service at Oldwell Court, it is proposed that:
- The Council will continue to fund places for those people who currently receive a service funded by the council at Oldwell Court
 - The Council will continue funding for these individuals until such time as the arrangements are no longer required
 - The Council will support the Alzheimer's Society to help them secure their current accommodation into the future."
169. In line with this notice of motion, the response to the consultation and through the productive meetings with the Alzheimer's Society, the proposed Day Opportunities Strategy has been updated (attached Appendix 16). Therefore, the recommendation in this report requests the approval of this strategy and the authorisation to implement.

Medium Term Financial Plan and Financial Strategy

Future Outlook and Inherent Uncertainties

170. The budget reduction requirement is influenced by numerous external factors including new Government policy initiatives, new legislation, future funding settlements, economic conditions and price inflation. It is therefore a dynamic figure which requires regular review and refresh to ensure it reflects emerging issues and the most recent information. As an

important part of financial resilience and sound financial planning, the Council undertakes regular updates to the Budget Reduction Requirement. Following this report the next reported update will be included in the Council's Budget Strategy Report in July 2016.

171. In recognition of the areas of uncertainty inherent within the plan, the MTFP includes both a base case and a sensitivity analysis which is covered further in the report. A further significant area which will impact the period covered by the MTFP and which it is not possible to model within scenario analysis, is the prospect of Local Government Reorganisation. The recent consultation on the Local Government Wales Bill will have many implications for Local Authorities to consider over the plan period, including the harmonisation of Council Tax rates and shadow arrangements.

Medium Term Financial Plan – Overview

172. This section sets out, as far as possible through use of available information the financial challenges facing the Council for the period 2017/18 - 2019/20. As set out in the table below, a budgetary gap of £73 million is estimated over this three year period. An extended version of the table below is set out in Appendix 17 (a).

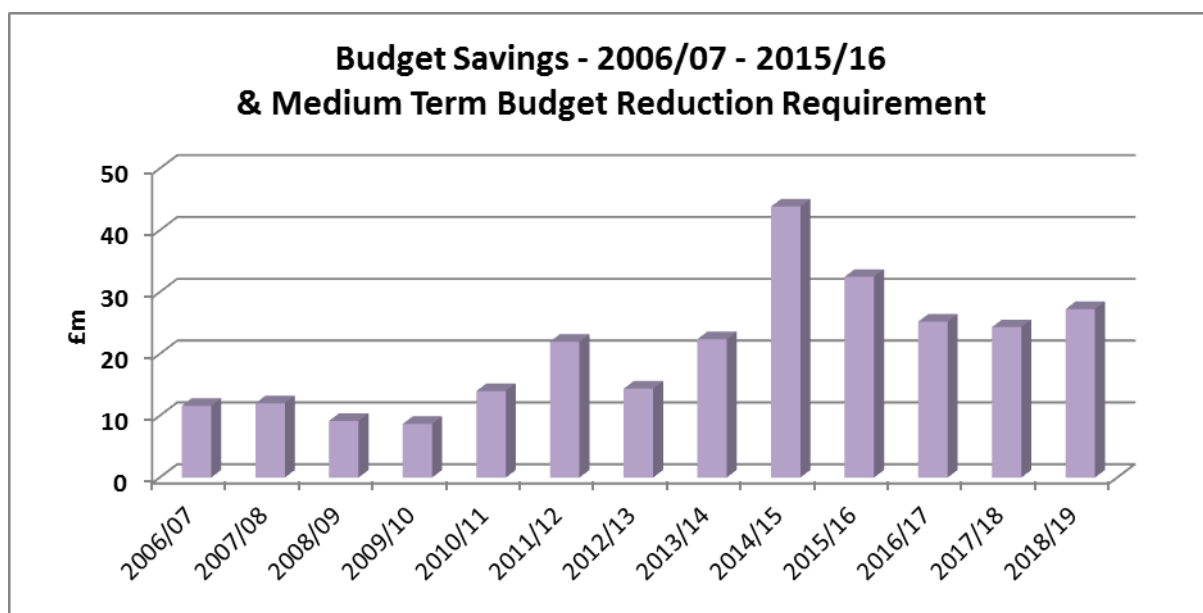

Component of Budget Gap	2016/17 £000	Medium Term Financial Plan		
		2017/18 £000	2018/19 £000	2019/20 £000
Adjusted base Budget B/forward	573,506	578,161	571,828	567,608
Pay*	5,849	3,685	3,080	2,704
Price Inflation	2,266	2,760	2,760	2,760
Schools Growth	11,216	7,770	7,049	7,186
Capital Financing	0	(1,258)	242	2,017
Commitments	6,119	2,073	480	50
Realignments	2,329	(3,600)	(1,900)	0
Non Schools Demographic Growth	3,488	3,900	3,900	3,900
Emerging Financial Pressures	2,223	3,000	3,000	3,000
2016/17 Savings	(28,835)			
Budget Reduction Requirement		(24,663)	(22,831)	(25,753)
Net Expenditure	578,161	571,828	567,608	563,472
Funding				
Aggregate External Finance	(426,285)	(422,022)	(417,802)	(413,666)
Use of Earmarked Reserves**	(2,070)			
Council Tax (at 2016/17 Rate)**	(149,806)	(149,806)	(149,806)	(149,806)
Total Funding	(578,161)	(571,828)	(567,608)	(563,472)

* Schools pay pressures are included in the Schools section of the table

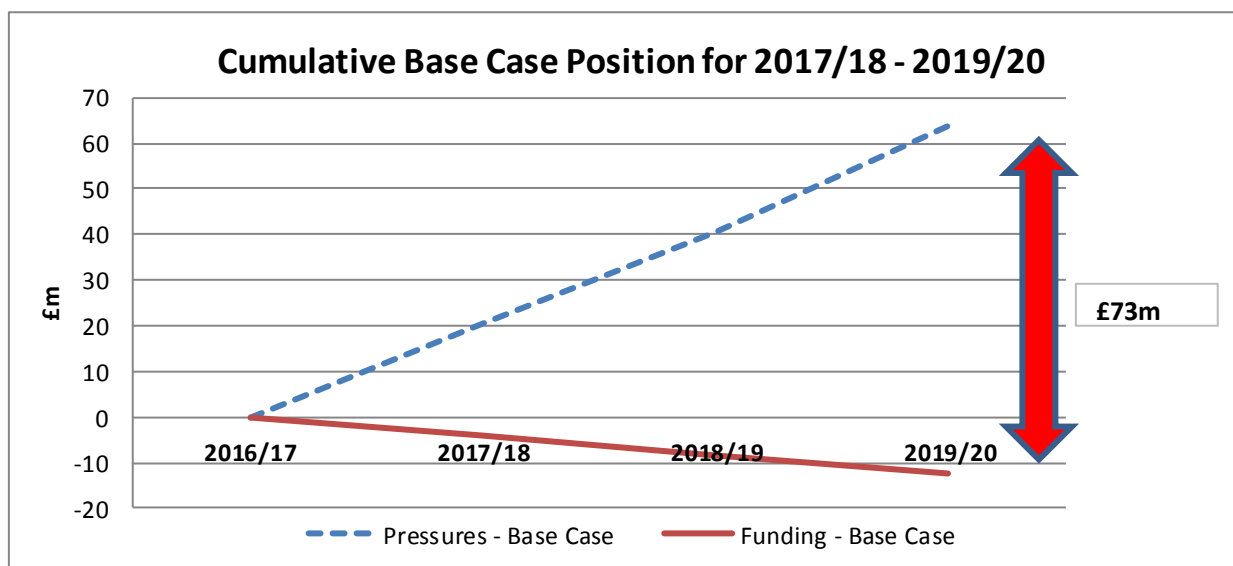

** Before any planning assumption on use of reserves and council tax increase which are considered in the response to the Medium Term Plan Section of this Report

Budget Reduction Requirement	£000
2017/18	24,663
2018/19	22,831
2019/20	25,753
Total	73,247

173. A budget reduction of £73 million over a three year period is a lower medium term reduction requirement than in recent budget rounds. However, it will still be a significant challenge, as the £73 million budget gap builds from the Council having made £190 million savings over the 10 year period 2006/07 – 2015/16, over half of which were over the three year period 2013/14 – 2015/16.

174. Although the Council has made £190 million savings over the past decade, the base budget has not reduced by this amount. This is because the most significant driver for the Council to find savings is escalating demand, as illustrated by the graph below.

175. As the gap between central funding and increasing demand has widened over recent years, the areas of the Council's budget that are afforded WG protection (such as Schools) or are the subject of escalating demand (such as Schools and Social Services) are accounting for proportionately more of the Council's budget as budgets are redirected into these areas. Over an extended time-frame this makes addressing the budget reduction requirement through directorate savings increasingly challenging, as explained further in the following section.

Controllable Savings Base

176. As set out above, the budget challenge facing the Council is exacerbated by the fact that it is not possible to make cuts across the whole of the Council's budget. For example in setting the 2016/17 budget, out of a base budget brought forward of £570 million, the majority of cuts were only able to be directed at budgets totalling £223 million, just 39% of the overall budget, compounding the impact for those services.

177. As a result, those areas in which it is possible to make cuts, (known as the controllable savings base) are contracting at a steeper rate and will continue to do so whilst pressures and funding levels diverge. It is also worth noting that many of the services included within the £223 million, are themselves, the subject of escalating demand, such as Social Services which accounts for circa 65% of the £223 million, further limiting the scope for targeting cuts.

178. In recognition that savings from within the controllable base will not be a sufficient solution to ongoing budgetary pressure, the Council has made every effort to extend its budget strategy into the other areas of its budget which are summarised below.

Budget Element	£000
Controllable Savings Base	222,963
Other Areas of Addressable Spend	311,101
Non Controllable	36,155
Total Cash Limit 2015/16	570,219

179. Addressable spend budgets, which account for £311 million (55%) refer to those areas in which it is more difficult for individual directorates to propose savings. This is because budgets included within this area are:-
- The subject of Government protection requirements – for example the £205 million Delegated Schools budget
 - Under pressure from demographic growth – again, the £205 million Delegated Schools budget
 - Externally set – for example, the £17 million fire levy budget
 - An important part of financial resilience – for example the £5 million insurance budget
 - Property related – for example office accommodation budgets
 - Necessary to service debt- for example the £37 million capital financing budget required to support borrowing undertaken in relation to the Capital programme
180. The 2016/17 budget includes £5.6 million savings in relation to the non-schools areas outlined above, with further challenging targets for the medium term. As part of the 2016/17 budget strategy, each of these areas have been designated champions in order to maximise potential savings in this area. In addition, review of the non-demographic growth allocated to schools has been an important budget strategy consideration over recent years.
181. The residual £36 million non-controllable budget, relates to areas in which it is not possible to make savings, the largest component being the £28 million Council Tax Reduction Support Budget.
182. The budgetary gap will need to be addressed through a further fundamental realignment downwards of directorate budgets, further targeting of addressable spend budgets along with potential Council Tax increases. Given the scale of the gap, and the challenges associated with the Council's budget profile referred to above, this will inevitably entail reductions in service delivery, ongoing consideration of alternative delivery models and continued commitment to becoming a more commercially minded Council. The Council's Programme of Organisational change will continue to review the shape and scope of the evolving organisation. Further detail on bridging the funding gap over the medium term is at paragraphs 228 to 234.

MTFP Assumptions - Future Expenditure

183. Financial pressures account for £58.5 million (80%) of the anticipated budget gap. Within the £58.5 million, a total of £22 million relate to pressures in schools.

Employee Expenses

184. Local Government pay is a matter for collective bargaining between the national employers and trade unions through the National Joint Council. The pay award reflected within the first year of the MTFP reflects the latest offer made by National Employers (December 2015) which covers the period 1 April 2016 to 31 March 2018.
185. The impact of the NJC award for Cardiff is broadly 1%. Whilst the offer includes significantly higher uplifts for lower pay scales, the Council's commitment to the voluntary living wage (VLW) means that at Cardiff, these pay scales are already supplemented to a level over and above that included in the offer.
186. In the absence of any firm indication of teacher's pay awards, an increase of 1% has been assumed. Later years of the plan allow for annual pay awards of 1% for all categories of staff within the base case MTFP. However, in recognition that there could be a significant in-year budgetary impact if awards of over 1% are agreed, the worse case scenario reflects the possibility of annual pay awards of 2% from 2018/19 onwards.
187. The MTFP makes the assumption that the VLW will increase incrementally at a rate which will bring it into line with the projected National Living Wage (NLW) by 1 April 2020. This progression is estimated to cost the Council approximately £1.2 million over the life of the plan. It is anticipated that approximately one additional spinal point per year will be encompassed by the VLW rate over this period. As the number of spinal points encompassed by the VLW grows, erosion of pay differential is likely to become an increasing issue.
188. The medium term plan allows for incremental salary drift for both schools and non-schools staff. Each year, a reduced proportion of estimated drift is allowed within the plan on the basis that over time, annual provision for the cost of increments should result in a budgeted establishment that is sufficient to cover each post being at maximum spinal point.
189. The Council's Local Government Pension Fund (LGPS) is subject to an Actuarial Review on a triennial basis. It is difficult to predict the outcome of the 31 March 2016 valuation which will set rates for 2017/18, 2018/19 and 2019/20. The MTFP included in the 2015/16 Budget Report had assumed, as a base case, that employer's pension contributions would remain at 22.9% following the March 2016 Actuarial Review. However, given increasing volatility in investment markets, it is considered prudent to revise this assumption so that the base case MTFP reflects an increase in the employer's contribution rate to 23.4%. It is assumed that the Council would take advantage of the mechanisms available to manage upward pressure on the contribution rate and step this increase over a three year period. In recognition of the difficulty in predicting future rates, the worse case scenario reflects a potential stepped increase to 24.9% over the same period.

190. Cardiff's auto-enrolment date was 1 February 2013. However, Cardiff chose the deferral option and all employees qualifying for auto-enrolment as at the start date, were deferred to 1 October 2017. In estimating the potential cost associated with the enrolment of these employees, it could be considered likely that most employees will opt out having previously decided not to join or remain in the Pension Fund. However, it would be imprudent to assume that there would be no additional LGPS members following auto-enrolment. The base case MTFP therefore includes provision for 10% of those who are auto-enrolled to remain in the fund, with the worse case scenario allowing for a further 10%. Given the enrolment date is half way through the year, these costs initially impact on 2017/18 with a full year effect in 2018/19.
191. The changing shape of the organisation will also impact the current shape of the Council's pension budgets. When staff transfer to alternative delivery models, the Council will retain the deficit recovery component of current employer's pension contributions; currently 7.9% within the 22.9% rate. Given that budgets already exist in respect of these retained costs, no additional sums need to be factored into the MTFP.

Price Inflation

192. Inflation is currently running well below the Bank of England's 2% target (Consumer Price Index.) In line with the practice in recent years, the plan assumes that directorates will be expected to absorb the impact of price inflation within their existing resource base, except in instances that are deemed to be truly exceptional.
193. The plan includes estimated future provision in respect of NDR, Out of County placement costs and potential fee increases in relation to Adults' Social Services. Whilst it is recognised that price fluctuations in relation to energy and fuel are likely over the three year period, given the absence of any indicative pricing beyond 2016/17 and the volatility of prices in this area, the base case plan assumes static pricing. Any price fluctuations, including reductions, will be factored into the budget gap at the appropriate MTFP refresh points.

Capital Financing

194. The assumptions that underpin the capital financing figures included within the plan are covered in further detail elsewhere in the report. Three key assumptions to note are:-
- A change in Minimum Revenue Provision (MRP) policy from 4.5% to 4% per annum with effect from 2017/18 to align the provision for the repayment of debt on supported borrowing with WG assumed levels
 - The Capital financing costs included within the MTFP reflect the 2016/17 capital programme contained within this report. There is no

assumption of any further new scheme approvals in 2017/18 and onwards

- The MTFP assumes a level of internal borrowing which minimises external interest costs

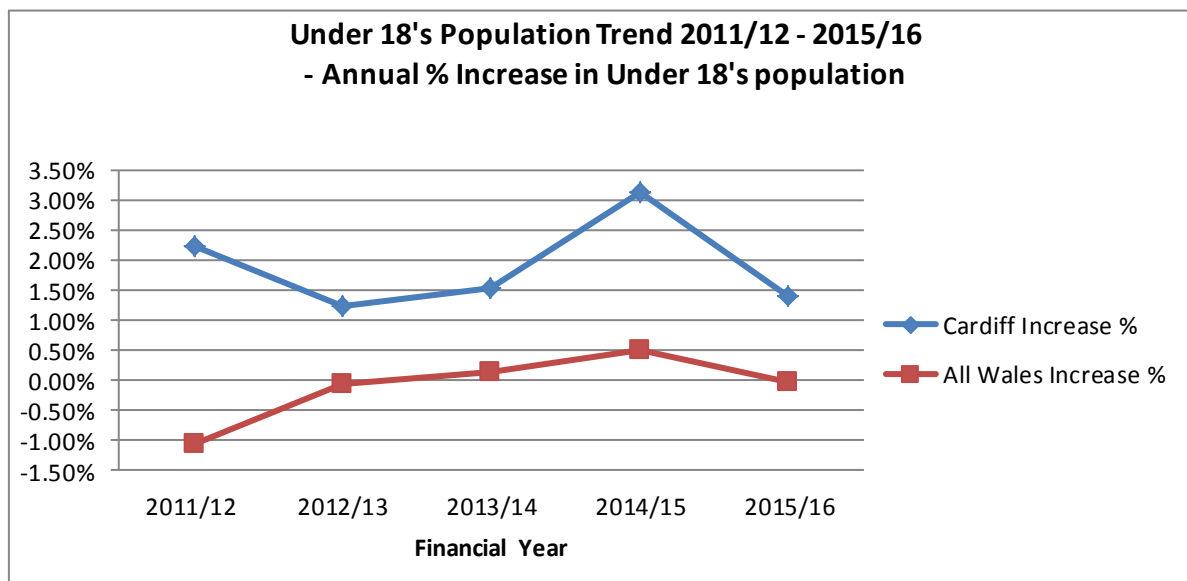

Commitments

195. The financial year 2017/18 includes a new anticipated commitment in respect of an Apprenticeship Levy. The Chancellor announced in the Summer 2015 Budget that a new levy on large employers would be introduced in order to fund new apprenticeships. Further detail announced in the November 2015 Comprehensive Spending Review indicated that the levy will apply to all employers, regardless of sector, at 0.5% of pay bill. Each employer will receive an allowance of £15,000 to offset against the levy which effectively means that it will only be payable on paybills exceeding £3 million. Whilst much of the detail around the levy, especially the Welsh context, is yet to be confirmed, available information suggests that the Council should plan for a levy of approximately £1.5 million per annum from 2017/18 onwards.
196. The commitments section of the MTFP includes a £4 million realignment downwards of the voluntary severance budget over the first two years of the plan. This is based on a reset of the anticipated number of annual leavers included within the voluntary severance model. The reset reflects the fact that the number of staff exiting the Authority on voluntary severance during 2015/16 is significantly lower than in previous years. It is considered prudent to assume that this position is likely to continue over the medium term given that the anticipated annual savings requirement is less than in recent years. It is also the case that the nature of savings has shifted, with alternative delivery models forming a key component of the medium term plan.
197. As part of the 2014/15 budget, a £4 million general contingency budget was established in recognition of the financial challenge associated with delivering savings of the scale required. Over the medium term, it is anticipated that whilst still significant, the annual savings requirement will be lower than in the years 2014/15 and 2015/16. It is therefore considered prudent to release £1 million of the general contingency in 2017/18.
198. The commitments section of the MTFP includes provision in relation to the Central Enterprise Zone (CEZ) budget. A £1.5 million budget for CEZ was due to be established by 2014/15 however, slippage from estimated CEZ timescales meant that provision of the £1.5 million was delayed. Moreover, in order to assist with the challenges of achieving a balanced budget, extant budget provision for CEZ was cut in 2015/16. Amounts are included within the 2016/17 budget and over the MTFP period to reinstate the 2015/16 budget cut and establish a full £1.5 million budget by 2018/19, in line with anticipated commitments in this area.
199. The commitments section of the MTFP also includes the full year effect of commitments included within the 2016/17 budget along with one-off

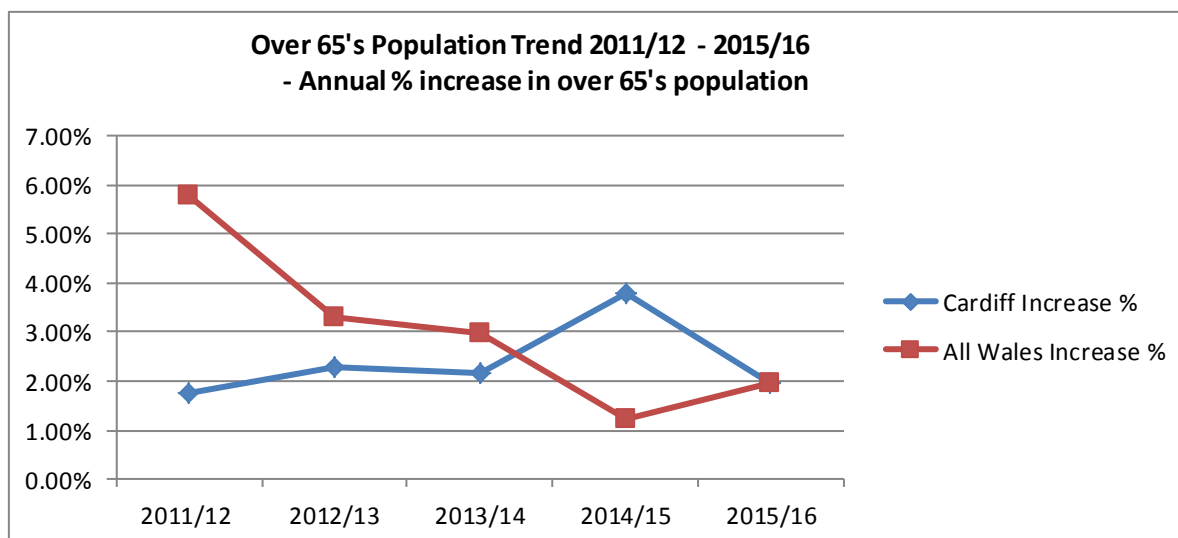

costs of £0.5 million associated with hosting the Volvo Round the World Yacht Race. It is planned that the Cardiff Harbour Project Fund will contribute the remaining £0.5 million of the Council’s contribution to the race, with a further £3 million grant funding provided by WG.

Demographic Pressures

200. Of the £58.5 million expenditure pressures identified over the next three years, 38% is attributable to pressure on services as a result of demographic growth. Over recent years, Cardiff has had one of the fastest growing populations of any UK core cities. Projections suggest that this trend will continue with statistical projections suggesting significant population growth out to 2034.
201. These demographic trends have been reflected in the Council’s financial position for a number of years and are reflected within the data that underpins the Council’s Standard Spending Assessment (SSA) as illustrated below. The SSA is a formula based calculation of “Relative need to spend” that is used by the WG to determine funding distribution across Wales. However, even though the city’s demographic growth is recognised within the calculation it does not begin to address the escalating cost pressures associated with such a demographic profile as the overall fund available for distribution has significantly diminished.

Figures sourced from Welsh Government's Annual Green Book Publication

Figures sourced from Welsh Government's Annual Green Book Publication

202. The above graphs highlight the issue raised earlier, that there has been substantial growth in age groups in which demand for services can be more costly. An increasing school age population places additional financial burdens on the education service. Similarly, an increase in the older population can create additional financial pressures on social services budgets as people become more likely to need services to help them continue to lead independent lives.

203. This trend places pressure on both capital and revenue budgets, for example, the SOP section of this report sets out the financial exposure the Council faces as a result of seeking to meet suitability and sufficiency issues within the schools estate over the life of the MTFP and into the longer term. In addition, £1.9 million has been allocated to supplement the disabled adaptations budget elsewhere in this report, to help people continue to leave independent lives.

204. The demographic pressures included within the MTFP are set out in the table below and are in areas that already account for 60% of the Council's budget. As referred to earlier in this section, in the absence of additional central government funding, the £22.1 million estimated requirement will involve an element of redirection from other areas of the Council's budget.

Demographic Increases	Predicted Three Year Pressure £m
Social Services – Adults	6.0
Social Services – Children's	4.5
Schools	11.1
Other	0.5
Total	22.1

205. It should be noted that whilst labelled as demographic growth, the sums in respect of Children's Services are also reflective of increasing complexity of demand. This is very difficult to predict and a small number of high cost packages can significantly impact on the Council's budget. In recognition of this issue, in addition to the sums identified for Children's Services, the Council's base budget contains £950,000 as a service specific contingency.
206. A further area that will need to be monitored in terms of its demographic impact is the recently approved Local Development Plan. Over the life of the plan (2006-2026) provision is made for 41,100 new homes and 40,000 new jobs, based on projected population growth over the same period. As the LDP progresses, there will be a need to consider the impact of these increases both in terms of a positive impact on council tax base and future settlements, and the associated increased demand for services. Future modelling within the MTFP will need to give consideration to the timing of these impacts, which is currently uncertain, with particular recognition that there is an inherent delay between an increase in population and a resultant increase in settlement.
207. A further area that will need to be monitored in terms of its demographic impact is the recently approved Local Development Plan which will see significant property growth in the city over the period to 2026. Whilst additional properties will mean an increase in council tax base; the MTFP shows the base as static. This is to reflect the fact that additional council tax income will be accompanied by increased demand for services. Future modelling will need to be undertaken as the LDP progresses.

Emergent Financial Pressures

208. The MTFP includes a sum of £3 million per annum to address emerging financial pressures. This sum, which represents just over 0.5% of the Council's cash limit, has been included in recognition that it is impossible to foresee all issues and that in reality, additional burdens may arise due to issues including legislative and policy change and specific grant fall out, an issue which is covered in further detail in the funding section below. These sums will be reviewed at the MTFP incremental refresh points referred to above and updated to reflect most recent information.

Aggregate External Finance

209. In the absence of any indicative funding figures for 2017/18 onwards, the level of AEF across the plan has had to be estimated. It is widely accepted that the future funding outlook for Welsh Local Government will remain challenging
210. The base case MTFP for the financial years 2017/18 – 2019/20 assumes an AEF reduction of 1% per annum.
211. In recent years, the absence of multi-year settlements for Welsh Local Government and significant changes to indicative funding figures when

they have been provided, has been a significant obstacle to financial planning. This uncertainty is set to continue over the medium term as the 2016/17 settlement covers only the forthcoming financial year unlike the position in England.

212. Ongoing budget reductions of the scale required to achieve a balanced position require difficult decisions with long-lead in times. The absence of sound evidence upon which to base future funding assumptions is extremely problematic, especially given that a 1% fluctuation in AEF for Cardiff equates to £4.3 million.
213. As set out earlier in the Report, in recognition of this key risk the Council has established a £4 million financial resilience budget as part of the 2016/17 budget. The financial resilience budget, which equates to approximately 1% of AEF, will operate as a base budget that will be spent on one off initiatives to support the reshaping of the organisation and to invest in priority areas. The one-off nature of investment means that in future years, the budget will be available for immediate release should settlements be more challenging than included in the MTFP base case, thereby reducing the need for significant additional directorate savings at short notice. In summary, the base budget is a mechanism that will enable short term investment in priority areas, whilst managing risk and providing surety to the medium term position.
214. The November 2015 CSR documentation contained estimates of the future level of the Welsh Block Grant. Using these indications as a starting point, the Welsh Local Government Association (WLGA) modelled future funding scenarios for WLGA. The scenarios cover a variety of potential protection levels for other parts of the Welsh public sector including NHS Wales, and range from an optimistic scenario which suggests modest annual AEF increases over the MTFP period, through to a most pessimistic scenario which sets out potential reductions of 2%-2.5% over the period. The Council's base case MTFP reflects reductions of 1% per annum. This is a "middle of the road" scenario aimed to allow for some protection of the NHS with cash flat settlements for the rest of the sector. Steeper funding reductions of 2% per annum are modelled in the worse case scenario, although as noted above, the financial resilience base budget offers some assurance against this risk from a planning perspective.

Specific Grant Funding

215. The Council receives a significant amount of specific revenue grant funding. The WG has committed to provide greater flexibility and to reduce the administrative burden on Local Government by transferring specific grants into RSG wherever possible. Whilst this is helpful, there is a risk that upon transfer, the overall quantum and / or the distribution mechanism of the grant will be altered. There is also a risk that specific grants may simply reduce or fall out altogether.
216. Future changes to specific grants, either by way of transfer or reduction are arguably even harder to predict than AEF levels. This uncertainty is

compounded where there are unconfirmed changes to existing arrangements such as the potential for separate grant streams to merge into one, or where complicating factors such as consortia arrangements exist. Within the Local Government settlement, information on specific grants is usually in outline form and no indicative sums are provided beyond the forthcoming financial year.

217. The Council has an existing base budget of £250,000 to deal with specific grant funding issues. There are no specific sums included in the MTFP over and above this amount. The assumption is therefore that any future specific grant reductions would be dealt with by either reviewing the grant funded activity or addressing the issue through the sums set aside within the plan for emerging financial pressures.

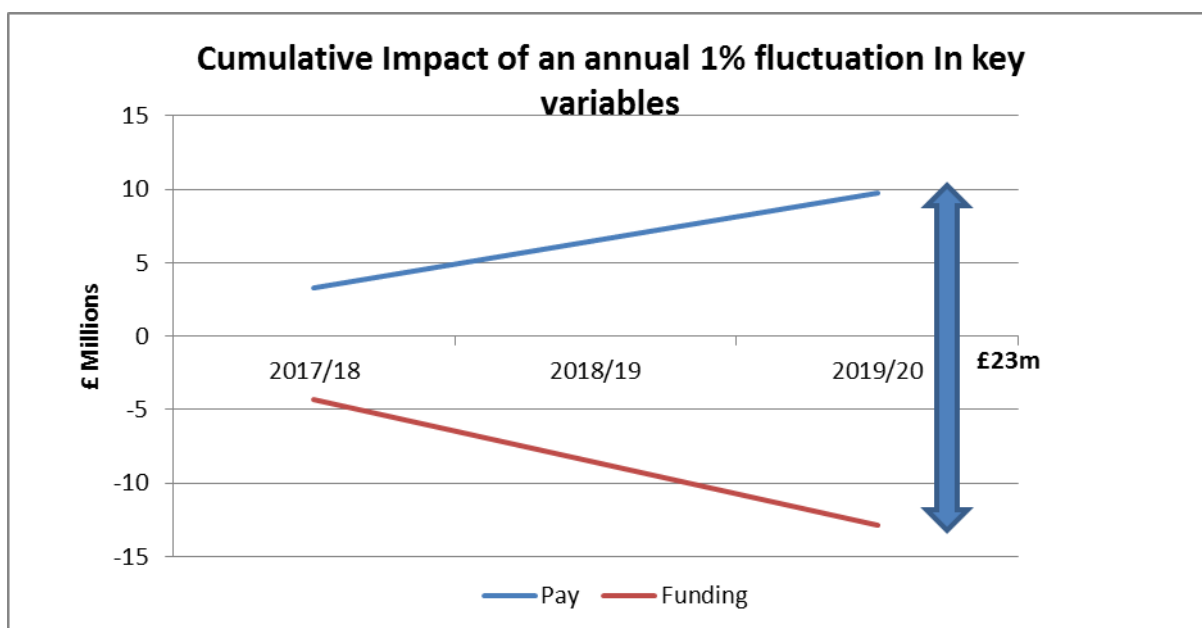

Reserves

218. General practice is to avoid over-reliance on reserves as budget funding for a number of reasons. Firstly, due to their finite nature, use of reserves to support the budget creates a resource gap which must be filled in the following year. Secondly, earmarked reserves are set aside for a specific purpose which would be compromised if routinely used for general budget funding without replenishment. Finally, the existence of reserves improves the Council's financial resilience, especially in periods of extreme financial challenge. It is also of note that whilst prudent, the level of reserves held by Cardiff City Council could be considered to be at just an adequate level for an Authority of this size; as a percentage of gross revenue expenditure, Cardiff has the lowest level of general and useable reserves across Wales.
219. There is therefore a careful balance to be struck between holding too much and too little cash in reserves. If reserves are too small, this increases the Council's exposure to risk and affects its capacity to deliver its planned priorities in a prudent fashion; too high and this funding should be used on services in times of financial pressure. It is also important to note that cash in reserves is not idle. Investment income is generated on cash balances in line with the Council's Treasury Management Strategy and as an Authority that utilises internal borrowing, cash reserves help the Council avoid the need to undertake short term borrowing and its associated costs.
220. The base case MTFP shows no annual drawdown from reserves, which are brought in as part of planning assumptions in the next section. Careful annual scrutiny is given to the lever of earmarked reserves and their planned profile of use and the specific reserves for release in connection with the plan will be identified as part of this process.

Sensitivity Analysis

221. As outlined in the sections above, it is very difficult to accurately predict future spending and funding levels three years into the future. Moreover, minor fluctuations in key variables can have a significant impact as depicted in the graph below which illustrates the cumulative cash impact

of an annual 1% fluctuation in key variables. The graph below depicts the impact of AEF decreases being 1% lower than planned and pay awards being 1% higher than planned which have a cumulative impact of £23 million over the MTFP period.

Worse Case Scenario

222. The following table reflects the potential worse case scenario. This reflects:-

- Pay awards of 2% compared to the 1% within the base case
- Annual funding reductions of 2% over the life of the plan compared to the 1% within the base case
- A less optimistic outcome of the next actuarial review
- A higher percentage of people opting to remain in the LGPS upon auto-enrolment

Worse Case Scenario	2017/18 £000	2018/19 £000	2019/20 £000	TOTAL £000
Base Case MTFP Position	24,663	22,831	25,753	73,247
Changes:				
AEF	4,263	4,220	4,136	12,619
Pay Award	3,250	3,200	3,150	9,600
Pensions Issues - actuarial	1,055	1,055	680	2,790
Revised MTFP Shortfall	33,231	31,306	33,719	98,256

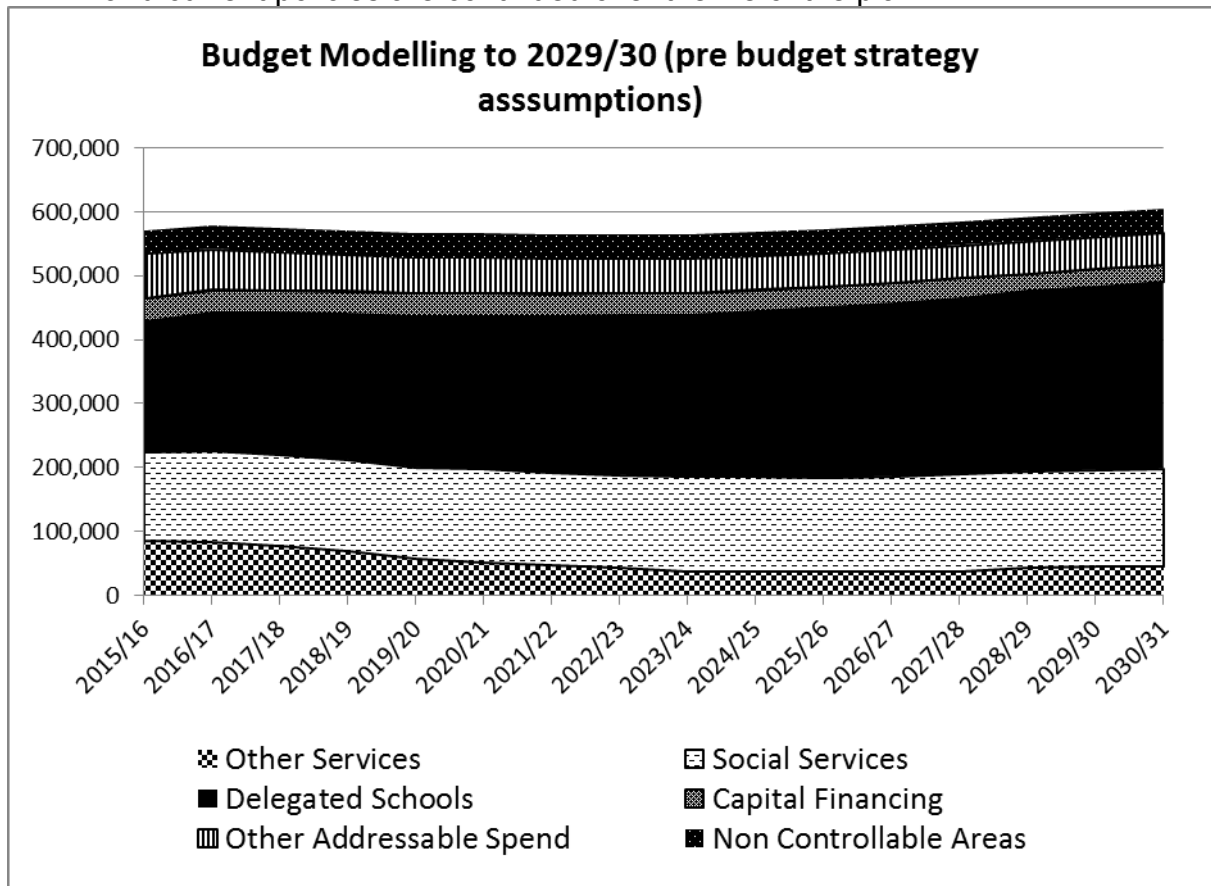

223. One key risk across the life of the plan period is pay awards. The Chancellor, in his Summer 2015 budget, stated that up until 2020 he

would make provision for pay awards of 1%. This extrapolates the general theme of restraint in respect of public sector pay over the medium term. Whilst the announcement indicates the Chancellor's intended provision for public sector pay, it not necessarily indicative of the actual awards over this period which will be determined by respective bargaining processes. For this reason, the risk of higher awards have been reflected in the worst case scenario for prudence, although could perhaps be considered unlikely.

224. The impact of potential fluctuation in AEF around the base case assumption has the biggest impact on this scenario. As noted earlier in this report, in recognition of the risks associated with the absence of multi-year funding settlements, the Council has established a financial resilience mechanism of £4 million as part of the 2016/17 budget. This allows for one-off investment in priority areas in the short term, but will also be available for immediate release in future years in the event that funding settlements are worse than covered in the base case MTFP.

Future Years Outlook

225. The chart below illustrates the likely impact on the different components of the Council's budget moving beyond the life of the existing MTFP. Clearly, for all the reasons noted earlier in this section of the Report, it is very difficult to predict this far into the future given the inherent uncertainty in key areas. The graph therefore projects the overall likely envelope of funding and analyses the resultant budget if recent trends and current policies are continued over the life of the plan.

226. The graph is before any budget strategy assumptions for example, around capping schools growth, Council tax price increases and use of reserves, are built in, all of which are given further consideration in the next section. It is also worth noting that the capital financing section assumes no further growth beyond the existing capital programme. Consequently, any new approved schemes dependent on additional borrowing will result in the capital financing section of the above graph increasing at the expense of other areas. This highlights the importance of considering the impact of a decision in one area in the context of the Council's overall budget. At times when funding levels are static or reducing, growth in one area must inevitably be at the expense of others.
227. The graph reiterates the point made throughout this section, that savings from the Council's controllable savings base, which itself includes a number of areas of statutory duty, will not be a sufficient long term antidote to the problem. As has been the case in recent budget rounds, solutions outside this will continue to form a key part of the medium term plan. It will be important to continue to set clear assumptions and policies at an early enough stage to have the most impact on the future shape of the Council's budget as the cumulative impact of decisions taken now can have a significant impact in later years. It may be that policies are considered unaffordable when viewed over an extended time-frame.

Council Response to the Medium Term Financial Plan

228. The previous section set out a further potential budget gap of £73 million over the next three years. As already noted, savings found from within the Council's controllable savings base will not be a sufficient solution to the problem in isolation. Developing the budget strategy to bridge this gap and ensuring the Council's ongoing financial resilience will require further targeting of addressable spend budgets, further review of policy around schools growth and potential future Council tax increases.
229. The table below extrapolates budget strategy assumptions across the medium term to arrive at the likely figure that will need to be found from savings over this period. These assumptions, which will be reviewed and refreshed as part of the Budget Strategy Report developed in July are:-
- A cap on schools non-demographic growth of 30%
 - A council tax increase of 3.7%, in line with the current year's increase
 - Annual draw down from reserves of £1.5 million – sum considered to strike a balance between protecting financial resilience whilst utilising available resources to mitigate front line impact.

	2017/18 £000	2018/19 £000	2019/20 £000	TOTAL £000
Budget Reduction Requirement	24,663	22,831	25,753	73,247
Cap on Schools Growth - @ 30%	1,253	1,163	1,073	3,489
Council tax at 3.7%	4,451	4,616	4,786	13,853
Use of Earmarked Reserves	1,500	1,500	1,500	4,500
Residual Gap	17,459	15,552	18,394	51,405
Addressable Spend Target	3,000	3,000	3,000	9,000
Residual Sum from Directorate Savings	14,459	12,552	15,394	42,405

230. The above table includes addressable spend targets of £3 million per annum which are in line with the current year. Work to shape these targets will continue in 2016/17 but will involve further investigation of opportunities in relation to divestment of the Council's property portfolio resulting in premises savings, further review of energy budgets to maximise efficiencies and review of capital aspirations over the medium term.

231. As part of the development of the 2016/17 Budget Strategy, the Council undertook a review of base budgets which took into consideration statutory minimum levels of service, the Council's Reshaping Services Programme and Target Operating Model. This work set the direction of travel for achieving the level of savings anticipated over the medium term. The savings identified as part of this exercise are set out in Appendix 17b on a thematic basis. The themes used are described in further detail below:-

Being a commercially minded Council – this theme considers how we can make better use of our assets and how to offer our services to the public, third sector, or private sector organisations. Examples include opportunities in respect of income generation, new operating models and alternative delivery arrangements, reshaping services and commissioning and procurement opportunities in respect of third party spend.

Ensuring Public Services are Accessible – this area considers the accessibility of public services, where appropriate moving from buildings based services to those which provide outreach staff or mobile services. Through the One-Council approach making contact with the Council will be through the provision of seamless and consistent customer services encouraging people who are able to use digital services.

Greater alignment of our services – this area considers how the public and third sector organisations must work more closely. The opportunity identified is to join up services and consider the sharing of assets and the use of multi-agency teams whilst also recognising that these same

challenges apply to services delivered within the Council. It also covers the need to realign services downwards in non-front line areas, through business process efficiencies and reductions to more closely reflect available resources.

Targeting services and early intervention – the challenge within this theme is in relation to targeting services that are focused on the need to support the most vulnerable and disadvantaged in society to achieve better outcomes for residents and communities.

232. The following table below summarises the opportunities identified within Appendix 17b:-

	2017/18 £000	2018/19 £000	2019/20 £000	TOTAL £000
Residual Sum Required from Savings	14,459	12,552	15,394	42,405
Being a Commercially Minded Council	7,787	7,472	9,388	24,647
Ensuring Public Services are Accessible	583	645	810	2,038
Greater Alignment of Our Services	3,296	3,198	4,018	10,512
Targeting Services and Early Intervention	2,793	1,237	1,178	5,208
Total	14,459	12,552	15,394	42,405
Residual Shortfall	0	0	0	0

233. The planning status of the individual proposals that sit behind the identified opportunities will be further developed as part of detailed Budget Strategy work for 2017/18 and beyond and further due diligence work will be undertaken. In addition, in re-commencing budget strategy work following approval of the 2016/17 budget, the Council will roll forward its budget strategy work one year into 2019/20 and develop detailed proposals. The figures included for 2019/20 above set a direction based on incidence of savings across themes in the earlier years of the plan and in line with the Council's target operating model.

234. The Financial Standing, Risk and Financial Resilience section has already set out the challenges of finding significant savings over a protracted time frame, and the increasing importance of both considering and responding to the matters in respect of the Council's financial resilience. Work on financial resilience will continue over the medium term including regular review and reporting of the financial resilience snapshot at appropriate intervals, development of benchmarking activities and exploring opportunities for financial stress testing of the MTFP to gain a developed understanding of areas to target additional assurance work in future.

City Deal

235. The *Cardiff Capital Region City Deal Update* report taken to Cabinet on the 10th December 2015 identified the next steps of an outline schedule for the development of the City Deal as:

- **Spring** – Chancellor's Budget and agreement of City Deal Document

- **April – June** – Development of economic model (with WG), project prioritisation and development of programme
- **June – August** – Programme optimisation, and agreement of funding and financing details between CCR partners and UK and Welsh Governments
- **Late summer** – Finalisation of programme financial, governance and delivery arrangements

236. This timescale identifies a critical point in the development of the City Deal as the initial signing of a high level agreement in Spring 2016 ('The City Deal Document'). This document will take the form of a 'Heads of Terms' that outlines the proposed structure of the City Deal in terms of governance, scale of funding and areas of intervention. The City Deal Document will provide the basis for more detailed work in developing a final programme of investment and detailed governance arrangements. The document is currently being developed by the UK Government in consultation with Cardiff Capital Region partners and the Welsh Government. In the event that the City Deal Document is agreed, it will commit the participating authorities to exploring ways of delivering the City Deal principles and strategic objectives.

237. Discussions have outlined that the City Deal Document will include proposals for the establishment of an Infrastructure Investment Fund of up to £1.28 billion for the Cardiff Capital Region, including a capital contribution of circa £120 million from participating local authorities. It will also include proposals to establish a Joint Committee (to be known as a Joint Cabinet) formed of the Leaders of the participating local authorities to oversee the delivering of the Infrastructure Investment Fund. The City Deal will also explore proposals for regional working, including pooling appropriate resources in areas of planning, transport and economic development, the retention of elements of growth of business rates within the region and the establishment of a Regional Skills and Employment Board. Due to UK Government timescales it is possible that the City Deal Document will need to be signed on the basis that it would require approval from all participating authorities. On this scenario the Council would need to consider the Document during the March cycle of meetings.

238. In signing the City Deal Document the Council would commit to work with the other nine local authorities, Welsh and UK governments to finalise all elements of the proposed City Deal. This includes detailed consideration of the governance structure, financial contributions, a robust assurance framework for project identification and the overall agreement of the infrastructure investment programme. There will also need to be agreement on how the local contribution to the Fund will be allocated as between the ten authorities. Consideration of these further details will be brought to Council in due course. Based on experience from other City Deals it is expected that it will take between 6 and 18 months for the full programme to be agreed and the detailed legal agreements to be finalised.

