EMPLOYMENT SERVICES IN CARDIFF: POLICY REVIEW SCRUTINY

Purpose of the Report

1. To give Members background information to aid policy review scrutiny of Employment Services in Cardiff.

Background

2. Following a review of its anti-poverty schemes, the Welsh Government Communities First programme ended on 31 March 2018. In preparation for this, Cardiff Council undertook a review of Employment Services in Cardiff and carried out consultation on proposals for future services. These concluded that:
*'..there is a need to changes services in Cardiff to improve accessibility, link together the many existing services and ensure that help is available to everyone who needs it, across the city.'*¹

3. At their meeting on 16 November 2017, Cabinet agreed the following recommendations:
 - a) *'Agree the approach to future delivery of Employment Services as set out in the report.*
 - b) *'Delegate authority to the Director of Housing, Communities and Customer Service to take the necessary actions to implement the new Employability Service and transitional arrangements.*

¹ Point 13 of Report to Cabinet, *'Development of a city wide employability provision & a new approach to building resilient communities'*, 16 November 2017

- c) *Authorise officers to review the approach to Building Resilient Communities programme, including a public consultation exercise, to inform a proposed way forward for Cabinet consideration.*
4. The new Employment Service comprises services directly provided by the Council. Access to the service is via a Gateway, which includes phone, internet and face-to-face access, available through community hubs, libraries and other community buildings. The Employment Service includes:
- a) in-depth mentoring and support;
 - b) support for self-employed people and those starting a social enterprise;
 - c) job clubs;
 - d) assistance with CVs and job searches;
 - e) support to those in low-paid employment and on zero hour contracts;
 - f) effective employer engagement;
 - g) opportunities for volunteering;
 - h) work experience placements; and
 - i) the monitoring of services via a single database.
5. The new approach brings together various funding streams, including '*Communities for Work*², the '*Employability Grant*³, '*Legacy Funding*⁴ and the Council's own Into Work resources to create one service provided directly by Council employees. The Welsh Government also made available £4 million Community Facilities Programme funding, where third sector organisations could submit bids to Welsh Government for capital grant funding for facilities that contribute to the community.
6. The aim of developing a single database was to provide one view of an individual to measure the success of interventions and outcomes, as well as to identify gaps or duplication in service across the city.

² Communities for Work is European Support funding of £583,610 per annum until 2020

³ Employability Grant is Welsh Government funding, of between £650,000 - £750,000 for 2018/19

⁴ Legacy Funding is Welsh Government funding of £563,361 for 2018-19

7. The Employment Service works with Economic Development to link with national and local employers to identify future skills requirements and inform future training provision.
8. Critically, the new approach recognises that a proactive approach is required to engage those individuals who do not feel able to seek help. The new service links to job centres, community centres, social landlords, health and hostel services and foodbanks to identify clients in need of the service. It also targets those most in need, such as those affected by Universal Credit and other welfare reforms.

Q1 and Q2 Performance

9. The Corporate Quarter 2 performance report, taken to Cabinet on 15 November 2018, includes the following information:

- a) **The number of people receiving into work advice through the Gateway:**

- i. Quarter 1 10,331
- ii. Quarter 2 11,395

- b) **The number of clients that have been supported into employment, having received tailored support through the gateway:**

- i. Quarter 1 252
- ii. Quarter 2 197

- c) **The number of employers that have been assisted by the Council's employment support services:**

- i. Quarter 1 87
- ii. Quarter 2 87

10. The Corporate Quarter 2 performance report states that nearly 100 people attended a Pop up Business School held in the centre of Cardiff for two weeks, resulting in 62 new start-up businesses being created.

11. The Corporate Quarter 2 performance report also states that there is a projected £60,000 underspend against Employability Services as a result of savings against employee budgets and additional income.

Previous Scrutiny

12. This Committee undertook policy development scrutiny of the Employment Services proposals at their meeting on 14 September 2017 and pre-decision scrutiny of the subsequent report to Cabinet in November 2017. Overall, Members were supportive of the proactive approach adopted to the cessation of Communities First funding.

13. Following their meeting in September 2017, Members:

- a) Highlighted the need to ensure marketing of the new gateway approach provides reassurance to potential service users regarding its independence and helpfulness;
- b) Stressed the need to ensure systems are in place to engage potential service users who face difficulties accessing employment services;
- c) Requested a progress report on mapping ESOL provision and accessing additional funding.

