COMMUNITY & ADULT SERVICES SCRUTINY COMMITTEE

13 FEBRUARY 2017

**DRAFT CORPORATE PLAN 2017–2019 and 2017-18 DRAFT BUDGET
PROPOSALS – including draft Supporting People Spend Plan 2017/18**

Purpose of Report

1. The Council's Constitution allows Scrutiny Committees to consider the draft Cabinet budget proposals prior to their consideration by the Cabinet and Full Council. This report provides Members with context for the scrutiny of those sections of the Council's draft Corporate Plan 2017-2019 and draft 2017/18 Budget Proposals that relate to the portfolios and service areas that fall within the remit of this Committee.
2. The scope of the scrutiny is as follows:
 - the relevant sections of the Corporate Plan;
 - the relevant Budgetary Proposals re their alignment with the Corporate Plan – to test whether they support delivery of the aims and priorities detailed in the Corporate Plan;
 - the relevant Budgetary Proposals in terms of potential impact on service delivery, service users and citizens of Cardiff; and
 - the achievability and deliverability of the proposed savings.
3. The Cabinet will consider the Scrutiny Committee's comments or recommendations prior to finalising their budget proposals. The draft Cabinet budget proposals will be taken to the Cabinet Meeting on 16 February 2017 for agreement, and at this meeting, a formal decision will also be taken determining the Cabinet's budget recommendations for consideration by Council, at its meeting on 23 February 2017.

Structure of Papers

4. Attached to this report, Members will find the following appendices, which contain information relevant to this Committee's terms of reference:

- a. Draft Corporate Plan 2017-2019 – **Appendix 1**
- b. Post Consultation Changes – **Appendix 2** , includes:
 - Summary of Post Consultation Changes
 - Financial Resilience Mechanisms¹
- c. 2017/18 Proposals Overview – **Appendix 3**, includes:
 - Overview of 2017/18 savings proposals
 - Addressable Spend – budget savings proposals 2017/18²
- d. Directorate Savings Proposals - **Appendix 4**
- e. Financial Pressures 2017/18 – **Appendix 5**
- f. Draft Capital Programme 2017/18 - 2021/22 – **Appendix 6**
- g. Employee Implications of Budget – **Appendix 7**
- h. Directorate Budgetary Analysis sheets – **Appendix 8**
- i. Supporting People Spend Plan 2016-17 – **Appendix 9**
- j. Fees and Charges – **Appendix 10**
- k. '*Changes for Cardiff*' Budget Consultation Report – **Appendix 11**.

5. The financial resilience, savings, financial pressures, capital programme and employee implications papers have been colour-coded as follows:

- a. **Shaded rose pink** – Economic Development and Partnerships proposals that fall within this Committee's terms of reference.
- b. **Shaded light green** – Community Development, Cooperatives and Social Enterprises proposals that fall within this Committee's terms of reference.

¹ The term financial resilience mechanisms is used to refer to one off allocations of finance to undertake works listed

² The term addressable spend is used to refer to components of the Council's budget from which it is more difficult for individual directorates to propose savings. This is for a number of reasons such as delegated schools budgets previously subject to Welsh Government protection, externally set budgets, corporate financial planning and resilience budgets or those to service debt. None of these savings falls within the remit of this Committee.

- c. **Shaded pale yellow** – Health, Housing and Well Being proposals that fall within this Committee’s terms of reference.
 - d. **Shaded pale blue** – Skills, Safety, Engagement and Democracy proposals that fall within this Committee’s terms of reference.
 - e. **Shaded grey** - those that fall within the terms of reference of another scrutiny committee.
6. The Directorate Budgetary Analysis sheets attached at **Appendix 8** provide current year information. Each line is coded alphabetically (on the far left) and the letters correspond to the cross-reference column (headed x-ref) on the Savings Proposals spreadsheet.

Structure of Meeting

7. The following Cabinet Members and officers have been invited to give a short presentation providing a corporate overview of the 2017-18 Budget Proposals as they impact on the Committee’s terms of reference, and to answer any general questions arising:
- Cllr Phil Bale, Leader, Economic Development and Partnerships.
 - Cllr Graham Hinchey, Cabinet Member (Corporate Services and Performance).
 - Christine Salter (Corporate Director - Resources).
 - Joe Reay (Head of Performance and Partnerships).
 - Gareth Newell (Operational Manager, with responsibility for coordinating the ‘*Changes for Cardiff*’ consultation).
8. The meeting is then structured by Cabinet Member Portfolio area, as follows:
- a. Cllr Phil Bale - Leader, Economic Development and Partnerships.
 - b. Cllr Peter Bradbury - Community Development, Co-operatives and Social Enterprise.
 - c. Cllr Susan Elsmore - Health, Housing and Well Being.
 - d. Cllr Dan De’Ath – Skills, Safety, Engagement and Democracy.

Draft Corporate Plan 2017-2019

9. The draft Corporate Plan 2017-2019 is attached in full at **Appendix 1** and is set out as follows:

- a. Foreword by the Leader – page 2;
- b. The Corporate Plan – page 3;
- c. Planning and Policy Framework – page 4;
- d. Delivering our Vision – page 6;
- e. Delivering for Cardiff – page 9;
- f. Shaping the Corporate Plan – page 10;
- g. Priority 1: Better education and skills for all – page 13;
- h. Priority 2: Supporting vulnerable people – page 21;
- i. Priority 3: An economy that benefits all our citizens – page 31;
- j. Priority 4: Working together to transform services – page 43;
- k. Appendix A: Key performance indicators and target setting – page 52.

10. Each priority is supported by Well Being Objectives, which will be delivered by a set of commitments. A lead Cabinet Member is assigned to each commitment, and there is a set of targets for each priority, by which progress will be measured.

11. Members are able to scrutinise the Priorities, Well Being Objectives, commitments, measures and targets that fall within this Committee's terms of reference. The relevant priorities for this Committee are Priority 2 ('Supporting vulnerable people') and Priority 4 ('Working together to transform services'), with the following Well Being Objectives:

- 2.1 People at risk in Cardiff are safeguarded.
- 2.2 People in Cardiff have access to good quality housing.
- 2.3 People in Cardiff are supported to live independently.

4.1 Communities and partners are involved in the redesign, development and delivery of local public services.

12. For Members ease, the commitments and targets that fall within this Committee's terms of reference are listed below in the relevant Cabinet Member portfolio section (point 26 onwards).
13. The Plan confirms that each Directorate will publish a Delivery Plan, which will provide greater detail on how objectives contained in the Plan will be delivered. The Corporate Plan, Directorate Delivery Plans and Organisational Development Plan will together shape dialogue with external stakeholders.
14. The Plan clearly sets out the level of financial challenge facing the Administration, Council and City, coupled with increasing demand for council services. The Administration commits itself to working closely with staff and partners to deliver a liveable city during a time of growth and austerity.

Summary of Budgetary Position

15. As at 10 February 2017, the Council finds itself with a funding shortfall of approximately £16,889 million for 2017/18 before savings and new pressures have been accounted for. The shortfall comprises of:

BUDGETARY GAP	£000
Resources Available	581,372
Resources Required	598,261
Shortfall before savings and new pressures	16,889

16. The resources available to finance the budget before any increase in the rate of Council Tax are made up as follows:

Resources Available	£000
Resources from WG	428,217
Council Tax (at nil increase)	151,655
Use of reserves to support the budget	1,500
Total Resources Available	581,372

17. The following table summarises the resources required to cover base expenditure, commitments and budget realignments.

Resources Required	£000
2016/17 adjusted base budget (after transfers)	578,846
New Responsibilities (per settlement)	1,278
Employees (pay awards, increments, NI etc.)	2,916

Directorate expenditure and income realignments (net)	2,699
Special inflation	2,507
Schools non-pupil number growth (net)	4,565
Total Resources Required	598,261

18. In addition to the budget shortfall of £16,889,000, the Council has identified new directorate pressures of £4,638,000, bringing the shortfall to £21,527,000. Overall savings of £17,007,000 have been identified, resulting in £4,520,000 to be raised from additional Council Tax, as set out below:

Budget Shortfall	£000
Shortfall before directorate pressures and savings	16,889
New directorate pressures	4,638
Sub total	21,527
Less	
Total Savings	(17,007)
Net amount to be raised from additional Council Tax	4,520

19. Overall savings proposals have been identified, as shown in **Appendix 3 and 4**, as follows:

Funded by:-	£000
Directorate Savings	13,264
Addressable Spend Savings	3,743
TOTAL SAVINGS	17,007

20. In terms of the Directorate savings proposals of **£13,264** million:

- a. **£4,872 million** are savings from **employee costs**;
- b. **£8,739 million** are saving from **other spend**; and
- c. **£3,405 million** from increased **income**.

Total Savings by Directorate	Employee £000	Other £000	Income £000	Total £000	Percent
City Operations	0	695	494	1,189	9%
Communities, Housing and Customer Services	120	754	209	1,083	8.1%

Social Services	340	4,657	0	4,997	38%
Directorate Savings	2,022	7,942	3,300	13,264	100%

21. Details of the Directorate Savings Proposals are shown at **Appendix 4**.

These proposals provide risk analysis information in terms of residual risk, achievability and Equality Impact Assessment. Where a screening identifies a red or red/amber risk a full Equality Impact Assessment is undertaken. Members can view these at:

<https://www.cardiff.gov.uk/ENG/Your-Council/Council-finance/Council-Budget/2017-18/Equality-Impact-Assessments-2017-18/Pages/default.aspx>

22. The net additional increase in Council Tax and the savings identified in the above table account for two of four components that the Council identified as part of its 2017/18 Budget Strategy. The other two components, a 30% cap on schools non-pupil number-growth and use of earmarked reserves have already been accounted for within the calculations of the Resources Required and the Resources Available for 2017/18. The table below sets out in full, the four components of the 2017/18 Budget Strategy along with their respective contributions to balancing this budget.

	£000
30% cap on schools growth (non-pupil number)	1,853
Use of Earmarked Reserves	1,500
Savings	17,007
Council Tax at 3.7% (net)	4,520
TOTAL	24,880

Consultation & Engagement Process

33. The Council used a number of mechanisms to consult and engage with citizens and stakeholders to gather their views regarding the budget proposals. These included:

- a. *Changes for Cardiff* budget consultation survey - launched 10th November 2016 and running until 16th December 2016. Engagement activities included electronic questionnaire distribution via social media and email address lists, paper copy distribution across libraries and hubs, postal delivery to selected households

across the city, and face-to-face engagement with targeted groups and selected locations across the city.

- b. Links on the Cardiff Council website to the Council Budget, featuring links to the *Changes for Cardiff* survey, a video explaining the budget position, links to the proposals, background papers, Equality Impact Assessments, and the on-line survey and the timeline for the budget process⁴.
- c. Engagement with Trade Unions.
- d. Engagement with Cardiff Partnership.
- e. Audit Committee.
- f. Cardiff Third Sector Council.
- g. Schools' Budget Forum.
- h. Employee Consultation.

34. The *Changes for Cardiff* budget consultation results have now been analysed and a full copy of the report is attached at **Appendix 11**. Members attention is drawn to the following:

- a. Pages 14- 17 – Hubs
- b. Pages 19 – 23 – Volunteering
- c. Pages 24 – 27 – Telecare
- d. Pages 29 – 34 - Providing Care and Support Services Locally

35. In addition to the broader citywide consultation, there was also service specific consultation with identified service users/ groups or organisations and internal Council consultation for those proposals that related to internal changes, including back office efficiencies, staff changes and process improvements.

Way Forward

36. Members have the opportunity to scrutinise the draft Corporate Plan 2017/19, the alignment of the draft budgetary proposals 2017/18 with the

draft Corporate Plan, the potential impact of the draft budgetary proposals on service delivery, service users and citizens of Cardiff and the achievability and deliverability of the budget proposals.

37. Officers will make a presentation on the overall budget position, and issues falling within the terms of reference of this Committee. The relevant Cabinet Members and Officers will be available to answer Members' questions. Presentations will be provided for Councillor Elsmore's portfolio.
38. Following consideration of the budget proposals, presentations and answers to Member questions, the Committee may wish to provide its comments, observations and recommendations to the Cabinet for consideration at their meeting on 16 February 2016.

Legal Implications

39. The Scrutiny Committee is empowered to enquire, consider, review and recommend but not to make policy decisions. As the recommendations in this report are to consider and review matters there are no direct legal implications. However, legal implications may arise if and when the matters under review are implemented with or without any modifications. Any report with recommendations for decision that goes to Cabinet/Council will set out any legal implications arising from those recommendations. All decisions taken by or on behalf of the Council must (a) be within the legal powers of the Council; (b) comply with any procedural requirement imposed by law; (c) be within the powers of the body or person exercising powers on behalf of the Council; (d) be undertaken in accordance with the procedural requirements imposed by the Council e.g. Scrutiny Procedure Rules; (e) be fully and properly informed; (f) be properly motivated; (g) be taken having regard to the

Council's fiduciary duty to its taxpayers; and (h) be reasonable and proper in all the circumstances.

Financial Implications

40. The Scrutiny Committee is empowered to enquire, consider, review and recommend but not to make policy decisions. As the recommendations in this report are to consider and review matters there are no direct financial implications at this stage in relation to any of the work programme. However, financial implications may arise if and when the matters under review are implemented with or without any modifications. Any report with recommendations for decision that goes to Cabinet/Council will set out any financial implications arising from those recommendations.

RECOMMENDATION

The Committee is recommended to give consideration to the information attached to this report and received at this meeting and to submit any recommendations, observations or comments to the Cabinet.

Foreword:

The Leader of the City of Cardiff Council

The Corporate Plan: What is the Corporate Plan and how does it help deliver our vision?

What is the Corporate Plan?

The Corporate Plan is the Council's road map, setting out our vision and priorities for the next two years.

What is our vision?

The Council's vision is for Cardiff to become "Europe's most liveable capital city".

The need to prioritise

With reduced funding and increased demand, the City of Cardiff Council can no longer do everything it has done in the past. In order to ensure the Council delivers for Cardiff, the organisation must focus on those actions that will have the greatest impact. The Council's priorities are:

- Better education and skills for all
- Supporting vulnerable people
- An economy that benefits all our citizens
- Working together to transform services

The Corporate Plan therefore demonstrates the Council's contribution to achieving its vision but it is not an expression of everything the Council does. It is a statement on the strategic priorities of the organisation.

Directorate Delivery Plans, sitting underneath the Corporate Plan, will provide greater detail on all the other activities and services which the Council is responsible for delivering.

