RECORDING OF MEETING

This meeting will be recorded for subsequent broadcast on the Council's website. The whole of the meeting will be recorded, except where there are confidential or exempt items. A copy of the recording will also be retained in accordance with the Council's data retention policy.

If you make a representation to the meeting you will be deemed to have consented to being filmed and/or recorded.

If you have any queries regarding the recording of this meeting, please contact Committee Services on 02920 872020 or email [Democratic Services](#)

<i>Item</i>		<i>Approx Time</i>	<i>Max Time Allotted</i>
1	Apologies for Absence <i>To receive apologies for absence.</i>	4.30 pm	
2	Declarations of Interest <i>To receive declarations of interest (such declarations to be made in accordance with the Members Code of Conduct)</i>		
3	Minutes (Pages 7 - 30) <i>To approve as a correct record the minutes of the 22 July 2021.</i>		
4	Petitions <i>To receive petitions from Elected Members to Council.</i>	4.35 pm	
5	Public Questions <i>To receive previously notified questions from Members of the Public.</i>	4.40 pm	
6	Lord Mayor's Announcements <i>To receive the Lord Mayor's announcements including Recognitions and Awards.</i>	4.45 pm	
7	Cardiff Replacement Local Development Plan: Vision, Issues and Objectives & Integrated Appraisal Scoping Report (Pages 31 - 346) <i>Report of the Director Planning, Transport & Environment.</i>	4.50 pm	
8	Allocation of seats and appointments to committees (Pages 347 - 354) <i>Report of the Director of Governance and Legal Services and Monitoring Officer.</i>	5.20 pm	
9	Governance & Audit Independent Member Report (Pages 355 - 356) <i>Report of the Director of Governance and Legal Services and Monitoring Officer.</i>	5.30 pm	

10	<p>Substitution to cover Family Absence (Pages 357 - 360)</p> <p><i>Report of the Head of Democratic Services.</i></p>	5.40 pm	
11	<p>Cabinet Member Statements (Pages 361 - 394)</p> <p><i>To receive statements from the Leader and Cabinet Members</i></p>	5.50 pm	
12	<p>Notice of Motion</p> <p><i>This Council wishes to pay tribute to the extraordinary work and dedication during the Covid-19 pandemic of all care workers and unpaid carers delivering Social Care, which serves as such a lifeline to children and adults at risk.</i></p> <p><i>The Council notes with concern the severe staffing pressures now emerging within Social Care exacerbating long-standing demographic pressures, and compounded by long-delayed reform of the social care sector.</i></p> <p><i>The Council welcomes the Welsh Government's recent commitment of immediate additional funding of £40M to support Local Authorities' delivery of Social Care, and further welcomes the Welsh Government's commitment to paying the Real Living Wage to all Social Care workers during this Senedd term.</i></p> <p><i>However, this Council notes with alarm the recent announcement from the UK Government on Social Care which –</i></p> <ul style="list-style-type: none"> <i>• Introduces an unfair increase in National Insurance contributions which will disproportionately impact the poorest in society;</i> <i>• Provides no immediate new funding for the Social Care sector which has been decimated by over a decade of austerity; and</i> <i>• Proposes no plans to reform Social Care to address the immediate looming crisis, nor the long term structural issues faced.</i> <p><i>The Council further notes that the increase in NI contributions – the biggest tax increase for families in 50 years – will come shortly after a cut to Universal Credit that will impact 31,000 households in Cardiff.</i></p> <p><i>In response, this Council resolves –</i></p>	6.35 pm

City Council of the City & County of Cardiff
22 July 2021

1

THE COUNTY COUNCIL OF THE CITY & COUNTY OF CARDIFF

The County Council of the City & County of Cardiff met at County Hall, Cardiff on 22 July 2021 to transact the business set out in the Council summons dated Friday, 16 July 2021.

Present: County Councillor McKerlich (Lord Mayor)

County Councillors Ahmed, Asghar Ali, Dilwar Ali, Berman, Bowen-Thomson, Bradbury, Bridgeman, Burke-Davies, Cowan, Cunnah, De'Ath, Derbyshire, Driscoll, Ebrahim, Elsmore, Ford, Goddard, Goodway, Gordon, Henshaw, Gavin Hill-John, Philippa Hill-John, Hinchey, Hopkins, Howells, Hudson, Jacobsen, Jenkins, Jones-Pritchard, K Jones, Owen Jones, Joyce, Kelloway, Lancaster, Lay, Lent, Lister, Mackie, McEvoy, McGarry, Melbourne, Merry, Michael, Molik, Naughton, Owen, Parkhill, Jackie Parry, Keith Parry, Patel, Dianne Rees, Mia Rees, Robson, Sandrey, Sattar, Simmons, Singh, Stubbs, Taylor, Huw Thomas, Lynda Thorne, Walker, Weaver, Wild, Williams, Wong and Wood

39 : APOLOGIES FOR ABSENCE

Apologies were received from Councillors: Bowden, Boyle, Carter, Gibson, Linda Morgan, Phillips and Graham Thomas

40 : DECLARATIONS OF INTEREST

The following Declarations of Interest were received in accordance with the Members' Code of Conduct:

Councillor	Item	Interest
Cllr Henshaw	7	Personal Interest – Family Member employed by Cardiff Council
Cllr Hopkins	7	Personal Interest – Member of Better Leisure Ltd
Cllr Naughton	7	Personal Interest – Member of Better Leisure Ltd
Cllr Naughton	7	Personal Interest– Family Member employed by the Council
Cllr Williams	7	Personal Interest – Family Members employed by Cardiff Council.

41 : MINUTES

The minutes of the 24 May 2021 were approved and signed as a correct record.

This document is available in Welsh / Mae'r ddogfen hon ar gael yn Gymraeg

42 : PETITIONS

A petition containing 40 signatures was received from Councillor Ashley Wood calling on the Council to introduce and enforce 'double yellow line' parking restrictions along the access road to Maelog Place to prevent blocking access by inconsiderate parking.

43 : PUBLIC QUESTIONS

Mr Peter Hudson asked the following question:

With reference to Welsh Government's proposed ban on pavement parking. Whilst it is right that pedestrians should have free access to the pavement especially with pushchairs & wheelchairs, what is the council's response with regards to streets such as Crystal Avenue, residents of which have no choice but to park on pavements to allow access to residents, emergency services, and utility vehicles?

Reply – Cllr Wild

As you may be aware, the report of the Welsh Government's Welsh Pavement Parking Task Force Group was published in October last year. The Task Force's recommendations were accepted by the Welsh Government, including proposals to give councils additional civil enforcement powers to fine problem parkers, target hot spots and vary their approaches depending on local circumstances. We would obviously take a common-sense approach to situations like the one you have described.

Supplementary Question – Mr Peter Hudson

Will residents in narrow streets such as Crystal Avenue, Hampton Grove and Heathwood Road be consulted on this proposal to give assurance that residents won't be compromised for parking in the narrow streets?

Reply – Cllr Wild

As you know the Council is morally and duty bound to consult with people when we make changes that impact their lives so we always do and I'm sure we will in this instance as well.

44 : LORD MAYOR'S ANNOUNCEMENTS

A teacher from Willows High School has been honoured with a Silver Award in The Pearson National Teaching Award for Outstanding New Teacher of the Year.

Selected from thousands of nominations from across the UK, Joe Gill received the accolade for his outstanding commitment to changing the lives of the children he works with every day.

Joe's excellent work has enabled vulnerable pupils to continue learning despite the pandemic. He has also created and led an integration programme so that children

This document is available in Welsh / Mae'r ddogfen hon ar gael yn Gymraeg

with little or no English, many of whom having experienced trauma in their own countries, can be supported before entering mainstream education.

Since joining the school in September 2020, Joe has brought learning to life and brings in tools such as construction equipment and gardening utensils in a bid to keep pupils engaged. He also uses his break and lunch times to encourage pupils to play sport, purposefully encouraging different ethnic backgrounds to interact and collaborate.

Joseph has now been shortlisted to win one of just 15 Gold Awards later in the year, in a programme which will be broadcast on the BBC and celebrates the exceptional school staff who have worked wonders during an incredibly challenging time for educators across the country.

The Lord Mayor hosted an inauguration event on 28th June at Cardiff Castle for Professor Keshav Singhal, MBE, FLSW as the new Honorary Consul of the Republic of Poland to Wales. The Lord Mayor also welcomed His Excellency Arkady Józef Rzegocki, Ambassador of the Republic of Poland to the UK at the event which culminated in the Ambassadorial party laying wreaths at the Polish War Memorial, City Hall.

The Lord Mayor attended the opening of the 'Dear Mum' garden at Western Cemetery, Ely on Wednesday 14th July. The new memorial garden is a unique community asset which will provide a therapeutic support service for bereaved families. It is the first of its kind in the UK.

Congratulations to the Leader, Cllr Huw Thomas and his wife Charlie on the birth of their second child. Baby Bethan was born on Monday 12th July weighing in at a healthy 8lb 10oz.

45 : BUDGET STRATEGY

The Budget Strategy Report was presented to Council to provide an update in relation to the Medium Term Financial Plan; to consolidate and update the financial strategy of the Council in readiness for the preparation of the 2022/23 revenue and capital budgets; to outline the timetable that the budget process will follow in order to present the 2022/23 Budget to Council in Spring 2022; and to provide an update in relation to the Council's financial resilience.

The Council debated the report.

Councillor Gavin Hill-John moved a reference back

Councillor Parkhill seconded the reference back.

The Lord Mayor called for a vote on the reference back.

The vote on the reference back was LOST.

The vote on the recommendations in the report was CARRIED:

RESOLVED:

The Council AGREED that the Budget Timetable Framework set out in Appendix 2 be adopted, and that the work outlined is progressed with a view to informing budget preparation.

46 : ANNUAL WELLBEING PLAN

This report was the Council's annual performance report, providing an assessment of the progress made in the delivery of the administration's Capital Ambition priorities as expressed within the Corporate Plan 2020-23. The report also enabled the Council to discharge a number of statutory obligations, such as the publication of a statutory Annual Well-Being Report, as required by the Well-Being of Future Generations Act (Wales) 2015.

RESOLVED:

The Council AGREED to approve the Annual Wellbeing Report.

47 : LOCAL AUTHORITY SOCIAL SERVICES ANNUAL REPORT 2020/21

The purpose of this report was for Cabinet and Council to receive the 12th Annual Report of Local Authority Social Services (Appendix 1) as required under Part 8 of the Social Services and Well-Being (Wales) Act 2014 (SSWB Act).

RESOLVED:

The Council AGREED to approve the Local Authority's Social Services Annual Report for 2020/21.

48 : LEADER AND CABINET MEMBER STATEMENTS

1. [Leaders Statement – Councillor Huw Thomas](#)

The Leader responded to questions in relation to:

- COVID-19 Update
- Cardiff Public Services Board (PSB)
- Living Wage Buildings

2. [Deputy Leader & Cabinet Member for Education, Employment & Skills – Councillor Merry](#)

The Cabinet Member responded to questions in relation to:

- COVID-19 Update for Schools
- Pearson National Teaching Awards 2021 – Mr Joseph Gill, Willows High School
- Mandatory face masks in high schools.
- Summer of Smiles

3. [Cabinet Member for Strategic Planning & Transport – Councillor Wild](#)

The Cabinet Member responded to questions in relation to:

- Consultation on Active Travel Network Map
This document is available in Welsh / Mae'r ddogfen hon ar gael yn Gymraeg

- Low emission buses
 - Private car use
 - Cycleway 1.2 Update
4. [Cabinet Member for Investment & Development – Councillor Goodway](#)
The Cabinet Member responded to questions in relation to:
- Atlantic Wharf Regeneration & Indoor Arena
 - Indoor Arena Car Park
 - International Sports Village Velodrome
5. [Cabinet Member for Culture & Leisure – Councillor Bradbury](#)
The Cabinet Member responded to questions in relation to:
- COVID-19 Impact on Culture & Leisure
 - Coed Caerdydd Project
 - Outdoor Sports
6. [Cabinet Member for Finance, Modernisation & Performance – Councillor Weaver](#)
The Cabinet Member responded to questions in relation to:
- Mobile App
 - BOBI (Chatbot)
 - Website
7. [Cabinet Member for Housing & Communities – Councillor Thorne](#)
The Cabinet Member responded to questions in relation to:
- Rough Sleepers
 - First Homes Cardiff
 - New Wellbeing Support Service
 - Community Safety Partnership
8. [Cabinet Member for Clean Streets, Recycling & Environment – Councillor Michael](#)
The Cabinet Member responded to questions in relation to:
- Cardiff Coastal Defence Scheme
9. [Cabinet Member for Children & Families – Councillor Hinchey](#)
The Cabinet Member responded to questions in relation to:
- Young People’s Mental Health & Emotional Wellbeing – Starting Well Partnership
10. [Cabinet Member for Social Care, Health & Wellbeing – Councillor Elsmore](#)
The Cabinet Member responded to questions in relation to:
- Independent Living Services – Pink Army

Pen Pal Scheme.

49 : NOTICE OF MOTION

The Lord Mayor advised that a Notice of Motion proposed by Councillor Cowan and seconded by Councillor Lancaster had been received for consideration. Two Amendments had been received from Propel and Liberal Democrat Groups.

The Lord Mayor invited Councillor Cowan to propose the motion as follows:

This document is available in Welsh / Mae'r ddogfen hon ar gael yn Gymraeg

This Council remains bitterly disappointed that waste problems continue throughout many wards on a regular basis. We are no further forward on finding a much promised and needed replacement site in Cardiff North for the much-missed Wedal Road and Waungron Road Household Recycling Centres.

This Council notes the principle that the Cabinet operates under collective responsibility, but feels that the Cabinet Member for Clean Streets, Recycling and Environment needs to be accountable for overseeing these regular and sustained failings.

Therefore, this Council has no confidence in the Cabinet.

Further, this Council calls upon the next Cabinet Member overseeing Waste Services to report back to full Council with a review and progress report in three months. They will need to update members on how the service has been turned around and is working effectively and efficiently for Cardiff residents.

The motion was seconded by Councillor Lancaster.

Amendment 1 – Propel

The Lord Mayor called Councillor McEvoy to move the first amendment as follows:

Add at the start of the motion add the following:

This Council remains bitterly disappointed that waste problems continue throughout many wards on a regular basis. We are no further forward on finding a much promised and needed replacement site in Cardiff North for the much-missed Wedal Road and Waungron Road Household Recycling Centres.

"We therefore call on the Cabinet to re-open the site at Waungron Road as a recycling centre."

The Amended Motion will read as follows:

This Council remains bitterly disappointed that waste problems continue throughout many wards on a regular basis. We are no further forward on finding a much promised and needed replacement site in Cardiff North for the much-missed Wedal Road and Waungron Road Household Recycling Centres.

"We therefore call on the Cabinet to re-open the site at Waungron Road as a recycling centre."

This Council notes the principle that the Cabinet operates under collective responsibility, but feels that the Cabinet Member for Clean Streets, Recycling and Environment needs to be accountable for overseeing these regular and sustained failings.

Therefore, this Council has no confidence in the Cabinet.

This document is available in Welsh / Mae'r ddogfen hon ar gael yn Gymraeg

Further, this Council calls upon the next Cabinet Member overseeing Waste Services to report back to full Council with a review and progress report in three months. They will need to update members on how the service has been turned around and is working effectively and efficiently for Cardiff residents.

The first amendment was formally seconded by Councillor Keith Parry.

Amendment 2 – Liberal Democrat

The Lord Mayor called on Councillor Taylor to move the Second Amendment as follows:

Insert new sentence at the beginning

This Council puts on record its thanks and appreciation to council staff for their contribution to the city's efforts to ensure that essential services continued to operate throughout the pandemic.

Insert new sentences after "...on a regular basis."

That since the new 4-day collection model was introduced in February this year there have been 9,430 missed collection reports of which 1,817 were recycling, 2,721 were food waste, 2,601 were residual household, 1,907 were garden waste, and 384 hygiene waste. This will not capture those residents who did not or were unable to raise a report.

Insert "Furthermore," at the start of the sentence "We are no further forward..."

The Amended Motion will read as follows

This Council puts on record its thanks and appreciation to council staff for their contribution to the city's efforts to ensure that essential services continued to operate throughout the pandemic.

This Council remains bitterly disappointed that waste problems continue throughout many wards on a regular basis. That since the new 4-day collection model was introduced in February this year there have been 9,430 missed collection reports of which 1,817 were recycling, 2,721 were food waste, 2,601 were residual household, 1,907 were garden waste, and 384 hygiene waste. This will not capture those residents who did not or were unable to raise a report. Furthermore, we are no further forward on finding a much promised and needed replacement site in Cardiff North for the much-missed Wedal Road and Waungron Road Household Recycling Centres.

This Council notes the principle that the Cabinet operates under collective responsibility, but feels that the Cabinet Member for Clean Streets, Recycling and Environment needs to be accountable for overseeing these regular and sustained failings.

Therefore, this Council has no confidence in the Cabinet.

Further, this Council calls upon the next Cabinet Member overseeing Waste Services to report back to full Council with a review and progress report in three months. They will need to update members on how the service has been turned around and is working effectively and efficiently for Cardiff residents.

The second amendment was formally seconded by Councillor Wood.

The Lord Mayor invited debate on the motion and the amendments.

The Lord Mayor invited Councillor Cowan to respond to the issues raised during the debate.

Councillor Cowan responded to the issues raised and confirmed that both Amendment One and Amendment Two had been accepted.

The Lord Mayor called for a vote on the Substantive Motion as Amended by Councillor Cowan.

The vote on the Substantive Motion was LOST.

50 : ORAL QUESTIONS

Question – Cllr Cowan

How many sites are currently looking to be disposed of by the Council, with a ward by ward breakdown?

Reply – Cllr Goodway

I can confirm that details of potential land and property disposals will be set out in the refreshed Corporate Property Strategy for 2021-26 and in the 2021/22 Annual Property Plan, which will be considered by Cabinet in the Autumn.

Supplementary Question – Cllr Cowan

Can you confirm if the Greenhill special school site and is earmarked for closure and what the site would be used for?

Reply – Cllr Goodway

I understand that the school services is looking for an alternative site for the school as of yet the schools service has not declared that the site is surplus to its requirements so no work is being done on any plans at this stage in respect of the future of the site.

Question – Cllr Berman

Do you agree with the views of the Royal Institute of British Architects (RIBA) which were recently reported in the media that in view of the carbon emissions involved, including from embodied carbon, we should be seeking to reduce the extent to which we demolish and rebuild buildings and should give greater consideration instead to retrofitting and refurbishing buildings as part of our commitment to tackle climate change?

Reply – Cllr Huw Thomas

The Council would agree with the basic premise of the RIBA views and continues to rollout retrofitting and refurbishment programmes both in its own operational estate and for mixed tenure housing in the city.

Our work on estate rationalisation also looks closely at extending the life of existing buildings wherever possible.

The One Planet Cardiff strategy, which is due to be finalised in September, makes further commitments in this respect, especially with regard to energy efficiency retrofit.

Further to this, where new build is deemed to be necessary – and in cases where, due to building quality or structural issues, demolition is unavoidably the best course of action – we are taking considerable steps to ensure that we design and build to high energy efficiency and carbon responsive targets.

This includes endeavouring to re-use as much waste material from the demolition as possible. These ambitions will also be consolidated within the One Planet Cardiff Strategy.

Supplementary Question – Cllr Berman

This Council is currently looking at knocking down and rebuilding the Velodrome, knocking down and replacing the city's arena, knocking down and replacing the Red Dragon Centre and knocking down and rebuilding County Hall, list goes on. Is this approach really compatible with the Council having declared a climate emergency and isn't it time the Council therefore considered the overall carbon impact of its strategy and re-examined its approach to development in the city?

Reply – Cllr Huw Thomas

I'm surprised to hear that critique of from a member who during his time as Leader of the Council oversaw widespread demolition of buildings including council buildings in the city centre. When we take the Atlantic Wharf development for example the ambition is that development which includes the Red Dragon Centre and the Indoor Arena, is for that development to be carbon neutral. In terms of the velodrome you understand Councillor the centrality of moving the velodrome for the delivery of Cathays High School and I presume that you're not suggesting that you would oppose building the new Cathays High school I think you should make that clear.

Question – Cllr Keith Parry

When will the new Central bus station open?

Reply – Cllr Wild

As you will be aware, the Council is not responsible for the development of the new bus station in Cardiff, which is being taken forward by Transport for Wales who are giving 2023 as the anticipated date for the start of operations at the new bus station.

I visited Central Square recently and was encouraged by the progress being made both on the station, but also on the highways works on Wood Street, which will enable the bus station to operate efficiently and will make the whole area a better place to move around.

Supplementary Question – Cllr Keith Parry

Yet again last week when there was a rugby match at the Principality Stadium there was considerable disruption to city buses where services from the west of the city are transferred to Tudor Road and services from other parts of the city transferred to different bus stops. Will this disruption cease when the new bus station opens?

Reply – Cllr Wild

There are all sorts of work going on around the city centre to make it better for buses to come in, come out and move around the city centre. The timescales for the projects are 9-18 months or so around the whole of the city centre so the timing of that I think would probably work in time for when the Bus Station opens. I was down on Wood Street the other day to see the changes which are absolutely brilliant, how that whole area has changed how a lot of traffic has been removed and you can see really well how the buses, bikes and people walking around are going to get around in a much more efficient manner.

Question – Cllr Dilwar Ali

Can the Cabinet Member make a statement on 20MPH roll out and when Llandaff North inner streets will be included?

Reply – Cllr Wild

As you are aware, an area covering the Llandaff North, Whitchurch & Tongwynlais, Rhiwbina and Heath wards in Cardiff has been chosen as one of the Welsh Government pilot areas for its pre-legislative process to test the approach to implementing a default 20mph speed limit in Wales over the next 2 years.

Funding for the project has been allocated by Welsh Government and the design and TRO processes are well advanced.

Officers are currently working to a tight timescale imposed by Welsh Government to ensure that implementation is enabled for late summer this year. So all being well, all of the appropriate streets in Llandaff North will become 20mph later on this summer.

Question – Cllr Robson

Since 2017 Cardiff's Council Tax rise has been above inflation. This year the budget strategy suggests another inflation busting 4% Council tax rise and 4% rise each year until 2025/26. This shows a lack of consideration for Cardiff's residents, especially the low-paid and retired who are on fixed incomes and who have gone through tough financial times due to the pandemic. Will you commit to capping the next Council Tax rise to a maximum of 1% or lower?

Reply – Cllr Huw Thomas

As you will be aware, the majority of our budget is spent on running schools and social services. Without council tax income, many of the other important public services that we deliver could either be lost or face severe cuts.

Last summer, we also modelled a proposed 4% increase in council tax, but were able to bring that down to 3.5% by the time we proposed our budget for 2021/22 earlier this year.

It's also worth bearing in mind that the annual rate of consumer price inflation in the UK was 2.5% in June, with forecasters expecting this to rise to 3% or even 4% this year.

We will strive to do everything we can to keep any increase in council tax low in the next financial year, whilst recognising that we also need to maintain and invest in the services our citizens rely on as we plan for a better future.

Supplementary Question – Cllr Robson

Would you agree that council tax could follow inflation broadly and note that inflation at the moment is nowhere near before percent that has been talked about in the budget strategy, assumed modelling strategy which is for both the next budget and for the next three or four according to the report, do you think that is perhaps financially irresponsible?

Reply – Cllr Huw Thomas

I don't accept that that is financially irresponsible because there are services that I would say are vital that need to continue to be delivered. I'll reiterate the point made in the earlier debate that all these figures are for modelling purposes and the Administration will be bringing forward our Council tax proposals in early in 2022 but what I would say is if the member is seeking that inflation capped council tax rises then he needs to join with me in calling on the UK government to provide local authorities across the UK sufficient such that they are able to deliver these vital

services and not pass on the level of Council Tax to the residents that he's concerned about.

Question – Cllr Hopkins

The Leader's recent statement updating councillors on the current public health situation struck a note of caution and highlighted the need to remain vigilant in light of the increasing Covid-19 infection rates. What representations has the Leader made to the Welsh Government about policy concerning the pandemic in the period ahead and has the leader any insight into whether the UK Government consulted with the Welsh Government before announcing it would be removing restrictions in England?

Reply – Cllr Huw Thomas

As the First Minister himself said recently, the four nations of the UK are moving in "broadly" the same direction, whilst making clear that Covid restrictions will not be abandoned "wholesale" in Wales following the latest review.

You'll be aware that nearly all restrictions in England were lifted on Monday of this week, but I am not persuaded that this was the right moment to abandon restrictions at such scale, particularly with the rising rates of infection linked to the Delta variant. The First Minister has continued to engage regularly with Local Authority Leaders across Wales and earlier this month I met with Welsh Ministers to set out Cardiff's position.

Given the transmissibility of the Delta variant, I am pleased that the First Minister, as ever, acted in accordance with the latest scientific and Public Health advice, as well as the recommendations of the Cardiff and Vale of Glamorgan TTP function.

With Wales a global leader in the rapid rollout of vaccinations, as well as the ongoing need to ensure that increasing case rates do not translate into the NHS being overwhelmed, I very much welcome the considered approach that is being taken in Wales.

Supplementary Question – Cllr Hopkins

Over the course of the pandemic I think we've learned a collective effort and absolute clarity about expectations are essential and the decision to remove virtually all restrictions at the same time leaving it to the individual and for example retail and transport to decide whether to retain mask-wearing and social distancing, I think the Leader seems to agree with me that that looks like a recipe for confusion. What's been the particular effect of this on decision making in Cardiff when it's not always made clear in briefings from Downing Street that their announcements apply to England only?

Reply – Cllr Huw Thomas

I share both your assessment of the situation and the concern in the confusion that it causes and I've seen for myself personally in interactions I've had with residents and

in local businesses as some of that confusion creeping in through the mixed messaging particularly coming through the office of the Prime Minister, so those concerns are being escalated through the Cardiff and Vale Leadership board, I think the need for absolute clarity of communication through public Health Wales and the Welsh Government for our residents is made clear but recognising that we are living in a context where the news from Whitehall often has as much prevalence if not greater than what we have here in Cardiff.

Question – Cllr Keith Parry

When will finance be available to restore twenty-four hour bus services to outer suburbs?

Reply – Cllr Wild

Commercial decisions are a matter for the bus companies – not the Council. The overnight bus services were withdrawn some time before the Covid-19 pandemic began because they were not an economic proposition and any future reintroduction of these services will be a matter for bus operators to judge.

We urgently want to see more bus routes, operating more regular, and longer services. This is why we have brought forward a draft bus strategy, setting out the improvements and how we think they can be achieved. I would encourage all members to help us get the views of the public, especially bus users, when the consultation comes out in the near future.

Supplementary Question – Cllr Keith Parry

I think that's a disappointing reply because such bus services are unlikely to be viable on a financial basis particularly until the night-time economy of the city centre is restored and now you have a chicken and egg situation where how do workers get to the city centre for the night time economy if there's no buses. I'd also raised the point that I was told recently of young ladies in the city centre trying to get home to the outer suburbs and being quoted ridiculous prices by taxi drivers who were unwilling to do short journeys and journeys within the city but were looking for fares of a longer distance, you know that this is quite dangerous really there should be buses running around the clock within the city.