14. A copy of the Chair's letter and the response received was attached at Appendix 1 of the report to Cabinet, with the information requested on ESOL provision included in Appendix 4 of the Cabinet report. The report to Cabinet also contained a separate section detailing the work that would take place to engage potential hard to reach services users.

15. Following pre-decision scrutiny of the report to Cabinet in November 2017, the Chair wrote to Councillor Thorne, Cabinet Member – Housing and Communities, stating the Committee's support of the recommendations to Cabinet. The Chair's letter also detailed Members' concerns that the respondents to the consultation on changes to Employment Services did not include more people seeking work or employment-related support and recommending that future consultation

exercises use different research methods to reach those most affected and enable their voices to be heard.

Way Forward

16. Councillor Lynda Thorne (Cabinet Member – Housing and Communities) will be invited to make a statement. Jane Thomas (Assistant Director, Communities and Housing) and Helen Evans (Operational Manager – Advice & Benefits) will attend to give a presentation and answer Members' questions on employment services in Cardiff.

Legal Implications

17. The Scrutiny Committee is empowered to enquire, consider, review and recommend but not to make policy decisions. As the recommendations in this report are to consider and review matters, there are no direct legal implications. However, legal implications may arise if and when the matters under review are implemented with or without any modifications. Any report with recommendations for decision that goes to Cabinet/Council will set out any legal implications arising from those recommendations. Financial Implications

18. The Scrutiny Committee is empowered to enquire, consider, review and recommend but not to make policy decisions. As the recommendations in this report are to consider and review matters, there are no direct financial implications at this stage in relation to any of the work programme. However, financial implications may arise if and when the matters under review are

implemented with or without any modifications. Any report with recommendations for decision that goes to Cabinet/Council will set out any financial implications arising from those recommendations.

RECOMMENDATION

The Committee is recommended to:

- i) Consider the information in this report and the information presented at the meeting;
- ii) Determine whether they would like to make any comments, observations or recommendations to the Cabinet on this matter; and
- iii) Decide the way forward for any future scrutiny of the issues discussed.

Economic Development White Paper: Pre-Decision Scrutiny

Purpose of Report

1. To provide Members of this Committee with background information ahead of their scrutiny of the Economic Development White Paper, which is scheduled in the Council's published Forward Plan¹ for Cabinet on 13 December 2018.

Background

2. At Council on 28 September 2017, Councillor Russell Goodway gave a commitment to bring forward a Green Paper on Economic Development:

*'the new Administration's programme, set out in the Capital Ambition document, commits to the publication of a Green Paper designed to build a consensus across all sectors and stakeholders on the future economic vision for the city. The Leader of the County Council has made it clear to me that he is eager to achieve the widest possible ownership of the County's resulting economic development agenda... I will seek the Lord Mayor's permission to schedule an appropriate discussion on the Green Paper at a future meeting of the County Council to ensure that all elected members have an opportunity to influence the future policy direction.'*²

3. Councillor Goodway launched the Green Paper for consultation at Council on 30th November 2017. The relevant extract from his statement is provided below:

¹ Available at: <http://cardiff.moderngov.co.uk/mgListPlanItems.aspx?PlanId=81&RP=151&LLL=0>

² Minutes of Full Council 28 September 2017

The County Administration is, today, publishing its promised Investment & Development Green Paper "*Building More and Better Jobs*" which will form the basis of an extensive consultation exercise designed to generate a refreshed economic development agenda for our nation's capital city and its hinterland. This honours the commitment set out in the Administration's recently published policy document *Capital Ambition*.

The publication marks the beginning of a three-month consultation period which will allow local residents, businesses and all those that depend on the Cardiff economy the opportunity help shape an ambitious agenda aimed at rebuilding the momentum of Wales' economic dynamo. The Green Paper is available online and can be accessed via the Council's website.

A series of meetings and events will be held over the next three months designed to allow the greatest possible engagement with those who want to influence and inform the development of a White Paper to be published next year. I will seek an opportunity for the Council to debate the Green Paper in January to ensure that every member has the opportunity to contribute to this important exercise.

It is clear that the Council has much to do to rebuild its relationship with the private sector which we will need to rely on to help deliver the ambitious agenda that is so critical to Cardiff and Wales in the post-Brexit era. The Council has done this successfully in the past, but it is dependent on providing confidence and clarity in the direction that our city is heading. This Green Paper will trigger the start of that process.