Statutory requirements

The Corporate Plan meets the Council's duty to publish well-being objectives and a well-being statement as set out in the **Well-being of Future Generations (Wales) Act 2015**. Our well-being objectives also represent our improvement objectives, as required by the **Local Government (Wales) Measure 2009**.

The Council is committed to all its statutory obligations, such as the duties expressed within, but not limited to, the:

- Equality Act 2010
- Welsh Language (Wales) Measure 2011
- Social Services & Well-being (Wales) Act 2014
- Environment (Wales) Act 2016
- Planning (Wales) Act 2015
- Housing (Wales) Act 2014

The Planning and Policy framework

National Well-being Goals

Cardiff Public Services Board shared outcomes

The City of Cardiff Council

Co-operative Council: Delivering the Vision

We will be a Co-operative Council, **connected to the citizens and communities** of Cardiff

Cardiff will **connect Wales to the world** and be a **Capital city that attracts business, investment, talent and tourism**

Co-operative Values: We Are Cardiff

Our Priorities:

The Well-being of Future Generations Act

The Well-being of Future Generations Act

The Well-being of Future Generations Act provides a framework for developing a balanced approach to the way Cardiff grows as a city and delivers services. It also encourages the Council to make sure that today's solutions are not tomorrow's problems.

The Act aims to ensure the economic, social and environmental well-being of Wales and places a statutory duty on public bodies to work towards the achievement of seven national well-being goals whilst embedding the sustainable development principle and five ways of working.

The seven national well-being goals are:

- A Prosperous Wales
- A Resilient Wales
- An Equal Wales
- A Healthy Wales
- A Wales of Cohesive Communities
- A Vibrant Culture & Thriving Welsh Language
- A Globally Responsible Wales

The five ways of working are:

- Long-term
- Prevention
- Integration
- Collaboration
- Involvement

The Council welcomes the Act and takes its obligations under the Act seriously. We believe there are areas where we are very well positioned to meet and exceed the requirements, but we are also committed to working with all partners including Welsh Government, Local Authorities, Future Generations Commissioner for Wales, UK Core Cities and others to further develop our approach where appropriate.

Cardiff Public Services Board

The Act establishes Public Services Boards (PSBs) for each local authority area in Wales. The Members of each Public Services Board must include:

- The local authority
- The Local Health Board for an area any part of which falls within the local authority area
- The Welsh Fire and Rescue Authority for an area any part of which falls within the local authority area
- The Natural Resources body for Wales

Cardiff has established its Public Services Board, which builds on over a decade of collaboration with our public service partners. The PSB has adopted seven outcomes that will ensure progress towards the national well-being goals.

The seven outcomes are:

- People in Cardiff feel safe
- People achieve their full potential
- Cardiff has a prosperous economy
- Cardiff is fair, just and inclusive
- People in Cardiff are healthy
- Cardiff is clean and sustainable
- Cardiff is a great place to live, work and play

The Well-Being Assessment

To understand the challenges facing the city and help identify the areas where the Council can have a positive impact on life in Cardiff, a Liveable City Report was published. The Liveable City Report captures how the city is performing against a range of high level indicators and represents the City's well-being assessment which is required by the Act.

A well-being plan, which is also required by the Act, will be developed by the PSB for the city to provide a strategy for improvement against key indicators by May 2017.

The Corporate Plan

The Corporate Plan sets out the Council's well-being objectives, which show how we will address the challenges revealed by the Liveable City Report under each of our four priorities.

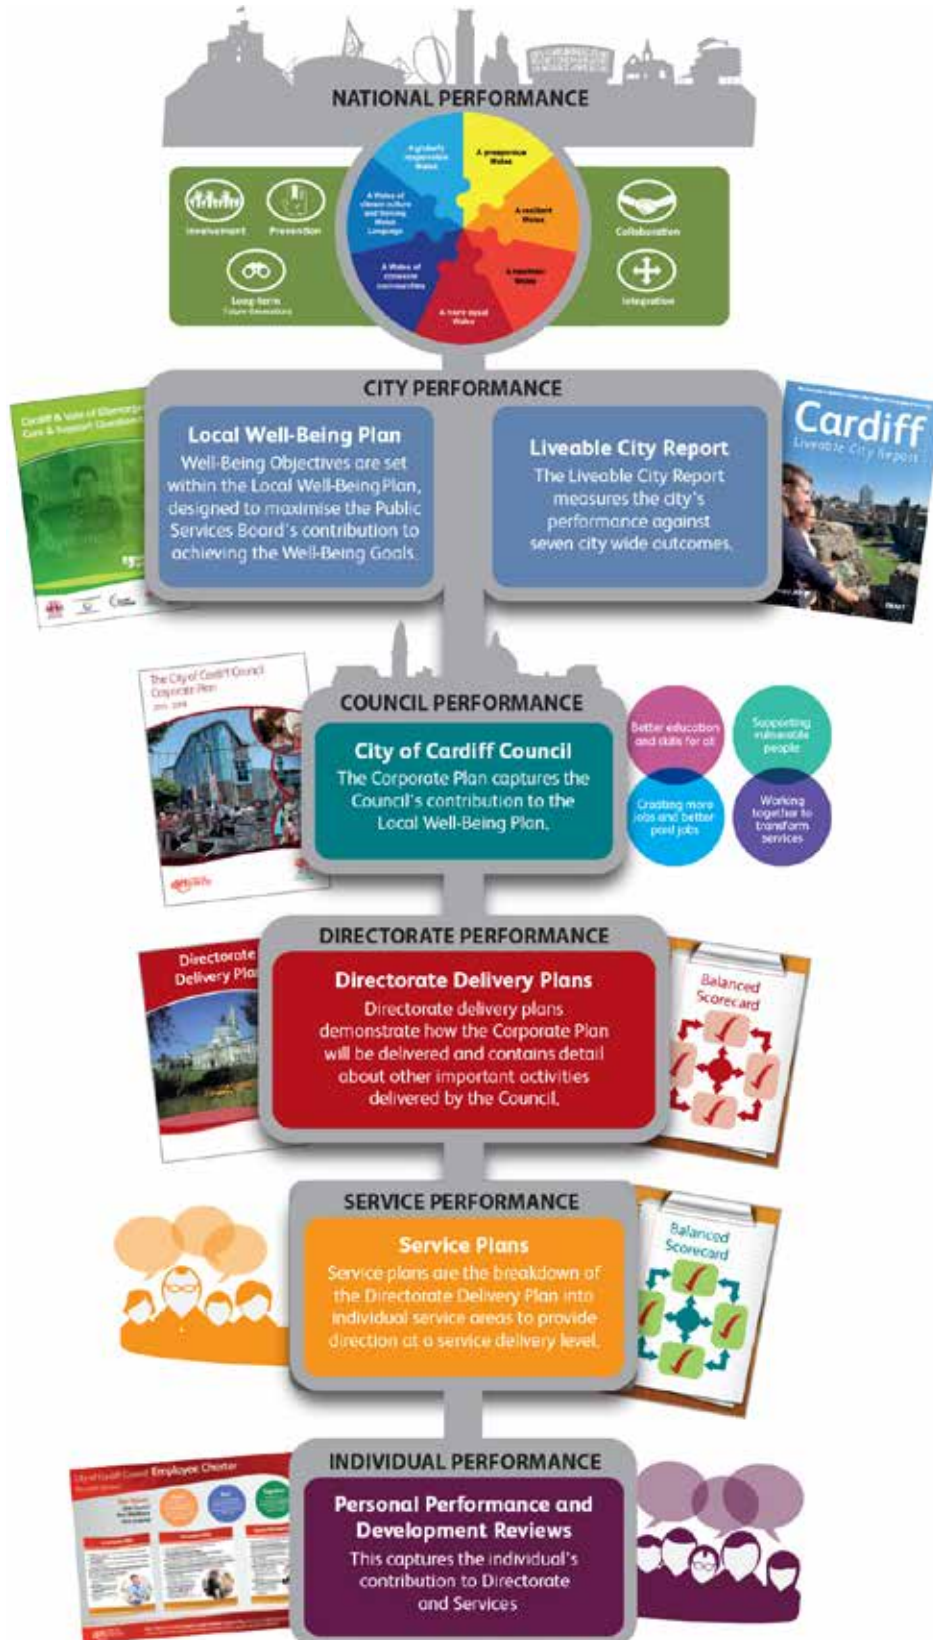

City Performance (measured by outcomes)

The Liveable City Report is an important guide to the overall well-being of the city. It captures the city's performance and benchmarks Cardiff against other appropriate areas where data is available. The Liveable City Report therefore captures city performance by measuring high level outcomes.

Council Performance (measured by outputs)

The Corporate Plan states what the Council will do to help achieve our vision of becoming Europe's most liveable capital city by delivering against the four priorities. The Corporate Plan therefore focuses on performance indicators which more accurately measure how effectively the Council delivers its services.

Delivering our vision: The hierarchy of plans

Delivering our vision: How the Council's well-being objectives contribute to the national well-being goals

The Council has developed thirteen well-being objectives which represent our commitment to delivering the national well-being goals. This table indicates which of the well-being goals our objectives will deliver against.

	Prosperous	Resilient	Equal	Healthy	Cohesive Communities	Vibrant Culture & Thriving Welsh Language	Globally Responsible
Priority 1: Better education & skills for all							
Every Cardiff school is a great school							
Looked after children in Cardiff achieve their potential							
Supporting people into work and education							
Priority 2: Supporting vulnerable people							
People at risk in Cardiff are safeguarded							
People in Cardiff have access to good quality housing							
People in Cardiff are supported to live independently							
Priority 3: An economy that benefits all our citizens							
Cardiff has more and better paid jobs							
Cardiff has a high quality city environment where population growth and transport needs are managed sustainably							
All young people in Cardiff make a successful transition into employment, education or training							
Ensure high quality and sustainable provision of culture, leisure and public spaces in the city							
Priority 4: Working together to transform services							
Communities and partners are involved in the redesign, development and delivery of local public services.							
The Council has effective governance arrangements and improved performance in key areas							
Our services are transformed to make them more accessible, more flexible and more efficient							

Delivering our vision:

Embracing the five ways of working

The five ways of working represent a shift in focus that the Council has been pursuing for a number of years. Here are some examples of how we have changed the way we deliver our services and how we will continue to develop our approach as we move forward.

	Way of Working	Examples of actions the Council has taken forward
	<p>Long-term</p> <p>Thinking far enough ahead so that today's solutions are not tomorrow's problems.</p>	<ul style="list-style-type: none"> • The Liveable City Report considers long term trends in the city across a range of indicators. • We have considered the impact of predicted growth in the city with plans now based on an expected population increase of 20% over the next 20 years alongside a budget reduction of £81m over the next 3 years. • The development of medium term financial planning will ensure decisions consider the impact on future generations. • Our workforce strategy will ensure the Council develops workforce skills for the future.
	<p>Prevention</p> <p>Acting to stop problems happening in the first place, or getting worse</p>	<ul style="list-style-type: none"> • Our approach to collaboration will ensure a focus on prevention with public service partners. • We have already begun the shift towards prevention in our Independent Living Service, our approach to housing and homelessness and support offered for young people Not in Employment, Education or Training. As we move forward, we will consider what further action we can take to ensure we shift from a reactive to a preventative approach.
	<p>Integration</p> <p>Considering how our actions may impact on others</p>	<ul style="list-style-type: none"> • Our new Liveable City Policy Forum facilitates cross-departmental working to ensure strategy and policy is integrated and can achieve the best outcomes. • A city-wide policy forum has also been launched to provide a space for policy development and integration across public service in Cardiff. • Our Future Generations Champions Network ensures well-being goals and objectives are integrated across the organisation and are at the forefront of service planning.
	<p>Collaboration</p> <p>Acting together with others</p>	<ul style="list-style-type: none"> • Successful collaboration is key to delivering effective and efficient public services. • One major example of our work with partners includes the Cardiff Capital Region City Deal which involves 10 Local Authorities, Welsh Government and UK Government. • Other successes include our Hubs programme which ensures the provision of public and third sector advice and support services in the heart of the community. • Working with local housing associations to mitigate the impact of welfare reform which includes providing into work support
	<p>Involvement</p> <p>The importance of involving people in what we do</p>	<ul style="list-style-type: none"> • Our approach to engagement with residents over the last three years shows our commitment to involving the citizens of Cardiff in developing our services. • We recognise, however, that there is always room for improvement and as such are reviewing our approaches to ensure all voices are heard.

Delivering for Cardiff:

Our core business

Everyone in Cardiff uses public services and many of them are provided by the Council. It is sometimes easy to forget about all the important services that the Council delivers - every day - to residents and visitors to the city.

Each year the Council delivers **around 700 services to over 357,000 residents in 151,000 households**, helping to support local communities and improve the lives of local people. Many will be aware that the Council is responsible for collecting bins, cutting grass and cleaning streets, but it also provides support for older people and people with disabilities, it runs schools and manages high quality housing stock, as well as looking after children who are in care.

The Council has a commitment to make a positive impact on the health and well-being of communities. **Parks and green spaces** - which are a huge part of the city's appeal - are maintained by the Council. We

will continue to work with "friends groups" to make the best use of important natural assets and vital recreational areas. This is in addition to working with partners to improve community engagement and local management of green spaces and community facilities.

Cardiff has a long and successful track record of delivering **major sporting events**. Hosting **Rugby World Cup matches, Ashes Cricket test matches and the World Half Marathon** again demonstrated the city's capacity to deliver globally recognised events. In June the city will host the biggest sporting event in the world in 2017 - the **Champions League Final**. In 2018 the **Volvo Round the World Race** will stop in Cardiff for the first time in its history – and the first time the race will have returned to Britain for 12 years.

Cardiff has a strong cultural offer but, due to budgetary pressures, the Council needs a new model to support art and culture in the city. By working with artists and communities, art and culture are being taken out of museums and galleries and into the communities of Cardiff. It is an exciting agenda and a real demonstration of how the Council can support the Arts in the future.

As well as those living in the city, over 80,000 people commute into Cardiff every day from across the city-region.

This represents over one third of the city's workforce. Keeping the city and the city-region moving is therefore a top priority. This will require planning and delivering with our neighbours across the Cardiff Capital Region.

Within the city boundaries, the Council plays a crucial role as it **maintains roads and highways** as part of a wider strategy for dealing with traffic and congestion. Other important issues, like fixing potholes, are also addressed whilst a joined up transport strategy to keep the city moving during peak traffic is taken forward by the Council. This includes encouraging a shift towards more sustainable modes of travel, enabling people to get around Cardiff in a convenient, safe and more environmentally friendly way.

Council staff continue to work every day to keep Cardiff's streets clean and the Council also **monitors air quality and noise** and ensures that **public and consumer safety** is upheld to the highest standards.