Reply – Cllr Wild

I commend the Councillor for lots of good discussions around bus services and I know your heart is absolutely in the right place on this and in a similar place to us actually. In terms of the frustration the bus industry has faced over the last two or three decades you know actually Cardiff buses are reasonably viable running profitable routes and it wouldn't take that much to get more services and I know that the bus industry looking to put more services on. As you know we just produced our draft bus strategy and I know you and other Members are really hoping you can help us get good feedback on that from bus users so we can look to see the

improvements that we all want to see, so once again I commend the Member for his work on this and we are doing what we can to try and improve bus services and I agree completely about the night-time economy and trying to get more people on the on buses its certainly something I would like to see back in this city and something we're going to try and influence with every lever we have.

Question – Cllr Mackie

Could the Cabinet Member update us on the progress of the new park in Cathays Park and the refurbishment of Gelligaer Street Park and Cogan Park?

Reply – Cllr Bradbury

The timeline for the Cathays Park project is being influenced by the Sustainable Drainage Scheme in the vicinity, which is being delivered by Cardiff University. This scheme is scheduled for completion in October this year.

The tender documents for the Council's scheme will be despatched next month, with the appointment of a contractor in October. I anticipate works on site commencing in November with completion in January next year.

Tender documents for the Gelligaer Park scheme will also be despatched next month. The contractor appointment will be made in September, with works commencing on site in October and completion in November.

The Cogan Gardens scheme is at the design stage and I anticipate consultation with local ward members on detailed proposals taking place next month.

Question – Cllr Driscoll

The proposed development on Waungron Road Bus Interchange will include 44 flats, 22 of which will be to house some residents with complex needs, some of who may have mental health issues as well as addictions. Were the local Health Board or Local Surgeries consulted as part of the consultation and, if not, why not?

Reply – Cllr Thorne

Due to technical issues, this question will receive a written response.

Question – Cllr Taylor

Is the administration content that its engagement processes are sufficiently robust and representative?

Reply – Cllr Weaver

The Cardiff Research Centre consistently delivers a high quality engagement and consultation function for the Council.

Demographic data, including equalities monitoring data and postcode data, is collected as standard as part of all of the Council's corporate consultation work and this data is actively reviewed throughout the consultation window to allow for a responsive engagement strategy.

The approach is rightly 'digital by default', which includes targeted advertisements, social media and promotion through the Citizen's Panel.

To ensure that residents' voices are heard, this is supplemented with face-to-face engagement methods, such as focus groups with key demographics and service users, which are recruited and designed to improve accessibility and representation.

The team is working to diversify the Citizen's Panel as a key consultation asset for the city and to improve representation from residents from ethnic minority backgrounds, young people and residents from the Southern Arc. The administration welcomes the support of all members in helping to achieve this.

Supplementary Question – Cllr Taylor

I would you agree with you that as much as we do we can always be doing more and you'll be aware that Blaenau Gwent Council in partnership with the lateral reform society ran Wales's first local authority run Citizens' Assembly, I was wondering whether you'd had any conversations with Blaenau Gwent following on from the motion from our Group this time last year?

Reply – Cllr Weaver

No I haven't I will look to see the outcome of the Citizens' Assembly absolutely.

Question – Cllr Lister

Many cities across the UK are installing "rainbow crossings" in their City Centres as a permanent feature of visibility for the LGBTQ+ community. In 2019, I wrote to ask the Council to consider installing a rainbow crossing in a prominent location here in Cardiff, to show solidarity with the community. Can you please provide an update on plans to install a rainbow crossing in Cardiff?

Reply – Cllr Wild

I am pleased to let you know that we have identified a high profile city centre location for a rainbow crossing.

Installation will be on a trial basis later this summer, and will be subject to some further feasibility checks and an Equality Impact Assessment.

Question – Cllr Jones-Pritchard

With the large underspend in parks expenditure this year and the drive to both reduce carbon and sequester it with tree planting, has the council considered

This document is available in Welsh / Mae'r ddogfen hon ar gael yn Gymraeg

planting a pilot “tiny forest”, perhaps through the proposed tree nursery in Fforest Farm, working with local community groups?

Tiny forests are the size of a tennis court, and are reported to grow 10 times faster, absorb 30 times more carbon per acre and cost just £25K. If they are being considered, have locations been proposed and, if not, will you look at the possibility of planting one, or more? I’m sure we can suggest some locations.

Reply – Cllr Bradbury

We have already created Wales’ first Tiny Forest here in Cardiff, which was established along the Bay Edge Walkway in February this year.

This was one of five Tiny Forest sites chosen in Wales that are funded by Welsh Government as part of the National Forest for Wales.

We worked in partnership with Keep Wales Tidy, Coed Cadw, Earthwatch and Welsh Government to plant 1,000 native woodland trees made up of 25 different species.

The benefits derived extend beyond those that you highlighted in your question and the Tiny Forest will also enhance biodiversity and provide educational opportunities, utilising an outdoor classroom created within the overall site footprint.

Supplementary Question – Cllr Jones-Pritchard

If it’s successful on the tiny forest can we see these perhaps moved out to other areas of the City in due course?

Reply – Cllr Bradbury

Yes it is something we are looking to do Councillor and I’ll be willing to work with you and other members who are interested in this concept to see if it is possible.

Question – Cllr De’Ath

Could you provide an update on the reopening of the renovated Roath Park House building in Roath Pleasure Gardens?

Reply – Cllr Bradbury

As local ward members will be aware, it is the Council’s intention for the building to operate as a café. Owing to the challenges of trading during the Covid-19 pandemic, I’m not able to provide a date for the opening of the property for this purpose. Officers are also exploring options for funding the internal fit-out following the completion of external works. We are looking to move this project forward as soon as possible and will continue to update you and your ward colleagues on progress.

Supplementary Question – Cllr De’Ath

This building is a really important part of Cardiff's heritage and a really important part of the story of Roath Park and when it does eventually open would you agree to some kind of official opening to mark the occasion and if possible could you find time in your diary to come along yourself and cut the ribbon?

Reply – Cllr Bradbury

Yes I'm very happy to do that and I'm always happy to open up a new facility which has been driven by local councillors like yourself and your ward colleagues.

Question – Cllr Dianne Rees

Cardiff is currently seeing some of the highest rates of Covid-19 infection in the country. Cathays South and Bute Park have the highest rates in Wales, with a seven day average of 465.9 per 100,000 followed by Cathays North of 275.7 per 100,000. What action is being taken to understand the causes of such high rates of infection and what action is being taken to prevent the spread of such high rates to other wards of the City?

Reply – Cllr Huw Thomas

The Council continues to work closely with Public Health Wales and other regional partners through the regional Test, Trace, Protect (TTP) arrangements covering Cardiff and the Vale of Glamorgan to understand and manage the spread of the virus.

As part of these arrangements, which includes the Consultant in Communicable Diseases, Executive Director of Public Health and Director of Public Protection, all cases in Cardiff and the Vale of Glamorgan are regularly reviewed.

To give you assurance, the review considers all variants of concern or variants under investigation, which have been sequenced for residents of the Cardiff and Vale region.

Whilst the emergence of the Delta Variant has led to an increase in case numbers across the UK, local and national measures remain in place and it is why I welcome the First Minister's decision at this time to retain a number of Covid restrictions, which have been abandoned in England.

Supplementary Question – Cllr Dianne Rees

Is there a specific target being held by Cardiff council and the immunisation programme to target those young people in the area and those who are hard to reach for vaccination because that would certainly assist the numbers coming down? I go on to say that on page 166 of the Annual Wellbeing report you refer to a remote scrutiny covid panel established at the end of the first lockdown to test time critical decisions and to explore the council's response to the pandemic, will there be an annual report on the work of the remote scrutiny panel with particular reference to the Council's response to the pandemic as it's over a year now?

Reply – Cllr Huw Thomas

There is no end of specific comms channels trying to target those hard to reach groups, you will appreciate that with the younger generation these are the people at the tail end of the vaccination process but clearly we know that there are programmes and measures for example the walk up to without booking clinics put in place to get people from all demographics and backgrounds to get vaccinated. The reference to the scrutiny committee referred to the special Scrutiny committee convened back in June/ July, consisting of the five chairs of scrutiny that met for a period of time at the end of the first lockdown to give a scrutiny oversight to decisions the cabinet was taking in an emergency setting, essentially those arrangements have now been superseded with a return to the standard standing scrutiny committees.

Question - Cllr Cunnah

Can the Cabinet Member outline the expected benefits of the Neighbourhood Renewal Scheme on Cowbridge Road East?

Reply – Cllr Thorne

Due to technical issues, this question will receive a written response.

Question – Cllr Hudson

Will Council consider kerbside sorting of waste to reduce the co-mingling problem that contributed to nearly a third of our recycling going to the incinerator?

Reply – Cllr Michael

The development of a new collection model for recycling is currently taking place to support improving recycling performance and to ensure that collections are effective and efficient.

This work includes reviewing the kerbside separation of metal & plastic containers, paper & card and glass to reduce contamination of co-mingled recycling and improve Cardiff's recycling performance.

Supplementary Question – Cllr Hudson

Does this mean at the kerbside then please?

Reply – Cllr Michael

The new recycling strategy will be unveiled in the autumn and I would suggest you wait until then and you will see it.

Question – Cllr Lister

Following the Council's recent investment in play areas across the City, including in Grange Gardens, what further plans are there for investment across Cardiff?

Reply – Cllr Bradbury

This administration is committed to investment in outdoor play facilities and has committed circa £2.63Million for the life of the Capital Programme up until 2025/26. This investment also contributes to our Child Friendly City agenda.

Within the programme, there are 28 provisional schemes city-wide. Our plans also involve the development of a Skate Park Strategy in consultation with user groups, with the ambition of creating destination sites in the city.

Within the £2.63Million, an allocation of £300k has been made available for investment in a Multi-Use Games Area at Llanrumney Hall and 3G facilities at Splott Park.

I was also delighted to see the positive response to the investment in the new play facility in Grange Gardens in your ward, which I am sure, will be enjoyed by current and future generations.

Supplementary Question – Cllr Lister

Thank you very much Councillor Bradbury for continuing to support myself and my colleagues when we raised issues around parks and I can honestly say the response that the new play area in Grange Gardens has been fantastic and we're looking forward to further investment. Linda, Abdul and myself have also raised queries about further improvements to Seven Oaks Park and the Mal play area, not to be greedy but could we please ensure that officers draw up plans for when funding does become available?

Reply – Cllr Bradbury

As I always say to all local Members we have to try to be equitable right across the city, I do understand issues particularly on the Mal but I will meet with you and your ward colleagues and with officers to see what can be done to try and achieve the ambition that you have to stated here in your question.

Question – Cllr Cowan

Going forward, will the Council put in place clauses which incur penalty charges if schemes of work are not delivered on time (unless there are extenuating circumstances)?

Reply – Cllr Weaver

The majority of works contracts are already let by the Council using standard Joint Contracts Tribunal (JCT) or New Engineering Contracts (NEC) contractual terms, which already allow for the provision of delayed damages.

This document is available in Welsh / Mae'r ddogfen hon ar gael yn Gymraeg

It should be noted that the industry is experiencing materials supply chain and resourcing issues, which are having a real impact on the delivery of works schemes in Cardiff and across the UK.

Supplementary Question – Cllr Cowan

Councillor Weaver unfortunately I didn't hear the first section of your answer so I apologise if I am repeating something you have already said I'm just seeking clarification that the council have in place contracts which would allow for these clauses to be put in place for any contract which the Council offers up to contractors to bid for?

Reply – Cllr Weaver

We do have them in place already in the majority of cases but I don't believe it is all cases and so I think that certainly whenever we look at renewing contracts there's always something we can review, but you know if there's a specific contract you have in mind if you want to get in touch I can look to see whether that clause was in place for that particular arrangement.

Question – Cllr Jacobsen

Schools across Cardiff have run engaging and exciting school holiday programmes for years, as part of the Welsh Government's School Holiday Enrichment Programme. Can the Deputy Leader advise us of the plans for this summer?

Reply – Cllr Merry

Complementing our 'Summer of Smiles' programme of activities for young people, Cardiff's multi-award winning School Holiday Enrichment Programme (SHEP), known as 'Food and Fun', continues to expand with 29 schools delivering the programme this summer.

This year, SHEP has been extended to include communities beyond the traditionally Welsh Government funded targeted areas.

This will be the sixth year of delivering the SHEP Food and Fun programme.

Since it was developed by the Cardiff SHEP Team in 2015, it was adopted by Welsh Government in 2016 and then rolled out across Wales in 2017. It has also been used as an example of best practice across the UK.

Partner organisations will be providing a range of enrichment activities in addition to each child being able to enjoy at least one hour of physical activity, a healthy breakfast and lunch, and nutrition and food sessions each day, all delivered in a fun, safe and familiar environment.

Supplementary Question – Cllr Jacobsen

Will be the Deputy Leader be visiting any schools in my ward during these plans?

Reply – Cllr Merry

I'd be delighted to and would you like to come with me?

Question – Cllr Driscoll

Due to the development by Redrow at Plasdwr which has caused the council some highways issues. One of our well used areas of parkland in Danescourt is being utilised as an overflow attenuation pond to stem the flow of storm water from Llantrisant Road. Our priority should absolutely be to protect property and life from flooding. However, will this mean the long term loss of amenity space for residents of Danescourt and Radyr who use this area for leisure, and if so how do the council propose to mitigate this loss or replace it for residents?

Reply – Cllr Michael

The Council is working collaboratively across Directorates and with developers to identify appropriate solutions to the impact of Sustainable Drainage (SuDS) legislation across the city.

A workable solution that will have a low impact on the parkland has been identified and I can confirm that it will not result in a long-term loss of the park.

The design of the proposed scheme will comprise of a dry area, which will only be wet when a flood or heavy rainfall occurs.

The proposed scheme will increase biodiversity in the park, as well as providing the drainage function. The drainage feature is to be located within an area of amenity grassland, with the existing trees and vegetation around it being retained.

I understand that officers from the Parks Service have sent you a detailed landscaping proposal and that you are due to meet on site tomorrow (Friday) with relevant officers.

Supplementary Question – Cllr Driscoll

I would just like to say this has caused quite some concern in the community, residents and Councillors would like to be informed with a bit more notice but as you know we have had a number of meetings with residents in the last week or so and I'm grateful to you and the Cabinet Member for Parks also for making officers available to attend another 2 hour meeting which was this morning actually, which was really appreciated by the residents. Do you agree we now need to do more to inform the wider community of these plans and give the community more information and some reassurances that this area will be improved for them?

Reply – Cllr Michael

Yes I do, SUD's is a new legislation and requires that when laying a path to mitigate the scheme, you could make all kinds of adjustments from wet areas to ponds in this case. It will allow some mitigation of water, I think one of the things is that it's difficult to explain it to some residents who see this work changing and fear for the worse. I think in this case this is a really good scheme, designed to take water off Llantrisant Road, it has to go before a SUD board for approval and I'm happy to meet you on site with residents and for Officers to carry on explaining the benefits of this kind of drainage.

Question – Cllr Ahmed

Many residents in my area, and in the whole of Cardiff, are in need of good quality, affordable housing. How is the Council progressing against its ambitious target to build 2,000 new Council homes?

Reply – Cllr Thorne

The Council's house building programme continues to deliver at pace and scale. To date, over 570 new council homes have been delivered through a range of delivery routes.

Our development programme has a pipeline of sites that will deliver over 2,500 new council homes in total and around 4,000 new homes, including affordable homes for sale to our local communities.

We are embracing innovative and modern methods of construction in order to speed up delivery and deliver the right homes in the right places, as well as moving to a low carbon standard.

Our programme represents the largest council led house building programme in Wales totalling around £1 billion pounds of capital investment. It is delivering affordable homes within our local communities and a significant range of wider community benefits.

Supplementary Question – Cllr Ahmed

What partnership working is involved?

Reply – Cllr Thorne

There are a large number of partnerships, we have package deals with developers, partnership deals with housing associations and clearly we've got the Cardiff living programme which is a partnership with Waites and the Council so there are a number partnerships and going forward I believe there will be even more who really want to work with us and that will help us deliver quicker because it means that we can share the resource in terms of the development and drawing up the plans

and going out to tenders so I am open to partnerships with other organisations as it will actually help to speed up the delivery of the programme.

Question – Cllr Gordon

In Pontcanna we could decrease the picnic litter problem and encourage recycling if Council changed the type of litter bins provided. In Llandaff Fields, in response to residents' requests for more bins, Council provided two large metal wheelie bins. Thank you for these, but they are difficult to reach up to put litter in and look unsightly in a Grade II park. The nearby cafe sells pizzas and take away drinks so there is a large amount of recyclable waste generated. Please could Neighbourhood Services look into this issue and provide better looking bins that are easier to use, and if possible 2 separate bins for food waste and aluminium cans / glass / plastic and a lined event bin for the bulky pizza boxes. These bins would not only look better in this beautiful park, but would reinforce our message to our citizens about the importance of reducing waste and recycling what can be recycled.

Reply – Cllr Michael

Following discussions with education and enforcement officers, the café owners are engaging with the trade waste team to provide a food and cardboard bin to support recycling.

The large recycling event bins will provide ongoing support for the recycling of glass and cans, whilst the large general waste event bin will manage any items that are not able to be recycled.

The large event bins are required to support the increase in demand in the spring, summer and autumn months.

Supplementary Question – Cllr Gordon

When do you think these new arrangements will happen because we need them now in this hot summer weather?

Reply – Cllr Michael

As soon as possible Councillor.

51 : URGENT BUSINESS

There was no urgent business

52 : COMMITTEE MEMBERSHIP

To receive nominations and make appointments to current committee vacancies as set out in the report and in accordance with the approved allocation of seats and political group wishes.

RESOLVED:

The Council AGREED to appoint to the vacancies on Committees in accordance with the approved allocation of seats and Party Group wishes, as set out on the Amendment Sheet.

53 : PROGRAMME OF MEETINGS

To approve the programme of Full Council meetings for the period July 2021 to August 2022 and note the provisional programme of Cabinet and Committees for the period July 2021 to August 2022, to be finalised in consultation with Chairs of Committees and in line with Forward Work Plans.

RESOLVED:

1. The Council is recommended to
 - (1) approve the programme of Council and Committee meeting dates for July 2021 – August 2022.
 - (2) Note the provisional dates of Cabinet meetings during the period July 2021 – August 2022; and
 - (3) delegate authority to the Director of Governance and Legal Services to make any necessary alterations to the programme of Committee meetings which may be required.

54 : WRITTEN QUESTIONS

In accordance with Council Procedure Rule 17 (f) [Written Questions](#) received for consideration and the response will be included as a record in the minutes of the meeting.

CABINET PROPOSAL

**CARDIFF REPLACEMENT LOCAL DEVELOPMENT PLAN: VISION, ISSUES
AND OBJECTIVES & INTEGRATED SUSTAINABILITY APPRAISAL
SCOPING REPORT****Reason for this Report**

1. The purpose of this report is to report back to Council the findings of the consultation undertaken on the Replacement Local Development Plan (LDP) draft Vision, Issues and Objectives and draft Integrated Sustainability Appraisal Scoping Report and to seek Council approval of the final versions, tabled in Appendix 1 and 2 to this report.

Background

2. The Replacement LDP Delivery Agreement was agreed by the Welsh Government in March 2021 and sets out the process and timetable for preparing the new plan. In accordance with the Agreement an extensive consultation and engagement exercise was undertaken for eight weeks between 28th May and 23rd July on the draft Vision, Issues and Objectives and draft Integrated Sustainability Appraisal Scoping Report.
3. This was the first consultation stage in preparation of the replacement LDP and has helped inform the consideration of a Vision and Objectives for the plan and the Integrated Sustainability Appraisal Scoping Report which sets out how the plan will be assessed.

Issues**Vision and Objectives**

4. This report sets out the proposed Vision and Objectives that will form the core of the Preferred Strategy. They seek to provide an over-arching context for the plan that shows how economic, social and environmental considerations can be balanced to deliver the sustainable development of Cardiff up to 2036. They are based on the consideration of the identified issues and engagement process referred to above plus taking into account the strategic context. This strategic context includes the Council's Capital Ambition and Well-Being Plan, the Well-being Goals set out in the Well-being of Future Generations Act, key planning principles and national sustainable placemaking outcomes set out in national planning guidance

and Future Wales the National Plan 2040. Mitigating the impacts of the Pandemic upon the citizens of Cardiff is also identified.

5. It is important that the Vision and Objectives are agreed at this stage as they will be used to help provide a context to identify and assess strategic options together with the consideration of strategic sites. Further consultation and engagement will take place regarding the strategic options and strategic sites. This is planned for November 2021 to February 2022 and will provide the opportunity to formally gain feedback on the candidate sites that have recently been submitted. The results of this process will be presented in the Preferred Strategy that is planned to be taken to the September 2022 meeting of Council and will be subject to its own formal consultation process straight after approval in October/November 2022. A process has also been agreed with Scrutiny Services so the Scrutiny Committees have an opportunity to contribute to the development of the Preferred Strategy over the coming months.
6. Work is progressing on developing an evidence base for the plan so that it is informed by up to date information and supports the key issues that the plan should address.
7. As set out above in order to help inform the Vision and Objectives, an extensive consultation and engagement exercise was carried out for 8 weeks between 28th May and 23rd July 2021. Due to the current pandemic the Council was restricted to what type of consultation activities we could undertake and for this reason no public face to face meetings were held. However, in order to “adapt” to these pandemic restrictions and encourage active participation in this early stage of preparation of the plan the Council invested in the use of user friendly on-line consultation methods to capture responses to the issues and objectives. These included:
 - A virtual live launch event where the process was outlined and attendees had the opportunity to ask questions
 - The use of virtual consultation room technology with display panels, a short film to explain the process and an online survey which was completed by over 800 respondents;
 - A new bespoke user friendly website, which received approximately 4,000 visits during the consultation;
 - Extensive and targeted use of social media using Facebook, Twitter and Instagram to explain the process and publicise these consultation methods;
 - The use of existing networks to engage virtually with those who do not usually take part in LDP consultation, such as younger people and
 - An LDP mailbox where comments could be sent and any queries raised direct with the LDP Team.
8. Findings from this process have helped to draft the LDP Vision and Objectives. It has been noted that many strong themes emerging from the consultation process very closely mirror some of the key themes emerging through wider work, such as the recognition of responding to the pandemic and addressing climate change as key issues, the importance of

sustainable travel, the high value placed on parks and open spaces plus improving job opportunities and access to affordable housing. The consultation exercise has therefore very much added to findings coming from the strategic policy context and issues identified from the evidence base. A summary of the consultation and engagement findings can be found in Appendix 3.

9. The LDP Vision and Objectives have also been subject to an Integrated Sustainability Appraisal (ISA). This has assessed the draft Vision and Objectives against the ISA objectives where potential issues have been identified and suggestions for improving the Vision and Objectives have been made. Appendix 4 of this report provides a summary of the ISA process undertaken including proposed changes to the originally drafted text.

Integrated Sustainability Appraisal (ISA) Scoping Report

10. The report sets out the ISA Scoping Report for the plan. The purpose of ISA is to identify the likely significant economic, social, environmental and cultural effects of the emerging plan, and to suggest measures to minimise any negative effects and maximise the positive ones. ISA helps to foster a more inclusive and transparent process of producing a LDP, and to ensure that the plan is integrated with other policies.
11. The Well-being of Future Generations Act 2015 places a duty on all public bodies to carry out sustainable development and work in accordance with the Sustainable Development Principle. In addition, the Planning and Compulsory Purchase Act requires that the body producing a LDP must contribute to achieving sustainable development; and requires local planning authorities to appraise the sustainability of their plans.
12. This ISA covers the following assessment processes:
 - **Sustainability appraisal / strategic environmental assessment (SA/SEA)** as required under the Environmental Assessment of Plans and Programmes (Wales) Regulations 2004 and the Planning and Compulsory Purchase Act 2004;
 - **Equalities assessment** as required by the Equalities Act
 - **Welsh language.** Bilingual Cardiff are undertaking a Welsh Language Impact Assessment of the plan, and this ISA will use key findings from that assessment; and
 - **Health Impact Assessment**

It also refers to the **Habitats Regulations Assessment** required under the Conservation of Habitats and Species Regulations 2017.

13. The five stages of ISA are set below:
 - A. Scoping
 - B. Assessment of Alternatives
 - C. Assessment of the Deposit Plan and preparation of the Sustainability Report
 - D. Consultation, examination and adoption of the plan
 - E. Monitoring

14. The Scoping Report is the first stage in the process and is largely an evidence gathering stage. The report sets out the current economic, social, environmental and cultural well-being context and baseline data and identifies sustainability issues and problems which are relevant to the area. This has enabled a set of objectives to be developed which are set out in the report and will form the framework to assess the effects of the plan policies and proposals. There is a requirement in the Regulations to consult on the ISA Scoping Report and as set out above this took place for 8 weeks between 28th May and 23rd July 2021 using the consultation methods set out above in paragraph 7.
15. Findings from this process have helped to draft the Integrated Sustainability Appraisal Scoping Report. A summary of consultation comments can be found in the ISA Scoping Report (Appendix 2).

Next Steps

16. In terms of what happens next, the approval of the LDP Vision and Objectives will be followed by a consultation and engagement exercise on strategic options and strategic sites. This is currently planned to take place for 10 weeks commencing at the end of November 2021 and will involve the consultation methods set out above together with face to face meetings Covid restrictions permitting. These will target representative groups in the community, with a particular focus on traditionally hard to reach communities and those citizens with protected characteristics (see Appendix 5). In such a way, we are hoping to amplify those voices which otherwise may not engage in the LDP process. The results of this consultation will help to inform the level of growth considered appropriate for the Preferred Strategy and will also seek views on candidate sites submitted which will help identify the strategic sites to be included in the Preferred Strategy. It also provides an opportunity for the Council to raise awareness with stakeholders and the public of its commitment to delivering high quality well planned and sustainable neighbourhoods as set out in the Vision and Objectives
17. The Preferred Strategy is scheduled to be considered by Council in September 2022. It will contain the agreed Vision and Objectives together with an overall proposed strategy that shows how other strategic options were considered and assessed. The document will also indicate the locations of strategic sites considered necessary to deliver the preferred strategy. The Preferred Strategy will then be subject to full consultation in October/November 2022. The results of this process will help inform the preparation of the LDP Deposit Copy that is planned to be considered by Council in September 2023.

Scrutiny Consideration

18. This report has been considered by Council's five Scrutiny Committees. Their comments are attached at appendix 6.

Reason for the Recommendation

19. To agree the LDP Vision and Objectives and Integrated Sustainability Appraisal Scoping Report to provide a context for further work in preparing the LDP Preferred Strategy.