239. In developing the overall City Deal governance and investment programme it is also anticipated that a dedicated team will be put in place. It is proposed that local authorities make a contribution to the costs of putting this team in place.

Housing Revenue Account and Rent Setting 2016/17

240. The Housing Revenue Account (HRA) is a ring-fenced account which records income and expenditure in relation to council housing. The Local Government and Housing Act 1989 places a statutory duty on local authorities to maintain a separate account for the costs associated with the management and maintenance of Council dwellings. The ring fencing of the account means that local authorities may not subsidise any costs relating to council housing from the General Fund (i.e. from Council Tax or from the RSG).
241. The main expenditure items within the account include maintenance and repair costs, management costs (including rent collection, housing allocations, property and estate management) and capital financing charges on the HRA's outstanding loan debt.
242. The major income streams include Council house rents and income from service charges.
243. During 2015/16, the Council made a £187 million settlement payment to WG to exit the former Housing Revenue Account Subsidy System. As has previously been reported, this meant that the HRA was no longer required to pay a net subsidy payment to WG, but this was replaced with the costs of servicing and repayment of borrowing in relation to the settlement payment. The net impact of this is an estimated £3.4 million annual revenue benefit which is assumed to be retained on an annual basis for re-investment in enhancing the condition of existing housing stock and development of new stock.
244. The new Social Housing Rent policy was introduced for Local Authorities in April 2015. This sets an annual Target Rent Band for each landlord, which is based on a range of low end, mid point and high end rents. While the responsibility for setting rents for individual dwellings rests with specific landlords, they are required to operate within average weekly rent levels that fall within the Target Rent Band. WG set a recommended rent increase each year and Councils are also allowed some flexibility to raise additional income to improve services, invest in improvements to existing homes and neighbourhoods and in building new properties.
245. It is proposed that from 4 April 2016, rents for the majority of tenants will increase in Cardiff by 1.4% plus £2 per week. This is in line with the WG guidelines which protect individual tenants from large annual increases. As a result of this change the average rent for a council home will increase by £3.10 per week, exclusive of service charges.
246. Consultation about the proposed increase in Council rents took place between 11 January 2015 and 29 January 2016. Consultation forms

were sent to all Recognised Tenants and Residents Associations, Reading Group, Service Improvement Group and to 2,500 randomly selected individual tenants. In total 3,020 forms were sent out. The consultation was also advertised on the Cardiff Tenants website and discussed at the Tenants Voice meeting on 19th January 2016.

247. 350 responses were received (341 postal responses and 9 via the website) of which 45 were negative about the increase (13%). The main issues raised were around affordability and cost of living. This was a particular issue for those tenants who have to contribute to the rent such as those in low paid work and those affected by Welfare Reform changes. It should be noted however that Council rents are good value as rents charged by private landlords are circa 50% higher.
248. Tenants were also asked how they would like the Council to use their rent payments. 254 (73%) of respondents said the money should be spent on improving existing stock, 197 respondents (56%) said that the money should be spent on improving housing services and 193 (55%) said the money should be spent on new build Council Housing. Respondents were able to vote on multiple priorities.
249. It is planned that additional revenue generated through the rent increase will be invested in a number of areas. These include the Housing Partnership Programme which aims to deliver 1,500 new homes over the project life with at least 600 Council rented and low cost home ownership.
250. In addition, planned investment includes major estate regeneration works, expansion of the Community Hub programme, modernisation and large scale capital improvement works.
251. Other factors which make up the HRA budget proposal include the following main items:
- Provision is made for a 1% pay award, increases due to changes in Employers National Insurance contributions and employee increments.
 - An £18 million budget has been set for Council Housing Repairs in 2016/17. This increased budget reflects the estimated requirements for both planned and responsive maintenance. Increases are due to a number of factors, including a higher volume of repairs and a reassessment of the classification of repairs between capital and revenue. This latter point has resulted in a realignment of budget between housing repairs and the direct revenue financing provision within capital financing.
 - The direct revenue financing budget for capital expenditure assumes a contribution of £5.4 million in 2016/17.
 - Provision is made for the anticipated impact of Welfare Reform under the Universal Credit scheme on rent income levels, additional costs of collection and recovery, an increase in bad debts provision and the potential impact on void allowances.
 - Anticipated revenue costs relating to the Housing Partnership Project.

- The HRA's fair contribution to the planned corporate and other initiatives where HRA activities are involved.
252. The detailed proposals for changes to the HRA charges which can be found in Appendix 11(b) are summarised as:
- Service charges that normally increase in line with inflation have been frozen this year.
 - A small number of charges have been increased to allow for full cost recovery.
 - Some charges where cost recovery is being achieved have been maintained at their current level.
 - Some charges have decreased in line with reduced cost.
253. For future years 2017/18 to 2019/20, the budget proposals are in line with the HRA Business Plan which will be reported to Cabinet in March 2016 and make provision for the following:
- Pay awards and employee increments at assumed levels.
 - General inflation increases for non employee budgets.
 - Rent increases in line with the new national rent policy guidelines.
 - Capital financing requirements in line with the proposed HRA Capital Programme.
 - Contributions to HRA balances to meet future investment in the housing stock and other planned initiatives.
254. The proposed HRA budget for the financial years 2016/17 to 2019/20 is shown in Appendix 18.

School Organisation Plan and 21st Century Schools Initiative

255. The SOP relates to the significant Programme of capital investment which aims to reorganise school places in Cardiff thereby using resources more effectively and ensuring that schools are fit for purpose.
256. As part of the 21st Century Schools programme the Council submitted a revised Band A funding bid to the WG in March 2015. An indicative Capital Investment Programme of £164.1 million received in-principle approval, subject to the successful submission of individual detailed project business cases.
257. The 21st Century Schools Programme forms part of the overarching SOP financial model. The SOP is designed to be self-funding and the projects to be undertaken are included in the Council's Capital Programme.
258. The SOP Financial Model brings together Council and WG supported 21st Century Schools Band A projects. The Model includes a projection for both capital expenditure and capital funding over the life of the plan, and subject to the submission of business case documents to WG, can be summarised as follows:

School Organisation Plan (2011/12 to 2019/20)	Funding £m	Expenditure £m
Capital Programme		226.2
Capital Receipts	35.3	
Capital Grants	101.5	
Section 106 Contributions	0.9	
Capital Programme Allocations	14.7	
Welsh Government LGBl	17.3	
Additional Borrowing	56.5	
Total	226.2	226.2

259. The capital investment programme within the model during the period 2011/12 to 2019/20 (the life of the 21st Century Schools Programme) totals £226.2 million. Within this, the 21st Century Schools expenditure is £164.1 million.
260. Schemes are first included on the basis of Initial Development Appraisals (IDAs) and/or current market intelligence adjusted for construction cost inflation over the life of the model. An additional contingency sum of 10% is added, which is decreased as proposals progress and costs become more certain. The expenditure projections are regularly monitored and updated, along with the project funding sources, to identify changes in either the value or timing of expenditure.
261. Of the £164.1 million 21st Century Schools programme, 50% (£82.1 million) will be grant funded by the WG. This includes £64.8 million of capital grant. WG will additionally provide revenue grant over 32 years, to support capital borrowing for the remaining £17.3 million. The £64.8 million capital element is included within the £101.5 million grant figure above. The Council's match funding element is included within the other resources listed.
262. The WG has extended the LGBl to support the 21st Century Schools Programme. This initiative, which started in 2014/15, will accelerate the WG's share of investment in the programme by providing councils with a revenue stream to support the capital charges associated with additional borrowing. This will not alter the funding share of WG. The objective of this initiative is to complete delivery of Band A of the programme by 2018/19.
263. Where proposals include the disposal of school land, the capital receipt is reinvested into the SOP. The model relies upon £35.3 million of capital receipts, including those already received. Funding is also secured as capital grants from the WG, with a total of £36.7 million (excluding 21st Century Schools) in the form of scheme specific grants such as Tranche 3 transitional grant from the WG, which bridges the gap between the previous Schools Building Improvement Grant regime, and the start of 21st Century funding. The Tranche 3 grant approval was £35.6 million, which supported the new build St Teilos High School and some associated schemes in the East of Cardiff.

264. Funding has also been allocated from the Council's own Capital Programme and Section 106 Contributions where available. The balance of funding is provided by Council borrowing of £56.5 million, over and above the WG supported LGBTI borrowing. The capital charges arising from the Council borrowing are funded from revenue release savings which include savings from facilities management budgets as well as efficiency savings and historical adjustments to delegated schools budgets.
265. Band A 21st Century Schools funding will finish in 2018/19. Band B is anticipated to begin in 2019/20, however the scope and funding arrangements for Band B are not yet finalised. It is likely that the scope will be significant and will require the Council to commit material sums over the period 2019/20 – 2023/24 albeit they are yet to be determined.
266. The SOP also includes significant revenue expenditure. For the period 2014/15-2019/20 this totals £18.1 million and is in connection with organisational restructure costs attached to the proposals. These include project management costs, additional costs incurred by schools which are closing or are in transition, and pump priming for the establishment of new educational provision. The risks around organisational restructure costs increasing should be noted and officers regularly review the potential financial implications attached to the proposals.
267. The overall Financial Model represents a significant financial exposure for the Council and the following capital and revenue key risks have been identified and are continually reviewed:
- Changing scope of works as schemes progress through feasibility studies and design.
 - The management of cost over-runs and fluctuating construction cost inflation which may lead to expenditure exceeding contingency levels.
 - Potential for underachievement of capital receipts within the current climate, failure to obtain planning consent or changes in Council policy in respect of land sales.
 - Potential for the WG funding levels to be reduced or changed.
 - The potential for revenue costs of closing schools and opening others to be higher than estimated.
 - The potential for the underachievement of revenue savings.
268. A further challenge for the Consolidated Financial Model is the cash flow impact of the timing of both capital and revenue expenditure and income. An earmarked reserve has been established for the SOP, and the movements on this reserve is shown in Appendix 19. This reserve is used to manage these cash flow implications and the risks as identified above. At present the balance on the reserve is judged to be sufficient in the context of the overall size of the SOP programme, however careful monitoring will be required over the period.

269. Where amendments are made to capital expenditure for re-profiling of cashflows, and increases are within the level of contingency and inflation for the scheme then these would be actioned and reported through the regular capital monitoring reporting process. However, where amendments over and above the allocated levels of scheme-specific contingency are necessary, the Directorate would seek approval in accordance with the Council's Financial and Contract Procedure Rules.
270. A Programme Panel has considered significant matters arising in relation to the SOP / 21st Century Schools Programme, providing robust advice to and governance of the Programme including relevant approval of variations and business cases.
271. A comprehensive SOP revenue budget for 2016/17, to be funded from the SOP reserve, has been produced and will be submitted for approval by the Programme Panel in February 2016. A summary table of the revenue budget is shown below:

SOP Revenue Budget 2016/17	£000
Project Team Costs	1,439
Specific Scheme Costs	772
Pump-Priming of newly established schools	420
Ongoing Commitments	795
Contingency	250
Total	3,676

272. The SOP Operational Manager will have delegated authority to vire between these budgets in line with the scheme of delegations with the only exception being the contingency provision which will be managed by the Programme Panel.
273. Any overspend against the overall revenue budget will need to be reported to the Programme Panel and consideration given to any remedial action required. Material overspends will be included in the Council's budget monitoring reports.

Civil Parking Enforcement

274. Cardiff was designated as a 'Civil Enforcement Area' on 5 July 2010 and, since that date, has undertaken responsibility for enforcing a range of parking contraventions. In addition, new legislation has been made available to local authorities in Wales under the Civil Enforcement of Road Traffic Contraventions (General Provisions) (Wales) Regulations 2013 which allows for the enforcement of bus lanes and certain other moving traffic conventions. In 2014 Cardiff applied to the WG to acquire these additional powers to complement the existing parking enforcement powers and to provide a greater resource to address traffic congestion. Following WG approval for the transfer of related legal powers to the Council, the Moving Traffic Offences (MTO) initiative commenced in Cardiff on 1 December 2014.

275. The advantage to the Council of operating enforcement powers is that it has been given direct day-to-day control of the deployment of enforcement staff across the highway network thus allowing targeted enforcement in support of transportation strategies and more effective responses to local needs.
276. Civil Parking Enforcement is a ring-fenced account. The income generated from car parking fees, resident's permits, penalty charge notices and moving traffic offences is used to fund the associated operational costs including the cost of the enforcement service. Any surplus or deficit will be transferred to the Parking Reserve and can only be used for specific purposes such as supporting transportation services, parking and highway and environmental services in accordance with section 55 of the Road Traffic Regulations Act 1984.
277. The anticipated operating surplus for 2015/16 is £4.933 million. When this and the eligible expenditure for the current year are applied to the brought forward figure the balance in the Parking Reserve at 31 March 2016 is estimated to be £255,000.
278. For 2016/17 income from car parking fees, residents' permits, penalty charge notices and moving traffic offences is forecast to be £11.430 million. This represents an increase of £1.395 million compared to the forecast position for 2015/16 mainly due to anticipated increases from moving traffic offences.
279. Operating costs include staffing and other costs of enforcement services, administration, traffic regulation orders, maintenance of parking for both on and off street parking and disabled bays. It also includes capital financing costs in respect of repayments in relation to the additional investment in bus lane and junction enforcement and parking meter replacement as set out in the Capital Programme. Overall, expenditure in the Civil Parking Enforcement Account in 2016/17 is estimated to be £5.731 million, leaving a net surplus of £5.699 million.
280. In respect of moving traffic offences, income is anticipated to increase to £3.668 million in 2016/17 with further increases in future years based on an assumption of a continuous expansion of the network. Operating costs are estimated to be £1.266 million in 2016/17.
281. Eligible expenditure commitments supporting overall highway, transportation and environmental improvements total £5.116 million in 2016/17. This includes £370,000 relating to savings proposals within the City Operations Directorate which reflect the impact of the proposals to increase income from moving traffic offences and reduces the need for further reductions to the budgets of eligible expenditure. A direct revenue contribution to capital of £150,000 is also reflected as a commitment in 2016/17. This is in relation to the funding of the Waungron Road bus interchange as set out in the Capital Programme. It is estimated that the balance in the reserve at 31 March 2017 will be £688,000.
282. On the basis of known levels of operating expenditure, other commitments and anticipated increases in income, the future balance in the reserve is estimated at £1.402 million by the end of March 2018, £2.113 million by the end of March

2019 and £2.803 million by the end of March 2020. A summary of the overall position on the Civil Parking Enforcement Account including the anticipated balances on the reserve is set out in Appendix 20 to this report. No assumptions have been made in this budget regarding the future use of reserve balances however the anticipated surpluses provide significant scope for future investment in line with the LDP and Parking Strategy to assist in delivering improvements and key transport schemes in the City. Use of the reserve for investment in initiatives will be reported as part of the Council's regular monitoring arrangements.

Joint Committees and Relevant Bodies

283. Cardiff is currently the lead Authority for Glamorgan Archives and Prosiect Gwyrdd; it is also a member of the Central South Consortium Joint Education Service and the Shared Regulatory Service. In addition the Council has to meet a number of levies and contributions. The Budget as set out in Appendix 3 includes the following budgeted revenue contributions from the Council in respect of these committees and bodies:

Joint Committees and relevant Body	2015/16 Revenue Contribution £	2016/17 Revenue Contribution £
Joint Committee		
Glamorgan Archives	218,141	211,520
Prosiect Gwyrdd	58,800	37,000
CSC Joint Education Service	1,534,379	1,507,110
Shared Regulatory Service	3,579,000	3,023,000
Joint Body		
South Wales Fire & Rescue Service	16,507,721	16,775,747
Natural Resources Wales	140,688	136,467
Cardiff Port Health Authority	143,629	114,904
Newport Port Health Authority	4,681	4,681

284. The figures shown for 2016/17 are subject to confirmation by the respective Joint Committees.

Activities inherited from Cardiff Bay Development Corporation including Harbour Authority

285. The Council agreed to take on the role of the Cardiff Harbour Authority in April 2000 following the winding up of Cardiff Bay Development Corporation (CBDC). The functions and responsibilities of the Harbour Authority are detailed in the Agreement made between the Council and CBDC (now the WG) under Section 165 of the Local Government Planning and Land Act 1980. The funding required to discharge these obligations is provided by a specific grant received from the WG. This funding and any income generated are ring fenced.

286. The arrangement has been subject to a number of negotiated changes over the past 15 years; the latest variation was signed on 3 April 2014 and included a three year fixed cost and asset renewal budget for April 2014 to March 2017. The revisions ensured that a sufficient funding level was made available to the Harbour Authority to meet the liabilities under the agreement and any additional duties relating to the Cardiff Bay Barrage Act 1993. Discussions are taking place with WG regarding the 2016/17 budget, however at this stage no further changes have been agreed.
287. Following a critical examination of the future resource requirements a fixed cost and asset renewal budget was agreed with the WG as part of the current three year agreement. This identified a total funding requirement for 2016/17 of £6.146 million.

Harbour Authority Funding Requirement 2014-15 to 2016-17

	2014/15	2015/16	2016/17
	£000	£000	£000
Expenditure	6,765	6,680	6,600
Income	(700)	(750)	(800)
Fixed Cost Budget	6,065	5,930	5,800
Asset Renewal	332	323	346
Total Budget	6,397	6,253	6,146

288. The revised fixed cost budget for 2016/17 is a reduction of £130,000 in addition to the £1.170 million applied in the previous two years. This has increased the level of financial risk to the Council as any unforeseen costs have to be absorbed within the agreed fixed cost budget unless there are qualifications within the agreement.
289. This reduction will be achieved by increasing the income target by £50,000 to £800,000. Income generation has steadily increased over the years mainly from car park fees and water activities and it is anticipated this will continue. A further reduction of £50,000 will be achieved by reducing the subsidy to cover staff costs at the Cardiff International White Water Centre. This will be achievable mainly through the increased income sources at this centre. The remaining savings will be made from reducing various operational budgets through improved efficiency.
290. With the overall reduction in budgets the ability for the Council to fund large unforeseen operational costs is reduced and therefore a cap of £100,000 has been set for the Council's risk on unforeseen barrage maintenance. Whilst the Council does have the ability to switch its fixed cost budgets to manage individual pressures it has been agreed to maintain this sum as a minimum retention figure for unforeseen additional costs within the project and contingency fund. The scale of the budget reductions limits the scope for increasing the contingency sum and therefore it has also been agreed that any capital receipts for land disposals are fully retained for new initiatives.

291. The Asset Renewal budget of £346,000 includes provision for the renewal and replacement of a range of items across all activities and functions. This includes various renewals on the Barrage and replacement of groundwater and environmental equipment, including vessels. In addition there is provision for the renewal of seating, litter bins and decking timber in the Inner Harbour and the replacement of equipment at the Cardiff Bay Water Activity Centre.
292. The estimated balance in the Project and Contingency Fund at 31 March 2016 is £707,000. A contribution of £400,000 has been committed to the hosting costs of the Volvo Round the World Yacht Race in 2018. It is therefore necessary to secure savings to generate fund balances to meet this commitment and maintain a realistic operating contingency. The option to retain capital receipts received from the disposal of land should enable this to be managed.

Capital

293. The Capital Programme for the period 2016/17 to 2020/21 has been prepared following consideration of the demands on capital expenditure as well as resources for capital investment.
294. The Prudential Code for Capital Finance in Local Authorities includes Capital and Treasury Management indicators to be considered by the Council when approving capital expenditure plans and borrowing limits to ensure they are affordable, prudent and sustainable. Capital indicators are set out in this section of the report and treasury indicators and limits are included as part of the Treasury Strategy, also in this report.
295. The Council is over a period of time increasing the amount it needs to borrow and this will have a consequential increase on the capital financing budget within the revenue account. The impact of these increases is recognised in the Council's MTFP. The local capital financing prudential indicator shown later in this report highlights that the proportion of the Council's General Fund revenue budget that it spends on capital financing over the medium term is increasing as WG funding levels fall.
296. It is accepted that the Council needs to borrow to both meet the objectives of the Corporate Plan and invest in schemes that allow the Council to make savings. There are other initiatives such as the Cardiff Capital Region City Deal being developed which, when progressed will have significant capital expenditure implications. Careful consideration will need to be given to the affordability of additional borrowing, the amount of income receivable to support any borrowing over the period of the deal and risk implications on the Council's Treasury Management Strategy. No figures are assumed in the Capital and Treasury Management sections in relation to this initiative at this stage.
297. However in the medium term the Council must decide, following consideration of advice from the Section 151 Officer the threshold of Council borrowing. As the Council realigns itself strategically to lower

funding levels it will need to consider the level of debt and wherever possible seek to divest itself of assets to reduce debt levels and to meet the costs of expenditure.

Capital Expenditure Pressures

298. The level of support provided by the WG is barely sufficient to meet current annual capital expenditure commitments. Continued expenditure above this level using additional borrowing is not sustainable in the long term and will require directorates to continue to secure better value, better outcomes and only undertake priority schemes.

299. Expenditure pressures include:

- ensuring a sustainable property asset base and that property is fit to deliver service improvements, by addressing the maintenance backlog, disabled access and health and safety requirements.
- meeting the aspirations of directorates to invest in existing assets or create new capital assets in order to improve service delivery and meet pressures of increasing demand.
- the need to maintain the highway and associated infrastructure such as roads, traffic signals, bridges, street lighting and address the backlog of repairs to avoid higher costs in future.
- to continue annual commitments and meet mandatory investment in services such as disabled adaptations, whilst WG General Capital Funding has been reduced.
- meeting the economic development, regeneration, employment and capital city aspirations of Cardiff and the region.
- CCR City Deal and other major regeneration projects being developed.
- requirement for capital investment to meet savings targets, to generate income, to reshape the way services are delivered and to meet the costs of organisational development.
- meeting expenditure commitments from capital schemes approved in previous years.
- implementing the Council's 21st Century Schools Programme.
- meeting expenditure commitments pending the generation of capital receipts.
- sustaining Public Housing Welsh Quality Standards and investment in creation of new Council housing as part of the Housing Partnering Scheme.

300. Set against the demand for these capital resources and the current economic climate, tough choices are required, which may include determining that a greater share of the Council's revenue budget will need to be set aside to meet capital investment.

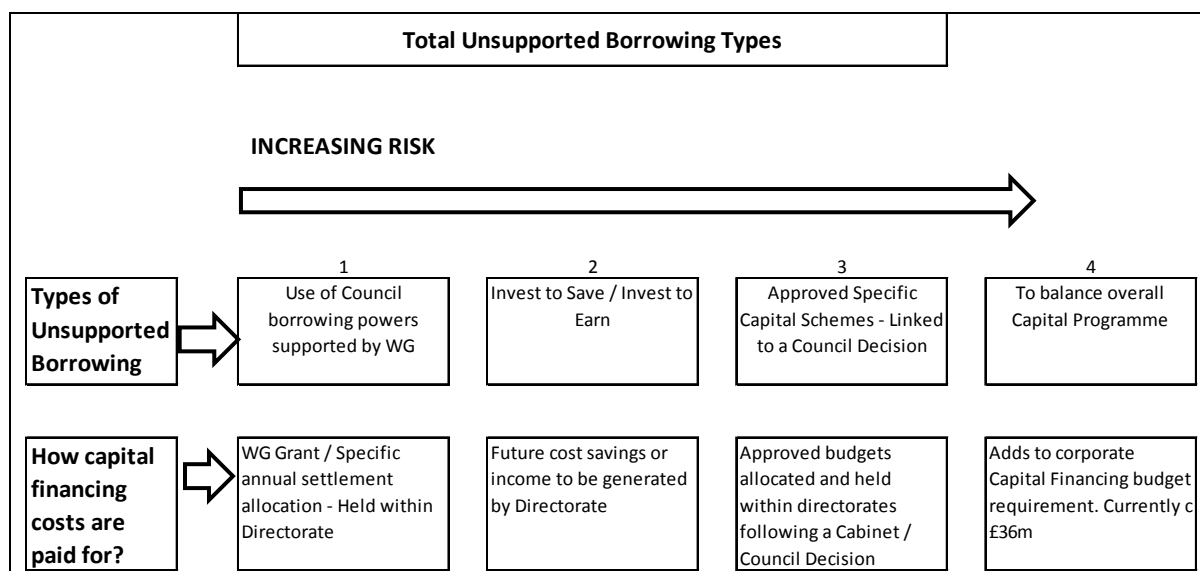

Borrowing for the Capital Programme and Financial Resilience

301. Where capital expenditure has been incurred without a resource to pay for it immediately e.g. via capital receipts, grants or other contributions, this will increase what is termed the Council's Capital Financing Requirement (CFR) or its need to undertake borrowing. The Council is required to make an annual prudent provision for the repayment of historic capital expenditure from its revenue budget. This reduces the CFR. Calculation of the CFR is summarised in the following table.

	Opening Capital Financing Requirement (CFR)
+	Capital expenditure incurred in year
-	Grants, contributions, reserves and receipts received to pay for capital expenditure
-	Prudent Minimum Revenue Provision & Voluntary Repayment
=	Closing Capital Financing Requirement (CFR)

302. There are two main types of additional borrowing to pay for capital expenditure:-

- 'Supported Borrowing' - costs of servicing are included within the annual RSG the Council receives from the WG.
- 'Unsupported Borrowing' – costs of servicing to be met by the Council from Council tax, savings, additional income or sale of assets. The types of unsupported borrowing typically undertaken by the Council and how capital financing costs are paid for are shown in the following diagram.

303. It is the CFR that results in the need to borrow and it is important to note that any financial deficit and liabilities of the HRA are ultimately liabilities of the Council.

304. Also in order to comply with the guidance on landfill aftercare provision, the CFR is amended to include estimates of future expenditure

obligations over a 60 year period, included in a financial provision, the creation of which has been capitalised.

305. The actual CFR as at 31 March 2015 and estimates for current and future years are shown in the following table. The increase in the HRA during 2015/16 relates primarily to the Housing Finance Settlement to exit the subsidy system. The timing of capital expenditure, timing of capital receipts and new schemes that may be considered for approval in future years are risks to the CFR forecast and although it can be seen that the Council's underlying need to borrow is increasing. This will eventually need to be paid for by revenue savings, revenue income or Council Tax and Housing Rents:

Capital Financing Requirement as at 31 March					
	2015 Actual £m	2016 Estimate £m	2017 Estimate £m	2018 Estimate £m	2019 Estimate £m
General Fund	400	438	459	454	455
HRA	95	277	279	296	302
Sub Total	495	715	738	750	757
Landfill – (Provision)	26	25	23	22	21
Overall CFR	521	740	761	772	778

306. Summarising the above, it can be seen that the Council is undertaking additional borrowing which will eventually need to be paid for by setting aside more of the Council's revenue budget, or increasing income from external sources. This is as a result of:

- implementing new schemes and allocations and continuing with commitments included in the budget.
- undertaking invest to save schemes on the assumption that the borrowing will be repaid from future revenue savings or revenue income.
- use of Council borrowing powers by WG as part of their contribution towards 21st Century Schools Programme.
- further schemes are in the pipeline including housing development as well as the provision of interest free loans or repayable grants using WG Financial Flexibility funding available for a range of schemes. Whilst welcome as there is linkage between strategic aims of the Council, these schemes use local authority borrowing powers and therefore present an ongoing risk in terms of increasing the Council's capital expenditure which needs to be paid back.

307. This clearly limits the scope for additional borrowing in future years and is a factor considered by Members when determining the current and future Capital Programme along with:-

- The Prudential Indicators highlight the longer term impact of capital decisions on the revenue budget and affordability, prudence and sustainability.

- Consideration of potential initiatives not currently included in the Capital Programme.
- Control mechanisms for different types of unsupported borrowing before approval.
- Determining core areas of long term investment e.g. maximum exposure limits to unsupported borrowing for discretionary services.
- Whether the inherent risks in a project are better managed via commercial options rather than direct Council investment.

Capital Programme 2016/17 – 2020/21

308. The inclusion of schemes in the Capital Programme has been profiled in accordance with technical advice relating to regulatory processes, timetables and work plans. However, with such an extensive Programme there remains a residual risk that expenditure may slip between years. Whilst acknowledging that some slippage cannot be avoided, directorates are reminded of the importance of:

- Minimising slippage wherever possible.
- Their responsibilities to ensure that they have sufficient and capable resources to develop and deliver capital schemes.
- Notifying the Financial Service of slippage at an early stage.
- Having sufficient and capable contract management processes and procedures in place.

309. The proposed Capital Programme for 2016/17 and indicative Programme for 2017/18 to 2020/21 is summarised in the following table and detailed in Appendix 21.

Capital Programme	2016/17* £000	2017/18 Estimate £000	2018/19 Estimate £000	2019/20 Estimate £000	2020/21 Estimate £000	Total £000
Annual Sums Expenditure	14,389	13,505	13,255	13,505	13,505	68,159
Ongoing schemes	20,921	47,517	13,010	837	750	83,035
New Capital Schemes	5,242	2,677	2,500	2,500	2,000	14,919
Schemes Funded by External Grants and Contributions	27,241	31,158	2,575	350	350	61,674
Invest to Save Schemes	21,131	18,930	17,240	5,700	500	63,501
Total General Fund	88,924	113,787	48,580	22,892	17,105	291,288
Total Public Housing (HRA)	25,405	28,250	27,350	21,050	21,100	123,155
Total Capital Programme	114,329	142,037	75,930	43,942	38,205	414,443

* Includes slippage estimated at Month 9. The final slippage figure which will be known at outturn will be updated and reflected in the Month 4 2016/17 budget monitoring report.

310. It is essential that the achievement of key outcomes are managed within the estimates initially provided, with any variations approved and managed in accordance with the Council's Constitution. The five year programme includes:-

311. Provision for Existing Annual Sums including:

- Investment of £14.7 million in highway infrastructure including investment in carriageways/footways, improving the condition of structures such as bridges following principal inspections and replacement/installation of street lighting columns. A Highway Infrastructure Asset Management Plan is to be updated during the course of the year to identify longer term performance measures for the condition of such assets and options to address improvement in condition.
- Traffic management, junction, pedestrian and cycling improvements of £6.9 million aimed at addressing strategic pressures and utilising available funds to secure external grant matchfunding.
- Investment of over £22.6 million on Disabled Adaptations Grants, maintaining the significant investment that the Council has previously undertaken. This is made up of General Fund (£13.6 million) and Public Housing (£9.0 million) expenditure.
- A contribution towards owner occupier costs of housing regeneration schemes of £1.4 million to help secure wider regeneration where works are carried out to public housing estates. Environmental, security and sustainability improvements to neighbourhoods of £3.2 million, with schemes involving public realm, regeneration of community shopping centres and alleygating. It is essential that materials used in such schemes allow more to be done with limited resources and are sustainable in terms of the Council's ability to maintain improvements made.
- Investment of £21 million to improve the condition of Council buildings, including schools.

312. Provision for previously approved schemes including:

- The upgrade of Lamby Way Household Waste Recycling Centre costing £1.4 million to allow closure of the Wedal Road site.
- Completion of both the STAR Hub and Eastern Leisure Centre refurbishment at a cost of £3.5 million. Existing commitment towards hubs of £5.1 million which includes a proposal for a phase 2 extension of St Mellons Hub, subject to ensuring a level of capital receipts towards costs.
- Public realm delivery strategy for Central Square, £8.6 million, to be paid for by capital receipts and planning obligations.
- Estimated costs towards delivery of the new Central Transport Interchange and developments at Central Square costing £20 million. The intention has always been to identify a funding approach which maximises recovery of capital receipts and consideration will also be given to making applications for WG public transport funding to enable the integration between the new interchange and the train station.
- Advanced preparation works and contribution towards the development of commercial shop units at Maelfa Centre in Llanedeyrn costing £1.4 million.
- The Council's contribution and capital receipt assumptions towards the 21st Century Schools financial model of £28.2 million. There are

significant assumptions made about capital receipts in relation to potentially surplus school sites, subject to the outcome of consultation. Whilst some are the subject of appropriation to Housing, they do represent an enhanced risk to the Council's need to borrow and the affordability of the financial model.

- Maintaining the existing £2.5 million allocation towards schools suitability and sufficiency requirements in relation to buildings not part of the current 21st Century Schools programme.
- Completion of disabled adaptations costing £2 million for accessibility works at the Whitchurch Upper school site to allow progression of pupils post September 2016 as well as replacement of poor condition accommodation.
- Investment of £4.1 million in modernising technology systems to join up and improve business processes and the way services are accessed and delivered.

313. As well as the commitments identified above, provision for new capital schemes includes:

- Investment of £750,000 in 2016/17, for reconstruction of structurally deteriorating roads deemed a priority.
- Creation of a transport interchange at Waungron Road, linking the wider south-east Wales rail network with major bus corridors to the west and north-west of the city. Subject to detailed design, the balance of land not required for the interchange will be sold and used for this project with the balance funded from the Civil Parking Enforcement reserve to pay for the £500,000 works.
- A final tranche of £0.6 million of funding towards completion of commitments in the Hubs programme. It is essential that all hubs are delivered within the remaining allocation.
- Further investment of £5.9 million on top of existing allocations for Disabled Adaptations Grants to meet increasing demand and to meet current waiting time targets. However, future allocations are subject to a review of processes and effectiveness of outcomes and costs, in order that such significant expenditure can be financially sustainable. In recognition of this, it is proposed that the additional requirement of £1.9 million for 2016/17 is paid for by a one off direct revenue financing contribution, to minimise capital financing costs.
- Increasing the existing investment in suitability and sufficiency for schools from the current £0.5 million per annum to £1 million per annum.
- A medium term provision for further investment of £2 million in Whitchurch High School to determine a longer term Council wide approach to ensuring a permanent accessibility solution for disabled pupils.

314. Provision for known schemes proposed to be funded by grant bids and contributions including:

- Metro funding from WG of £1.5 million to implement bus corridor schemes on the A469 and A470.

- Match funding totalling £1.6 million for the Greener Grangetown Scheme from Dwr Cymru, Natural Resources Wales and Landfill Communities Fund, subject to completion of a partnership agreement and affordability of scheme.
 - WG cash grant of £50 million towards Band A school investment, subject to submission of detailed proposals and business cases.
315. External grants and other contributions available for financing capital expenditure are subject to bidding processes which may change over time and are also subject to in year approval. This makes planning for schemes difficult, particularly given the lead in time required to implement schemes. Approved grant funding allocations towards capital schemes will be updated during the course of 2016/17 as part of the budget monitoring process.

Invest to Save Schemes – Additional borrowing to be repaid from revenue savings / Income

316. The General Fund programme includes significant borrowing commitments of £63.5 million for directorate schemes modelled to pay for themselves over a set period of time either from revenue resources budgeted for in future years, revenue savings or income generation. Invest to Save schemes will need to repay amounts owed from existing revenue budgets irrespective of whether the level of savings or income initially expected materialise, accordingly it is essential that there is a robust review of business cases before commitments are entered into, a requirement supported by Investment Review Board.
317. New invest to save capital schemes to be funded in this way include:
- An initial allocation of £4 million used to enhance the current leisure centre portfolio in order to maximise income generation opportunities and achieve a significantly reduced subsidy over the next three years. This service is part of an ongoing competitive procurement process and the quantum of borrowing that may be necessary to achieve the desired subsidy reduction may be subject to change as dialogue with potential operators continues and proposals are refined.
 - Additional equipment to expand enforcement of bus lanes and junctions as well as a phased programme for replacement of obsolete parking meters amounting to £1 million
318. Expenditure commitments previously approved on an Invest to Save basis include:
- Changing existing street lighting on strategic routes to Light Emitting Diode (LED) lights. This project estimated at £8 million is subject to business case approval and option appraisal in respect of the preferred technology.
 - A contribution towards economic development initiatives as part of the Cardiff Enterprise Zone. This is to be repaid from sums identified

in the revenue budget to support capital expenditure investment of up to £15 million to unlock further infrastructure investment and regeneration of the City. Timing of such expenditure is subject to approval of viable scheme.

- Further Council investment of £1 million to develop commercial properties in Maelfa Centre to generate a commercial rate of return.
- The WG Schools LGBTI and additional borrowing totalling £31.6 million undertaken as part of the investment in 21st Century schools.
- Smaller Invest to Save schemes approved during the period by a delegation to the Section 151 Officer, conditional upon a satisfactory business case.

Public Housing (HRA)

319. The proposed 2016/17 Public Housing Programme is £25.405 million. Resources include the Major Repair Allowance (MRA) grant of £9.6 million, and a £5.6 million in-year revenue contribution. This includes the revenue benefit from housing finance reform which is to be retained on an annual basis for re-investment in enhancing the condition of existing housing stock and development of new stock.

320. As part of the agreement to exit from the subsidy system, the Council must adhere to a debt cap. Accordingly any new expenditure to be paid for by borrowing should be prioritised to ensure that improvements are either essential or have an element of pay back, to ensure that there are no long term issues of affordability and sustainability in respect of borrowing.

321. The continued receipt from WG of the MRA grant remains essential in order to sustain the Welsh Housing Quality Standard (WHQS) improvements made to the stock and the level of grant is subject to WG approval of the HRA business plan.

322. The aim of the future five year programme is to focus on:

- Regeneration strategies that deliver estate-wide improvements and aim to transform the environmental quality and safety of priority neighbourhoods. Improvements include works to defensible space, court-yards, parking, pedestrian routes and general environmental conditions. This includes the continuation of schemes at Trowbridge Mawr and Butetown, as well as Channel View in Grangetown.
- Investment in the stock itself in order to maintain the WHQS and to encourage tenants to accept improvements where they have not already done so.
- Investment identified in stock condition data such as roofing, rewiring, energy efficiency improvements such as central heating and boiler upgrades and potential cladding and replacement of windows and roofs of high rise blocks.
- Remodelling of existing stock for specific needs and removing hard to let properties including sheltered housing, remodelling accommodation to ensure they are fit for purpose and offer flexible living spaces promoting independent living. A £1.8 million

improvement scheme at Sandown Court is underway, with work to start on remodelling the former children's home at 150 Thornhill Road into self contained, flexible older person flats.

- To provide disabled adaptations and associated improvements to enable occupants to continue to live independently.
- New build council housing as part of the Housing Partnership Programme (HPP) using additional borrowing and planning contributions. The HPP was officially 'launched' in January 2016 with the signing of a Development Agreement between the Council and Wates Living Space. It aims to build at least 1,500 (of which 600 will be Council) new sustainable homes, of which 40% are affordable, enabling land in more sought after areas of the City to cross subsidise development in what may otherwise not be viable sites.

323. A number of sites will be appropriated from the General Fund into the HRA for the development of new housing. These include the former school sites at Rumney, Llanrumney, Mynachdy, Howardian as well as the site of the old STAR Centre. No additional expenditure is shown as a result of these transfers in to the HRA, as this is achieved by a transfer of debt from the General Fund to the HRA.

324. Consideration will be given to bringing budgets forward for direct land purchase to prepare for further phases of dwellings construction as well as appropriation of other suitable Council owned sites where opportunities arise and affordability allows.

325. As set out earlier in this report, the Council's MTFP covers a period of financial austerity and uncertainty. Therefore whilst approving the Capital Programme for the period up until 2020/21, a further review of the later years of the programme will be required as part of the 2017/18 Budget Strategy.

Capital Resources 2016/17 to 2020/21

326. Resources proposed to be used to pay for capital works are summarised in the table below and detailed in Appendix 22.

Capital Resources	2016/17 £000	2017/18 Estimate £000	2018/19 Estimate £000	2019/20 Estimate £000	2020/21 Estimate £000	Total £000
WG General Capital Funding - Supported Borrowing	8,387	8,387	8,387	8,387	8,387	41,935
WG General Capital Funding - Grant	5,103	5,103	5,103	5,103	5,103	25,515
Major Repair Allowance Grant (HRA)	9,600	9,600	9,600	9,600	9,600	48,000
Additional borrowing	47,581	34,477	31,626	13,543	7,850	135,077
Earmarked Capital Receipts	5,207	42,971	11,691	87	0	59,956
Non earmarked Capital Receipts	3,000	2,000	1,000	1,000	1,000	8,000
Revenue & Reserves	8,210	6,040	5,831	5,872	5,915	31,868
Other External Grants and Contributions	27,241	33,459	2,692	350	350	64,092
Total Resources	114,329	142,037	75,930	43,942	38,205	414,443

327. The Council will in 2016/17 receive £13.490 million in grant and supported borrowing approval from the WG in order to determine its own spending priorities for capital items. This is a slight increase of 0.3% from 2015/16 but a significant reduction of circa 35% compared with 2010/11. The Council will be required to submit its Public Housing business plan to WG in March 2016, which assumes Major Repairs Allowance remains at previous levels of £9.6 million per annum.
328. Expenditure funded by unsupported borrowing of £134.9 million is proposed over a five year period in order to meet General Fund capital expenditure and to pay for invest to save schemes of £90.8 million and for public housing capital expenditure of £44.1 million. This excludes proposed land appropriations between the General Fund and the Housing Revenue Account.
329. Over the five years of the Capital Programme, £8 Million of non earmarked capital receipts has been assumed. In addition earmarked receipts and specific contributions of £25.2 million have been identified to offset expenditure and minimise levels of borrowing for 21st Century Schools Programme and £34.8 million for other schemes including Central Square redevelopment and the integrated transport hub. Until such sums are actually received this remains a significant risk to the level of additional borrowing. Should there be a delay in realising receipts or should amounts be lower than anticipated after contracts for expenditure have been let this will create significant financial risks to the Council.
330. Over the life of the Capital Programme and particularly beyond 2016/17 the level of external grants included are based on assumptions. This is due to the lack of data being available from grant funding bodies which clearly causes difficulty in longer term planning when considering capital investment decisions. Any grant approvals received during the year will be reported as part of the Councils budget monitoring as a basis for inclusion in the budget framework.

Planning Gain (Section 106) and Other Contributions

331. There remains a significant level of existing contributions which directorates must focus on utilising within relevant timescales and in accordance with the terms and conditions of the agreements.
332. The following table summarises the balances of existing Section 106 and other contributions projected to be held by the Council at 31 March 2016 on a service basis, together with a planned profile of spend over future years determined by directorates. Due to the level of uncertainty, future amounts potentially receivable in respect of Section 106 balances have not been included. In previous years the planned profile of Section 106 spend for Parks and Public Open Space has not been achieved. This will require close monitoring by the directorate during the course of the year to ensure sufficient resource is prioritised to implement essential improvements using this source of funding held.

Areas of Service	Projected Balance at March 2016	Planned Use 2016/17	Planned Use 2017/18	Planned Use 2018/19 and beyond
	£000	£000	£000	£000
Traffic & Transportation	1,850	703	699	448
Parks	2,740	1,325	1,138	277
Strategic Planning	228	133	95	0
Schools	270	270	0	0
Economic Development	932	494	438	0
Neighbourhood Regeneration	439	171	183	85
Other	20	20	0	0
General Fund Total	6,479	3,116	2,553	810
Public Housing Total	2,418	0	2,301	117
Total	8,897	3,116	4,854	927

333. Some of the schemes included in the profile above are:

- Traffic & Transportation – public transport improvements; junction improvements; bus stops and bus boarders; installation of CCTV and Real Time Information; telematics; and transportation schemes including the provision of bus routes in the City and strategic transport initiatives.
- Parks – Canal Park (£120,000); Water Play Park at Victoria Park (£55,000); Hendre Lake Park (£278,000), Llanishen Park (£170,000); public open space and cemetery works in Adamsdown (£118,000) and Parc Coed Y Nant (£148,000). It is essential that the Directorate devotes adequate resources to ensure that such schemes can be completed.
- Strategic Planning – regeneration scheme at Mount Stuart Square and a programme of works in the City Centre.
- Schools – contribution towards works at Coed Glas primary.
- Economic Development – Llanrumney Hall dilapidations (£294,000), Public Realm at International Sports Village (£300,000) and other regeneration initiatives.
- Neighbourhood Regeneration – funding for community facilities including the Council’s Hubs Programme e.g. STAR Hub (£166,000), environmental improvements and regeneration of community shopping centres.
- Housing – development of new Council housing as part of Housing Partnership Programme.

334. The Community Infrastructure Levy (CIL) regulations came into force in April 2010. CIL is a system of regulations that allow local authorities in England and Wales to raise funds from developers undertaking new building projects in their area. CIL sits alongside the existing Section 106 process, which remains relevant. However, CIL regulations change some of the key rules associated with Section 106, in particular to prevent overlap between the two funding mechanisms.

335. The money raised through CIL can be used to help fund a wide range of Relevant Infrastructure that is needed to support the development of an area. Relevant Infrastructure is not clearly defined in the regulations but may include:
- Roads and other transport facilities
 - Flood defenses
 - Schools and other educational facilities
 - Medical facilities
 - Sporting and recreational facilities
 - Open spaces
336. An Infrastructure Plan has been prepared in association with the Local Development Plan (LDP). This gives a broad indication of the range and extent of community infrastructure needed to support the Council's LDP's projected level of growth. It also provides an indicative cost and identifies potential funding sources to deliver the required infrastructure, however the financial implications of this will need to be considered as proposals are developed.
337. Public consultation on a Preliminary Draft Charging Schedule was undertaken during November and December 2014. The stage two Draft Charging Schedule will be consulted on in Summer 2016 before submission for Public Examination during Autumn / Winter 2016. The intention is to be in a position to implement the CIL in early 2017.

Asset Management Board and Investment Review Board

338. Within this financial climate of reducing revenue resources it is clear that all necessary actions must be taken to reduce both initial capital expenditure by accelerating a reduction in the Council's asset base within a limited timeframe and also the subsequent need to borrow.
339. The role of the Asset Management Board is key in ensuring strategic and affordable choices are made in relation to property retention, acquisition and disposal, securing holistic solutions which consider both revenue and capital budgets. An Investment Review Board has been established as part of the Council's Organisation Development Programme arrangements and is chaired by the Corporate Director Resources. These Boards liaise closely to ensure that robust governance processes are in place to challenge and review both capital expenditure and the capital resources of the Council.
340. Confidence in the property market has improved as the economy has generally picked up. However, disposing of certain types of property remains challenging and is subject to securing interest from third parties. It is, therefore, important that where a property is identified for disposal it is promptly declared surplus and disposed of or demolished. This will avoid an adverse revenue budget impact in terms of increasing the Council's level of borrowing and costs in continuing to secure and maintain the property.