4. The Green Paper was debated at Full Council on 25 January 2018, as per the Council's procedure rules, set out at Point 21, Council Meeting Procedure Rules, Council Constitution (*pages 135-136*).
5. The '*Building More and Better Jobs*' Green Paper outlined the aims, objectives and intentions of the Administration with regard to economic development. It set out key issues and aspects regarding future investment and development in Cardiff and sought respondents' views on a series of questions related to these.
6. The Administration's intentions were set out in the Green Paper as:
 - Build a more Connected Capital
 - Build on our success as a Business Capital
 - Develop a more Inclusive Capital
 - Build a Smarter City.

7. The Green Paper set out the case for competitive cities and highlighted the need to consider a post-Brexit future and how Cardiff responds to this. The aims and objectives for a competitive city economy were listed as:

- | | |
|-----------------------------|-------------------------------------|
| ▲ Productivity | ▼ People out of work |
| ▲ Jobs | ▼ People paid less than living wage |
| ▲ Business Investment | ▼ NEETs |
| ▲ Investment in Communities | ▼ Economic leakage |
| ▲ Visitors | ▼ Congestion |
| ▲ Infrastructure Investment | ▼ Inequality |
| ▲ Earnings | |

8. The Green Paper also sought the views of respondents on a spatial strategy for the city, proposing the following focus for developments:

- City Centre –business/ office-led mixed use development
- Cardiff Bay –leisure–led infrastructure development
- North Cardiff –innovation/ knowledge led growth
- East Cardiff – industry/ manufacturing, distribution and trade related
- West Cardiff – sport- led infrastructure development.

9. The Green Paper asked respondents for their views on the following:

Q1 - What are the key issues for the Cardiff economy?

Q2 - What should be the key indicators of success for Cardiff?

Q3 - What should Cardiff's role be in the city-region?

Q4 - How can we continue to engage with Europe in a post-Brexit era?

Q5 - What can we do to improve connectivity?

Q6 - How can we create more and better jobs?

Q7 - How can everyone benefit from growth?

Q8 - How can we become a smarter city?

Q9 - What should Cardiff's spatial strategy be?

Q10 - What can we do to support business development in the city centre?

Q11 - What can we do to support leisure activities in the Bay?

Q12 - What can we do to develop Cardiff West as a sporting destination?

Q13 - What opportunities are there to support industry in Cardiff East?

Q14 - What opportunities are there to support innovation in North Cardiff?

Q15 - How should we use events to support the city's economy?

Q16 - How can we make sure everyone benefits from growth in Cardiff?

Economic Development White Paper

10. The Council's published Cabinet Forward Plan lists the Economic Development White Paper as scheduled for Cabinet on 13 December 2018. The descriptor for the item, attached at **Appendix A**, states that '*In 2017 the Council published 'More and Better Jobs', an Economic Strategy Green Paper. This reports back on the consultation process and presents the subsequent White Paper.*'

11. The report to Cabinet is marked as Amber in the Scrutiny consideration section; at 15.2, Part 4 Rules of Procedure, the Council's Constitution states that
 - (i) *Green = Decisions of a non-contentious, day to day nature, unlikely to be the subject of call-in.*
 - (ii) *Amber = Decisions of a more sensitive nature, which could be potentially contentious or not of a routine nature. These would generally flow through to the Cabinet for decision, without prior scrutiny, although a judgement will be made in each case regarding scrutiny consideration before decision, and the possibility of call-in.*
 - (iii) *Red = Decisions relating to high level functions primarily relating to policy formulation within the Policy and Budgetary Framework where the Cabinet would usually make a proposal to Council. For such decisions, the engagement of scrutiny is required before the Cabinet recommendation is made.*

12. Any papers for this item that become available prior to Committee will be circulated to Members as **Appendix D**.

13. In line with the Council's Constitution, Councillor Russell Goodway, (Cabinet Member – Investment & Development), Neil Hanratty (Director of Economic Development) and Ken Poole (Head of Economic Development) have been given ten days notification that they were required to attend Committee for this item.

Previous Scrutiny

14. In 2013, the Committee held a workshop to scrutinise '*Rebuilding Momentum: A Green Paper on the Future of Cardiff's Economy*'. The Committee's response is attached at **Appendix B**, for Members information.
15. In January 2018, the Committee scrutinised the '*Building More and Better Jobs*' Consultation Green Paper. The Chair's letter is attached at **Appendix C**, for Members information.