Legal Implications

20. The Council has to be mindful of the Welsh Language (Wales) Measure 2011 and the Welsh Language Standards when making any policy decisions and consider the impact upon the Welsh language, The Council has to consider the Well-being of Future Generations (Wales) Act 2015 and how this strategy may improve the social, economic, environmental and cultural well-being of Wales.
21. The Well-Being of Future Generations (Wales) Act 2015 'the Act') places a 'well-being duty' on public bodies aimed at achieving 7 national well-being goals for Wales - a Wales that is prosperous, resilient, healthier, more equal, has cohesive communities, a vibrant culture and thriving Welsh language, and is globally responsible.
22. In discharging its duties under the Act, the Council has set and published well being objectives designed to maximise its contribution to achieving the national well being goals. The well being objectives are set out in Cardiff's Corporate Plan 2019-22: <http://cmsprd.cardiff.gov.uk/ENG/Your-Council/Strategies-plans-and-policies/Corporate-Plan/Documents/Corporate%20Plan%202018-21.pdf>
23. When exercising its functions, the Council is required to take all reasonable steps to meet its well being objectives. This means that the decision makers should consider how the proposed decision will contribute towards meeting the well being objectives and must be satisfied that all reasonable steps have been taken to meet those objectives.
24. The well being duty also requires the Council to act in accordance with a 'sustainable development principle'. This principle requires the Council to act in a way which seeks to ensure that the needs of the present are met without compromising the ability of future generations to meet their own needs. Put simply, this means that Council decision makers must take account of the impact of their decisions on people living their lives in Wales in the future. In doing so, the Council must:
 - Deliver an integrated approach to achieving the 7 national well-being goals
 - Work in collaboration with others to find shared sustainable solutions
 - Involve people from all sections of the community in the decisions which affect them
 - Look to the long term
 - Focus on prevention by understanding the root causes of problems
25. The decision maker must be satisfied that the proposed decision accords with the principles above; and due regard must be given to the Statutory Guidance issued by the Welsh Ministers, which is accessible using the link

below: <http://gov.wales/topics/people-and-communities/people/future-generations-act/statutory-guidance/?lang=en>

26. Equality Duty. The Council has to satisfy its public sector duties under the Equalities Act 2010 (including specific Welsh public sector duties) – the Public Sector Equality Duties (PSED). These duties require the Council to have due regard to the need to (1) eliminate unlawful discrimination, (2) advance equality of opportunity and (3) foster good relations on the basis of ‘protected characteristics’. The ‘Protected characteristics’ are: • Age • Gender reassignment • Sex • Race – including ethnic or national origin, colour or nationality • Disability • Pregnancy and maternity • Marriage and civil partnership • Sexual orientation • Religion or belief – including lack of belief.

Financial Implications

27. There are no direct financial implications arising from this report. However, the cost of undertaking a full review of the LDP will be significant. These costs are expected to be incurred over a number of years, with projected costs of c £ 1m over a 4 year period.
28. The 2020/21 Budget included a single year allocation of £300,000 from the Financial Resilience Mechanism (FRM) to fund LDP costs. This was not required in that year and carried forward to 2021/22 to meet expected costs. Funding for proceeding years will need to be considered as part of future budget settlements.

Human Resources Implications

29. There are no HR implications for this report.

Property Implications

30. There are no property implications for this report

CABINET PROPOSAL

Council is recommended to approve the Replacement Local Development Vision and Objectives and Integrated Sustainability Appraisal Scoping Report.

THE CABINET

23 September 2021

The following Appendices are attached:

Appendix 1: Proposed LDP Vision and Objectives

Appendix 2: Integrated Sustainability Appraisal Scoping Report

Appendix 3: Summary of consultation and engagement findings. (Part 1: Findings from Questionnaire Surveys, Part 2: Summary of comments received)

Appendix 4: Summary of Integrated Sustainability Appraisal of LDP Vision and Objectives

Appendix 5: Engagement Plan for Strategic Options and Sites Consultation

Appendix 6 – Scrutiny comments

Appendix 1: Replacement Local Development Plan Vision and Objectives

Vision

To create a fair, healthy, more liveable, sustainable and low carbon city by:

- Creating a greener, fairer, and stronger city that enhances the health of the current population and wellbeing of future generations;
- Meeting future needs for new low carbon homes, jobs and infrastructure;
- Developing a high accessibility city that reshapes movement around a core of active travel and public transport usage;
- Using placemaking, high quality design, sustainability management and working with local communities to create a thriving city centre and local neighbourhoods
- Enhancing our natural, historic and cultural assets;
- Placing Cardiff at the forefront of cities showing leadership and bold action to tackle climate change.

Objectives

Responding to our future needs

Objective 1. To provide a variety of quality low carbon homes to address the housing crisis and future housing needs. The Plan will:

- Prioritise the building of affordable homes and set targets for the delivery of affordable housing;
- Provide a range and choice of new homes of different tenure, type and location in response to specific housing needs, including responding to the needs of older people, Gypsy and Travellers and other groups who need specialised housing;
- Seek opportunities for new homes in city and local centres and sustainable brownfield locations.
- Require new homes to be zero carbon by 2025.

Objective 2. To provide space for more jobs and maximise Cardiff's role as the Capital City of Wales and the economic driver of South East Wales to improve the prosperity of the region. The Plan will:

- Ensure a range and choice of employment sites in response to employment needs;
- Prioritise opportunities for new employment sites in the city centre and sustainable brownfield locations;
- Ensure the development of high-value clusters of specialist sectors;
- Ensure the protection of existing employment land which contributes to the required supply of sites to meet employment needs;

- Ensure the economic recovery of the city post-Covid-19 and respond to the change in work practices through enhancing the city centre, increased working from home and the need for new working and meeting hubs throughout the city.

Objective 3. To ensure the adequate and timely provision of new infrastructure to support communities and future growth. The Plan will:

- Identify the key infrastructure required, and how and when it will be delivered including:
 - Rebalance transport infrastructure to support public mass-transit transit as part of the Metro project, and comprehensive cycle and pedestrian infrastructure;
 - Social and Community Infrastructure to support the concept of 15 minute neighbourhoods;
 - Schools, health facilities, sport/recreation, waste facilities, burial provision, water wastewater, and energy;
 - Environmental - Contributions to combat climate change, creating new accessible greenspace and public realm;
- Support Cardiff's higher education institutions/ infrastructure in recognition of their key role as part of a learning city and contribution to economic development;
- Establish measures to improve digital connectivity across the city to meet the demand from increased working from home post covid and facilitate new working meeting hubs across the city;
- Consider a Community Infrastructure Levy (CIL) as a mechanism to secure infrastructure investment associated with new qualifying developments.

Creating a sustainable and healthy city which responds to the challenges of climate change and enhances the wellbeing of future generations

Objective 4. To respond to the climate emergency so Cardiff becomes more resilient and maximises opportunities for energy-efficient solutions in line with the One Planet Cardiff Strategy to become a carbon neutral city by 2030. The Plan will:

- Set out how Cardiff will become a zero carbon city, Council with Key Partners by 2030 and beyond, and seek ways to combat the impacts of climate change including:
 - The role of ecosystems in addressing carbon storage, natural flood management, air quality, heat islands and noise pollution;
 - Policies to deliver zero carbon new developments;
 - Managing flood risk;
 - Ensure the provision of infrastructure for cleaner vehicles.
- Set out measures to reduce Cardiff's carbon footprint and mitigate the effects of climate change through reducing energy demand including:
 - Locating development in sustainable locations to minimise the need to travel and reduce car dependency;
 - Improve energy efficiency and the generation of renewable and low carbon energy;

- Ensure the delivery of Phase 1 and Phase 2 of a Local Heat Network for Cardiff Bay and the City Centre;
- Ensuring an increase in tree canopy cover across the city and support wider biodiversity.
- Ensure high quality design and environmental performance of new homes.

Objective 5. To make the city easier to move around with a focus on sustainable and active travel. The Plan will:

- Set out how people can move around the city in a more sustainable, healthy and integrated manner with new development well located to transport infrastructure;
- Remove congestion in the city and ensure emissions meet the air quality standards;
- Secure the delivery of bus and cycling infrastructure;
- Ensure that district and local centres and the city centre become more viable and accessible;
- Ensure a high quality pedestrian environment and public realm;
- Ensure the delivery of a modal split and active travel target aligned with the Transport White Paper targets;
- Integrate the proposed Metro/Crossrail mass transit system for Cardiff;
- Promote sustainable forms of transport and the more effective integration of public transport including new transport interchanges;
- Integrate new development with national and regional investment in sustainable transport infrastructure including the South Wales Metro.

Objective 6. To create healthier environments, reduce inequalities and improve wellbeing. The Plan will:

- Positively contribute towards the equality of opportunity and access for all through addressing imbalances of inequality, deprivation and exclusion;
- Support the needs of homeless, unemployed, people with disabilities, BAME groups, and people in housing need;
- Promote Cardiff's role as a City of Sanctuary as a welcoming and inclusive place to live;
- Support the delivery of healthy, accessible environments to help tackle obesity, gambling addiction and access to local healthy food and promote healthier lifestyles;
- Ensure strong and cohesive communities which recognise Cardiff's commitment to make Cardiff a Child Friendly City and Age Friendly City;
- Set out how air quality and water quality standards can be achieved;
- Promote the role of greenspaces, green streets and public realm improvements, in delivering wellbeing benefits;
- Manage waste, ensure reuse and recycling and control pollution;
- Ensure the regeneration of the city centre into a healthy, accessible, green, high quality environment and experience for all;
- Deliver the regeneration of local neighbourhoods and local centres, particularly in areas of higher deprivation;
- Ensure safer environments which reduce the scope for crime;

- Facilitate equitable access and opportunity to Welsh Medium education in all areas of the city so that the language continues to thrive;
- Promote the provision of services and jobs in areas of highest need to reduce inequalities;
- Promote the role of natural and hard infrastructure to reduce noise pollution.

Objective 7. To Ensure a vibrant, thriving mixed-use City Centre and develop Cardiff Bay’s full potential as a core destination for Cardiff and beyond, whilst ensuring vibrant and thriving district and local retail centres at the heart of local neighbourhoods. The Plan will:

- Maximise the key strategic role of the City Centre as a high density, major financial service sector and social hub of national significance and generate the agglomeration effect in attracting further investment;
- Protect and enhance the role of District and Local Centres with a range of uses serving local communities, accessible by public transport, walking and cycling;
- Ensure the comprehensive regeneration and upgrade of the city centre into a high quality, vibrant, green, inclusive, accessible, curated major ‘destination environment’;
- Maximise the potential for high density mixed use development related to the regional sustainable transport hub at Central Square;
- Support the ability of the city centre and expansion areas to adapt by ensuring the presumption of mixed uses and further investment alongside the key retail role;
- Continue the regeneration of land south of the regional transport hub, and connecting to Cardiff Bay;
- Bring forward the Canal Quarter development to create a major new city centre destination, connect the city to its riverfront, and creating new public spaces;
- Ensure centres can operate as flexibly as possible where a variety of retail, employment, commercial, community, leisure, health and public sector uses come together in a hub of activity to make them viable as go-to destinations once more by setting out a vision for each centre, establishing boundaries and identifying sites for redevelopment;
- Continue the regeneration of Cardiff Bay as a high density, mixed-use destination with:
 - The provision of supporting sustainable transport infrastructure including Crossrail between Central Station, the Bay and Newport Road – including the regeneration around new stations City, Lloyd George Avenue, the Bay, Ocean Way, Splott and Newport road areas;
 - Enable the regeneration of Lloyd George Avenue area;
 - Enhancements to the Mount Stuart Square area and development of an arena at Atlantic Wharf including linkages to the Bay Waterfront;
 - Future phases for the International Sports Village site;
 - Regeneration of Cardiff Docklands, including the Roath Dock/ Roath Basin and Alexandra Head areas.

Objective 8. To ensure that the city positively adapts to the new challenges posed by the implications of the pandemic. The Plan will:

- Pick up on lessons learned to ensure that the city is more resilient and adaptable in the event of future pandemics;
- Support the post-pandemic recovery of the city;
- Identify wider changes required which also help the decarbonisation agenda, tackle climate change and improve health and well-being;
- Identify any required positive permanent changes in places and as part of new development;
- Respond to the change in work practices post- Covid through increased working from home and need for new working and meeting hubs throughout the city.

Objective 9. To use the placemaking approach to create sustainable places, improves the city centre and neighbourhoods, maximises regeneration opportunities, enhances the role of public spaces, ensures that future growth can be effectively managed and delivers developments of high quality design. The Plan will:

Define placemaking principles as an overarching approach in plan-making to create great places in new and existing locations to:

- Ensure high quality architecture, landscape design and placemaking are a priority for all new development, housing, buildings, places, streets and green spaces;
- Consider the needs, health and well-being of all people at the outset;
- Promote development in the most sustainable locations and land is efficiently used with a 'brownfield first' priority;
- Promote sustainable and active travel as part of a more integrated movement network;
- Promote high density mixed-use development;
- Deliver well designed and connected public spaces;
- Define features of character and local distinctiveness in new development;
- Establish strict controls for the sub-division of existing homes, including flat conversions and HMOs.

Looking after our natural, historic and cultural assets

Objective 10. To ensure the resilience of ecosystems by protecting and enhancing Cardiff's Green and blue Infrastructure, its biodiversity and other natural assets. The Plan will:

- Make Cardiff an exemplar green city by ensuring the resilience of ecosystems;
- Identify and set out how key natural assets of the city will be protected and enhanced including:
 - Open spaces, parks and allotments;

- Enhance the access to strategically important river valleys of the Ely, Taff, Nant Fawr and Rhymney;
- The countryside, including strategically important 'green backdrop' formed by the ridge north of the City;
- Cardiff's rich biodiversity and wildlife resource including designated sites and other features/ networks including trees and hedgerows.
- Recognise the role that green infrastructure can play in tackling climate change;
- Providing resilience to ecosystems, promoting well being and creating healthy environments;
- Ensure natural resources are protected including mineral and sand/gravel resources and reserves.

Objective 11. To protect and enhance Cardiff's historic and cultural assets together with supporting sustainable tourism and cultural sectors. The Plan will:

- Identify and set out how key historic and cultural assets of the city will be protected and enhanced including:
 - The city's Conservation Areas, Listed Buildings, Ancient Monuments, Registered Historic Landscapes and areas of archaeological importance;
 - Other non-designated features which make important contributions to Cardiff's historic and cultural distinctiveness.
- Set out how the Welsh Language can be protected and enhanced in line with relevant legislation including new infrastructure, developments, interpretation and signage;
- Set out how Cardiff's night time economy and music scene can form part of a vibrant and diverse city centre;
- Maximise Cardiff's role as an international tourism destination and host city of major events.

Cardiff Council & Levett-Therivel

**Integrated Sustainability Appraisal of the Cardiff Replacement Local
Development Plan: Updated Scoping Report**

August 2021

Contents

1. The Replacement Local Development Plan (RLDP) and Integrated Sustainability Appraisal (ISA)	2
1.1 Cardiff Replacement Local Development Plan (Task A1)	2
1.2 Integrated sustainability appraisal	3
2. Policy context (Task A2)	9
2.1 National context	9
2.2 Regional context	12
2.3 Local context	13
3. Sustainability context (Task A3)	15
3.1 Access, equality and population	17
3.2 Air quality	24
3.3 Biodiversity, flora and fauna	28
3.4 Climate change	34
3.5 Cultural heritage and the historic environment, including Welsh language	40
3.6 Economy	44
3.7 Health and wellbeing	49
3.8 Land, soil and minerals	53
3.9 Landscape and open space	58
3.10 Waste	63
3.11 Water and flooding	65
4. Existing sustainability problems and issues (Task A4)	69
5. ISA Framework (Task A5)	73
6. Next steps	80

1. The Replacement Local Development Plan (RLDP) and Integrated Sustainability Appraisal (ISA)

This updated scoping report is part of the Integrated Sustainability Appraisal (ISA) for Cardiff’s emerging Replacement Local Development Plan (RLDP). This section first discusses the RLDP and then the ISA process.

1.1 Cardiff Replacement Local Development Plan (Task A1)

Cardiff is the capital of Wales and its largest city, with a population of about 367,000. It is the main commercial centre of Wales, the seat of the Welsh Government, home to many national cultural institutions, and a popular tourist destination. Figure 1.1 shows Cardiff Council, which is the area covered by the Cardiff RLDP.

Figure 1.1 Cardiff and surrounding counties

The existing Cardiff LDP was adopted in 2016, and covers the time period 2006 - 2026. To ensure that LDPs are kept up-to-date, local planning authorities are required to start a full review of their plans at least once every four years following plan adoption. The following timescale is expected for the RLDP:

Launch of RLDP	May 2021
Preparation of Strategic Options	June – October 2021
Engagement on Strategic options	November 2021 – February 2022
Preparation of Preferred Strategy	March 2022 – August 2022
Consultation on Preferred Strategy	October – November 2022
Preparation of Deposit Plan	November 2022 – August 2023
Consultation on Deposit Plan	October – November 2023
Submission of RLDP for examination	March 2024

1.2 Integrated sustainability appraisal

The purpose of integrated sustainability appraisal (ISA) is to identify the likely significant economic, social, environmental and cultural effects of the emerging RLDP, and to suggest measures to minimise any negative effects and maximise the positive ones. ISA helps to foster a more inclusive and transparent process of producing a Local Development Plan, and to ensure that the plan is integrated with other policies.

Sections 2 - 5 of the Well-being of Future Generations Act 2015¹ place a duty on all public bodies to carry out sustainable development and work in accordance with the sustainable development principle. Section 39 of the Planning and Compulsory Purchase Act² requires that the body producing a LDP must contribute to achieving sustainable development; and Section 19(5) requires local planning authorities to appraise the sustainability of their plans.

This ISA covers:

- **Sustainability appraisal / strategic environmental assessment (SA/SEA)** as required under the Environmental Assessment of Plans and Programmes (Wales) Regulations 2004³ ('SEA regulations') and the Planning and Compulsory Purchase Act 2004 – Table 1.1 shows the reporting requirements for SA/SEA and how this report fulfils them;
- **Equalities assessment** as required by the Equalities Act;
- **Welsh language.** Bilingual Cardiff are undertaking a Welsh Language Impact Assessment of the RLDP, and this ISA will use key findings from that assessment; and
- **Health Impact Assessment**⁴.

It also refers to the **Habitats Regulations Assessment** required under the Conservation of Habitats and Species Regulations 2017.

The stages of ISA are:

- A. Scoping
- B. Assessment of alternatives
- C. Assessment of the Deposit Plan and preparation of the Sustainability Report
- D. Consultation, examination and adoption of the plan
- E. Monitoring.

In turn, the scoping stage (Stage A) – which this report covers - is divided into:

- A1. Outline the contents and main objectives of the plan
- A2. Identify and review other relevant plans, programmes and sustainability objectives that will inform the plan
- A3. Collect baseline information on the current and likely future social, economic, cultural well-being and environmental conditions at the relevant spatial scale for the plan
- A4. Identify sustainability issues and problems which are relevant to the plan
- A5. Develop ISA framework against which the plan can be appraised
- A6. Prepare and consult on the ISA scoping report⁵.

² www.legislation.gov.uk/ukpga/2004/5/contents

³ <http://www.legislation.gov.uk/wsi/2004/1656/contents/made>. Also the Environmental Assessment of Plans and Programmes and the Environmental Impact Assessment (Miscellaneous Amendments) (Wales) (EU Exit) Regulations 2019, <http://www.legislation.gov.uk/wsi/2019/245/regulation/2/made>.

⁴ This integrated approach to appraisal is consistent with advice in the Development Plans Manual Edition 3 consultation draft, <https://gov.wales/draft-development-plans-manual-edition-3>

⁵ Ibid.

Table 1.1 Sustainability report requirements

Requirement under the Environmental Assessment of Plans and Programmes (Wales) Regulations 2004	Where covered in this scoping report
1. An outline of the contents and main objectives of the plan or programme,	Chapter 1 discusses plan area and timescale. Contents and main objectives are not yet available.
and of its relationship (if any) with other relevant plans and programmes.	Chapter 2
2. The relevant aspects of the current state of the environment and the likely evolution thereof without implementation of the plan or programme.	Chapter 3
3. The environmental characteristics of areas likely to be significantly affected.	Areas likely to be significantly affected by the plan are not yet known
4. Any existing environmental problems which are relevant to the plan or programme including, in particular, those relating to any areas of a particular environmental importance, such as areas designated pursuant to Council Directive 79/409/EEC on the conservation of wild birds and the Habitats Directive.	Chapter 4
5. The environmental protection objectives, established at international, Community or Member State level, which are relevant to the plan or programme	Chapter 2
and the way those objectives and any environmental considerations have been taken into account during its preparation.	Chapter 5 proposes ISA objectives
6. The likely significant effects on the environment, including short, medium and long-term effects, permanent and temporary effects, positive and negative effects, and secondary, cumulative and synergistic effects, on issues including (a) biodiversity; (b) population; (c) human health; (d) fauna; (e) flora; (f) soil; (g) water; (h) air; (i) climatic factors; (j) material assets; (k) cultural heritage, including architectural and archaeological heritage; (l) landscape; and (m) the inter-relationship between the issues referred to in sub-paragraphs (a) to (l).	Not yet available – will be covered by subsequent stages of the ISA.
7. The measures envisaged to prevent, reduce and as fully as possible offset any significant adverse effects on the environment of implementing the plan or programme.	
8. An outline of the reasons for selecting the alternatives dealt with, and a description of how the assessment was undertaken including any difficulties encountered in compiling the required information.	
9. A description of the measures envisaged concerning monitoring in accordance with regulation 17.	
10. A non-technical summary of the information provided under paragraphs 1 to 9.	

Figure 1.2, from the Welsh Government's Development Plans Manual, shows how the ISA stages fit with the stages of plan-making.

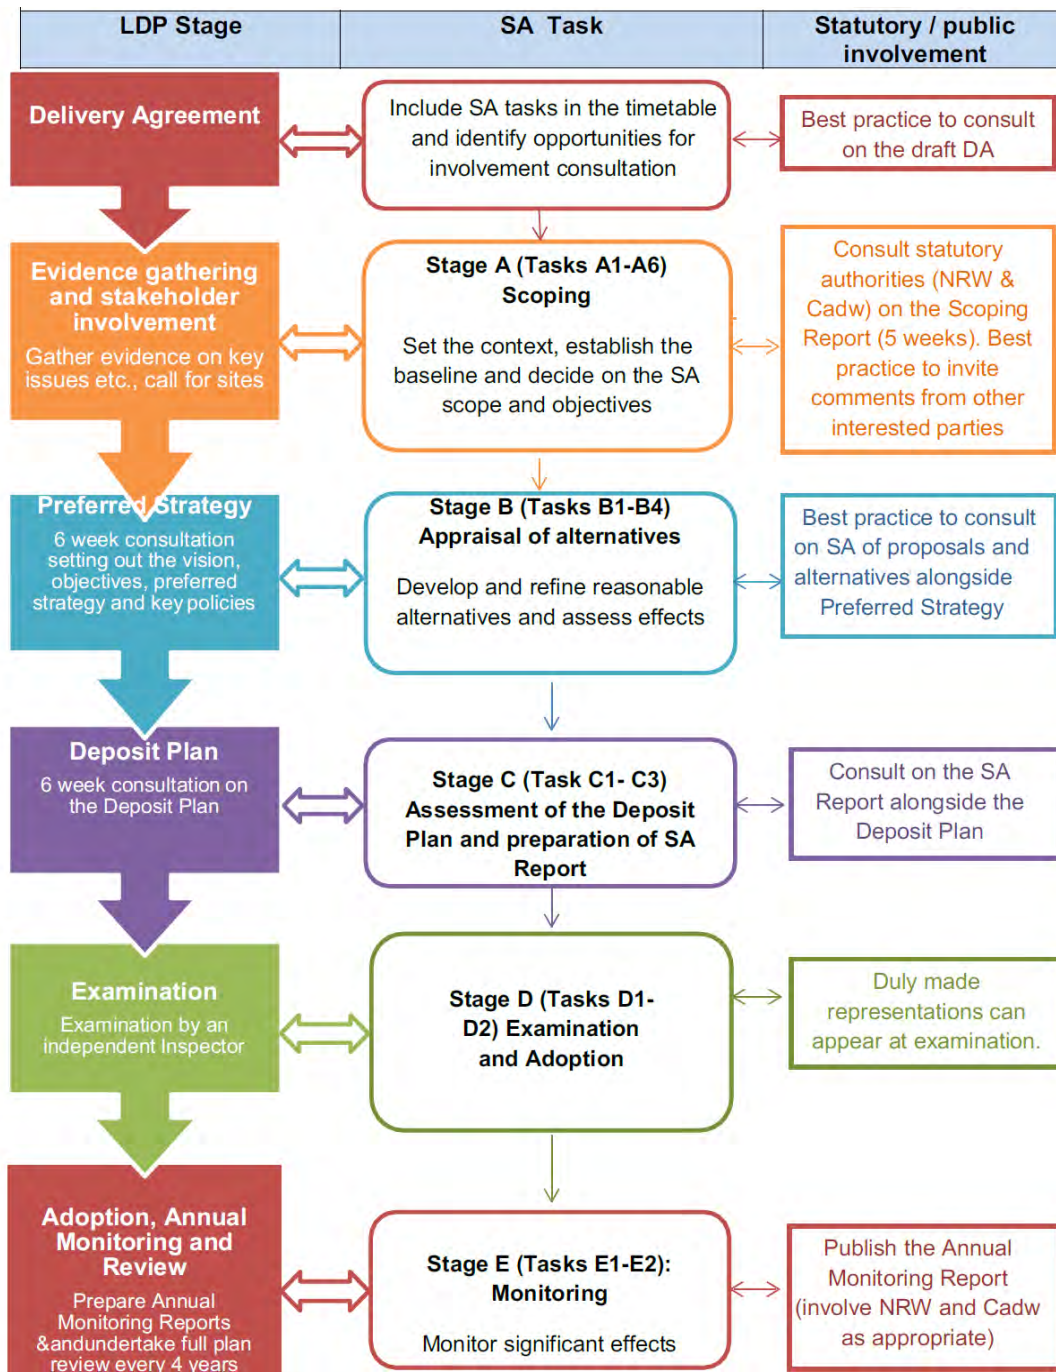

Figure 1.2 Links between RLDP stages and ISA stages⁶

Cardiff Council consulted on a first scoping report for eight weeks, from March 2021. Comments were received from both statutory consultees (NRW and CADW) and seven additional consultees. Table 1.2 summarises the consultees’ main comments and how they have been integrated into this updated scoping report.

⁶ <https://gov.wales/sites/default/files/publications/2020-03/development-plans-manual-edition-3-march-2020.pdf>

Table 2.1 Main consultation comments and changes made to scoping report in response.