While the financial pressures are undoubtedly challenging, the Council will continue to deliver and support a wide range of public services on behalf of citizens and communities across the city. Doing so will be fundamental to delivering the vision of becoming **Europe's most liveable capital city**.

Shaping the Corporate Plan:

Sustainable and inclusive management of growth

The city is preparing for significant growth over the next 20 years with a considerable number of people expected to move to the area, representing one of the biggest population increases (in percentage terms) of any major British city. This growth represents the success of Cardiff, as the city becomes a place that people want to live and work.

Growth, however, also brings a number of challenges such as ensuring we meet the growing demand for services in a way that protects the economic, social, environmental and cultural well-being of Cardiff.

Amongst other things, we will need to build new homes whilst ensuring that we protect the environment. We will need to create new jobs, whilst ensuring that all our citizens

can contribute to a prosperous economy. And we will need to provide more school places, ensuring that all children can reach their potential.

At the same time, we face continued financial pressures as budgets shrink further each year. The Council faces a budget shortfall of £81m over the next 3 years, in addition to the £213 million in savings identified over the last decade.

The challenge now is to deliver a liveable city whilst managing growth and austerity. This will require close partnership working with other public and third sector organisations to ensure we use the money that is available to us in the most effective way. This balanced approach to development is consistent with the spirit of the Well-being of Future Generations Act.

OVER THE NEXT 3 YEARS

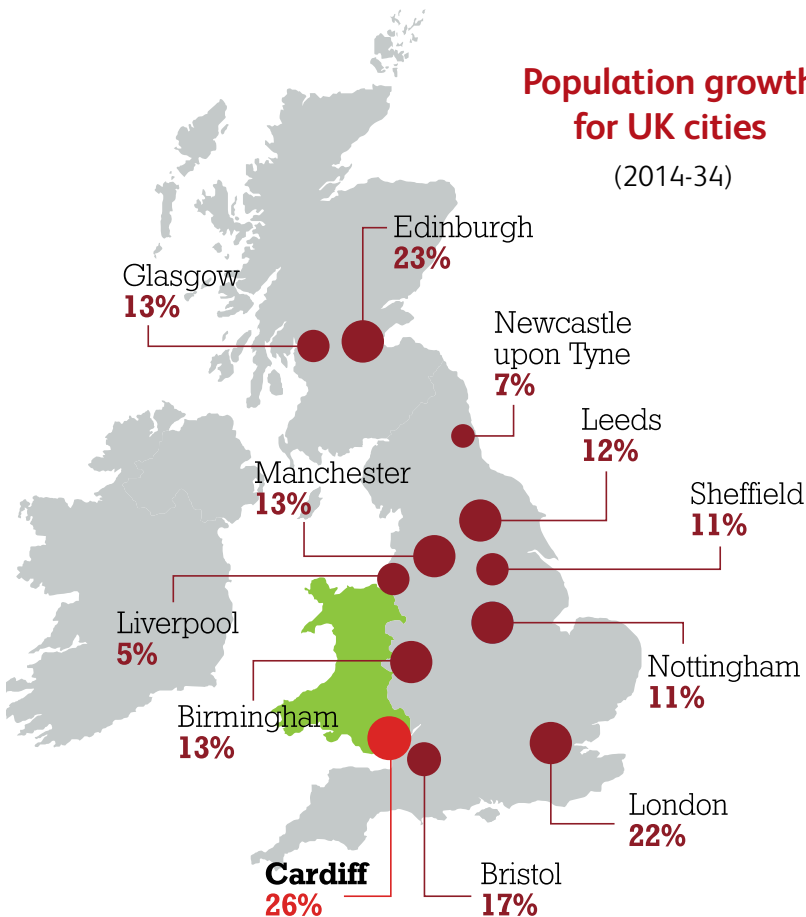

Developing Our Workforce

Developing a resilient workforce that can adapt to the changes ahead is important to us. Our people are a valuable asset and as such, we want to ensure they are able to deliver services that meet the needs of all service users.

This is important, not least because the Well-being of Future Generations Act sets out a cultural change that begins with the workforce having the right skills and support to achieve the transformation expected.

We are currently working to ensure that our workforce is fully engaged in achieving the aims of the Act and are able to adapt to the changing needs of society.

This includes working with our teams to embed the five ways of working and develop delivery mechanisms accordingly.

Shaping the Corporate Plan: Representing Our Communities

In developing the Corporate Plan, we have involved a wide range of citizens who have put forward their views by taking part in our Ask Cardiff survey or budget consultation.

In order to ensure the best responses, we have taken action to boost the response rates from under-represented groups through targeted marketing and engagement activities. This has included delivering additional paper copies and facilitating engagement sessions in the areas of City & Cardiff South and Cardiff East, and collaborating with the three universities in Cardiff to increase the number of under 35s participating in our consultation activities, ensuring our

large student population is able to inform priorities for the city.

We also piloted some engagement sessions with the Welsh Refugee Centre to gather the views of refugees and asylum seekers. This allowed us to trial a model that we can use with under-represented groups to ensure we are engaging with people who reflect the diversity of our communities.

Over 4,000 people took part in Ask Cardiff, with 2,520 participating in the Changes for Cardiff budget consultation and their views have helped us to decide what is important for the Council to focus on in 2017-18.

Key terms

Well-being goals

Seven national well-being goals set out in the Well-being of Future Generations (Wales) Act 2015

Well-being objectives

Strategic objectives that will ensure the Council is contributing to the delivery of the well-being goals. For each priority, 3-4 objectives have been set that will enhance and protect the economic, social, environmental and cultural well-being of Cardiff.

Improvement objectives

Our well-being objectives also represent our improvement objectives. As such, they set out clearly and simply what we want to achieve and are therefore outcome focused.

Ways of working

Five ways of working set out in the Well-being of Future Generations (Wales) Act 2015 that must characterise the way the Council delivers activities.

Sustainable development principle

The way a public body must act to ensure that the needs of the present are met without compromising the ability of future generations to meet their own needs.

Council priorities

The Council's priorities recognise the most important areas to address in the short to medium term.

Commitments

Commitments are specific initiatives that the Council will undertake to deliver the well-being objectives and contribute to the well-being goals.

Measures

Measures are indicators which we have agreed will measure our performance against our well-being objectives.

Our Priorities and Well-being Objectives

Priority 1

- 1.1 Every Cardiff school is a great school
- 1.2 Looked after children in Cardiff achieve their potential
- 1.3 Supporting people into work and education

Priority 2

- 2.1 People at risk in Cardiff are safeguarded
- 2.2 People in Cardiff have access to good quality housing
- 2.3 People in Cardiff are supported to live independently

Priority 3

- 3.1 Cardiff has more and better paid jobs
- 3.2 Cardiff has a high quality city environment where population growth and transport needs are managed sustainably
- 3.3 All young people in Cardiff make a successful transition into employment, education or training
- 3.4 The Council has high quality and sustainable provision of culture, leisure and public spaces in the city

Priority 4

- 4.1 Communities and partners are involved in the redesign, development and delivery of local public services.
- 4.2 The Council has effective governance arrangements and improved performance in key areas
- 4.3 Our services are transformed to make them more accessible, more flexible and more efficient

Priority 1:

Better education and skills for all

The Council is committed to ensuring excellent educational achievement in all sectors, from the early years, through school, to post 16 and adult learning. A city in which all citizens have equal opportunities to access effective and relevant learning, throughout life, is essential to building skills for the future, social inclusion and economic well-being and prosperity.

We will continue to work in partnership with schools, parents, communities, further and higher education providers, the third sector, business and enterprise in the city, to develop a workforce ready to respond to the challenges of the 21st century.

Better Education and Skills for All

Cardiff is a well-educated city with a high proportion of people qualified to degree-level or equivalent (NVQ Level 4). With a strong university sector and major employers in the region, Cardiff attracts and retains a highly skilled workforce. The city also has a low number of people with no qualifications compared to other major UK cities.

As Cardiff's economy expands, it is increasingly important that its citizens are equipped to take advantage of the opportunities this growth offers.

43.5% of Cardiff's working-age population are qualified to degree level or equivalent

Percentage of population Aged 16-64 Qualified NVQ4+, Jan-Dec 2015

Only 8.8% of working-age residents have no qualifications

Percentage of population Aged 16-64 with No Qualifications, Jan-Dec 2015

School Performance

The performance of Cardiff schools continues to accelerate across all phases of education, with further improvements at each key stage at the end of the academic year 2015-2016.

In primary schools, the proportion of pupils achieving the Foundation Phase Indicator has increased to 88.9%, exceeding the Wales average of 87.0%. The proportion of pupils achieving the Key Stage 2 Core Subject Indicator has also increased to 89.5%, again above the Wales average of 88.6%. The number of high performing schools is increasing and variation between schools is reducing.

In secondary schools, at the end of Key Stage 4, a higher proportion of pupils achieved the Level 2+ threshold (Five GCSEs A* - C, including English/Welsh first language and Mathematics), increasing performance to 63%, a 14 percentage point increase since 2011-12. The number of secondary schools where less than 50% of pupils achieved the Level 2+ threshold has decreased from eight in 2015, to four this year.

The performance of pupils eligible for free school meals has improved at each key stage, narrowing the gap between

these pupils and their peers. However, this gap remains too wide, particularly in the secondary sector.

The proportion of pupils with special educational needs achieving headline measures has improved at every key stage.

Priority improvement areas in the year ahead are:

- Improving pupil outcomes at the minority of secondary schools that are causing concern
- Improving performance in Key Stage 4 at the Level 1 threshold (5 GCSEs A* - G)
- Tackling the variation in standards achieved by schools with comparable pupil demographics
- Developing improved provision for young people who are educated other than at school
- The review and development of provision and practice in relation to special educational needs across Cardiff
- Improving outcomes for looked after children, both educated within and beyond the Cardiff school system

In secondary schools at the end of Key Stage 4:

Supporting Lifelong Learning

We also want to ensure that adults have the skills they need to enter and remain in employment. Our Adult Community Learning and Into Work Advice services provides employment related advice and courses to individuals in Cardiff who are actively seeking work or are looking for skills to further progress to better paid jobs.

Since 2010-11 there has been a marked increase in the number of people completing Learning for Work courses

Since the Into Work Advice Service was launched, we have provided advice to almost 150,000 people

Well-being objective 1.1:

Every Cardiff school is a great school

1 What do we want to achieve?

During 2016, the Council and its partners launched 'Cardiff 2020 – A renewed vision for education and learning in Cardiff', which underlines a shared commitment to ensure that:

'All children and young people in Cardiff attend a great school and develop the knowledge, skills and characteristics that lead them to become personally successful, economically productive and actively engaged citizens'. Cardiff 2020 recognises that a strong school system is a key foundation for a prosperous economy and

society. Our schools are pivotal in raising the skills and competencies of the future workforce, and to empowering young people to respond to the rapidly changing needs of a dynamic labour market.

Cardiff 2020 also acknowledges the essential role our schools and early years settings have to play in preventing and tackling poverty, enabling social inclusion, promoting mutual respect for each other and building the foundations for an open and democratic society upon which active citizenship rests. These are essential

contributors to the goals of the Well-being of Future Generations (Wales) Act.

Building upon the strengthening picture of school performance in Cardiff in recent years, Cardiff 2020 outlines five key goals:

- Excellent outcomes for all learners
- A high quality workforce
- 21st Century learning environments
- A self-improving school system
- Schools and Cardiff in Partnership

Well-being objective 1.2:

Looked after children achieve their potential

1 What do we want to achieve?

The Council is committed to providing high quality care and support for looked after children to help them achieve their potential.

An integrated approach which promotes greater collaboration across Council Directorates, Cardiff schools and partner organisations is crucial. The Corporate Parenting Advisory Committee, delivering within a framework provided by our Corporate Parenting Strategy, helps ensure that our approach is as joined up as

possible. This response also encourages us to concentrate on providing support that seeks to address problems before they arise and deliver positive long term outcomes for children and young people.

A good proportion of looked after children achieve their aspirations and succeed educationally, including at university but there remain significant challenges for the authority in improving educational outcomes for looked after children overall. The award winning Looked After Children

Traineeship Scheme has been successful in offering work placement opportunities to Looked After Children and care leavers, some of whom have since taken up apprenticeships within the Council.

The shared vision of the City of Cardiff Council and the Cardiff & Vale University Health Board is to continue to work together to ensure the best possible outcomes for children who are looked after or who have left care, so that they can be happy and lead fulfilling lives.

Well-being objective 1.3:

Supporting people into work and education

1 What do we want to achieve?

The Adult Community Learning service is delivered in collaboration through the Cardiff and Vale Community Learning Partnership and offers a broad range of adult education courses that help support the citizens of Cardiff to meet their learning aspirations, enhancing prospects and quality of life.

The Council is especially focused on supporting those on low income because income poverty can have a profound impact on people's aspirations as well as broader effects on the health, wellbeing and safety of citizens. The Council's contribution to Adult Community Learning

in Cardiff focuses on two key areas: Learning for Work and Learning for Life. In 2015-16 the Learning for Life programme achieved a 94% success rate, which was up from 88% in 2014-15.

As part of our Into Work service we are working to widen digital inclusion within communities by helping people 'get online' through learning basic computer skills. The digital inclusion agenda is also assisting preparations for the full rollout of Universal Credit across the city and the Council will be supporting all new claimants and helping people to maintain their Universal Credit account online.

The Into Work Advice Service provides one to one support to individuals. We offer help with CVs, job application forms, universal job-match and digital inclusion. As we know that helping individuals to get online is crucial, we deliver a range of digital sessions across the city. We can also offer a range of free accredited training courses to individuals looking to upskill. In 2015-16, over 40,000 people received Into Work Advice with 98% of people stating that they felt more 'job ready' as result of attending a work preparation course.

Adult Community Learning enrolment rate for learners within deprivation deciles one and two	45%

Priority 2:

Supporting Vulnerable People

How we treat people in most need of support is a real test of the values of our city. As Cardiff grows, it is more important than ever that no one is left behind because of their circumstances. This must involve a joined-up approach that supports the person rather than treating problems in isolation.

Supporting Vulnerable People

Supporting Vulnerable Adults and Children

The services we are responsible for delivering are crucial to the well-being of some of the most disadvantaged in the city and helping people who, from time to time are in need of our support. Our performance in these areas is therefore a priority for the organisation. We will prioritise the integration of our services to

ensure vulnerable adults and children are supported and kept safe. Safeguarding is everybody's business so we will ensure that, together with partners, we protect the vulnerable from child sexual exploitation, human trafficking, abuse and neglect.

In addition, we will improve the provision of Adult Social Services through collaboration with partners in health and housing, ensuring that people in Cardiff receive the care and support they need, with an

emphasis on maintaining independence where appropriate.