341. Releasing capital receipts often requires significant investment in improving other assets or providing alternative facilities which means an additional drain on realisable receipts. Additionally, the actual realisation of capital receipts will always be a relatively unpredictable exercise given the number of variable factors which can influence the end product. Accordingly, it is not prudent to set a Capital Programme on capital receipt assumptions alone without a clear and approved strategy for the realisation and timing of such receipts in so far as this can be determined. To do otherwise will put additional pressure on the Council's borrowing requirement and future revenue budget pressures.
342. The Council is taking forward a number of initiatives to ensure that it uses its own property effectively and that options are considered for collaboration with other partners across the City. These initiatives include:
- Continuing the rationalisation of office accommodation including the relinquishment of Global Link.
 - Implementation of a new Corporate Property Strategy and utilisation of the Asset Management Board to provide corporate awareness of all property related initiatives across the Council.
 - Review of the non-operational investment property estate to rationalise and re-invest proceeds in modernising this estate to sustain income. In accordance with the Cabinet report of 12 November 2015, it is proposed to establish a new governance arrangement to deal with the efficient management of the Investment Estate. This will involve a new Investment Board consisting of officers from Strategic Estates, Legal and Finance. Day to day management will be undertaken by Strategic Estates with external advice through an appointed commercial advisor. Recommendations for disposal, investment, re-gearing and acquisition will be presented quarterly to the Investment Board. Decisions will be reported quarterly to Asset Management Board and subsequently to Cabinet. In addition to the above a forward plan of actions and a report on the performance of the Investment Estate over the previous 12 months will be included in the annually published Corporate Asset Management Plan and will be subject to the Council's normal scrutiny processes.
 - Taking forward Community Asset Transfer projects.
 - Transferring sites identified as suitable for new build housing from the General Fund to the HRA, subject to determining a transparent value.
 - Using land holdings to secure regeneration of the City.

Other Capital Prudential Indicators

343. The Council is required to set a number of indicators for the years 2016/17 to 2018/19 to assist in determining whether it establishes a prudent, affordable and sustainable Capital Programme. The CFR forecast considered earlier was one of these. In addition the Council has developed a local indicator which is detailed in this report for the period

up to 2020/21. Treasury indicators are included in the Treasury Management section of this budget report.

Capital Expenditure

344. The capital expenditure incurred in 2014/15 and estimates of capital expenditure for the current and future years as set out in the programme are as follows:

Capital Expenditure					
	2014/15 Actual £m	2015/16 Estimate £m	2016/17 Estimate £m	2017/18 Estimate £m	2018/19 Estimate £m
General Fund	62,849	89,088	88,924	113,787	48,580
HRA	19,665	210,675	25,405	28,250	27,350
Total	82,514	299,763	114,329	142,037	75,930

Incremental Impact of New Capital Investment Decisions

345. Increases in capital expenditure must be affordable within the projected income of the Council for the foreseeable future. Accordingly the Council must calculate its budget requirement for each financial year to include the revenue costs that flow from new capital expenditure decisions which include:

- Increases in capital financing costs (interest and prudent provision for repayment of borrowing).
- Increases in running costs from new capital projects.

346. Whilst it is difficult to isolate the financial impact of new capital investment decisions proposed in this budget, the prudential indicator requires an estimate of the incremental impact on Band D Council Tax and on the weekly housing rent. The indicator is based on current gearing levels between central and local taxpayers. The calculation takes into account new schemes proposed in the budget only. It is required to exclude borrowing commitments for schemes proposed in previous budgets.

347. For the HRA it is assumed that the costs of any additional borrowing undertaken towards the development of new Council housing is offset by additional rental income from new properties.

Incremental Impact of New Capital Investment Decisions			
	2016/17 Estimate £	2017/18 Estimate £	2018/19 Estimate £
For the Band D Council Tax	0.29	2.15	4.33
Average Weekly Housing Rent	0.32	1.59	2.93

Ratio of Financing Costs to Net Revenue Budget Stream

348. An indicator of the affordability of historic and future capital investment plans is the ratio of financing costs to net revenue budget stream. It identifies the trend in the cost of capital financing (excluding the running costs of schemes). Financing costs include:

- Interest payable on borrowing and receivable on investments.
- Penalties or any benefits receivable on early repayment of debt.
- Prudent revenue budget provision for repayment of capital expenditure paid for by borrowing.
- Reimbursement of borrowing costs from directorates in respect of Invest to Save schemes.

349. For the General Fund, the net revenue stream is the amount to be met from non-specific WG grants and Council Tax, whilst for the HRA it is the amount to be met from rent payers. An increasing ratio indicates that a greater proportion of the Council's budget is required for capital financing costs over the planned Capital Programme period.

Ratio of Financing Costs to Net Revenue Budget Stream						
	2014/15 Actual %	2015/16 Estimate %	2016/17 Estimate %	2017/18 Estimate %	2018/19 Estimate %	2019/20 Estimate %
General Fund	6.15	5.90	6.08	5.86	5.89	6.24
HRA	15.87	31.93	31.17	31.51	30.78	30.50

350. The percentage for the General Fund is estimated to increase from an estimated 5.90% in 2015/16 to 6.24% in 2019/20. This includes a change in the approach to calculating the prudent minimum revenue provision for supported borrowing from 2017/18 onwards which is reduced from 4.5% to 4% per annum. The HRA ratio increased significantly in 2015/16 due to additional borrowing undertaken for the housing finance reform settlement payment to WG ending the housing subsidy system.

351. It should be noted that these figures include a number of assumptions such as:-

- No new approvals of additional borrowing apart from that currently proposed over the period.
- Interest rates.
- The timing of borrowing decisions and expenditure.
- The total level of the WG revenue support etc, which can fluctuate due to transfers in or out of the settlement.

352. These variables have long term implications and are extremely uncertain.

353. Whilst the indicator above is required by the Prudential Code, it has a number of limitations. It:

- Does not take into account the fact that some of the Council's revenue budget is non-controllable, delegated or protected.
- Is impacted by transfers in and out of the settlement.
- Includes investment income which is highly unpredictable, particularly in future years.
- Does not reflect gross capital financing costs for schemes where additional borrowing is undertaken to be repaid from within directorate budgets.

354. Although there may be short term implications, invest to save schemes such as 21st Century Schools are intended to be net neutral on the capital financing budget. There are however risks that the level of income, savings or capital receipts anticipated from such schemes will not materialise, having a detrimental long term consequence on the revenue budget. This requires careful monitoring when considering future levels of additional borrowing.

355. Accordingly an additional local indicator has been developed for the General Fund and is shown in the table below for the period up to 2020/21. These local indicators show the ratio of capital financing costs of the Council expressed as a percentage of its controllable budget, excluding investment income:

Capital Financing Costs expressed as percentage of Controllable Budget								
	2011/12 Actual %	2015/16 Estimate %	2016/17 Estimate %	2017/18 Estimate %	2018/19 Estimate %	2019/20 Estimate %	2020/21 Estimate %	Difference 11/12-20/21 %
Net	13.47	15.42	15.79	15.27	15.53	17.00	16.82	24.87
Gross	15.17	19.13	19.94	20.31	20.80	22.51	22.37	47.46

356. In accordance with the principles of invest to save, the net ratio assumes that any costs of undertaking additional investment are recovered over time from directorate budgets, capital receipts or other budgets. The gross ratio indicates the gross capital financing cost i.e. it represents a worse case scenario.

357. An increasing percentage indicates that a greater proportion of the budget that is controllable is required for capital financing costs which are committed in the long term. The requirement to meet these additional costs can only come from future savings or from increases in Council Tax. This clearly limits the scope for additional borrowing in future years and reduces the Council's overall flexibility when making decisions on the allocation of its revenue resources. The percentages take into account the significant level of savings having to be found in 2016/17 and over the medium term.

358. Approval of any additional capital schemes to be funded from borrowing would negatively impact on the indicator. As set out earlier, this report reviews the Council's financial position across the life of the MTFP and identifies both the challenges ahead and the radical nature of the actions

required. Council-wide solutions across this time frame will need to be holistic and could include consideration of both revenue and capital spend. Whilst approving the Capital Programme for the period up until 2020/21, Cabinet should be aware that the later years of the programme, together with new material commitments in respect of these later years, will be subject to an ongoing review of the Council's financial standing and resilience.

Treasury Management

359. Treasury management involves:-

- ensuring cash is available when needed
- investing temporary cash balances and
- ensuring appropriate borrowing facilities to pay for the Council's capital expenditure commitments and for the prudent management of its financial affairs.

360. The Council carries out its treasury management activities in accordance with a Treasury Management Code of Practice developed for public services in 2011 by the Chartered Institute of Public Finance and Accountancy (CIPFA). This requires the Council to set out the policies and objectives of its treasury management activities and adopt the four Clauses of Treasury Management. These were formally adopted by the Council in February 2010. Appendix 23 includes a glossary of terms used in relation to Treasury Management.

361. The Council's Audit Committee undertakes scrutiny of the accounting, audit and commercial issues in relation to the Council's Treasury Management Strategy and practices.

362. During the course of each year, a number of reports are produced in relation to the Council's treasury management activities including a strategy at the start of the year, performance reports during the year, a mid year report and an outturn report.

Treasury Management Strategy

363. The Strategy links plans for capital investment, financing and affordability of those plans and how cash will be safely managed to meet the Council's financial commitments and objectives.

364. It is accepted that no treasury management activity is without risk. In undertaking its treasury management activities, the overriding objective is to minimise the risk of adverse consequences or loss, whilst at the same time not unduly constraining investment returns or unnecessarily incurring interest costs.

365. The successful identification, monitoring and control of risk are integral elements of treasury management activities. Risks include credit and counterparty, liquidity, interest rate, refinancing, fraud and regulatory. The Council has Treasury Management Practices to address and

mitigate these risks which were last updated in March 2015 following a review by Internal Audit and Audit Committee.

366. The Council recognises the value in the use of treasury advisors to support the management of risk and to access specialist skills and resources. Support provided by Capita Asset Services Treasury Solutions includes advice on timing of decision making, training, credit updates, economic forecasts, research, articles and advice on capital finance, with the terms of appointment reviewed periodically.
367. Responsibility for treasury decisions ultimately remains with the Council.
368. The following paragraphs set out the integrated strategy for borrowing and investments for 2016/17. The strategy covers:
- The current treasury position.
 - Economic background and prospects for interest rates.
 - Borrowing, including:-
 - Policy
 - Annual Minimum Revenue Provision (MRP) Policy Statement
 - Council borrowing requirement and choice between internal and external borrowing and
 - Borrowing Strategy
 - Treasury management indicators and limits for 2016/17 to 2018/19
 - Investment Policy and Strategy, including security and investments approved for use.
 - Training.
369. The proposed strategy is based on information known at the time of writing this report. Any changes on treasury management will be reported in future scheduled reports to Council, Cabinet and Audit Committee treasury management during the course of the year.
370. The Strategy includes the impact of the Housing Revenue Account Subsidy (HRAS) buyout completed during 2015/16, when borrowing of £187million was undertaken and paid to WG / HM Treasury. In determining the approach to managing the Council's debt, consideration was given as to whether HRA debt is notionally split from the rest of the Council debt, which would necessitate two different strategies being prepared, or whether the Council continues with the current single integrated strategy and single loans pool. This strategy is based on the latter, with rationale included in the 2015/16 budget report as well as later in this report.

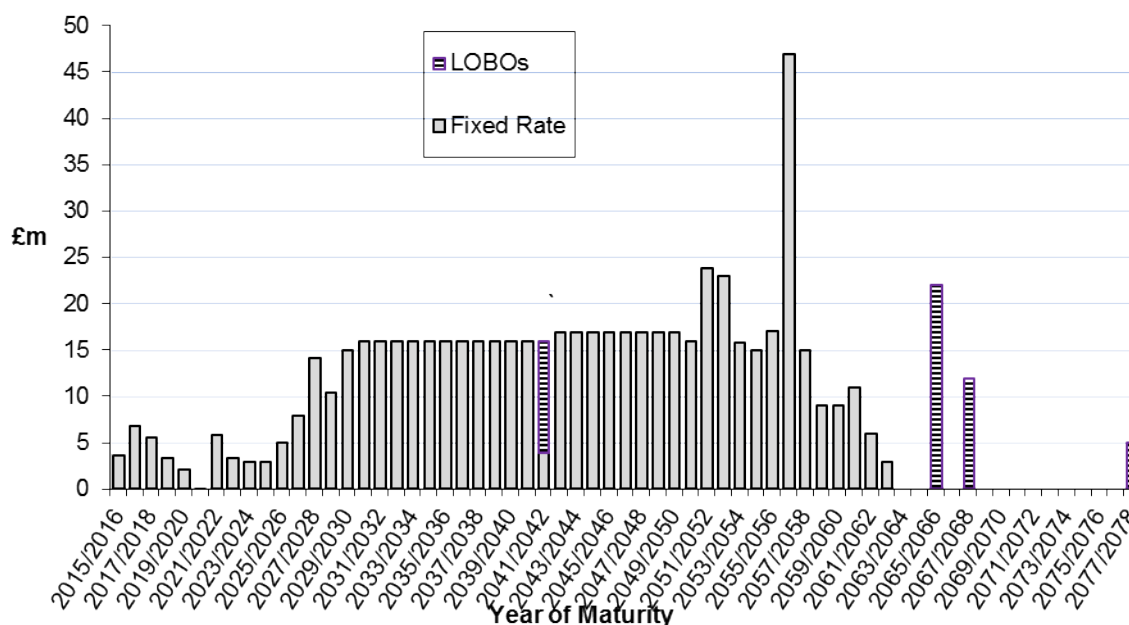

The Treasury Position

371. The treasury position for borrowing and investments as at 31 December 2015 is shown in the following table. Borrowing is predominantly made up of fixed interest rate loans payable on maturity. Investments fluctuate daily and are represented by fixed term deposits, notice deposit accounts and money market funds. These balances arise due to the timing of cash

flows and working capital as well as the existence of reserves, provisions and balances required for future use.

	Principal £m	Average Rate %
External Borrowing		
- Public Works Loan Board	614.5	4.94
- Market Loans	52.0	4.13
- Other	0.9	0
Total Debt	667.4	4.87
Treasury Investments	83.4	0.7

372. The Council's current debt maturity profile is shown in the following graph on the assumption that all loans run to their final maturity.

373. The main loans maturities during 2016/17 are PWLB loans of £6.7 million. Unless the Council's Lender Option Borrower Option loans (LOBO's) are required to be repaid early, very little debt matures within the next 10 years.

374. LOBO products are loans to the Council where the lender can request a change in the rate of interest payable by the Council on pre-determined dates. The Council at this point has the option to repay the loan. The Council has six such loans totalling £51 million.

375. Apart from the option to increase rates these loans are comparable to PWLB loans and have no other complications such as variation in interest rates or complex terms. Interest rates on these loans range between 3.81% and 4.35% and are below the Council's average rate of interest payable. Details of the loans are shown in the next table.

Lender Option Borrower Option (LOBO) Loans			
Potential Next Repayment Date	Loan Value £m	Option Frequency Every	Full Term Maturity Date
01/03/2016	6	6 months	23/05/2067
21/05/2016	6	6 months	21/11/2041
21/05/2016	6	6 months	21/11/2041
21/05/2016	6	6 months	23/05/2067
15/01/2018	5	5 years	17/01/2078
21/11/2020	22	5 years	23/11/2065

376. It should be noted that £24 million of the LOBO loans are currently subject to the lender potentially requesting a change in the rate of interest payable every six months. A further £5 million and £22 million have call options in January 2018 and November 2020 respectively and every five years thereafter.
377. Risk of early repayment is deemed to be low, however in the longer term, options will need to be considered to reduce any potential large repayments in a single year.

Economic background and prospects for Interest Rates

378. The following table gives the Council's treasury management advisor's latest forecast of interest rates taking into account the 20 basis point certainty rate reduction available for PWLB loans to eligible local authorities. It is a central forecast, acknowledging for example that the bank rate may rise sooner if there are sustained and robust UK growth, employment and inflation expectations.

	January 2016 %	March 2016 %	March 2017 %	March 2018 %	March 2019 %
Bank Rate	0.50	0.50	0.75	1.25	1.75
5yr PWLB rate	1.92	2.00	2.40	2.80	3.20
10yr PWLB rate	2.58	2.60	3.00	3.40	3.70
25yr PWLB rate	3.36	3.40	3.70	4.00	4.10
50yr PWLB rate	3.18	3.20	3.50	3.90	4.00

Forecast at January 2016

379. Whilst counterparty risk of organisations whom we may invest with has eased compared to previous years, financial markets remain volatile and economic forecasts remain uncertain. Growth in the UK economy is strong, however, for it to be balanced and sustainable, it needs to move away from dependence on consumer expenditure and the housing market. With inflation currently subdued due to falling food, oil and gas prices, there also remains uncertainty around how quickly inflation will rise in the next few years. Whilst there are also a number of geopolitical risks that impact on interest rates, two key factors used by the Bank of

England in determining when to change interest rates are growth and inflation.

380. The bank rate, which is unchanged since March 2009, is currently forecast to rise towards the end of 2016. As a consequence and coupled with the Bank of England's funding for lending scheme, returns from Council Investments are likely to remain minimal. In respect of future borrowing rates, these are set to rise should growth and inflation be firmly established, as a result of higher levels of UK Government borrowing and reversal in quantitative easing. This will result in higher future borrowing costs for the Council.

Borrowing

Policy

381. Borrowing to pay for capital investment has long-term financial consequences and risks, with decisions taken many years ago impacting currently and in the future in the form of interest and provision for repayment of capital expenditure. These costs are assumed in the Council's revenue budgets.
382. Loans are not undertaken for specific schemes or directorates. All loans are taken in the name of the Council and secured on all revenues of the Council meaning that all loans and investments are pooled. The Council will aim to manage its debt portfolio on a long-term basis with a high regard to the effects on current and future Council Tax and Rent Payers.
383. The view of the Section 151 Officer is to maintain a single pool for all Council debt. In determining this approach, the Council has also sought advice from its treasury management advisors and considered guidance from CIPFA.
384. The reasoning for this included consideration of the following:-
- One pool is consistent with the pooling of treasury management activities for effective management of risk and control.
 - The Council through delegation to the Section 151 Officer is ultimately responsible for all debt, including debt undertaken by the HRA. Interest costs are recharged to the HRA, in the same way as to directorates who take invest to save schemes.
 - All loans are charged across all the revenues of the Council in accordance with the Local Government Act 2003.
 - In accordance with good treasury management practice loans are not taken out for specific purposes.
 - There is no mechanism to charge HRA for risks of default on Investments. This is all borne by the General Fund so it is deemed inconsistent to treat debt and investments separately.
 - A single pool avoids the requirement for two separate Treasury Strategies and documents at all current reporting meetings. The extent of additional work in administration, management and reporting of maintaining two pools should not be underestimated.

- Planned loan maturities for HRAS exit were taken with regard to the existing debt maturity profile to smooth the historic debt maturity profile to minimise the overall re-financing risk to the Council.
 - The Prudential Code still requires indicators to be aggregated and treasury risk is managed across the council.
 - De-pooling is a one off exercise which ignores the historic benefit which may have accrued either to the HRA or to the General Fund.
 - One pool avoids the risk of over borrowing. If the HRA pays off debt quicker than anticipated, this allows flexibility to transfer loans at nil cost to the General Fund. In addition the HRA can secure a long term, stable portfolio.
385. The Council's Borrowing Strategy for 2016/17 and the capital financing revenue budgets included in the MTFP will consider all options to meet the long-term aims of:
- Promoting revenue cost stability to aid financial planning and avoid a stop-start approach to service delivery, although it is recognised that this may have a financial impact.
 - Pooling borrowing and investments to ensure the whole Council shares the risks and rewards of treasury activities.
 - Reduction over time in the average rate of interest on overall Council borrowing.
 - Ensuring any refinancing risk is manageable each financial year, using opportunities to re-profile borrowing where cost effective to do so both in the short and long term.
 - Ensuring borrowing plans are aligned to known capital expenditure spending plans, the useful life of assets created, financial reserve levels and consistent with the prudent provision for the repayment of any such expenditure paid for by borrowing.
386. The Council will not borrow in advance of need, purely to profit from any investment of the extra sums borrowed. However, if it is felt that by borrowing in advance of need up to a maximum of three years, opportunities exist to lock into favourable long-term rates and the credit risks associated with this can be managed, then this is an option that will be considered.

Prudent Repayment of Capital Expenditure – Annual Minimum Revenue Provision (MRP) Policy Statement for 2016/17

387. The Council has a statutory duty to calculate and set aside each year from its annual revenue budget an amount 'which it considers to be prudent'. This results in a reduction in the Council's underlying need to borrow (CFR).
388. The broad aim of the 'prudent provision' is to ensure that debt arising from Capital expenditure is repaid over a period that is either reasonably commensurate with that over which the capital expenditure provides benefits to service delivery (useful life) or in the case of borrowing supported by the WG via the RSG, reasonably commensurate with the period implicit in the determination of that grant.

389. Legislation does not define what constitutes a 'prudent provision'. Instead WG has provided guidance and examples in order to interpret that term. Whilst authorities must have statutory regard to that guidance, other approaches can be considered if they are deemed prudent in the judgement of the Section 151 Officer and individually designed for each local authority circumstance.
390. A statement on the Council's policy for its annual MRP is required to be submitted to full Council for approval before the start of the financial year to which the provision will relate. Similar to decisions to undertake capital expenditure funded by borrowing, decisions in respect of the allocation of MRP have short, medium and very long term impacts. Impacts of changes in policy decisions should be considered over that time horizon.
391. It is proposed that the Council's MRP Policy will be as follows with any change in the level, timing and method of provision in year delegated to the Section 151 Officer :
- General Fund historic expenditure prior to 1 April 2004 as well as subsequent supported borrowing approved by the WG is to be provided for at 4.5% on a reducing balance basis in 2016/17. This is in excess of the WG grant basis of 4%, and will continue to be reviewed for ongoing affordability and consideration of what expenditure the Council incurs utilising supported borrowing.
 - HRA supported borrowing, which was part of the previous housing subsidy system is to be provided for at 2% on a straight line basis. MRP on the £187million settlement buyout payment is to be at 2% straight line basis, as a minimum, with the first provision made in the year of the settlement.
 - Additional borrowing for a general increase in investment either in the General Fund or HRA to balance the Capital Programme in a year is to be provided for on a straight line basis over the estimated average life of the assets created.
 - Any additional expenditure linked to specific schemes e.g. Invest to Save, 21st Century Schools etc. is to be provided for on a straight line basis, or over the estimated useful life of assets being created or a shorter period as determined by the Section 151 Officer or suggested periods determined by WG as is the case with LGBI.
 - Revenue Provision in excess of the above requirements can be made subject to affordability and following advice of the Section 151 officer.
 - MRP may be waived on expenditure recoverable within a prudent period of time through capital receipts (e.g. land purchases) or deferred to when the benefits from investment are scheduled to begin.
 - The MRP charged against liabilities under finance leases, or contracts that have the characteristics of finance leases, shall be equal to the principal element of the lease repayment, calculated on an annual basis.

Council's Borrowing Requirement

392. The following table shows the projected level of external borrowing currently held by the Council, taking into account any scheduled loan repayments. It compares this to the projected CFR based on current, known estimates and timing of the Council's capital expenditure plans, subject to approval of the Council's budget in February 2016. The difference between the projected CFR in 2018/19 (£757 million) and the level of external borrowing after any planned repayments (£649 million) is £108 million, i.e. there will be a requirement for additional external borrowing over the medium term.

Gross Debt compared to Capital Financing Requirement					
	2014/15 Actual £m	2015/16 Estimate £m	2016/17 Estimate £m	2017/18 Estimate £m	2018/19 Estimate £m
External borrowing at 1 April	473	470	665	658	652
New borrowing	5	13	tbc	tbc	tbc
Settlement payment		187			
Scheduled repayments	(8)	(5)	(7)	(6)	(3)
External Borrowing at 31 March	470	665	658	652	649
Capital Financing Requirement	495	715	738	750	757
Under / (Over) borrowing	25	50	80	98	108

393. To be meaningful for treasury management purposes, the CFR figures in this strategy exclude the accounting provisions for the management and aftercare of landfill sites which may not be incurred for many years to come. Accordingly, when setting the treasury indicators, landfill provision is excluded from the calculations, except for the setting of the Authorised Limit for external debt, which is required to be set under statute.

394. Some of this requirement may be covered by internal borrowing in the short term, dependent on the sustainability and risks of any internal borrowing position. The table demonstrates that over the medium term, borrowing is undertaken only for a capital purpose and the Council is not borrowing in advance of need.

External versus Internal borrowing

395. Whilst interest rates for borrowing are greater than interest rates the Council receives for investments (the cost of carry), it makes financial sense to use any internal cash balances held in the short-term to pay for capital expenditure and minimise costs (Internal Borrowing), rather than undertake external borrowing. However, there is a risk that the Council may have to borrow at higher rates when it does actually need to borrow in future and so this position is kept under continuous review.

396. A high level balance sheet review undertaken at a point in time suggests that a maximum level of internal borrowing is circa £70 million. However this is dependent on cash flows, the timing of use of General and Earmarked Reserves and provisions and longer term pressures in the MTFP.

Borrowing Strategy

397. The forecast level of internal borrowing at 31 March 2016 in relation to the CFR is deemed manageable. However, based on the current forecasts of future capital expenditure plans and high level analysis of the sustainability of internal borrowing from the Council's balance sheet position for future years, external borrowing will be required to be undertaken in the medium term.
398. The following strategy is proposed to manage the Council's Capital Financing Requirement:-
- Whilst investment rates remain lower than long term borrowing rates internal borrowing will be used to minimise short-term costs where possible.
 - Any external borrowing is to be a balance between temporary borrowing on a short term basis to minimise revenue costs (the cost of carry) where possible, with options considered to take an element of the Council's borrowing requirement with loans of longer periods. This strategy should help to mitigate against the risk of borrowing rates rising faster than currently anticipated.
399. If it were felt that there was a significant risk of a sharp rise in long and medium-term rates, then fixed rate borrowing may be undertaken whilst rates were still comparatively lower. If there was a significant risk of a sharp fall in rates, then long-medium term borrowing would be deferred, following consideration of internal borrowing capacity.
400. Current interest rates on the Council's existing debt portfolio compared to new borrowing rates and the high penalty rates charged by the PWLB for early debt repayment, results in limited options for restructuring of debt. Options have been considered but these have resulted in very short term financial gains outweighed by the risk of higher longer term costs. Opportunities will continue to be reviewed to determine whether options exist to reschedule debt at an acceptable refinancing risk.

Treasury Management Indicators and limits for 2016/17 – 2018/19

401. The Council is required to set its treasury management indicators for the years 2016/17 - 2018/19. Appendix 23(a) gives further background in respect of the Prudential Indicators.
402. The Council must set and keep under review how much it can afford to borrow from debt or other long-term liabilities for the forthcoming year and the following two financial years (the Affordable Borrowing Limit). It must have regard to the Prudential Code and locally determined

indicators when setting this limit and be content that capital investment plans are within sustainable limits and that the impact upon future Council Tax payers and tenants is acceptable.

403. It is recommended that the Council approve the following authorised limits (Statutory limit under Section 3(1) of the Local Government Act 2003) and operational boundaries for the next three years (figures for 2015/16 are for comparison only). The undertaking of other long-term liabilities, within the overall limit, is delegated to the Section 151 Officer based on the outcome of financial option appraisals and best value considerations.

Authorised limit for external debt

	2015/16 £m	2016/17 £m	2017/18 £m	2018/19 £m
Limit for external borrowing and other long-term liabilities	781	780	780	780

404. This limit is consistent with known commitments, existing plans and proposals contained within the budget for capital expenditure, financing and revised accounting requirements. It includes landfill provision and is based on the estimated and prudent, but not worst case scenario and in addition with sufficient headroom over and above this to allow for operational management and unforeseen cash movements. The limit for the Council overall has been set at a constant level of £780 million for 2016/17 to 2018/19.
405. Whilst there is currently no self imposed or national imposed overall cap on the level of General Fund borrowing, upon exit from the Housing Subsidy system, HM Treasury required a cap on HRA borrowing to be implemented. Breach of this cap could result in the Council incurring financial penalties from WG. The cap is based on the level of the HRA Capital Financing Requirement at the end of each year. The table below shows that based on HRA business plan forecasts for capital expenditure, capital resources to pay for it and prudent provision for repayment of capital expenditure, the Council is forecast to be within the cap currently set.

	2015/16 £m	2016/17 £m	2017/18 £m	2018/19 £m
HRA CFR forecast at 31 March	277	279	296	302
HRA CFR Current Cap	316	316	316	316
Headroom / (Excess)	39	37	20	14

406. The HRA thirty year business plan will need to be monitored closely in order to ensure that any risks to the breach of the Cap and any unsupported borrowing is prioritised and remains affordable and sustainable in the long term.

Operational boundary for external debt

407. The proposed operational boundary or projected level of external debt (excluding landfill) is initially set at the anticipated level of the CFR at the end of each year. This will be subject to the level and timing of borrowing decisions.

	2015/16 £m	2016/17 £m	2017/18 £m	2018/19 £m
Boundary for external borrowing and other long-term liabilities	665	738	750	757

408. The Council's actual external debt represented by borrowing at 31 March 2015 was £470 million, with no significant other long-term liabilities. The Council's external debt increased significantly in April 2015 due to the £187 million payment of the HRA subsidy buyout payment.

Limits for fixed and variable interest rate exposure

409. Various upper limits are required to be set in order to manage risk and reduce the financial impact on the Council of any adverse movement in interest rates. The limits below reflect that whilst the majority of Council borrowing is currently at long term fixed rates, there could be exposure to variable rates. This is in the form of interest on LOBO loans being changed early, the strategy to utilise internal borrowing where possible and short term external borrowing when required to manage cash flow.

	2015/16 %	2016/17 %	2017/18 %	2018/19 %
Upper limit for fixed interest rate exposure	100	100	100	100
Upper limit for variable rate exposure	25	25	25	25

Maturity structure of fixed rate borrowing

410. Limits are set to guard against a large element of the Council's debt maturing and having to be refinanced in a very short space of time, when it may not be economically favourable to do so. The limits have been set to reflect the current debt portfolio, and to allow enough flexibility to enable new borrowing to be undertaken for the optimum period. The table assumes that loans run to their final maturity, however a separate column is also included to show the maturity profile should the Council repay its LOBO loans early.

Maturity structure of borrowing in 2016/17	Upper limit	Lower limit	Actual to Maturity	Actual if LOBOs Repaid Early
	%	%	%	%
Under 12 months	10	0	0.99	4.64
Over 12 months and within 24 months	10	0	0.82	1.60
Over 24 months and within 5 years	15	0	0.82	4.17
Over 5 years and within 10 years	20	0	2.95	3.05
Over 10 years and within 20 years	30	0	20.96	21.65
Over 20 years and within 30 years	35	0	23.92	22.90
Over 30 years and within 40 years	35	0	26.06	26.92
Over 40 years and within 50 years	35	0	17.79	15.07
Over 50 years and within 60 years	15	0	4.96	0.00
Over 60 years and within 70 years	5	0	0.73	0.00

Investments

Policy

411. The Council has regard to the WG Guidance on Investments issued in 2004 and its subsequent amendments, as well as the 2011 revised CIPFA's Treasury Management in Public Services Code of Practice and Cross Sectoral Guidance Notes (the CIPFA Treasury Management Code).

412. The Council recognises that given the nature of investments, a trade-off between security, liquidity and yield cannot be avoided i.e. there is risk of default. The Council will aim to achieve the optimum return on its investments commensurate with proper levels of security and liquidity, however the level of risk will be contained by ensuring:-

- All investments and repayments are in sterling.
- Investment instruments identified for use in the financial year are listed under 'Specified' investments and 'Non-Specified' investment categories, dependant on their complexity and risk.
- A list of highly credit worthy counterparties with whom to invest is created and monitored.
- Diversification of approach, investment product and counterparties are sought where possible to avoid concentration of risk.
- Any set limits are implemented with immediate effect following approval of this Treasury Management Strategy by Council.
- Continual monitoring of treasury activities with the categories of investments that may be used, the credit criteria and associated limits in determining with whom to invest and timing of decisions being delegated to the Section 151 Officer.

Specified Investments

413. A specified investment is defined as one :

- being for a period up to one year.

- which is in straightforward easily understood low risk products.
- not involving corporate share or loan capital.
- where the principal sum to be repaid at maturity is the same as the initial principal sum invested.

414. Specified investments may comprise up to 100% of the Council's total investments.

Instruments approved for use	Minimum Credit Criteria
Debt Management Agency Deposit Facility	Assumed Government Guarantee
Term deposits – UK government and other Local Authorities	Assumed Government Guarantee
Deposits with the Council's banking services provider	Long-term A /Short-term F1
Term deposits – banks and building societies	Long-term A /Short-term F1
Term deposits with variable rate and variable maturities up to one year e.g. structured investment products	Long-term A /Short-term F1
Deposits with banks wholly or partly nationalised or where guaranteed by high credit rated (sovereign rating) countries	Long-term A /Short-term F1 Assumed Government Guarantee

Non-Specified Investments

415. These are all other investments not meeting the definition of a specified investment which could be used in order to achieve diversification and manage liquidity needs. A maximum upper level of £60 million is to be set for non-specified investments including investments for greater than one year.

Instruments approved for use	Min Credit Criteria	Max % of total investments	Max. maturity period
Term deposits with Local Authorities (with maturities in excess of 1 year)	Assumed Government Guarantee	15	2 Years
Term deposits – banks and building societies (with maturities in excess of 1 year)	Long-term AA- /Short-term F1+	15	2 Years
Deposits over one year with banks wholly or partly nationalised institutions where guaranteed by high credit rated (sovereign rating) countries	Long-term A /Short-term F1 Government Guarantee	20	2 Years
Term deposits with variable rate and variable maturities in excess of 1 year e.g. structured investment products	Long-term AA- /Short-term F1+	10	2 Years

Instruments approved for use	Min Credit Criteria	Max % of total investments	Max. maturity period
Certificates of Deposit (In-house)	Long-term AA- /Short-term F1+	10	Maximum 2 year duration
UK Government Gilts and Gilt funds (In-house)	Assumed Government Guarantee	40	Maximum 3 year duration
Treasury Bills (In-house)	Assumed Government Guarantee	40	6 Months
Collective Investment Scheme structures - Money Market Funds	AAA Constant Net Asset Value	60	Weighted Average Maturity 60 days
Other Collective Investment Schemes structures - e.g. enhanced cash funds, Government and Corporate Bond, Gilt or Liquidity Funds and floating rate notes	AAA Variable Net Asset Value	20	Weighted Average Maturity 3 years

416. The Council uses money market funds and other collective investment funds which pool together investments in a diversified portfolio of products and sectors mainly high quality, short-term money market instruments such as bank deposits, certificates of deposit, government guaranteed bonds, corporate bonds and commercial paper. It should be noted that any such funds are triple A rated and allow instant access.

Security

417. Credit and fraud risk are managed through procedural requirements and controls. The Council uses Fitch Credit ratings as a basis for assessment of credit worthiness of institutions it will invest with (See Appendix 24). Changes in the criteria and decisions with whom to invest are delegated to the Section 151 Officer. Commercial organisations (counterparties) on its approved list will have at least the short-term credit rating of F1 and be authorised institutions within the meaning of the Financial Services and Markets Act 2000. The rating F1 infers “Highest Credit Quality” and indicates the strongest capacity for timely payment of financial commitments.

418. For internally managed investments provided by the private sector, the lending list for any new direct investment in an organisation is based on the following credit criteria:

Fitch Ratings (minimum)	Long-term	Short-term	Limit £m
Overnight to one year	A	F1	10
Overnight to two years	AA-	F1+	12
UK Part Nationalised Banks overnight to two years	A	F1	15

419. For internally managed funds the maximum limit for direct investment in any one group of related companies is £15 million.
420. Credit ratings are monitored regularly through use of the treasury management advisor's credit service. If a downgrade results in the counterparty or investment scheme no longer meeting the Council's criteria, its further use for new investment will be withdrawn immediately.
421. Where investments are held with a counterparty which falls below the Council's approved criteria for new investment, the investments will be reviewed and options to call back funds before the maturity date would be investigated. It should be noted that any early repayment is only at the discretion of the borrower and often at a penalty.
422. Whilst Fitch ratings form the basis of the Council's threshold criteria, the Council will also have regard to the following when determining with whom to invest:
- Rating updates provided by treasury advisors in respect of all three credit rating agencies, as well as credit default swaps, support ratings and other market data.
 - Media reports as well as sovereign credit ratings with the minimum requirement being a Fitch sovereign rating of AA for non UK based institutions.
 - The informed judgement of treasury staff and treasury management advisors after consideration of wider economic factors.
 - Financial sector and country exposure.
 - The extent to which organisations who do not meet the above criteria, are nationalised.

Liquidity

423. The Council aims to have sufficient funds to ensure it does not become a forced borrower for a significant period of time at rates in excess of what may be earned on such investments. In determining the maximum periods for which funds may be available and can be invested, short term cash flow forecasts are undertaken and a longer term balance sheet review is undertaken as part of the calculation of Prudential Code indicators.

Investment Strategy

424. Given uncertainty of financial markets, the Specified and Non Specified investments above allow for a range of products to be available to manage short term investment balances and diversification.
425. Given the likelihood of internal borrowing and the interest rate forecasts identified above, longer term investments above one year will be unlikely. The Debt Management Agency Deposit Facility will be used only as a last resort.
426. The Investment Strategy for 2016/17 will continue to adapt to changing circumstances and market sentiment, with a pragmatic approach taken. Credit criteria changes are delegated to the Section 151 Officer, which allows a prompt response to uncertainties with the Council being kept informed of significant changes through the various reports it receives on treasury activities during the course of the year.

Treasury Management Training

427. Treasury staff directly and regularly involved in borrowing and lending activities are provided access to a wide range of training. This includes seminars and workshops organised by treasury advisors bringing together practitioners from different authorities; seminars organised by CIPFA and other national bodies, regular contact with a client relationship manager as well as their briefing notes and articles. Staff responsible for treasury activity on a day to day basis have a recognised accountancy qualification and are encouraged to undertake relevant treasury management training.
428. The Council's Audit Committee Members who are responsible for scrutiny of treasury management activities have also been provided with training and offered one to one training in order to support their role.

Budgetary Framework

429. Under the Budget and Policy Framework Procedure Rules the Council is able to specify the extent of virement within the budget and the degree of in-year changes. The Council's Financial Procedure Rules also allow virements within directorate budgets as set out in the following table.

Revenue	
Up to £50,000	Relevant Assistant Director in consultation with the Section 151 Officer
Between £50,001 - £250,000	Relevant Director in consultation with the Section 151 Officer
Over £250,000	Cabinet
Capital	
Up to £100,000	Relevant Assistant Director in consultation with the Section 151 Officer
£100,001 - £250,000	Relevant Director in consultation with the Section 151 Officer
Over £250,000	Cabinet

430. It is proposed to continue the current policy whereby the Cabinet has the authority to vire amounts between directorates of up to £500,000 and, subject to the Section 151 Officer raising no objection, to use reserves and to commit expenditure in future years up to a total in the year of £1.5 million.
431. In addition to the virements shown above, the Section 151 Officer will also undertake all necessary technical adjustments to the budgets and accounts during the year and reflect any changes to the accounting structure as a result of management and organisational changes within the Council.

Reason for Recommendations

432. To enable the Cabinet to recommend to Council approval of:
- the Revenue and Capital budget and to set the Council Tax for 2016/17.
 - the budget for the Housing Revenue Account.
 - the Treasury Management Strategy.
 - the Prudential Code for Borrowing indicators for 2016/17-2018/19.
 - the Capital Programme for 2016/17 and the indicative programme to 2019/20, delegating to the Section 151 Officer authority to bring forward or delay schemes within the programme to match resources where necessary.
 - the Minimum Revenue Provision Policy for 2016/17.
433. To enable the Cabinet to recommend to Council:
- that in the event that the final settlement figure differs from the provisional figure a proportionate adjustment to the general reserves is made.
 - that the City Deal Document be signed on behalf of the Council (on the understanding that the document will provide that the Final City Deal Document will be subject to the agreement of the Council).
434. To enable Cabinet to:
- approve the level of fees and charges for Council goods and services for 2016/17.
 - approve the level of rent and charges for 2016/17 in respect of Council Houses, garages and other service charges.
 - approve the Supporting People Spending Plan for 2016/17.
 - Note the work undertaken to raise awareness of and ensure the financial resilience of the Council.
 - note the financial challenges facing the Council as set out in the Medium Term Financial Plan.

- note the opportunities for savings over the medium term and that officers will continue to develop them to inform the Budget Strategy Report in July 2016.
- approve the Day Opportunities Strategy and its implementation.

HR Implications

435. Whilst the additional resources received through the Provisional Welsh Government settlement were better than anticipated, the overall budgetary position is still challenging. The additional monies has enabled the Cabinet to modify some proposals based on the outcome of the consultation exercise and enhance provision for the priorities set out in the Corporate Plan. The final Council proposed budgetary position as outlined in this report represents a necessary response to the identified budget gap. Appendix 10 shows that there will be a net reduction of 135 full-time equivalent (fte) Council posts overall made up of the deletion of 165.5 ftes offset by the creation of 30.5 ftes. This reflects posts deleted through a combination of vacant posts, redeployment and voluntary severance. There are still a number yet to be determined .The figures do not however include the potential fte impact of TUPE which may result from the implementation of alternative models of service delivery.
436. Whilst the numbers of staff impacted by this final budget proposal may not be as significant as in previous years, the Council retains a range of mechanisms designed to support the people implications of the Council's budget proposals. Through the continued use of such mechanisms, the Council will continue to work hard wherever possible to reduce the number of compulsory redundancies. In addition to redeployment, other mechanisms include use of flexible working policies plus access to skills support through Cardiff Council Academy and Trade Union Learning Representatives (TULR). Access to skills training either through the Academy and TULRs will continue to support staff in either refreshing their existing skills or developing new skills in order to enhance their opportunities to find another role in the Council or externally.
437. The revised budget includes a sum of £700,000 in 2016/17 to support employees in embracing change and methods of working as the Council implements the budget proposals. This sum will be used to enhance training provided by the Council's Academy, support Workforce initiatives through the Organisational Development Programme and enable improvements to be made to performance management arrangements.
438. Cabinet on 21st January 2016 determined that the Council's Voluntary Redundancy Scheme will remain unchanged for 2016/17. The decision was made after consultation with the Trade Unions and a detailed review of Voluntary Redundancy (VS) schemes operated in other Welsh Local Authorities which highlighted that Cardiff's current scheme continues to be broadly comparable with other Welsh authorities. Cabinet also recognised, in the light of the ongoing budgetary challenges, that it will be important that the Council's Voluntary Redundancy Scheme continues to attract sufficient numbers of volunteers. All the Trade Unions were

clear that they wanted the Council's scheme to remain unchanged. The scheme will be reviewed annually with the next review due in early 2017.

439. In addition to the employee savings included within directorates' proposals, the following Council-wide savings also impact on the workforce :

- An efficiency saving in respect of the overall employee budget (£270,000).
- A reduction in the number of agency staff employed as a direct result of improved levels of sickness absence (£300,000).
- A managed reduction in general use of agency staff resulting in a saving of £450,000.

440. The Council will need to continue to progress the development of new organisational operating models of delivering key services including identifying and progressing opportunities to work in collaboration with others. The implications for staff of future operating models will continue to be subject to full consultation with Trade Unions. The Trade Unions have been consulted throughout the budget planning process and their comments have been considered. As part of the Council's commitment to partnership working, the Trade Unions will continue to be involved in all the proposals which impact on staff.

Legal Implications

441. The budget report sets out certain duties and constraints in relation to setting a balanced budget and Council Tax. They form part of the legal implications to which the decision maker must address its mind notwithstanding that they are not repeated in this section of the report.

Budget duties

442. The Local Government Finance Act 1992 (LGFA 1992) requires the Council to set a balanced budget, including the level of the Council tax. This means the income from all sources must meet the proposed expenditure. Best estimates must be employed to identify all anticipated expenditure and resources.

443. The approval of the Council's budget and Council Tax, and the adoption of a final strategy for the control of the Council's borrowing or capital expenditure are matters reserved, by law, to full Council. However, the Cabinet has responsibility for preparing, revising and submitting to Council estimates of the various amounts which must be aggregated in making the calculations required in order to set the budget and the Council tax; and may make recommendations on the borrowing and capital expenditure strategy. (Pursuant to the Local Authorities (Executive Arrangements) (Functions and Responsibilities) (Wales) Regulations 2007.)

444. Local authorities must decide every year how much income they are going to raise from Council Tax. This decision must be based on a

budget that sets out estimates of what the Council plans to spend on services. As the Council Tax must be set at the start of the financial year and cannot be increased during the year, consideration must be given to risks and uncertainties, and allowances made in funds for contingencies and reserves.

445. The budget and the Council Tax must be set by 11th March in the preceding financial year. A failure to comply with the time limit may leave the Council open to challenge by way of judicial review.
446. When the Council is considering its budget, it must have regard to the Section 151 Officer's report on the robustness of the estimates and the adequacy of the reserves in the budget proposals (section 25 of the Local Government Act 2003). This ensures that Members make their decision on the basis of authoritative advice. Members should provide clear reasons if they disagree with the professional advice of the Section 151 Officer.
447. Members will note from the body of the report that the proposed budget is based on the Welsh Government's Provisional Settlement figure, and that there is not expected to be any significant variation in the Final Settlement to be announced in March 2016. However, in the event that the Final Settlement differs from the Provisional Settlement figure, the recommendation is that such variation should be managed by a proportionate adjustment of the general reserves (as set out in the body of the report), without changing the level of the Council tax or the budget for services. Provided Members are content with the robustness of the estimates and the sufficiency of reserves, as certified by the Section 151 Officer, there is no impediment to the Council Tax (and budget) being approved on this basis.
448. Members should note that, after the Council has approved its budget and Council Tax, it is possible for the Council to make substitute calculations during the year (although the basic amount of Council Tax cannot be increased), but a change in the amount of the Revenue Support Grant from Welsh Government (whether higher or lower than the Provisional Settlement figure) is not, by law, allowed to lead to a recalculation of the Council Tax payable (s.37 LGFA 1992).
449. The Local Government Act 2003 establishes a system to regulate the capital expenditure and borrowing of the Council. The heart of the prudential borrowing system is the duty imposed upon authorities to determine and keep under review how much money they can afford to borrow. The Local Authorities (Capital Financing and Accounting) (Wales) Regulations 2003 (as amended) specify the prudential code for capital finance to which local authorities in Wales must have regard in setting and reviewing their affordable borrowing limits (sections 3 and 5 of the 2003 Act).
450. The Local Government & Housing Act 1989 Part VI sets a statutory regime for housing finance. The Council has a general duty to review the rents of its houses from time to time and in fixing rents the Council must

have regard, in particular, to the principle that the rents of dwellings of any class or description should bear broadly the same proportion to private sector market rents as the rents of dwellings of any other class or description. The review of the rents is a Cabinet function, and is undertaken with regard to the provisions of Part VI of the 1989 Act which governs housing finance and housing subsidy. Rents for council houses are a credit to the HRA and outgoings a debit. The Council is under a duty to prevent a debit balance on the HRA which is ring-fenced. There are restrictions in the way in which the account can be operated and the proposals in this report must comply with these accounting requirements to ensure that the rent should be set so as to ensure that the Council is able to comply with its duty to prevent a debit balance arising on the HRA.

