Licensing Act 2003 - Representation in
respect of Premises Licence Applications

Details of person or body making representation	
Your Name:	
Your Address:	
Phone No:	

Details of premises representation is about	
Name of Premises:	Cardiff City Football Stadium
Address of premises:	Leckwith Road CF11 8AZ
Application No. (if known)	

Please tick one or more of the licensing objectives that your representation relates to:	
Prevention of crime and disorder	<input checked="" type="checkbox"/> yes
Public Safety	<input checked="" type="checkbox"/> yes
Prevention of public nuisance	<input checked="" type="checkbox"/> yes
Protection of children from harm	<input checked="" type="checkbox"/> yes

Please summarise your concern about this application:
<p>I believe that locating this fan zone directly next to a main road and within 50m of local residential properties and a childrens play area and public park is in direct conflict with all of the licensing objectives.</p> <p>I also do not believe that this should be able to happen with just an amendment to the no glass zones, I believe this is a variation of the premises to provide food/drink and entertainment in a specific zone/structure within the car park and as such represents a change in use of the car park. A section of the car park is changing from parking to an enclosed entertainment area.</p> <p>The associated planning application made little if any provision to manage the fan zone and as such it poses a risk not only to the gathering fans but also to local residence who will be swamped with fans arriving in the area early and causing a public nuisance and health and safety issue for pedestrians, motorists and any other unassociated person who may be in the area at the time.</p> <p>The operating hours have been stated as 10:00 and 20:00 to help prevent and reduce crime and disorder but</p>

it has not been made clear in any of the associated documents how this control will be achieved or what will actually be going on within the zone during this time. It is suggested that video screens and music/entertainment will be provided during these hours but I am not sure how that fits with the current license hours for outside provision.

Please give further details of why you believe this application will have an adverse effect on the licensing objectives

- Prevention of crime and disorder
 - Actively encouraging football supporters to gather very early prior to a match next to a public park with easy access to cheap alcohol from the supermarket within 500m is in my mind actively increasing the risk of crime and disorder.
 - Nothing appears to have been put in place to actively manage this new zone, who will be allowed in and how will this be policed and by whom?
 - How will the opposing fans be kept separate, are you going to end up with the Cardiff City fans trapped in a pen with the other side outside taunting them?
- Public Safety
 - Safety of any member of the public wanting to get to and use the adjacent park land, they will have to potentially navigate their way through football fans to even get into the park, which on a nice day I suspect will become a fan zone of its own with supporters using the local supermarket to buy cheap beer in bulk and sit and drink it in the park, enjoying whatever entertainment is provided within the zone as it will be clearly audible and probably visible from the park too. Directly adding to the litter within the park causing a health and safety issue for the general public and various sports teams that use the pitches.
 - Directly next to a main road, with no clear plans to control traffic. Current traffic restrictions are only in place post match. No plans have been made to close the road for the duration of the fan zone hours. This in itself would be unacceptable to local residence who would in effect be trapped every match day. Also adverse impact on local public transport as Cardiff Bus would also be potentially impacted based on current road closure zone if implemented. Incidentally no businesses including Cardiff Bus along Sloper Road where consulted on the potential impact of this to them.
 - No additional staffing was highlighted as required within the planning application due to apparently no increase in stadium capacity. The overall capacity will I believe potentially be increased as a number of individuals who were not able to access the stadium for the game will now be gathering in the fan zone as it is my understanding that it will be operating during the match and afterwards.
 - The location of the zone is putting the football fans at risk of injury from being next to the road, either by them gathering next to it waiting to get into the fan zone, them gathering next to the road because they don't particularly want to go into the zone but are chatting (shouting) with those within. Gathering of rival fans next to the road and fan zone with potential from trouble to spill over into the road and immediate residential area (within 30meters).
 - Drivers of any vehicles using the adjacent road are at risk due to the unpredictable nature of fans be they drunk or not. Large numbers of people have difficulty in walking on a pavement and out of harms way.
- Prevention of public nuisance
 - Actively encouraging large gathering of football fans, many of whom may choose to sit in the adjacent park to drink and smoke rather than be bound by the fan zone restrictions.
 - Increased littering within the stadium site, adjacent park and surrounding areas.
 - Increased noise disturbance in the local area, within Bartley Wilson Way we can already very clearly hear all events being held in and around the stadium. My neighbor sat in her garden to enjoy the recent Elton John concert for free, setting up entertainment and video screens so close to local residence is unacceptable.

- Protection of children
 - A public open childrens play area is within 50 meters of the proposed site, I do not believe that encouraging large groups of predominantly adult males, who are also potentially drunken to gather next to a childrens park is very sensible. The fans who gather may also be singing inappropriate football chants, along with the problem of litter within the park and open childrens play area.
 - On match days local children may be discouraged from going over to the park due to the gathering of football fans in the immediate area. If I was a parent I would not want my child subject to the football fans and associated chants and general poor behavior associated with drunken fans.

- General Note
 - I do not understand why it was deemed a suitable location to place this fan zone so close to a road (20 meters), public childrens playground/park (50 meters) and residential properties (30 meters). The stadium has plenty of space around it and to the rear which would I believe have been far more suitable and would have better contained the fans and associated problems away from the road, local residence and public spaces.
 - Given the current climate and awareness of the need to drastically reduce our use of plastics the associated increase in plastic waste due to the glass restrictions and increase in outside catering outlets is also unacceptable. I would expect the council in this age of climate emergency to be doing all it can to reduce this sort of waste, not approving schemes that will by there very nature drastically increase waste.