Main comments	Responses to the comments
The two halves of Figure 2.4 are not aligned	Now aligned
Need to include 'COVID-19 Reconstruction' and the Welsh Government's declaration of a nature emergency in the policy context; also refer to the draft post-pandemic city recovery plan 'Greener, Fairer, Stronger'	Done
Sec. 3.2 should stress the links between air quality and 1. climate change, 2. health, and 3. ecosystems. Also other pollutants than NO ₂ have negative impacts.	Reference made to the 2016 report 'Estimating the mortality burden of air pollution in Wales'; and to particulates.
Walking and cycling near roads could have negative health impacts	ISA framework (Table 5.1) changed to specify that active travel routes should avoid areas of poor air quality
Sec. 3.2 should refer to the Clean Air Plan for Wales	Sec. 3.2 now refers to the Clean Air Plan for Wales, Clean Air Zone Framework for Wales, and Cardiff outline bid for air quality improvement funding.
Sec. 3.3 There should be more information on biodiversity in Cardiff	Information on biodiversity will be included if/when it becomes available.
Sec. 3.3 should make more reference to NRW's Second State of Natural Resources Report	A page on the main findings of the SSNRR has been included at Sec. 3.3
In Figure 3.3.1, the sea should be shown as blue not green	It is shown in green to represent its status as a Special Area of Conservation
Air pollution is a threat to biodiversity	Noted at Sec. 3.3
Sec. 3.4 should explain what is meant by 'carbon neutrality'	Footnote added to explain this
Sec. 3.5 should not describe Victorian and Edwardian neighbourhoods as 'suburbs'	Renamed 'areas'
Sec. 3.5 should discuss non-designated historic assets listed in the Historic Environment Record	Done
Sec. 3.8 should clarify that many brownfield sites provide biodiversity and recreational amenity	Included in the opening paragraph to Sec. 3.8
Sec. 3.9 should clarify that the rivers in Cardiff are highly modified and as a result there are increased risks to flooding and reduced biodiversity.	Amended Sec. 3.9 to include.
Sec. 3.9 should clarify that the Gwent Levels are SSSI and Historic Landscape, important for biodiversity and ecosystem resilience.	Amended Sec. 3.9 to include.
Figure 3.9.2 implies incorrectly that all of the public space in the figure is publicly accessible.	Figure 3.9.2 shows all open space in Cardiff (<i>including space that is not publicly accessible</i>).
Sec. 3.10 should refer to the Welsh government's March 2021 'Beyond Recycling' and moratorium on large-scale energy from waste plants	Amended Sec. 3.10 to include.
Sec. 3.11 should discuss the wider implications of water quality, e.g. on amenity, wellbeing and the economy	Done in the introductory section of Sec. 3.11
The ISA framework should include reference to the regenerative economy	Already done at ISA objective 10
Need better links between baseline data and the ISA topics	ISA framework (Table 5.1) amended to include reference to the circular economy, carbon

Main comments	Responses to the comments
	neutrality, biodiversity net gain etc.
Reference should be made to NRW's South Central Wales Area Statement	Reference added in Sections 3.2 (air), 3.3 (biodiversity), and 3.7 (health/wellbeing)
Sec. 3.10 needs better data on waste from construction, demolition, industrial and commercial waste	Information on this will be included if/when it becomes available.
Sec. 3.11 should discuss Water Framework Directive status and reasons why water quality is bad to moderate	This was already discussed at Sec. 3.11.
At Table 4.1, water quality should be highlighted as blue	Done
The ISA framework (Table 5.1) should include green recovery; and should refer to remediation of unstable land as well as contaminated land	Done
Green spaces should be protected	One of the sub-objectives of ISA objective 7 has been reworded to " <i>Protect, and improve access to, open space...</i> "
There should be at least one indicator per sub-objective, and the positive direction of travel should be clarified	Data/indicators are not available for all sub-objectives (e.g. access to community facilities). Where data/indicators are not available, these have been highlighted in the introduction to Sec. 5. The wished-for direction of change has been added to the indicators in Table 5.1.
At Table 5.2, a proposed development site should be ++ for SAC/SPA/Ramsar sites only if it is >5km from the SAC/SPA/Ramsar site.	Table 5.2 has not been changed. A separate Habitat Regulations Assessment will assess impacts on SAC/SPA/Ramsar sites. The main role of the ISA framework is to flag up possible problems, and Table 5.2 does this.
Table 5.2 is based only on the location and characteristics of the site, not the mitigation offered by development on the site. This generally disadvantages larger sites.	<p>Much of the impact of development relates to the site location and characteristics. Proposed developments can change significantly over time, making it difficult to be clear about what mitigation to include; and different amount of information will exist about proposed development at different sites.</p> <p>Statement added that Tables 5.1 and 5.2 will inform, but not make, decisions about what sites to take forward.</p>
Table 5.2 should refer to provision of housing and employment land, on par with reference to community facilities	Done
Table 5.2 should be clearer about the reasons for the cut-offs between e.g. ++ and +, + and – etc. Cut-offs for walking should be different to those for cycling.	Table 5.2 is based on other similar ISAs, which in turn refer to e.g. the Chartered Institute of Highways and Transportation, distances used in Habitat Regulations Assessments etc. This is now mentioned in the introduction to the table. The site appraisal forms will include the actual distance, so that a more detailed analysis can be made of walking v. cycling accessibility.

Difficulties encountered

A first draft of this report was prepared in Spring 2020 but publication was held back due to the coronavirus pandemic. Many aspects of annual monitoring, for instance air quality, employment land take-up and life expectancy, have not been carried out during the pandemic. The pandemic has changed many aspects of life in the UK, including how we work, travel and educate our children: not all of this information was available by the time this updated scoping report was prepared. Brexit will also have many effects that are not yet understood.

Data are not available for many aspects of sustainability, for instance most aspects of biodiversity and waste management. This is discussed further at the end of Section 5.

2 Policy context (Task A2)

The SEA Directive requires a description of “[the plan’s] relationship with other plans or programmes” and “The environmental protection objectives, established at international, Community or national level, which are relevant to the plan or programme and the way those objectives and any environmental considerations have been taken into account during its preparation” (Annex Ia and e)

The emerging Replacement Local Development Plan is informed and shaped by many national and international plans and policies related to sustainability and environmental protection. This chapter discusses the key plans and policies affecting the RLDP.

Acronyms used below:

ISA	Integrated Sustainability Appraisal
RLDP	Replacement Local Development Plan
NDF	National Development Framework
NRW	Natural Resources Wales
SDP	Strategic Development Plan

2.1 National context

The **Well-being of Future Generations (Wales) Act 2015** aims to ensure that sustainable development is at the heart of government and public bodies. It has seven Well-being Goals and promotes five Ways of Working (Figure 2.1) It provides the legislative framework for the preparation of Local Well-being Plans which will replace Single Integrated Plans. Given that sustainable development is the core underlying principle of the Local Development Plans and Integrated Sustainability Appraisals, there are clear associations between the aspirations of both the RLDP and Act/Local Well-being Plans. This is discussed further at Chapter 5.

The **Planning (Wales) Act 2015** aims to reform the planning system in Wales, to ensure that it is fair, resilient and enables development. The Act notes that LDPs must promote sustainable development in accordance with the Well-being of Future Generations (Wales) Act 2015, “for the purpose of ensuring that the development and use of land contribute to improving the economic, social, environmental and cultural wellbeing of Wales”. The Act requires the development of a National Development Framework (NDF) and regional-level Strategic Development Plans (SDPs), and requires LDPs to be in general conformity with any NDF or SDP that

Figure 2.1 Well-being of Future Generations (Wales) Act 2015 Well-being Goals and Ways of Working⁷

⁷ <https://futuregenerations.wales/about-us/future-generations-act/>

includes the local authority area. In late 2020, consultation was carried out on the establishment of Corporate Joint Committees that can prepare SDPs⁸, and on the preparation of SDPs⁹.

The **National Development Framework** is a new 20 year national spatial strategy. The draft NDF of September 2020 sets out the Welsh Government’s policies on development and land use in a spatial context, and will be known as ‘Future Wales: the national plan 2040’. It supports decarbonisation and the delivery of renewable energy; provision of housing in the right places; healthier places; strengthened ecosystems and enhanced biodiversity; and an economy that delivers prosperity for all. It identifies Cardiff, Newport and the Valleys as a national growth area. Policy 33 of the draft NDF supports Cardiff’s status as an internationally competitive city and a core city on the UK stage. It expects Cardiff to retain and extend its role as the primary national centre for culture, sport, leisure, media, the night time economy and finance. In Policy 34, the Welsh Government requires the Strategic Development Plan to identify a green belt to the north of Cardiff, Newport and the eastern part of the region¹⁰. The draft NDF has been laid at the Senedd for scrutiny, and its publication is expected in 2021. The Cardiff Capital Region’s SDP is discussed further at Section 2.2.

In December 2018, the Welsh Government issued **Planning Policy Wales (Edition 10)**¹¹ which integrates the seven Well-being Goals and five Ways of Working of the Well-being of Future Generations Act 2015. It also puts the concept of placemaking into the heart of national planning policy. Figure 2.2 summarises the placemaking outcomes sought by Planning Policy Wales.

The July 2021 guidance document **“Building Better Places”** sets out the Welsh Government’s planning policy priorities to assist in taking action in the recovery period after the coronavirus pandemic. It identifies eight issues:

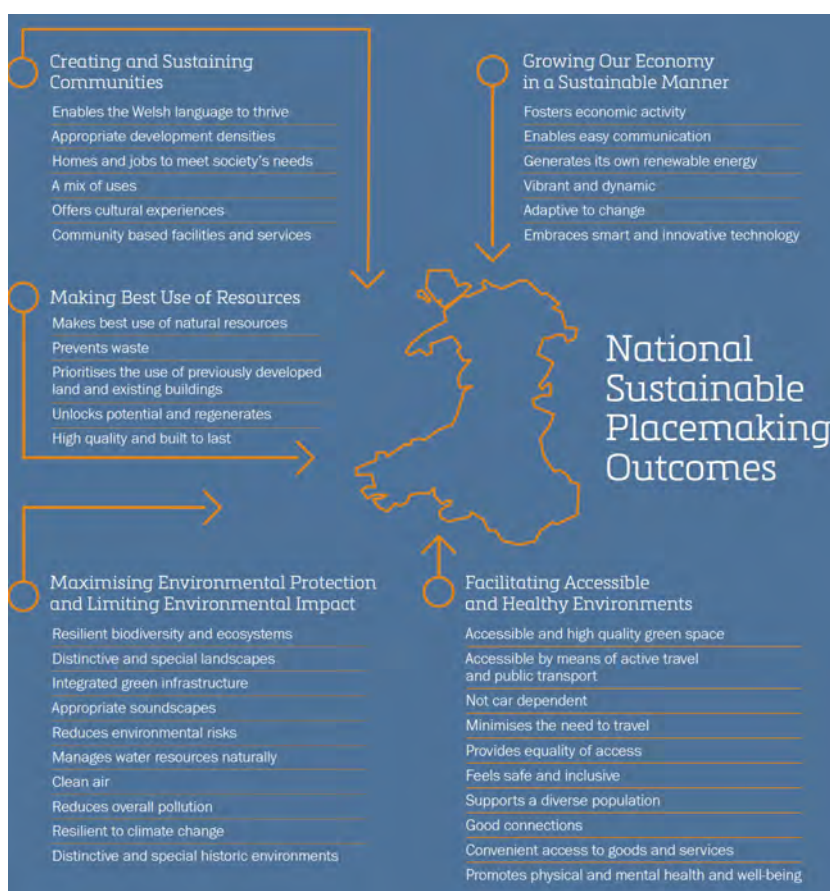

Figure 2.2 Planning Policy Wales national sustainable placemaking outcomes

1. Staying local: enabling people to live in well-located and well-designed energy efficient homes, delivery of new affordable homes, local food production and supply chains, creation of accessible and attractive neighbourhoods

⁸ <https://gov.wales/regulations-establish-corporate-joint-committees>

⁹ <https://gov.wales/establishing-town-and-country-planning-strategic-development-plan-wales-regulations-2021>

¹⁰ <https://gov.wales/sites/default/files/publications/2020-11/working-draft-national-development-framework-document-september-2020.pdf>

¹¹ <https://gov.wales/planning-policy-wales>

2. Active travel: reducing the need to travel, continued shift to sustainable and active travel modes
3. Revitalising our town centres: new flexible approaches to retail and commercial centres, reassessment of the role and function of established shopping areas, planning for the use of open spaces in town centres, consideration of a wider range of uses in town centres
4. Digital places: improvements to digital connectivity
5. Changing working practices: re-examination of economic forecasts and employment allocations, support for flexible workplaces
6. Reawakening Wales' tourism and cultural sectors, noting the need for social distancing and support for associated industries
7. Green infrastructure, health and well-being and ecological resilience: enabling and providing green infrastructure
8. Improving air quality and soundscapes for better health and well-being

In October 2020, the Welsh Government published “**COVID-19 Reconstruction: Challenges and Priorities**”¹². This aims to plan ahead and support a green recovery, taking into account the collective response to the pandemic and the need to counter climate change and the economic damage caused by Brexit. Priorities include reducing unemployment; ensuring that young people do not lose out educationally or economically; increasing the construction of council and social housing; investing in town centres; pursuing a strong decarbonisation agenda; minimising the need to travel and improving public transport; building the resilience of the Welsh economy, and supporting the NHS.

The **Environment (Wales) Act 2016** helps to ensure that managing Wales' natural resources sustainably is a core consideration in decision-making. It requires Natural Resources Wales (NRW) to prepare a State of Natural Resources Report; the Welsh Government to produce a National Natural Resources Policy that sets out the priorities, risks and opportunities for managing Wales' natural resources sustainably; and NRW to produce Area Statements to help implement the National Natural Resources Policy.

The **National Natural Resources Policy 2017**¹³ sets out three priorities:

- Delivering nature-based solutions, including development of resilient ecological networks, supporting climate change adaptation and mitigation, improving green infrastructure and water treatment systems, and improving land and water management;
- Increasing renewable energy and resource efficiency, including development of a circular economy;
- Taking a place-based approach: collaborative working to deliver better results at a local level.

The **Historic Environment (Wales) Act 2016** made important changes to the Ancient Monuments and Archaeological Areas Act 1979 and the Planning (Listed Buildings and Conservation Areas) Act 1990. The Act now gives more effective protection to listed buildings and scheduled ancient monuments; improves the sustainable management of the historic environment; and introduces greater transparency and accountability into decisions taken on the historic environment.

The **Public Health (Wales) Act 2017** aims to improve health and prevent avoidable harm to health. It requires the production of a national strategy on preventing and reducing obesity and for key decisions to be subject to Health Impact Assessment.

The Welsh Government declared a **climate emergency** in April 2019¹⁴. In May 2019 the UK government announced a 'net zero' target by 2050. Initially, the Committee on Climate Change had

¹² <https://gov.wales/coronavirus-reconstruction-challenges-and-priorities>

¹³ www.hwa.uk.com/site/wp-content/uploads/2018/11/POL_22-Welsh-Government-2017-Natural-Resources-Policy.pdf

¹⁴ <https://gov.wales/welsh-government-makes-climate-emergency-declaration>

suggested that Wales can only reach a 95% reduction because of the importance of agriculture to its rural communities¹⁵, but in December 2020 it urged Wales to achieve net zero¹⁶. This should be achieved by taking up low-carbon solutions, expanding low-carbon energy supplies, reducing demand for high-carbon activities and transforming land from farmland to woodland and bioenergy production.

Prosperity for All: A Low Carbon Wales, published in March 2019, sets out the Welsh Government's commitments to climate change mitigation. These include different measures for different sectors: power (e.g. increased local ownership of energy generation), buildings (e.g. review of building standards), transport (e.g. increasing travel by walking, cycling and public transport) etc. However in December 2020 the National Assembly for Wales' Climate Change, Environment and Rural Affairs Committee noted that Wales is not currently on track for an 80% reduction in greenhouse gases, let alone net zero¹⁷.

The climate change adaptation plan for Wales, **Prosperity for All: A Climate Conscious Wales** was published in November 2019. It sets out actions for 2020-2025 which include flood protection; protection of water supplies from drought and low flows; tackling land management practices that increase flood risk; and reducing risks to ecosystem and agriculture from climate change.

The Welsh Government also declared a **nature emergency** in June 2021¹⁸. This puts nature on par with climate change in terms of urgency and significance. Improving nature can help to tackle climate change and provide other benefits such as flood prevention, clean water and improved health and wellbeing.

2.2 Regional context

The Cardiff Capital Region (CCR) comprises ten local authorities including Cardiff. In 2016, the Cardiff Capital Region agreed a £1.2 billion **City Deal** with the UK Government and Welsh Government, which aims to deliver up to 25,000 new jobs and leverage an additional £4 billion of private sector investment. In particular, the region aims to support investment in areas that increase the region's economic output and reduce its worklessness, with a focus on connectivity, digital, innovation, and skills and worklessness¹⁹. In 2018, the CCR Cabinet agreed in principle to commit £40 million to support the proposed £180 million Metro Central Development, which would deliver a new central transport interchange in Cardiff's core employment zone²⁰.

The CCR is also in the process of preparing a **Strategic Development Plan (SDP)**, which will address cross-boundary issues at a regional level such as housing, employment and waste and which must be in general conformity with the NDF. The SDP is expected to be operational by mid-2022; cover approximately 20 years; and cover larger-than-local issues such as housing numbers, strategic housing allocations, strategic employment sites, strategic green infrastructure routes and supporting transport infrastructure²¹.

²⁰ www.cardiffcapitalregion.wales/investment/

²¹ <https://gov.wales/establishing-town-and-country-planning-strategic-development-plan-wales-regulations-2021>

Natural Resources Wales have prepared an **Area Statement for the South Central Wales Area**, which covers Cardiff as well as Merthyr Tydfil, Rhondda Cynon Taf, Bridgend, and Vale of Glamorgan – see Figure 2.3. Building resilient ecosystems and connecting people with nature represent the cornerstones of the area statement, underpinning NRW’s approach to addressing the challenges of water, health and air quality.²²

Figure 2.3 Natural Resources Wales Area Statement for the South Wales Central Area

2.3 Local context

The **Capital Ambition Report** of 2017 sets out the Council’s five-year plan for the city. It outlines the Council’s vision for Cardiff to become a leading city on the world stage. The plan focuses on four main areas:

- Working for Cardiff - Making sure everyone who lives and works here can contribute to, and benefit from, the city's success.
- Working for Wales - A successful Wales needs a successful capital city.
- Working for the future - Managing the city's growth in a sustainable way.
- Working for public services - Making sure public services are delivered efficiently, effectively and sustainably in the face of rising demands and reduced budgets.

Cardiff’s **Transport White Paper: Transport Vision to 2030**²³ of January 2020 aims to tackle the climate emergency, reduce congestion and improve air quality. It proposes projects to significantly improve public transport in Cardiff and the region, including expanding current Metro plans to deliver more new tram/train routes and stations (Figure 2.4); introducing new bus rapid transit services and Park & Ride sites; lowering bus fares; delivering safer walking and cycling routes; and travel options designed to get people out of their cars.

Cardiff Council declared a **climate emergency** in March 2019. In October 2020, the council published a draft of One Planet Cardiff²⁴, a vision of how Cardiff can be a carbon-neutral city by 2030. This includes large-scale retrofits of buildings, development of low-cost efficient energy generation, support of ultra-low emission vehicles, increased tree coverage and low carbon food. Section 3.4 discusses this further.

Cardiff’s May 2021 draft plan for post-pandemic city recovery and renewal strategy, **Greener, Fairer, Stronger**²⁵, reiterates the importance of responding to a change to more home-working and less in-person retail, and for Cardiff to remain healthy and uplifting through public space and parks. It promotes six ‘missions’: reimagining the city centre, a city for everyone, a city of villages, culture and sport-led renewable, Tech City, and One Planet Recovery.

3 Sustainability context (Task A3)

The SEA Directive requires a description of “the relevant aspects of the current state of the environment and the likely evolution thereof without implementation of the plan or programme” (Annex Ib) and “the environmental characteristics of the areas likely to be affected” (Annex Ic).

This chapter sets out the main environmental, social, cultural and economic issues that affect, or are likely to affect, Cardiff over the life of the Replacement Local Development Plan:

- 3.1 Access, equality and population
- 3.2 Air quality
- 3.3 Biodiversity, flora and fauna
- 3.4 Climate change
- 3.5 Cultural heritage and the historic environment, including the Welsh language
- 3.6 Economy
- 3.7 Health and wellbeing
- 3.8 Land, soil and minerals
- 3.9 Landscape and open space
- 3.10 Waste
- 3.11 Water and flooding

In each case, the current status is first discussed, and then the likely future situation without the plan. Table 3.1 shows how these topics cover the requirements of strategic environmental assessment, equalities impact assessment, health impact assessment, and Welsh language impact assessment. Other ways of structuring the report were considered, notably Gibson’s sustainability principles²⁶, the Stockholm Institute’s resilience principles²⁷ and the Wales Well-being Goals (Figure 2.1). However they were generally less easy to understand and use, and did not fulfil the ISA requirements as clearly.

Assessment process requirement	ISA section
Strategic environmental assessment	
• Biodiversity	3.3
• Population	3.1
• Human health	3.7
• Fauna	3.3
• Flora	3.3
• Soil	3.8
• Water	3.11
• Air	3.2
• Climatic factors	3.4, 3.11
• Material assets	3.1, 3.6, 3.10
• Cultural heritage, including architectural and archaeological heritage	3.5, 3.12
• Landscape	3.9
• Inter-relation between the above issues	3.1, 3.2, 3.4, 3.6, 3.7, 3.8, 3.10, 3.11
Equalities impact assessment (health, housing, environment etc.)	3.1, 3.6, 3.7
Health impact assessment (health, air/water quality, access to green space etc.)	3.7, 3.1, 3.2, 3.6, 3.9, 3.11
Welsh language impact assessment	3.5

Table 3.1 ISA topics v. requirements of assessment processes

3.1 Access, equality and population

Introduction

Cardiff’s population has grown rapidly over the last 30 years, and this rapid growth is expected to continue. Cardiff has also been experiencing strong economic growth and increasing levels of prosperity, but this prosperity has not been evenly distributed, affecting equality and wellbeing. There are considerable variations within and between localities, with people in some parts of Cardiff experiencing deprivation that is amongst the worst in Wales.

Population

In 2019, Cardiff’s population was 366,900, up from 345,400 in 2011; 310,000 in 2001; and 297,000 in 1991 (Figure 3.1.1)²⁸. This represents a growth rate of between 0.5% and 1% per year. Cardiff is one of the fastest-growing cities in the UK, and is growing faster than any other Welsh local authority²⁹. Much of this growth has been through in-migration from other countries. In contrast, there has been less net out-migration of Cardiff residents to other parts of the UK.³⁰

Cardiff’s average household size has consistently decreased, from 2.5 person per household in 1991 to 2.29 persons in 2019³¹. Its current average household size is slightly higher than that for Wales (2.26) but lower than the UK average of 2.4. Household size is falling because of an increase in single households, including lone parents and single older persons. In 2011, 33% of Cardiff’s households were one-person households, up from 31% in 2006.

Figure 3.1.1 Cardiff’s population 1991-2018, and population projections³²

<https://gov.wales/sites/default/files/statistics-and-research/2020-08/subnational-population-projections-2018-based-280.pdf>

Cardiff has a high proportion of young adults

Cardiff has a noticeably large proportion of young people compared to the England and Wales average: 21% of its population in 2018 was aged 18-27, compared to the England & Wales average of 13% (Figure 3.1.2)³³. This is due in large part to its student population which currently comprises more than 13% of the city’s residents, up from less than 10% in 2000³⁴.

Ethnic groups as a proportion of Cardiff’s population are much higher than for Wales as a whole

18.5% of Cardiff’s population is Black, Asian and minority ethnic (BAME). This is much higher than the Welsh average of 5.4%, and by far the highest of the Welsh local authorities. It is also higher than the average for England and Wales which is 14%. Census data indicates that a high percentage of those from BAME backgrounds live in the poorest inner-city areas – including Grangetown, Butetown, Riverside and Adamstown - although this is changing.³⁵

Figure 3.1.2 Age pyramid for Cardiff (grey) v England & Wales (green), 2018

Significant amounts of housing are required to house the increasing population

Table 3.1.1 shows the Local Plan targets for net general market dwellings, and the dwellings actually built. The number of dwellings built was initially significantly lower than the target: this was due to a ‘delivery lag’ following the adoption of the plan, and the rate of construction is expected to increase³⁶. The rate of completions has accelerated in the past year, with all the large strategic plan sites starting to be built out.

Time period	Local Plan target	Dwellings built
2014 – 2016	2495	866
2016 – 2018	4096	1183
2018 – 2020	4153	1135 in 2018/19
2020 – 2022	4042	
2022 – 2024	4010	
2024 - 2026	3759

Cardiff contains some of the most deprived areas in Wales - geographically there is a concentration of deprivation in the ‘southern arc’ although ‘hotspots’ exist elsewhere

The Welsh Index of Multiple Deprivation (WIMD) is a measure of the relative levels of deprivation in local areas. In the most recent WIMD 2019, 9% (or 18 out of 191) of the 10% most deprived areas in Wales were in Cardiff. This is lower than Newport (12.6%) and Merthyr Tydfil (11.5%) and on par with Rhondda Cynon Taff, but higher than all other Welsh local authorities³⁷. It is significantly better than the situation in 2010, where Cardiff had 40 out of 190 of the 10% most deprived areas in Wales, but this reflects other areas of Wales getting worse: relative poverty within areas of Cardiff remains high.

Deprivation is concentrated mainly in the southern and eastern part of Cardiff (Figure 3.1.4), with the northern and western parts being generally the least deprived. The 'southern arc' also has a higher proportion of people receiving out-of-work benefits than other areas of Cardiff: in January 2020 the claimant rate in Adamstown, Ely and Splott stood at 6% or more, compared to less than 1% in Cyncoed, Lisvane and Rhiwbina³⁸.

The coronavirus pandemic has doubled the proportion of people receiving benefits in Cardiff, from 3.3% in February 2020 to 6.5% in November 2020 (Figure 3.1.3).³⁹

Figure 3.1.3 Out-of-work benefit claimants (%): doubling since the coronavirus pandemic

³⁸ www.nomisweb.co.uk

³⁹ Ibid.