City Deal Legal Implications

451. The body of the report contains provision relating to the City Deal. Legal Services are instructed that an agreement (referred to as the City Deal Document) is being prepared and that its terms must be kept confidential until the City Deal Document is agreed, signed and made public. Accordingly, this legal advice is based on the current understanding of the City Deal Document, as being developed. Key points to note are that the City Deal Document will provide an outline of the proposed terms for the final City Deal agreement between the ten local authorities, Welsh Government and UK Government, including the proposed governance arrangements and funding obligations.
452. Importantly, the City Deal Document will make clear that final agreement will be conditional upon a number of matters, including agreement by each of the constituent councils. That said, the signing of the City Deal Document will serve to act as a public recognition of the Council's commitment to the successful development of the City Deal and as such will create an expectation that the Council will actively seek to progress matters. The City Deal Document in effect acts as a step in the process of developing the final City Deal arrangements.
453. In terms of governance arrangements as between the 10 local authorities, the City Deal Document is premised on the authorities establishing a joint committee, to which the authorities would delegate certain powers. The joint committee would be referred to as the Cardiff Capital Region Joint Cabinet. In brief, it is understood that the rationale for recommending the joint committee model is that this model allows for certain functions (a range of activities) to be carried out jointly by the authorities and therefore on a collaborative basis. The joint committee model provides for member representation and decision making. It also has the advantages of being a well established model, which is familiar to the ten local authorities.
454. In order to establish the Joint committee there will be need for an agreement as between the ten authorities (sometimes referred to as a joint working agreement), which agreement will serve to set out, amongst

other things; the matters delegated to the Committee, its membership, quorum, voting rights and financial arrangements.

455. A considerable amount of work will be required in terms of developing the final city deal agreements.
456. The generic provisions of this legal advice should also be taken in to account in developing the City Deal, namely the advice as regards consultation, the statutory equality duty, and the matters referred to under the heading 'General'.

Equality Duty

457. The Council has to satisfy its public sector duties under the Equalities Act 2010 (including specific Welsh public sector duties) – the Public Sector Equality Duties (PSED). These duties require the Council to have due regard to the need to (1) eliminate unlawful discrimination, (2) advance equality of opportunity and (3) foster good relations on the basis of 'protected characteristics'.
458. The 'Protected characteristics' are:
 - Age
 - Gender reassignment
 - Sex
 - Race – including ethnic or national origin, colour or nationality
 - Disability
 - Pregnancy and maternity
 - Marriage and civil partnership
 - Sexual orientation
 - Religion or belief – including lack of belief
459. As noted in the report, the PSED requires the Council to carry out Equality Impact Assessments in relation to many of the savings proposals, to ensure that the decision maker has understood the potential impacts of the proposals in terms of equality. This assists the decision maker to ensure that it is making proportionate and rational decisions having due regard to the public sector equality duty.
460. Where a decision is likely to result in a detrimental impact on any group sharing a Protected Characteristic, consideration must be given to possible ways to mitigate the harm. If the harm cannot be avoided, the decision maker must balance the detrimental impact against the strength of the legitimate public need to pursue the service remodelling to deliver savings. The decision maker must be satisfied that having regard to all the relevant circumstances and the PSED, the proposals can be justified, and that all reasonable efforts have been made to mitigate the harm.
461. It is noted that Equality Impact Assessments (which include consideration of views and information obtained through consultation) have been undertaken in respect of the relevant proposals and are

available on the Council's website and as background papers to this report.

462. The decision maker must consider and have due regard to the Equality Impact Assessment prior to making the decisions recommended in the report.

Employee and Trade Union Consultation

463. The report recognises that notwithstanding efforts to reduce impacts on staff resulting from the level of funding cuts imposed, there will be staff reductions during the financial year 2016/17. Since the Budget Strategy Report was approved in July last year engagement has been ongoing between Directors and Trade Unions to discuss budget saving implications. The Council has formally consulted with Trade Unions about the 2016/17 budget proposals and the likely impact on staff, particularly where posts are at risk of redundancy. Under the general law relating to unfair dismissal all proposals to make redundancies must involve reasonable consultation with the affected employees and their trade unions.
464. Due to the potential number of redundancies Section 188 of the Trade Union and Labour Relations (Consolidation) Act 1992 requires consultation to be undertaken with the Unions to include ways of avoiding the dismissals, of reducing numbers of employees being dismissed and or mitigating the consequences of dismissals. The relevant notice has been issued by the Chief Executive and the consultations are ongoing

Charging

465. Each proposal to make or increase charges must comply with the statutory framework (including primary and secondary legislation and any statutory guidance issued) relating to the activity in respect of which charges are being levied, including any limitations on levels of charges.
466. Where reliance is placed on the power to charge for discretionary services (Section 93 of the Local Government Act 2003), any charges must be set so that when the charges are taken as a whole no surpluses are made (i.e. the power is limited to cost recovery).
467. In relation to certain activities which are subject to authorisation by the Council (e.g. licences), the Provision of Services Regulations 2009 prevent the recovery of charges in excess of the cost of the procedures and formalities under the scheme of authorisation, (i.e. the Council is permitted to recover costs only), and such costs must also be reasonable and proportionate.
468. Where activities are being undertaken for which charges are being made with the intention of producing surplus income, it is necessary to consider whether that activity is material and would amount to "commercial trading". For commercial trading, the Council must develop a business

case and establish an arms' length company to undertake that activity (in accordance with the general trading power under Section 95 Local Government Act 2003), or identify another statutory power for a particular trading activity.

Consultation

469. Duties to consult certain stakeholders in respect of proposals may arise from a number of different sources.
470. Members will note that the Council has engaged in consultations as part of the 2016/17 budget process as set out earlier in the report under the heading "Consultation and Engagement".
471. In considering this matter, Members must genuinely and conscientiously consider the feedback from each consultation and have proper regard to it when making any decision in relation to the subject matter of that consultation. Members should carefully consider the results of the consultation as set out in Appendix 1.

General

472. All decisions taken by or on behalf of the Council must:
- Be within the legal powers of the Council and of the body or person exercising powers on behalf of the Council.
 - Comply with any procedural requirement imposed by law.
 - Be undertaken in accordance with procedural requirements imposed by the Council e.g. procedure rules.
 - Be fully and properly informed.
 - Be properly motivated (i.e. for an appropriate, good and relevant reason).
 - Be taken having regard to the Council's fiduciary duty to its tax payers as elected members are trustees of the public interest and of its statutory purposes for which public powers are conferred on them. This general duty requires the Council to act prudently and in good faith in the interests of those to whom the duty is owed.
 - Otherwise be reasonable and proper in all the circumstances.

Financial Implications

473. The financial implications are written within the context of this report while the following paragraphs summarise the significant points and related financial matters. Given the materiality of the current and forthcoming financial challenges, it is important that the level of detail in the report and financial implications is considered. Of interest is a similar message that was included in the 1937 Financial Report of Cardiff Corporation which stated that "*The reader, at the cost of patient thought, may find herein some little entertainment and more certainly much information.*" G.W. Barker, City Treasurer.

474. The financial outlook over the medium term remains a concern and the Medium Term Financial Plan details these challenges in respect of ongoing financial austerity, increasing financial pressures and the difficulty of setting and realising year on year budget savings.
475. The budget for 2016/17 has been compiled against the backdrop of continued financial constraint with many expert commentators suggesting that although the budget reductions in the next period may not be as severe as previously anticipated, the period of austerity is still likely to last until the end of the decade.
476. Usually this budget proposal is based on the Provisional Local Government Revenue Settlement. This is due to the Budget timetable adopted by the Welsh Government which is in itself a consequence of the publication date of the UK Government's Comprehensive Spending Review in November 2015.
477. The details included in the Provisional Local Government Revenue Settlement announced in December 2015 confirmed that for the third year running Cardiff has suffered an absolute reduction in the amount of RSG received. For 2016/17 this resulted in a decrease of £301,000 but a decrease of £12.8 million over the period since 2014/15.
478. The Cabinet in its budget strategy and subsequent budget proposal has been conscious of the impact its proposal may have on the citizens and communities of Cardiff. The specific budget proposals have been subject to a period of public scrutiny lasting for over four weeks and responses to this consultation have been reflected on by Cabinet and senior officers as part of their final deliberations. The budget has, therefore, considered the issues raised having regard to the WG Settlement and in conjunction with the priorities in the draft Corporate Plan.
479. The budget proposals set out in this report will result in significant operational and financial challenges as evidenced by the risk assessment exercise. The outcome of these challenges will be monitored through directorate plans, performance reports and the Corporate Risk Register when reported to Cabinet, Scrutiny Committees, Audit Committee and the Senior Management Team.
480. Particular changes for 2016/17 and the medium term have been identified and are set out in paragraphs 68 & 69 of the report with the most significant being:
- the challenging financial position in respect of reducing WG resources, increasing financial pressures against a reducing controllable base budget together with increasing volatility and uncertainty of hypothecated grants
 - the need to deliver significant levels of savings during a period of prolonged financial austerity particularly given the impact that delays in achievement of savings has on the budget monitoring position

- the impact of the potential adoption of alternative models of service delivery and the requirement to test consequential costs and benefits of the change
 - continuing demographic demand for social services if trendlines vary significantly from the anticipated position
 - the risk of WG levying fines if the Council fails to achieve the required recycling rates
 - the level of additional borrowing undertaken will require more revenue resources to be used for capital financing in future years.
481. The budget process has been rigorous and has utilised the expertise of officers in directorates across the Council. In particular a Reshaping the Base Budget approach was established to develop the targets for 2016/17 which involved both Cabinet members and the Senior Management Team in working closely together. This approach looked to initially identify the shape of services and then understand their link to strategic priorities. These discussions acknowledged the difficult policy choices ahead but also identified that given the scale of the challenge that choices were severely constrained. The Reshaping the Base Budget exercise identified services at their minimum statutory level and for discretionary services considered whether they could be self-funding. These opportunities were then mapped against the achievability for implementation, residual risk and policy acceptability to provide the shape of savings targets over both one and three years. These targets were then developed into savings proposals which became the basis for the proposals published for consultation in December 2015.
482. In formulating their budget, the Cabinet must come to a balanced judgement between the need to provide for services and the financial impact of the cost of those service needs on Council Tax payers. In coming to this judgement and as a result of the impact of the WG's financial settlements, the Council's budget now amounts to £578.161 million.
483. It should be noted that although the Council received a better than anticipated WG Settlement, the budget for 2016/17 still contains a significant element of risk and complex savings proposals will need to be relentlessly driven if they are all to be achieved. In summary, the revenue budget proposal includes:
- Savings of £20.3 million from directorate proposals, £5.6 million from addressable spend savings and £2.9 million in respect of council-wide efficiencies.
 - Continuation of the General Contingency of £4 million to mitigate the achievability risks associated with the level of savings to be delivered.
 - Continuation of the Specific Issues contingencies of £2.468 million broken down between £950,000 for external placement costs in Children's Services, £350,000 to protect against price volatility in the MRF and £1.168 million to recognise the difficulty of predicting Waste Disposal tonnages.

- Directorate financial pressures awarded amounting to £2.2 million together with one-off funding of £700,000 for workforce development, £500,000 for developing the Cardiff Commitment and Apprenticeship scheme and £250,000 to support city development initiatives.
- Reinstatement of budget savings amounting to £3.029 million outstanding from 2015/16 and 2014/15 where following review they are deemed to be no longer achievable.
- The use of £2.07 million from reserves to support the budget based on a review of the Council's Balance Sheet which includes the release of part of the former provision for Council Tax Bad Debts.
- Introduction of a new mechanism of £4 million to reduce future risk, improve financial resilience and allow one off investment and development in priority areas.
- Estimated reduction of 165.5 fte posts partially offset by the creation of 25.5 fte permanent posts and 5 fte temporary arrangements.
- Increase in the Schools Budget of £11.2 million (5.4%) including both demographic and 75% of non-demographic growth.
- A Council Tax increase of 3.7% resulting in a Band D charge of £1,060.29.

484. Within the budget proposals are a number of initiatives that require option appraisal, complex procurement arrangements and the implementation of new operating or delivery models. This work will need to be completed within strict timescales in order that the budgeted level of savings are achieved. A number of the budget proposals require the development of a commercial ethos that will enable the authority to respond speedily to market shifts and financial opportunities whilst maintaining a hold on risk, however the Council will have to be realistic with its ambitions for commercialism. The Investment Review Board will continue to be the forum to test these matters before they progress to the appropriate formal governance routes. In Addition it is important that the Council retains sufficient support capacity to manage the transition to a lower financially sustainable cost base.

485. The continuing financial challenges are such that the financial resilience snapshots introduced in 2015/16 will continue to be prepared and used to raise members overall awareness of financial matters. The position in respect of risks and reserves will require careful monitoring throughout the financial year, particularly in light of the achievability of savings and the further financial interventions that may be required.

486. The level of School Balances requires close attention as negative overall balances are being predicted throughout the medium term. Significant deficits are being carried by a minority of secondary schools and this together with the temporary use of reserves to fund 2014/15 voluntary redundancies has resulted in this position. Council officers will continue to support schools to ensure that spending plans are in alignment with their budgets and deficit balances are avoided or reduced.

487. The Medium Term Financial Plan set out in paragraphs 165 to 225 uses the best available information to assess the financial challenges facing the Council over the next three years. It is clear that anticipated

resources will not cover emerging financial pressures and the resulting funding gap will need to be addressed through a combination of directorate budget reductions, commercialisation of services, use of reserves and increases in the rate of Council Tax. Although the Council has made almost £200 million savings over the past decade, the base budget has not reduced by this amount. This is because the most significant driver for the Council to find savings is escalating demand, as illustrated by the graph below.

488. The following table demonstrates the funding gaps forecast to 2019/20 using sensitivity analysis to demonstrate a further potential adverse position.

Medium Term Financial Plan	2017/18	2018/19	2019/20	Total
	£000	£000	£000	£000
Base Case	24,663	22,831	25,753	73,247
Worse Case	33,231	31,306	33,719	98,256

489. Following the significant cuts that the Council has made in the recent past, either of the above scenarios confirms the position expressed in the 2015/16 Budget Report that radical changes must be made to the shape of the organisation in order for it to remain operational and resilient. During 2015/16 work has begun in earnest on developing the case for alternative delivery models for leisure services, cultural venues and infrastructure services but this work now needs to be driven to its conclusion and robust decisions taken and implemented without delay.

490. The table above shows a base case scenario Budget Reduction Gap of £73 million over the next three years and while proposals to meet the gap in the final year are yet to be determined it is clear that the Council will need to look to increase digitalisation of services and back office functions, be more commercial in its approach, benefit from current investment in preventative strategies and implement new service delivery models where appropriate. The Organisation Development Programme

continues to play a key role in understanding these challenges and considering how the Council can be realigned to a lower, financially sustainable base. For 2017/18 and 2018/19 savings options are being developed as set out in Appendix 17(b) and work will continue apace on 2017/18 proposals so that the Budget Strategy Report in July 2016 will include firmer proposals than has been the case previously.

491. Notwithstanding the importance of the three year time horizon for medium term planning, the financial climate in Welsh Local Government is such that councils also need to consider likely impacts beyond that timeframe including Local Government Reorganisation. This is because the cumulative impact of decisions taken now, or not taken, can have a significant impact on the Council's budget in later years and it may be that current policies are considered unaffordable when viewed over an extended timeframe.
492. The Council has a statutory duty to ensure that the HRA achieves a balanced budget and this has been evidenced in this budget proposal. The average weekly increase in housing rents of £3.10 is within the WG's Target Rent Band.
493. During 2015/16 the Council, along with all other Welsh Councils with housing stock, exited the former Housing Revenue Account Subsidy System. The net impact of this change is an estimated £3.4 million annual revenue benefit which is to be retained for investment on enhancing the condition of existing housing stock and development of new stock. The Revenue Budget Capital Programme and Treasury Management Sections of the report all reflect the above change.
494. The Consolidated Financial Model for the SOP brings together the projected capital expenditure and funding schedule over the life of the initiative. The model is designed to be self-funding and the projects are included within the Council's Capital Programme to be commenced once the particular scheme business plan has been approved by WG. However, the resultant significant financial exposure for the Council demands that close monitoring of the key risks is continued, contract management is robust and issues are escalated where necessary.
495. The inclusion of schemes in the Capital Programme have been profiled in accordance with technical advice relating to regulatory processes, timetables, expectation of grants and workflow priorities. In previous years the Council has experienced significant slippage of capital schemes which has prompted adverse comments from the WAO. Consequently, capital scheme sponsors have again been reminded of the importance of robust profiling in order that capital plans are achieved as expected. Nevertheless, with such an extensive programme there is a residual risk that expenditure will slip between years and so any resultant impact on the programme will be addressed through the monitoring process in 2016/17.

496. Robust control of project costs is another area where issues have been in evidence and so it is important that Directors give sufficient weight to good contract management capacity when allocating resources.
497. Resources to finance the General Fund Capital Programme between 2016/17 and 2020/21 include non-earmarked capital receipts to be achieved of £7 million. Additional borrowing of £90.5 million is also required to resource the programme and is made up of:

Additional borrowing	£m
To support estimated slippage from 2015/16	4.0
Capital Programme 2016/17 approved in February 2015	11.4
Finance for new schemes to be approved in February 2016	11.6
Invest to save schemes	63.5
Total	90.5

498. Particular attention needs to be given to the medium and long term impact of additional borrowing on the Council's revenue budget as it is clear that continuing to increase levels of additional borrowing within the General Fund is not consistent with the significant levels of savings required to be found. Accordingly, local affordability indicators have been developed to track the impact of decisions in the medium term although this is also impacted by reductions in the level of RSG received. It should be noted that whilst approving the Capital Programme for the period up to 2020/21, Cabinet should be aware that the later years of the Programme, together with any material commitments entered into in respect of these later years, will be subject to an ongoing review of the Council's financial resilience.
499. An example of this will be to consider the impact of Cardiff's contribution to the Cardiff Capital Region City Deal at the appropriate time. This may require a further report to Council not only in respect of the Budgetary Framework but also should changes to the Treasury Management Strategy be required.
500. In the current extensive period of significant budget reductions and consequential loss of employee resources, financial control continues to be of fundamental importance. It is vital that responsible officers take ownership of their budgets and that expenditure remains within the approved positions. Compliance with financial rules and governance requirements is expected and this will continue to be monitored and reported regularly as part of performance management arrangements.
501. In concluding the financial implications of this Budget Report and in recognition of the continuing financial challenge facing the Council, I would bring the following statement to members' attention.
502. *"In the financial implications of the 2015/16 Budget Report I referred to the materiality of the service choices ahead of the Council and that those difficult choices were facing all Councils. The 2016/17 Budget Strategy responded to this challenge through development of the reshaping of the Base Budget approach to determining targets for directorates over the*

medium term. However until the decisions in respect of radical service changes are taken and the changes implemented, the risk remains that the Council may not be able to achieve financial savings of sufficient magnitude to meet the target savings. I will keep this under review and report progress to members as part of the financial monitoring regime. As well as highlighting the financial challenges in the medium term, the role of the Section 151 officer is to advise members if the Cabinet risks setting an unbalanced budget. I do not consider this to be the case in 2016/17."

Cabinet Consideration

503. The Cabinet considered the budget proposals on 18 February 2016 and having taken account of the comments of the Section 151 Officer in respect of the budget and the adequacy of reserves as required under Section 25 of the Local Government Act 2003 and having considered the responses to the Budget Consultation resolved that:
- 1.0 the changes to fees and charges as set out in Appendix 11 to this report be approved
 - 2.0 authority be delegated to the appropriate Director in consultation with the Section 151 Officer and the Cabinet Member for Corporate Services & Performance to amend or introduce new fees and charges during the year.
 - 3.0 the rents of all Housing Revenue Account dwellings (including hostels and garages) be increased having taken account of WG guidance.
 - 4.0 all service charges and the management fee for leaseholders as set out in Appendix 11(b) be approved
 - 5.0 all Housing Revenue Account rent increases take effect from 4 April 2016.
 - 6.0 the work undertaken to raise awareness of the financial resilience of the Council be recognised and the steps taken within the budget to improve this position be approved
 - 7.0 the financial challenges facing the Council as set out in the Medium Term Financial Plan be recognised and the opportunities for savings over the medium term be noted
 - 8.0 the Supporting People Spending Plan for 2016/17 as set out in Appendix 15 be approved
 - 9.0 the Day Opportunities Strategy and its implementation be approved.

CABINET PROPOSAL

The Cabinet, having taken account of the comments of the Corporate Director Resources in respect of the robustness of the budget and the adequacy of reserves as required under Section 25 of the Local Government Act 2003, and having considered the responses received to the Budget Consultation recommend that Council:

1.0 Approve the Revenue, Capital and Housing Revenue Account budgets including all proposals and increasing the Council Tax by 3.7% as set out in this report and that the Council resolve the following terms.

2.0 Note that at the Cabinet meeting on 10 December 2015 the Council calculated the following amounts for the year 2016/17 in accordance with the regulations made under Section 33(5) of the Local Government Finance Act 1992:-

a) 141,288 being the amount calculated in accordance with Regulation 3 of the Local Authorities (Calculation of Council Tax Base) (Wales) Regulations 1995, as amended, as its Council Tax base for the year.

b)	Lisvane	2,347
	Pentyrch	3,184
	Radyr	3,655
	St. Fagans	1,234
	Old St. Mellons	1,289
	Tongwynlais	812

being the amounts calculated in accordance with Regulation 6 of the Regulations as the amounts of its Council Tax base for the year for dwellings in those parts of its area to which special items relate.

2.1 Agree that the following amounts be now calculated by the County Council of the City and County of Cardiff for the year 2016/17 in accordance with Sections 32 to 36 of the Local Government Finance Act 1992:-

a) Aggregate of the amounts which the Council estimates for the items set out in Section 32(2)(a) to (d) (including Community Council precepts totalling £296,100).
£1,048,880,100

b) Aggregate of the amounts which the Council estimates for items set out in Section 32(3)(a) and (c).
£472,793,000

c) Amount by which the aggregate at 2.1(a) above exceeds the aggregate at 2.1(b) above calculated in accordance with Section 32(4) as the budget requirement for the year.
£576,087,100

- d) Aggregate of the sums which the Council estimates will be payable for the year into its Council Fund in respect of Revenue Support Grant, its Council Tax Reduction Scheme, redistributed Non-Domestic Rates.

£426,284,786

- e) The amount at 2.1(c) above less the amount at 2.1(d) (net of the amount for discretionary relief of £300,000), all divided by the amount at 2.0(a) above, calculated in accordance with Section 33(1) as the basic amount of Council Tax for the year.

£1,062.39

- f) Aggregate amount of all special items referred to in Section 34(1).

£296,100

- g) Amount at 2.1(e) above less the result given by dividing the amount at 2.1(f) above by the amount at 2.0(a) above, in accordance with Section 34(2) of the Act, as the basic amount of Council Tax for the year for dwellings in those parts of the area to which no special items relate.

£1,060.29

- h) The amounts given by adding to the amount at 2.1(g) above the amounts of special items relating to dwellings in those part of the council's area mentioned below, divided in each case by the amount at 2.0(b) above, calculated in accordance with Section 34(3) as the basic amounts of Council Tax for the year for dwellings in those parts of the area to which special items relate.

	£
Lisvane	1,074.78
Pentyrch	1,086.99
Radyr	1,091.07
St. Fagans	1,074.88
Old St. Mellons	1,081.70
Tongwynlais	1,083.72

- i) The amounts given by multiplying the amounts at 2.1(g) and 2.1(h) above by the number which in the proportion set out in the Council Tax (Valuation Bands) (Wales) Order 2003 is applicable to dwellings listed in a particular valuation band divided by the number which in that proportion is applicable to dwellings listed in valuation band D calculated in accordance with Section 36(1) of the Act as the amounts to be taken into account for the year in respect of categories of dwellings listed in different valuation bands.

- 2.4 Authorise the Corporate Director Resources to make payments under Section 38 of the Local Government (Wales) Act 1994 from the Council Fund by equal instalments on the last working day of each month from April 2016 to March 2017 in respect of the precept levied by the Police and Crime Commissioner for South Wales in the sum of £29,366,937.

- 2.5 Agree that the Common Seal be affixed to the said Council Tax.

- 2.6 Agree that the Common Seal be affixed to precepts for Port Health Expenses for the period 1 April 2016 to 31 March 2017 namely

	£
The County Council of the City and County of Cardiff	114,904
The Vale of Glamorgan County Borough Council	12,976

- 2.7 Agree that notices of the making of the said Council Taxes signed by the Chief Executive be given by advertisement in the local press under Section 38(2) of the Local Government Finance Act 1992.
- 2.8 In the event that the final settlement figure differs from the provisional figure, the Council approve a proportionate adjustment to the general reserves.
- 3.0 Approve the Prudential Indicators for 2016/17, 2017/18 & 2018/19 delegating to the Section 151 Officer the authority to effect movement between the limits for borrowing and long term liabilities within the limit for any year.
- 4.0 Approve the Treasury Management Strategy for 2016/17 in accordance with the Local Government Act 2013 and the Local Authority (Capital Finance & Accountancy) (Wales) Regulations 2003 and subsequent amendments.
- 5.0 Approve the Minimum Revenue Provision Policy for 2016/17.
- 6.0 Authorise the Section 151 Officer to raise such funds as may be required to finance capital expenditure by temporary or long term borrowing within the limits outlined above, and to bring forward or delay schemes within the Capital Programme.
- 7.0 Maintain the current Council Tax Reduction Scheme as set out in the report.
- 8.0 Resolve that the City Deal Document referred to in paragraph 235 to 239 of the report be signed on behalf of the Council (on the understanding that the document will provide that it will be subject to the agreement of the Full Council). Pursuant to the City Deal Document the Council continues to work with the Cardiff Capital Region partner local authorities, UK and the Welsh Government to develop the final City Deal Agreements, and further reports on this matter be submitted to Council as appropriate to keep members apprised of developments.

Changes for Cardiff

Results and Feedback Report

1. Executive Summary

This Executive Summary provides an overview of the Budget Consultation exercise. It is not a detailed summary of the full report, but an articulation of some of the key findings.

1.1 Background

The consultation on the *Changes for Cardiff* Budget Proposals ran from 11th December 2015 until 12th January 2016. The city-wide public consultation was communicated and shared through a range of mechanisms, whilst face-to-face engagement events were undertaken in locations across the city.

The consultation took three forms:

- **City-wide public consultation** on issues of general interest set out in the [“Changes for Cardiff”](#) document
- **Service-specific consultation** with identified service users/groups or organisations.
- **General consultation** – this included all of the Council’s other savings that have been released for consultation, including internal changes within the Council such as; back office efficiencies, staff changes and process improvements.

A full set of the proposals can be seen at www.cardiff.gov.uk/budget.

Changes for Cardiff

Results and Feedback Report

1.2 Headline Figures

3,348 people took the time to complete the *Changes for Cardiff* questionnaire and public views were also given via petitions, social media, attendance at 'drop-in' public engagement events, and through correspondence.

From those completing the survey in response to the 2016/17 budget proposals, the following headline figures can be seen. Please note that numbers in brackets indicate responses:

Do you recognise that a budget gap of a potential £45.6m for 2016/17 means that difficult budget choices are required?

Do you support the Council in exploring new ways of working with other organisations to deliver its services?

Would you support the Council charging more for some services if it meant that they could be continued? (e.g. meals for older people, leisure and cultural activities, etc.)

Do you support the increased digitalisation of services which will encourage residents to contact the Council and make payments online, while maintaining face-to-face and phone methods for those who need it most?

Changes for Cardiff

Results and Feedback Report

Do you think that community groups and the third sector should be asked to run more services and facilities? (e.g. running local community buildings, maintaining local open spaces etc.)

Is an emphasis on early intervention and prevention an approach that you support?

Do you agree with the new model of day service provision?

Do you agree with the proposal to continue the Meals on Wheels service?

Do you support the Council's plan to deliver care services on an area basis?

Changes for Cardiff

Results and Feedback Report

Do you agree that delegated school budgets should contribute to the financial challenge facing the Council?

Do you agree with our new model for play services being delivered from a range of community facilities?

Do you agree with the City of Cardiff Council's decision to cease funding? (Cardiff Contemporary Initiative)

Do you support the decision to cease funding for Arts Active?

Do you agree with a phased removal of the grant for Artes Mundi?

Changes for Cardiff

Results and Feedback Report

Do you agree with a phased removal of the grant for Cardiff Singer of the World?

Do you believe that the private sector, including pubs and clubs, should make a financial contribution to managing the night-time economy in Cardiff?

Do you support further enforcement activities with increased fines for non-compliance?

Do you support a different grounds maintenance regime being considered?

Changes for Cardiff

Results and Feedback Report

1.3 Overarching Themes

It is clear that respondents to *Changes for Cardiff* recognise that the financial challenge, alongside other service demand pressures, means that difficult budget choices are required. This understanding is reflected throughout the responses to the Council's budget consultation, with broad support for many of the proposals, notably for the Council to explore new ways of working and increased digitalisation of services.

- Q1. The financial reality:** An overwhelming **88.5%** (2,708) of respondents recognised that a £45.6m budget gap for 2016/17 meant that **difficult budget choices** are required. This response was consistent with last year's consultation (**88.7%**).
- Q2. Support for new ways of working:** **76.0%** (2,320) supported the Council in **exploring new ways of working** with other organisations to deliver its services. Again, this level of support was consistent with last year (**75.1%**).
- Q3. Greater charging:** There were mixed levels of support for the Council **charging more for some services** if it meant they could be continued with **46.5%** (1,417) supporting the proposal **24.0%**, (732) disagreeing but **29.5%** (901) 'not sure'.
- Q4. Increased digitalisation of services:** **88.1%** (2,691) of respondents supported the increased digitalisation of services with only **7.0%** (214) against.
- Q5. Community involvement:** **34.3%** (1,047) of respondents agreed that **community groups** and the **third sector** should be asked **to run more services and facilities** – **30.6%** (936) said 'No'; **35.1%** (1,072) said 'Not sure'.
- Q6. Volunteering:** **23.7%** (715) of respondents were currently engaged in volunteering in the city with 887 respondents expressing an interest. The highest levels of interest for volunteering were seen in relation to libraries, litter picks and parks maintenance.
- Community interest - volunteering:** Individuals (**19.2%**) or groups expressed an interest in becoming more involved in the delivery of services. Many were interested in volunteering to assist in delivering a Council service.
- Q7. Local insights:** The nature of the feedback received from different areas on similar issues varied. This has provided the Council with a **valuable insight into what different areas consider appropriate solutions** to identified issues and is further explored and supported in **Appendix 2**.

Changes for Cardiff

Results and Feedback Report

1.4 City-wide Budget Proposals

Social Care

The City of Cardiff Council is working with its partner organisations to focus resources on developing services based on early intervention and prevention in respect of social care.

Q8. 90.0% (2,645) of respondents were **in favour of the early intervention approach**.

Day Services for Older People

Provision of elderly care services is facing challenges which will result in changes to the way that elderly day services work in the city. Building on last year's budget consultation, the Council has developed a model for day services with a set of proposals that will deliver the outcomes that people will want in order to improve their lives.

Q9. 59.3% (1,788) of respondents **agreed with the new model of day service provision** whilst **6.2%** (187) were **against** and **34.5%** (1,040) **'not sure'**.

Q10. 87.3% (2,642) **agreed** that the Council should **continue to invest in day centres** for those with assessed high care needs.

Q11. There was broad agreement (**68.7%** / 2,082) that it is better to have modern high quality services designed to meet today's need for **support for those with dementia along with health and social care services located in one place**. However, **9.3%** (281) disagreed and **22.1%** (669) were 'not sure'.

Q12. The majority of respondents agreed that the Council should **support individuals in accessing community facilities to enable them to live independently** and achieve their personal outcomes (**87.7%** / 2,660).

Meals on Wheels Service

Q13. 82.4% (2,492) agreed with the proposal to **continue with the Meals on Wheels service**.

Q14. Nearly two-thirds (**61.4%** / 1,862) agreed that the **cost of a meal should increase by £1** to allow the service to continue to provide a sustainable service. **15.5%** (469) were against and **23.2%** (704) weren't sure.

Q15. The Council is considering ways to **expand the Meals on Wheels service** and **88.2%** (2,606) agreed there should be flexibility to use the service when needed e.g. during recovery from hospital.

In addition, **71.7%** (2,097) supported provision to **sheltered housing**; **70.8%** (2,076) supported **delivery to group settings** including luncheon clubs and community groups and **69.2%** supported options of **provision of an evening meal** (2,033).

Changes for Cardiff

Results and Feedback Report

Opinion was mixed in respect of the **option to open up the service to anyone** who wants to receive the service (**36.5%** /1073 in favour, **32.8%** / 964 against and **30.6%** / 899 not sure).

- Q16.** Three quarters of respondents stated that individually they would not or did not know of anyone who would **benefit from the service** (**74.5%** / 2,110). **25.5%** (721) said that they or a relative / friend would benefit.

Care Service Provision

Care services are currently provided on individual contracts meaning that neighbourhoods can have a number of different providers delivering services, even on the same street. There is an opportunity to redesign services on an area basis to reduce transport time for care workers and make better use of services such as homecare and telecare.

- Q17.** Three-quarters of respondents were **in favour of provision of services on an area basis** (**74.4%** / 2,256).

Education

School Delegated Budgets

The additional financial demands falling upon school delegated budgets in 2016/17 are estimated to be approximately £13.541m. The budget proposals include an additional £9.511m funding for school delegated budgets which would represent an increase to schools of 4.6%. The Council anticipates that the Welsh Government will continue to ask local authorities to protect school delegated budgets.

- Q18.** **57.9%** (1,753) of respondents supported the proposal to increase **Delegated School Budgets** of £205.609m by £9.5m.

- Q19.** **44.8%** (1,349) agreed that school budgets should **contribute to the financial challenge facing the Council**, whilst **17.8%** (536) disagreed and **37.3%** (1,123) were not sure.

School Meals Provision

School Meals are supplied to every primary and secondary school in Cardiff (with the exception of Cardiff High School) which cost £2.20 and £2.65 for set meals in primary and secondary schools respectively.

- Q20.** Only **11.8%** (357) of respondent households **used the service** whilst **59.7%** (1,810) did not and **28.5%** (863) weren't sure.

- Q21.** Over 70% (**71.9%** / 2,170) support an **increase in the cost of meals** by 10p each day, compared to **13.1%** (396) who disagreed and **14.9%** (451) who weren't sure.

Changes for Cardiff

Results and Feedback Report

Children's Play

As part of the budget approved in February 2015, the Council agreed that an alternative model be put in place for play services which included funding to support the transfer of play centre buildings into community use. In 2016/17, there will be a new delivery model for Children's Play services which is responsive to the needs of children and young people. Play, including after school and holiday club activities, will in future be run from a range of community facilities within Neighbourhood Partnership Areas.

Q23. Over half of respondents (**53.3%** / 1,752) agreed with the **new model for play services**, with **15.7%** (517) in disagreement and **30.9%** (1,015) were not sure.

Arts and Culture

Cardiff Contemporary Initiative

The Council proposes to withdraw funding for the range of activities, events and exhibitions held across the city and the initiative will cease unless alternative funding can be identified.

Q24. Three quarters of respondents (**75.7%** / 2,300) had **not taken part in the initiative**.

Q25. Just over half (**52.3%** / 1,595) of respondents **agreed with the proposal to cease funding**, whilst **25.8%** (786) were against the proposal and **21.9%** (668) were not sure.

Arts Active

The Arts Active charity receives funding from the City of Cardiff Council providing education, community and audience engagement projects through St David's Hall and the New Theatre. The Council will withdraw funding but will seek contributions from private organisations and foundations to minimise the impact.

Q26. Just under half of respondents (**47.9%** / 1,456) supported the decision to **cease funding for Arts Active** compared to **27.6%** (837) who were against and **24.5%** (745) who were not sure.

Artes Mundi, Cardiff Singer of the World and Community Arts

The Council proposed to withdraw funding on a phased basis over 2 years for Artes Mundi and Cardiff Singer of the World and reduce the Arts Grant to organisations which support community led art programmes.

Q27. Over half of respondents agreed with the proposal to **remove funding for Artes Mundi** (**54.9%** / 1,663), compared to **25.2%** (762) who were against and **19.9%** (604) who were not sure.

Changes for Cardiff

Results and Feedback Report

Half of respondents agreed with a **phased removal for Cardiff Singer of the World** (**50.1%** / 1,506 respectively) compared to **33%** (993) who disagreed and **16.9%** (508) not sure.

- Q28.** Opinion was mixed in relation to the proposed **reduction in arts grant for community led art programmes** with **38.9%** (1,176) in agreement compared to **40.9%** (1,237) who disagreed and **20.2%** (612) not sure.

Community Safety

Community Safety funding proposals include a £25k reduction in funding for the joint city centre Christmas and New Year 'Operation Mistletoe' safety initiative and replacing the existing 9 ageing mobile cameras with 3 new cameras.

- Q29.** **62.2%** (1,873) of respondents supported the **change in the way CCTV cameras are used**, compared to **11.8%** (354) against the proposal and **26.0%** (783) not sure.
- Q30.** Nearly half (**46.5%** /1,394) were in favour of **reducing funding for Operation Mistletoe**, compared to **28.7%** (862) against and **24.8%** (744) not sure.
- Q31.** Approximately three-quarters of respondents (**74.6%** / 2,239) supported the proposal to **seek alternative funding for Community Safety activities** and **88.0%** (2,650) believed that the private sector should financially contribute to management of the night time economy.

Bereavement & Registration Services

Bereavement Services is responsible for the undertaking of over 4,000 funerals per year as well as maintenance across 7 sites including Thornhill Cemetery and Crematorium, Western Cemetery and Cathays Cemetery. Available cemetery space within the city is becoming critical and investment is required to ensure new sites can be developed in the future. The City of Cardiff Council's Crematorium and Burials Services income from crematoria and burials has been reinvested in the cemeteries and crematoria to ensure long term provision can be maintained. The price of a burial or cremation fee ranges from £500 - £675 and the Council propose to increase the cost by 10%.

- Q33.** **32.0%** of respondents **felt positively towards the Crematorium and Burials service** stating that they were "very" (16.0%) or "fairly" (16.0%) satisfied with the service whereas **1.9%** (57) of respondents felt either "fairly" dissatisfied (1.5%) or "very" dissatisfied (0.4%).
- Q34.** Of the 3,006 responses, **26.1%** had **used the City of Cardiff Council's Bereavement Services** and **68.3%** (2,025) had not used the service.

Changes for Cardiff

Results and Feedback Report

Q35. Over half (**52.8%** /1,588) of respondents supported an **increase in burial or cremation fees** by 10%, compared to **21.9%** (658) against and **25.4%** (764) not sure.

The **Registration of Births, Deaths and Marriages** is a statutory service provided by the Council and most fees charged are set at a national level however some are set by the Council. Investment is required to modernise the service and make it more accessible for the public. Income from marriage ceremonies undertaken by the City of Cardiff Council's Registration Service has been reinvested in the Council's services. The price of a marriage ranges from £180 to £420 and the Council propose to increase the cost by 20%.

Q37. **25.6%** (534) of respondents were "very satisfied", **24.3%** (507) "fairly satisfied", **47.0%** (981) "neither satisfied nor dissatisfied", **2.4%** (51) "fairly dissatisfied" and **0.8%** (16) "very dissatisfied" with the Registration of Births Deaths and Marriage Services.

Q38. **27.5%** (830) of respondents have **used Cardiff's Marriage Services**, **68.5%** (2,067) had not and **3.9%** (119) not sure.

Q39. Two thirds of respondents (**66.5%** / 2,004) agreed with the **proposal to increase the cost of marriage services** by 20%, compared to **16.4%** (494) against and **17.1%** (514) not sure.

Commercialisation

The Council has a view that provision of frontline services should be supported by increasing commercial activities. The Council will be reviewing fees and charges in comparison to other local authorities and changing the ways of working to raise more income from trading, advertising and sponsorship.

Q41. Overall, respondents **supported increasing commercial activities** in the following areas:-

○ Transport	65.5% (1,953)
○ Leisure & Culture	62.3% (1,851)
○ Recycling & Waste	60.6% (1,805)
○ Environment	59.4% (1,759)
○ Parks	52.0% (1,544)
○ Planning	50.1% (1,477)
○ Libraries	49.0% (1,455)
○ Education	41.1% (1,216)

Changes for Cardiff

Results and Feedback Report

The Environment

We want our city to have green flag parks and open spaces in addition to a high quality city environment and an attractive public realm. This means having clean and well managed streets in addition to challenging poor social responsibility in neighbourhoods. The City of Cardiff Council will be increasing enforcement of offences and the issuing of Fixed Penalty Notices with increased fines.

Q42. The **enforcement activities respondents were most likely to be aware of** were **dog fouling (87.6%)** and **littering (85.3%)**, while around two-thirds had heard of **planning enforcement (65.5%)**.

However, these were the only three areas which more than half of the respondents were aware of. In contrast, less than three-tenths were aware of enforcement activities for **advertising frames (28.8%)** and **giving out flyers (27.9%)**.

Q43. **80.5%** (2,405) of respondents supported further enforcement activities with increased fines for non-compliance, with **8.1%** (241) against and **11.4%** (340) not sure.

Q45. When asked about any concerns if Council maintenance services were managed by a company wholly owned by the Council to increase trading opportunities, **42.4%** (1,264) **of respondents** had none, **28.6%** (854) had concerns and **29.0%** (866) were not sure.

Grounds Maintenance Services

Cardiff has some outstanding parks and green spaces and it is crucial that the character and quality is maintained. Further changes to maintenance regimes may mean that the Council is required to change maintenance for some local parks, playing fields, recreation grounds, open spaces and highway verges such as increasing areas of wild meadow with pathways, and different mowing regimes being adopted while maintaining required quality and safety levels.

Q46. Over two-thirds (**71.5%**) of respondents were 'satisfied' with the **increased biodiversity** and wild flower meadow areas provided to date in certain parts of Cardiff, including **34.3%** that are 'very satisfied'. In contrast, just **6.4%** are 'dissatisfied'.

Q47. Nearly 70% of respondents (**69.8%** / 2,104) support different grounds maintenance regimes being considered with **7.9%** (238) against and **22.3%** (673) not sure.

Changes for Cardiff

Results and Feedback Report

Parking and Traffic Enforcement

The City of Cardiff Council has already consulted with the public on increasing enforcement for parking infringements and stopping in yellow boxes and now proposes to extend this to key strategic routes into the city.

Q48. **43.1%** (1,153) of respondents were either “very satisfied” or “fairly satisfied” with **increased enforcement to date**, compared to **25.0%** (670) who were “fairly” or “very” dissatisfied.

Q49. **59.4%** (1,771) of respondents **supported extending enforcement into new areas with 20.6%** (613) against and **20.0%** (597) not sure.

Cardiff Research Centre

Cardiff Research Centre is part of the City of Cardiff Council's Policy, Partnerships & Community Engagement service.

We strive to deliver research, information and consultation services for the City of Cardiff Council and its partner organisations.

Services include:

- Collection, analysis and interpretation of primary survey data;
- Analysis and interpretation of a wide range of secondary demographic and socioeconomic data including the Census and all other sources from the wider data environment;
- Specialised studies on a wide range of topics including social, economic and demographic data sources and their uses;
- Quantitative and qualitative research and consultation projects;
- Supporting the Cardiff Debate Community Engagement exercise with other public service partners;
- Management of the Cardiff Citizens' Panel;
- Focus Group facilitation;
- Advice and support on all aspects of research including survey & questionnaire design, &
- GIS thematic & schematic mapping services.

For further information please contact:

1. Background

Our provision of elderly care services is facing challenges, which will result in changes to the way that elderly day services work in the city. These challenges include:

- **Population:** The population of Cardiff has risen sharply in recent years, and is forecast to continue for the foreseeable future. Increases in working-age population will inevitably be followed by increases in the numbers of elderly retired people.
- **Changing Expectations:** New and future service users have experienced a better living standard than ever before, and they expect that to continue into old age. The type of services people want to access are changing and their expectations of these services are also changing.
- **The impact of Loneliness:** More and more research reaffirms what people already know: that happy and sociable lives are key to healthy, long life. It is widely recognised that loneliness and social isolation are harmful to health, and social networks and opportunities are vital to ensuring independence.
- **Budget Resources:** Like all other authorities, the City of Cardiff Council is facing unprecedented financial pressures at the same time as demands on important services are increasing.

Building on last years consultation, the Council has developed a model for day services with a set of proposals that will deliver the outcomes that people will want in order to improve their lives and support their aspirations. The model consists of three tiers that differentiate between types of day services based on the needs of the service users. Further information on the model can be found in the Cabinet Report of 12th November 2015 and is available on the Council's [website](#).

It is proposed that the Day Opportunities Strategy will aim to prevent social isolation by enabling older people to achieve their chosen outcome. We will do this by:

- Providing information, advice and assistance to encourage independent access to social activities and engagement opportunities.
- Providing assistance to those who need it to access community services and activity through targeted intervention and support.
- Supporting the most vulnerable through high quality specialist day services.