Way Forward

16. Councillor Russell Goodway (Cabinet Member – Investment & Development) may wish to make a statement. The following officers will be in attendance to answer Members' questions:
 - Neil Hanratty (Director of Economic Development)
 - Ken Poole (Head of Economic Development).

Legal Implications

17. The Scrutiny Committee is empowered to enquire, consider, review and recommend but not to make policy decisions. As the recommendations in this report are to consider and review matters there are no direct legal implications. However, legal implications may arise if and when the matters under review are implemented with or without any modifications. Any report with recommendations for decision that goes to Cabinet/Council will set out any legal implications arising from those recommendations. All decisions taken by or on behalf of the Council must (a) be within the legal powers of the Council; (b) comply with any procedural requirement imposed by law; (c) be within the powers of the body or person exercising powers on behalf of the Council; (d) be undertaken in accordance with the procedural requirements imposed by the Council e.g. Scrutiny Procedure Rules; (e) be fully and

properly informed; (f) be properly motivated; (g) be taken having regard to the Council's fiduciary duty to its taxpayers; and (h) be reasonable and proper in all the circumstances.

Financial Implications

18. The Scrutiny Committee is empowered to enquire, consider, review and recommend but not to make policy decisions. As the recommendations in this report are to consider and review matters there are no direct financial implications at this stage in relation to any of the work programme. However, financial implications may arise if and when the matters under review are implemented with or without any modifications. Any report with recommendations for decision that goes to Cabinet/Council will set out any financial implications arising from those recommendations.

Recommendation

19. The Committee is recommended:
 - a. to consider whether it wishes to pass on any comments, observations or recommendations to the Cabinet or other part of the Council;
 - b. to discuss whether it wishes to schedule any further scrutiny of these issues.

**ECONOMY AND CULTURE SCRUTINY COMMITTEE
RESPONSE TO THE REBUILDING MOMENTUM: A GREEN
PAPER ON THE FUTURE OF CARDIFF'S ECONOMY**

On the 18th March the Economy and Culture Scrutiny Committee held a workshop to discuss Cardiff Council's economic vision Green Paper 'Rebuilding Momentum'. The Committee were provided with information on *Cardiff: Economic Performance*, the *Core Area Masterplan*, and discussed the new approach that was to be adopted. The following responses were provided in line with the consultation structure.

Q1. What do you think the city's priorities for economic development should be?

In discussing the potential economic development priorities the Committee noted the analysis provided by the Head of Economic Development.

It is clear that periodic economic recession, the unpredictable rise of major competitors elsewhere, unexpected business closures, the challenges arising from technological change and globalisation highlight the importance of building Cardiff's economic resilience. The resilience of Cardiff's economic systems is affected by the interconnectedness of today's economy and the Committee are of the view that there is a need for the economic approach to foster a diverse range of sectors, a mix of businesses and jobs. This balanced approach will need to be cognisant of Welsh Government priorities relating to the Enterprise Zone.

A key area for development is that of building an entrepreneurial culture in Cardiff. The metrics provided to the Committee highlighted that this is a key area for development, and it will be important for the city to harness the creativity and talent of young people in all areas of the city and foster entrepreneurship in the classroom. In improving the values, norms and attitudes of the population of a region relating to business start-ups, the development and embracing of a culture of risk-taking without fear of failure will be important.

As noted previously the development of creative industries will need to be a key feature in the economic Vision. Whilst the percentage of the population employed in creative industries in Cardiff is high, Members would like to point out the need to further increase the size/number of jobs in the sector.

It is acknowledged that there will be significant population growth over the duration of the economic vision. Within the context of Cardiff's quality of life indices and the Local Development Plan process, improving connectivity poses a key risk for economic development going forward. Improvements to the city's transport infrastructure will be required, with particular attention needed to the issue of car use.

The presentation provided to Committee highlighted that Cardiff is well placed in terms of its population with higher level qualifications, but has challenges in terms of the quality of schools. If Cardiff is to improve economically in a balanced way, it is essential that this matter is addressed to secure a broad skilled workforce.

Members were also of the view that there is a need for the strategy to focus on job creation and the central part the Council plays in this agenda. Jobs play an important role in improving well being, social cohesion and in reducing poverty issues, and it is important that any approach considers the needs of all and fully considers the socio economic and geographical perspectives.

Q2. What do you think are the most significant challenges that Cardiff faces and what are the city's greatest opportunities?

