Why does licensing matter for health?

- Opening hours and density of alcohol sales outlets influence alcohol consumption, drinking patterns and damage due to alcohol
- Restricting the availability of alcohol is an effective way of reducing alcohol related harm
- The number of alcohol outlets is strongly linked to alcohol related hospital admissions
- Significant link between the density of pubs and clubs and numbers of assaults and crime rates
- Extensions to opening hours are most often used by problem drinkers to increase their access to alcohol

So what are we doing?

- Regular liaison with licensing teams in Local Authority and Police
- Attendance at informal meetings with license holders
- Attendance at licensing committee hearings
- Provision of health data, impact on NHS services, and raising awareness of increased risks

What else?