The Consultation included the opportunity for the public to share views on the Day Opportunities Strategy including:

- The provision of information and assistance to help older people access community activities in order to reduce isolation.
- The Development of a Day Opportunities Team to support people to access community facilities. This will enable older people to be as independent as possible.
- Provision of specialist Day Centres to those with the highest care and support needs. This will include changes to the services offered at the current centres, including the withdrawal of funding for day care places at Oldwell Court Day Centre for people with Dementia.
- A move towards ensuring the Meals on Wheels is sustainable, through increasing the cost of a meal by £1, and looking at ways to expand the current scheme.
- Ensuring that luncheon clubs are sustainable. Two of the thirty luncheon clubs currently receive a subsidy and these subsidies will be removed.
- Maintaining funding for Community Transport
- Building on the success of a pilot volunteering project for supporting older people, and potential to increase the service.

2. Methodology

Development

The Day Opportunities Strategy Consultation was developed with a mixture of quantitative and qualitative questions that enabled respondents to state whether they supported or opposed the different proposals, but also explain their stance or share further information.

The consultation totalled 26 questions with 20 relating to the proposals. This included a question where respondents selected the services that they or the person they were responding on behalf of accessed, enabling analysis of questions relating to specific services by users.

In addition six questions sought to find out more about the respondents including their age and gender, whether they are a service user and if they care for a friend or relative.

Engagement opportunities

The Day Opportunities Strategies Consultation opened on 30th November and was closed on February 5th February after a consultation period of 67 days. The consultation was undertaken via the following methods:

- An online questionnaire with links on the City of Cardiff Council website and Ask Cardiff website.
- Paper questionnaires which were distributed to 1,742 older people who were receiving a care package including those in receipt of personal care and support, Meals on Wheels and day centres plus those we fund places for at Oldwell Court. It did not include older people in care homes or those who access universal services.
- Three public events which were held enabling residents to find out more about the proposals, ask questions, raise concerns and share their opinions. Paper questionnaires were also disseminated at the events which were as follows:
 - 2:00 pm on 16th December at Ely Hub, Cowbridge Road: 16th December, 2pm
 - 2:00 am 4th January at Llanrumney Hub, 4th January, 2pm
 - 3.30pm on 12th January at Central Library Hub, 12th January
- Cardiff Third Sector Council sent links to all older people network groups with a letter encouraging them to take part in the consultation process.
- All letters drafted in response to Cllr enquiries contained the links to the consultation and engagement events.
- In addition we also received communications including emails and letters, plus a petition all of which are reflected in the results section.

3. Key Findings

214 responses were received for this consultation. Having removed one duplicate response where an individual had responded twice this resulted in a final figure of **213 responses**.

3.1 About You

213 responses were received to this consultation with 145 respondents (69.0%) aged over 65 (including 53.3% over 75). No responses were received from people under the age of 24.

Base: All respondents (210)

Over two-thirds of respondents were female (67.5%) with 32.5% males.

Base: All respondents (209)

More than half of respondents (54.9%) participated on their own behalf. 38.5% responded on behalf of a service user with the remaining 6.6% from organisations and community groups.

Base: All respondents (213)

27.4% of respondents support someone who is unable to manage alone at home.

Base: All respondents (106)

Nearly two-thirds of respondents (64.6%) receive services from Adult Social Services, with 29.6% not users and 5.8% unsure.

Base: All respondents (206)

Over half of respondents (50.9%) access, or support someone else to access Homecare, with 49.1% using the Community Alarm Service. Over a quarter access Oldwell Court, a day centre which supports people with dementia, with the remaining services accessed by under 10%.

Base: All respondents (111). NB. Respondents were able to select more than one answer.

When asked to specify the other services that they or someone they care for accesses, four specified Alzheimer's support.

Emerging themes from 27 responses relating to other services being accessed

Theme	No.	%	Example comments
Alzheimer's Support	4	14.8	<ul style="list-style-type: none"> Support from an Alzheimer's Society worker. Alzheimer's forget me not chorus.
Council Funded	2	7.4	<ul style="list-style-type: none"> Council Funded Personal Care Services.
Sbectrwm	2	7.4	<ul style="list-style-type: none"> Sbectrwm centre Fairwater.
Llandough	2	7.4	<ul style="list-style-type: none"> Llandough Assessment and Recovery Unit.
Direct Payments	2	7.4	<ul style="list-style-type: none"> Personal Assistant using Direct Payments Scheme.
Miscellaneous	13	48.1	<ul style="list-style-type: none"> In process of being assessed. Norwegian Church on Monday PM Lewy Body Dementia, George Thomas on Thursday PM Lymphatic Cancer. Mum would like to go to a day centre but there are none available for her. Pedal Power provides a venue to socialise and meet up with friends and gives people an opportunity to get fit and stay fit through cycling.

The highest ranking response to this question on accessing information was 'Other' (40.7%), ahead of through the internet (36.1%) and over the phone (27.8%). 19.1% of respondents prefer to receive information through face to face meetings.

Base: 194. NB. Respondents were able to select more than one answer.

Respondents who selected 'Other' were asked to explain their preferences, with 40 preferring to receive information by post (53.3%). 14.7% (11 respondents) prefer to access information through face to face contact, ahead of 3rd party organisations (9 respondents; 12.0%).

Themes emerging from 75 comments on other preferences for accessing information.

Theme	No.	%	Example comments
Post	40	53.3	<ul style="list-style-type: none"> Via post as I have support with this and my family/staff can inform me of local events. By post - hearing problems on the telephone (usually). By post please I don't have a computer, and cannot get to meetings alone.
Face to face	11	14.7	<ul style="list-style-type: none"> Face to face with a support worker. Considering age and or disability by postal and/or face to face.
Via 3rd party organisation	9	12.0	<ul style="list-style-type: none"> Via social services visits by care coordinators, OT, Doctors and other support service providers who visit and understand my needs. From care coordinator/review team, OT, doctors and other support service providers who visit and understand my needs.
Printed media	7	9.3	<ul style="list-style-type: none"> Information sheets, posters, newsletters, an accessible comprehensive services directory NB. with dementia the information should be sent to the carer.
Community centre/venue	5	6.7	<ul style="list-style-type: none"> Via a monthly or bi-monthly survey at my local mosque / community centre.
E-mail	3	4.0	<ul style="list-style-type: none"> Via email.
From a relative	2	2.7	<ul style="list-style-type: none"> Through my son.
Other	7	9.3	<ul style="list-style-type: none"> Not really relevant to current situation of my parents who cannot see hear or walk far. As have sensory aged impairment/Alzheimer's/dementia.

3.2 Day Centres

Do you agree with the proposal to support people to be as independent as possible in accessing community events or activities?

There were 213 responses to this question, meaning that every participant responded.

Almost four-fifths of respondents (79.8%) agreed with the proposal to support people to be as independent as possible in accessing community events and activities. 4.7% opposed the proposal with the remaining 15.5% unsure.

Base: All respondents (213)

Do you agree with the new Day Centres proposal?

211 responses were received for this question, a response rate of 99.1%.

Over half of the respondents were supportive of the proposal (51.2%), including 19.0% who strongly agreed. Of the 32.7% who opposed the proposal, 25.1% strongly disagreed.

Of the 211 responses 73 were from day centre users. Support for the proposal was lower amongst this group with 35.6% supportive, including 19.0% who were very supportive. In contrast 63.0% did not support the new proposal. This included 50.7% who strongly opposed, double that of the overall population.

Base data shown in brackets

When given the opportunity to comment further on the Day Centres proposal 102 responses were received. Themes were attached to every comment in order to identify recurring messages. 10 themes were identified in total with *Oldwell Court should not lose funding* the dominant theme (46 responses; 45.1%). This polled ahead of *Greater consideration needed* (30 responses; 29.4%) and *Day Centres have expertise* (28 responses; 27.5%).

Themes emerging from 102 further comments about the Day Centres proposal

Theme	No.	%	Example comments
Oldwell Court should not lose funding	46	45.1	<ul style="list-style-type: none"> • <i>Oldwell court should not lose their funding. It is an essential part for Alzheimer sufferers.</i> • <i>The proposal to take away funding from Alzheimer's Society Oldwell Court is incredibly difficult to understand, given the excellent service they provide, the numbers they support, and the expertise they have. It is very short-sighted. In addition, why can't the Day Opportunities Team be offered as a third sector opportunity, rather than an in-house service? If delivered by the third sector it will be more efficient, effective and better value for money.</i> • <i>Oldwell Court should still be funded. Their team are more professional and do a great service.</i>
Greater consideration needed	30	29.4	<ul style="list-style-type: none"> • <i>Data suggests we need more centres not less. Too centralised, need more local involvement too! (Please)</i> • <i>With the number of people having dementia increasing year on year is this provision going to be adequate?</i> • <i>Dementia sufferers need a lot more one to one support and familiarity with surroundings and staff. Each sufferer needs individual attention and no two dementia sufferers are the same so a lot of understanding and training is needed.</i>
Day Centres have expertise	28	27.5	<ul style="list-style-type: none"> • <i>Alzheimer's Society has the expertise. Putting lower levels of dementia with more general cases does not meet the needs of those with dementia. This makes no sense and is illogical.</i> • <i>Day care is crucial for my mother and us as a family. We highly value day centre staff. My mother is happy at Fairwater. She has dementia but is comfortable in that environment which is a credit to the service.</i>
Travel / related problems	14	13.7	<ul style="list-style-type: none"> • <i>No consideration has been given to client and carers choice. People wish to access services within their own locality. Carers who transport people to day services do not want to spend considerable amounts of time offering transport out of their vital respite from their caring role. Oldwell staff have well trained staff who are able to offer excellent opportunities and care to those who attend Oldwell Court. I believe we require this service to remain in this part of Cardiff and that all facilities should not be based in Ely/Fairwater. The needs and wishes of clients and their carers should be paramount NOT COST CUTTING MEASURES.</i>
Good support provided	13	12.7	<ul style="list-style-type: none"> • <i>Without the support and care my mum gets from Oldwell Court Day Centre our lives would be much more stressful our needs and my mums needs would not be met, Their duty of care is amazing!</i>

Model does not meet users needs	12	11.8	<ul style="list-style-type: none"> As a statement it sounds reasonable BUT there are too many unanswered questions to agree at this stage. - I disagree with the statements made above, its shows how little the council understands the problem. This was not the outcome of the first consultation. The council will still determine level of dependence Far too simplistic statement and misleading. To close a specialist Alzheimer's service at Oldwell Court is precious, when you have proven expertise there. Again don't a council rep take my position for a week.
On-going support critical for dementia	12	11.8	<ul style="list-style-type: none"> Oldwell Court supports all dementias and this proposal negates the progressive nature of the disease and proposed to move people as their dementia develops. This is not person centred. It also doesn't bear in mind the implications of travel for people with dementia.
No facility in Cardiff North	6	5.9	<ul style="list-style-type: none"> I feel that services are required in the North side of Cardiff as facilities in Ely are too far for people to travel to as carers will spend most of the day travelling. Specialist carers are required to support service users.
Greater access needed	5	4.9	<ul style="list-style-type: none"> There should be more provisions for older people from Asian and Muslim backgrounds at one of the above centres to attract them to become regular service users.
Other	26	25.5	<ul style="list-style-type: none"> I am completing this form on behalf of my mother, she doesn't attend any day centres, she wouldn't want to attend. Would day centre provide physiotherapy, bathing or a meal, or would it be for socialisation?

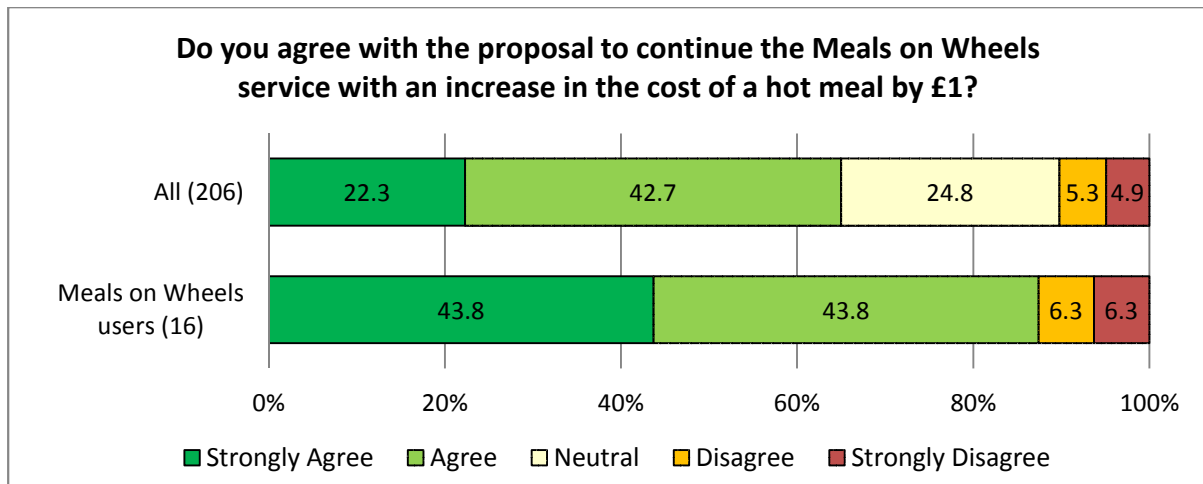

3.3 Meals on Wheels

Do you agree with the proposal to continue the Meals on Wheels service with an increase in the cost of a hot meal by £1?

There was a response rate of 96.7% for this question (206 responses).

Support for the continuation of Meals on Wheels with an increase of £1 for a hot meal was high, with almost two-thirds of respondents supporting the change (65.0%). This included 22.3% who strongly agreed and 42.7% who tended to agree. Just other one-tenth disagreed (10.2%), including 4.9% who strongly disagreed.

When focusing on the response of current Meals on Wheels users, it should be noted that participant numbers were low (16 respondents). Support for the continuation of the service with a £1 cost increase was higher than amongst the general population with almost nine-tenths of respondents (87.5%) in agreement, compared to 12.5% who disagreed.

Base data shown in brackets

Would you consider accessing the Meals on Wheels scheme, either for yourself, or for a friend or family member?

206 responses were received meaning a response rate of 96.7%.

Over a quarter (26.2%) of respondents would consider using the service for themselves or a friend or relative. This compared to 37.4% who would not consider accessing it, with a significant proportion unsure (36.4%)

Base: All respondents (206)

If you or a family member receive meals on wheels would you also be interested in receiving a cold meal for the evening?

The response rate for this question was 74.6% (159 responses).

Support for a family member receiving a cold evening meal when already receiving Meals on Wheels was low with 16.4% interested in the service. Over half (52.8%) were uninterested with 30.8% unsure.

The results varied significantly for the 16 current Meals on Wheels users who responded to the question with over half (56.3%) interested compared to 18.8% who were uninterested. Again a significant proportion (30.8%) were unsure.

Base data shown in brackets

Do you agree with the proposal to expand the current Meals on Wheels service to anyone that wants it?

There were 206 responses to this question, a response rate of 96.7%.

There was significant support throughout the population for expanding the service to anyone who wants it. Almost a quarter (24.8%) strongly agreed with an additional 49.0% tending to agree. This totalled 73.8% who were supportive, compared to a total of 10.7% who disagreed.

Support was greater among current users of the service. Half the users (50.0%) strongly agreed, over double the figure for all respondents, with an additional 31.3% tending to agree. 6.3% tended to disagree with no respondents disagreeing strongly.

Base data shown in brackets

Do you have any other suggestions to improve the Meals on Wheels Service?

38 responses were received for this open question. The main theme was that the *service should not be opened up* (7 respondents; 18.4%) ahead of *Needs to be sustainable* and *Consider alternatives* (5 respondents; 13.2% for both)

Themes emerging from 38 comments on other suggestions to improve Meals on Wheels.

Theme	No.	%	Example comments
Service should not be opened up	7	18.4	<ul style="list-style-type: none"> <i>I cannot understand why there is a plan to provide meals on wheels to anyone who wants it, when the usual rhetoric is that services must be provided to the most needy.</i> <i>Over 70's or disabled should use MOW not just anyone.</i>
Needs to be sustainable	5	13.2	<ul style="list-style-type: none"> <i>I find it hard to believe that the cost isn't covered because it seems to me the food costs far less to make by bulk than is charge. i can understand this though with the delivery service. Can someone review the cost of sourcing food.</i>
Consider alternatives	5	13.2	<ul style="list-style-type: none"> <i>Make provision of HALAL menu for growing older Muslim population and create more awareness in the local mosques etc.</i>
Increase too much	4	10.5	<ul style="list-style-type: none"> <i>I think it is essential to continue with Meals on Wheels, but the proposed increase in cost is far too much.</i>
Better advertising needed	3	7.9	<ul style="list-style-type: none"> <i>This service is not advertised enough and no-one has mentioned this service is available.</i>
Quality must improve	3	7.9	<ul style="list-style-type: none"> <i>If there is to be an increase in cost the quality of food available must be of a decent standard.</i>
Service should continue as is	2	5.3	<ul style="list-style-type: none"> <i>I think it is essential to continue with Meals on Wheels, but the proposed increase in cost is far too much.</i>
Other	16	42.1	<ul style="list-style-type: none"> <i>My mother has never eaten a ready cooked meal from a tin foil container in her life. She would not recognise it as a lunch and it would go straight in the bin no matter what it cost.</i> <i>There needs to be more detail as how the additional £1 will be spent. I could make a hot meal for under £2.90 so why are you increasing the cost?</i>

3.4 Luncheon Clubs

Do you currently attend a Luncheon Club?

211 respondents participated in this question, a response rate of 99.1%.

Participation in luncheon clubs amongst respondents was low with only 11.4% using the service.

Base: All respondents (211)

When the 23 respondents were asked to specify the Luncheon Club that they attend, 6 respondents reported using *Oldwell Court* (26.1%), ahead of clubs in *Beulah & Araratt* (4 respondents; 17.4%) and *Fairwater* (3 respondents; 13.0%).

Themes emerging from 23 comments relation to Luncheon Clubs used by respondents.

Theme	No.	%	Example comments
Oldwell Court	6	26.1	<ul style="list-style-type: none"> • <i>I attend Oldwell Court four times a week and have my dinner there.</i> • <i>My husband attends Oldwell Court.</i>
Beulah & Araratt	4	17.4	<ul style="list-style-type: none"> • <i>Beulah & Araratt / Oldwell Court.</i>
Fairwater	3	13.0	<ul style="list-style-type: none"> • <i>Fairwater Day Centre.</i>
Cyncoed	2	8.7	<ul style="list-style-type: none"> • <i>Cyncoed Methodist Church.</i>
Dalton St	2	8.7	<ul style="list-style-type: none"> • <i>Dalton Street.</i>
Methodist Church, Whitchurch	2	8.7	<ul style="list-style-type: none"> • <i>Methodist Church, Whitchurch.</i>
Bethel Baptist, Whitchurch	1	4.3	<ul style="list-style-type: none"> • <i>Bethel Baptist Whitchurch.</i>
St Andrews Church	1	4.3	<ul style="list-style-type: none"> • <i>St. Andrews Church.</i>
Sbectrwm	1	4.3	<ul style="list-style-type: none"> • <i>Sbectrwm Fairwater Mon & Thurs only.</i>
Waterloo Gardens	1	4.3	<ul style="list-style-type: none"> • <i>Roath Church House, Waterloo Gardens.</i>
Minehead Road	1	4.3	<ul style="list-style-type: none"> • <i>Minehead Road.</i>
Wyndham Centre	1	4.3	<ul style="list-style-type: none"> • <i>In the past with a previous personal assistant - Wyndham Centre.</i>
Adamsdown Day Centre	1	4.3	<ul style="list-style-type: none"> • <i>Adamsdown Day Centre.</i>
Albany Road	1	4.3	<ul style="list-style-type: none"> • <i>Albany Rd Bapist Church - Monday session.</i>

Do you support this proposal?

There was a response rate of 97.7% with 208 responses to this question.

Opinions on the removal of subsidies from luncheon clubs to increase sustainability and ensure equitable provision was divided. 38.5% were supportive with 11.1% agreeing strongly. This was in contrast to 27.4% who opposed the change, including 9.1% who disagreed strongly. A significant third of respondents (34.1%) neither agreed or disagreed.

Base: All respondents (208)

3.5 Community Transport

The proposal is to maintain current funding levels of the community transport already in place. Do you support this proposal?

With 202 respondents participating there was a response rate of 94.8%.

82.7% of respondents were supportive of the Community Transport proposal with 39.1 strongly agreeing and 43.6% tending to agree. 4.0% opposed the change including 2.5% who disagreed strongly.

Base: All respondents (202)

Do you currently use the VEST (Community Transport) service?

203 respondents (95.3%) answered this question.

Of the respondents 25 were users of VEST (12.3%) with 178 (87.7%) not having used the service before.

Base: All respondents (203)

Of the 23 users of VEST that responded, 73.9% felt that the service meets their needs. While these results are useful the low number of respondents should be borne in mind.

Base: VEST service users (23)

Respondents who don't currently use VEST were asked to explain why. 60 respondents left comments with 28.3% of these (17 respondents) *not requiring the service at present* and 10 respondents *unable to use the service* (16.7%).

Themes emerging for 60 comments on how VEST is not meeting user needs.

Theme	No.	%	Example comments
Service not required at present	17	28.3	<ul style="list-style-type: none"> My mother has her family to take her to any appointments she has to attend. My husband is transported by ambulance to Llandough hospital.
Unable to use	10	16.7	<ul style="list-style-type: none"> For an aged person that has dementia it's not an ideal form of transport due to number of passengers.
Service needs expansion	9	15.0	<ul style="list-style-type: none"> The service should be expanded for many this is their only form of transport for social activities.
Not easy to Book	8	13.3	<ul style="list-style-type: none"> Used previously but too difficult to book. But service of the VEST drivers is fantastic.
Better promotion needed	8	13.3	<ul style="list-style-type: none"> I did not know of its existence.
Other	11	18.3	<ul style="list-style-type: none"> I drove for them for many yrs, I would use them myself if the need arose. They offer a v.g.d service

3.6 Volunteering

Do you have a volunteer from Age Connect assisting you?

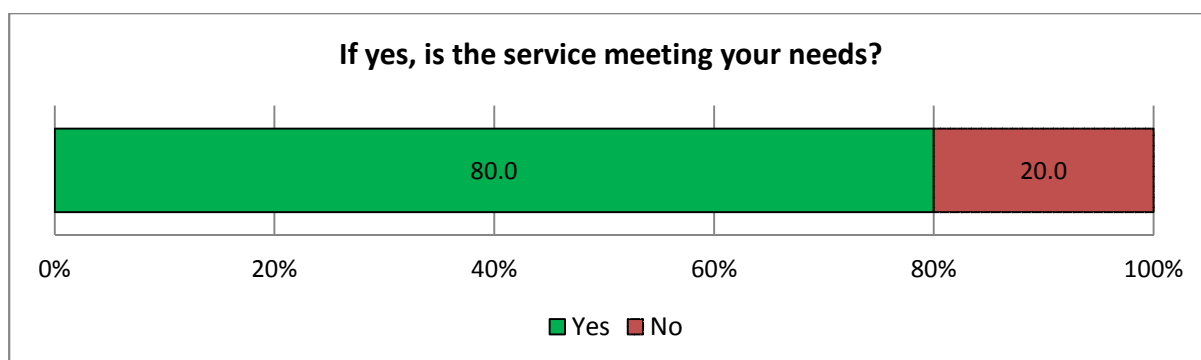

207 of the 213 respondents to the overall survey responded to this question (97.2%).

11 of the 203 respondents (5.3) currently have assistance from an Age Connect volunteer.

Base: All respondents (207)

These users were asked if the Age Connect volunteer service meets their needs. While there is a need to bear the low number of respondents in mind, 80% of the ten users reported that their needs were being met.

Base: Age Connect users (10)

There were 61 responses when respondents were asked why they don't use the service. 18 respondents (29.5%) were *unaware of the service*, with 15 *using an alternative service* (24.6%) and 12 *having a support network* (19.7%).

Emerging themes for 61 comments explaining why people do not use the Age Connects volunteering service.

Theme	No.	%	Example comments
Unaware of service	18	29.5	<ul style="list-style-type: none"> • <i>Sounds like an excellent idea but have not been informed /advised of this service at all.</i> • <i>No idea how to access this service. I knew nothing about this service.</i> • <i>I'm not aware of such a provision. Please ensure he/she is from an Asian or Muslim background.</i>
Use Alternative service	15	24.6	<ul style="list-style-type: none"> • <i>We don't need one as have wonderful personal assistant through Diverse Cymru's Direct Payment Scheme.</i> • <i>I get a visit from Age Concern.</i>
Have support network	12	19.7	<ul style="list-style-type: none"> • <i>Have a network of family members to help me.</i>
Not required	8	13.1	<ul style="list-style-type: none"> • <i>Not needed for the time being.</i>
Do not replace specialist staff	5	8.2	<ul style="list-style-type: none"> • <i>Please do not use volunteers for work / support that really should be provided by paid staff.</i>
Does not meet needs	2	3.3	<ul style="list-style-type: none"> • <i>Does not meet my needs.</i>
Negative prior experience	2	3.3	<ul style="list-style-type: none"> • <i>Last volunteer was pleasant but unreliable, but a new volunteer starts next week.</i>
Other	8	13.1	<ul style="list-style-type: none"> • <i>I would personally be happy to volunteer for this and could get some colleagues involved.</i>

Do you support the proposal to increase this service?

There were 186 responses to this question, a response rate of 87.3%.

There was a high level of support for increasing the volunteering service with over four-fifths of respondents (82.8%) answering positively, compared to 5.9% in opposition. 11.3% of respondents were unsure.

Base: All respondents (186)

Which tasks do you think are appropriate for volunteers to provide to older people?

194 respondents selected at least one option for this question giving a response rate of 91.2%.

Of the options for respondents to choose from *Befriending – Home visit* ranked highest with 78.4% of respondents thinking this was an appropriate task. This was marginally ahead of *Assist with shopping* (77.8%) and *Help to access to activities* (71.1%). The remaining tasks polled under 70%.

Base data shown in brackets

All 32 respondents who selected 'Other' left comments. Seven of these were stating that they had *No time to volunteer* (21.9%), with the same amount making other comments. Of those listing tasks *advice or support* was highest (5 responses; 15.6%), ahead of *household tasks* (9.4%).

Themes emerging from 32 suggestions of tasks appropriate for volunteers to provide to older people.

Theme	No.	%	Example comments
No time to volunteer	7	21.9	<ul style="list-style-type: none"> <i>I am unable to volunteer because at present I am caring for my husband who has secondary progressive MS and vascular dementia.</i>
Advice / Support	5	15.6	<ul style="list-style-type: none"> <i>I would like access to counselling (emotional support) but this is only available if Alzheimer's sufferer is present.</i>
Appropriate checks needed	4	12.5	<ul style="list-style-type: none"> <i>Volunteers are good but only as long as they are consistent and fully trained, DBS checked and specialist trained in the case of people with dementia.</i>
Household tasks	3	9.4	<ul style="list-style-type: none"> <i>House work, ironing and feeding etc. If anyone was willing to do this in an Emergency situations (short term).</i>
Dementia support	3	9.4	<ul style="list-style-type: none"> <i>Dementia support.</i>
Visit / Check up	2	6.3	<ul style="list-style-type: none"> <i>Checking people of safe warm and eating.</i>
Model inappropriate	1	3.1	<ul style="list-style-type: none"> <i>There is no specialist dementia provision within this model.</i>
Gardening	1	3.1	<ul style="list-style-type: none"> <i>My husband and I would benefit from all these services. I am having my back garden paved because my husband is no longer able to do the gardening, which he loves.</i>
Exercise	1	3.1	<ul style="list-style-type: none"> <i>Walking/other exercise.</i>
Food	1	3.1	<ul style="list-style-type: none"> <i>Meals, very anxious about vetting and continuity, reliability etc., paying people formalises arrangements.</i>
Other	7	21.9	<ul style="list-style-type: none"> <i>These are fine for people with simple needs, but do nothing for people with complex needs and progressive conditions.</i>

Would you like to volunteer?

The response rate for this question was high (94.8%) with 202 responses.

Interest in volunteering was low 5.0%. This is potentially due to the age profile of the respondents with 69.0% over 65, including 53.3% aged over 75.

Base: 202

3.7 Future activities

What activities do you think should be made available to older people?

169 respondents shared activities they felt should be made available to older people, a response rate of 79.3%.

Almost 70% of respondents felt that *exercise classes* should be made available, ahead of *singing* (59.2%). Other activities polled at under 50% with *cooking* (31.4%) and *Reading clubs in libraries* (34.3%) least desired.

Base: All respondents (169)

73 respondents suggested alternative activities which were coded into 13 themes. The dominant theme was *Social activities* including Travel to attend (30 respondent; 41.1%) with many valuing the opportunity to spend time doing hobbies with others. 17 respondents (17%) suggested *sports based activities*, with 15 (20.5%) reporting a *need for specialist help* for people with dementia.

Themes emerging from request for additional activities users would like to attend

Theme	No.	%	Example comments
Social activities / Travel	30	41.1	<ul style="list-style-type: none"> • <i>Mother thrives on social activity of any form. Being with people. Although she needs support to do so. Hence the day centre in Fairwater is great.</i> • <i>A lot of seniors have had their fair share of hobbies and would like nice surroundings to have a cuppa and a chat as many never see anyone from one week to the next</i>
Sports Based Activities	17	23.3	<ul style="list-style-type: none"> • <i>Swimming and pool exercise.</i> • <i>Cycling at Pedal Power - there are trikes that are suitable for all - including those with disabilities.</i>
Need specialist help	15	20.5	<ul style="list-style-type: none"> • <i>Not all available for my husband. We have a leisure card each but activities - even swimming- is not geared to dementia sufferers. There is a singing group for dementia provided by voluntary agencies - music therapy is good. A walking group would be really good. With all the leisure activities some kind of joint changing room is needed so I can help my husband dress and undress. We are both pensioners and would qualify for this support regardless of my husband's illness.</i>
Historical	9	12.3	<ul style="list-style-type: none"> • <i>Reminiscence groups.</i>
Food	9	12.3	<ul style="list-style-type: none"> • <i>Lunch clubs with a speaker.</i>
Reading	7	9.6	<ul style="list-style-type: none"> • <i>If saw with fewer pieces so earlier and shorter to complete. Smaller books with large print and a more varied subjects - Not just crime and fiction.</i>
Arts & Crafts	5	6.8	<ul style="list-style-type: none"> • <i>Art and crafts - simple model making, painting, sewing and needle craft. Games and fun activities.</i>
Musical / Singing	4	5.5	<ul style="list-style-type: none"> • <i>What about dementia services e.g. Singing for the Brain by Alzheimer's Society? The funding will stop for this too.</i>
IT / Technology	4	5.5	<ul style="list-style-type: none"> • <i>Craft classes, IT - use of technology.</i>
Healthy Living	3	4.1	<ul style="list-style-type: none"> • <i>Embroidery classes, healthy eating and dieting classes.</i>
Language Based	3	4.1	<ul style="list-style-type: none"> • <i>Language classes, for example French and Spanish.</i>
Gardening	2	2.7	<ul style="list-style-type: none"> • <i>Talks; French, Travel, History, Buildings, Sailing, Gardening.</i>
Other	13	17.8	<ul style="list-style-type: none"> • <i>Question to general will depend on the individual.</i>

3.8 Barriers to accessing community facilities

166 respondents shared what they felt were the main barriers that older people face. Of these over half (95 respondents; 57.2%) raised *transport and access* with many struggling to travel by taxi and phone, and finding VEST difficult to book.

Health conditions leading to loneliness and a loss of confidence ranked second (63 responses; 38%) with a *lack of knowledge* of community facilities also being raised by over a quarter of respondents (43; 25.9%).

Themes emerging from respondents opinions of barriers and older people face and which prevent them from accessing community facilities.

Theme	No.	%	Example comments
Transport and access	95	57.2	<ul style="list-style-type: none"> • <i>Lack of reliable transport. Taxis are not practicable for dementia sufferers to go on their own. VEST too difficult to book. Good neighbours. Budget cuts so service can't be provided.</i> • <i>Transport is a bit issue for me, I need a lot of help to into/out of a car. I only get out when my daughters take me. I enjoyed the day centre which reduced my isolation and the transport was good. I have no transport to my local luncheon club. I have carers every morning to help me get dressed. I would like to get out there and go to a day centre or luncheon club but I need help with transport and need my wheelchair.</i> • <i>I think the main barriers for the elderly is not being able to catch a a bus, or meet friends for coffee, etc.</i>
Health conditions	63	38.0	<ul style="list-style-type: none"> • <i>Loss of confidence, visual/hearing impairment. Nervous of strangers around them. Embarrassed about their difficulty in interacting. Problems when out and about - more specialist help needed e.g. signage or those experienced in teaching hands on with visually impaired etc.</i> • <i>For some here is a lack of independence due to physical mental health issues, levels of support need to be maintained.</i> • <i>My experience is with short term memory loss. Other barriers would be lack of awareness, motivation, help getting ready, anxiety about going somewhere new.</i>
Lack of knowledge	43	25.9	<ul style="list-style-type: none"> • <i>Communication - many older people don't have access to the internet. Have little or no contact with people therefore are unaware of the facilities on offer.</i> • <i>Lack of knowledge about facilities, lack of transport, lack of confidence.</i>
Support needed	37	22.3	<ul style="list-style-type: none"> • <i>Carer support for individual.</i> • <i>My Mum has dementia and anxiety issues.. needs someone to interact with her constantly.</i>
Lack of information available	33	19.9	<ul style="list-style-type: none"> • <i>Difficult to arrange , lack of information.</i> • <i>Being informed re this. Lack of co-ordinated thinking when delivering services. SAP CRM and Gateway will hopeful address this. However across all council services we should be able to sign post elderly or vulnerable peoples to a community access point - requiring training and comms for all Council staff to have a consistent customer journey for all.</i>
Other	32	19.3	<ul style="list-style-type: none"> • <i>Apathy.</i> • <i>Falling.</i>
Lack of facilities	17	10.2	<ul style="list-style-type: none"> • <i>Lack of knowledge about community facilities. Lack of access to community facilities.</i>
Service Instability	8	4.8	<ul style="list-style-type: none"> • <i>The dwindling amount of services on offer, the instability of services offered by the voluntary sector because of funding cuts, a growing lack of recognition by statutory services of the value of preventative services and of funding them.</i>

Lack of Specialist Staff	5	3.0	<ul style="list-style-type: none"> • <i>Re: Dementia - stigma, lack of understanding, lack of expertise within existing and universal provision. This strategy does not address this issue.</i>
Stigma associated to the condition	4	2.4	<ul style="list-style-type: none"> • <i>Getting here. Support being there. Very dependant on support needs of the individual. Enhanced, interesting social spaces for both carers and older people to enjoy together would be great. Presently this tends to be local cafes. Have seen 'dementia cafes' - what a terrible name! Needs to be a non-stigmatised enjoyable place to be! Tea dances great - at St David's Hall. Without day care would be a struggle we want to keep my mother with us a long as possible. Support to do so is also financially prudent for the council as it will reduce costs.</i>
Reliance on volunteers	3	1.8	<ul style="list-style-type: none"> • <i>Motivation, availability of sufficient volunteers,</i>

4 Events

The consultation included three events which were held in the centre of Cardiff, Ely and Llanrumney. The events gave people the opportunity to ask questions and raise concerns. All the questions and statements resulting from the events have been passed to the decision makers for consideration with the key recurring themes including:

Waiting lists and capacity for service users.

Many of the attendees at the events questioned the proposal to cease funding for Oldwell Court which will potentially result in closure and a decrease in spaces for people suffering with dementia. They argued that there are already waiting lists and that the number of people with dementia is expected to rise.

Disruption due to change of centre

Attendees at the event felt that Oldwell Court service users are settled and that change for people with dementia can be highly disruptive with a significant amount of time needed to settle in to a new routine. With many feeling that the day centres are situated on one side of the city there will also be significant travel which will be difficult for users.

Uncertainty over future places

There was uncertainty over whether current patients will have an automatic space if Oldwell Court is closed, or if they will be on a waiting list.

Lack of consideration of carers

Many of the attendees at the event were carers and a reoccurring theme was the effect of the changes on carers. Many felt that the Council is over-reliant on carers and that the service changes do not consider their support needs.

Changes are purely to save money

Several members of the public felt that the basis for the service change is to save money, and does not consider the needs of service users.

Assessment of needs

Questions were asked over how service users would be diagnosed as having low, medium or high level needs, as well as why the needs of users would need to be re-assessed.

Expertise of Alzheimer's Society and staff

Many used the opportunity to praise the work of the Alzheimer's Society and the skills of the people who work there. They were concerned over their future employment in the event of Oldwell Court closing and questioned whether the other day centres would have the same expertise.

5. Additional Correspondence

5.1 Petition

The City of Cardiff Council received a petition entitled *Save Alzheimer's Society Oldwell Day Support Service* with 4,830 individual signatures.

5.2 Letters and emails

The City of Cardiff Council received three letters from organisations. Responses from the Glamorgan Voluntary Service, on behalf of the third sector, and Cardiff and Vale Mental Health Forum both recognised the budget challenges and the need to discuss possible solutions but felt the proposed changes are not viable. They criticised the decisions to cease funding for Oldwell Court and questioned why it could not become one of the designated day centres, and were unsure of how the new model will mean a reduction in support when dementia is a progressive condition. In addition they questioned whether there was potential for the third sector to be more involved and praised Age Connects.

A response was also received from the University Health Board, who wanted assurances that a market analysis had been conducted to ensure that the new model will offer the same quality of care for less. They queried whether the new model included costs relating to increased travel for users.

In addition, 12 responses were also received from individuals, including two which were submitted by an AM and MP on behalf of members of the public. All the responses related to Oldwell Court and the need for stability and routine for service users. They questioned whether the proposal conflicted with the Cardiff and the Vale's Three Year Dementia Plan, and felt that the service should be increasing to tackle the increasing older population.

6. Learning

This consultation report, as well as the views of the 213 respondents, will be considered by Cardiff Council before a final decision is made on the proposals relating to the Day Opportunities Strategies.

Particular messages that have come through strongly through the engagement exercise include concern over the future of dementia services. Specifically the proposal to cease funding for the day centre places at Oldwell Court has prompted feedback in the consultation document, at the engagement events and through the petition and correspondence.

Responses relating to meeting the needs of BME communities, the Meals on Wheels service and ensuring adequate transport for older people to access opportunities will also require further consideration.

12th January 2016

Dear Cllr Hinchey

Council Budget Proposals 2016/17

I'm writing to formally respond to the Council's budget proposals on behalf of Cardiff Schools' Budget Forum following our meeting on 9th December and additional comments received from Forum members.

The Forum fully appreciates the Council is under financial challenge due year on year reductions in the Aggregated External Finance (AEF) set against increasing cost pressures. However we have to make you aware of our concerns about the impact that the budget proposals will have on schools which we believe has the potential to damage the City's education system.

The Forum welcomes the Council's consistent approach in honouring the Welsh Government protection for the schools delegated budget and meeting the demographic pressures caused by increasing pupil numbers. However the proposal to only meet 60% of the additional pay and inflation pressures faced by schools will jeopardise the progress made in improving educational standards at a time when the Local Authority is under Estyn scrutiny having been found in need of significant improvement and will undermine the ability of schools to make further improvements. This proposal follows on from earlier challenging budget settlements that have resulted in schools (particularly secondary schools) making difficult decisions to cut provision, lose key staff members and increase class sizes. These proposals will force schools to cut deeper into the teaching and backroom staff with the inevitable effect on teacher workload, staff welfare, parental and pupil satisfaction rates and pupil outcomes. The ultimate losers in this will be children who may well face a narrowed and reduced curriculum. To quote one member of the Budget Forum "education should not be regarded as a cost but as an investment in the future".

Putting a 40% cap on funding the pay and inflationary pressures faced by schools results in 81 schools facing an in-year deficit (63/101 Primary Schools, 14/19 Secondary Schools, 4/7 Special Schools). This cap requires an efficiency saving of £20K per £1M budget which the Forum believes is unachievable without a significant negative impact on schools. Whilst this will save expenditure from delegated budgets, significant costs will be incurred in funding redundancy payments. These budget proposals are not about the efficiency of processing revenue, they are about the absence of the revenue itself and the impact caused by not being able to meet the expenditure demands to run schools across the phases.

As previously stated, the only way for Governors to make these savings will be through redundancies. Schools spend at least 85% of their delegated budget on staff costs and many have already reduced other costs significantly. Whilst redundancies will save expenditure from delegated budgets, will it result in real savings to the Council once the cost of meeting the significant financial penalty of funding redundancy pay-outs has been calculated?

Secondary school base line operational costs are not being met by sufficient revenue funding. Currently there are no short term proposals, strategically placed before the Budget Forum, to address a funding crisis in Cardiff Secondary schools, nor any mooted strategy about supporting schools facing severe difficulties over the next few years. This is needed to address the unprecedented challenges faced. Whilst annually this might be understandable, there needs to be a three year 'recovery plan' to deal with this secondary crisis. There should be no false sense of security by the recent freezing of the Post 16 grant to 11 to 18 schools, where deeper cuts were envisaged, in the urgency in dealing with the overall funding crisis.

The council needs through funding revenue, to support Governing Bodies through the funding crisis of the next three years, whilst more medium term planning and actions can be brought about as change management for the City. Effective school organisation planning is also part of this sustainable strategic recovery process. A key issue is whether the Council can move fast enough to act to address the issues raised about school revenues. Revenue needs to be moved from the centre (LA core funding and Central South Consortium) and into school budgets. The principle of greater delegation and shared back office efficiencies between schools is being endorsed by officers as part of the medium term planning, but can the rate and pace of such a 'switch' be done at a faster rate than the proposed cuts?

The distribution of funding between the secondary and primary phases has been questioned by secondary heads as some primary schools carried large balances into the current financial year. However primary heads have cautioned against a move to pay less for each primary child and more for each secondary child and have requested a better analysis of the level of surplus balances by expressing them as a percentage of delegated funding. It is essential that primary schools have the ability to intervene early where children are falling behind their peers. Research has shown that children living in poverty often start school academically behind their better-off peers. Further discussion about the distribution of funding and updating the formula should be informed by the current exercise of benchmarking what it costs to run primary, secondary and special schools.

The Forum is concerned over the growing issue of children living in families facing 'in-work poverty' and the ability of schools to provide the extra support these children need. Such children are not entitled to free school meals and therefore don't attract any Pupil Deprivation Grant. Their families are under significant financial strain with parents often working multiple jobs which contribute to family stress that is likely to impact negatively on children's learning.

In regards to the savings proposed for the Education Directorate, the Forum believes that some of the savings will result in schools taking on additional responsibility without an equivalent increase in resources, adding extra burden on schools already under pressure to absorb the 40% funding cap.

The Forum supports the proposal to reduce the authority's contribution to Central South Consortium. Members question the value for money of services provided by the Consortium and the effectiveness of some Challenge Advisors. It is essential that the LA continues to work closely with the Consortium to ensure that schools and Governing Bodies receive high quality challenge and an appropriate level of support to ensure the sustainability of the self-improving schools system.

The Forum urges an urgent review of SEN provision to ensure that the correct provision is in place to support the needs of pupil coming back into the city as out of county placements are reduced.

In summary, the Forum urges the Cabinet to reconsider the proposal to place a 40% cap on meeting the increased pay and inflation costs faced by schools, particularly as the provisional local government settlement resulted in a 0.1% reduction in AEF rather than the anticipated 3% reduction. Not to do so has the potential to damage the City's education system and will undermine its capacity to improve, impacting negatively on the experience and life chances of the children of Cardiff.

Thank you for seeking the views of the Forum on your budget proposals.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'S. J. Griffiths', with a stylized flourish at the end.

Sarah Griffiths

UNISON's Response to Cardiff Council's Budget Consultation, January 2016

Who We Are

UNISON Cardiff County Branch is a trade union branch representing thousands of workers in The City of Cardiff Council, as well as staff of Cardiff Bus, Cardiff & Vale College and the privatised care sector. The following response has been authored in consultation with stewards from across the council.

Our Response to the Council's Proposed Budget

We welcome the news of the less harsh reduction in the proposed settlement from the Welsh Government in November 2015. We expect the council to utilise the unexpected £11.56m savings from this beneficial settlement to alleviate the pressure on council staff who have endured years of pay freezes, restructures and increased workloads.

We support the council's proposals to use reserves and to increase Council Tax by 4.5%, and hope that councillors will resist any political or press pressure to reverse these decisions. As we did in 2015, we would like to suggest that further savings might be found from selling or charging more competitive rents on "non-operational" properties which the council owns but does not provide public services from.

We are pleased that the budget proposals this year do not include any cuts to hours or enhancement rates, and note that this marks an improvement on the last two years. Similarly we acknowledge that the way in which the process has been handled appears to date to be an improvement on last year's process, during which frequent amendments and issues around changes to Voluntary Severance caused considerable distress to staff.

However this year's proposed budget is still a cuts budget which will lead to job losses and increased workloads, and contribute to the continued decline of public services which ultimately derives from the austerity policies of the UK Government. The 2015 General Election result suggests that these policies are likely to continue for some years to come, and we believe that the council ought to be doing more to liaise with the Welsh Government and other Welsh councils in order to find a long-term solution to the crisis in Local Government funding.

The Public Consultation

We welcome the emphasis that Cardiff Council places on public consultation compared to other authorities in Wales, and are pleased to learn that the level of engagement from residents again appears to be substantial.

However we do not agree with some of the euphemistic terminology used in the documentation – such as “Alternative Delivery Model” rather than outsourcing, or seeking “Community Asset Transfers” rather than withdrawing funding. Such language masks the reality of austerity, confuses residents unnecessarily, and performs some of the government’s public relations work for them.

Furthermore we believe that some of the questions are leading or otherwise flawed – for example the very first question which asks “do you recognise that a budget gap of a potential £45.6m for 2016/17 means that difficult budget choices are required?” and which allows only multiple-choice answers, does not allow for the possibility that the respondent might understand the facts but simply disagree. We don’t believe that much can be learned from analysing the answers to questions such as this.

However there are some questions in the document which we do wish to give specific answers to:

Q5 – We don’t think that “community groups and the third sector should be asked to run more services and facilities,” which until now have been delivered by the council.

Q9 – We don’t agree with the new, partly-outsourced model of day service provision for the elderly.

Q23 – We don’t agree with the “new model” for children’s play services which could result in the replacement of paid, trained staff with volunteers. The way that play centre staff were treated in the 2014 and 2015 budget consultation processes was particularly bad. A period of stability, free from the constant fear of restructures and job losses, is badly needed in this service area.