Whilst we have made strong progress in this area, we recognise that there is further work to be done. Our detailed planning in preparation for the Social Services and Well-being (Wales) Act 2014 has initiated a tangible cultural shift in our approach to the delivery of care and support whilst housing also remains a priority.

Council Performance: Children

87% of required visits to looked after children took place in 2015/16, only one percentage point behind the average for Wales

Information is shown to the nearest whole number - 2015-16

Council Performance : Adults

The average hours of care each older person receives increased from 14.6 hours per week in September 2013 to 16 in December 2016

82% of reviews of vulnerable children were completed on time in 2015-16, an increase of 11% on 2014-15

The number of older people supported at home by the Council increased from 1,622 in April 2012 to 1,839 in December 2016. The 'number of service users based on the population increase' is based on the mid-year population estimates for people in Cardiff aged 65+

Supporting access to homes and Independent Living

We are also committed to delivering high-quality, affordable social housing. Our allocations process ensures that we give priority to those most in need of a home and we provide additional support to those who are homeless or at risk of becoming homeless in Cardiff. More broadly, we help enforce standards in the private rented sector to increase the number of high-quality properties available in the city.

Almost 4,000 people contacted Independent Living Services between April and December 2016

The average number of days for a resident to be awarded a Disabled Facilities Grant has decreased to just over 200, below the Welsh average of 240 days

Only 1% of Council properties were vacant during Quarter 3 of 2016-17 compared with 2.36% during the same period in 2013-14

Well-being objective 2.1:

People at risk in Cardiff are safeguarded

1 What do we want to achieve?

The Council is committed to supporting children, young people and adults who may be unable to take care of themselves and empowering individuals to protect themselves from significant harm or from exploitation. The Council will continue to collaborate with partners, playing a lead role in protecting and safeguarding individuals who need care and support from abuse and neglect or any other kinds of harm.

The Social Services and Well-being (Wales) Act 2014 aims to address these issues while giving people greater freedom to decide which services they need. The aim is to offer consistent, high-quality services across Wales. Cardiff is well positioned to respond to the Act, which places safeguarding vulnerable adults on the same statutory footing applicable to children under previous legislation.

The Council also recognises the need to focus on developing a range of more effective services to prevent issues escalating, which may result in vulnerable children or adults being separated or cared for away from their families. Doing this effectively will offer a better quality of life for the individual and will deliver greater value for the Council and communities in the long term.

2 Commitment

Well-being objective 2.2:

People in Cardiff have access to good quality housing

1 What do we want to achieve?

Housing is at the heart of well-being and so the Council is committed to delivering high quality, sustainable and affordable homes, particularly for those in most need.

Demand for housing of all tenure types in Cardiff is high, particularly for social housing. The Council will therefore prioritise work to increase the level of housing available for Council tenants as well as maximising the delivery of affordable housing. Achieving and maintaining 100%

compliance with the Welsh Housing Quality Standard also demonstrates that the housing offer for Council tenants is of a high quality.

The Council will work to ensure landlords and agents comply with their legal obligations under the Housing (Wales) Act 2014, also acting as the host licensing authority for the Welsh Government's Rent Smart Wales scheme. This is an all-Wales registration and licensing scheme,

which works to prevent rogue agents and landlords letting and managing properties, driving up standards in the private rented housing sector.

We also recognise that acting on homelessness is an immediate concern if we are to support the most vulnerable. That is why the Council will ensure it has effective and efficient measures in place to support those who are homeless and help prevent people from becoming homeless.

2 Commitment

Implement the Cardiff Housing Strategy 2016-2021 to ensure those in need have access to appropriate, high quality services

- 1,500 new homes (of which 40% affordable) through the 'Cardiff Living' programme.
- In addition to the Cardiff Living programme, deliver 100 additional Council properties through a range of capital funding by 2022
- Deliver Independent Living Solutions for Older and Disabled People
- A new Homelessness Strategy based on a full needs assessment and review of services
- Implement a new Rough Sleeping Strategy to address rough sleeping in the city
- Continue to develop joint working to mitigate the issues caused by Welfare Reform

The percentage of people who experienced successful outcomes through the Homelessness Reconnection Service	50%
The number of rough sleepers assisted into accommodation	144

Well-being objective 2.3:

People in Cardiff are supported to live independently

1 What do we want to achieve?

Helping people to live independently means enabling potentially vulnerable people to develop the skills they need to live on their own, supporting them with reasonable adaptation to their homes and providing more preventative services before their needs become critical.

This is done by identifying an individual's strengths and skills through a re-ablement approach.

Doing so respects the dignity and independence of individuals whilst reducing the demand for domiciliary packages and traditional models of care. In order to strengthen individual independence and effective care and support, we will continue to:

- Facilitate timely and safe discharge from hospital to allow people to remain at home
- Build on the success of the new single point of contact for anybody who needs support
- Ensure that on the first point of contact, those who need support can access a range of services to secure independent living
- Facilitate access for young care leavers to good accommodation, employment opportunities and mentoring

Priority 3:

An economy that benefits all our citizens

A strong and inclusive economy is at the heart of a city with a great quality of life. To achieve this we must ensure Cardiff offers the right conditions to attract and support investment; to create more and better-paid jobs, in the city and wider region, and to provide the support and pathways to help our citizens access these jobs and build careers in Cardiff.

An economy that benefits all our citizens

Achieving our vision will mean continued improvement in Cardiff's business infrastructure and support, alongside an enhanced approach to supporting people – particularly young people – into education, employment and training. This must be aligned to maintaining Cardiff's position as one of the best British cities for culture

and leisure, particularly as the city grows over the coming decade. Given Cardiff's pivotal role in the city-regional economy, the City Deal and emerging city-regional approach to economic development, spatial planning and transportation will be increasingly important.

Partnership working will be central to delivering an economy that benefits all our citizens, with the business community, the city's universities; local authorities in the Capital Cardiff Region, the Welsh and UK Governments and, most importantly of all, with the citizens of Cardiff.

City Economy

Cardiff is the economic powerhouse of Wales, playing a vital role in creating jobs and wealth for the people of the city and the wider city region, with well over 80,000 people commuting into the city each day. The city economy is demonstrating strong performance across a number of headline indicators, with jobs growth up, unemployment down, visitor numbers up and growth in the number of new businesses.

Unemployment in the city is at its lowest level since 2009 and is currently 6%

That said, Cardiff's total economic output (GVA per head) although much higher than other parts of Wales, compares relatively poorly to the top performing major British cities, and levels are only now returning to pre-crisis levels.

In 2014 the economic output (Gross Value Added) per head in Cardiff and the Vale was £22,107, above the Welsh average but below many major cities in the UK

Together, these figures suggest that while jobs are being created, the city's economy is not becoming more productive. To meet the demands of growth it will be important that Cardiff's economy not only keeps on creating and attracting new companies and new jobs, but that these companies are more productive and the jobs better paid.

Equally, the dividend of economic growth have not been felt by all of the city's residents. Despite the jobs created and the investment in the city centre, many of the poorest communities in Wales can be found in its capital city. The large disparities in levels of unemployment, household poverty and workless households closely align with health, crime and educational inequalities across the city.

Over a quarter of households in Cardiff are living in poverty - over 46,000 households. Living in poverty is defined as a household whose income is below 60% of the annual median income.

Welsh Index of Multiple Deprivation (WIMD)

An important part of tackling disadvantage will be helping people into education, employment and training. That is why supporting the successful transition of young people has been a priority for the Council and its partners, with significant progress being made in this area over the last five years.

Cardiff — Wales

High-Quality City Environment

Cardiff is a green city. It is well served by parks and open green spaces, with areas such as Bute Park in the heart of Cardiff recognised for their outstanding natural beauty. Residents also have easy access to a national park and coastlines in the wider city-region. Cardiff's recycling rates perform strongly compared to other British cities.

The household waste recycling rate has risen from 4% to 58% since the recycling and composting targets were put in place. Street cleanliness, however, is consistently seen as a priority for residents.

Levels of car use are amongst the highest of the Core Cities and use of public transport in the city is comparatively low, although levels of walking and cycling compare well and are growing. Over 60% of residents now think that transport in the city is a serious or very serious problem. The city's reliance on cars also contributes to Cardiff's carbon emissions being high compared to many other British cities, with some city centre wards particularly vulnerable to high levels of air pollution.

Carbon emissions per person in Cardiff have fallen in the last decade and are lower than both the UK and Wales averages

Well-being objective 3.1:

Cardiff has more and better paid jobs

1 What do we want to achieve?

The Council will work with partners in the public and private sectors to create jobs and deliver economic growth in a way that benefits all our communities. To achieve this we will create an environment which supports the development of new business, the growth and sustainability of existing businesses, and attracts continued investment. Doing this will increase the number and quality of the jobs available for people in the city and across the city-region.

The high-quality portfolio of business premises delivered in the city centre has already secured the new BBC HQ in Central Square, bringing high quality jobs into the city centre. The Council will continue to deliver projects to help attract employment in high-value sectors such as the creative industries and financial and business services. As we recognise the importance of ensuring local people benefit from the city's success, we will seek maximum social value from our contracts and investment by

creating opportunities for apprenticeships, work placements and employment, with a focus on reducing long-term economic inactivity.

We also have an aspiration for Cardiff to become a Living Wage city by encouraging suppliers, contractors and providers to ensure they pay decent wages for their staff and advocating for the Living Wage across the wider business community.

Well-being objective 3.2: Cardiff has a high-quality city environment where population growth and transport needs are managed sustainably

1 What do we want to achieve?

Delivering well-being for the city at a time of growth requires an approach that ensures development is carried out in a sustainable, resilient and inclusive manner. Creating an outstanding capital city, with an attractive vibrant city centre, liveable neighbourhoods, with high quality housing, mixed use, great parks

and open spaces and excellent transport links, will be a priority. This will mean securing investment in Cardiff's transport infrastructure and services allowing people to travel around the city – and the city region – in a convenient and clean way. A new integrated transport interchange and gateway to the city, created at the heart

of the transport network, is a key priority. In addition, developing a transformative cycle integrated network is essential. We will also seek to reduce carbon emissions by investing in sustainable transport solutions and green energy, and supporting individuals and communities to achieve their recycling potential.

Well-being objective 3.3:

All young people in Cardiff make a successful transition into employment, education or training

1 What do we want to achieve?

In January 2016, the Council approved a new Youth Progression and Engagement Strategy, 'The Cardiff Commitment', signalling a clear commitment to work with schools and partners across the city to support all young people to secure positive opportunities to move on, post-statutory schooling at 16, to further and higher education, training and the world of work.

The Cardiff Commitment aims to improve outcomes for all young people, by connecting them to opportunities across the city to pursue their ambitions, improve their skills and ultimately to secure employment routes that empower them to thrive and prosper.

We recognise the importance of having a skilled and qualified workforce to strengthen economic growth in the city. Employers across the region report significant skills gaps in their existing workforces and all sectors forecast future skills demand in what is recognised as a rapidly changing workplace due to dynamic technological and demographic change.

The Cardiff Commitment is bringing together young people, education professionals, training providers and the public, private and voluntary sectors to join up supply and demand and embrace the opportunities being presented by the Regional Skills Partnership and City Deal.

We have seen significant improvement over the last five years in increasing the number of young people who leave school and make a positive transition to education, employment or training. We expect to see further improvements in 2016 when destination figures are published.

We aim to continue this positive trend, ensuring that our most vulnerable learners are offered support to meet their individual needs and secure appropriate learning and employment pathways.

Simultaneously, we want to see much greater opportunities and better outcomes for our most able pupils and learners, to allow them to compete with peers nationally and internationally.

Well-being objective 3.4:

Ensure high-quality and sustainable provision of culture, leisure and public spaces in the city

1 What do we want to achieve?

Delivering a successful capital city requires a focus on the city environment. We recognise the value of our green and blue spaces, public squares, streets and highways.

We will ensure that they are well-designed and maintained and are attractive, clean, safe, liveable, high quality spaces for people to access, use, and enjoy for recreation

and business. They will be developed by involving and collaborating with communities, seeking to maximise natural sustainability, as well as the provision of services that enhance the citizen's lived experience, well-being and prosperity.

In addition to this, we will ensure leisure services are provided in a way that makes them accessible to all to allow them to be healthy and well.

We will also help the Welsh Government meet its aspiration of having one million Welsh speakers by 2050 by working with partners to double the number of Welsh speakers in Cardiff.

Finally, we will invest in culture by working with partners to provide support which nurtures the creative and cultural industries.

Priority 4:

Working together to transform services

Sharply declining budgets, increased demand for services and a desire to achieve sustainability mean that the Council must continue to transform the way we deliver services. Over the past four years we have worked closely with residents and partners across the city to safeguard the long term future of many of the city's most highly valued services. Our programme of change will continue as we position ourselves for the future.

Working together to transform services

The Organisational Development Programme (ODP), established in May 2014, was designed to safeguard prioritised services. This change programme has already delivered for Cardiff. We are now delivering services in a way that helps ensure sustainability and continuity. New ways of working have been characterised by collaboration which has led to more efficient services, flexible enough to meet the needs of the people who want to use them.

There are a number of examples of how we have worked with partners to deliver services which are vital to the well-being of citizens. The Council has joined forces with Cardiff Metropolitan University to secure the future of sport in Cardiff, 10 community hubs have brought services closer to the community and this initiative has further plans for expansion, leisure centres are now on a sustainable footing, and our neighbourhood teams are working with communities to 'love where they live' by tackling litter in their local area.

Overall, the programme continues to make a positive contribution to the Council's improvement journey. In the first two years of the ODP, significant progress has been made towards achieving the ambitions set out in 2014, and this was recognised by the Wales Audit Office in its Corporate Assessment Follow On Report (February 2016), which concluded that "the Council has put in place better arrangements to support improvement and to address longstanding issues".

Council Performance

Improving the Council's financial resilience and service delivery performance have been key priorities, which is why the Corporate Plan set out challenging targets for the Council to achieve. Overall, the Council:

- Improved in 67.5% of performance indicators compared to 42.9% in 2014-15
- Maintained in 2.5% of performance indicators compared to 4.8% in 2014-15
- Declined in 30.0% of performance indicators compared to 52.4% in 2014-15

Cardiff's improvement of 67.5% across all statutory performance measures exceeds the all Wales improvement of 65%, but there are still areas where we can improve.

Cardiff Improvement

Wales Improvement

Satisfaction with the service

In the 2016 Ask Cardiff survey, 68.2% of respondents were satisfied with the services provided by the Council. This marks a slight decline from 2015 (69.3%) and a continuation of the downward trend since 2013 (88.4%). This, to some extent, is explained by a change in survey methodology however, we recognise that with decreasing budgets and growing demand pressures, it will be a challenge to maintain service satisfaction.