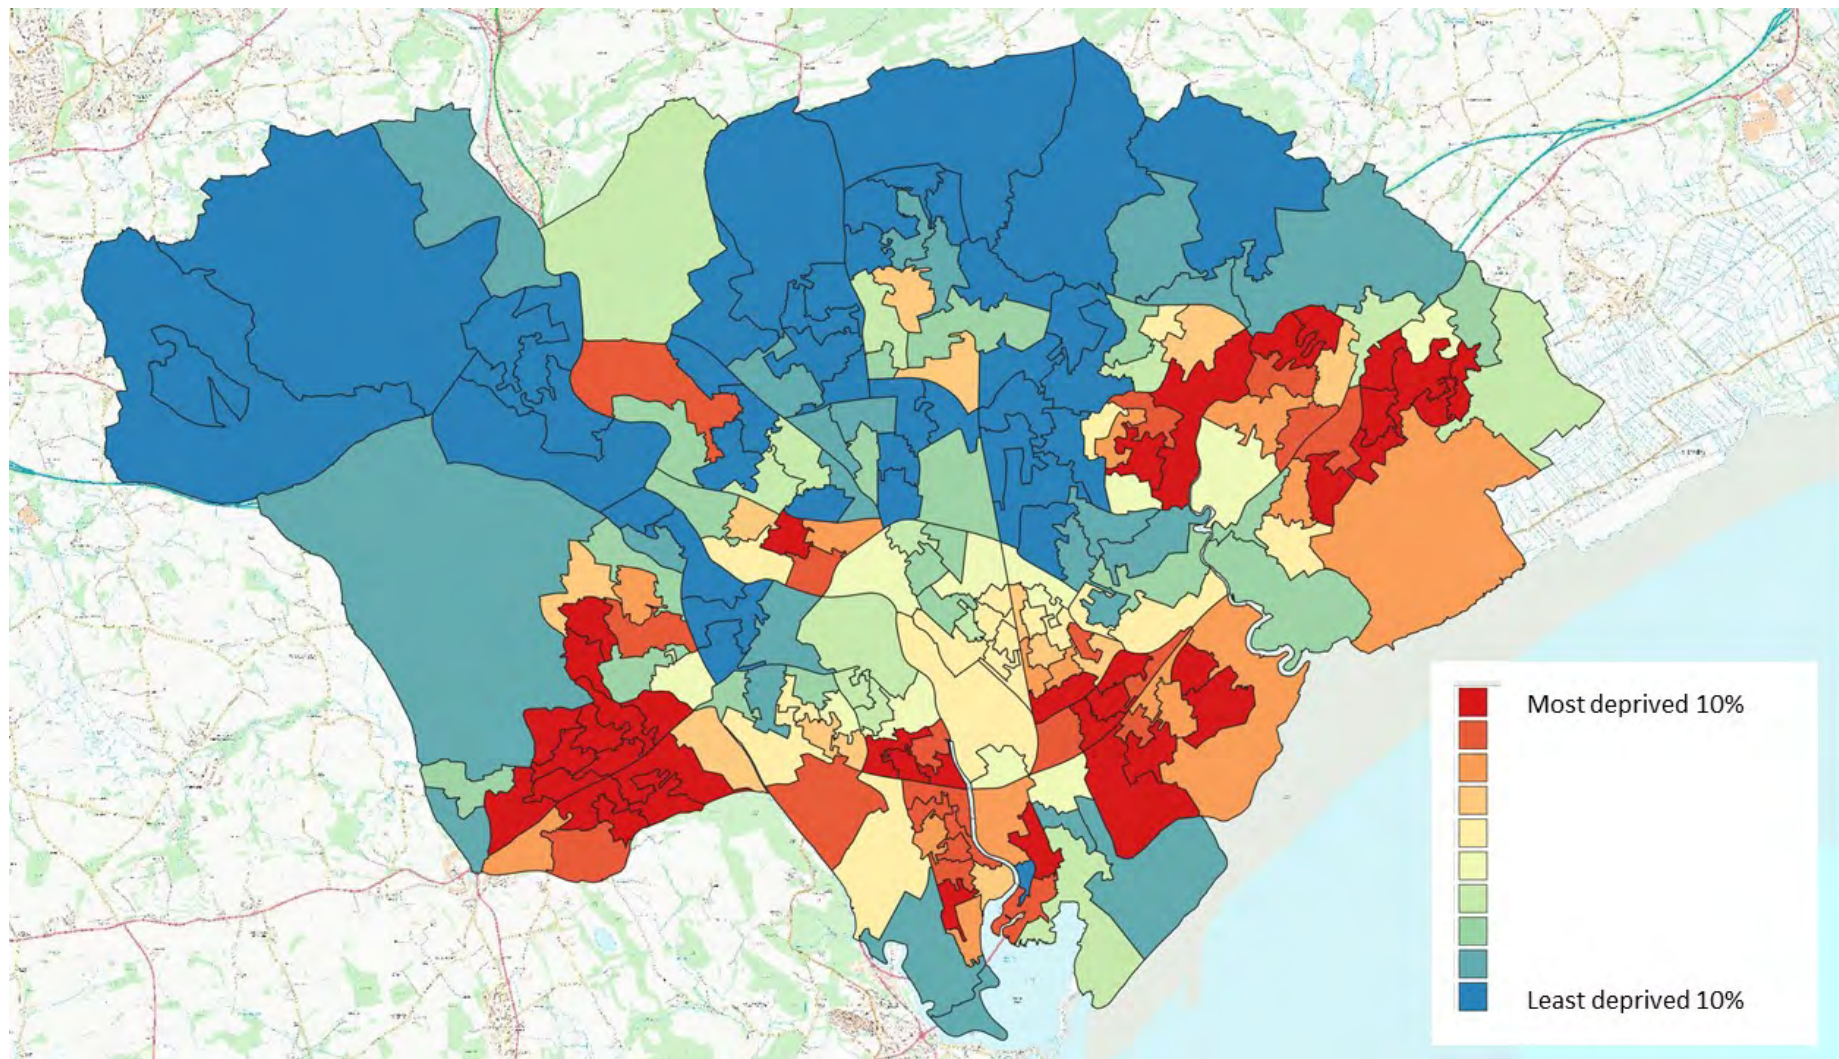

Figure 3.1.4 Index of Multiple Deprivation, overall 2019

Fewer children are living in low-income families, but more than the Wales average

23% of dependent children aged under 20 in Cardiff are living in low-income families, more than the Wales and UK averages. There has been a gradual reduction in this since 2009, when it was 27%. Children from low-income families are more likely to be unhealthy or have poorer educational outcomes. There are large discrepancies across Cardiff in terms of children in low-income families: nearly 45% in Ely, and less than 5% in Rhiwbina (Figure 3.1.5).

Page 64

Figure 3.1.5 Children in low-income families, 2015⁴²

Lack of affordable housing units - particularly family housing – is excluding those on low income from entering the housing market

In October 2020 (the most recent date available at the time of writing), the average price of a house for Cardiff was £217,804, an increase of 39% from £156,284 in October 2010⁴⁰. The price of detached houses has grown particularly fast. The average annual salary in 2019 was £28,660, 9% higher than the Wales average but 6% lower than the UK average⁴¹. In 2019, the ratio of house price to annual salary was 7.6, up from just under 6 in 2012, and just under the UK average (Figure 3.1.6).

⁴¹ www.nomisweb.co.uk

⁴² <https://www.cardiffpartnership.co.uk/wp-content/uploads/Cardiff-in-2018-Final-English.pdf>

⁴³ https://www.cardiff.gov.uk/ENG/Your-Council/Have-your-say/Ask%20Cardiff%20Library/The%20Cardiff%20Economy%20and%20Labour%20Market_Apr%2018_Mar%2019.pdf

Provision of enough affordable housing is an ongoing problem in Cardiff. In early 2021, there were approximately 8,000 applicants on the council housing register, compared to 10,491 in mid-2010. The Local Development Plan sets a target for the delivery of 6,646 affordable units to be provided between 2014 and 2026, with an interim target to provide 1,942 affordable dwellings by 2019. By 2019, 1,082 affordable units had been delivered, representing 25% of overall completions. This reflects the slower than anticipated progress in the strategic housing allocations being delivered (Table 1.1).

The quality of housing in Cardiff is variable, with housing in the south of the council being more likely to be overcrowded and without central heating than elsewhere in Cardiff (Figure 3.1.7).

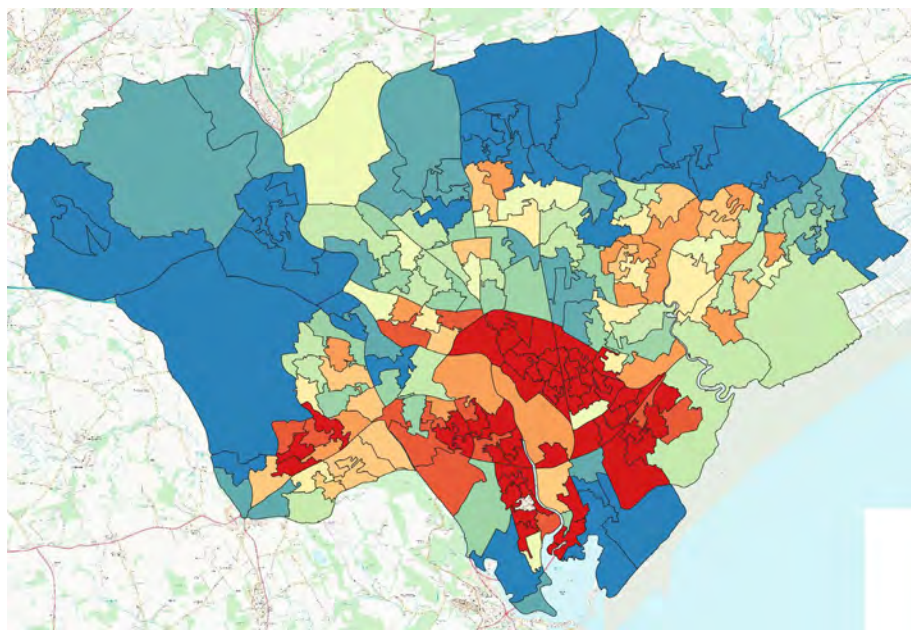

Figure 3.1.7 Index of Multiple Deprivation 2019 housing⁴⁴

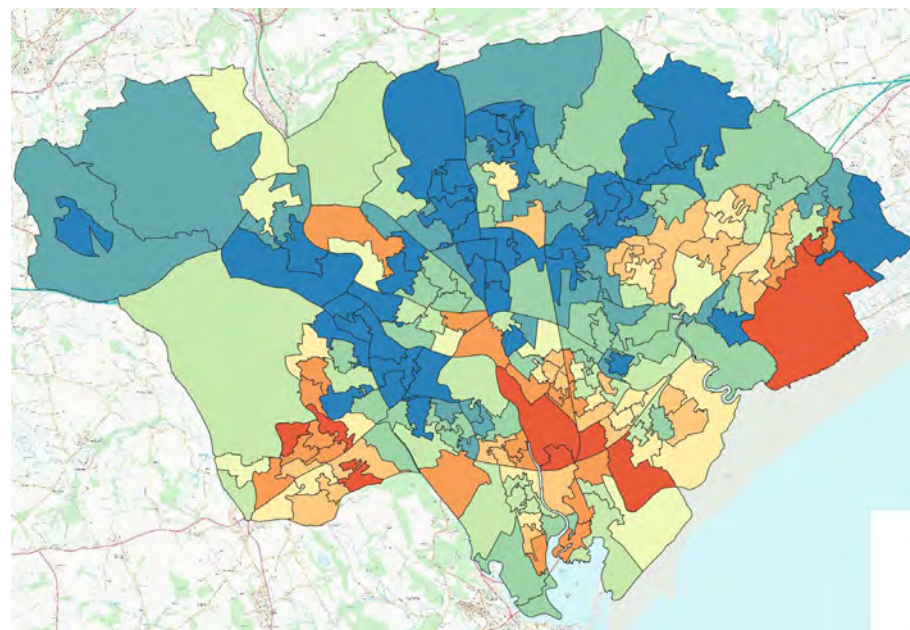

Figure 3.1.8 Index of Multiple Deprivation 2019 access to services³⁵

⁴⁴ See Figure 3.1.3 for legend

Homelessness in Cardiff is rising

People experiencing homelessness are especially vulnerable and there are a significant number of them living in Cardiff. Hostels and lodging houses are concentrated around the city centre. Cardiff also attracts a high number of young people who have left home, absconded from care, or are vulnerable in other ways. During 2017/18, Cardiff Council received 3,987 enquiries from homeless people or those at risk of homelessness, up 67% from just two years earlier. The number of homeless people in Cardiff rose from 1,274 in 2015 to 1,976 in 2018. In response to the coronavirus pandemic, Cardiff Council has found accommodation for most of the city's rough sleepers, and the Welsh Government is spending £20 million to help ensure that people do not need to return to rough sleeping.⁴⁵

Cardiff has good access to services although deficiencies still exist at a local level

As would be expected for a compact city, the Welsh Index of Multiple Deprivation indicates that Cardiff has good access to services⁴⁶. Nowhere in Cardiff is in the worst 10% for Wales in terms of access (Figure 3.1.8).

Likely future without the plan

Figure 3.1.1 shows the 2014-based and 2018-based population projections for Cardiff. The 2014-based projections are for about 80,000 more people to live in Cardiff in 2039 compared to 2018. The 2018-based projections to 2039 are not yet available, but are significantly lower than the 2014-based projections. All of the projections were made prior to Brexit, and so may change significantly.

The proportion of Cardiff residents aged 65+ is expected to grow from 14.5% in 2019 to 17.7% in 2039. Of these, the proportion of residents aged 85+ is expected to grow from 2.2% to 3.5% of the population.⁴⁷ This has implications for the provision and design of those parts of the built environment that support older people's health and social connections, for instance warm homes, intergenerational spaces in homes, good transport links, green spaces and community centres.

The current Local Development Plan provides for a large amount of new housing, notably in six strategic development sites. Planning and, in some cases, construction is progressing on all of these sites. There has been a trend of decreasing deprivation in Cardiff, which could continue with increasing employment, housing and access to green spaces and walking/cycling routes.

⁴⁵ <https://gov.wales/welsh-government-announce-new-20-million-fund-transform-homelessness-services>

⁴⁶ The access to services index relates to the average time it would take to access 8 key services (food shop, GP surgery, primary school, post office, public library, leisure centre, NHS dentist, secondary school, and a transport node)

⁴⁷ <https://cavuhb.nhs.wales/files/key-publications/dph-report-2020-pdf/>

3.2 Air quality

Introduction

Air pollution is the largest environmental risk to health. It is linked to climate change and affects many plants and sensitive ecosystems. Public Health Wales estimates that nitrogen dioxide (NO₂) pollution leads to about 220 deaths per year in the Cardiff and Vale Health Board area, and particulates (PM_{2.5}) about 225 deaths⁴⁸. Average air pollution concentrations are highest in the most deprived areas where levels of chronic ill health tend to be highest, so there is an equality component to air pollution⁴⁹. Poor air quality also has negative effects on vegetation and ecosystems.

Cardiff Council periodically reviews and assesses air quality for compliance with objectives of the Air Quality (Wales) Regulations 2000. The 2019 Annual Air Quality Progress Report⁵⁰ concludes that there were no exceedances of legal limits for benzene, carbon monoxide or sulphur dioxide in 2018, but there were exceedances of nitrogen dioxide, ozone and particulates. There was no 2020 progress report; however the Welsh Government’s Clean Air Advisory Panel found that, during the first coronavirus lockdown, NO_x levels in urban areas fell on average by 30-40%, whilst ozone levels increased and levels of particulates (PM_{2.5}) stayed roughly the same.⁵¹

Nitrogen dioxide is the main cause of air pollution 'hot spots' in Cardiff

Levels of nitrogen dioxide (NO₂) vary throughout the city, but are broadly highest in the city centre and lowest on the edges of Cardiff, notably in the Wentlog Levels (Figure 3.2.1). Vehicles and wood burning stoves area also the main generators of particulates (PM_{2.5}).

Cardiff has four Air Quality Management Areas (AQMA), all designated because air quality in those areas exceeds the legal NO₂ threshold of 40µg/m³. NO₂ is primarily caused by road traffic. Four AQMAs were originally declared: Newport Road, Philog and Cardiff West in 2000, and St Mary Street in 2002. The first two were revoked in 2007, and the area of the Cardiff West AQMA

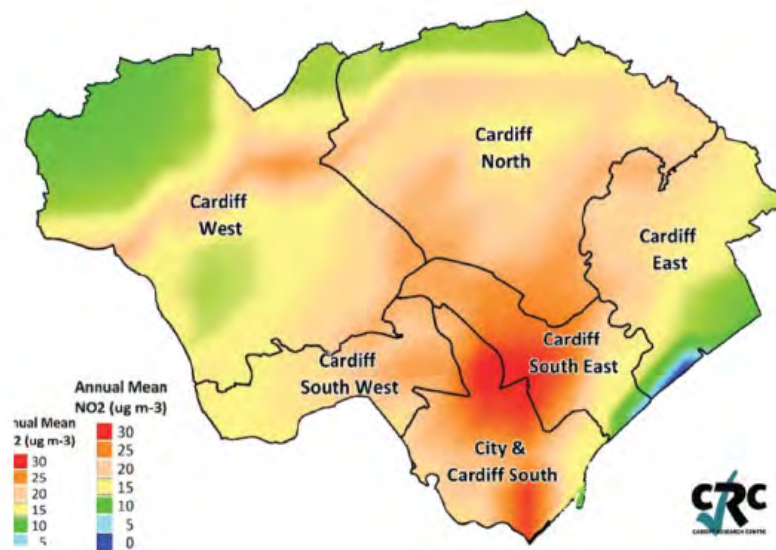

Figure 3.2.1 Annual mean NO₂ levels, 2014⁵²

Table 3.2.1 NO₂ levels at Cardiff AQMAs over time (red cells show where the AQMA exceeds the annual threshold of 40µg/m³)⁵⁴

⁵⁴ <https://cardiff.moderngov.co.uk/documents/s35876/Cabinet%202021%20November%202019%20Local%20Air%20Quality%20Progress%20Report%20App.pdf>

The Transport and Clean Air Green Paper consultation of 2019⁵⁵ asked respondents to rate different measures for improving air quality in the city. The most preferred options were integrated ticketing, a zero carbon bus fleet, and digital user information for buses. Least preferred were measures that would require divers to change their behaviour: parking levies, a total city 20mpg zone, active travel targets, and clean air zones (Figure 3.2.3)

Likely future without the plan

Prior to the coronavirus pandemic, air quality in Cardiff was expected to continue to improve in response to tightening vehicle emission requirements, an increase in electric vehicles, and a greater uptake of non-car modes of transport. It is unclear whether changes in people’s lifestyles due to the pandemic – more home-based working, less commuting, less travelling for retail and leisure – will continue post-pandemic. If they do, then air quality is likely to improve faster than initially predicted. It is also unclear whether Brexit will affect transport movements and air quality legislation in Wales. The impacts of poor air quality can be worsened by higher temperatures, so climate change could lead to more air quality related health problems.

The Clean Air Plan for Wales⁵⁶ aims to reduce air pollution over ten years. The 2018 Clean Air Zone Framework for Wales⁵⁷ identifies Cardiff as a location where a Clean Air Zone could be implemented. NRW’s South Central Wales Area Statement⁵⁸ aims to reduce air pollution, taking the needs of the environment and ecosystems into consideration. Cardiff has put forward an outline bid for funding for improving air quality in the city centre⁵⁹.

3.3 Biodiversity, flora and fauna

Introduction

Cardiff has a wide range of biodiversity interests which extend from Flat Holm Island in the Severn Estuary to the hills forming the northern edge of the city, a thousand feet above sea level. Habitats and species have developed in response to local conditions and represent Cardiff’s biodiversity resource.

Cardiff has a wide range of sites designated for biodiversity, including two European Designated Sites (the Severn Estuary and Cardiff Beech Woods)

Figure 3.3.1 shows the location of designated sites in Cardiff. The Severn Estuary Special Area of Conservation (SAC), Special Protection Area (SPA) and Ramsar Site consists of intertidal mudflats, sandflats, saltmarsh, shingle and rocky shoreline. These habitats support internationally important populations of waterfowl. The estuary is also important for the run of migratory fish, and it has an immense tidal range. The Cardiff Beech Woods SAC is one of the largest concentrations of beech forests in Wales, and represents the habitat close to western limit of its past native range in both the UK and Europe. Table 3.3.1 summarises the condition of, and threats and pressures on these internationally important sites for nature conservation. Key pressures are recreational disturbance, urbanisation, and other human-induced changes. NRW also identifies air pollution as being a threat to European Designated Sites. The condition of the birds using the Severn Estuary is particularly problematic.

Table 3.1.1 Condition of, and threats and pressures on, internationally important nature conservation sites in/near Cardiff⁶¹

Global condition of qualifying feature:

A	B	C	* There is no information on global status for these birds. The information is provided on isolation; population is consistently one 'grade' better
---	---	---	---

The 18 Special Scientific Interest (SSSIs) in Cardiff range from woodland, aquatic, marsh and grassland habitats to sites of geological interest⁶², and from favourable to unfavourable status. The status of many – including the very large Gwent Levels and Severn Estuary SSSIs - is unknown (Table 3.1.2).

⁶³ Elizabeth Felton, Natural Resources Wales, pers. comm., March 2020.

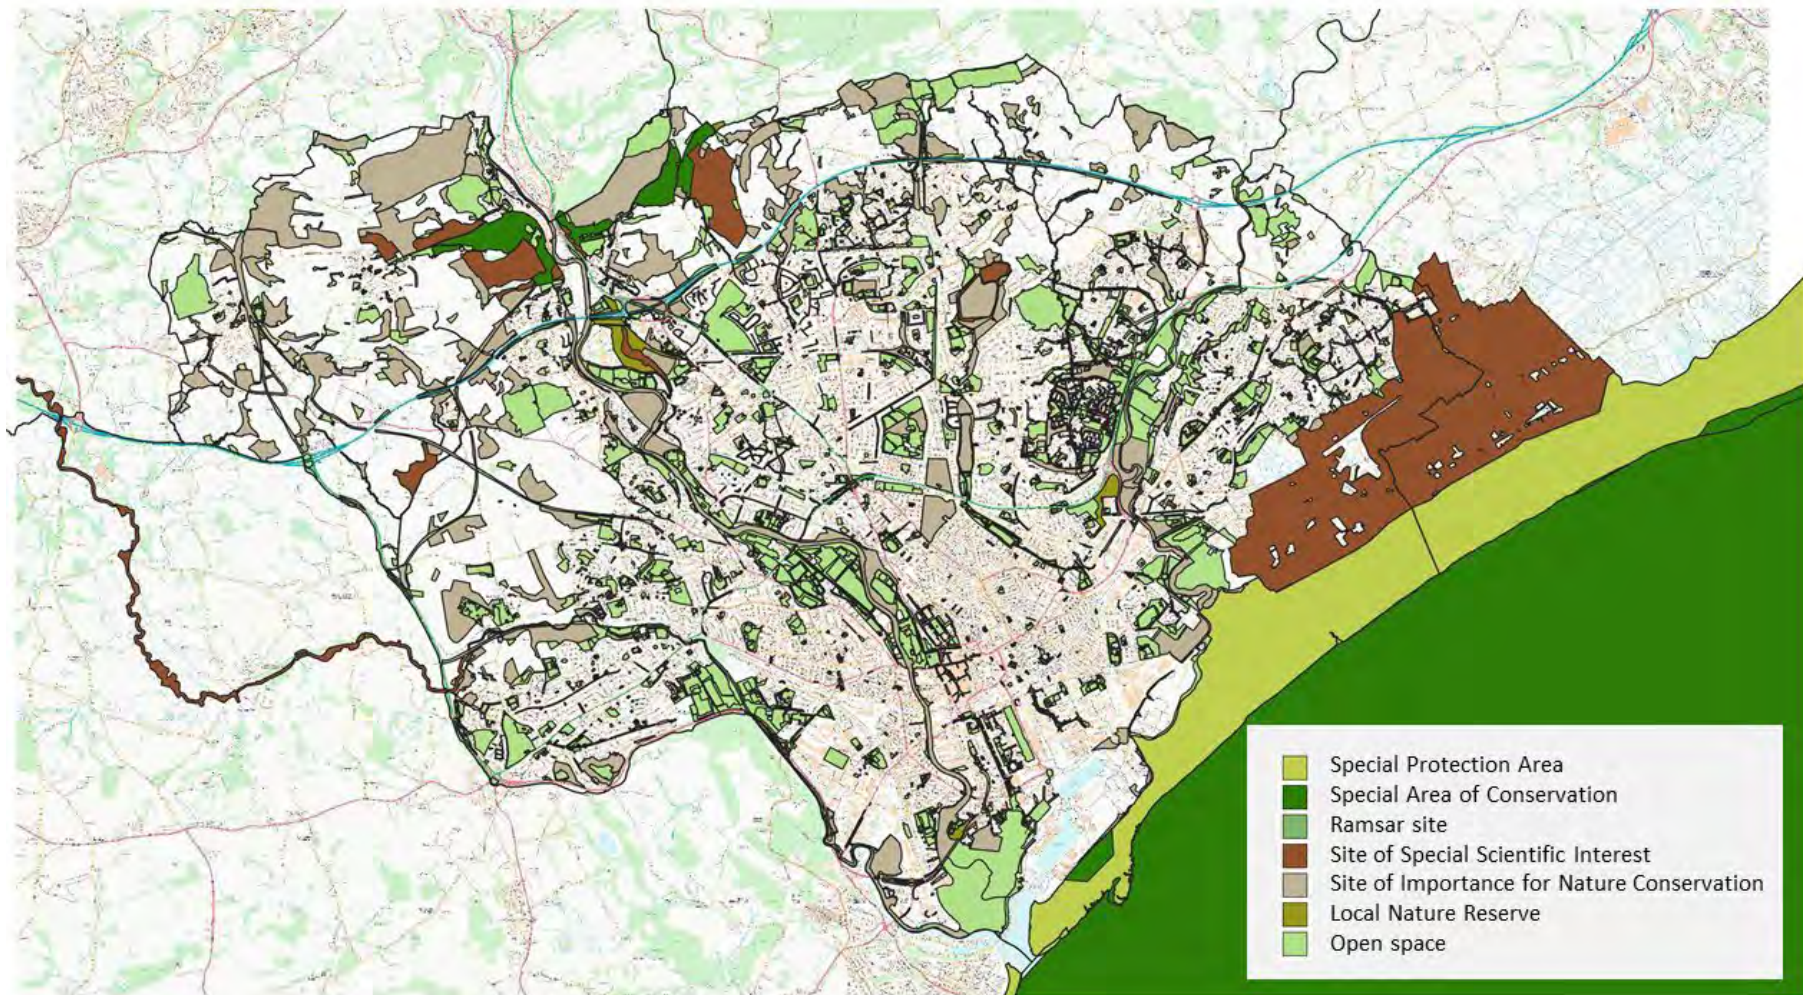

Figure 3.3.1 Designated nature conservation sites and open space in Cardiff

Six Local Nature Reserves covering 150ha provide good opportunities to access local wildlife and there are 181 additional Sites of Importance for Nature Conservation (SINCs) covering 1672ha.

European protected species occurring in Cardiff are the Great Crested Newt, Otter, Dormouse and Bats. Otters are now present on all three main rivers and have also extended to tributaries and other water bodies. Dormice require a woodland habitat and are known to primarily exist across the northern ridge and east of the city. All species of bats are protected and their distribution varies: some are widespread such as the Pipistrelle whilst others are localised.

Cardiff has many existing corridors and networks of mixed habitats providing good connectivity for species

The valleys of the rivers Taff, Ely and Rhymney form strategically important corridors of open space containing a wide variety of habitats that run through the city from the countryside to the Severn Estuary. These provide valuable wildlife corridors and connectivity between habitats that are important for many species. Feeder tributaries and streams generally run from higher ground to the north and feed into the main rivers, providing a similar function. Features such as woodlands, hedgerows, marshlands, alder carrs and disused rail lines are common in the countryside surrounding the urban area. This patchwork of varied habitats provides a good resource for biodiversity (Figure 3.3.2). However Cardiff's woodland cover is fragmented, with few areas larger than 5 hectares.

Figure 3.3.2 Green infrastructure in Cardiff⁶⁴

⁶⁴ <https://cardiff.moderngov.co.uk/documents/s34305/Cabinet%2026%20Sept%202019%20Biodiversity%20BRED%20App.pdf>

Urban areas can support biodiversity through a wide range of measures

There is little information on biodiversity in Cardiff, notably the condition of SSSIs and the location and abundance of protected species. However, Natural Resources Wales has identified a wide range of actions that can be carried out in urban areas such as Cardiff to support biodiversity⁶⁵:

- Promote sustainable transport
- Promote low carbon, energy efficient housing; increase the energy efficiency of the housing stock
- Deploy renewables
- Implement water efficiency measures such as off-line storage, rainwater harvesting and greywater recycling. Initiate behavioural change to a more conservative use of water.
- Increase the amount of highly water-efficient domestic appliances in new and existing homes
- Reduce non-supply leakage and waste through awareness-raising initiatives
- Promote SUDS in existing developments
- Protect large trees in urban areas and promote the planting of street trees
- Increase the rate of new woodland creation and plant more trees
- Monitor the change in selected mammal and invertebrate species in urban areas
- Manage green spaces
- Provide adequate garden space for homes likely to house children
- Increase biodiverse, accessible green space
- Manage road verges for biodiversity
- Convert lawns around public buildings to biodiverse meadows
- Use more timber in construction to help reduce emissions and support the timber industry

⁶⁵ Natural Resources Wales (2020) State of Natural Resources Report also recommends actions for coastal margins, farmland, marine and freshwater and woodlands which can also apply to Cardiff. In particular, this includes protection and restoration of coastal margin habitats including saltmarsh, and coastal adaptation through nature-based solutions.

<https://naturalresources.wales/evidence-and-data/research-and-reports/state-of-natural-resources-report-sonarr-for-wales-2020/sonarr2020-our-assessment/sonarr-2020-natural-resources-registers/?lang=en>

Likely future without the plan

The lack of information on biodiversity in Cardiff makes it difficult to plan for and monitor its condition.