As an affiliated union, we note that as well as being contrary to UNISON’s policies which are voted upon at our National Delegate Conference, the three above proposals are also all contrary to Welsh Labour policy which holds that in the provision of public services the third sector should only be used in addition to, and not instead of it, the public sector.

Whilst we are not opposed to the use of volunteers in all circumstances, they are not appropriate in the context of service areas where posts are being deleted and where many part-timers would welcome the potential to work additional hours.

Q41 – We don’t support “the increasing of commercial activities” – ie. the setting up of a trading company owned by the council. If as it seems this question refers to the proposed establishment of an Infrastructure wholly-owned company (or WOC), this is already the subject of extensive ongoing negotiations, at which we have repeatedly made it clear that we consider wholly-owned companies to be a form of outsourcing with potentially negative implications for staff.

Service Area-Specific Points

Generally speaking, many of the figures for projected savings seem arbitrary or optimistic. ADMs (outsourcing) are generally presumed to bring significant savings but we do not accept that this will be the case.

The below are responses to specific itemised proposals, as listed and numbered in the Equality Impact Assessment.

City Operations

3. Privatisation of leisure services – the potential for job losses and negative changes to terms and conditions here are substantial, as are the risks of price increases, centre closures, and a negative impact on equality. Because of the law around NNDR relief, leisure trusts benefit from highly-favourable tax arrangements even when in reality they are owned by private profit-making companies. We believe that halting the tendering process and instead making the much-needed investment to improve the council's facilities would be a more effective long-term use of public money.

5. See above Q5.

13. This is very vague for such a potentially-substantial change. The £100,354,000 projected saving figure is presumably a mistake?

14. The council should ensure that all internal statutory planning services get a fair proportion of the fees raised by this measure.

17. What do the council or local residents gain from owning a heliport?

18. Electrical team. More detail is required for such a substantial saving from staffing costs.

57. Roath Library has now been closed for more than a year despite a very public assurance given last year that branch libraries would remain open. This library covers one of the most densely populated areas in Wales and with the relocation of Splott library to Tremorfa there will be a huge inner city area with no library service. We believe that the library ought to be re-established as part of an integrated service with paid, trained staff, ideally in its previous location or failing that then at another permanent location nearby.

Economic Development

80-85. Reduce arts grants to organisations. Although our branch does not represent UNISON members in these organisations, we wish to associate ourselves with the public campaigns to protect the arts, which have both an economic and a social value to the city.

Education

The real-terms decrease in delegated schools budget as a result of inflation and population growth could have a significant negative impact on staff and pupils alike. As the majority of schools revenue spending is on staffing, it is likely to lead to redundancies which will themselves have to be funded by the council, so it could be counter-productive even in straightforward cost-saving terms.

92. Specialised services. This will further exacerbate the cost pressure on schools, and is likely to have a negative equality impact, particularly with regards to disability.

99. Youth Service Budget. The funding for Youth Services has already been dramatically reduced since 2011. The consultation which was published in June 2015 began a process which is likely to end in dramatic reductions in staff numbers (with a potentially-disproportionate impact on part-time staff) and the closure of most of the city's Neighbourhood Youth Activity Centres.

We believe that these cuts are very short-sighted. These services are accessed by thousands of young people in Cardiff, and not only in deprived areas. We believe that the council should cease pushing youth services away from open access provision, and follow the recommendation of the recent Jay Report that “every effort should be made to increase this capacity.”

If the council has unexpectedly gained £11.56m as a result of the favourable Welsh Government settlement, then we believe that offsetting the swingeing cuts to Youth Services would be one of the best uses of these resources.

Resources

The projected savings from including services in the arms-length company are generally optimistic. For example Point 125 (Security & Cleansing) saving suggests a saving of £165,000, or approximately 6% of the service’s total budget, but the council’s own assessment rates this as red for achievability.

116. Corporate Digital Efficiencies. The introduction of e-payslips and digigov phone apps rather than paper payslips, as well as leading to the potential deletion of posts in Business Support, is unlikely to be universally welcomed by council staff. Sufficient provisions ought to be in place for employees who don’t regularly work with computers or have smartphones, or who need paper payslips for reasons such as claiming in-work benefits.

140. Reduction to third sector infrastructure funding. This is also highlighted as red/amber and in the current climate for the voluntary sector likely to prove problematic and politically difficult.

Property & Premises

165. Office accommodation. Any reduction in office space such as the forthcoming closure of Global Link should be adequately planned for. The number of staff based in County Hall has already been increasing in recent years, creating issues around a lack of office and parking space. The response from our members to the proposed introduction of “Agile Mobile Working” for Social Workers has not been positive, and we anticipate problems around “hot-desking” and confidentiality. We hope that any move towards Agile Mobile Working is not motivated solely by the desire to sell off office space.

Other

171. Severance Budgets. As we have stated at the Joint Partnership Forum, we are completely opposed to any further reductions in respect of the voluntary severance scheme. The reduction in 31st March 2015, and in particular the fact that sums were calculated based on the date of leaving with no consideration given to when requests were made or when restructures began, caused enormous stress and resentment. The change at that time was justified by the argument that it was necessary to bring Cardiff’s scheme into line with other local authorities in Wales. Since that is now the case there is no justification for a further reduction.

Workforce Demographics

Freedom of Information requests from Unison have shown that despite initiatives such as the Strategic Equality Plan, in 2013 only 6% of the council’s workforce was Black or Minority Ethnic (BME) compared to 15.3% of the city’s population. We believe that this unacceptable and that more ought to be done to increase the representation of BME people within the council’s workforce.

Conclusion

There is considerably more that could be said about many of the individual budget proposals, which have many and various implications for staff and residents. We hope that the above comments give some sense of the views and priorities of UNISON's members and their elected representatives.

We will continue to engage with councillors and council officers in negotiations to secure the best possible arrangements for our members, while campaigning for an end to the UK government's austerity policies which are the ultimate cause of job losses, pay freezes and cuts to public services.

Signed on behalf of UNISON Cardiff County Branch,

Emma Garson
Joint Branch Secretary

Michael Sweetman
Area Organiser

Councillor Phil Bale
 Leader
 City of Cardiff Council
 County Hall
 Cardiff
 CF10 4UW

Dear Phil

Community & Adult Services Scrutiny Committee Meeting – 15th February 2016

Thank you for attending the above committee. This letter captures the agreed comments and observations of the Committee with regard to the draft Corporate Plan 2016-18 and 2016-17 draft Budget Proposals. The structure of this letter reflects the structure of the meeting, commencing with general comments on the draft Corporate Plan, consultation and the overarching budgetary position before moving on to comments and observations for each portfolio, as determined by the terms of reference of this committee.

Draft Corporate Plan 2016-18

Members' note Councillor Hinchey's point that this year's Corporate Plan is not fundamentally different from last year's, which was seen by the Wales Audit Office as acceptable, and that it aims to focus on the Public Accountability Measures and National Strategic Indicators. Overall, Members feel that the draft Corporate Plan 2016-18 is a good document, with clear layout. However, there are some further refinements that Members recommend are made to improve the final Corporate Plan 2016-18, as follows:

- Make it clearer and more visible to those reading the Corporate Plan what it is that the Council is committed to achieving, in terms of our contributions to agreed overarching strategies such as What Matters. The draft Corporate Plan does not include all of our commitments in these areas. The example Members raised at the meeting was Human Trafficking, which was cited in last year's Corporate Plan but is not included in this draft Corporate Plan. Members heard that the Council does meet our What Matters commitment by contributing to tackling Human Trafficking. However, this is not visible to those reading the Corporate Plan; we believe it should be and therefore recommend that the final Corporate Plan 2016-18 includes tackling Human Trafficking. The same point may apply to other What Matters commitments and therefore Members recommend that these commitments are matched with the

commitments in the draft Corporate Plan and any gaps remedied in the final Corporate Plan 2016-18;

- Ensure that the ambitions of the administration are fully reflected in the Corporate Plan by using the opening statements to capture this as well as the commitments and the measures. The area discussed at the meeting concerned the ambition with regard to improving adult social services and integrating with health and housing and ensuring the wording in Priority 2 does justice to this;
- Improve the 'Measuring Progress' sections, as follows:
 - o Ensure there are measures stated for each of the commitments given, for example, in 2.1, there is no measure for the commitment 'work to make Cardiff a recognised Dementia Friendly City' or for the commitment 'implement a fully re-commissioned domestic violence service'.
 - o Ensure a baseline is available where possible so that readers understand the ambition and the proposed progress, for example, in 2.3, with regard to '% of care leavers' and the 'rate of Delayed Transfer of Care'
 - o Ensure that all the measures included in Appendix A are shown in the relevant sections in the main body of the report, for example 2.1 has 5 measures shown in the main body of the report and 7 shown in Appendix A, the same is true for section 2.2 whilst section 2.3 has 7 in the main body and 8 in Appendix A.
 - o Ensure that measures are appropriate to the commitments given, for example, for section 2.2, include measures that will capture the delivery of new affordable housing across all sources.

Members appreciate that effort has been made to keep each section to one page but do not feel that this design should hamper clarity in how progress will be measured.

Consultation Processes

Members discussed three areas of consultation that have been used to inform the budgetary proposals: the overall 'Changes for Cardiff'; the Day Opportunities Strategy consultation; and the separate council housing rent increase proposal.

All three consultations have different methodologies underpinning them: Changes for Cardiff involved respondents self-selecting, the Day Opportunities Strategy involved contacting all service users whereas the council housing rent increase involved a random sample.

Members appreciate the reasons for the different methodologies; however, these different methodologies statistically lead to different confidence levels. This should be made clear when results are reported back and low confidence levels should

affect how results are used. Similarly, the weaknesses in the methodology used should be made clear to those who are going to use the consultation results to inform their decisions. Members could see no evidence of this in the papers provided to them, for example the Day Opportunities Consultation Report does not mention confidence levels.

With regard to Changes for Cardiff, Members feel that many of the questions are leading questions which mean that little weight should be given to the responses received. This point has been made in previous years; we hope that officers reflect on this and amend consultation accordingly.

Overarching budgetary position

Members thank Councillor Hinchey, Christine Salter and Allan Evans for providing information on the overarching budgetary position. Members note that it is proposed to set the budget before the Final Settlement from Welsh Government is received with the caveat that reserves are available to meet any shortfall, as it is anticipated that any changes will be small scale given that much of the information used to calculate the Final Settlement was available when setting the provisional settlement.

Members note that new mechanisms have been used this year to help improve resilience and prepare for additional pressures. With regard to the Capital programme, Members note Christine's comments that there has been a 35% reduction overall since 2010/11 on monies from the Welsh Government re capital and that therefore the Council is having to find other sources of monies to fund the capital programme (and that as a result officers need to keep a close eye on borrowing and repayment levels).

Members note Christine's points re the overall budget savings, in that 34% are red/red-amber for residual risk, 40% are red/red-amber for achievability, 88% have detailed planning status and 9.5% have general planning status, and that therefore it is proposed to have a £4M corporate contingency fund.

Members also note the points made by Councillor Hinchey, Christine and several Directors that there has been a more robust process of challenging proposals this year, resulting in a more realistic set of proposals with far more having a detailed planning status than in previous years. Members welcome this but, on the evidence we heard during the meeting, are concerned that there is a variable standard of application of the Red/ Amber/Green ratings and planning status by Directors and Heads of Service.

Economic Development and Partnerships

Members thank you and Sarah McGill for being available to answer questions on the budgetary proposals for this portfolio. With regards to the budgetary proposals for this portfolio, Members have the following points to make:

- **Savings Line 62** – Members note the assurances given that it is appropriate to charge costs to capital
- **Capital Programme, Line 12** - Members note your comments that the Neighbourhood Renewal scheme could be refreshed and updated; we would welcome this.
- **Capital Programme Line 37** - Members note the assurances given that it is appropriate for this to be an invest to save scheme.

Community Development, Co-operatives and Social Enterprise

Members thank Councillor Bradbury and Neil Hanratty for being available to answer questions on the budgetary proposals for this portfolio.

With regards to the savings for this portfolio, Members have the following points to make:

- **Savings Line 76** – Members welcome and note the absolute commitment for the Council to continue to meet the costs of the existing level of taxi marshal service, (with the same number of staff covering the current number of hours on the current agreed days and events) if alternative sources of funding cannot be found. Members note that these alternative sources of funding potentially include the Business Improvement District, a Late Night Levy and sponsorship, all of which are being explored. Members are relieved to hear that the service will continue particularly as our on-going Inquiry into reducing crime and disorder in the Night Time Economy has heard repeatedly that the Taxi Marshals provide a much-needed service, critical to maintaining a safe environment. Members were relieved to hear that Line 19 in the table of Employee Indications of Budget is a mistake and that 4 Full Time Equivalent posts relating to Taxi Marshals will not be deleted. Members recommend that this line be taken out of the proposals brought to Full Council for decision on 25th February 2016, given that it is too late to remove it from Cabinet Papers due to be considered later this week.
- **Savings Line 77** – Members were relieved to hear that the income raised from charging for the use of sites in Cardiff will not result in additional obstructions on pedestrianised areas, which could have resulted in difficulties for some people with disabilities; rather existing sites will be used more often.

Health, Housing and Wellbeing

Members thank Councillor Elsmore, Sarah McGill, Tony Young, Amanda Phillips and Jane Thomas for attending to answer questions on the budgetary proposals for this portfolio. With regards to the budgetary proposals for this portfolio, Members have the following points to make:

Overall

Members wish to acknowledge the hard work undertaken throughout 2015/16 across this Portfolio and the improvements that have been made in financial management and business processes. Members thank all those involved in this process, including the Adult Social Services base budget build exercise and the remodelling of preventative services, with these moving to the Communities, Housing and Customer Services Directorate. Both of these should stand Adult Social Services in good stead going forward, reducing demand pressures and ensuring sufficient resources are in place. This is good news for the vulnerable citizens who rely on these services and this Committee applauds the hard work that goes on behind the scenes to deliver these improvements.

Members note and welcome that an additional £3.5 million has been allocated to Social Services to reflect the very real costs facing Social Services, in terms of demographic pressures, fee increases and the Social Services and Well Being (Wales) Act changes, as well as writing off savings from 2014/15 and 2015/16 which are deemed unachievable.

Members note that there are still savings from 2014/15 and 2015/16 that Adult Social Services are required to deliver; Members request a list of these and the amounts required to be delivered in order that the Committee can carry out effective budget monitoring in 2016/17.

Savings

- **Line 61** – Members note that the savings come from introducing mobile working and scheduling and a consequent reduction in supervisor posts. Given the importance of reablement to improve service users' quality of life and reduce demand for other social services, Members seek assurance that capacity within reablement is sufficient to meet demand and that it is prudent to take this saving rather than re-invest the saving into the service.
- **Line 139** – With regard to the £1 million saving contained in this line, Members heard that it is comprised of a rolling list of approximately 30 specific commissioned services, which cannot be put into the public domain due to commercial sensitivity. Given this, the Committee has not been able to scrutinise this significant saving, in terms of its alignment with the Corporate Plan, the impact on service users, carers and citizens or its achievability and deliverability. On the latter point, Members note that it is the only savings line in front of them that has Red ratings for all three categories of risk. Members

wish to receive the rolling list and ask that this be shared with them in confidence as bound by the Constitution and Members Code of Conduct.

- **Line 142** – Members note Councillor Elsmore's comments that there is a mature relationship with Health colleagues which is enabling good conversations to take place about where costs appropriately sit, which is happening without damaging effective working.
- **Line 145** – Members note that the existing contract will expire in January 2017 and the £200,000 saving should flow from the 3 months thereafter. Members also note the comments that the Local Safeguarding Adults Board wishes to raise awareness of the risks of financial abuse and that work on this area should happen this year.
- **Line 151** – Members recognise the work undertaken by the first point of contact but are concerned that £250,000 may be too high a figure to achieve going forward. Members therefore seek assurance that this saving is achievable.
- Overall, Members note Tony Young's comments that the process to develop this year's savings has been robust but there are still challenges in delivering the savings, given that pressures on Social Services are hard to predict.

Financial Pressures

Members note the monies allocated to deal with financial pressures arising from the Social Services and Well Being (Wales) Act and Families with no recourse to Public Funds. At the meeting, Members raised the need to also think about the financial pressures that would fall on the Council should a domiciliary care provider withdraw from Cardiff. Members note that Councillor Elsmore is meeting the Minister shortly and will raise the resilience of the domiciliary care market with them.

Capital Programme

Members note that there is an additional £4.2 million for disabled adaptations, using different capital sums, with some ring-fenced for council tenants as the monies come from council housing rents and some available to all housing tenures. Members note that, eventually, this will lead to improvements in the time taken to deliver disabled adaptations, once the peak caused by a backlog of cases combined with an increase in new cases is dealt with. Members were pleased to hear officers state that the quality of the disabled adaptation was important, not just the quantity or speed, and were pleased to hear that there are staff who pre and post inspect works.

Members note that there are additional monies allocated in the Housing Revenue Account to purchase suitable assets that can be used to provide affordable housing; given the high housing need in Cardiff, Members welcome this.

Members note the proposed rent increase of 1.4% plus £2 per week, in line with the Welsh Government guidelines.

Day Opportunities

Members note that the savings in relation to this, **Line 141**, relates to employee cost savings resulting from the closure of Gabalfa Day Centre. Members also note that the proposed savings coming from no longer using Oldwell Court were to have been re-invested in providing the Day Opportunities Team. Following the Notice of Motion to Council in January 2016, the savings from Oldwell Court will be phased, perhaps over a significant period of time. Members seek clarification of the impact of this on the Day Opportunities Team, which were to have provided support to people with lower levels of dementia.

Members note that the demand modelling which has taken place is as rigorous as possible but that, if more people need services than is predicted, the Council will have to find alternative provision, as the statutory duty on the Council is to meet assessed need.

Members also note that further work is proposed with Health, which may include accommodation options for people with dementia. Members are interested to learn more on this and asked to be kept informed.

Supporting People

Members note that the budget for 2016/17 remains unchanged from 2015/16 at £16.2 Million but that there has been some realignment to better reflect the need to provide preventative services, particularly for Older People, such as Community Alarm, as well as to provide more 24hour supported living for younger people, which was a Corporate Plan commitment last year.

Members note that further work is underway with regard to floating support for Older People with a view to new arrangements being in place by April 2017; Members wish to be kept informed of this work.

Members sought assurance that it is acceptable to set a Spend Plan without agreeing the Local Commissioning Plan, a situation that has come about as a consequence of the delay in Welsh Government settlement caused by the timing of the Spending Review by UK Government. Members were pleased to hear that there would still be scope to influence the detail of some elements in the Local Commissioning Plan, such as Older People floating support, albeit that some of the elements such as Community Alarm will have been set.

Skills, Safety, Engagement and Democracy

Members thank Councillor De'Ath, Dave Holland and Joseph Reay for being available to answer questions on the budgetary proposals for this portfolio. With regards to the budgetary proposals for this portfolio, Members have the following points to make:

- **Savings Line 42** – Members note that, whilst there is confidence that the savings will be achieved, the risk analysis ratings remain as Red/ Amber as 30% of the saving is predicated on raising additional income and this may be more difficult to achieve in South Wales than has been the case in parts of England that have followed a similar approach to Regulatory Services.
- **Savings Line 133** – Members note that the £10,000 savings in relation to mobile CCTV will remove cameras that are not working and replace them with 3 new cameras that will provide a better service. Members recommend that the narrative in the savings line be updated to make this clear. With regards to the £25,000 saving from removing funding for Operation Mistletoe, Members note there is not time to put a Late Night Levy in place by Christmas 2016. Members note Councillor De'Ath's comments that he is confident that the proposed Business Improvement District (BID) will include Operation Mistletoe in its business case. However, Members are concerned that the Council should not rely on this when making a decision on this saving, as the BID is voted on by the businesses and the Council cannot insist on inclusion of specific projects in the BID. Therefore, Members recommend that thought be given to an alternative strategy to secure Council funding for Operation Mistletoe in case alternative funding is not available.

Members wish to make a wider point in relation to the Council's legal responsibilities with regard to tackling crime and disorder. As the Committee responsible for scrutinising community safety and crime and disorder partnership work, Members wish to draw attention to the Council's responsibility to mainstream and embed community safety within all Council services as a legal obligation under Section 17 of the Crime and Disorder Act 1998. A previous Community & Adult Services Scrutiny Committee carried out an Inquiry into precisely this, in November 2007¹. Their first Key Finding states:

'The Crime and Disorder Act 1998 (CDA) is guided by the rationale that levels of crime cannot be impacted upon by the Police working alone but that the socio-economic and environmental causes of crime need to be tackled by a wide range of agencies working together. Section 17 of the Act places a legal duty on these agencies to take account, during the exercise of their various functions, of the potential impact for community safety. It states that, 'Without prejudice to any other obligation imposed on it, it shall be the duty of each authority to which this

¹ 'Community Safety –An Assessment of the Existing Structure within Cardiff Council for the Delivery of Crime and Disorder Reduction Activity' – November 2007

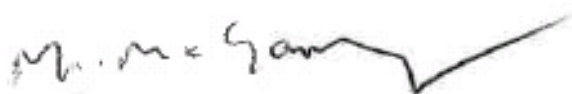

section applies, to exercise its various functions with due regard to the likely effect of the exercise of those functions on, and the need to do all it reasonably can to prevent, crime and disorder in its area.’ Section 17 seeks to ensure that the strategies, plans and budgets of these agencies are considered from the standpoint of their potential contribution to the reduction of crime and disorder. As a statutory duty, failure to consider crime and disorder in the exercise of its functions can leave a local authority open to legal challenge if it has not done all it ‘reasonably’ can. The Courts will look for evidence that the authority has a coherent plan for complying with Section 17 and that this plan is being implemented².

This legislation still stands albeit that awareness of it amongst officers seems low. Members therefore recommend that senior officers be made aware of the above, in order that proposals being developed by officers properly reflect the requirement on the Council to promote Community Safety.

Once again, thank you to you and all the witnesses for your attendance and contributions; they are much appreciated. Members trust that our recommendations, comments and observations above are of help when finalising the Corporate Plan and Budgetary Proposals. To this end, please present this letter to Cabinet before the Corporate Plan 2016-18 and Budgetary Proposals 2016/17 are finalised.

This letter contains recommendations and requests for further information and so requires a response:

Dear Graham

CHILDREN AND YOUNG PEOPLE SCRUTINY COMMITTEE - Corporate Plan and Draft Cabinet Budget proposals

Thank you for attending the Children and Young People Scrutiny Committee on 16 February 2016. The Committee would also like me to thank Councillor Lent, Councillor Merry, Councillor Bradbury, Christine Salter and relevant Directors and Officers for their attendance. The Committee welcomed the presentations on the Corporate Plan, Cabinet draft Budget proposals overview and the departmental budget proposals for each directorate. The Committee considered the information presented together with answers to members questions and agreed to provide you and the Cabinet Members with the following comments, concerns and recommendations

In respect of the Budget Consultation exercise undertaken during December, the Committee acknowledges that Cabinet is increasing the scope of the consultation but recommends caution on the weight given to such a small sample of responses, acquired from certain demographic areas and minority groups. For example respondents from the east of the city are low and the numbers of responses from young people are proportionately low given the number living in the city. The Committee recommends that in future the Cabinet improves its consultation of the budget proposals by attending existing community groups, such as luncheon groups, youth groups, family centres and minority ethnic groups.. The Committee was also concerned that the questionnaire had a number of leading questions and Members suggested that future budget consultation questionnaires should be validated by an external market research company.

The Committee also questioned the achievability of many of the savings proposals, particularly those that were identified as RED or RED/AMBER. The Members highlighted the need for robust and detailed action plans with key milestones to be in place as part of each savings action plan. The Committee will be monitoring the action plans as part of the Committee's budget monitoring panels function.

The Committee also wished to highlight the following points:

- Members expressed particular concern around the achievability of lines 84, 85 and 86 of the savings proposals (Education – reduction of the costs of placements, Looked After Children placed out of County and the number of new placements), as these are dependent on partnership working. Members therefore requested details of the partnership action plans to be made available to the Committee as soon as possible.
- Members wished to seek assurance, that in respect of savings proposals – line 88, the different delivery model for tuition for children who are not educated in school, would not have a detrimental outcome for the pupils receiving the service.
- Given the present budget pressures, Members expressed surprise that there was no intention, at the present time, to have a debate around the provision of school transport for Faith and Welsh schools.

Finally following consideration of the new model for Children's Play, the Committee recommended an alternative way forward as follows: the proposed reduction in service would be better provided, from each of the current Play Centres, rather than spreading the service around several different buildings in each community, until the Community Asset Transfers have each been completed. This would ensure continuity of provision and be less confusing for children and parents..

I will be copying this letter to all the relevant Cabinet Members and Directors as well as the Chair of Policy Review and Performance Scrutiny Committee in advance of its meeting on Wednesday 17 February and it is possible that these points will be raised with you in greater detail at that meeting.

We hope that these comments will have been of assistance to you and the Cabinet in agreeing the Budget proposals on Thursday 18 February and look forward to a positive response to the points raised in the letter, from you and the other cabinet Members, within the next month.

Yours sincerely

Dear Councillor Bradbury

ECONOMY AND CULTURE SCRUTINY COMMITTEE – 15 FEBRUARY 2016

Draft Corporate Plan 2016 – 2018 and Budget Proposals 2016/17 Community Development, Co-operatives & Social Enterprise Portfolio

Thank you for attending Committee to present your Portfolio's draft Corporate Plan and Budget proposals that fall within this Committee's terms of reference. I will be grateful if you could also pass on the thanks of Committee to Sarah McGill, Neil Hanratty and Andrew Gregory for their presentations and for addressing the questions raised during the meeting.

This letter contains the recommendations, observations and requests for information agreed by Members which we hope will be of assistance to you in shaping the final budget recommendations that you will be making for your Portfolio on 18 February 2016. This letter has been split into three sections as your Cabinet Portfolio contains services within the Economic Development, Communities, Housing and Customer Services, and City Operations Directorates.

Economic Development Directorate

Following the release of the Budget Proposals 2016/17 – for Consultation in December 2015 it became apparent that the proposed cuts to various arts and cultural schemes supported by the Council would be subject to significant public and media interest. We are pleased to see that the majority of these proposals have been removed from the Budget Proposals 2016/17 published on 12 February 2016, and wish to commend you on the manner in which these proposals have been handled – there was potential for these proposals to overshadow the 2016/17 budget setting and to damage the reputation of Cardiff, and we are pleased that the favourable settlement from the Welsh Government has allowed this situation to be averted.

As mentioned in our letter following the January Committee meeting, we welcome your commitment to hearing first-hand the views of stakeholders and groups affected by the proposed savings from arts and culture, and we are pleased that the Cabinet has demonstrated it has listened to the public views expressed in the consultation responses and local media reporting.

The Members of the Committee welcomed the clarifications you gave with regard to the £430,000 saving to be achieved through a review delivery in Arts Venues (namely St David's Hall and the New Theatre). We were pleased to be informed that the future of these venues and the Arts Active programme are not under threat, but rather are subject to an ongoing procurement exercise to secure alternative management arrangements. At the meeting we were informed that these venues current receive a subsidy in the region of £2million, and the savings identified here are a conservative estimate of the anticipated reduction in this subsidy.

This Committee is conscious that the cultural offer of this city is vitally important in terms of its 'liveability', contributing to top businesses, visitors and students choosing the Cardiff as their destination of choice and contributing to the wellbeing and quality of life for residents and visitors. We are pleased that this has been recognised by the Cabinet in removing the proposed savings in question. Through the process of the Budget consultation over the past few months it has become clear to the Committee that there is a vast, active and passionate arts community within Cardiff. We hope that the conversations initiated as part of the consultation can be built upon, establishing genuine relationships between the Council and arts community in the city.

A point we touched upon in our letter following the January meeting, which we wish to reiterate, is the recognition that there are potential crossovers where benefits can be delivered through art other areas of the council, such as within social services, education and city regeneration. We wish to recommend that this is an area for discussion to be included on the agenda of the next Cultural Conversation meeting – identifying services delivered by the Council that could benefit from the expertise and creativity found in the arts community. I am conscious that the Leader, Cllr Bale has a leading role in the Cultural Conversation, and have requested that he receive a copy of this letter.

City Operations Directorate

On the whole, the Committee is content with the City Operations Directorate savings proposals from your portfolio put forward within the Budget Proposals 2016/17, and the aspirations set out within the Corporate Plan. We do however wish to make a few comments with regard to the Alternative Delivery for Leisure procurement exercise. You will be aware that this Committee has been following this procurement exercise for some time, receiving updates with our consideration of quarterly performance and having undertaken prior task and finish inquiry work. We accept that delays have

been experienced as a result of legally binding rules and regulations, culminating in the savings identified for 2015/16 not being achieved, but we feel strongly that this cannot be repeated in 2016/17. With £850,000 savings identified from this procurement exercise, the Council cannot afford for such a substantial amount not being delivered in the upcoming financial year.

During the meeting Members questioned the Leisure Centres Invest to Save Bid listed within the Capital Programme. We were informed that £4million will be allocated over the next three years to undertake priority works on the Councils leisure centre buildings, with repayment being achieved through increased footfall at the facilities. Members of the Committee are left questioning the logic behind substantial investment in facilities that may soon be operated by alternative service providers, and question the fact that this has been accepted as an Invest to Save scheme as opposed an alternative form of Capital scheme. We do however recognise that these facilities remain assets of the Council regardless of the outcome of the procurement exercise and accept that Council financing of these improvements will remove an element of risk that may discourage bidders.

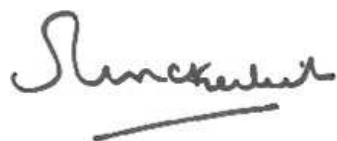

Members wish to note that during the meeting we were informed that there will be no closures of leisure centres in Cardiff and that no play centre will be closed until an alternative facility is confirmed, subject to ward member agreement.

Communities, Housing and Customer Services Directorate

Members wish to note their satisfaction in the manner in which the Hub Strategy has been delivered over recent years, and welcome the continued rollout of this approach within the 2016/17 budget. We recognise that a clear strategy and vision for Community Hubs was developed and driven through over recent years. While we recognise there are differences between this process and the procurement exercises being undertaken for leisure and arts venues, we question whether the Alternative Delivery Model projects have been overly cautious, or lacked the strategic vision at the outset that is clearly evident through the delivery of the Hubs Strategy.

I would be grateful if you would consider the above comments, observations and recommendations, and look forward to receiving your feedback.

Regards,

Councillor Rod McKerlich

Dear Councillor Derbyshire

ECONOMY AND CULTURE SCRUTINY COMMITTEE – 15 FEBRUARY 2016

Draft Corporate Plan 2016 – 2018 and Budget Proposals 2016/17 Environment Portfolio

Thank you for attending Committee to present your Portfolio's draft Corporate Plan and Budget proposals that fall within this Committee's terms of reference. I will be grateful if you could also pass on the thanks of Committee to Andrew Gregory for his presentation and for addressing the questions raised during the meeting. This letter contains observations and requests for information agreed by Members at the end of the meeting.

On the whole, the Committee is content with the savings proposals from your portfolio put forward within the Budget Proposals 2016/17, and the aspirations set out within the Corporate Plan, that fall under this Committee terms of reference. We do however wish to mention our slight reservations with regard to the £450,000 saving to be achieved through the reshaping of grounds maintenance services. This is something we intend to monitor over the coming year, as we anticipate there could be discontent from the public when it becomes more apparent which areas of the city are going to be subject to reduced frequency of grass cutting. We also anticipate that additional burdens will be placed on Community Councils to undertake additional grounds maintenance and hope that there are plans for Council rules and regulations to be relaxed to assist in this respect.

Members wish to note that during the meeting we were informed that there are no planned changes to the provision of parks pitches for outdoor sports, despite the proposals to reshape grounds maintenance services and to reduce the subsidy to outdoor sports.

I would be grateful if you would consider the above comments, and look forward to receiving your feedback.

Regards,

Dear Councillor Hinchey

ECONOMY AND CULTURE SCRUTINY COMMITTEE – 15 FEBRUARY 2016

Draft Corporate Plan 2016 – 2018 and Budget Proposals 2016/17

Thank you for attending Committee to present us with an overview of the Draft Corporate Plan 2016 – 2018 and Budget proposals 2016/17. I will be grateful if you could also pass on the thanks of Committee to Christine Salter, Ian Allwood and Edward Janes who attended the meeting and provided clarification on all our questions.

The Committee had a few observations following the meeting, mainly with regard to the *Changes for Cardiff* consultation, which are outlined below. Discussions also took place around the level of capital borrowing the Council is undertaking, the confidence in the achievability of savings and the timing of the initial budgetary proposals in December 2015. Members welcomed the answers provided during the meeting and do not wish to follow up on these points any further.

With regard to the *Changes for Cardiff* consultation, we wish to note our congratulations on to the level of response received, which we were informed was one of the highest of comparable consultations undertaken by local authorities across the UK. We do however note that the total number of responses is approximately 800 fewer than was received for the 2015/16 consultation.

Members of the Committee are concerned with the relatively low levels of participation seen in the Cardiff East and City and Cardiff South Neighbourhood Areas, particularly when compared to the level of response received from Cardiff North. We fear these disparities could skew the results toward the preferences of individuals from a higher socio economic background, and not accurately reflect the whole demographic of Cardiff. We appreciate that efforts are being made to increase participation in the Southern Arc of the city, but wish to recommend that a weighting mechanism is introduced in future years, in an attempt to make the results more

representative of the people of Cardiff. We fear that currently the views of individuals in the Southern Arc of the city are underrepresented.

Members appreciate that there is a fine balance to be struck in relation to the length of the consultation and the wording used within the questions. If overly long and complicated, response rates will fall, but if overly simplistic the validity of the questions and results can be diluted. We feel that some of the wording within this years consultation document is quite vague, calling into question the usefulness of the results. For example, question 3 of the consultation document asked people whether they would support the Council charging more for some services – however there is no indication in the scale of the price increase, and no doubt there would be very different results to varied levels of price increase, or indeed for each different service that may be subject to price increases. This is one of a number of examples we could cite, and recommend that future budget consultation questionnaires are robustly validated by an outside organisation.

The Committee requests clarification on the process used in developing the consultation document, and more specifically the terminology used within it. Some Members of the Committee participated in consultation events and found themselves explaining the meaning of the 'jargon' used in order for members of the public to complete the survey. We question the process used for proof reading the consultation document and recommend that in future years a sample group of the public, or external organisation, is asked to assist in proofing the document, ensuring the document is accessible and not filled with needless technical terminology,

The Committee will write separately to each Cabinet Member whose portfolio falls under the terms of reference of the Economy and Culture Scrutiny Committee, highlighting the budgetary and operations issues that were discussed during the meeting. We include for your information in this letter the points made in relation to budgetary issues, given your overarching role on the Budget and Corporate Plan.

Members of the Committee are pleased to note that a number of proposals in relation to Arts and Culture in Cardiff have been removed from the budget proposals to be taken to Cabinet on Thursday 18 February. We see this as a clear signal that the Cabinet has listened to the feedback received in the consultation process, to the points raised following our January Committee meeting and to the petitions that have been prevalent in the local media. We welcome this responsiveness from Cllr Bradbury, Cabinet Member: Community Development, Co-operatives & Social Enterprise, and are pleased that the favourable settlement from the Welsh Government has been used to respond to public opinion.

The Committee questions the inclusion of a £4million Invest to Save Bid for Leisure Centres within the Capital Programme. While we recognise the need for priority works to be undertaken at some facilities, we question whether increased footfall and

increased income as a result of this work is the basis of a genuine Invest to Save scheme.

The Committee is conscious that substantial savings are proposed through securing alternative delivery models (ADM) for services. In the case of this committee we are concerned with the ADM for Leisure Centres and the ADM for Arts and Cultural Venues – procurement exercises that were identified and accepted within the 2015/16 Budget. However we are aware that there has been a failure to deliver the identified level of savings in 2015/16, and we wish to stress the importance of these savings being delivered in 2016/17.

I would be grateful if you would consider the above comments, observations and recommendations, and look forward to receiving your feedback.

Regards,

16th February 2016

Councillor Bob Derbyshire,
Cabinet Member for the Environment,
County Hall,
Atlantic Wharf,
Cardiff,
CF10 4UW.

Dear Councillor Derbyshire,

Environmental Scrutiny Committee – 16th February 2016

On behalf of the Environmental Scrutiny Committee I would like to thank you and the officers for attending the Committee meeting on Tuesday 16th February 2016. As you are aware the meeting considered the 'Draft Corporate Plan 2016 – 2018 & 2016/17 Draft Budget Proposals'. In reviewing these proposals the Committee used the following documents to set the context of the discussion:

- Draft Corporate Plan 2016-18;
- Post Consultation Changes – Includes a total summary of the post consultation changes (£14.095 million), a schedule of amended 2016/17 savings proposals, post consultation changes – financial resilience mechanisms & additional pressures;
- 2016/17 Proposals Overview – Includes an overview of the 2016/17 savings proposals, Council wide budget savings proposals 2016/17, Addressable Spend – budget savings proposals 2016/17;
- City Operations Directorate - Draft Budget Savings Proposals;
- City Operations Directorate – Financial Pressures;
- City Operations Directorate – Capital Programme;
- City Operations Directorate – Employee Implications;
- City Operations Directorate – Controllable Budget Analysis;
- 'Changes for Cardiff – Consultation Results & Feedback Report on the City of Cardiff Council's 2016/17 Budget Proposals – Executive Summary' & relevant sections from the report;
- City Operations Directorate – Equality Impact Assessments.

This letter contains the recommendations, observations and requests for information agreed by the Members present during the Way Forward discussion conducted at the end of the meeting, which we hope will be of assistance to you in shaping the final budget recommendations. The proposals that are allocated against the City Operations Directorate and which fall within the scope of your portfolio are listed below:

Savings Line 13 – City Operations – New Operating Model

- Members considered the £1.052 million savings allocated against the ‘New Operating Model for City Operations’. They understand that much of this saving is set against the delivery of the Alternative Delivery Model (ADM) for Infrastructure Services which was due to be jointly scrutinised by the Environmental Scrutiny Committee and the Policy Review & Performance Scrutiny at a meeting on the 1st March 2016. This is no longer the case and it is now anticipated that the Full Business Case (FBC) for the Alternative Delivery Model for Infrastructure Services will not be received until the 12th May 2016. The Committee looks forward to scrutinising this item following the progress briefing that they will receive for the Alternative Delivery Model for Infrastructure Services on the 15th March 2016.

Savings Line 37 – City Operations – Litter Enforcement – Increase enforcement powers to reduce Environmental Crime (Full Year Effect)

- At the November 10th Environmental Scrutiny Committee meeting Members received an item titled ‘Litter Management & Enforcement in Cardiff’. This item included consideration of a draft Cabinet report titled ‘City Operations – Broadening Enforcement Powers to Improve the Public Realm’ which was later received by the Cabinet at its meeting on the 12th November 2015. The report referenced a series of proposed activities, some of which will be implemented in April 2016. Members accepted that these new enforcement activities will take some time to make an impact and wished to include an update report on the Environmental Scrutiny Committee Work Programme 2016/17 for the autumn.

- A Member asked for a detailed breakdown of income generated by the Council for all types of littering fines in 2015/16. I would be grateful if you could provide the Committee with this information.

Recycle & Reuse Facilities

- I would appreciate it if you could provide the Committee with a progress update for introducing new recycle and reuse facilities to Household Waste Recycling Centres in Cardiff. The Committee agreed that such facilities would complete the recycling hierarchy and provide an excellent resource which would champion the recycling message and support community groups. During the Way Forward a Member suggested taking this initiative a step further and trialling a street-based reuse and recycle scheme in Cardiff. Such a scheme would involve organising residents who wish to leave unwanted items (which are still fit for reuse) outside for collection on a specific day of the week. These items would then be taken to a reuse and recycle facility where they could be rehomed. Brighton & Hove City Council was mentioned as a Council which took such an approach and members recommended some research in this regard.

Member Briefing Email – 12th February 2016

- You issued an email on the 12th February 2016 which referenced the impact that recent Household Waste Recycling Centre changes had made, with particular reference to the reduction of materials now received in Bessemer Close Household Waste Recycling Centre. In particular the email stated that:
 - *In the first month the Bessemer Close HWRC has seen a 16% reduction in overall tonnages received, which supports the initial research that 17% of all users for that site were not from Cardiff.*
 - *The data also suggest we have deterred a lot of builders as the building waste figures have seen the biggest drop at 115% over all sites and specifically 262% at the Bessemer Close site.*

Members would be grateful if you could provide clarification on these statements and provide the Committee with details of the actual data as the latter percentages in the email appear to be missing decimal points.

Savings Line 42 – City Operations – Regulatory Collaboration

- The Community & Adult Services Scrutiny Committee previously reviewed the Regulatory Collaboration savings of £310,000 at their budget scrutiny meeting on the 15th February. They concluded that:

‘Savings Line 42 – Members note that, whilst there is confidence that the savings will be achieved, the risk analysis ratings remain as Red/ Amber as 30% of the saving is predicated on raising additional income and this may be more difficult to achieve in South Wales than has been the case in parts of England that have followed a similar approach to Regulatory Services’.

The Environmental Scrutiny Committee would like to agree with the caution about achievability expressed in this comment.

I would be therefore grateful if you would consider the above comments and provide a response to the requests made in this letter.

Regards,

Councillor Paul Mitchell

16th February 2016

Councillor Graham Hinchey,
Cabinet Member for Corporate Services & Performance,
County Hall,
Atlantic Wharf,
Cardiff,
CF10 4UW.

Dear Councillor Hinchey,

Environmental Scrutiny Committee – 16th February 2016

On behalf of the Environmental Scrutiny Committee I would like to thank you and the officers for attending the Committee meeting on Tuesday 16th February 2016. As you are aware the meeting considered the 'Draft Corporate Plan 2016 – 2018 & 2016/17 Draft Budget Proposals'. In reviewing these proposals the Committee used the following documents to set the context of the discussion:

- Draft Corporate Plan 2016-18;
- Post Consultation Changes – Includes a total summary of the post consultation changes (£14.095 million), a schedule of amended 2016/17 savings proposals, post consultation changes – financial resilience mechanisms & additional pressures;
- 2016/17 Proposals Overview – Includes an overview of the 2016/17 savings proposals, Council wide budget savings proposals 2016/17, Addressable Spend – budget savings proposals 2016/17;
- City Operations Directorate - Draft Budget Savings Proposals;
- City Operations Directorate – Financial Pressures;
- City Operations Directorate – Capital Programme;
- City Operations Directorate – Employee Implications;
- City Operations Directorate – Controllable Budget Analysis;
- 'Changes for Cardiff – Consultation Results & Feedback Report on the City of Cardiff Council's 2016/17 Budget Proposals – Executive Summary' & relevant sections from the report;
- City Operations Directorate – Equality Impact Assessments.

This letter contains details of observations which were noted during discussion and agreed by Members during the Way Forward. The comments made below refer to the Corporate Overview which was provided by yourself and the Corporate Director Resources:

- Members noted and welcomed the progress achieved in reducing sickness levels in the City Operations Directorate and indeed across the Council as a whole. The Committee agreed that this would be beneficial in addressing the Council's difficult and ongoing financial position and will continue to monitor progress when reviewing the City Operations Directorate performance on a quarterly basis.
- Members noted that this complemented the work being done to reduce the money spent on agency staff and welcomed assurances that savings would not be made by simply reducing posts creating agency overspends later in the financial year.
- Members discussed the financial pressures that the increased costs for national insurance and complying with the living wage directives have created. In particular they welcomed the Council proposal to cover 100% of both of these costs in the schools' budgets. We appreciate that the Council cannot dictate to individual schools how they spend this increase on staff they have engaged via their delegated budgets; however, we share the Council's expectations that they will allocate the extra monies for the stated purpose.
- Members noted with concern that the Council's general and earmarked reserves are very low in comparison to the size of the Council's overall budget and when compared to other neighbouring authorities. We ask you to note our concerns and that both the Committee and particularly the Audit Committee should pay close attention to the level of these reserves in the coming financial year.

This letter does not require a response.

Regards,

Dear Councillor Patel,

Environmental Scrutiny Committee – 16th February 2016

On behalf of the Environmental Scrutiny Committee I would like to thank you and the officers for attending the Committee meeting on Tuesday 16th February 2016. As you are aware the meeting considered the 'Draft Corporate Plan 2016 – 2018 & 2016/17 Draft Budget Proposals'. In reviewing these proposals the Committee used the following documents to set the context of the discussion:

- Draft Corporate Plan 2016-18;
- Post Consultation Changes – Includes a total summary of the post consultation changes (£14.095 million), a schedule of amended 2016/17 savings proposals, post consultation changes – financial resilience mechanisms & additional pressures;
- 2016/17 Proposals Overview – Includes an overview of the 2016/17 savings proposals, Council wide budget savings proposals 2016/17, Addressable Spend – budget savings proposals 2016/17;
- City Operations Directorate - Draft Budget Savings Proposals;
- City Operations Directorate – Financial Pressures;
- City Operations Directorate – Capital Programme;
- City Operations Directorate – Employee Implications;
- City Operations Directorate – Controllable Budget Analysis;
- 'Changes for Cardiff – Consultation Results & Feedback Report on the City of Cardiff Council's 2016/17 Budget Proposals – Executive Summary' & relevant sections from the report;

- City Operations Directorate – Equality Impact Assessments.

This letter contains the recommendations, observations and requests for information agreed by Members during the Way Forward at the end of the meeting, which we hope will be of assistance to you in considering and shaping the final budget recommendations. The proposals that are allocated against the City Operations Directorate and which fall within the scope of your portfolio are listed below:

Savings Line 15 - City Operations – Building Control – Improve Business Process Efficiency

- Members were concerned about the £46,000 increase in income allocated against Building Control described as efficiencies. They feel that this is a service which struggles to meet current demand and that clearly needs additional funding. With this in mind I would be grateful if you could:
 - Consider reviewing the budget allocations to provide the service with some additional funding to help it meet the current demands;
 - Clarify how we currently deal with situations where building regulations are breached;
 - Confirm whether or not we issue fines against those who breach the regulations. If fines are not possible then can you outline what type action can be taken and how effective it is;
 - Confirm the total value of fines in the generated in past financial years for breaches of buildings regulations; how buildings regulations cases are managed by the courts and if / how we are able to recover Council costs, for example, the incurred legal and officer costs.