Overall how satisfied are you with the services the Council Provides?

Base: 3874. Excludes 'Don't Know' responses.

Satisfaction with services in Cardiff is however higher than national satisfaction levels for council services. The Local Government Association's October 2016

poll on satisfaction with local council services stood at 66%. This is one percentage point lower than Cardiff. More broadly, people in Cardiff feel engaged in

the shaping of the city with residents the second most likely in Wales to feel they can influence decisions. This reflects an ongoing commitment to engagement.

Well-being objective 4.1:

Communities and partners are involved in the redesign, development and delivery of local public services

1 What do we want to achieve?

Involving citizens in the design, delivery and development of services allows us to ensure we are meeting the needs of those we represent and develop lasting partnerships with communities. Budget and demand pressures mean that the Council and its public sector partners must work closely together to deliver services. This is particularly true for those services which, though non-statutory, are highly valued by the residents of Cardiff.

This means increased collaboration with other local authorities and public services,

including co-locating services within community facilities or Hubs, sharing assets or buildings, pooling budgets, or introducing multi-agency teams to work with residents and communities to provide more integrated services. It also means being more focused about when and where services are delivered. Within the organisation, a 'One Council' approach is enabling departments to work together, making services easier to access for residents - with a focus on increased use of digital channels where appropriate. As part of our new approach to locality

working we will hold local roadshows in each neighbourhood area. The aim will be to showcase what is already available in the locality, provide opportunities for existing services, businesses and partners to network, meet the community and promote their work.

The events will also provide an opportunity for residents, partners and elected members to come together to discuss priorities, identify issues and develop solutions alongside services.

Well-being objective 4.2:

Ensure effective governance arrangements and improved performance in key areas

1 What do we want to achieve?

The Council's latest performance against National Indicators used by all Local Authorities in Wales shows the progress that is being made in key areas. The Council was the third-most improved in Wales, with performance in social services and education being particularly critical to this achievement. This performance reflects the work that has been done since the findings of the Corporate Assessment

undertaken by the Wales Audit Office (WAO) in 2014. Since that time, the Council's approach to performance management has been developed while consulting with the WAO to ensure greater visibility of performance information, stronger challenge and support for underperformance along with a focus on specific areas.

The Council's approach to performance management will continue to develop in 2017-18, building on the steps already taken to ensure that the right level of performance information is available to the right groups at the right time to enable evidence-led decision making and continued improvement in key service areas.

Well-being objective 4.3:

Our services are transformed to make them more accessible, more flexible and more efficient

1 What do we want to achieve?

Increasing demand and continued financial pressure means that the Council must ensure resources are managed efficiently to ensure long term sustainability. Managing our property and rationalising our estate remains a priority and we are also focused on changing the way we deliver to maximise the resource available to us.

The current cost of operating the property estate is the second largest call on the Council's budget, after staff, at around £50m per annum, including planned maintenance. There is also a growing maintenance backlog in excess of £100m.

The Council will focus on reducing the cost of ownership of the operational property by rationalising the estate and by improving the quality of buildings that are retained. An important part of this agenda will involve improving co-operation around property with partners.

Making sure we deliver results effectively now and in the long term requires us to develop and implement alternative models for delivering services. Traditionally, the Council has been a direct provider of many services. Through the ODP, the Council is developing other approaches,

such as commissioning and working with community groups, reducing the cost of delivery while maintaining the quality of service. This approach aligns with feedback from previous consultation, which suggests that residents value the quality of services and not necessarily who is responsible for their delivery. Identifying how some services can effectively, and fairly, be commercialised and engaging people more meaningfully in designing services are also components of this agenda.

18	Communities, Housing & Customer Services	Partners and Others	New Approach to Locality and Neighbourhood Service Delivery At present the Council provides funding for a team of Neighbourhood Partnership Officers, and a separate fund for small scale projects led by community groups. This has enabled the Council and its partners to work more effectively together. The next step is to integrate services from the point of view of the citizen, so that main budgets are used in a fully joined up way. To achieve this, existing neighbourhood partnership arrangements will be changed to better consult local communities by identifying their priorities and utilise existing local networks which include Neighbourhood Police Teams, Community Hubs, community organisations and Tenant/Residents Groups. This proposal will create Locality Planning and Delivery Officers to better use council and partners time delivering targeted projects. 48	Education and Lifelong Learning		Rationalisation of costing base for Traded Services Over the past four financial years the Education Directorate has moved towards a net nil subsidy position for its three traded services: Music Services, the Storey Arms outdoor pursuits centre and, in 2017/18, the School Meals Service. However, in moving towards that position, there is now a requirement for a thorough review and realignment of the support costs attributable to those services, thus releasing budget elsewhere within the Directorate.	x	(6,419)	0	0	500	500	Detailed plan	Amber-Green	Amber-Green	Green	Education
49	Education and Lifelong Learning		Rationalisation of staff and costs centrally retained to provide services of a specialised nature In 2014/15 the Education Directorate delegated to schools the budget and responsibility for staff employed to support schools in their Special Education Needs provision for pupils. These savings will be achieved by passing onto schools the responsibility for the remaining resources used by these teams.	H	901	0	140	0	140	Detailed plan	Amber-Green	Amber-Green	Green	Education
50	Education and Lifelong Learning		Rationalisation of the costs of the Pupil Referral Unit The Council has a statutory duty to provide an appropriate quality education to children between the ages of 5 and 16. Where pupils of secondary age are unable to remain in a secondary school due to behavioural issues, the Council has a Pupil Referral Unit based on its Mynachdy site which can cater for pupils at Key Stage 4 (14 to 16) to provide an alternative education provision retaining these pupils in the education system. Although not a school the Pupil Referral Unit is externally inspected by Estyn using the same Inspection Framework as schools. This savings target would be achieved through the delegation of the Pupil Referral Unit facility by commissioning a school to manage the provision. This would enable the financial responsibility for this provision to be passed onto the Schools Delegated budget enabling the realisation of savings from centrally retained budgets. There would be no reduction to the funding level available for the PRU.	J	739	382	0	0	382	Detailed plan	Amber-Green	Red-Amber	Green	Education
51	Education and Lifelong Learning		Rationalisation of centrally held budgets for school related issues A reduction in centrally held budgets that fund school initiatives which will fall out in 2017/18. This will include savings identified nationally, through the revision of the All Wales Service Level Agreement with the Welsh Joint Education Committee for the provision of educational services to schools and the current energy efficiency invest to save scheme. 52	Education and Lifelong Learning		Reduction in Central budget for the Education Welfare Team In recent years much work has been done between schools and the Central Team to improve the attendance service, which has resulted in a significant improvement in pupil attendance across the city. This budget saving will be achieved through a reduction in the staffing capacity within the service.	H	849	100	0	0	100	Detailed plan	Amber-Green	Amber-Green	Green	Education

Financial Pressures Summary 2017/18

No.	Pressures Title	Value of Pressure 2017/18 £000	Risk Assessment	
			Residual	EIA
1	Winter Service Maintenance Operation By introducing an additional vehicle, salting routes can be optimised to reduce the time taken to complete the route and ensure that salt is applied at the optimum time prior to the formation of ice, thus providing a more efficient, effective and robust statutory service. It will also enable the vehicles to spread increased salt volumes that are at times required under extreme conditions but are currently unachievable due to the lengths of the routes and loads capacities of vehicles. There will be no additional costs for materials (salt) as it is proposed that the number of roads to be treated will remain unchanged.	50	Red-Amber	Green
2	Cycling Strategy Delivery - Develop essential 'soft' infrastructure to support the move to sustainable methods of transport To deliver a range of interventions to develop a city cycling culture through a pro-cycling enabling infrastructure both within the Council and external organisations, particularly workplaces, major retailers and educational establishments. This would include alignment of Council directorates and services with the cycling agenda and engagement with major employers and schools to provide support and deliver promotional activity.	61	Red-Amber	Green
3	Additional Planning Resource An additional post in recognition of an increase in volume and complexity of development proposals including major developments, many of which generate significant Section 106 contributions for the city.	40	Amber-Green	Green
4	Parking Strategy Schemes Funding to support parking strategy schemes in the city.	180	Amber-Green	Amber-Green
5	Intensive Cleansing Initiative To provide ongoing funding for this initiative which will provide a deep clean to city centre / district areas and outer wards working on a priority basis. This includes one Gully Team, two Cleansing Teams, litter pickers, extension of cleansing at weekends to 10pm as well as additional vehicle and waste costs.	350	Amber-Green	Amber-Green
TOTAL CITY OPERATIONS		681		
6	Providing budgeting and income maximisation services for the most vulnerable citizens Many of the most vulnerable citizens do not seek the help they need to deal with their finances, such as paying above average for their utilities because they do not have the confidence to switch supplier. They may fail to claim the benefits they need because they may not understand the online form or conditions required to remain on benefit. The Council already has a money advice team in central library hub. Additional funding would take services to where people need them the most. It would allow the team to have a presence in all the foodbank distribution centres across the city and in the new Hubs in Star, Llandaff North and Llanishen. The service would also work with Flying Start to actively seek out the most vulnerable citizens and ensure they receive the help they need.	144	Red	Red
7	Additional Senior Occupational Therapists - Package of Care reviews Funding is required for two Senior Occupational Therapists to undertake assessments of the significant number of double-handed packages of care which are currently awaiting review, in order to ensure that the appropriate level of domiciliary care is being provided to citizens to meet their identified needs. This will also provide the continuing capacity to deal with new Package of Care reviews - the demand for which is forecast to continue to grow.	90	Red-Amber	Red-Amber
8	Alley-Gating - Maintenance and Repair costs Alley-gating is a simple, but effective community safety measure, which helps tackle crime, anti-social behaviour and environmental problems associated with rear lanes. Since the programme started in 2008, 440 alley-gates have been installed. There are on-going revenue costs associated with maintenance and repair of gates and the existing revenue budget is inadequate. As the number of gates increases year-on-year, and the existing gating stock ages, additional revenue funding is required to address both the existing shortfall and the increased maintenance demand moving forward.	50	Red-Amber	Amber-Green
TOTAL COMMUNITIES, HOUSING & CUSTOMER SERVICES		284		
9	Recycling and Reuse Centre To create a reuse and recycling centre including support for less advantaged families and individuals to access household items and goods ranging from paint to settees, helping with start up accommodation and day to day up-cycled products.	218	Amber-Green	Amber-Green

10	Reduction in Single Revenue Grant (Environment) The grant support from Welsh Government for key recycling and sustainable frontline services will reduce by 6.7% in 2017/18. Additional funding is required to maintain essential services such as recycling, food and green waste collections.	468	Red	Amber-Green
11	Increased Recycling and Reuse To support the reuse and recycling of materials to meet commitments on the statutory recycling targets. This will include the support of the free reuse collection service and increased recycling activity.	295	Red	Green
TOTAL ECONOMIC DEVELOPMENT		981		
12	Child Friendly City Status - Unicef Child Rights Partner Programme In order to achieve the Corporate commitment to work towards attaining Child Friendly City status, the Council intends to become a Unicef Child Rights Partner for the three years, commencing April 2017. This programme is grounded in the UN Convention on the Rights of the Child. Through partnership with Unicef, the Council wants to demonstrate that placing children's rights at the heart of local authority policy and practice - adopting a child rights-based approach - is the most effective way of making rights a reality for all children. Annual costs incurred would be an annual fee of £25k to Unicef, co-ordinator's annual salary costs (£26k) and associated running costs of approximately £29k (including programme support, engagement and communications, branding and marketing, travel, administration etc).	80	Red-Amber	Green
TOTAL EDUCATION		80		
13	Business Support to Members A service review of Members' Business Support to consolidate service provision for Members' Enquiries, casework and general support services and Member Learning and Development has resulted in a requirement to increase staff resource in this area.	82	Red-Amber	Green
TOTAL GOVERNANCE & LEGAL SERVICES		82		
14	Support for Trainee Placement Programme Funding to support 20 trainee placements of six month duration plus a trainee co-ordinator post.	230	Amber-Green	Amber-Green
TOTAL RESOURCES		230		
15	First Point of Contact In line with the Social Services and Well-being Act, funding is required for four Social Workers to further enhance the First Point of Contact to manage demand and, where appropriate, engage people in their local communities rather than create a dependency on the care system to provide support. This will provide robust clinical risk assessment, passport safeguarding issues through to the team to undertake a review after four weeks to ensure that levels of commissioned care are appropriate and amended where necessary.	140	Red	Red-Amber
16	Capacity to undertake qualitative performance monitoring Funding is required to increase a part-time Performance Management Information Officer to full-time hours to strengthen reporting arrangements and for an additional full-time post to increase capacity in order to respond proactively to qualitative performance requirements introduced under the Social Services & Wellbeing Act. This additional capacity will strengthen the challenge element of current arrangements for the development of the Annual Council Reporting Framework Director's Report and enable the Directorate to provide a joined-up approach across Adults and Children's Services service user engagement in order to ensure that we are consistently able to meet the requirements of the Social Services & Wellbeing Act in an appropriate and meaningful way.	46	Red-Amber	Green
17	Rehabilitation Service for people registered with sight loss Funding is required for two additional Rehabilitation Officers to support people in learning new ways of living independently following sudden sight loss or living with decreasing levels of sight. This would reduce the current waiting list for needs assessment and rehabilitation. Care package costs will be higher when rehabilitation has not been offered for this population and therefore the increased capacity would also have a positive impact in controlling such costs.	81	Red	Red-Amber
18	Carers Assessment Workers Funding is required for two additional posts to support case managers in meeting our statutory duty to offer and complete carers' assessments for carers who have support needs. It will also enable Adult Services to provide an outreach service to support the Council's preventative agenda.	53	Red	Red-Amber
19	Connected Persons Assessments Funding is required for three Social Workers and an Administrator to meet the increased demand for Connected Persons Assessments, required to be undertaken where it is clear that a child/young person is unable or unlikely to remain living with their parent(s) due to significant concerns. A decision to intervene legally in the life of a child/young person and their family is significant and will have major consequences for all involved, particularly the child/young person. It is crucial that any decision to do so is based on clear, evidence based assessment and care planning which demonstrates the attempts that have been made to manage any risks and support the child/young person remaining within their family. A positive outcome can lead to Special Guardianship Order, Child Arrangement Order, Kinship or Relative Foster Care arrangements.	100	Red-Amber	Red-Amber