New developments within and outside the settlement boundary have the potential to harm Cardiff's biodiversity resource. Brownfield sites can contain significant biodiversity interest and it is important that these are recognised and protected where possible. Similarly, the river valleys and countryside are vulnerable to insensitive development and changing agricultural and land use practices. The coronavirus pandemic has shown just how important green spaces are for people's physical and mental wellbeing: there may be a conflict between making green spaces publicly accessible and protecting their biodiversity.

The Welsh government declared a nature emergency in June 2021. Planning Policy Wales⁶⁶ requires planning authorities to seek to maintain and enhance biodiversity, and protect the resilience of ecosystems. In particular it expects planning authorities to consider diversity between and within ecosystems; the connections between and within ecosystems; the scale of ecosystems; the condition of ecosystems including their structure and functioning; and the adaptability of ecosystems. NRW's South Central Wales Area Statement⁶⁷ aims to work towards building resilient ecosystems and connecting people with nature. Cardiff Council has prepared a Biodiversity and Resilience of Ecosystems Duty strategic plan⁶⁸, Green Infrastructure Supplementary Planning Guidance⁶⁹, and an Ecology & Biodiversity Technical Guidance Note. It has started to produce a Local Nature Recovery Action Plan.

3.4 Climate change

Introduction

Human induced climate change is the greatest short- and long-term challenge facing the human race. Globally, greenhouse gas emissions have increased steadily since the industrial revolution. Greenhouse gas concentrations in the atmosphere now stand at 454ppm CO₂ equivalent, 37ppm more than just ten years ago⁷⁰, and compared with only 280ppm before the Industrial Revolution. The rising concentration is driven by increasing emissions from human activities, such as energy generation, traffic and land-use change.

Risks associated with climate change include:

- Increased risk of flooding and erosion (see Sec. 3.11)
- Increased pressure on drainage systems
- Drier soils and subsidence
- Significant habitat and species changes and loss
- Water quality issues in rivers and lakes
- Greater incidence of drought and problems with water supply
- Lower air quality
- Acidification of the sea
- Health issues in the summer, including the urban heat island effect
- Reduced energy demand in winter but increased demand in summer
- Increased prevalence of insect and water borne diseases
- Vulnerability of transport, waste and energy infrastructure
- Increase in demand for, and cost of, water
- Increased insurance costs and decreased property values
- Increased risk of forest and heathland fires
- Changes in the landscape
- Increased tourism due to warmer weather

The Cardiff area is likely to be subject to greater increases in temperature as a result of climate change than most of the rest of the UK (UKCIP 2009)

Cardiff Council declared a climate emergency in March 2019, and the Welsh Government declared one a month later. Cardiff Council is aiming to reach carbon neutrality⁷¹ by 2030, and the Welsh Government aims for Wales to reach ‘net zero’ greenhouse gas emissions by 2050⁷². This section begins with causes of climate change – emissions of greenhouse gases - and continues with how Cardiff is dealing with climate change. Section 11 discusses flooding.

⁷⁰ <https://www.eea.europa.eu/data-and-maps/indicators/atmospheric-greenhouse-gas-concentrations-6/assessment-1>.

⁷¹ “Carbon neutrality, or having a net-zero carbon footprint, is the balancing of carbon emissions against carbon removal, often through carbon off-setting, with the net result being zero.”
<https://www.oneplanetcardiff.co.uk/>

⁷² <https://www.itv.com/news/wales/2019-05-02/wales-warned-to-cut-greenhouse-emissions-by-95-before-2050/>

Cardiff’s CO₂ emissions per person are decreasing, particularly due to reductions in industrial and commercial emissions

Carbon dioxide (CO₂) accounts for most greenhouse gas emissions. Annual greenhouse gas emissions in Cardiff have been decreasing steadily, from 2679kt in 2005 to 1647kt in 2018, a 39% reduction (Figure 3.4.1). Emissions from industrial and commercial activities have fallen particularly quickly. Annual per person emissions have fallen even faster, given that Cardiff’s population increased during this time: they dropped by 46%, from 8.3 tonnes/person to 4.5 tonnes/person. These decreases are partly attributable to more energy-efficient buildings and appliances, but also to the economic recession and subsequent austerity measures.

Figure 3.4.1 Greenhouse gas emissions (in kilotonnes, kt) for Cardiff⁷³

Figure 3.4.2 Annual traffic levels, billion vehicle-km, Cardiff⁷⁴

Domestic energy use is responsible for almost one-third of Cardiff’s CO₂ emissions. Cardiff’s per person domestic energy use is slightly lower than the Welsh and GB average, and decreased by 14% between 2008 and 2018.

Traffic accounts for another 30% of emissions, and was not going down before the coronavirus pandemic. After consistent traffic growth to 2004, traffic dropped by about 5% in the late 2000s as a result of the recession, but then rose again and was at almost its highest-ever level in 2018 (Figure 3.4.2). This was despite the fact that most areas of the city have good access to services generally (Figure 3.1.8) and to bus services specifically (Figure 3.4.3). This has changed, at least temporarily, as a result of the pandemic, but comparable figures had not yet been released by early 2021.

⁷³ <http://www.infobaseymru.net/IAS/themes/environmentandsustainability/environment/tabular?viewId=518&geold=1&subsetId=>

⁷⁴ <https://roadtraffic.dft.gov.uk/local-authorities/19>

A significant part of Cardiff’s traffic comprises commuters from outside Cardiff.

Prior to the pandemic, almost 100,000 people commuted into Cardiff every day, of which about 80% travelled by car: this was a net inflow of 67,800 people⁷⁵ (Figure 3.4.4). Additionally, 190,000 commuter trips were made by Cardiff residents every day, of which about 30,000 were to work outside the city. Drivers were losing on average 143 hours per year to congestion⁷⁶. Again, the pandemic has changed this, but the degree to which this is happening is not clear.

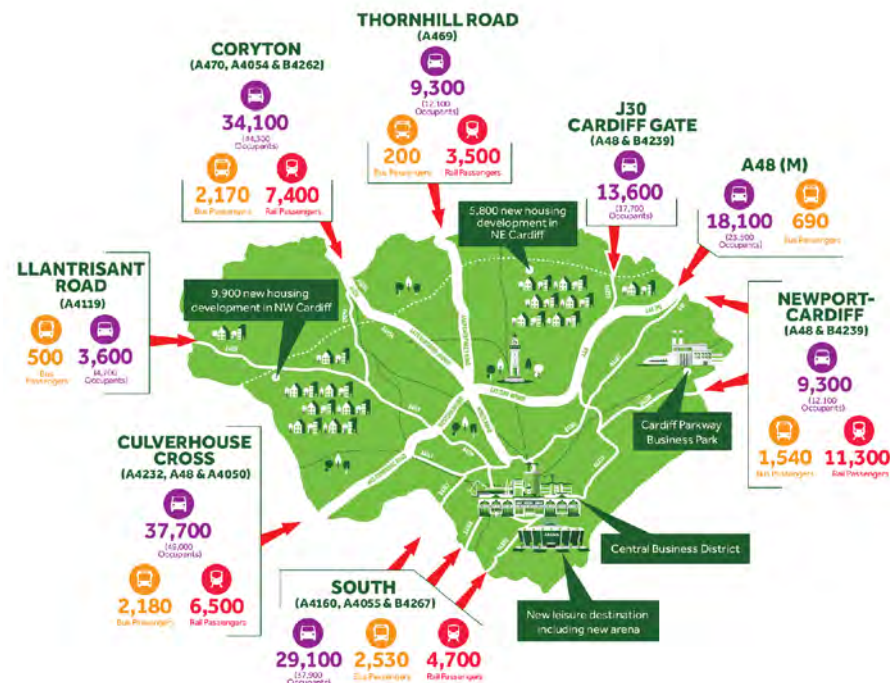

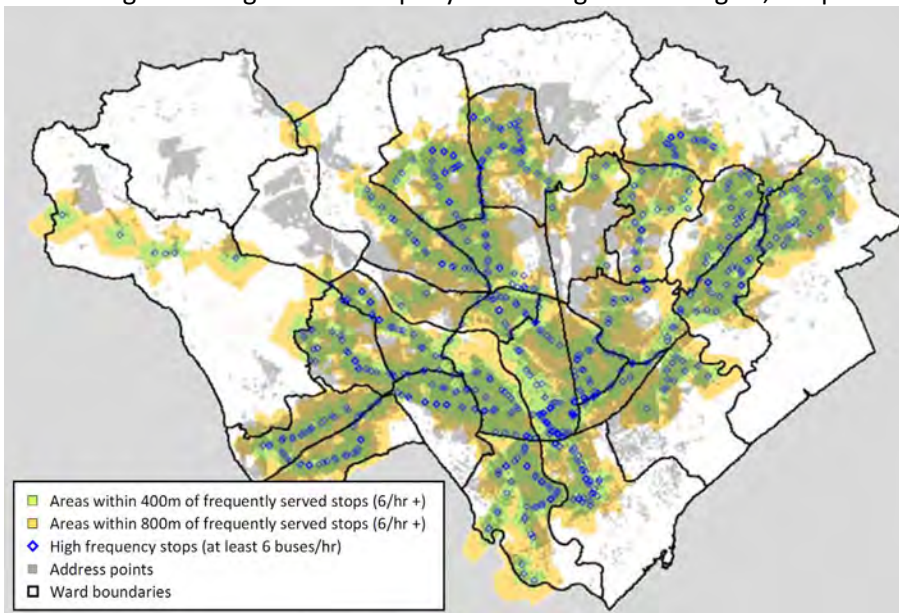

Figure 3.4.3 Bus accessibility in Cardiff⁷⁷

⁷⁵ https://www.cardiff.gov.uk/ENG/Your-Council/Have-your-say/Ask%20Cardiff%20Library/The%20Cardiff%20Economy%20and%20Labour%20Market_Apr%2018_Mar%2019.pdf.

⁷⁶ <https://www.cardiff.gov.uk/ENG/resident/Parking-roads-and-travel/transport-policies-plans/transport-white-paper/Documents/White%20Paper%20for%20Cardiff%20Transport%202019.pdf>

⁷⁷ <https://www.cardiff.gov.uk/ENG/resident/Planning/Local-Development-Plan/Annual-Monitoring-Report/Documents/Cardiff%20LDP%203rd%20AMR%20English%20Version%20Final.pdf>

⁷⁸ Ibid.

About half of journeys to work and education have been by car, but this is slowly changing. The proportion of Cardiff residents commuting to work by bike rose rapidly between 2003 and 2018, and particularly since 2015 (Figure 3.4.6). The proportion of people travelling to education by bike has also risen significantly (Figure 3.4.7)⁷⁹. This has coincided with the publication of the Cardiff Cycling Strategy 2016-2026⁸⁰; and the ‘Nextbike’ rental system which started in March 2018. In the 2019 Transport Survey, 66% of respondents indicated that they commute to work at least once a week by car or van; and 31% stated that they travel to work at least once a week by bike.⁸¹

Figure 3.4.6 Non-car mode of travel to education⁸²

⁸¹ <https://www.cardiffpartnership.co.uk/wp-content/uploads/Cardiff-in-2018-Final-English.pdf>

⁸² Ibid.

Cardiff is increasingly producing renewable energy.

Cardiff produces only small amounts of solar energy, and little energy from wind, biomass or hydropower (Figure 3.4.7). However Cardiff’s Tremorfa food recycling plant, opened in 2017, provides 1.8MW of electricity per year. Cardiff also has the largest energy from waste facility in Wales: the 30MWe Trident Park energy recovery facility which was commissioned in 2015. The Cardiff East sewage gas plant generates 4MWe and 5 MWth, almost half of the Wales total of sewage gas electricity⁸³. A 9MW solar farm has been built at the former Lamby Way landfill site: this is not yet reflected in Figure 3.4.7.

Figure 3.4.7 Renewables generation (GWh) in Wales 2019⁸⁴

Likely future without the plan

The climate is already changing as a result of past greenhouse gas emissions, and this trend is expected to worsen over time.

Cardiff’s additional future population will generate additional traffic, potentially worsening congestion and greenhouse gas emissions. This may be counter-balanced by lifestyle changes triggered by the coronavirus pandemic, including more people working from home, more use of local rather than distant services and facilities, and more walking and cycling. The more widespread use of electric vehicles would also reduce greenhouse gas emissions if the electricity mix is primarily from renewables.

In early 2020 Cardiff Council secured government funding to develop a city-wide heat network, using in part heat from the Viridor/Trident Park energy from waste plant.⁸⁵ The system is expected to supply heat to the Wales Millennium Centre, County Hall, Cardiff Central Square, St. David’s shopping centre and the Cardiff Royal Infirmary⁸⁶.

⁸³ <https://gov.wales/sites/default/files/publications/2020-11/energy-generation-in-wales-2019.pdf>

⁸⁴ Ibid.

⁸⁵ www.oneplanetcardiff.co.uk

⁸⁶ www.walesonline.co.uk/news/local-news/cardiff-councils-26m-underground-network-17024200

One Planet Cardiff⁸⁷, published in 2020, sets out seven main actions to allow Cardiff to become a Carbon Neutral City and Council by 2030:

1. Large scale housing and development retrofit, to reduce fuel poverty and related health conditions
2. Resilient low energy and resource efficient development
3. Low cost efficient energy generation to bring job and climate benefits
4. Low energy active transport – support for ultra low emission vehicles, car clubs, charging infrastructure and active travel routes
5. Greening the city, including increased tree coverage and more biodiversity friendly land management
6. Low carbon affordable food
7. Procurement using circular economy models, and contracts that are more accountable for their climate consequences.

Cardiff Council is promoting a new Cardiff Crossrail and a new Cardiff Circle tram-train line (see Figure 2.4). These would link the new communities in the west of the city, and existing communities in the east which are currently poorly served by public transport, to the city centre and Cardiff Central. It is also aiming to reduce bus fares, improve bus services including bus priority at traffic lights; establish new Park & Ride facilities including at Junction 33 and Junction 32/A470; and improve cycling facilities in the city⁸⁸. Cardiff's NextBike bike rental system allows access to bikes, including to people from deprived communities⁸⁹.

The Welsh Government are supporting the growth of Cardiff Airport which, prior to the pandemic, aimed to double its passenger numbers by the end of the RLDP period⁹⁰: this would generate additional greenhouse gases.

3.5 Cultural heritage and the historic environment, including Welsh language

Introduction

Cardiff as seen and experienced today, and its place names, reflect a wealth of influences as it developed from a small community on the banks of the River Taff. Evidence still exists from Roman times and other key stages in the city's development. Most notably, the era of mining in the South Wales Valleys saw an unprecedented boom for Cardiff in terms of its economic and physical growth. Cardiff performed a vital role both as a port and commercial centre. The Victorian and Edwardian legacy in terms of street patterns and buildings is still clearly evident and provides a very distinctive character to large areas of the city. A range of formal designations have been used to help identify and protect the most important features of Cardiff's historic and architectural heritage. Whilst Cardiff continues to develop, it is important that its rich cultural, historic and architectural legacy is fully understood, protected and managed.

Cardiff contains a wide range of areas, buildings and monuments designated for historic value befitting of its Capital City status

Cardiff has 28 Scheduled Ancient Monuments. Archaeological remains provide important, often irreplaceable, information about the past. Their investigation and, where appropriate, preservation is important in its own right and can provide an invaluable educational and tourism resource. Four archaeologically sensitive areas have been identified in Cardiff: at City Centre, St Fagans/Michaelstone-super-Ely, the Wentloog Levels, and Llandaff. They represent the most likely areas where the effect of development on the archaeological resource may be an issue during the determination of a planning application. Cardiff Council published Supplementary Planning Guidance on these areas in July 2018⁹¹.

Cadw has listed 855 buildings or structures in Cardiff as being of Special Architectural or Historic Interest. Cardiff also has 27 conservation areas (covering 811.7ha in total) designated for their special historic or architectural interest. They vary greatly in size and character, and range from the villages of St Fagans and old St Mellons, to the more recent Victorian and Edwardian areas which developed during Cardiff's 'boom years.' All have Conservation Area Strategies which identify priorities for the areas. Cardiff has 15 Historic Parks and Gardens that cover 468 hectares. They are widely spread and of contrasting character. Some of the larger historic parks reach from the city centre to the outer suburbs. Cardiff's Grade I gardens are Cardiff Castle and Bute Park, Roath Park and St. Fagan's Castle.

Cardiff's heritage extends well beyond those identified in statutory protections. The city's Historic Environment Record holds at least 1,724 datapoints and 1,608 NMR/RCAHMW datapoints. All of the city's historic built fabric helps define the character of the city and the diverse cultural backgrounds of its residents and visitors. Figure 3.5.1 shows the extent of designated sites, features, buildings and areas. In 2015 (the most recently available in early 2021), 27 of Cardiff's listed buildings were at risk, and 116 were vulnerable. 85% of historic buildings were not at risk, compared to 86% in 2011 and 83% in 2006⁹².

⁹¹ <https://www.cardiff.gov.uk/ENG/resident/Planning/Planning-Policy/Supplementary-Planning-Guidance/Documents/Archaeologically%20Sensitive%20Areas%20SPG%20-%202018%20final.pdf>

⁹² <https://www.cardiff.gov.uk/ENG/resident/Planning/Conservation/Documents/Cardiff%20Listed%20Buildings%20at%20Risk%20-%202015.pdf>

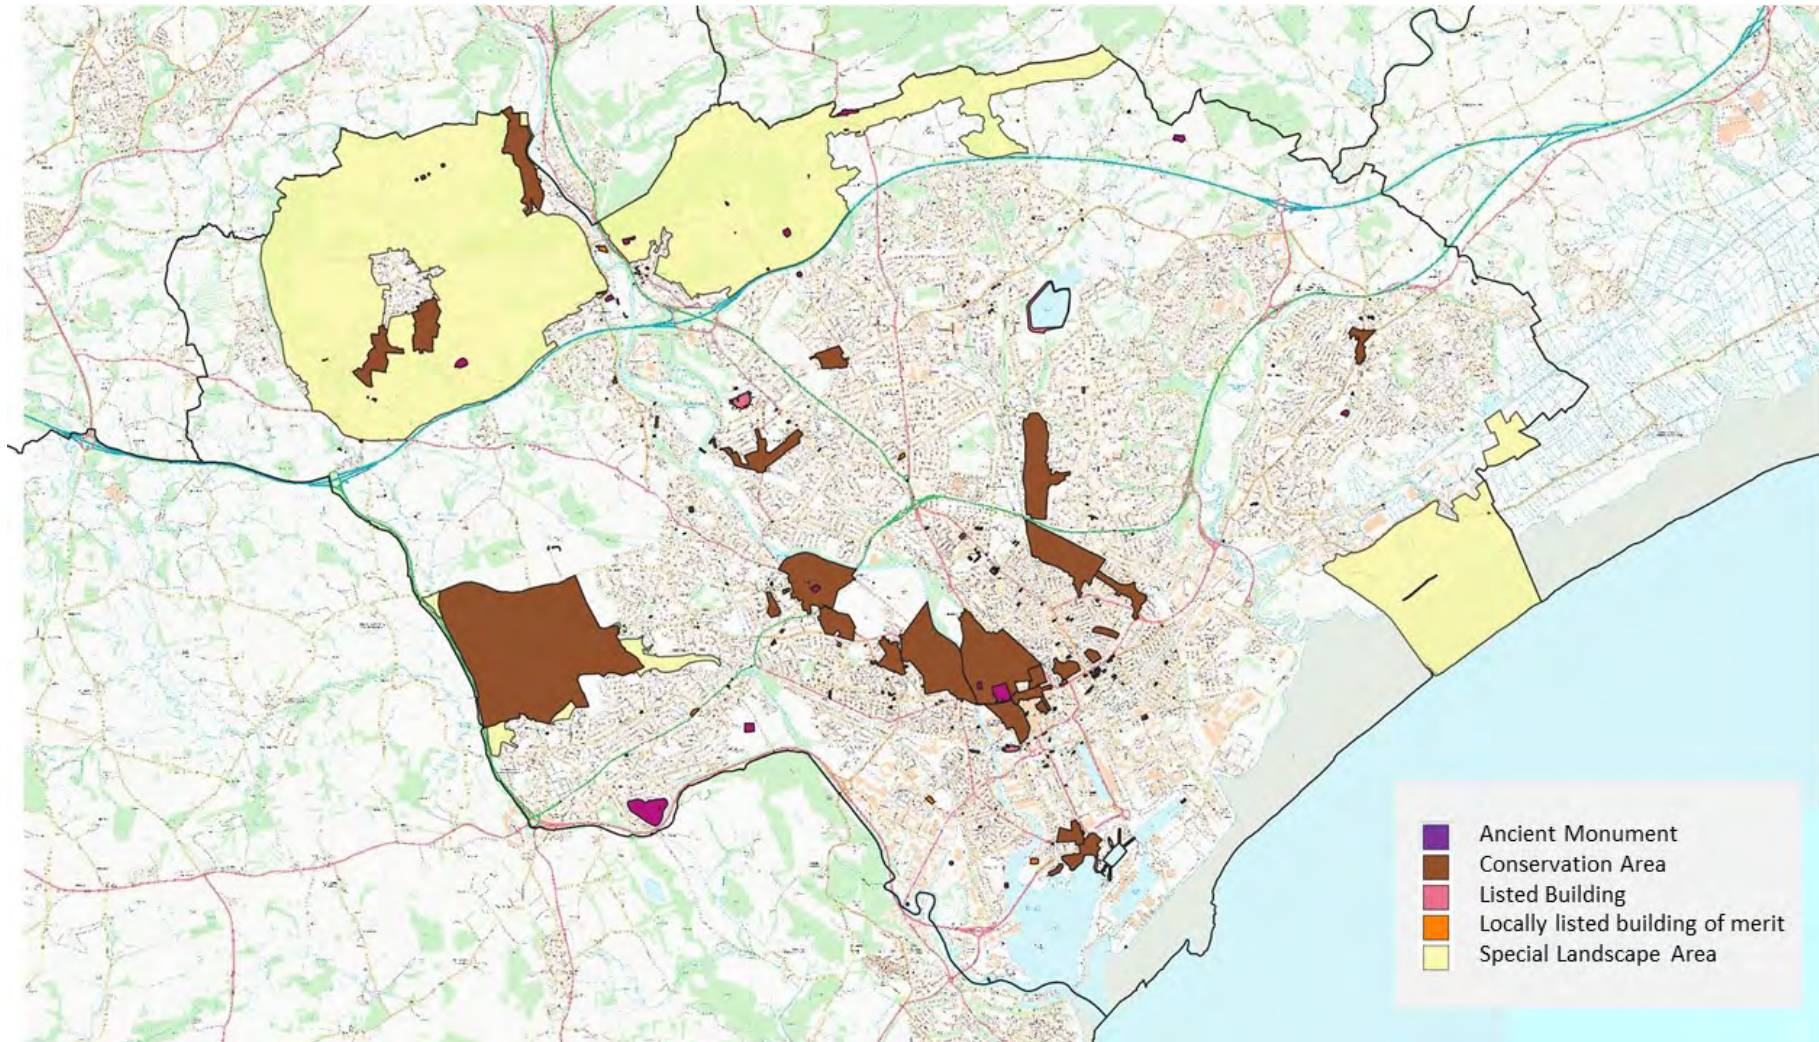

Figure 3.5.1 Sites, features, buildings and areas of conservation importance

The City’s cultural and historic attractions perform an important national and regional role, attracting large numbers of visitors each year

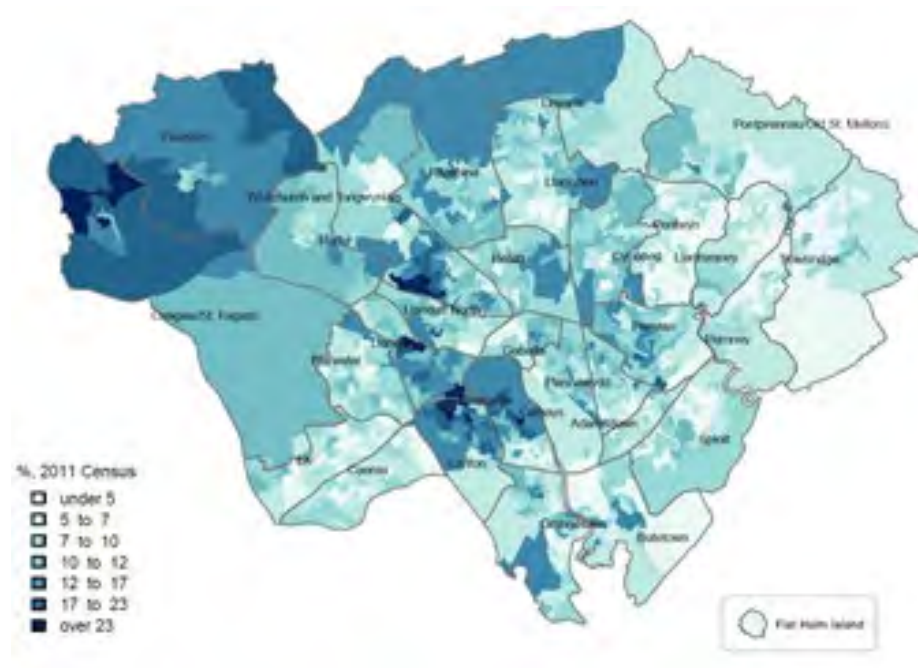

In 2017, more than 21 million people visited Cardiff, 5% more than the year before, bringing in £1.3 billion. Cardiff has recently hosted the UEFA Champions League Final, the Volvo Ocean Race, and that National Eisteddfod⁹³. In December 2019, Cardiff became the UK’s first music city, and its music strategy aims to place music at the heart of Cardiff’s future⁹⁴. That said, much of this has reduced or stopped during the coronavirus pandemic.

The Welsh language is increasingly spoken in Cardiff

Language is an invaluable tool in place-making and identity. The Welsh Language (Wales) Measure 2011 makes Welsh an official language in Wales, and it must be treated no less favourably than English.

The 2019 Welsh population survey found that 22% of Cardiff’s residents said that they can speak Welsh (Figure 3.5.2), compared to a Welsh average of 29%⁹⁵. Figure 3.12.1 shows the proportion of Cardiff residents who could speak, read and write Welsh in 2011: the highest proportion is in Creigiau/St Fagans, Riverside and Llandaff. The proportion of Welsh speakers has increased further since then⁹⁶, with much of the increase attributable to young children⁹⁷. In terms of numbers as opposed to proportion, Cardiff has the third highest number of Welsh speakers in Wales.

Welsh education in Cardiff has moved from being ‘demand led’ to ‘active promotion’, and Cardiff now has three Welsh medium secondary schools, 15 primary schools, two dual stream primaries, and two Welsh medium Specialist Resource Bases.

⁹⁷ Cardiff Council (2020) Draft Welsh Language ISA Assessment.

⁹⁸ Ibid.

Welsh place names, street naming and signage help to ensure the more active use of the Welsh language

As a result of the Welsh Language Regulation (No. 1) Standards 2015, local authorities must comply with Welsh language standards in relation to the signage and official notices displayed by public authorities, including directional signage, building signage, and wayfaring and general information signs. Cardiff's street naming policy of 2019 aims to give all new streets a Welsh language name grounded in the locality, history and heritage of the immediate area. A formal list of Welsh place names for dwellings is expected to be available in 2021. Bilingual Cardiff and a naming panel are actively engaged with developers to provide Welsh language names for new developments, bilingual site marketing information, and Welsh or bilingual signage for commercial developments. Cardiff published a draft Supplementary Planning Guidance in 2019 relating to shop fronts and signage, which includes recommendations regarding the use of bilingual signage⁹⁹.