Financial Pressures – Line 3 – Supplementary Planning Guidance

- Members welcomed the £75,000 of identified financial pressures support offered for the generation of updated Supplementary Planning Guidance (SPG) documents in the light of the recent LDP adoption. However, Members felt that this will only go a part of the way in addressing the Supplementary Planning Guidance requirements especially where public

consultation may be required. They were conscious that officer time and consultation for such work could be significant and, therefore, ask that a contingency be identified should this figure be exceeded – the Council could be open to a number of possible issues and legal challenges if the SPGs are incomplete or remain outdated.

Savings Line 19 – City Operations - Butetown Tunnel

- A local Member explained that closing the Butetown Tunnel for maintenance at certain times of day caused significant traffic problems in the Butetown and Grangetown wards. You acknowledged and were sympathetic to the problem and agreed to look at what could be done to ensure that the tunnel is only closed for maintenance at off peak times to create the minimum possible transport congestion. I would be grateful if you could follow this up and provide the Committee with feedback on the whether the maintenance impacts can be reduced or not.

Savings Line 21 – City Operations – Increase Civil Parking Enforcement contribution to fund Transport / Environment improvements currently funded by base revenue budgets

- Members noted the increase in income of £360,000 and an overall saving of £370,000 required against this budget line. They also welcomed your recent response to the letter following the 8th December 2015 which provided an income and expenditure summary of the Parking & Enforcement Account. The Committee will in the coming months review this response alongside the budget proposals and consider if further scrutiny on the matter is required.

Savings Line 37 – City Operations – Litter Enforcement – Increase enforcement powers to reduce Environmental Crime (Full Year Effect)

- At the November 10th Environmental Scrutiny Committee meeting Members received an item titled ‘Litter Management & Enforcement in Cardiff’. This considered a draft Cabinet report titled ‘City Operations –

Broadening Enforcement Powers to Improve the Public Realm' which was later received by the Cabinet at its meeting on the 12th November 2015. The report referenced a series of proposed activities, some of which will be implemented in April 2016. With this in mind Members will look to include an update report on the Environmental Scrutiny Committee Work Programme for the autumn.

Financial Resilience Mechanism – Targeted Interventions for Potholes

- Members welcome the additional £320,000 allocated for addressing potholes in 2016/17. They received assurances that such repairs are not simply 'pothole patches' and that instead the Council applies a 'permanent reinstatement' approach to fixing the problem – i.e. removing a larger area surrounding the recurring pothole and replacing that.

Damage to the Highway from Heavy Vehicles

- During the way forward Members agreed that some parts of Cardiff have a problem with heavy vehicles damaging roads which are / should be subject to traffic regulation order that limits the use of the road to vehicles below a particular weight. The Committee appreciates that policing weight restrictions is almost impossible but asks that the Council reviews existing cases where such traffic regulations have been proposed and also does what it can to raise the profile of existing vehicle weight restricting traffic regulation orders (TROs).

I would be grateful if you would consider the above comments and provide a response to the requests made in this letter.

My Ref: T: Scrutiny/PRAP/Comm Papers/Correspondence

Date: 18 February 2016

Councillor Phil Bale
Leader
City of Cardiff Council
County Hall
Cardiff
CF10 4UW

Dear Councillor Bale

Policy Review & Performance Scrutiny Committee: 17 February 2016.

On behalf of the Policy Review and Performance Scrutiny Committee sincere thanks for attending Committee yesterday together with Councillors Hinchey and De'Ath to facilitate consideration of the draft Corporate Plan 2016-18 and the draft Budget Proposals 2016-17. The Committee is grateful for your time, and for the co-operation of all Directors and officers in attendance to answer Members' questions. This letter captures the observations and concerns of the Committee in a structure that reflects the Committee proceedings. Firstly, comments on the Corporate Plan, secondly on the overarching budget position, followed by comments on the budget proposals of the specific service areas that fall within the terms of reference of this Committee.

Draft Corporate Plan 2016-18

The Committee wishes to re-iterate that it feels the draft 2016-18 Corporate Plan is a considerable improvement on previous Plans, and thank you for making the final draft Corporate Plan available to all Scrutiny Committees in a timely manner. This has ensured proportionate scrutiny of the Council's key strategic planning document alongside budget proposals. There are a few opportunities for improvement of this final draft that Members wish to record as follows:

- Members wish to endorse an issue highlighted by the Community and Adult Services Scrutiny Committee, that the Measuring Progress sections within the Plan could be improved. Specifically, we wish to highlight the potential to refine the read across between the Plan and Appendix 1 in respect of the number of Measures associated with objectives.
- Within the Delivering Our Vision section of the Plan (page 6) we urge that you include an explanatory note that details the links between the 'Well-Being Goals', 'Cardiff Outcomes' and 'Council Priorities'.

Overarching Budget Proposals 2016-17

The Committee notes that you consider there has been a good response to the consultation exercise, and that this year the approach to Member briefings has been more open and inclusive. We welcome the greater openness, and an apparently more rigorous budget setting process, and will test this via budget monitoring later in the year.

The Members were interested to hear from Unison that they have some concerns around the reflectiveness of the Council's workforce of the communities it serves. We note Councillor Hinchey will write separately to the Union on this matter. Members wish to follow up the concerns highlighted and will consider taking a look at the changing composition of staff over time. The Committee will address this during its future work programming for 2016/17.

The Committee wishes to express concern at the evident internal cost inflation and its impact on the savings made over time. Members accept that the real challenge is the moral obligation faced by a public service. The Committee feels there are green shoots of progress in savings made and note the Council is more business like, having reviewed many HR policies and specifically improved in areas such as sickness absence and agency costs. Members note that many services delivered by the Council are non regulatory but important for moving Cardiff forward, and therefore commend the lobbying of Welsh Government to ensure continuing progress for the City and many service areas.

In respect of the Changes for Cardiff budget consultation Members have some concerns around the presentation of results across methodologies of research, and whether consequently results are skewed. They are therefore pleased that the results of the budget consultation are considered just one source of information in the decision making process. However, Members would like to see caveats to the methodology highlighted more strongly in the report.

The Committee is seeking further assurance of the detailed planning behind risk assessments. Members understand the Council cannot eliminate risk and are pleased that the results of previous budget setting exercises have informed this year's risk assessments. They note that overall the administration will aim for 90% of detailed risk plans to be in place by April 2016. Members are assured that the methodological approach to risk assessment is uniform across Council Directorates, and are pleased to hear that all risk assessments are moderated by the finance team.

Members feel reassured that the overall balance of schools budgets will not worsen despite the Council increasing schools budgets, having heard that some external

schools grants would be cut. The Committee notes that the majority of capital receipts are schools related.

Corporate Management Proposals

Line 65: Corporate initiative efficiencies, reduction in the amount available to support events and market the city. The Committee is concerned as to whether service area budgets have planned for a decrease in budget support for marketing the City, and note that the Communications and Media team will aim to offset these savings with a digital media strategy. Members note your confidence that the contingency pot for events is sufficient, although there is no reserve funding for events. Members wish to point out that for events the calibre of the Champions League Final the Council will often be required to provide match funding. We also note that big events in the City are now required to be cost neutral.

Economic Development Proposals

Lines 72 and 82: In relation to proposals to increase rental income from the Council's property estate the Committee notes the proposals are based on current occupier levels. They accept that independent advice points to the importance of re-investing to maintain and improve the existing estate to preserve future rental income.

The Committee recognises the change in the Council's Economic Development role compared with fifteen years ago, and that the intervention of Welsh Government means that our role is in facilitating activity, enabling the private sector to deliver projects that add value and improve Cardiff's offer.

The Committee feels it has an important role in overseeing the appropriate use of land and buildings across the City, taking account of communities versus commercialism, and will seek to regularly monitor progress in its work programming.

Governance & Legal Services Proposals

Line 96: The Committee wishes to endorse the Director of Governance and Legal Services' comment that the 2015/16 output of the scrutiny function has been significant despite two vacant scrutiny research posts. Members agree that the Council's five scrutiny committees benefit from having individual support, and recognise the commitment within the service. However, they feel the research function has been stripped to the bone.

Members noted that the reduction in two vacant posts has not been recorded in the Employee Implications of the Budget report. They take on board your explanation for

this, that additional financial pressure funding has been allocated to scrutiny on the basis that the service will be subject to a review during the year.

Line 97: The Committee is pleased that the Council will be saving money with the in-house provision of Welsh language translation at council meetings.

Line 99: Members note the risk attached to the proposed 15% increase in land charges given the existence of private agents delivering a similar service, but feel this is reasonable as the quality of reports delivered by the Council is considered notably better.

Resources Proposals

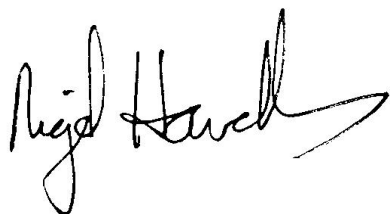

Line 118: Members note your explanation that the uncertainty around the Alternative Delivery Model explains why line 118, ADM Security and Cleaning, is a Red risk.

Line 104: In light of recent negative publicity Members are seeking assurance that the Council is adequately covered with current levels of audit support. They note that benefit fraud has recently been moved from the Council to the DWP; the posts lost are not pure audit staff; the Audit Committee has considered the proposal; and the audit manager is comfortable that with current resources he can still provide assurance to the section 151 officer.

In respect of the Capital budget Members note your confidence that the allocation of investment in ICT is adequate to support the proposed new ways of delivering council services currently under development.

Finally could I ask that you relay our comments and observations to Cabinet when it considers the Corporate Plan 2016-18 and Budget Proposals 2016/17 tomorrow. Once again please pass on my thanks to all Cabinet Members and witnesses who attended for consideration of these fundamental Council documents.

Yours sincerely

Appendix 4

FINANCIAL PRESSURES 2016/17

No	Pressures Title	Value of Pressure	Risk Assessment	
		2016/17 £000	Residual	EIA
1	Reduction in Single Environment Grant - The Sustainable Waste Management Grant, Tidy towns and Flood prevention grants will be combined into one new grant entitled "Single Environment Grant" with an anticipated reduction of 6.4% in 2016/17. This grant is used to support recycling processing and initiatives, to drive recycling and avoid fiscal fines, to make local environmental quality improvements, prevent fly tipping and also support flood prevention activities.	456	Red	Green
2	Waste - Increased recycling market gate fees - To support the costs of introducing new recycling materials for the public. These will include mattresses, carpets and other materials such as hygiene waste.	175	Red	Green
3	Supplementary Planning Guidance - To provide additional support following approval of the Local Development Plan.	75	Amber-Green	Green
4	City Centre / Neighbourhood Street Cleansing & Drainage /Gully Cleaning - It is proposed that a Neighbourhood Services team be created to support cleansing and enforcement activities outside of 'normal' working hours, on a 2pm-10pm shift in the districts. The team would comprise of operatives who are skilled to not only remove waste and litter, but also able to gather evidence in order to pursue enforcement action. In addition these resources will support the Tidal Parking and ensure additional focus through increased capacity in the service to enable a deep cleanse and help to prevent drainage and surface highway flooding issues. Further, to support business and reputation of the county, street washing will be re-introduced to the City Centre, and make provision for street washing in the districts in areas where liquids can cause pavements to become unclean, but also potentially hazardous, e.g. fruit fall or fast food oils. This proposal includes the creation of nine new posts, two of which will be new apprenticeships.	220	Amber-Green	Green
CITY OPERATIONS TOTAL		926		

Appendix 4

No	Pressures Title	Value of Pressure 2016/17 £000	Risk Assessment	
			Residual	EIA
5	Reconfiguration of Capital Times Offer - Review of the existing Capital Times offer with development of Email/Online Tools and the creation of a new print product.	86	Amber-Green	Green
CORPORATE MANAGEMENT TOTAL		86		
6	Additional Solicitors to meet demands of workload - Additional resource proposed to fund new posts in legal services. This will enable further legal work to be carried out in-house with less reliance placed on more costly external services. In particular additional legal posts are sought to carry out work relating to child protection and procurement (to support work undertaken to facilitate the Council's new target operating model).	158	Green	Green
7	Member Support - To enable preparation for the implementation of the Local Government Act.	100	Amber-Green	Green
GOVERNANCE & LEGAL SERVICES TOTAL		258		
8	Social Services and Well Being Act (Information, Assistance & Advice) - Section 185 of the Social Services and Well Being Act 2014 places a new duty on the Local Authority to meet the care and support needs of its prison population. HMP Cardiff has a population of 814. Anticipated duties include the provision of information, assistance and advice to families, suitable assessments of a person's need for care and support, provision to meet identified care and support needs and facilitation of raising concerns of persons in the secure estate and their families in relation to care and support. It is anticipated that this new duty will require 1.5 additional social workers (£68,000) and two mental health support workers (£75,000.)	143	Red	Red-Amber
9	Social Services and Well Being Act - Advocacy - Section 182 of the Act requires local authorities to arrange for an advocacy service to be made available for people with care and support needs. Although an advocacy service is already provided for certain groups of service users it is anticipated that under the Act this service will be extended. The additional cost is difficult to estimate at this stage but an indicative value of £50,000 is included.	50	Red	Red-Amber

Appendix 4

No	Pressures Title	Value of Pressure	Risk Assessment	
		2016/17 £000	Residual	EIA
10	Families with No Recourse to Public Funds - Anticipated increase in the level of support payments to families with children who have no recourse to public funds. This reflects an ongoing and anticipated further increase in the level of migrant families with children. Local Authorities must not withhold Section 17 Children's Act 1989 support for families, as doing so would breach their rights under the European Convention of Human Rights.	1500	Red	Red-Amber
11	Early Help Strategy - Additional resource requirement to fund a range of measures forming part of an Early Help Strategy. The component elements will provide additional support to families and young people and will contribute to an anticipated reduction in the number and cost of looked after children. The proposals include the establishment of an Adolescent Resource Centre to offer support to +11 children, the introduction of a safer families initiative and the development of family group conferencing. The combined annual cost of these initiatives is estimated at £410k and will include additional Council staff and payments to voluntary sector organisations. The pressure bid supports a number of initiatives forming part of Social Services savings proposals for 2016/17.	410	Red	Red-Amber
12	'When I'm Ready' Post 18 Foster Care/ Connected Persons Assessments for Foster Carers -From 1.4.16 Welsh Local Authorities must have implemented a 'When I'm Ready' scheme providing financial support for young people currently in foster care past the age of 18. Financial impact will depend on numbers of post 18 children accessing the scheme and the level of offsetting benefits and allowances that individuals can claim. There is also increased pressure on the fostering service in relation to 'connected persons' assessments. There is a significant increase in demand for assessments of prospective foster cares who are family, friends or who have a prior connection with a child/young person who is looked after. There is also additional pressure from Courts to complete assessments in a shorter timescale.	200	Red	Red-Amber

DIRECTORATE BUDGET SAVINGS PROPOSAL SUMMARY 2016/17

No	Directorate	Proposal	X Ref	Budget	Saving					Risk Analysis			Cabinet Portfolio	
				£000	Employee £000	Other £000	Income £000	TBC £000	2016/17 £000	Status	Residual	Achievability		EIA
79	Economic Development	Arts Venues - review of costs, income and service delivery in Arts Venues.	T&U	1,260	0	35	0	395	430	Detailed plan in place	Red	Red	Red	Community Development, Co-operatives & Social Enterprise
80	Economic Development	Remove Cardiff Contemporary Project Budget - release revenue saving by identifying alternative funding sources for the Arts Management budget associated with the Cardiff Contemporary project.	S	446	0	50	0	0	50	Detailed plan in place	Green	Green	Amber-Green	Community Development, Co-operatives & Social Enterprise
81	Economic Development	Rationalisation of Culture, Venues and Events Sales, Marketing & Advertising Functions - rationalise existing Culture, Venues & Events Marketing and Sales provision releasing savings through reduced FTE.	V	874	95	0	0	0	95	Detailed plan in place	Green	Green	Green	Community Development, Co-operatives & Social Enterprise
82	Economic Development	Income and Business Process Efficiencies - Strategic Estates - generate additional rental income from the Council's property estate through the periodic rent review process.	M	(128)	0	0	56	0	56	Detailed plan in place	Green	Green	Green	Corporate Services & Performance
Economic Development Total					151	263	477	395	1,286					
83	Education & Lifelong Learning	Rationalisation of centrally held budgets for school related issues - a reduction in centrally held budgets that fund school initiatives which will fall out in 2016/17, or costs within schools for which the full responsibility will be delegated to schools as part of the 2016/17 school budget strategy. This will include savings identified nationally, through the revision of the All Wales Service Level Agreement with the WJEC for the provision of educational services to schools and the current energy efficiency invest to save scheme.	A	1,496	0	569	0	0	569	Detailed plan in place	Green	Green	Green	Education
84	Education & Lifelong Learning	Reduction in costs of placements with other Local Authorities - when a pupil has a statement of Special Educational Need and has been placed in a school or educational establishment outside of Cardiff, the educational costs have to be met by Cardiff Council. In 2015/16 there are 146 pupils placed in local authorities other than Cardiff, an increasing number of whom have placements being charged at enhanced rates or with additional support costs. Officers will work with the Health Authority to improve joint commissioning arrangements with clear targets for reducing costs from other local authority placements.	G	5,570	0	150	0	0	150	Detailed plan in place	Red-Amber	Red-Amber	Red-Amber	Education
85	Education & Lifelong Learning	Reduction in number of Looked After Children placed Out Of County - 81 of the current Out Of County placements are children who are also Looked After. Officers will work with colleagues in Children's Services to identify children who potentially could be brought back into County and educated within an existing Cardiff provision.	G	5,570	0	100	0	0	100	Detailed plan in place	Red-Amber	Red-Amber	Red-Amber	Education
86	Education & Lifelong Learning	Reduction in number of new placements - the age profile of children currently placed out of county will mean that there are a significant number who will cease to be the financial responsibility of the Council during 2016/17 financial year. Officers will work with the Health Authority, Children's Services, the Vale of Glamorgan Council and other neighbouring authorities to significantly reduce the numbers of new placements required outside of Cardiff. This will be complimented by the review work currently being undertaken with regards to the capacity and range of SEN Specialist provision within Cardiff.	G	5,570	0	680	0	0	680	Detailed plan in place	Red-Amber	Red-Amber	Red-Amber	Education

DIRECTORATE BUDGET SAVINGS PROPOSAL SUMMARY 2016/17

No	Directorate	Proposal	X Ref	Budget	Saving					Risk Analysis			Cabinet Portfolio	
				£000	Employee £000	Other £000	Income £000	TBC £000	2016/17 £000	Status	Residual	Achievability		EIA
87	Education & Lifelong Learning	Rationalisation of staff costs centrally retained to provide services of a specialised nature - The savings will be achieved by a restructure of the Specialist SEN teams.	H	374	60	0	0	0	60	Detailed plan in place	Amber-Green	Amber-Green	Amber-Green	Education
88	Education & Lifelong Learning	Reduction in central costs for the Education of Children not in School - over the past three financial years there has been a reduction in the level of central subsidy for pupils who are not educated in school. This saving will be achieved through the examination of a different delivery model for tuition through the commissioning of an external agency as opposed to direct employment of tutors which will reduce the overall cost of the service. Whilst it is expected that the full saving will be deliverable in this manner any shortfall will be recouped through an additional charge being levied on schools for providing tuition to pupils on roll in a school but educated elsewhere.	I	695	149	0	0	0	149	Detailed plan in place	Amber-Green	Amber-Green	Amber-Green	Education
89	Education & Lifelong Learning	Reduction in centrally retained budgets for supporting Childcare Providers - the Council has a statutory duty to assess the demand for, and supply of, childcare provision within the geographical area of Cardiff and provide a Family Information Service. In the past two years this team within the Education Service has been more closely aligned with the grant funded Flying Start provision which has facilitated significant savings. This proposal takes these savings further and will reduce the Childcare Team further. Support for childcare providers would be limited to that which is grant funded.	L	192	100	0	0	0	100	Detailed plan in place	Green	Amber-Green	Red-Amber	Education
90	Education & Lifelong Learning	Reduction in contribution towards the Central South School Improvement Consortium - the Council currently contributes £1.5m towards the costs of providing an Education School Improvement Service across the Central South region of Wales. This accounts for 35% of the total costs of the service. This saving will be achieved through passing at least a 5% reduction in contribution onto the Consortium.	O	1,616	0	81	0	0	81	Detailed plan in place	Green	Amber-Green	Green	Education
91	Education & Lifelong Learning	Further rationalisation of Education Service business processes - to achieve these savings the Education Service will work with the Council's Organisational Development Team to improve the efficiency and effectiveness of the current processes for dealing with pupil admissions, statements of Special Educational Need, fines for pupil non-attendance and parental payment for school delivered services.	P	877	100	0	0	0	100	Detailed plan in place	Red-Amber	Red-Amber	Amber-Green	Education
92	Education & Lifelong Learning	Reduction in staffing for Performance Management - the Performance and Information team provide a central resource to gather, analyse and disseminate the relevant pupil led, school level and authority level data necessary to allow the Council to discharge its statutory reporting duties. This saving will be achieved through a restructuring of this team which will align itself with other data functions both inside and outside the Council.	Q	333	35	0	0	0	35	Detailed plan in place	Green	Amber-Green	Amber-Green	Education
93	Education & Lifelong Learning	Youth Service Budget - this is a continuation of the 2015/16 budget decision to fundamentally change the provision of Youth Services in Cardiff and through this to save £1.7m of revenue budget over the medium term. This second year target of £650k will be achieved through a reduction in the numbers of full and part time youth workers delivering services across the City with a greater focus on meeting the needs of priority groups of young people.	T	1,774	650	0	0	0	650	Detailed plan in place	Amber-Green	Red-Amber	Red-Amber	Education

DIRECTORATE BUDGET SAVINGS PROPOSAL SUMMARY 2016/17

No	Directorate	Proposal	X Ref	Budget	Saving					Risk Analysis				Cabinet Portfolio
				£000	Employee £000	Other £000	Income £000	TBC £000	2016/17 £000	Status	Residual	Achievability	EIA	
105	Resources	Staff savings within Service Accountancy - reduction of up to three posts in Service Accountancy. This will be achieved through a review of team structures and responsibilities and business process efficiencies.	D	2,069	80	0	0	0	80	Detailed plan in place	Red-Amber	Amber-Green	Green	Corporate Services & Performance
106	Resources	Extension of Income Enforcement Service - continue with recent changes to bring more of the enforcement of Penalty Charge Notices (PCNs) directly under the control of Local Authority staff. The majority of compliance and enforcement activity required to collect outstanding PCN notices will be carried out by directly employed Council staff.	E	(2,220)	0	0	150	0	150	Detailed plan in place	Amber-Green	Amber-Green	Green	Corporate Services & Performance
107	Resources	Business rates additional court cost income - robust recovery procedures are in place for businesses that default on their scheduled payments. The proposal reflects securing additional income over and above the existing budget.	E	(2,220)	0	0	15	0	15	Detailed plan in place	Amber-Green	Amber-Green	Green	Corporate Services & Performance
108	Resources	Commissioning & Procurement Employee Owned Mutual 2016-17 - a proposed reduction in the fixed costs of the Strategic Procurement Team through 'sale' of full costed staff time to an employee owned mutual or local authority trading company.	G	(511)	0	0	60	0	60	Detailed plan in place	Red-Amber	Red-Amber	Green	Corporate Services & Performance
109	Resources	Corporate Digital Efficiencies - the introduction of an income target to reflect the Enterprise Architecture Team's support in driving out the adoption of digital services across the organisation which will result in improved customer experience, increased automation and employee efficiencies.	I	(16)	0	0	125	0	125	Detailed plan in place	Green	Amber-Green	Green	Corporate Services & Performance
110	Resources	Post Deletions – HRPS Partnership Co-Ordinator (Grade 6) and Service Delivery Advisor (Grade 4) - in February 2015 Welsh Government announced that from September 2015 it would no longer require Careers Wales to have any involvement in the National Database which many schools use when sourcing potential placements. Instead, they now place the onus on schools to make their own arrangements directly with employers. The above posts are employed within HRPS to act as an intermediary which is no longer required. One expression of interest in voluntary redundancy has been received and one post holder is retiring in February 2016.	K	271	61	0	0	0	61	Detailed plan in place	Amber-Green	Amber-Green	Green	Corporate Services & Performance
111	Resources	Post Deletion – HRPS First Point of Contact Team (1 x Grade 4 and vacant hours at Grade 4) – This is based on reviewing demands and efficiencies in managing the Contact Team.	N	1,146	40	0	0	0	40	Detailed plan in place	Amber-Green	Amber-Green	Green	Corporate Services & Performance
112	Resources	Post Deletion – HRPS Manage Team (2 x Grade 4) - related to back office/systems efficiencies for example, the consolidation of the reduction to two Council payrolls, the roll out of DigiGOV to schools and proposed introduction of DBS on-line. This will reduce demand on the team. Post reduction will be made through the deletion of a vacant Grade 4 post and vacant hours at Grade 4.	L	1,854	50	0	0	0	50	Detailed plan in place	Amber-Green	Amber-Green	Green	Corporate Services & Performance
113	Resources	Savings from vacant hours across HR People Services - the permanent redesignation of full time employee posts to contracted hours.	L&N	3,000	24	0	0	0	24	Detailed plan in place	Amber-Green	Amber-Green	Green	Corporate Services & Performance
114	Resources	Review of HR Organisational Development Team - as Employee Engagement Programme is now more embedded and Directors are responsible for engagement activity within their Directorates, there will be a reduced requirement for this level of activity to be supported corporately from within the Council's HRPS OD Team. Consequently vacant hours at Grade 7 and Grade 4 post is deleted.	N	1,146	40	0	0	0	40	Detailed plan in place	Amber-Green	Amber-Green	Green	Corporate Services & Performance

DIRECTORATE BUDGET SAVINGS PROPOSAL SUMMARY 2016/17

No	Directorate	Proposal	X Ref	Budget	Saving					Risk Analysis				Cabinet Portfolio
				£000	Employee £000	Other £000	Income £000	TBC £000	2016/17 £000	Status	Residual	Achievability	EIA	
132	Resources	Reduction to Third Sector Infrastructure Funding - following alignment of third sector infrastructure support within the city, further efficiencies would be sought in relation to increasing collaboration of back office functions (Cardiff Third Sector Council/VCS/Diverse Cymru and Race Equality First) and exploring joint opportunities with Cardiff & Vale UHB, Vale of Glamorgan Council and the Wales Council for Voluntary Action regional grant allocation.	AD	278	0	60	0	0	60	Detailed plan in place	Amber-Green	Amber-Green	Red-Amber	Community Development, Co-operatives & Social Enterprise
133	Resources	Reduction in Community Safety Funding - the existing community safety budget provides support to initiatives such as Victim Support; mobile CCTV; Operation Mistletoe to help manage the night time economy over the festive period; and additional support for major events. The saving includes £10k from removal of obsolete mobile CCTV cameras following cost benefit review, plus £25k reduction to the events/Operation Mistletoe budget (required December 2016). It is anticipated that by this date alternative funding mechanisms would be in place eg. BID/Late Night Levy (to be voted on in summer 2016).	AD	305	0	35	0	0	35	Detailed plan in place	Amber-Green	Amber-Green	Amber-Green	Skills, Safety and Engagement
Resources Total					645	313	884	0	1,842					
134	Social Services	Early Help Strategy - introduction of 'Early Help Strategy' to promote and facilitate early interventions to tackle problems emerging for children, young people and their families. Steering Group developed with partners to establish and develop a multi-agency approach, promoting early support, better outcomes and more cost effective delivery of services. The aim is to reduce demand for external placements over a three year period. It is estimated that implementation of the early help strategy will lead to a 5% reduction in the looked after children population leading to savings of approximately £1.3m over three years. This proposal is a gross saving with an associated cost included in the financial pressures.	G	18,219	0	340	0	0	340	Detailed plan in place	Red-Amber	Red-Amber	Red-Amber	Early Years, Children & Families
135	Social Services	Establish an Adolescent Resource Centre - this is a resource to assist in supporting young people to stay at home. It is based on a model operated in other authorities and will require some initial investment to establish the facility. This proposal is a gross saving with an associated cost included in the financial pressures.	G	18,219	0	700	0	0	700	Detailed plan in place	Red-Amber	Red-Amber	Red-Amber	Early Years, Children & Families
136	Social Services	Safer Families Initiative - utilise and encourage volunteering in the community to provide a mentoring service aimed at reducing Looked After Children admissions. Based on pilot in other authorities, it is anticipated that the scheme will reduce the numbers of children coming into the care system. Research suggests an average saving of £5.4k per child referred. Forty referrals are targeted for 2016/17. This proposal is a gross saving with an associated cost included in the financial pressures.	G	18,219	0	210	0	0	210	Detailed plan in place	Amber-Green	Amber-Green	Red-Amber	Early Years, Children & Families
137	Social Services	Reduction in the Number of Children Placed in Out Of Area Placements - Review of children currently placed in out of area placements. Aim to step down children who are currently in residential care into alternative care settings, including enhanced fostering. Combine with other preventative initiatives aimed at reducing the number of looked after children in external placements. DIRECTORATE BUDGET SAVINGS PROPOSAL SUMMARY 2016/17

No	Directorate	Proposal	X Ref	Budget	Saving					Risk Analysis				Cabinet Portfolio
				£000	Employee £000	Other £000	Income £000	TBC £000	2016/17 £000	Status	Residual	Achievability	EIA	
150	Social Services	Review of staffing within Assessment & Care Management - There will be a review of case management roles, responsibilities and assessment processes to ensure optimum efficiency in service delivery.	V	988	100	0	0	0	100	Detailed plan in place	Amber-Green	Amber-Green	Red-Amber	Health, Housing & Wellbeing
151	Social Services	Demand Management - Signposted alternative provision - increased sign-posting of service users (via the One Point of Contact service) to alternative forms of care and preventative services in order to reduce overall demand and cost. This will also contribute to a reduction in assessment activity via alternative models of care delivery, including equipment, alarm and universal services.	R	1,758	0	250	0	0	250	Detailed plan in place	Amber-Green	Amber-Green	Amber-Green	Health, Housing & Wellbeing
152	Social Services	Locality based service delivery - initial mapping on a pilot basis would appear to indicate opportunities for improved service delivery and reduced costs through service redesign on a locality focused basis. This would include consideration of accommodation models, commissioned services and community opportunities. It is likely however that significant work will be required to implement a revised commissioning model for care services, with a roll out likely to take place over a number of financial years.	R	28,230	0	250	0	0	250	Detailed plan in place	Red	Red-Amber	Amber-Green	Health, Housing & Wellbeing

ADDRESSABLE SPEND - BUDGET SAVINGS PROPOSALS 2016/17												
No	Theme	Savings Title	Budget £000	Saving			TOTAL 2016/17 £000	Risk Assessment				Cabinet Portfolio
				Employee £000	Other £000	Income £000		Status	Residual	Achievability	EIA	
1	Externally Set	Precepts and Levies - a targeted reduction on precepts and levies paid to other bodies. The level of reduction targeted has been set at 3% which is in line with the Council's anticipated funding reductions from Welsh Government.	17,570	0	32	0	32	Detailed plan in place	Amber-Green	Red-Amber	Green	Corporate Services & Performance
Externally Set Total				0	32	0	32					
2	Property & Premises	Energy efficiency - invest to save schemes focussing on buildings to which energy efficiency measures can be fully applied.	4,334	0	30	0	30	Detailed plan in place	Amber-Green	Red-Amber	Green	Environment
3	Property & Premises	Renewable Energy Generation - A number of renewable energy schemes will become operational during 2015/16. Income will be derived from these through government incentives related to energy generation (Feed in Tariffs, etc), the sale of energy to the grid and/or other rental income.	4,334	0	20	0	20	Detailed plan in place	Green	Amber-Green	Green	Environment
4	Property & Premises	Energy efficiency (behavioural changes) - the recently approved Carbon Reduction Strategy sets out a series of actions that will manage and reduce the Council's energy consumption. Part of this strategy relates to better management of energy consumption and behaviour change amongst building managers and other staff.	4,334	0	40	0	40	General planning	Amber-Green	Amber-Green	Green	Environment
5	Property & Premises	Office Accommodation - next phase of savings from the office rationalisation programme. Ensuring more effective use of the Council's existing property estate and considering opportunities to rationalise where possible.	4,992	0	1250	0	1,250	Detailed plan in place	Amber-Green	Amber-Green	Amber-Green	Corporate Services & Performance
6	Property & Premises	Facilities management savings - associated with the alternative delivery model of Cardiff International Sports Stadium.	6,281	0	175	0	175	Detailed plan in place	Amber-Green	Amber-Green	Amber-Green	Corporate Services & Performance
Property & Premises Total				0	1,515	0	1,515					
7	Corporate	Reduction in requirements of insurance claims provision - review of the level of cover based on current claims history.	5,387	0	500	0	500	Detailed plan in place	Amber-Green	Amber-Green	Green	Corporate Services & Performance
8	Corporate	Prosiect Gwyrd - reduction in specific contingency.	7,815	0	500	0	500	Detailed plan in place	Amber-Green	Green	Green	Corporate Services & Performance
9	Corporate	Reduction in External Audit Fee - review of the audit fee to ensure that all areas of the Council are appropriately charged for audit work incurred.	472	0	25	0	25	Detailed plan in place	Amber-Green	Amber-Green	Green	Corporate Services & Performance
10	Other	Severance Budgets - budget realignment comprising a) recovery of budgets from directorates that were set aside to repay initial severance outlay over five annual instalments. This was prior to severance becoming a central budget and the respective repayments have now been fully recovered. b) revision of the ongoing requirement on severance budgets reflecting most recent profile of leavers. c) extension of the payback profile to reserves	0	1908	0	0	1,908	Detailed plan in place	Amber-Green	Amber-Green	Green	Corporate Services & Performance
Corporate Total				1,908	1,025	0	2,933					
12	Other	Street Lighting Dimming - The Council approved an invest to save scheme for the dimming of street lights in residential areas. The scheme is to be implemented over three years with a total of approximately 24,000 street lights being dimmed. It is planned to complete the installation of dimming units on 8,000 street lighting units this financial year with the result that savings will start to be made next year.	2,621	0	35	0	35	Realised	Amber-Green	Amber-Green	Green	Transport, Planning & Sustainability

ADDRESSABLE SPEND - BUDGET SAVINGS PROPOSALS 2016/17

No	Theme	Savings Title	Budget £000	Saving			TOTAL 2016/17 £000	Risk Assessment				Cabinet Portfolio
				Employee £000	Other £000	Income £000		Status	Residual	Achievability	EIA	
13	Other	Street Lighting Conversion to LED - Replace main route lighting with LED to reduce long term energy expenditure.	2,621	0	150	0	150	Detailed plan in place	Red-Amber	Amber-Green	Green	Transport, Planning & Sustainability
14	Other	Traffic Signals/Bollards - Conversion of traffic signals to LED lighting.	2,621	0	25	0	25	Detailed plan in place	Red-Amber	Amber-Green	Green	Transport, Planning & Sustainability
15	Other	School Transport - the full year effect of the withdrawal of non statutory primary school transport. Withdrawal of non statutory primary school transport from Sept 2015 - six routes: 614,621,624,626,633,638.	6,531	0	81	0	81	Realised	Green	Green	Green	Education & Skills
16	Other	School Transport increase price of bus passes - Increase bus passes from £300 to £325.	6,531	0	0	5	5	Detailed plan in place	Green	Green	Amber-Green	Education & Skills
17	Other	School Transport (Primary & Secondary) continued route retendering/optimisation - Continued route retendering/optimisation for mainstream primary and secondary transport. Mainstream school transport has reached its peak and should reduce as a result of the school reorganisation implementation.	6,531	0	60	0	60	Detailed plan in place	Green	Green	Green	Education & Skills
18	Other	School Transport - Additional Learning Needs (ALN) route optimisation, retendering of routes/mergers - continued route retendering/optimisation. Reviewing on a case by case basis and working closely with schools and Education. Review current transport provision - fits needs of pupil.	6,531	0	100	0	100	Detailed plan in place	Green	Amber-Green	Amber-Green	Education & Skills
19	Other	Additional Learning Needs (ALN) withdrawal of transport for pupils within 2-3 miles (primary/secondary school) and review and implement new ALN policy - Review transport for stated pupils who live within two miles from primary school and three miles from secondary. This will done on an individual case basis, to take into account of the individual child's needs based on ALN transport policy.	6,531	0	125	0	125	Detailed plan in place	Amber-Green	Amber-Green	Amber-Green	Education & Skills
Other Total				0	576	5	581

EARMARKED RESERVES GENERAL FUND

	Title	Estimated balance at 31.03.16 £000	Estimated Movements 2016/17		Estimated balance at 31.03.17 £000	Purpose
			To finance budget £000	Other Commitments £000		
1	Apprenticeship Reserve	391	0	(195)	196	To fund the cost of apprentices.
2	Bereavement Services Reserve	76	0	60	136	To fund a planned programme of refurbishment and improvement.
3	Building Control Fee Earning Reserve	558	0	0	558	To fund the net costs of the Building Control fee earning account and related activities.
4	Bute Park Match Funding Reserve	228	0	(25)	203	To provide match funding for grant funded initiatives in relation to Bute Park as per the HLF agreement.
5	Cardiff Academy Reserve	95	0	(30)	65	To support initiatives undertaken by the Academy.
6	Cardiff Dogs Home Legacy Reserve	118	0	(10)	108	Donations left to Cardiff Dogs Home to be used for improvements to the home.
7	Cardiff Enterprise Zone Reserve	3,457	0	(1,317)	2,140	Budget set aside to fund expenditure on the Cardiff Enterprise Zone in future years.
8	Cardiff Insurance Reserve	6,745	0	292	7,037	To protect the Council from future potential insurance claims.
9	Central Transport Service Vehicle Reserve	166	0	0	166	To fund costs relating to the CTS vehicle service in future years.
10	City Deal Reserve	32	0	(32)	0	To fund the Council's share of the Local Authority partnership revenue budget to progress a City Deal for the Cardiff Capital Region in collaboration with Welsh and UK Governments.
11	Community Based Transitional Reserve	424	0	(100)	324	To fund the support for potential future community asset transfers.

	Title	Estimated balance at 31.03.16 £000	Estimated Movements 2016/17		Estimated balance at 31.03.17 £000	Purpose
			To finance budget £000	Other Commitments £000		
12	Council Tax Bad Debt Release Reserve	1,000	(1,000)	0	0	An amount released from the Council Tax Bad Debt Provision to fund the 2016/17 budget.
13	Discretionary Rate Relief Reserve	100	0	0	100	To fund changes to the NDR discretionary rate relief scheme. This may include further approaches from the community in respect of guidance provided in the Stepping Up Toolkit.
14	Energy/Carbon Reduction Reserve	439	0	0	439	To provide funding for future unexpected increases in the councils carbon reduction charges.
15	Equal Pay Reserve	281	0	0	281	To fund costs incurred in connection with Equal Pay claims.
16	Flatholm Reserve	24	0	(24)	0	To fund essential unforeseen maintenance and provision for potential liabilities in relation to the future running of the island and in respect of the future of the island.
17	Fraud Detection Reserve	193	0	(66)	127	To supplement staffing and other costs associated with fraud detection.
18	Harbour Project and Contingency Fund	824	0	333	1,157	To fund expenditure for the improvement and enhancement of infrastructure, assets, activities or services in or around the Bay.
19	Highways Local Government Borrowing Initiative Reserve	1,047	(1,047)	0	0	To fund the capital financing implications of expenditure on highways relating to the Highways Local Borrowing Initiative (LGBI) as provided by Welsh Government. Change of treatment with cost to be funded by base budget.
20	HMO Licensing Reserve	50	0	(12)	38	To spread the income in relation to costs for the 5 year length of licences.

	Title	Estimated balance at 31.03.16 £000	Estimated Movements 2016/17		Estimated balance at 31.03.17 £000	Purpose
			To finance budget £000	Other Commitments £000		
21	Homelessness Reserve	1,431	0	121	1,552	To be used to meet increases in homelessness pressures. Previously used to provide temporary funding for voluntary redundancy, for which the net movement in 2016/17 represents replenishment of the reserve balance.
22	House Mortgage Reserve	29	0	0	29	This represents surpluses on the fund to meet net service costs.
23	Housing Benefit Reserve	1,044	0	(450)	594	To meet the budgeted costs of trainees and other temporary staffing costs within the Housing Benefit section.
24	Housing Options Centre Reserve	893	0	30	923	To meet the budgeted capital financing costs of the new Housing Options Centre. Previously used to provide temporary funding for voluntary redundancy, for which part of the net movement in 2016/17 represents replenishment of the reserve balance.
25	Housing Support Reserve	1,212	0	(101)	1,111	To improve sustainability by maintaining people's independence in their own homes. Previously used to provide temporary funding for voluntary redundancy, for which part of the net movement in 2016/17 represents replenishment of the reserve balance.
26	ICT Holding Account Reserve	202	0	(40)	162	To fund future Business Process Improvement initiatives and other future ICT initiatives.
27	Inspectorate Support Reserve	236	0	(100)	136	To procure necessary consultancy for the inspections and regulatory environment.
28	Integrated Partnership Strategy Reserve	31	0	0	31	To support ongoing implementation of the Cardiff Integrated Partnership arrangements to include progression of work stream activities and facilitated support for joint working.

	Title	Estimated balance at 31.03.16 £000	Estimated Movements 2016/17		Estimated balance at 31.03.17 £000	Purpose
			To finance budget £000	Other Commitments £000		
29	Invest to Save Reserve	350	0	0	350	To fund revenue invest to save schemes.
30	Joint Equipment Store - Pooled Budget Reserve	126	0	(50)	76	To be utilised to offset deficits or one off expenditure items in the pooled budget in future years.
31	Kitchen Improvement Reserve	109	0	(109)	0	To fund refurbishments of primary school kitchens in support of health and safety standards.
32	Legal Services Reserve	260	0	(75)	185	To fund future Legal Services initiatives, including projects in connection with ICT upgrades and procurement of additional resource on a temporary basis.
33	Local Lend a Hand Mortgage Scheme Reserve	177	0	45	222	Interest receivable in case of default on Local Lend a Hand Mortgage Scheme.
34	Local Plan Reserve	155	0	(50)	105	To provide for the cost of the Local Development Plan and any potential appeals or judicial reviews.

Summary of Post Consultation Changes - £14.095 million

Additional Pressures & Financial Resilience Mechanism	4,971	
Reductions to Directorate Savings	2,833	
Reduction to Addressable Spend Savings		
Precepts etc	455	Reduced to reflect updated information
Waste Management Contingency	500	Reduced to reflect updated information
Severance (Modelling)	(400)	Increased saving to reflect updated information
Severance Scheme Policy	750	Reduced to remove policy savings re: future changes to VS scheme
School Transport	4	Reduced to halve proposed price increase on bus passes
TOTAL ADDRESSABLE SPEND SAVINGS	1,309	
Reduction to Council Wide Savings		
Digitalisation	200	Reductions to savings proposals to address pace and scale, improving achievability for 2016/17.
Fees & Charges	100	
Simplification of Structures	500	
General Staffing	30	
Reduction in Agency (General)	50	
TOTAL COUNCIL WIDE SAVINGS	880	
Amendments to Budget Strategy Assumptions		
Council Tax Increase	928	Increase reflected at consultation was 4.5%, now reduced to 3.7%
Use of Reserves	500	To reduce reliance on one off funding sources
Cap on Schools (non demographic) growth	1,674	Cap reduced to fully fund impact on NI of end of "contracting out" rules
Capitalisation	1,000	Removed due to increasing uncertainty re: capitalisation direction
TOTAL BUDGET STRATEGY ASSUMPTIONS	4,102	
GRAND TOTAL	14,095	

Post Consultation Changes - Further Detail

Financial Resilience Mechanism - Proposed one-off use for 2016/17		
Disabled Adaptations Grants - DRF	1,900	Enabling more people to remain in their own homes for longer and reduce waiting times for adaptations.
Establish Fund for Apprenticeships/Youth Guarantee	500	One off fund (pending confirmation of entitlements through Apprenticeship Levy Redistribution in 2017/18)
Workforce Training and Development	700	To support our workforce as we reshape the council to reflect changing resources, changing needs etc. To take forward initiatives raised through "Making the Difference" and employee roadshows
City Development Initiatives	250	To include contributions to future arrangements for Llanishen Reservoir and progression of City Deal arrangements
Targeted Interventions for Potholes	320	Would allow approximately 3,000 more potholes to be dealt with
Transport Project Delivery	100	20 mph schemes in sensitive areas and improve residential parking schemes
Mobile Recycling Facility	80	To support this new initiative
Visible Street Scene Services	100	City Centre / Neighbourhood Street Cleansing / Drainage/Gully Cleaning (some linked to leaf fall.) A one off sum to enhance the £220k ongoing funding already allocated - £320k in total for 2016/17.
Scrutiny Capacity	50	This sum will allow the scrutiny budget to be retained at the current level for 2016/17 but anticipates a review of the function taking place during the year.
TOTAL	4,000	

Additional Pressures	£000	Further Information
Increase Single Environment Grant Pressure	90	To reflect most recent indications of grant levels
Supplementary Planning Guidance	75	To refresh planning guidance following approval of the LDP
Visible Street Scene Services	220	City Centre / Neighbourhood Street Cleansing/ Drainage/Gully Cleaning (some linked to leaf fall). An additional one off sum of £100k is included within the budget taking total allocation for 2016/17 to £320k.
Materials Recycling Facility	200	Realignment of income
Local Government Bill (Wales) 2015	100	To plan for implementation
Domiciliary Care Fees	200	To cover potential price changes
Reconfiguration of Capital Times Offer	86	Capital Times replaced with targeted, online and quarterly print products
TOTAL	971	

Schedule of Amended 2016/17 Savings Proposals (post consultation)

Ref	Directorate Savings	Reduction £000

Introduction

This paper outlines the strategic direction that the City of Cardiff Council will take in developing Day Opportunities for older people and their carers. It forms the basis for a series of consultation events that will take place with a range of stakeholders, including existing and future service users.

The City of Cardiff Council strives to deliver its vision of becoming Europe's most liveable capital city and this can only be achieved if all residents have the opportunity to benefit from what the city has to offer. This strategy builds on the council's key priority of "Supporting People in Vulnerable Situations" by ensuring "People in Cardiff are Supported to Live Independently".