20	Child Sexual Exploitation (CSE) Prevention Team A temporary (three years) Multi Agency CSE Prevention Team to be established to continue to implement the CSE Strategy and address the need that has been evidenced.	171	Red	Red
21	Learning Disabilities Internal Day Care This proposal seeks to respond to the increasing demand for high quality, person-centred, outcome-led support for adults with learning disabilities with complex presentations of need, including complex and challenging behaviour, Autistic Spectrum Disorder, dementia, additional physical and sensory impairments and complex health needs. Demographics suggest that demand within the adult learning disabilities population will increase by 7%; in addition, presentations of complex need require complex service responses. It is proposed that capacity is increased within the internal Complex Needs Day Service in order to allow the service to respond to the anticipated increase in referrals coming via an effective transition process from Children's Social Services to Adult Social Services and for people with complex support needs who are within the scope of the Closer to Home project and returning to Cardiff.	76	Red-Amber	Red-Amber
22	Complaints & Access to Records Funding is required for three full-time posts to be located in the Central Information Governance Team to deal with all Adult & Children's Services redaction for open and closed cases in respect of Subject Access Requests and requests from the Police, Court and other Local Authorities, further ensuring timeliness of response and a consistent approach to redaction in line with Corporate requirements. Funding is also required to increase a post supporting the Complaints Officer from 14.5 hours to 37 hours per week which will provide the capacity to enable complaints processes to be merged across Adult's Services (which currently has no dedicated capacity) and Children's services.	76	Red	Green
23	Placement with Parents and Therapy costs This proposal seeks to enhance capacity within the Looked After Children's Service to create a sub team of social work and support staff specifically for children who are the subject of a Care Order and who are living at home subject to Placement with Parents Regulations. The remit would include a focus upon the revocation of Care Orders for those children who are successfully placed at home.	222	Red	Red-Amber
24	Increased translation and interpretation costs Costs in relation to translation and interpretation services increased by in excess of £100,000 across Social Services in 2015/16. It is anticipated that costs in this area will continue to grow due to increased demand for services which are required by legislation and regulation to be provided in the user's own language, and the additional requirements placed on the service by the Welsh Language Standards.	100	Red-Amber	Red-Amber
TOTAL SOCIAL SERVICES RE: DEMAND AND COST INCREASES		645		
25	Strategic Commissioning In order to meet current demand it is proposed that the Strategic Commissioning function be strengthened by the development of a new post that will undertake the strategic commissioning function across both Adults and Children's Services in conjunction with the Strategic Commissioning Team Manager. This individual will be substantially involved in the whole strategic commissioning process up to contact award which includes service redesign, engagement with stakeholders, service specification development and the tendering and evaluation process. This will enable the Directorate to ensure that commissioned services provide best value for money and comply with legislative requirements and meet local need in order to achieve desired outcomes for the most vulnerable people.	36	Red-Amber	Amber-Green
26	Increase capacity to manage growth of domiciliary, residential and nursing provision through the care contract process Due to demographic pressures and expected cost growth in commissioned services, the current contractual process for the arrangement, implementation and payment of residential and nursing placements and domiciliary care packages is to be improved. The development of the Brokerage service would enable implementation of new models of service procurement. There is an opportunity to proactively negotiate price within the market whilst sourcing high quality care by increasing resource in the Brokerage team. This would enable the Directorate to develop new functions to build supplier relationships, improve the identification of vacancies and capacity, negotiate prices and to robustly monitor the quality of care being delivered through these contractual arrangements.	105	Red	Amber-Green
27	Direct Payments To revise the Personal Assistant and agency rate for care provided in the community through directly purchased services (Direct Payments) rather than care arranged through the Council.	300	Red	Red-Amber
28	Social Work Capacity Due to a continued rise in caseloads, funding is required to enhance the Social Work capacity by 16 FTE which, alongside implementation of the Signs of Safety framework, will enable Social Workers to engage more effectively with children and families and should assist in limiting any increases in the number of looked after children entering the system because of lack of capacity.	419	Red	Red
29	Sustainability for the Multi Agency Safeguarding Hub (MASH) To sustain the MASH there is a requirement to build in costs associated with co-location with South Wales Police and further developments of safeguarding arrangements for Children and Adults at risk of significant harm.	186	Red	Red

30	Enhance Review Function Across Learning Disabilities and Mental Health Funding is required for three Social Workers to enhance the review function across Learning Disability (LD) and Community Mental Health Teams (CMHT) with regards annual reviews which ensure that people's outcomes are monitored and achieved in the most appropriate way. Where a change of need is identified and a review is necessary, there will be capacity to undertake this and assess whether identified outcomes can be met through community provision or whether commissioned services are required.	105	Red	Red-Amber

CHANGES FOR CARDIFF 2017/18

1. Executive Summary

This Executive Summary provides an overview of the Budget Consultation exercise. It is not a detailed summary of the full report, but an articulation of some of the key findings.

The consultation on these proposals ran from **10th November 2016** until **Friday 16th December 2016**.

Engagement activities included: Electronic questionnaire distribution via social media and email address lists, paper copy distribution across libraries and hubs, postal delivery to selected households across the city, face to face engagement with targeted groups and selected locations across the city.

A total of 2,520 returns were received to the electronic/postal surveys. Within this:

- Almost two-thirds (63.1%) agreed that schools should be protected from financial challenges faced by the rest of the Council.
- A fifth (19.2%) of respondents were aware that the Council is proposing to sell bedding plants & nurseery stock directly from the Bute Park Nursery although this is something that two-thirds (66.9%) were reportedly interested in for the future
- A third (32.0%) of respondents reported to use Hubs. Citizens Advice and Adult Education classes were amongst the additional services that people were most keen to see provided within Hubs.
- A quarter (23.9%) of respondents claimed to already participate in volunteering activities whilst 441 also provided contact details indicating an interest in learning more about potential volunteer opportunities. When asked “would you be more likely to volunteer if you knew that you were helping someone in your own local community?” 45.0% responded ‘yes’, 28.5% No and 26.5% don’t know.
- A third (32.0%) were interested in being involved with local ‘social action’ initiatives.
- More than four fifths (83.3%) of respondents believed the provision of an early stage dementia mobile monitoring device to be a good idea.
- The Council’s plans to deliver care on an area basis were supported by 78.0% of those responding.
- Four fifths (80.3%) agreed that working at a local level is the best way to approach local problems.
- Additionally almost 200 people were directly involved in face to face voting activity across the city which asked **“Where would you like to see more money spent in future?”** Participants ‘spent’ a total of £14,750 with the repair of potholes in roads across the city coming out as a clear priority.

2. Background

Public services are going through a period of rapid change. For the foreseeable future Councils, along with other public services, will have less money available to deliver local public services.

This comes at a time of economic uncertainty following the vote to leave the European Union, combined with a number of other pressures such as a rapidly growing population and changes in welfare reform meaning that demand for services is increasing year on year.

The City of Cardiff Council is facing significant and ongoing financial challenges with a budget gap of **£25 million** for 2017/18 and a potential shortfall of **£76 million** over the next three years. This comes on top of £200m which has already been found over the last 10 years.

The Council is legally required to set a balanced budget. To make the savings needed and to protect the quality of our public services, significant changes have been made, and will continue to be made, to the way things are done.

There is no easy way to bridge a **£25 million** budget gap. The City of Cardiff Council's Cabinet is looking at the best way to do this but as a cooperative Council we also seek the views of the public as to what they perceive as the most important issues for Cardiff.

In addition, the budget strategy includes assumptions in relation to a 3.7% increase in Council Tax. An increase of this amount equates to £39.23 per household in Council Tax Band D.

3. City-wide Public Consultation - Methodology

3.1 City Wide Survey

Consultation on the budget proposals took 3 forms:

- **City-wide Public consultation** on proposals which affect all citizens (The contents of this report)
- **Service-specific consultation** with identified service users/groups or organisations
- **Internal Council consultation** -these elements relate to internal changes within the Council including back office efficiencies, staff changes and process improvements.

The questionnaire contained 40 individual questions (excluding demographic information) and covered a range of topics including:

- Austerity
- Being more commercial
- Making better use of our buildings
- Involving and empowering communities
- Going digital
- Providing care and support services locally
- Increasing fees and charges

CHANGES FOR CARDIFF 2017/18

3.2 Engagement Mechanisms

The city-wide public consultation focused on the issues of general interest set out in the Changes for Cardiff document but also gave people an opportunity to give their views on any budget related issues. The consultation was undertaken via the following mechanisms:

- Questionnaire survey – available on-line and via 3,000 hard copies distributed through libraries, leisure centres and hubs
- 18 Community Engagement held across the city at locations including libraries and supermarkets as well as direct engagement with specific groups who are less frequently heard i.e. learning disability groups, BME women. (See Appendix 1)
- Easy read versions produced to assist those with learning disabilities or literacy issues to participate
- Consultation information and questionnaire made available online via the Council's dedicated budget pages www.cardiff.gov.uk/budget as well as on the websites www.cardiffdebate.co.uk and www.askcardiff.com
- Regular promotion throughout the consultation period through social media via @cardiffcouncil, @cardiffdebate and using #cdfbudget
- Face book 'Boosts' to increase the visibility of the promotion
- Direct mail of 3,000 to households across the city with a boosted sample amongst those areas with a traditionally lower response rate namely Cardiff East and City & Cardiff South
- Opportunity for people to email comments via budget@cardiff.gov.uk
- Consultation promoted via email to stakeholders including partner organisations, MPs and AMs, Neighbourhood Partnerships and community group leaders.
- Consultation promoted via email to members of the Cardiff Citizens' Panel and Library Card Holders (53,281 unique email addresses)
- Communicated to approximately 6,000 staff within the City of Cardiff Council via Your News

The consultation on these proposals began on **10th November 2016** and run until **midnight on Friday 16th December 2016**.

The final budget will be set at the meeting of Full Council on 23rd February 2017.

CHANGES FOR CARDIFF 2017/18

4. Key Findings

4.1 Austerity

At the same time as a rapid growth in demand for public services, the City of Cardiff Council is facing significant and ongoing financial challenges with a potential budget shortfall of **£76 million** over the next three years.

The Council has an overall budget of **£578 million**. There is however a significant portion of this money that has historically been protected from funding cuts. This means that the amount we have flexibility to make savings from is actually much smaller, totalling **£219 million**.

Delegated schools budgets, which account for over a third of the Council's overall budget, have not been subject to the same level of cuts as other Council services

Do you agree that schools should be protected from the financial challenges faced by the rest of the Council?

Base: 2490	No.	%
Yes	1572	63.1
No	619	24.9
Not sure	299	12.0

Amongst those respondents aged under thirty-five the proportion in agreement that schools should be protected from financial challenges rose to 70.5%. In comparison just 57.5% of respondents aged fifty five plus shared this view, a range of 13.0%.

Similarly more than two thirds (68.5%) of females were in agreement that schools should be protected compared to 59.3% of males – a range of 9.2%.

No discernible difference could be identified geographically across the city. See Appendix 2 for more info.

CHANGES FOR CARDIFF 2017/18

Please tell us why:

A total of 1,723 respondents provided additional comments to support their decision.

Those believing that schools should be protected from financial challenges typically described education as an 'essential service', paramount to the success of the next generation. It was felt by this group that cuts made here would impact not only on young people but on the wider future for us all.

Those respondents that felt that schools need to contribute to cuts like other services expressed schools as no more deserving than some other areas and that inefficiency and surplus needs to be tackled across all Council services.

Provided below are some examples of the comments received:

In favour of schools being protected	Opposed to schools being protected
<ul style="list-style-type: none"> • <i>"It is important to give future generations the best start in life, beginning with a first class education."</i> • <i>"If we produce a disenfranchised poorly educated youth, we seriously jeopardise the future."</i> • <i>"Children have their whole lives ahead of them - cuts now could affect their entire future."</i> • <i>"The education of the pupils is paramount. Any cuts will result in a drop in standards which will have a knock on effect in the future. It's short sighted to implement cuts in education."</i> • <i>"Education is one of the most precious civic goods, an investment in the future, and most importantly a major attractant to new Cardiff citizens -- it seems vital to retain the excellent schools Cardiff has"</i> • <i>"Children are the future, it's not beneficial to be selfish and only think about the present. With Brexit looming we need to invest in education for the sake of the future of the country."</i> • <i>"Our children are our genetic and financial future. Without high quality education we will be unable to compete in a future global market and ultimately afford to look after our elderly population."</i> • <i>"Great education and support will hopefully pay off in later years when well educated individuals pay back into the city as taxes etc."</i> • <i>"Children are the future and educating them properly ensures brighter futures and healthier lifestyles."</i> 	<ul style="list-style-type: none"> • <i>"Some schools could make savings by employing full-time staff rather than using agency & supply workers that are VERY expensive. Every school should be asked if they feel they could make savings."</i> • <i>"Other areas such as child protection are equally important. All must share the difficulties"</i> • <i>"There are other services in need also. In terms of equity and fairness, this does not seem fair."</i> • <i>"Budgets proposed by schools governing bodies should be independently examined to see if savings could be made for example by sharing resources with other schools."</i> • <i>"Schools should take their share of the cuts as well. Economic development and transport always lose out, which is not fair. It is no good spending millions on educating people, but then having no jobs for those educated people to go to."</i> • <i>"Ring-fencing budgets in some areas only makes other areas take a larger, unfair hit. Schools should be equally well equipped to be creative about ways to save or raise money."</i> • <i>"All Areas should seek efficiency improvements, including schools. Protecting Schools from efficiency improvements, yet again, suggests that they are 100% efficient, and that no improvements can or need to be made in this area, which is very unlikely to be true"</i> • <i>"There may be areas of schools spending that should be scrutinised as to whether they provide good value. Education is obviously one of the most vital areas of council spending but nothing should be sacrosanct."</i> • <i>"If the council can cut services to the most vulnerable then surely it should (at least) explore efficiencies within education services."</i>

CHANGES FOR CARDIFF 2017/18

4.2 Being More Commercial

The Council is changing how we deliver our services. We are making sure that front line services are as efficient as they can be, and represent good value for money. Now we want to look for opportunities to increase income and help offset the budget shortfall. This means the Council is looking at how we can attract more corporate sponsorship, buy resources at a lower cost, make better use of our assets, and adopt more commercial models which involve carrying out additional work for other public, third or private sector organisations to generate income.

In response to the recent Ask Cardiff Survey three quarters agreed that the City of Cardiff Council should increase commercial activities and that we should also look to carry out work for external clients to generate income.