Likely future without the plan

The Local Development Plan aims to protect and enhance the city's heritage. As part of its 'music city' offer, Cardiff's council cabinet has appointed Live Nation and Oak View Group to develop and operate a live music arena. The new arena will have space for 15,000 spectators, double the size of the city's current largest indoor venue, the Motorpoint. The arena is projected to cost £150 million to build, and to create 1,000 jobs when open, which is expected to be in early 2024¹⁰⁰.

The use of Welsh in Cardiff is likely to increase in the future in response to policies such as Cardiff's Bilingual Cardiff Strategy Action Plan 2019 - 2022¹⁰¹, the Bilingual Cardiff Strategy 2017-2022¹⁰², the Welsh in Education Strategic Plan 2017-2020¹⁰³, and the Street Naming Policy¹⁰⁴. As a result, the Welsh language is expected to be introduced to new and emerging communities; Yr Hen Lyfrgell – Cardiff's Welsh Culture Centre will be supported; and there should be increasing opportunities for people to receive health and social care in Welsh. If current trends continue, Cardiff is likely to have the highest number of Welsh speakers in any Local Authority Area in Wales within a few years.

3.6 Economy

Introduction

Cardiff has undergone major changes over the last century with the decline of the coal industry, the increasing dominance of the service sector, and devolution combining to shape the city into what it is today.

Cardiff is the key economic driver for south-east Wales

Cardiff is the main driver of the South Wales economy. The number of jobs provided in Cardiff has risen rapidly, from 189,000 in 2000 to 241,000 in 2018¹⁰⁵. The economic recession led to job numbers remaining steady between 2004 and 2012, but job numbers have risen steeply since 2014¹⁰⁶ - see Figure 3.6.1.

Employment levels fell during the recession, from 71% in 2004 to 65% in 2012, but then rose again, and in September 2019 stood at 79.6%. This was higher than both the Welsh (76.8%) and GB (78.9%) averages¹⁰⁷. No figures more recent than June 2020 are available, although employment levels are likely to have fallen during the coronavirus pandemic.

Average salaries in Cardiff in 2020 were £14.36/hr, down from £15.12 in 2019. They were below the GB average of £15.18/hr (they were higher than the GB average in 2019), but continued to be above the Wales average (£13.83 in 2020). Gross weekly pay for full-time workers was £544, with the same trends as hourly pay.

Figure 3.6.1 Number of jobs in Cardiff¹⁰⁸

¹⁰⁵ <https://www.nomisweb.co.uk/reports/lmp/la/1946157397/report.aspx#tabjobs>. The data from 2018 are the most recent available in early 2021.

¹⁰⁸ <https://www.nomisweb.co.uk/reports/lmp/la/1946157397/report.aspx#tabjobs>

Figures 3.6.2 and 3.6.3 show areas of high and low employment and income in Cardiff in 2019. Again, low employment and income are generally concentrated in the 'southern arc', particularly Ely/Caerau, Butetown, Adamstown, Trowbridge and Llanrumney.

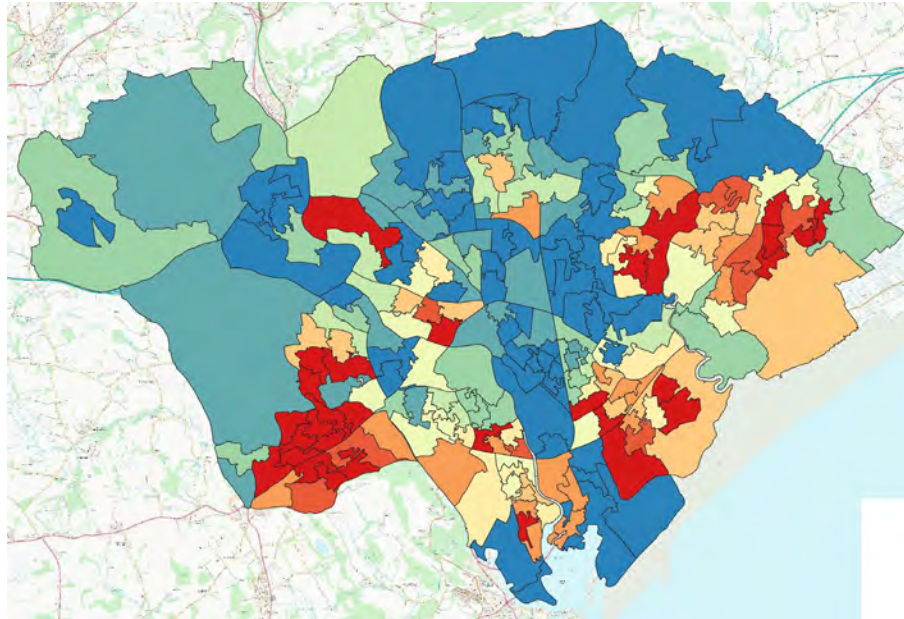

Figure 3.6.2 Index of Multiple Deprivation 2019 employment¹⁰⁹

Figure 3.6.3 Index of Multiple Deprivation income⁷³

In 2019, Cardiff was 16th (out of 379) in the UK competitiveness index, which considers ten economic factors such as economic activity rates, business start-ups and productivity¹¹⁰. Cardiff's Gross Value Added (GVA) per person – a key indicator of productivity - has consistently exceeded the UK average since 1998. Financial/insurance activities and human health/social work activities are the greatest contributors to Cardiff's GVA¹¹¹.

¹⁰⁹ See Figure 3.1.3 for legend

¹¹⁰ https://www.researchgate.net/figure/01-CITY-UK-COMPETITIVENESS-INDEX-2019-UK100_tbl1_331980020

Cardiff's service sector industries are growing, and much of its employment is in Welsh Government priority sectors

Cardiff has less of a focus on manufacturing, construction, and wholesale/retail trade than the Welsh and GB average; and more focus on finance/insurance, education, and public administration¹¹². Manufacturing jobs in Cardiff, as elsewhere, have declined rapidly over the past 30 years.

45% of people employed in Cardiff in early 2019 were in one of the Welsh Government's priority sectors (Table 3.6.1). Financial and professional services were by far the largest of these in the city, and Cardiff accounted for 30% of these jobs in Wales. Creative industries and ICT are also more prevalent in the city than across Wales as a whole, with Cardiff again accounting for about 30% of Wales's total employment in these sectors.

Jobs in the retail and hospitality, wider tourism and the creative sectors have particularly suffered as a result of the coronavirus pandemic, so these numbers will have changed since early 2019.

Priority sector	Cardiff		Wales	
	No. (1000s)	%	No. (1000s)	%
Advanced materials/manufacturing	4.5	2.0	81.5	6.0
Construction	14.5	6.4	109.4	8.1
Creative industries	18.0	7.9	58.0	4.3
Energy & environment	26.2	11.5	155.0	11.4
Food & farming	-	-	51.4	3.8
Financial & professional services	39.9	17.5	137.7	10.1
Information & communication (ICT)	8.5	3.7	31.0	2.3
Life sciences	2.0	0.9	13.5	1.0
Tourism	18.3	8.0	127.3	9.4
In a Priority Sector	102.9	45.3	600.2	44.2
Not in a Priority Sector	124.5	54.7	758.7	55.8
Total	227.4	100.0	1359.0	100.0

The workforce is polarised between qualified graduates and low skilled workforce

Cardiff's population consistently outperforms the Wales and UK averages in terms of education and skills¹¹⁴. This is partly determined by demographics, with Cardiff's relatively young population and the existence of several universities. In 2010, 40% of Cardiff's working age population had 4+ NVQs, and by end 2019 this was 46.4%¹¹⁵. This compares favourably with 36.3% for Wales and 40.3% for the UK¹¹⁶. Cardiff has three higher education institutions, Cardiff University, Cardiff Metropolitan University and the Welsh College of Music and Drama, providing about 4,000 new graduates each year. The University of South Wales also has a campus in Cardiff.

In 2008, Cardiff had almost 20% of the 10% most deprived lower super output areas for Wales for education, but this was down to 7% in December 2018¹¹⁷. However Cardiff still has areas of low educational achievement, primarily in the south and east part of the city, including Ely, Caerau, Butetown, Splott, Trowbridge and Llanrumney, as shown by Figure 3.6.4.

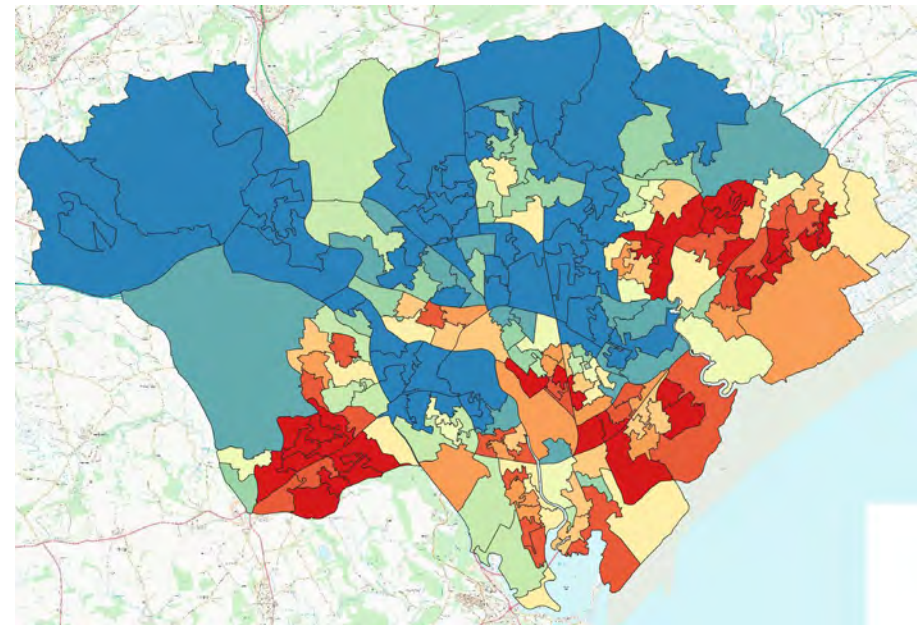

Figure 3.6.4 Index of Multiple Deprivation education¹¹⁸

Significant areas of employment land have changed to alternative uses (notably housing) although land for employment is still available

Changing market conditions (as described above) have resulted in a shift in demand away from manufacturing towards alternative uses such as housing. Examples of this include the Arjo Wiggins site at Ely Bridge, AWE site on Caerphilly Road, and Maes y Coed Road.

¹¹⁸ See Figure 3.1.3 for legend

The Local Development Plan 2016 allocated 132ha of employment land on allocated sites. Employment land permitted to date has been:

- 2016/17: 11.6ha
- 2017/18: 2.12ha
- 2018/19: 3.16ha

These permissions have been for high density, high rise offices. No loss of employment land occurred on protected sites.

Employment land take-up has been:

- 2016/17: 12.3ha
- 2017/18: 0.5ha
- 2018/19: 1.6ha

Again this has mostly been for offices¹¹⁹.

Likely future without the plan

Prior to the coronavirus pandemic, employment was expected to continue to increase in Cardiff for the foreseeable future: this is currently less clear. At the pandemic peak in summer 2020, 50,000 workers in Cardiff were furloughed; 9,000 were reliant on the Self-Employment Income Support Scheme, and unemployment doubled¹²⁰. Employment land also continues to be lost to residential uses. Post-pandemic, the proportion of people working from home is likely to fall, but not to pre-pandemic levels. This is leading to consideration of how the city centre and local/district shopping centres should work in the future.

The current LDP has allocated a large new employment site at Wentloog. A planning application for the site and a new mainline train station, 'Cardiff Parkway', was submitted in January 2021 (Figure 3.6.5).

Figure 3.6.5 Planned 'Cardiff Parkway' employment site showing the proposed new mainline rail line¹²¹

3.7 Health and wellbeing

Introduction

Cardiff generally has average or slightly better health and social conditions compared to the rest of Wales, and in 2009 Cardiff was awarded Healthy City Status by the World Health Organisation, which demonstrates a commitment to improve the health and well-being of local people.

A range of factors can influence life expectancy, including lifestyle, income, employment, access to services and the wider environment. Life expectancy at birth for Cardiff's residents in 2012 was 78.2 years for men and 82.7 for women, very similar to the Welsh average¹²². Cardiff residents' perceptions of their health is also very similar to the Wales average. 45% of Cardiff adults have a longstanding illness; 32% have a limiting longstanding illness; and 16% have a very limiting longstanding illness. This is slightly better than the Wales average¹²³.

However these average figures belie large health discrepancies within Cardiff. In 2010-14, the most disadvantaged men in Cardiff had 11 years less life expectancy than the most advantaged¹²⁴, and 24.4 years less healthy life expectancy; for women this was respectively 9 years and 22 years. These inequalities are amongst the highest in Wales¹²⁵. The difference in men's healthy life expectancy has worsened significantly since 2005-09 when it was 20.6 years; the other differences have not changed significantly¹²⁶. In particular, residents of Ely, Butetown, Splott, Trowbridge and Llanrumney have worse than average health (Figure 3.7.1).

Interestingly, the rate of coronavirus infections to end January 2021 did not clearly mirror these health discrepancies. Trowbridge, Cathays, Grangetown and South Riverside had the highest rate of infections (Figure 3.7.2).

Cardiff's residents have healthier lifestyles than the Wales average: they eat more fruit/vegetables, do more physical activity, and are less likely to smoke¹²⁷. However, more than half of Cardiff's population is overweight, obese or underweight; and almost one-quarter do less than 30 minutes of physical activity per week. Lifestyle significantly contributes to the likelihood of living with chronic conditions later in life¹²⁸.

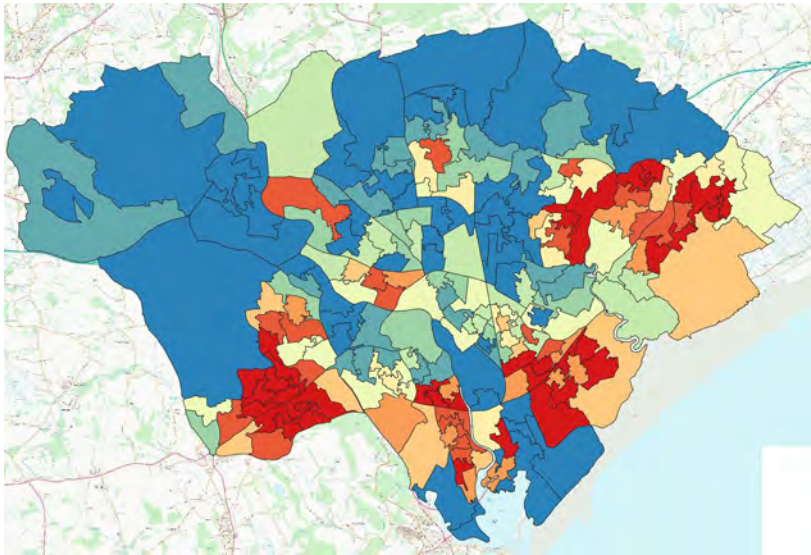

Figure 3.7.1 Index of Multiple Deprivation health¹²⁹

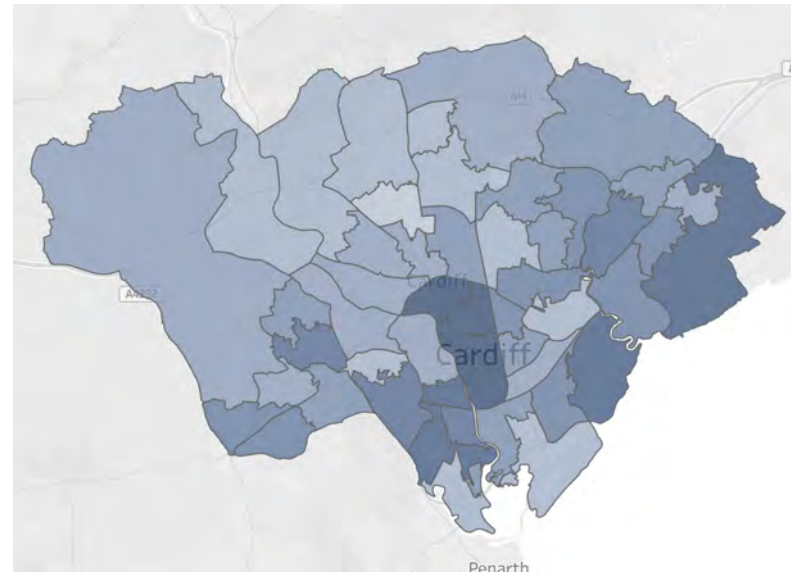

Figure 3.7.2 Cases of coronavirus in Cardiff, to 9 Feb 2021 (darkest shading is highest rate)¹³⁰

Crime levels have also broadly improved or remained steady

There were more than 48,000 notifiable offences in Cardiff in 2019, with the highest proportion being violence and sexual offences (25%), anti-social behaviour (19%) and shoplifting (9%)¹³¹. Overall recorded crime levels in Cardiff have dropped significantly over the last 15 years, driven by a sharp drop in vehicle offences, criminal damage and arson, and other theft offences. The south and east of the city is subject to higher levels of crime than elsewhere.

However, there has not been an equivalent fall in fear of crime. In 2018, less than half of survey respondents felt that Cardiff is safe, compared with more than 70% in 2016. Main reasons for feeling unsafe are anti-social or drunken behaviour; gangs, youths and beggars; and (for cyclists) dangerous drivers and lack of dedicated infrastructure. People with a disability or health conditions, and people living in the Southern Arc are particularly likely to feel unsafe¹³².

¹²⁹ See Figure 3.1.3 for legend

¹³¹ <https://www.cardiffpartnership.co.uk/well-being-assessment/people-cardiff-healthy/>

Cardiff’s environmental quality – a determinant of health – is overall poor

The Welsh Index of Multiple Deprivation brings together information about air quality, flood risk and green spaces into a physical environment index. Cardiff has the second-worst physical environment of the Welsh authorities after Newport: it has 22.5% of the most deprived 10% LSOAs in Wales, and 10% of Wales’s most deprived 50% LSOAs¹³³. Only Pentyrch and Radyr are in the least deprived 50%. Figure 3.7.3 shows that, under this index, Splott, Butetown, Grangetown and Lisvane fare particularly badly. This is because of poor air quality, which is discussed at Section 3.2; a lack of green spaces, which is discussed at Section 3.9; and likelihood of flooding which is discussed at Section 3.11.

Figure 3.7.3 Index of Multiple Deprivation environment

Health is also affected by education, employment, access to services, housing quality, which are discussed at Sections 3.1 and 3.6 – see Figure 3.7.4.

Page 94

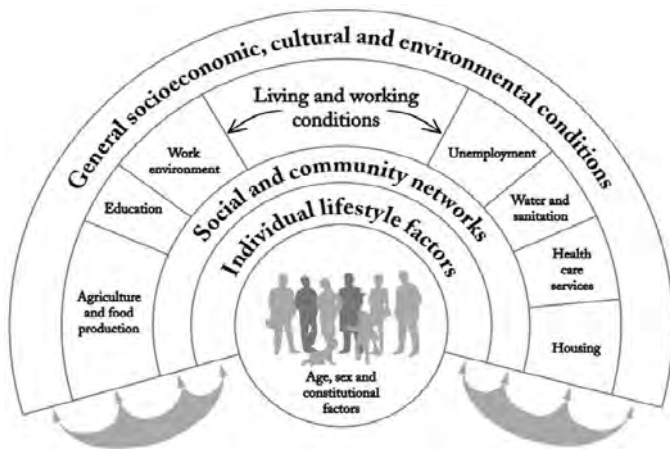

Figure 3.7.4 Determinants of health¹³⁴

¹³² https://www.cardiff.gov.uk/ENG/Your-Council/Have-your-say/Ask%20Cardiff%20Library/The%20Cardiff%20Economy%20and%20Labour%20Market_Apr%2018_Mar%2019.pdf, <https://www.cardiff.gov.uk/ENG/Your-Council/Have-your-say/Ask%20Cardiff%20Library/Ask%20Cardiff%202019%20Report.pdf>

¹³³ LSOA (Lower Layer Super Output Area) is the area used to analyse deprivation. It represents a population of 1000 – 1500. <https://statswales.gov.wales/Catalogue/Community-Safety-and-Social-Inclusion/Welsh-Index-of-Multiple-Deprivation/WIMD-2019/localauthorityanalysis>

¹³⁴ <https://www.gov.uk/government/publications/health-profile-for-england-2018/chapter-6-wider-determinants-of-health>

Road safety has generally improved

Figure 3.7.5 shows that there has been a sharp downward trend in the number of slight injuries as a result of road accidents, rising again in 2019. However the number of people seriously injured or killed has reduced much more slowly. The number of young people killed or injured has significantly reduced over time.¹³⁵ A 2018 survey found that 70% of respondents support the introduction of 20 mile per hour speed limits in residential and other suitable streets in Cardiff.¹³⁶

Likely future without the plan

Without more active intervention, the gap between the economic outcomes of different communities seems unlikely to reduce. Given the close correlation between economic and health outcomes, the gap in life expectancy and healthy life expectancy of the people who live in the richest and poorest part of the city seems likely to increase. NRW’s South Central Wales Area Statement¹³⁷ aims to improve people’s health through better access to nature and green infrastructure.

3.8 Land, soil and minerals

Introduction

Land is an essential requirement for development, and the basis for agriculture, open spaces and biodiversity interests. Agricultural land and allotments help to provide local food, as well as improving residents' physical and mental health. Brownfield land offers opportunities for development, although remediation may be required on sites that are contaminated from previous industrial activities, and many brownfield sites are biodiverse and used for recreation.

The Welsh Government's 2009 scheme for sustainable development, *One Wales: One Planet*¹³⁹, includes Wales' ecological footprint as one of its five headline indicators (representing sustainable resource use). An ecological footprint is the total area of productive land and water ecosystems required to produce the resources that the population consumes and to assimilate the subsequent wastes¹⁴⁰: it measures whether we are living within the bounds of the Earth's resources. In 2012, the Earth's total biocapacity was about 1.7 'global hectares' per person: with an increasing global population, this will reduce.

An ecological footprint analysis for Cardiff was carried out using 2001 data. This showed that Cardiff residents were using approximately 5.3 global hectares per person, or more than three times the global 'one planet' fair share¹⁴¹. A subsequent analysis for Wales as a whole, using 2011 data and using a different methodology, showed the ecological footprint getting smaller but still being 1.2 – 1.8 times the global average¹⁴². Cardiff's footprint at the time was slightly better than the Welsh average, in part because it had a lower carbon

Figure 3.8.1 Ecological footprints. The green circles represent the Earth's 'one planet' fair share. a. and b. are not comparable

¹³⁹ <https://www.bridgend.gov.uk/media/1505/wd32.pdf>

¹⁴⁰ Rees, E. (2000) Eco-footprint analysis: merits and brickbats. *Ecological Economics* 32(3), 371-4.

¹⁴¹ Collins, A. and Fairchild, R. (2007) Sustainable food consumption at a sub-national level: An ecological footprint, nutritional and economic analysis. *Journal of Environmental Policy and Planning* 9(1), 5-30.

¹⁴² Stockholm Environmental Institute and GHD (2015) Ecological and carbon footprints of Wales, update to 2011, <https://gov.wales/sites/default/files/publications/2019-04/ecological-and-carbon-footprint-of-wales-report.pdf>.

footprint than the Welsh average, at 3.11gha compared to 3.28ha. Figure 3.8.1 shows that food production/transport, housing and transport are significant contributors to the Welsh and Cardiff ecological footprint.

The proportion of housing completions on previously developed (brownfield) land is falling

At present, approximately two-thirds of the land in Cardiff is built up, and one-third is countryside or open space. About 10 years ago, new housing in Cardiff was almost solely on brownfield sites. Many of these were redeveloped as apartments, particularly in the Cardiff Bay and central areas of the city. Whilst this reduced the demand on greenfield sites, it also affected the range and choice of housing on supply, with implications for the provision of affordable housing, family housing and affordability in general.

The proportion of development on previously developed land has fallen since then, to 84% in 2016/17, 59% in 2017/18 and 58% in 2018/19¹⁴³. The current Local Development Plan allocates seven strategic development sites, of which five are on greenfield land (Figure 3.8.1).

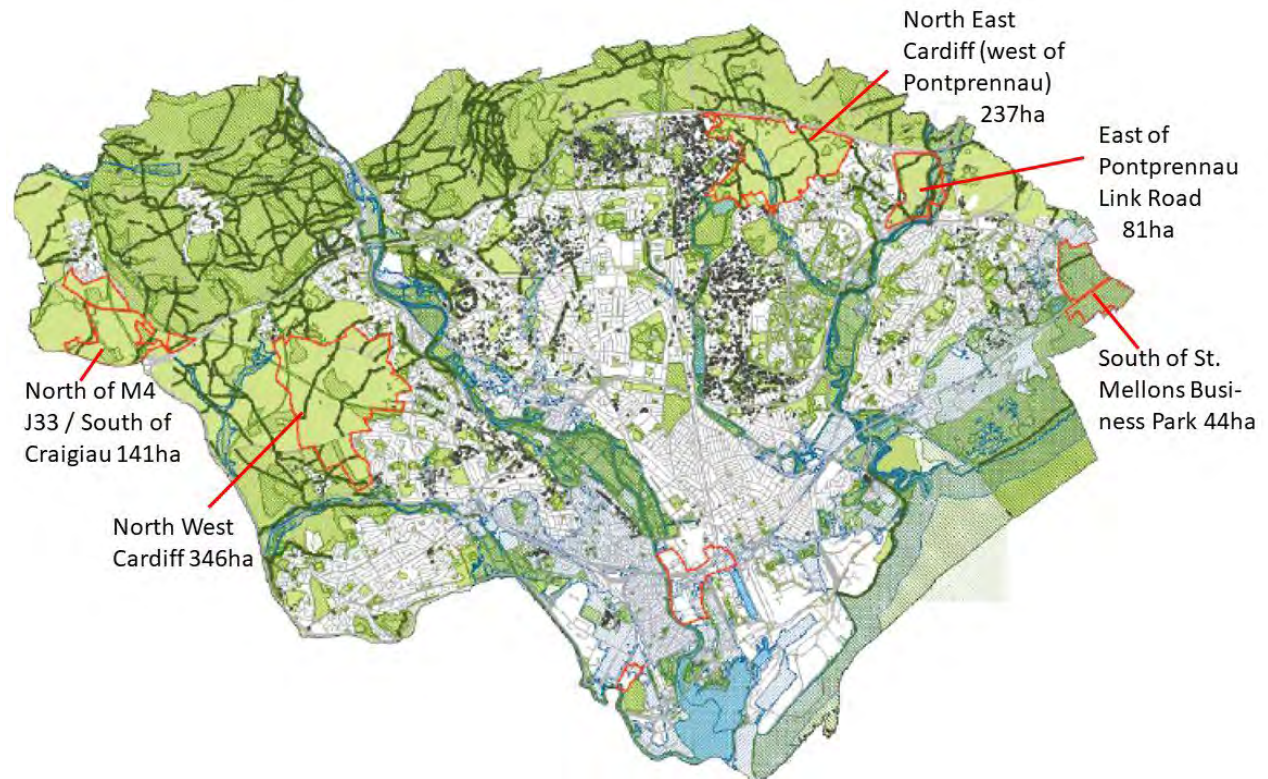

Figure 3.8.1 Strategic land allocations on greenfield land

¹⁴³ <https://www.cardiff.gov.uk/ENG/resident/Planning/Local-Development-Plan/Annual-Monitoring-Report/Pages/Annual-Monitoring-Report.aspx>

Cardiff has good quality agricultural land in its valleys

Agricultural land is classified into five grades. Grades 1, 2 and 3a are the ‘best and most versatile land’: this is the land that is most flexible, productive and efficient in response to inputs. The Welsh Government published a map in 2017 which predicts agricultural land quality based on soil type, climate, wetness, drought, gradient, soil depth, stoniness and texture. The map suggests that Cardiff’s river valleys are of Grade 1 and 2 quality, and the undeveloped land in the city is mostly Grade 3a and 3b. The ridge to the north of the city is generally not the best and most versatile land (Figure 3.8.2).