In terms of strengths and weaknesses Members discussed the need to maximise the potential of Cardiff City Football Club's promotion to the Premiership. In addition Members discussed the potential of promoting Cardiff as a regional sporting leader in the south west of the UK. In discussing the success of Cardiff in attracting major events the Committee identified complacency as a potential challenge to overcome for the future. It was also considered important for the correct mix to be achieved, and for partners to maximise the added value (social and economic benefits) associated with major events.

Universities were also identified as a major strength in Cardiff and there is a need to maximise this strength by improving the working relationships with the Council to foster an entrepreneurial culture.

The Committee recognised the success of the developments within the city centre and highlighted as a significant challenge the need to reduce the income disparities between communities via job creation

Cardiff's role as a capital city and regional centre for economic development was highlighted as a significant opportunity, and the developing city region agenda will be important opportunity for the future. Members highlighted the need to recognise the growth of Bristol and to see Bristol's 2050 business vision as significant challenge. Relationships need to be developed to ensure that the development is achieved in both city regions.

The development of Cardiff Airport is a significant challenge facing Cardiff and its region. International connectivity is a key factor in improving Cardiff's competitiveness and it will be important for Cardiff to be mindful of the potential of developing routes to key economic hubs.

Q3. Moving forward, how do you think Cardiff should build on its recent success to position itself in the UK and internationally?

From an international perspective it is clear that the possible improvements at Cardiff Airport have the potential to link with the economic focus of the Enterprise Zone - for example focussing effort on building flight links to international financial centres.

The Committee noted that Cardiff is one of Europe's youngest capital cities. Building on the 'young and vibrant capital city' approach appears to be the correct approach going forward. The Committee was also of the view that there were other potential areas for development, including Cardiff's cultural distinctiveness and the positive aspects/distinctiveness of the devolution agenda, which could also be developed.

In discussing the marketing approach it is clear that there is a need to focus more of the resources internationally being mindful of the growth of the BRICs (Brazil, Russia, India and China) in terms of inward investment. It is essential that any approach is based on strong market intelligence and robust consultation with Cardiff businesses.

Q4. Do you agree with the key infrastructure priorities for the core area and are there other priorities the Council should consider?

The Committee approved the Cardiff Metro concept and highlighted the example of Liverpool as an example of a city with good connectivity by rail.

The Committee agreed about the need to develop a convention centre, although mixed views were expressed regarding the ideal location. It was noted that a city centre site would assist in bids for large events such as the

UEFA Champions League. However, it was noted that land ownership issues might complicate this.

Q5. Do you agree with the Council's strategy to create an Integrated Transport Hub?

The Committee were supportive of the Integrated Transport Hub and the need to progress. The Committee were mindful of the context of the developing LDP and highlighted the importance of radial transport across the city.

The Lloyd George Avenue transport proposals were discussed and supported, in particular the development of a double sided street at the heart of the public transport network. The long term need of heavy rail access into the Bay was also discussed.

Q6. Do you agree with the land use zoning and densities proposed in the master-plan and the location of key infrastructure?

The Committee were particularly pleased with the opening up of the city centre by creating new open spaces such as the canal areas. Members also highlighted the importance of community facilities/local centres in holding areas together.

Q7. How this can best be achieved including the scope of any new model that is put into place?

The importance of high quality build was raised as a key issue in delivering any model. In relation to the Lloyd George Avenue proposals lessons should be learned regarding securing quality build, and innovative methods should be employed to ensure that this happens.

In relation to the potential convention centre and the potential eastern bay link, Members discussed the need to master plan the transportation infrastructure alongside developments rather than undertaking developments and risking increased congestion.

Land ownership issues were also highlighted as a potential barrier to progress and perceived bidding issues.

The Committee were concerned that the communication around such developments needed to be handled sensitively, taking into consideration the need to avoid the perception that investment is directed to the city centre only.

Q8. How can the Council better engage with the private sector and what role should the private sector play in shaping Cardiff's economic future?

In discussing the engagement of the private sector Members discussed the Cardiff and Co as an example. There were mixed views regarding the respective benefits of an arms length company (that is common practice in other cities) or an in house approach where there may be clearer lines of responsibility, with for example the Economic Development Director leading any approach. Members also discussed the need for a co-operative approach where major private sector companies were involved.

The Committee, hope that these comments support the emerging development of the City's Economic Vision.