As a result the City of Cardiff council makes the following proposals:

CHANGES FOR CARDIFF 2017/18

If you have responded 'No' please explain why

A total of 185 additional comments were received in reaction to this proposal. Reasons provided for opposition to the proposal fall into two main themes:-

Distraction to Drivers / Associated Dangers – could be a cause of distraction when concentration needed, it is dangerous, it is very dangerous and distracting seeing signs on roundabouts

Unsightly/Negative effect on environment – Spoils the look of the city, it would lower the tone and there are already too many adverts in daily life, Ugly.

A selection of those received include:

In general these are very poorly designed and diminish the quality of the built environment...look unsightly and increase possibility of collision between cyclists and pedestrians.

Roundabouts are a great opportunity to make a city beautiful and striking. Having lots of adverts makes the city look cheap. I think it is a bit dangerous too as quite distracting for drivers.

The Council should not infer approval or support of any commercial organisations.

Advertising should be for the benefit of the people of Cardiff rather than advertising places like McDonald's that are so unhealthy should be banned just like alcohol and tobacco

We are trying to make roads safer and every distraction means less time driving with due care and attention

The level of income gained this way is not likely to be high and the impact on the visual aspect of our neighbourhoods, for a small amount of money, does not justify it.

I think advertising on roundabouts would a dangerous safety risk. Advertising is designed to be distracting and people shouldn't be distracted while on roundabouts.

4.3 Making Better Use of Our Buildings

Hubs

Given the collective challenges faced across public and third sector organisations in Cardiff, it is essential that we work together more closely to join up our services. Over the last year we have expanded our successful Hub Programme working with our partners to offer an increased range of services in one place.

There are now 10 Hubs across the city with additional facilities currently planned in Llandaff North and Llanishen.

Do you use Hubs?

A third (32.0%) of respondents reported that they currently use Hubs.

Base: 2499	No.	%
Yes	800	32.0
No	1600	64.0
Not sure	99	4.0

Above average levels of use were identified from; those identifying as disabled (45.5%), respondents from a minority ethnic background (38.4%) and those without full time employment (35.1%).

Additional differences were evident geographically with more than twice as many respondents in Cardiff East reporting to use Hubs than those in Cardiff North (57.4% and 24.4% respectively). See Appendix 2 for more information.

CHANGES FOR CARDIFF 2017/18

How useful do you find Hubs?

Three quarters (75.3%) of respondents reported that they find Hubs either 'very' or 'fairly useful'.

Base: 2382/1101	No.	%	% minus 'not applicable'
Very useful	366	15.4	34.8

Not very useful	148	6.2	13.5
Not useful at all	121	5.1	11.2
Not applicable	1319	55.4	*

Amongst those aged under thirty-five the proportion reporting to find Hubs 'very' or 'fairly interesting' rose to 82.7% whilst 86.0% of respondents from Cardiff City and South found them useful compared to 69.7% in Cardiff West.

The resources available may differ from Hub to Hub depending upon the specific needs of a community. Typically, they may include library services, Housing and benefit advice and IT facilities. See Appendix 2 for more information.

CHANGES FOR CARDIFF 2017/18

Is there anything else you would like to see provided in Hubs?

Citizen's advice, adult learning courses and reminiscence sessions to support those affected by Dementia where the services that respondents were most in favour of seeing provided in Hubs.

A total of 154 respondents made additional suggestions as to the services and activities that they would like to see provided via the cities Hubs. Whilst the suggestions were far ranging, general themes included:

Drop in sessions/ Support/ information

Accesses to mental health and counselling services featured prominently within the suggestions made. Additionally some were keen to see health advice including nutrition provided through these locations as well information from South Wales Police regarding safety, security and crime concerns.

Youth Activities

Reading groups play session and services to support children and young people were suggested as appropriate activities to be held within the Hubs. It was suggested that the hosting of play sessions etc. would provide an excellent means of introducing young people to libraries and may ultimately impact positively on issues such as anti-social behaviour.

CHANGES FOR CARDIFF 2017/18

Community Groups

Comments also focused on the significance of the Hubs as a local community resource. It was considered vital that as wide a range of local community and charity groups as possible are provided with access to the Hubs to host their sessions. Furthermore it was stressed that the associated costs must not be prohibitive to local groups and that the Council should look to a 'not for profit' model for the benefit of the wider community. It was felt that a well-functioning community hub could ultimately provide a key role in tackling loneliness and creating a happier & healthier society.

School buildings

School buildings are central to many local communities but usage during evenings and weekends varies significantly.

Do you support the proposal to open up school buildings to the wider public, charging a fee level to cover actual usage costs, during these times for any of the following?

Respondents were most in favour of seeing school buildings being accessed by the wider public for adult learning classes, use of sporting facilities and as meeting spaces of community groups.

A total of 194 additional responses were received in relation to the use of school buildings. Many of those commenting specifically said that they were *'open minded'* about how schools could be used and believed that *'anything should be considered'*. Furthermore respondents felt that they should be used *'as much as possible'*, stating that, *"it makes sense to benefit from resources already in place"*.

Suggested additional uses for the facilities were wide ranging and included a variety of community group activities including art and drama groups. Other suggestions included rehearsal rooms, exhibition areas and even wedding venues. The only caveat to the use of the buildings was that the costs should not be prohibitive to small community groups.

CHANGES FOR CARDIFF 2017/18

4.4 Involving and empowering communities

The city is facing substantial challenges and we need local residents and communities to help us by taking on additional responsibility. This could include helping elderly neighbours, recycling more, establishing local support networks, or volunteering time to help support a community service or facility

Volunteering

We know that lots of people are already volunteering across Cardiff but we are keen to link potential volunteers up to opportunities.

Do you currently volunteer in Cardiff?

Base: 2494	No.	%
Yes	597	23.9
No	1897	76.1

There was little variation found geographically regarding those that volunteer currently. Demographically it was younger respondents i.e. those aged under thirty-five and those from a minority ethnic background that were least likely to report involvement in volunteer activities (20.3% & 21.5% respectively).

Interestingly whilst under 35's were amongst those least likely to volunteer currently, it was also this group that were most likely to report interest in being involved in 'social action' to help tackle issues in their local community (see 4.6 – Providing Care & Support Services Locally).

Perhaps unsurprisingly those most likely to currently participate as a volunteer were people without full time employment (29.1%). See Appendix 2 for more information.

CHANGES FOR CARDIFF 2017/18

If yes, please tell us how many hours (approximately) you volunteer a month?

Of those respondents indicating that they participate in volunteer activities a quarter (24.5%) contributed between 15 and 24 hours of their time per month.

Please indicate whether you currently volunteer or would be interested in volunteering in the following roles

Areas where people were most likely to volunteer already were 'working with children and young people' (6.5%), Litter picks (4.3%) and fundraising activities (3.6%).

Respondents expressed interests in future involvement with a variety of activities including, becoming a school governor (13.6%), volunteering in libraries (12.7%) and litter picks (11.5%).

Respondents named a large number of 'other' community based activities that they were involved with including community choirs and local charities.

Additionally a number of respondents provided reasons that they did not currently or were not interested in volunteering. These reasons included, lack of time, home/work commitments, age and the belief that this is something that the council or paid workers should be doing instead.

4.5 Going Digital

More than two thirds (68%) of your recently told us that you “support investment in IT (Information Technology) to increase opportunities for ‘self-service”

The City of Cardiff Council is already encouraging those who are able to use digital services to make payments or report issues online and help us save money. We are now planning to further use new technologies to provide improved care and support to some of our more vulnerable citizens

Telecare

Telecare helps people to stay safe in their home. It is designed for people with any form of dementia, a mobility or sensory impairment, or mental health or learning disabilities. A telecare system is made up of sensors around the home which send an alert to the emergency response service when a sensor is triggered - for example, if someone falls over or leaves the gas on.

The City of Cardiff Council provides two levels of service within Telecare consisting of either contacting your next of kin/emergency services or having a mobile response service. The mobile response service consists of a unique team of highly trained wardens who are able to come directly to the user’s aid 24 hours a day, anywhere in the City.

We will also be piloting an early stage dementia mobile monitoring device. The device will alert the service when a user leaves their home or other specified area at an unusual or unexpected time. It will also enable the user to be located by the 24/7 Services monitoring centre (Cardiff ARC). The Telecare service will then co-ordinate an appropriate response to physically help the user. The mobile device will promote independent and active living for people living with early stage dementia,

A total of 36 additional comments were provided by respondents. Reasons provided by the minority who were in opposition to the proposal centred around three issues:

- A lack of confidence in the technology
- Concerns regarding privacy
- Unwillingness to replace human interaction with technology

Specific comments included:

Technology can fail, it is important to have personal face to face contact with people with dementia, anyone suggesting otherwise clearly has no understanding of the complexities of the disease

Early stage dementia can place clients at risk so mobile monitoring may not meet the risk

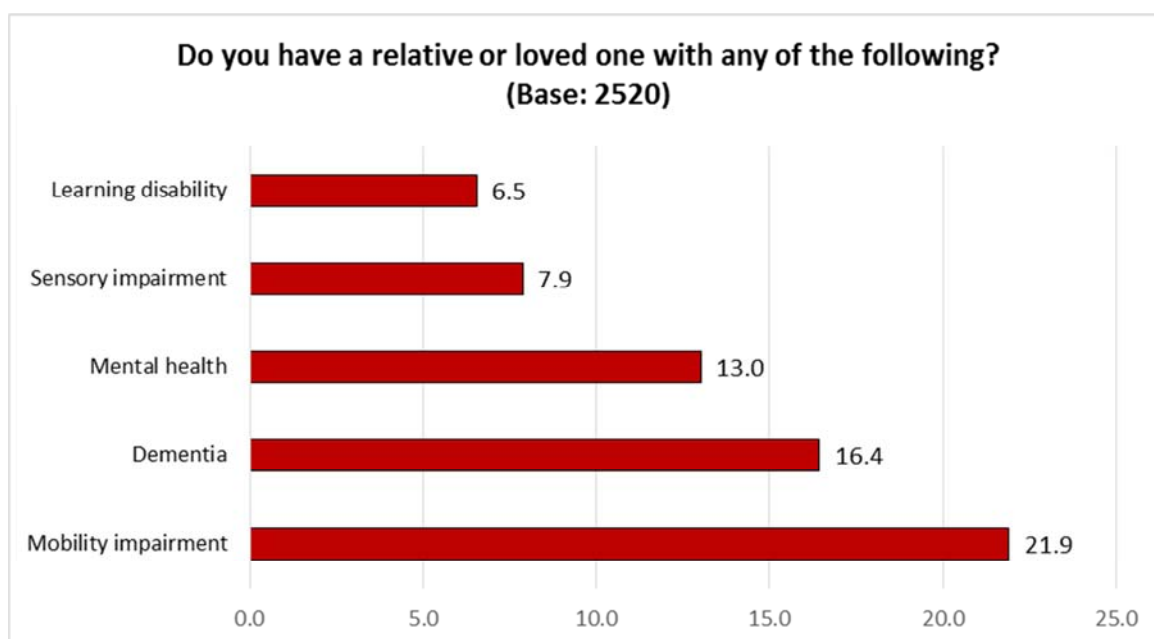

It should only enhance services and not replace interaction with people

CHANGES FOR CARDIFF 2017/18

Do you have a relative or loved one with any of the following?

Around a fifth (21.9%) of all respondents reported to have a relative or loved one with mobility issues whilst a further 16.4% had someone with Dementia.

Registration Services

We are currently planning to create an online system for booking birth and death registration appointments, and potentially marriage and civil partnership notice appointments. We will also look to offer the online ordering of certificates and accepting payments. This will be a significant step forward for the service which currently handles over 32,000 calls a year.

Is this something that you support?

Yes	2123	85.6
No	108	4.4
Not sure	250	10.1

CHANGES FOR CARDIFF 2017/18

If you have responded 'No' please explain why

A total of 83 comments were received in relation to why respondents opposed the proposal. The reasons given included:

- Concern regarding the loss of face to face interaction
- Fears in relation to security

Specific comments included:

The image shows three speech bubbles of different shapes and colors (dark red, light pink, and dark red) containing text. The first is a dark red rectangular bubble with a pointed top-right corner. The second is a light pink rounded rectangular bubble with a tail pointing to the left. The third is a dark red oval bubble with a tail pointing to the left.

Bereavement is an extremely distressing time and registering a death on line might not be easy for some people.

If you are registering a matter to do with identity this needs to be done in person with the appropriate checks. There is already a vast source of online fraud that is not adequately policed or sanctioned due to a lack of public funds and policing resource. This proposal is likely to add to this problem.

It is too personal it should be done on a one to one basis

CHANGES FOR CARDIFF 2017/18

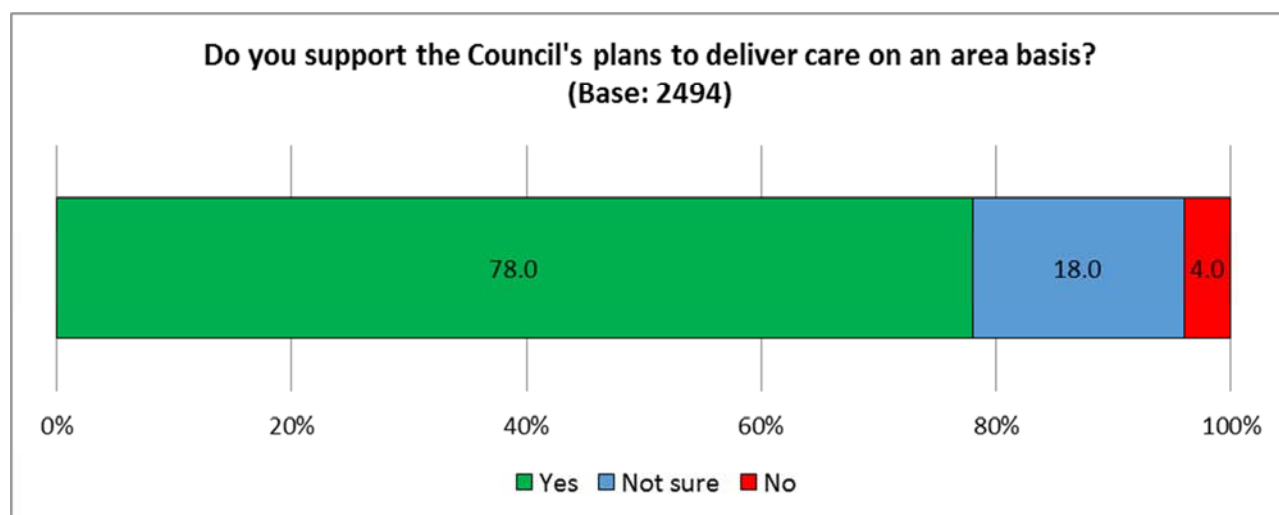

4.6 Providing Care and Support Services Locally

Care services are currently provided on individual contracts meaning that neighbourhoods can have a number of different providers delivering services, even on the same street. There is an opportunity to redesign services on an area basis in order to reduce transport time for care workers, reduce costs and make better use of services such as home care and Telecare.