Day Opportunities for the purpose of this strategy are defined as all the opportunities for older people to do things, whether in the day, evening or weekend. A range of activities on different days of the week, in different venues, that maximise independence and are suited to individuals' needs and interests

Legal Framework

All local authorities have a statutory obligation to meet the assessed eligible needs of older and disabled people.

The Social Services Well-being (Wales) Act 2014 creates a new legal system for social services. The current models of social care provision across Wales are acknowledged to no longer be sustainable, with services under pressure due to increased demand and reduced budgets. The Act provides the legal framework for achieving the vision, in partnership with national and local government, NHS, third sector organisations and independent providers. The Act places a duty on local authorities to promote the well-being of people who need care and support, and their carers. According to the Act, local authorities are to ensure that there are services that contribute "towards preventing or delaying the development of people's needs for care and support".

The Day Opportunities Strategy reflects the direction of travel within local and national strategies and research policies (including The Strategy for Older People in Wales 2013 – 2023 (Welsh Government), incorporating for example:

- A focus on the outcomes that service users and carers wish to achieve
- A reablement approach placed at the heart of all service delivery
- A greater focus on prevention, promoting well-being and delivering services in settings which are more convenient to the people that use them
- A change of service delivery to ensure readiness for the projected increase in the number of older people in Cardiff, including an increase in the number of people with dementia
- The “mainstreaming” of older people’s concerns across all service and policy areas so that older people receive more positive engagement, have more opportunities to contribute to Cardiff and to their local communities, and to enable older people to live as actively and independently as possible in a suitable and safe environment of their choice.

Drivers for Change

Population

The population of Cardiff has risen sharply in recent years, and is forecast to continue for the foreseeable future. This is largely due to Cardiff's appeal as a great place to live and work driving migration to the city, and is clearly a sign of economic and social success. Increases in working-age population will inevitably be followed by increases in the numbers of elderly retired people, as incomers to the city age and retire, and as elderly people move into the city to be near to their families and to access the city's amenities and services.

A review of the population of Cardiff aged 65 or over shows that this population is now starting to increase after two decades of no significant change. Most demand for social care services, however, comes from those individuals aged 85 or over and it is this group that is predicted to have the highest increase over the next 5 to 15 years.

	Present 2015	2020	% increase 2015 - 2020	2030	% increase 2015 - 2030
Total population aged 65+	49,675	54,492	10%	68,924	39%
Total population aged 85+	7,428	8,326	12%	11,107	48%
Population aged 65+ with dementia	3,598	3,943	10%	5,154	43%
Population aged 65+ unable to manage 1+ mobility activity	9,374	10,283	10%	13,188	41%
Population aged 65+ who are obese	10,704	11,783	10%	14,728	38%

Changing Expectations

New and future service users have experienced a better living standard than ever before, and they expect that to continue into old age. They rightly, expect more choice, better quality, and control over the support they receive. Therefore, this strategy needs to see service users and their carers as consumers rather than passive recipients of services. The success of this strategy will be determined by the delivery of outcomes that matter most.

The impact of Loneliness

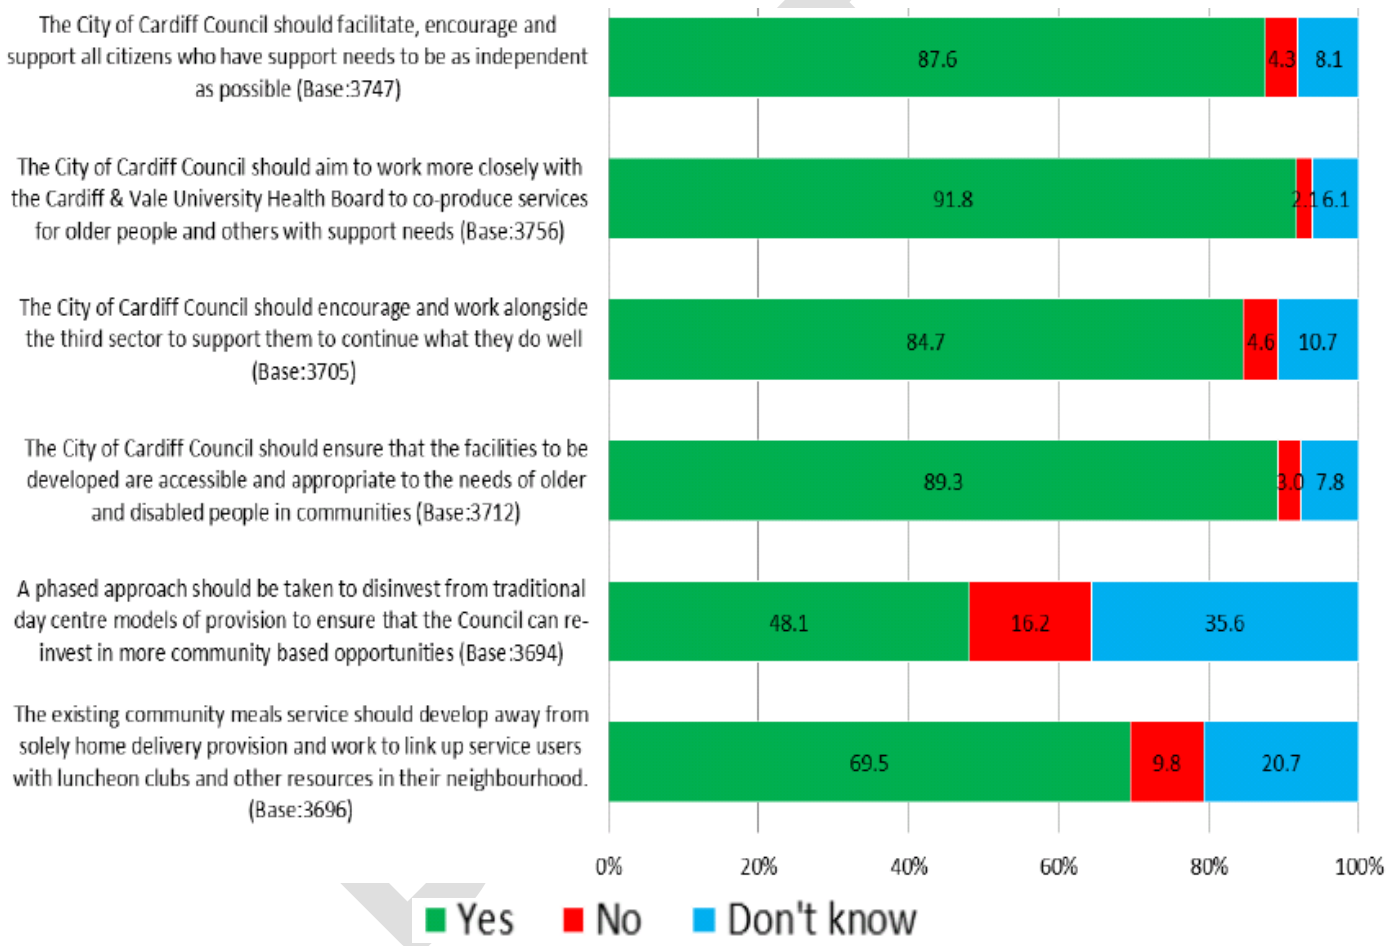

More and more research reaffirms what people already know; that happy and sociable lives are key to healthy, long life. It is later in life that people are particularly at risk of loneliness, especially following the loss of a partner or close friends. According to Age UK's figures, 7 per cent of people over 65 across the UK say they always or often feel lonely. This figure rises to 33 per cent when for those who sometimes feel lonely are included. It is widely recognised that loneliness and social isolation are harmful to health. Research shows that lacking social connections can be as detrimental as smoking 15 cigarettes a day (Holt-Lunstad, 2010). Further to impacting on mortality, social networks and friendships also help individuals to recover and regain their independence when they fall ill (Marmot, 2010).

Budget Resources

Like all other authorities, the City of Cardiff Council is facing unprecedented financial pressures at the same time as demands on services are increasing. This has meant that the authority must ensure that all council spending is focused on the areas that are most important and make the biggest difference. It also means we need to make sure that each pound goes as far as possible through working successfully with partners and community groups.

Previous Consultation

As part of the budget setting process for 2015/16, the council carried out a series of consultation events. These took place within the Changes for Cardiff Budget Proposals, which ran from 21st November 2014 until 12th January 2015. It was the City of Cardiff Council's most far reaching city-wide public consultation which included service-specific consultation with service users/groups to discuss the organisations' budget proposals. The results relevant to Day Opportunities are displayed below.

Disinvestment in traditional day centre models received the least support, with 16.2 % of respondents disagreeing with this strategy. 9.8% opposed the development of community meals away from solely home delivery.

Consultation

The Day Opportunities Strategies Consultation on the proposed strategy opened on November 30th and was closed on February 5th February after a consultation period of 67 days. The consultation was undertaken via the following methods:

- An online questionnaire / paper questionnaires which were distributed to 1,742 older people who were receiving a care package.
- Three public events which were held enabling residents to find out more about the proposals, ask questions, raise concerns and share their opinions. Paper questionnaires were also disseminated at the events.
- Cardiff Third Sector Council sent links to all older people network groups with a letter encouraging them to take part in the consultation process.
- In addition we also received communications including emails and letters, plus a petition all of which are reflected in the results section.

Overall the main feedback to the consultation was positive with 61% of those stating a preference either agreeing or strongly agreeing with the Day Centre proposals. The response to the proposal to retain and increase the meals on wheels cost by £1 was positively received with 86.5% of those giving a preference agreeing with the proposal. Another key change was in relation to Luncheon Clubs and 58.4% of respondents to this question agreed with the proposal. There was also key support in relation to expanding volunteering with 82.8% supporting the proposal and 95.4% in favour of maintaining current funding to the community transport.

A key message arising from the consultation was from service users at Oldwell Court and their concern at no longer being able to access the Day Centre. In response to this and through productive discussion's with Alzheimer's this strategy has changed to include:

- The Council will continue to fund places for those people who currently receive a service funded by the council at Oldwell Court.
- The Council will continue funding for these individuals until such time as the arrangements are no longer required.
- The Council will support the Alzheimer's Society to help them secure their current accommodation into the future.

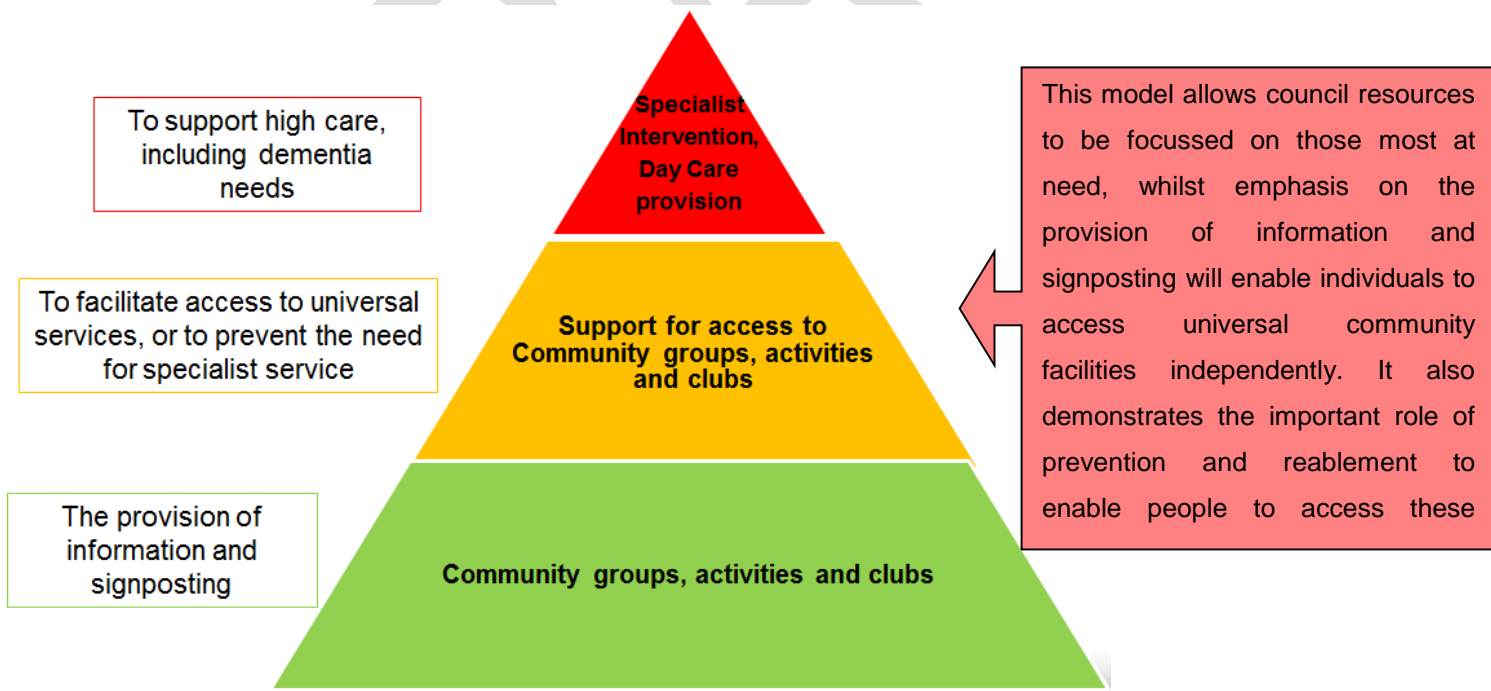

Vision for Day Opportunities in Cardiff

After considering the strategic context and building on the authority's key commitment to "Supporting People in Vulnerable Situations", and the goal that "People in Cardiff are Supported to Live Independently" as per the Council Corporate Plan 2015-2017, it is proposed that the Day Opportunities Strategy will aim to prevent social isolation by enabling older people to achieve their chosen outcome by:

- Providing information, advice and assistance to encourage independent access to social activities and engagement opportunities
- Providing assistance to those who need it to access community services and activity through targeted intervention and support
- Supporting the most vulnerable through high quality specialist day services

3 Tiered Day Opportunities Model

The delivery of this vision is based on the following proposed model in Cardiff. The purpose of this three tiered model is to differentiate between types of day services based on the needs of the service user.

Community groups, activities
and clubs

Tier 3: Access to Universal Services

Tier 3 covers all of the older population with no or low level care and / or support needs. It incorporates the universal services that are available in Cardiff, such as the community groups, activities and clubs that either are designed for or are accessible to older people. This can include mainstream services such as libraries, hubs and leisure centres, or groups and activities such as luncheon clubs, arts and crafts, knitting groups, local history groups, or sports clubs.

To encourage take up of these activities, it is recommended that people who would benefit from joining or attending these events are provided with information and, where possible, signposted to existing community facilities. Through the **One Point of Contact** people who feel lonely or isolated, or have low level needs, can ring and be provided with information and signposted to services in their community. If there is an indication that there are low level needs which may require targeted intervention or support, individuals will be referred through to the appropriate service that will assess their needs and aim to find solutions to support them.

In order to capture valuable community knowledge, it is important that a directory of all services is created. This will ensure the One Point of Contact has the required information to provide to individuals. It is also proposed that this is made accessible online.

CASE STUDIES

Mr X who lives alone, socially isolated and living away from family. He has long term poor physical health and suffering depression. He also has great difficulty doing his shopping, collecting prescriptions and meeting people. Following a call to the One Point of Contact Mr X was:

- Informed of his housing options
- Referred to the befriending society
- Identified as a former service man with the Welsh Guard and arranged for them to visit
- Evaluated for his personal care needs
- Identified as being entitled to Attendance Allowance

Tier 2: Targeted Interventions and Support

Targeted Intervention and Support

At the Tier 2 level are those people who require low level support to access day opportunities. The aim at this level is to remove the barriers which may prevent individuals from accessing community groups, activities and clubs, and to prevent people from requiring specialist support.

To deliver this aim, the council is proposing to create a Day Opportunities Team (DOT) that will help people to live within their community. To do this, individuals will be helped to access activities that either support their needs or hobbies and interests ideally through short term intervention

There will be individuals who require a small amount of low level support to enable them to access universal services within their community. The team will provide a targeted period of assessment and goal setting intervention, lasting for approximately 6 weeks and focusing on activities such as confidence building and using public transport, which for many people will enable them to be independent thereafter in accessing community-based universal activities. The DOT team will assess and identify the type and amount of support necessary for individuals to access these services as independently as possible within their range of functional ability. If they need ongoing support this could be met by the use of a volunteer or the provision of a small care package to fulfil the personal care or support needs of individuals.

It is recognised that ensuring the necessary facilities are available at community venues is half of the challenge, while the other is having people at these venues who can either help individuals to access services, or provide low level care. To address this, it is proposed that a Neighbourhood Care Team is created. Working across neighbourhoods, this team will actively encourage the take up of day activities in their area. This could include:

- Scheduled attendance at a hub, library or leisure centre to allow individuals to access these facilities with the reassurance that there will be on-hand support for their care needs.
- Help to arrange transportation of individuals to access day opportunities in their local area.
- Assistance with attendance at luncheon clubs, to enable some luncheon clubs to accept individuals that require additional support.

CASE STUDIES

Mr M 87 years of age – was referred to the service to help him to find and access social opportunities in the community. He has limited mobility and communication difficulties arising from a stroke. Mr M was assessed to determine his capabilities, strengths and difficulties and to identify his likes and dislikes. He was accompanied by the Day Service Support Officer to a range of facilities and was encouraged to engage in conversation with other people throughout these visits. Over a period of 6 weeks, Mr M grew in confidence when conversing in social situations, and also in going out and walking around public areas. Mr M has now used the contacts he has made and has a full itinerary of events and groups to start attending in September. He has made his own transport arrangements; including sharing a lift with a member of one of the groups he will be attending.

Mr J 73 years of age – was referred to the service to assess his ability to independently access community-based activities. It was hoped that this would provide stimulation and activity for him and would also provide respite care for his carer. Mr J had little confidence in functioning without the support of his carer. Over a period of 6 weeks he has been supported to access various community gardening projects, which are of particular interest to him. He is now regularly attending one of these community gardening projects. Mr J was also interested in being able to go into the city centre. He has been supported to use the shop mobility service and to access the VEST transport service and is now able to use both services independently. The outcome has resulted in Mr J's pleasure from his increased independence, and this time enables his carer to have a period of respite care.

Tier 1 Specialist Intervention

This level of intervention will be targeted at those individuals with the highest and most complex care and support needs, including support for individuals with moderate to severe dementia. It is anticipated that in the future demand for this will be reduced through successful prevention at tiers 3 and 2. To achieve the best outcomes for individuals and to best support respite for carers, it is proposed that services for Tier 1 are provided through specialist day centres:-

1. **A Specialist Dementia Centre** – for those individuals with moderate to severe dementia with an assessed eligible need. Providing this specialist centre will give an opportunity for developing a joined up service with Cardiff & Vale University Health Board and with Third Sector organisations. This service will support carers by providing respite care.
2. **High Needs Day Care Provision** – for those individuals with the highest and/or complex physical care and support needs. This service will support carers by providing respite care.

There are currently 3 day centres in Cardiff located at Minehead Road, Fairwater and Grand Avenue. It is proposed that existing buildings are used in phase 1 and following a review of the sites, it is proposed that Grand Avenue is best suited for the Dementia Centre and Minehead Road and Fairwater for the High/Complex Needs Day Centres.

Phase 2 of this strategy will require further consultation and will assess whether these buildings are capable of managing the long-term needs of service users. It is anticipated that this will require a full review of the service at that time, in partnership with Health to deliver either a fully refurbished day centre or a purpose designed and built building.

Commissioned Day Services

As part of this strategy, it is proposed that the current contract with the Alzheimer's Society remains in place for existing users of Oldwell Court. The council will support the Alzheimer's Society to help them secure their current accommodation into the future. It is recommended that all future council funded dementia day service is delivered from one council run building to enable for the right amount of support for those with the highest need. A more integrated service approach is to be developed in partnership with Cardiff & Vale University Health Board and it is anticipated that there will be other opportunities for joint working with third sector organisations.

Rationale for Tier 1 Proposal

The proposal is to continue investment in day opportunities for those with the highest need through a building-based day centre approach. It would not be appropriate to direct this group of clients to universal services as they would require having their needs met through alternative more costly care. Analysis has shown the building based approach is better value for money whilst achieving better outcomes for individuals.

Individual day care support at home would not provide the opportunities for social interaction or meet the respite needs of carer. The respite that this gives is crucial for helping carers to continue caring.

The cost of providing day care is £40 per session
(max 5 sessions = £200 a week)
versus
If services fail and users need residential care =
up to £1,000

CASE STUDIES

Mr Q, 99 years old, cared for by wife. – Both feel that regular respite by day centre attendance 3 days a week is holding things together and is the only service they wish to receive.

Mr P, 82 years old, care package 7 days a week. – He requires a great deal of reassurance and supervision. Regularity and consistence of day centre attendance 5 days a week helps to sustain his wife's carer role.

Mr H, 84 years old, attends day centre 1 day a week – This enables his daughter, with whom he lives and who is his main carer, to have a regular break from her carer role and prevents the need for a care package.

Rationale for Tier 1 Proposal

The number of older people who need this level of service has been fully analysed. This analysis looked at current usage and those currently waiting to access day centres, or those who require additional days. Work to capture future demand relating to an appropriate step down from health provision has started and that information has fed into the analysis. Based on this data, it is proposed that 3 day centres will be required.

High Needs Day Care

The graph on the right shows the daily attendance from this client group and the projected requirement over the next 3 years, against the capacity at Minehead Road and Fairwater.

Specialist Dementia Centre

The graph to the left shows the number of sessions required from current usage and the known demand (those requiring additional days or are on the waiting list) against the capacity (sessions per week) at Grand Avenue Day Centre.

This demonstrates that all 3 sites will be needed.

Building Community Capacity

Volunteering and Community Engagement

In Cardiff there is a growing number of people wishing to volunteer, ranging from retired professionals to young people seeking work experience and those wishing to return to work who may want to refresh skills or build up confidence. There are already a number of successful initiatives whereby volunteering is leading to improved outcomes for older people in undertaking activities. These include driving individuals to exercise classes and social opportunities, and also in befriending.

Not only does volunteering provide additional support and assistance to older people, those that volunteer often get as much out of the experience as the people and communities they help by learning new skills, giving something back and meeting new friends.

Time Credits has helped the community to get more involved in developing support for older people. Time Credits are a way of rewarding people by giving volunteers one credit for each hour of time they donate. The Credits have no monetary value, but can be exchanged for a 'spend' opportunity within a wide range of community and national organisations, including leisure activities and community events. Within the new Day Opportunities Strategy, the City of Cardiff Council proposes to support more volunteering and the use of Time Credits.

The volunteer portal will be a single 'gateway' into volunteering in the city, so people can easily search for volunteering opportunities and access the necessary support to guide them in terms of volunteering policies, Disclosure and Barring Service (DBS) and training assistance, etc.

Transport

Transport is crucial to enable access to universal services. The Council currently provides funding to support community transport and this funding is proposed to continue at current levels. The Council will also consider how to work alongside other partners to build greater sustainability into the transport infrastructure so that more of the people who need this service can access it.

Age Connects (HAPS)

The council has commissioned a pilot project from Age Connects (HAPS) to deliver a volunteer-based model of service to address the issue of social isolation and to support older people to be more engaged within their communities. To date, 186 volunteers have successfully been recruited to the project and it is proposed that we build on this. The evaluation of the project will inform the commissioning of a service going forward from April 2016.

I discovered I still had a voice

I feel like a normal person...she's taken me to the museum and out for a cup of tea

It has been very helpful...we go to Roath Park and have a cup of tea and I cannot go out alone

It makes a big difference to me – contact with the younger generation

Keeps me in touch with the community – don't feel left out

It makes a difference – she is the only person I see for any length of time

Luncheon Clubs

It is acknowledged that luncheon clubs have an important role to play in preventing social isolation. Across Cardiff, there are 30 luncheon clubs that the Council is aware of. These lunch clubs bring older people together to enjoy a hot nutritious meal and socialise with others at the same time. The lunch club is a focal point for a lot of older people during their week and the sustainability of these clubs is crucial.

Of the 30 clubs, 3 are run from council owned buildings and only 2 of these receive a council subsidy. The aim is for all luncheon clubs to be self-sustaining therefore, it is proposed that:

- Community groups will be helped to develop a self-sustaining model, and assistance will be provided to currently funded groups to become self-sustaining
- Where possible, existing community buildings and facilities will be used to operate luncheon clubs (Hubs, Churches, Restaurants, Pubs, Sport and Social Clubs etc.)
- Existing funding arrangements will be reduced over a period of time
- Additional support will be offered to these groups from the council 'Stepping Up' Team and C3SC and its national partner, WCVA. Both organisations have grant finding services and access to advice and information on grants currently available.

Meals on Wheels Service

Although a discretionary service, this provides an important service for individuals, as it provides regular hot meals and is an essential social contact for many older people. From previous consultation we know how much individuals and their families value this service. However, currently the service does not cover its costs and meals are therefore provided at a subsidy.

The Current Service

Monday to Friday service, with meals delivered between 11:15 and 2PM

£2.90 for a hot meal and 60p for a dessert

160 clients currently using the service

A fixed monthly menu, with variation for those requiring vegetarian or a soft or diabetic diet
etc

It is proposed that the council will work towards a self-sustaining model for the meals on wheels service including:

- Expansion of the service by increasing uptake through rebranding, greater awareness and marketing.
- Service to be offered on a cost recovery basis modelled on actual cost and predicted increase in service users by increasing the cost of a meal by £1.
- Service to be offered out to luncheon clubs, other community groups and sheltered housing.
- Additional choice, including the provision of an evening cold meal / sandwich for those that would benefit.
- More flexible use of the service, e.g. following hospital discharge or when families members are away.

Summary of proposals

Day Centres

- Continued investment in a building-based approach for those with high needs.
- Phased removal of council funded placements at Oldwell Court to enable continuity of service for existing users there and for Alzheimer's to develop a self-sustainable business model.
- 3 day centres, including a specialist dementia centre and the provision of 2 centres to support individuals with high care and support needs.
- Review of current services for people with dementia provided by third sector organisations
- Phase 1 will involve the use of existing buildings and the location of the Dementia Centre at Grand Avenue. The 2 High/complex needs Centres will be at Minehead Road and Fairwater Day Centre. Phase 2 will incorporate the development of the existing or a new purpose-built facility to meet current and future demand.

Meals on Wheels

- The service is retained and expanded by increasing uptake via rebranding, greater awareness and marketing
- A price of £3.90 for a meal and 60p for a dessert, and to explore the options of providing a cold evening meal or sandwich for those wish to receive this.

Luncheon Clubs

- All community groups to become self-sustaining with available help and for the phased removal of current funding.

Day Opportunities Team

- Day Opportunities Team (DOT) is created that will support individuals in accessing community facilities.

Community Transport

- Current funding levels are maintained and, where possible, the benefits of this funding are accessible to those who need it.

Volunteering

- Creation of a volunteering portal to match volunteers with opportunities of interest to them or in their area
- Build on the Health & Active Partnership (HAPS) pilot project

One Point of Contact

- One Point of Contact providing advice and information tailored to their individual need, including signposting to local social activities and events.
- Directory of community based activities for both council and partners to use – this information to be developed and provided online for citizens to access directly or by telephone.

Prudential Indicators

The Prudential Code

The current system of capital finance is CIPFA's Prudential Code.

It is a professional Code of practice to support the decisions local authorities have to make to plan for capital investment at a local level. Authorities are required by regulation to have regard to the Prudential Code when carrying out their duties under Part I of the Local Government Act 2003 i.e. compliance with the Code is a statutory requirement.

Objectives of the Code

The key objectives of the Code are:-

- To ensure within a clear framework that capital expenditure plans are affordable, prudent and sustainable
- That Treasury Management decisions are taken in accordance with good professional practice
- That local strategic planning, asset management planning and proper option appraisal are supported
- To provide a clear and transparent framework to ensure accountability

Prudential Indicators

The indicators required are shown below, with further explanation as to their meaning:

1(a). External Debt - Operational Boundary

The most likely, prudent view of the level of gross external indebtedness. External debt includes both borrowing and long term liabilities (e.g. finance leases). It encompasses all borrowing, whether for capital or revenue purposes.

1(b). External Debt - The Authorised Limit

The upper limit on the level of gross external indebtedness, which must not be breached without Council approval. It is the worst-case scenario. It reflects the level of borrowing which, while not desired, could be afforded but may not be sustainable. Any breach must be reported to the executive decision making body, indicating the reason for the breach and the corrective action undertaken or required to be taken.

1(c). External Debt - Actual External Debt

The indicator for actual external debt will not be directly comparable to the operational boundary and authorised limit, since the actual external debt will reflect the actual position at one point in time.

2. Financing cost to Net Revenue Stream

The percentage of revenue budget set aside each year to service debt financing costs

3. Capital Financing Requirement (CFR)

The Capital Financing requirement (CFR) replaced the 'Credit Ceiling' measure of the 1989, Local Government and Housing Act. It measures an authority's underlying need to borrow or use other long-term liabilities, to pay for capital expenditure.

4. Capital Expenditure

The level of capital expenditure incurred and likely to be incurred in future years. This is to be based on an accruals basis and on the definition of capital expenditure.

5. Incremental impact of Capital Investment decisions on Council Tax / Average weekly Housing Rents

This shows the impact of new capital investment decisions included in the budget on the Council Tax and average weekly rent for HRA.

6. Gross External Borrowing and the Capital Financing Requirement

The level of external borrowing is required to be compared to the Capital Financing Requirement which represents the underlying need to borrow. Requires that borrowing in the medium term can only be for capital purposes.

7. Adoption of CIPFA's Treasury Management Code of Practice

CIPFA's Code of Practice for Treasury Management in the Public Services (the CIPFA Code) primary aim is to ensure that public services manage and control the risks attached to its treasury functions in an efficient effective and economic manner.

Accordingly the adoption of the Code has been encapsulated in Local Authorities (Capital Finance and Accounting) Regulations that call for explicit compliance with the CIPFA Code.

8. Interest Rate Exposures

Recognition of the impact on revenue budgets of changes in interest rates as well as the need to ensure that local authorities maintain flexibility in their treasury strategy has resulted in the adoption of an interest rate exposure indicator.

This indicator sets out for the following three years an upper limit for both fixed rate and variable rate exposure.

9. Maturity Structure of Borrowing

Local Authority debt portfolios consist of a number of loans with differing maturities. Setting limits assists in ensuring any new borrowing in particular when combined with existing borrowing does not result in large concentrations of borrowing maturing in a short period of time.

10. Principal sums invested for greater than one year

This indicator measures the exposure of a local authority to investing for periods of greater than one year.

Mae'r dudalen hon yn wag yn fwriadol

Glossary of Terms - General

Bank Rate

The rate of interest set by the Bank of England as a benchmark rate for British banks.

Bonds

A long-term debt security issued by a company, a financial institution, a local authority, national government or its affiliated agencies. It represents an undertaking to repay the holder the fixed amount of the principal on the maturity date plus a specified rate of interest payable either on a regular basis during the bond's life (coupon) or at maturity.

Borrowing

Loans taken out by the authority to pay for capital expenditure or for the prudent management of the Council's financial affairs, which are repayable with interest.

Capital Expenditure

Capital expenditure pays for improvements to existing and new assets used in the delivery of Council services as well as other items determined by Regulation. Capital resources are scarce, costly and also have long term revenue implications over many years and even generations where capital expenditure is funded by borrowing. Hence the requirement of the Prudential Code to ensure what is charged as capital expenditure is prudent, sustainable and affordable.

The statutory definition of capital expenditure is given in the Local Government Act 2003, the Local Authorities (Capital Finance) Regulations 2003 and 2004 as amended. Statute relies on the accounting measurement of cost in International Accounting Standard (IAS) 16 to determine whether expenditure is eligible to be capitalised or whether it should be treated as revenue expenditure. Key to what is eligible as capital spend are the following words in IAS 16 - 'Costs directly attributable to bringing the specific asset into working condition for its intended use'.

Capital Financing Requirement (CFR) (Real and Notional)

An authority's underlying need to borrow for a capital purpose. It measures capital expenditure incurred but not yet financed by the receipt of grants, contributions and charges to the revenue account. This is termed the Real CFR.

Capital Market

A market for securities (debt or equity), where companies and governments can raise long-term funds (periods greater than one year). The raising of short-term funds takes place on other markets (e.g. the money market).

Capital Programme

The Capital Programme sets out the Council's capital expenditure plans for the forthcoming financial year as well as for the medium term. It is approved annually at Council and identifies the estimated cost of those schemes, their projected phasing over financial years as well as the method of funding such expenditure.

Certificates of Deposits (CDs)

A certificate issued for deposits made at a deposit-taking institution (generally a bank). The bank agrees to pay a fixed interest rate for the specified period of time, and repays the principal at maturity. CDs can be purchased directly from the banking institution or through a securities broker. An active interbank secondary market exists to buy and sell CDs.

Chartered Institute of Public Finance & Accountancy (CIPFA)

CIPFA is the professional body for people in public finance. As a specialised public services body, they provide information, guidance, and determine accounting standards and reporting standards to be followed by Local Government.

Collective Investment Scheme Structures

Schemes whereby monies from a number of investors are pooled and invested as one portfolio in accordance with pre-determined objectives.

Commercial Paper

A relatively low risk, short-term and unsecured promissory note traded on money markets issued by companies or other entities to finance their short-term cash requirements.

Corporate Bonds

Bonds that are issued by a company or other non-government issuers. They represent a form of corporate debt finance and are an alternative means of raising new capital other than equity finance or bank lending.

Counterparty

One of the parties involved in a financial transaction with whom the Council may place investments.

Counterparty / Credit Risk

Risk that a counterparty fails to meet its contractual obligations to the Council to repay sums invested.

Credit Criteria

The parameters used as a starting point in considering with whom the Council may place investments, aimed at ensuring the security of the sums invested.

Credit Default Swaps

A financial transaction which the buyer transfers the credit risk related to a debt security to the seller, who receives a series of fees for assuming this risk. The levels of fees reflect the perceived level of risk.

Credit Rating

A credit rating assesses the credit worthiness of an individual, corporation, or even a country. Credit ratings are calculated from financial history and current assets and liabilities. Typically, a credit rating tells a lender or investor the probability of the subject being able to pay back a loan. Ratings usually consist of a long-term, short-

term, viability and support indicators. The Fitch credit rating of F1 used by the Council is designated as “Highest Credit quality” and indicates the strongest capacity for timely payment of financial commitments.

Debt Management Account Deposit Facility (DMADF)

The Debt Management Office provides this service as part of its cash management operations and of a wider series of measures designed to improve local and central government’s investment framework and cash management. The key objective of the DMADF is to provide users with a flexible and secure facility to supplement their existing range of investment options while saving interest costs for central government.

Debt Restructuring

Debt restructuring is a process that allows an organisation to reduce, renegotiate and undertake replacement debt.

Diversification of Investments

The process of creating a portfolio of different types of financial instruments with regard to type, price, risk issuer, location, maturity, etc. in order to reduce the overall risk of the portfolio as a whole.

Duration (Maturity)

The length of time between the issue of a security and the date on which it becomes payable.

External Borrowing

Money borrowed from outside of the Council.

Financial Instrument

Any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another. Typical financial liabilities are borrowing and financial guarantees. Typical financial assets include bank deposits, amounts owed by customers, loans receivable and investments.

Fitch Credit Ratings

A commercial organisation providing an opinion on the relative ability of an entity to meet financial commitments, such as interest, preferred dividends, repayment of principal, insurance claims or counterparty obligations. The opinion is usually provided in the form of a credit rating.

Fixed Rate

An interest rate that does not change over the life of a loan or other form of credit.

Floating Rate Notes

A money market security paying a floating or variable interest rate, which may incorporate a minimum or floor.

Four Clauses of Treasury Management

In compliance with the First Clause, this Council will create and maintain, as the cornerstones for effective treasury management:

- A treasury management policy statement, stating the policies, objectives and approach to risk management of its treasury management activities.
- Suitable Treasury Management Practices (TMP's), setting out the manner in which the organisation will seek to achieve those policies and objectives, and prescribing how it will manage and control those activities.

In compliance with the Second Clause, this Council will receive reports on its treasury management policies, practices and activities, including, as a minimum, an annual strategy in advance of the year, a mid year review and an annual report after its close, in the form prescribed in its TMP's.

In compliance with the Third Clause, this Council delegates responsibility for the implementation and regular monitoring of its treasury management policies and practices to the Cabinet, and for the execution and administration of treasury management decisions to the Corporate Director Resources in accordance with existing delegations, who will act in accordance with the organisation's policy statement, TMP's and CIPFA's Standard of Professional Practice on Treasury Management.

In compliance with the Fourth Clause, this Council requires the scrutiny of the accounting, audit and commercial issues of its Treasury management Strategy and Practices to be undertaken by the Council's Audit Committee due to the technical nature of the documents.

Fraud / Error Risk

Risk of losses being incurred as a result of fraud, error or corruption in treasury management and failure to institute adequate systems, procedures and other arrangements to prevent irregularities.

Gearing Ratio

A measure of the level of external long and short term borrowing undertaken by the Council compared to the value of assets held.

Housing Revenue Account (HRA)

The HRA is an account of expenditure and income that every local authority housing department must keep in accordance with the Local Government & Housing Act 1989. The account is kept separate or ring fenced from other Council activities. Income is primarily generated by the rents and service charges paid by tenants, while expenditure is on the management and maintenance of the housing stock, and capital financing charges on the HRA's outstanding loan debt.

Interest Rate Risk

Risk that fluctuations in interest rates could impose extra costs against which the Council has failed to protect itself adequately.

Internal Borrowing

Money borrowed from within the Council, sourced from temporary internal cash balances.

Investments

The purchase of financial assets in order to receive income and/or make capital gain at a future time, however with the prime concern being security of the initial sum invested.

Lender Option Borrower Option Loans (LOBOs)

Loans to the Council where the lender can request a change in the rate of interest payable by the Council at pre-defined dates and intervals. The council at this point has the option to repay the loan.

Liquidity

The ability of the Council to meet its financial obligations as they fall due.

Market Loans

Borrowing that is sourced from the market i.e. organisations other than the Public Works Loan Board or a Public Body.

Minimum Revenue Provision (MRP)

This is the amount which must be charged to the authority's revenue account each year and set aside as provision for repaying external loans and meeting other credit liabilities. The prudent amount is determined having regard to guidance issued by WG. This has the effect of reducing the Capital Financing Requirement (CFR).

Money Market

The market for short-term securities or investments, such as certificates of deposit, commercial paper or treasury bills, with maturities of up to one year.

Money Market Funds

An investment fund which pools the investments of numerous depositors, spreading those investments over a number of different financial instruments and counterparties. Funds with a constant Net Asset Value (NAV) are those where any sum invested is likely to be the same on maturity. Funds with a variable Net Asset Value (NAV) are those where the sum on maturity could be higher or lower due to movements in the value of the underlying investments.

Net Asset Value (NAV)

The market value of an investment fund's portfolio of securities as measured by the price at which an investor will sell a fund's shares or units.

Net Worth

The value of the Council's reserves, measured by deducting total liabilities from total assets.

Pooling

The process whereby investments or loans are held corporately rather than for specific projects or parts of the Council, with recharges to those areas for their share of the of relevant income and expenditure using an agreed methodology, where such a recharge is required to be made.

Prudential Code for Capital Finance

The system introduced on 1 April 2004 by Part 1 of the Local Government Act 2003 which allows local authorities to borrow without Government consent, provided that they can afford to service the debt from their own resources and that any such borrowing is prudent and sustainable. This requires the preparation and approval of various indicators.

Public Works Loans Board (PWLB)

The Public Works Loans Board is a statutory body operating within the United Kingdom Debt Management Office, an Executive Agency of HM Treasury. PWLB's function is to lend money from the National Loans Fund to local authorities and other prescribed bodies, and to collect the repayments.

Refinancing Risk

Risk that maturing borrowing or other financing of capital projects cannot be renewed on terms that reflect existing assumptions and that the Council will suffer extra costs as a result.

Regulatory Risk

Risk that actions by the Council or by any person outside of it are in breach of legal powers or regulatory requirements resulting in losses to the Council, or the imposition of extra costs.

Security

Protecting investments from the risk of significant loss, either from a fall in value or from default of a counterparty.

Sovereign Credit Ratings

The credit rating of a country. It indicates the risk level of the investing environment of a country, taking into account political risk and other factors.

Sterling

The monetary unit of the United Kingdom (the British pound).

Term Deposits

A term deposit is a money deposit at a banking institution that cannot be withdrawn for a certain "term" or period of time.

Treasury Management

Treasury management activities are the management of an organisation's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.

Treasury Bills

Debt securities issued by a government with a short-term maturity of up to 6 months.

UK Government Gilts

Fixed-interest debt securities issued or secured by the British Government. Gilts are always denominated in sterling though the Government occasionally also issues instruments in other currencies in the Eurobond market or elsewhere.

Variable Rate

An interest rate that changes in line with market rates.

Working Capital Ratio

A measure of the Council's liquidity and whether current assets are sufficient to cover current liabilities.

Yield

The annual rate of return paid out on an investment, expressed as a percentage of the current market price of the relevant investment.

**CITY & COUNTY OF CARDIFF
DINAS A SIR CAERDYDD**

COUNCIL:

25th February 2016

REPORT OF THE CHIEF EXECUTIVE

**APPOINTMENT OF DIRECTOR OF GOVERNANCE AND LEGAL SERVICES
& INTERIM MONITORING OFFICER**

Reason for this Report

1. To report a vacancy in the post of Director of Governance and Legal Services, the Council's designated Monitoring Officer, subsequent to the resignation of the current post-holder; and to put in place arrangements to ensure the Council has adequate senior management resources to discharge its functions effectively.

Background

2. The Director of Governance and Legal Services, who is also the Council's Monitoring Officer, has tendered her resignation and the Council therefore needs to consider its arrangements for discharging the various responsibilities of this post.

Issues

3. Under the Council's Employment Procedure Rules (Rule 2), a vacancy in a 'Chief Officer' post must be reported to Council to consider whether the post should be filled. The Director of Governance and Legal Services falls within the definition of a 'Chief Officer' for these purposes.
4. If a Chief Officer post is to be filled, the Council (or a body with delegated authority to do so), must determine the terms and conditions of employment and method of appointment; and if the proposed remuneration for a post is £100,000 per annum or more, the Council is legally obliged to arrange for:
 - i. A statement of duties and required qualifications and qualities to be prepared and sent to any applicant upon request;
 - ii. Public advertisement of the post (unless the appointment is for 12 months or less); and
 - iii. Interview (with or without shortlisting) of suitably qualified candidates. (Employment Procedure Rules, Rule 2(b))

5. By law, full Council must determine the level of remuneration to be paid to a Chief Officer (pursuant to the Local Authorities (Standing Orders)(Wales) Regulations 2006, Regulation 7(2)(b), as reflected in the Employment Procedure Rules, Rule 2A). Further, the Local Government (Wales) Act 2015 introduces a new legal obligation on the Council (in effect from 25 January 2016) to consult the Independent Remuneration Panel for Wales if it proposes to change the salary of a Chief Officer (whether the change is an increase or decrease), unless the change is in keeping with changes applied to other officers of the Council.
6. Other than the decision on remuneration of the post, which is reserved to full Council, the Council may arrange for any or all of the other steps in the recruitment process, as listed in paragraph 4 above to be taken by a Committee or Chief Officer of the Council, but the appointment must be made by a Committee (pursuant to the Local Authorities (Standing Orders) (Wales) Regulations 2006, Regulation 3 and Schedule 1, Part 2, paragraph 1).
7. Under its approved terms of reference, the Employment Conditions Committee (ECC) has previously, during the Senior Management Review undertaken in 2014/15, considered and agreed the statement of duties and terms and conditions for the post of Director of Governance and Legal Services. Full Council subsequently approved a spot salary for Directors, including this post, of £120,000 per annum, based on the advice of the Hay Group and the ECC recommendation (at the Council meeting in February 2015).
8. The appointment of Chief Officers, in accordance with the agreed terms and conditions applicable to the post, is within the approved terms of reference of the Appointments Committee; and that Committee may also designate an officer of the authority as the Council's Monitoring Officer (Scheme of Delegations, Annex 1).
9. The Council has a statutory duty to designate one of its officers as the Monitoring Officer (pursuant to section 5 of the Local Government and Housing Act 1989) and must provide its Monitoring Officer with sufficient staff, accommodation and other resources to allow the duties of this role to be performed. The Monitoring Officer has a number of prescribed statutory roles, primarily, to ensure the lawfulness and fairness of the Council's decision making.
10. The Council is recommended to agree a recruitment and selection exercise to appoint a new Director of Governance and Legal Services, to be the Council's designated Monitoring Officer and fulfil all statutory responsibilities of that role, as well as the other managerial responsibilities of the post under the Senior Management Structure approved by Cabinet in February 2015; and to agree no changes to the statement of duties, terms and conditions and remuneration for the post determined by ECC and Council in February 2015.

11. As the current Monitoring Officer will be leaving the Council before the new appointee is in post, the Council will need to designate an Interim Monitoring Officer to discharge this statutory role during the intervening period (for approximately 6 months). The person recommended for interim appointment is David Marr, on the basis that he has the relevant skills, knowledge and experience to ensure the Council is able to continue to discharge its statutory duties effectively.

Legal Implications

12. The relevant legal provisions are set out in the body of the report.

Financial Implications

13. Within the Directorate budget there is an amount allocated which is commensurate with the cost of the post titled Director of Legal and Governance Services. Therefore, there is sufficient funding available for both the permanent and the temporary filling of this post. The temporary post will end on the day the permanent post holder commences in post. All associated costs with the recruitment will need to be found from within the budgetary allocation of the directorate

RECOMMENDATIONS

That the Council

1. notes the forthcoming vacancy of the post of Director of Governance and Legal Services, and approves a recruitment and selection exercise to fill the post;
2. agrees no changes to the statement of duties, terms and conditions, including remuneration for the post, as previously determined by ECC and Council in February 2015;
3. delegates authority to the Corporate Director, Resources, to put in place appropriate arrangements for public advertisement of the post;
4. notes that an Appointments Committee will be convened to make a suitable appointment under its approved terms of reference; and
5. designates David Marr as Interim Monitoring Officer from 1 March 2016 and until the date that the new appointee commences employment.

Paul Orders

Chief Executive

16 February 2016

Background Papers:

Report to Council, 'Senior Management Review', 26 February 2015

Report to Employment Conditions Committee, 'Senior Management Review', 25 February 2015