Do you support the Council's plans to deliver care on an area basis?

More than three quarters (78/0%) of respondents were supportive of proposals to deliver care on an area basis.

Base: 2494	No.	%
Yes	1945	78.0
No	99	4.0
Not sure	450	18.0

Support for an area based approach was highest amongst those respondents who identified as disabled (83.3%) and those aged 55+ (83.1%). No significant differences were evident on an area basis. See Appendix 2 for more detail.

If you have responded 'No' please explain why

Seventy two additional comments were made by the minority of respondents that were opposed to the proposal. Several of the remarks made relating to the proposal asserted that care should be based solely on individual care needs and not subject to a 'postcode lottery'.

CHANGES FOR CARDIFF 2017/18

Examples of the specific comments made include:

Certain areas will get preferential treatment. Keeping services city wide stops to showing preferential treatment to your "favourite" areas

Council service should be equal wherever you live. It will be like a postcode lottery

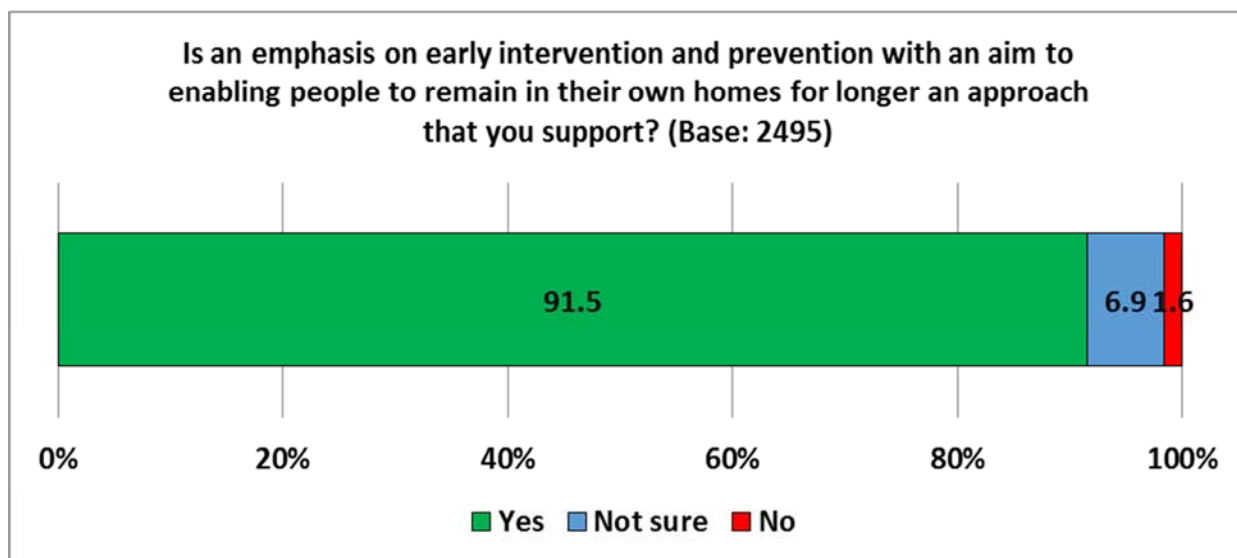

People deserve the best appropriate care not what is given because they live in a certain area.

We are working with partner organisations to focus resources on developing services based on early intervention and prevention in respect of Social Care. This means that we will work with individuals and families when difficulties are first identified rather than when they become critical. This will give better support to citizens whilst also being financially efficient.

Is an emphasis on early intervention and prevention with an aim to enabling people to remain in their own homes for longer an approach that you support?

4.7 Increasing Fees and Charges

Reductions in funding and increased demand for our services mean that difficult choices, including increased fees and charges, remain options for consideration. Recent results to the Ask Cardiff Survey showed more than half (53%) of respondents to support the Council in charging the public more for some services if it meant that they could be maintained or improved.

Bereavement and Registration Services

Ongoing investment is required to maintain and improve the registration of Births, Deaths and Marriages service. It is proposed that the charges for registration ceremonies be raised by 4-5%. Again a comparison with other local authorities has found that Cardiff still remains competitive for the Registration Services that it provides.

The City of Cardiff's award winning Bereavement Services are responsible for the undertaking of over 4,000 funerals per year as well as the upkeep and maintenance of 7 sites.

Income from crematoria and burials has been consistently reinvested to ensure this valuable service is as good as it can be. It is proposed that the price of a cremation be increased from £530 to £540 (an increase of 1.89%) and a burial from £600 to £630 (an increase of 5%). In reviewing these charges we have compared this price with other local authority providers and the service remains competitive.

Do you have any further comments regarding the City of Cardiff's Bereavement Service?

An additional 292 comments were provided from respondents relating to bereavement services. The majority of these comments raised concern over the affordability of funeral services particularly for lower income families. A number of suggestions were made to help mitigate costs including payment plans, insurance, better proportion of low cost options and means testing.

Employees within bereavement services were praised for their compassion and professionalism when dealing with families although there were several reports of deterioration in the grounds maintenance at some of the sites.

School Meals Provision

The City of Cardiff's School Meals Service supply meals to every primary school and the majority of secondary schools in Cardiff. The price of a primary school meal is £2.30 and a set meal in secondary school is £2.65. The Council will be increasing the cost by 10p to £2.40 and £2.75 respectively.

Do you have any further comments regarding the School Meals Service?

A total of 505 additional comments were made in relation to school meals. Of these, almost a quarter (23.8%) came from households currently using the School Meals Service.

The comments were also evenly distributed between those in support and those opposed to the proposal (216:209).

The comments made centred on concerns regarding costs and the value for money of the service, particularly for low income and vulnerable families. For many the continuation of the service was described as 'vital' as for many children this is often their main meal of the day. Respondents were however keen to see improvements in the quality and nutritional value of the meal provided particularly should a price increase go ahead. A selection of the comments include:

CHANGES FOR CARDIFF 2017/18

I have family members who have used the school meals service but have stopped due to the poor quality and low nutritional value. For children receiving free school meals this is often their main meal of the day and, as thus, is in need of improvement.

It is essential that youngsters get a meal at lunchtime therefore we must protect and safeguard this service and ensure it is value for money

They are not good value for money and do not provide sufficiently healthy food

For families like mine with several school age children it is already too expensive to use

If supermarkets can claim to be able to feed a family of 4 for £5.00 (including adults portions) then it does not seem right for the cost of 1 child meal to be nearly half of this.

Important to protect and nourish vulnerable children who may only have school lunch as a main daily meal.

It is vitally important that children are offered wholesome meals at school.

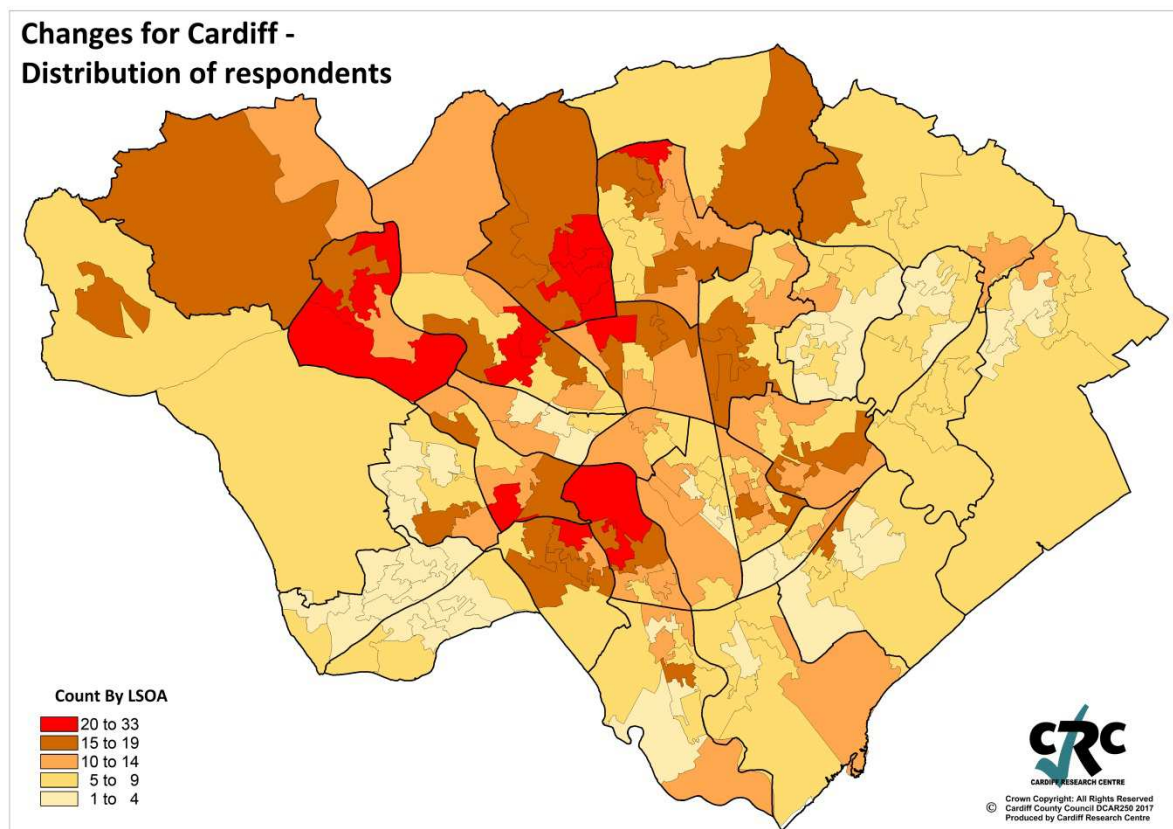

I would support the additional cost if the nutritional value was good.

Appendix 1 - Community Engagement Events

A series of 18 Community Engagement events were held across the city during the course of the consultation period (**Table 1**). These sessions involved either a) Promoting the consultation through involvement in pre-existing meetings or activities of target groups or b) visiting places with an existing high foot fall e.g. local supermarkets. The purpose of these activities was to:

- Provide an opportunity for the public to receive information regarding the current challenges being faced by the City of Cardiff Council.
- Provide information surrounding the proposals put forward for the 2016/17 budget.
- Promote the actual consultation document
- Provide an opportunity for any concerns regarding the impact of the proposed changes to be recorded.
- Encourage participation from those groups less frequently heard i.e. BME women, people with a learning disability, residents within particular geographies of the city e.g. Cardiff East.

CHANGES FOR CARDIFF 2017/18

Format of the Community Engagement Events:

The format of the community engagement events were adapted to the needs and requirements of the individual groups involved. Events held in supermarkets aimed to harness the high volume of footfall and provide a visual display to attract members of the public. Officers were on hand to provide information regarding the consultation, offer copies to take away, take questions and assist people to participate in the accompanying voting activity.

FAN groups expressed a preference that officers attend their groups primarily as participants whilst Healthy, Wealthy and Wise groups preferred a more formal presentation of the consultation exercise.

A simple voting exercise was used as a means of engagement across all of the public groups. This involved members of the public each being given £50, £20 and £10 replica 'notes' and asked to 'vote' for the areas where they would most like to see more money spent in the future. Options included:

- Children's Play
- Jobs/Apprenticeships
- Parks
- Street Cleansing
- Potholes
- Arts & Culture
- Healthy Living
- Cycling facilities

CHANGES FOR CARDIFF 2017/18

Results of public engagement voting activity

Almost 200 people were directly involved in face to face voting activity which asked ***“Where would you like to see more money spent in future?”***

Participants ‘spent’ a total of £14,750 with the repair of potholes in roads across the city coming out as a clear priority.

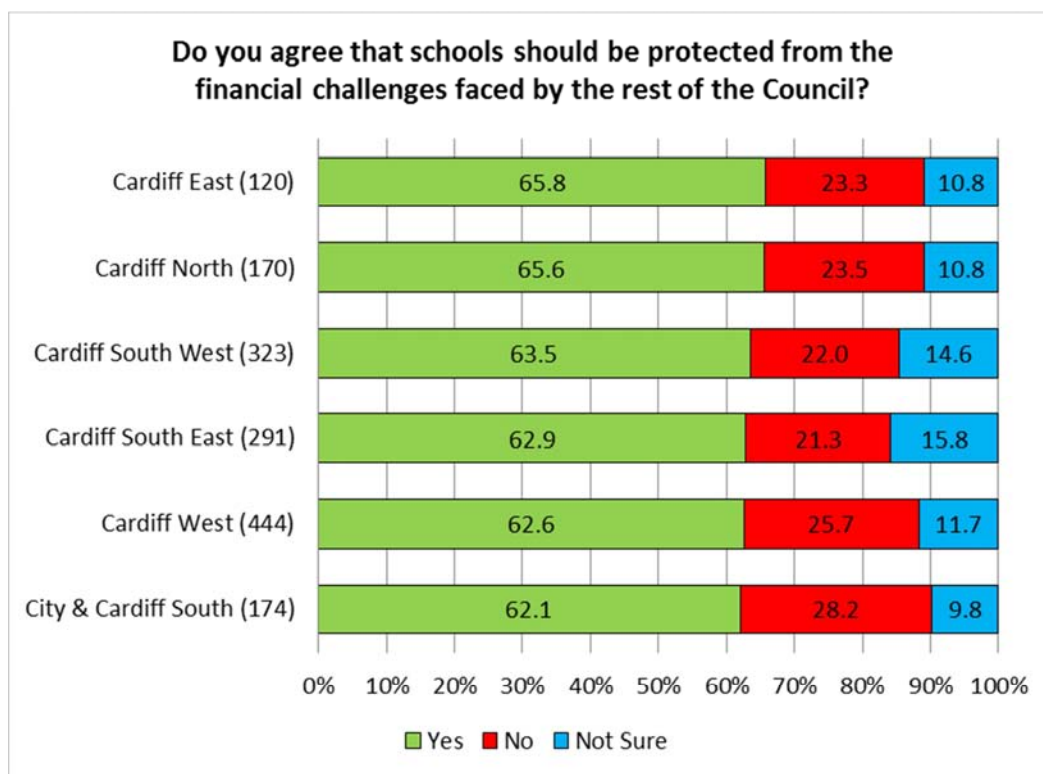

Other priorities to the public that were identified through the engagement included:

- Reduction in illegal/inconsiderate parking
- Improvements to city transport
- Prosecuting against fly tipping
- The impact of high rates on small businesses
- Flooding caused by blocked drains
- Provision of public toilets
- Protection of municipal bowling greens