Agricultural land values in Wales rose sharply before the recession, driven in part by a sharp reduction in the land available for sale, and the higher values that non-farmers were willing to pay (Savills Agricultural Land Market Survey 2009). However they fell again prior to 2020, in part due to falling commodity prices and uncertainty around Brexit¹⁴⁴. The impact of the coronavirus pandemic on land values is unclear.

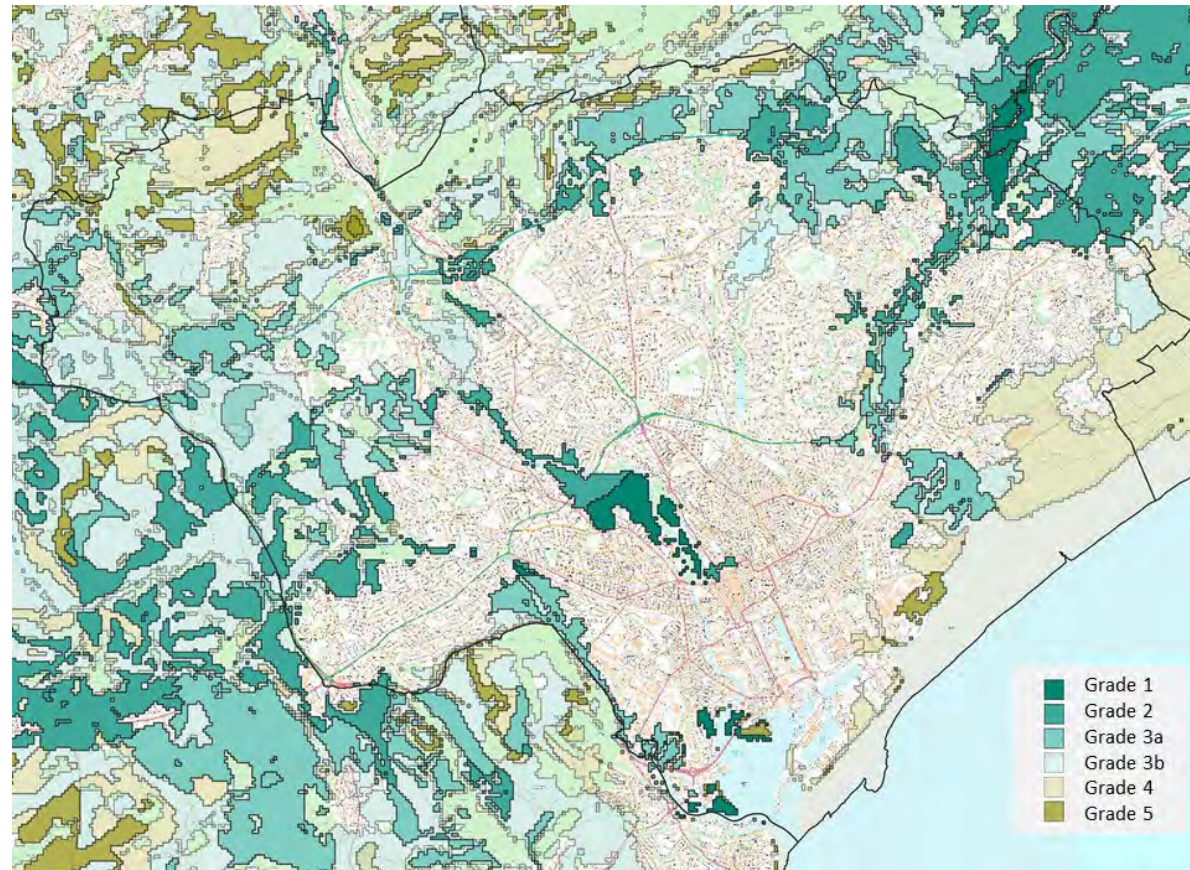

Figure 3.8.2 Agricultural land classification for Cardiff¹⁴⁵

¹⁴⁴ <https://www.dailypost.co.uk/news/local-news/farmland-values-plunge-wales-farmers-17222717>

¹⁴⁵ <https://onlinelibrary.wiley.com/doi/full/10.1111/sum.12380>

Cardiff's allotments are important for people's health and food security, but they are oversubscribed

Allotments play an important part in improving people's health. Not only do they offer the opportunity to grow food but they also provide an excellent form of outdoor activity, exercise, relaxation, and a place where people can meet each other. Cardiff's former allotments strategy suggested that a minimum of 15 plots should be provided per 1000 households¹⁴⁶. The current provision of 2500 allotments is 5% more than this, although there are still waiting lists for most of the allotment sites¹⁴⁷.

As a result of Cardiff's industrial past, many sites could potentially be contaminated

Past industrial activities have contaminated land in various ways over many years. Cardiff Council is aware of about 1410 hectares of potentially contaminated land, including industrial, mining and quarrying, dockland and former waste disposal sites. Some contaminated land sites only come to the Council's attention when developers undertake site investigations on land being considered for future development, so this number could increase in the future.

Development of contaminated land has the advantage of cleaning up land and securing regeneration although this incurs additional costs. When brownfield sites are redeveloped, they are usually done so on a 'suitable for use' basis, and as such the remediation undertaken on the sites depends on the proposed end use¹⁴⁸. Most remediation involves engineering practices, for instance capping over the existing contaminated land with imported clean soils, thus encapsulating the contamination. Whilst this is an effective remediation methodology in that it breaks the pathways and exposure to the contamination, it does not reduce/breakdown or remove the contamination from the site.

The Council has published a Contaminated Land Inspection Strategy (Cardiff Council 2010) that provides a framework to identify, inspect and remediate contaminated land.

Cardiff has sufficient mineral reserves to last about 20 years

Mineral resources are a valuable but finite resource. They provide the essential raw materials for buildings, infrastructure and their maintenance. An adequate and steady supply of minerals is essential to the national, regional and local economy and their exploitation makes a significant contribution to economic prosperity and quality of life.

¹⁴⁶ This is equivalent to the 1993 average for England (Cardiff allotments strategy 2005).

¹⁴⁷ <https://www.cardiff.gov.uk/ENG/resident/Leisure-parks-and-culture/Allotments/Pages/default.aspx>

¹⁴⁸ For instance, the remediation undertaken on a site for commercial/industrial development would not be suitable to accommodate residential purposes, so if such a site was considered for residential development in the future, some form of additional remedial works would probably be required.

Cardiff is one of the largest producers and consumers of minerals in the region. Natural minerals in Cardiff include quarried hard rock (carboniferous limestone and dolomite) and dredged sand landed in Cardiff Docks. In 2018, crushed rock production in Cardiff was just over a million tonnes (mt) per year¹⁴⁹. Most of this natural mineral production is used in the construction industry as aggregates. Secondary materials, including steelworks slag, also substitute for natural aggregates, and a significant quantity of construction and demolition waste is recycled as aggregate.

Cardiff's permitted reserves of hard rock minerals in 2020 represented about 20 years of supply¹⁵⁰. The land bank will continue to decrease as the reserves are quarried, highlighting the need to protect them from inappropriate development. The adopted LDP includes a Preferred Area for mineral working and this can be rolled forward into the RLDP to meet this requirement.

Likely future without the plan

The Welsh and Cardiff ecological footprint seems to be reducing¹⁵¹ although, as for other Global North countries, it is still significantly above the one planet 'fare share'. Improvements in energy efficiency and production of renewable energy will support this positive trend, as will reductions in the need to travel. The role of Brexit is uncertain, but it may lead to more food being grown more locally than before.

The amount of greenfield land in Cardiff will shrink as development proceeds on the five greenfield strategic sites. Unless more allotment sites are made available, as Cardiff's population rises, the amount of allotment land per capita will go down and allotment targets may no longer be reached. Although existing permitted reserves of minerals still represent a significant land bank, in order to ensure there continues to be a 10 year crushed rock landbank, further resources are likely to need to be allocated in the RLDP.

3.9 Landscape and open space

Introduction

Cardiff has a unique landscape setting comprising an island, coastline, three major river valleys and a countryside backdrop of distinctive topography. The Garth Mountain, Caerphilly Mountain and Graig Llanishen provide a strong and imposing backdrop along the northern edge to the city. The ridge rises to a thousand feet above sea level on the summit of Garth Mountain and has a pronounced escarpment together with lower slopes leading down to the M4 and northern edge of the urban area. The ridge, forming the southern rim of the South Wales coalfields, is dramatically broken where the River Taff breaks through, forming the Taff Gorge at Tongwnglias. Much of the west of the urban area is enclosed by the Leckwith Escarpment, which forms a strong physical and visual backdrop. In contrast to the strong topography to the north and west, the eastern edge of the city, adjacent to the Severn Estuary, is flat. It forms part of a much larger historic landscape unit, the Gwent Levels, which extends alongside the River Severn beyond Newport.

Three major river valleys run through the city

Three major river valleys run through Cardiff. The valleys contain large areas of open space and are a significant determinant of the urban form of the city. They also provide a valued resource for recreation, amenity (connection with nature in a city), biodiversity, historic and cultural interests, although the fact that they are highly modified reduces their biodiversity and increases their flooding risk.

The River Taff valley has strong historic links as it provided an important corridor for the movement of goods between Cardiff Docks and the South Wales Valleys. It is well accessed by local communities along its whole length and a National Cycleway, the Taff Trail, follows its length in Cardiff and beyond to the Brecon Beacons. It forms a significant and well-known feature, passing through Llandaff, the City Centre and Cardiff Bay.

The River Ely merges with the Taff in Cardiff Bay and forms the administrative boundary with the Vale of Glamorgan for its lower length. Its western section in the vicinity of St Fagans is of particularly high landscape, biodiversity and historic value.

To the east of the city, the River Rhymney forms a well-defined valley and contains the only tidal estuary in the city (as the Taff and Ely run into Cardiff Bay that is held within a barrage to the Severn Estuary). Visually, the valley is very prominent as the A48, a main route into the city, follows the western edge of the valley into the city.

Tributaries to the rivers also add to Cardiff's range of landscape features. Most are small streams with catchments from within the city. However, some have become important corridors in their own right such as the Nant Fawr which contains a range of well-used open spaces including Roath Park, a major attraction of Green Flag status. Action plans have been prepared for all three river valleys detailed above.

The coastline presents complex issues and opportunities

Cardiff has a coastline on the River Severn Estuary with its huge tidal range, but its characteristics and accessibility are very mixed. The Cardiff Bay Barrage provides public access to the coast in the west but the shoreline to the east along the operational dock area and to the south of the steel works/ sewerage station is not currently accessible. To the east of the Rhymney estuary lies the Lamby Way landfill site, and part of a much longer stretch of undeveloped coastline running to Newport.

The undeveloped coast contains mudflats and rapidly eroding saltings below the high water mark. A sea wall then runs along the whole length of coast to Newport. The flat land behind forms part of the Gwent Levels, an area of land reclaimed from the sea in Roman times that is drained by a complex of ditches known as reens. This land is below high water level, hence the need for a sea wall. The Gwent Levels are a Site of Special Scientific Interest and a Historic Landscape, important for biodiversity and ecosystem resilience.

Cardiff has six Special Landscape Areas

Special Landscape Areas (SLAs) indicate parts of Cardiff's landscape that are considered to be of quality meriting local designation: development that causes unacceptable harm to the character and quality of the landscape in SLAs is not permitted. Cardiff has six SLAs (Figure 3.5.1): St Fagans Lowlands and the Ely Valley, Wentloog Levels, Flat Holm, Garth Hill and Pentyrch Ridges, and Fforest Fawr and Caerphilly Ridge. The last two of these are key areas for woodland ecosystem resilience.

Cardiff has eleven main landscape character areas

A 2007 landscape character area review¹⁵² identified eleven landscape character areas (Figure 3.9.1):

1. Garth Hill Uplands: A prominent, distinctive backdrop to the wider Cardiff area.
2. Pentyrch Ridges and Valleys: Area of 'ridge and valley' landscape which contrasts to the steep uplands of Garth Hill to the north and the more gently undulating lowlands to the south.
3. Western Lowlands: An undulating lowland landscape. Despite being dissected by roads such as the M4 motorway, it forms a largely homogenous agricultural landscape.
4. St. Fagans Lowlands and Ely Valley: Lowland area with a river valley and 'estate' parkland character.
5. River Taff Corridor: Valley landscape comprising the flat alluvial plain of the River Taff.

¹⁵² <https://www.cardiff.gov.uk/ENG/resident/Planning/Local-Development-Plan/EvidenceBaseDocs/A%20review%20of%20Landscape%20Character%20Areas.pdf>

6. Fforest Fawr & Caerphilly Ridge: Steep limestone and sandstone ridges and scarp that form a prominent backdrop for the city.
7. Caerphilly Ridge Foothills: Broad tract of gently undulating countryside between the foot of the Caerphilly ridge and the M4 corridor.
8. Eastern Lowlands: Rolling lowland countryside on the eastern edge of Cardiff, characterised by agricultural land use and hedgerows.
9. River Rhymney Corridor: Key green corridor of somewhat disparate land uses.
10. Wentloog Levels: Part of the low-lying landscape of reclaimed coastal marshes known as the Gwent Levels. Characterised by a network of field draws – reens – the area has been subject to development pressures.
11. Flat Holm: A low, almost circular island situated in the Bristol Channel about 5 miles south-east of Cardiff.

Figure 3.9.1 Landscape character areas

Cardiff is generally well served by open spaces within the urban area, but some areas are under-provided

Green/open spaces are important because they improve people's mental and physical health, encourage physical activity, are attractive, support biodiversity, act as a carbon sink, and can help to adapt to climate change. This has been particularly shown during the coronavirus pandemic, which has limited people's ability undertake other forms of recreation. Figure 3.9.2 shows all open space in Cardiff (including space that is not publicly accessible).

The Welsh Government recommends that 2.43 hectares (6 acres) of open space should be provided per 1000 population, divided into formal, informal and children's play areas. The latest survey of open space shows that there are 1.17ha of functional open space¹⁵³ per 1000 population in Cardiff, compared to an equivalent figure of 1.18ha two years earlier¹⁵⁴. If educational playing fields are included, this figure increases to 1.88ha; and if all types of open space are included, the figure is 8.03ha of open space per 1,000 population, well in excess of the indicator target and a rise of 8% when compared to 2016/17. Significant additional functional open space will be provided in conjunction with the large strategic housing sites which are at the very early stages of development or are yet to commence.

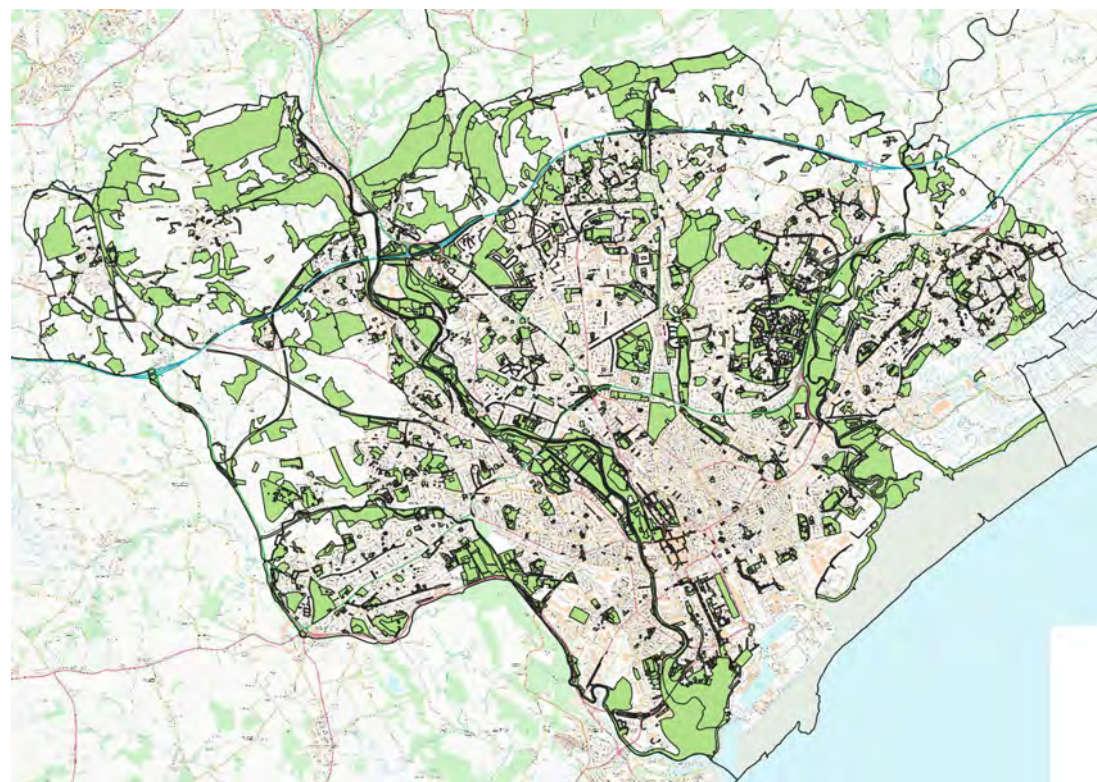

Figure 3.9.2 All open space in Cardiff

¹⁵³ Functional open space is open space that is capable of defined recreational use or multiple uses. These uses will include formal and informal sport and recreation, children's play and provision for teenagers although the balance of defined uses may change with time according to local demand. *Open space is all open space of public value, including not just land, but also areas of water such as rivers, canals, lakes and reservoirs which offer important opportunities for sport, recreation and tourism, and can also act as a visual amenity, and may have conservation and biodiversity importance.*

¹⁵⁴ <https://www.cardiff.gov.uk/ENG/resident/Planning/Local-Development-Plan/Annual-Monitoring-Report/Documents/Cardiff%20LDP%203rd%20AMR%20English%20Version%20Final.pdf>

However, Figure 3.9.2 shows that some areas of Cardiff are particularly deficient in open space. These include Cathays/Plasnewydd/Adamstown, Splott/Butetown, and Canton/Riverside. The areas with the least access to greenspaces coincide with some of the areas which have the poorer health (Figure 3.7.1) and environmental quality (Figure 3.7.3).

According to the Ask Cardiff 2019 survey, 87% of Cardiff’s residents had visited a local park in the month before the survey; three-quarters had visited another outside space; and two-thirds had visited a river, lake or canal; and the beach/sea/coast (Figure 3.9.3).¹⁵⁵ This is likely to have increased during the coronavirus pandemic.

Cardiff was awarded a record 10 green flags for its parks in 2016. 78.5% of respondents to the 2019 Ask Cardiff survey were satisfied with Cardiff’s parks and open spaces¹⁵⁶.

A study on the value (in terms of increased house prices) of good access to green spaces found that the average value in Cardiff of being located near green space was about £4200 in 2019, or about 2% of house price¹⁵⁷. Again, this is likely to have increased as a result of the pandemic.

Likely future without the plan

Cardiff is becoming more urbanised, with higher density buildings, and more development on greenfield sites. These changes will be particularly notable at the strategic development sites in the current Local Development Plan.

Any deficits in green spaces are likely to be exacerbated as Cardiff’s population increases, works more from home, and understands the value of green spaces. Climate change is likely to increase the need for green spaces to reduce the urban heat island effect; but also increase the likelihood and severity of flooding, with associated impacts on land and landscape.

3.10 Waste

Introduction

The Welsh Government has set challenging targets for recycling and composting which are driving change towards more sustainable waste management practice: Welsh local authorities must recycle at least 64% of municipal recyclable waste by April 2020, and at least 70% by 2024/25.

Little is known about construction and demolition waste, and industrial and commercial waste, which account for most of the waste in South East Wales

Construction and demolition waste has historically been the biggest component of waste in South East Wales, accounting for more than half of all waste produced (55% in 2005/06) – see Figure 3.10.1. Data about construction and demolition waste are collected only sporadically and in non-comparable manners, so the current situation is unknown. Data on industrial and commercial waste, which accounted for 25% of all waste in South East Wales in 2005/06, are also collected only sporadically. Waste prevention targets are for a 1.4% annual reduction for industrial waste, and 1.2% annual reduction for commercial waste.

Recycling rates are improving rapidly following the completion of a new recycling facility and rolling out a recycling scheme

Cardiff's recycling and composting rates for municipal waste were historically significantly below the Welsh average: only 10% of the municipal waste stream was recycled in 2004/05 compared to a Welsh recycling rate of 22%. However this improved rapidly with the roll-out of an integrated kerbside recycling scheme. By 2019, Cardiff was recycling about 60% of its waste¹⁵⁸. In 2018, the council further expanded the provision of wheeled bins, and trialled a separate glass collection.

Figure 3.10.1 Amount (in 000 tonnes) of waste arisings in South East Wales, 2005/06 (South East Wales Regional Waste Group, 2008)

¹⁵⁸ <https://www.cardiff.gov.uk/ENG/Your-Council/Have-your-say/Ask%20Cardiff%20Library/Ask%20Cardiff%202019%20Report.pdf>

¹⁵⁹ <https://statswales.gov.wales/Catalogue/Environment-and-Countryside/Waste-Management/Local-Authority-Municipal-Waste/municipalwastearisings-by-localauthority-quarter>

Per person waste has declined significantly

Because of the rapid increase in Cardiff’s population, the total municipal waste produced in Cardiff has not been decreasing significantly. However, residual waste per person (waste that cannot be recycled or reused and is sent to energy recovery or disposal) has been declining steadily (Figure 3.10.2), from more than 500kg/yr in 2012/13 to 378kg/yr in 2018/19.

Cardiff’s landfills have shut and energy recovery facilities have opened

The amount of waste going to landfill has also declined rapidly, from 118,368 tonnes in 2008/09 to 55,610 tonnes in 2014/15. The last remaining landfill site in Cardiff, at Lamby Way, was closed in 2017 and capped in 2018. Since 2015, most of Cardiff’s non-recyclable waste has been going to the Cardiff Energy Recovery Facility at Trident Park: this handles 350,000 tonnes of waste per year and generates 30MW of energy. Cardiff’s food waste goes to an anaerobic digestion plant at Tide Fields Road, Splott.

Likely future without the plan

There is considerable uncertainty regarding the future amount and type of waste generated by Cardiff residents. Factors affecting waste growth include population changes; consumer behaviour; the effectiveness of waste minimisation strategies (including any changes to such strategies post-Brexit); and the economic prosperity of the region.

The Welsh Government has set a target to local authorities of recycling at least 70% of their recyclables by 2024/25. Its March 2021 ‘Beyond Recycling’ strategy supports a ‘circular economy’, better resource efficiency, waste reduction, high rates of recycling, and procurement of goods made from remanufactured, refurbished and recycled materials¹⁶¹. Because of its success in recycling, and thus reducing the need to burn waste, in March 2021, the Welsh Government instituted a moratorium on large-scale (>10MW) energy from waste plants. Smaller energy from waste plants will only be permitted if there is a local need for such facilities¹⁶².

Figure 3.10.2 Total municipal waste collected and residual waste per person¹⁶⁰

3.11 Water and flooding

Water quality supports biodiversity and health; and healthy rivers, lakes, streams and other blue spaces are an important recreational amenity, improving wellbeing and boosting the economy. Water resources and flooding are becoming an increasingly important issue in the light of climate change.

The water quality of the rivers Taff, Ely and Rhymney is ‘bad to moderate’

The water quality of Cardiff’s major rivers has historically been degraded due to mining activities, urban run-off and extensive physical modifications¹⁶³. Water quality has improved over time as improvements were made to drainage systems and mining-related activities ceased upstream. However the River Ely and its catchment are still in bad condition, and the Taff and Rhymney rivers and catchments are only in moderate condition (Figure 3.11.1). Groundwater quality in the area is good¹⁶⁴.

The major issues for Cardiff’s rivers relate to physical modifications: barriers to fish migration from weirs and impoundments, flood defence structures, urban modifications and land drainage on the Wentloog levels. In the heavily populated areas of Cardiff, there is also pressure from urban diffuse pollution, sewage and misconnections. Minewaters also continue to affect river quality¹⁶⁵.

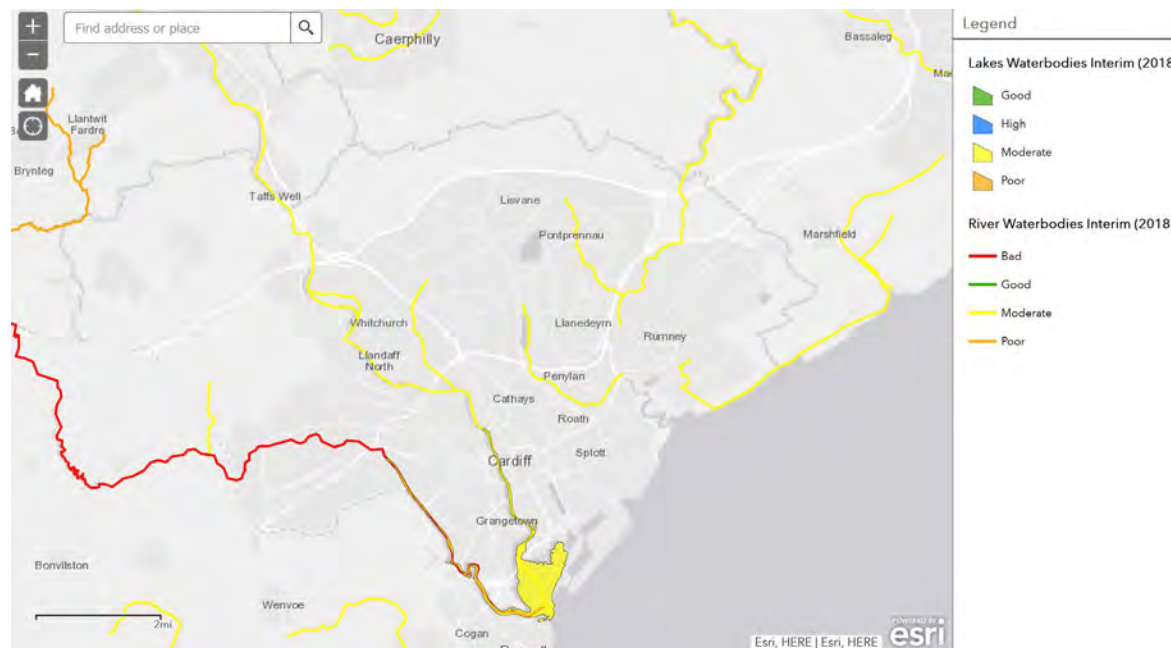

Figure 3.11.1 Water quality in Cardiff’s rivers and waterbodies¹⁶⁶

¹⁶⁶ <https://waterwatchwales.naturalresourceswales.gov.uk/en/>

Water supplies for Cardiff are secure to 2039/40

Cardiff is part of the SEWCUS¹⁶⁷ Water Resource Zone supplied by Dŵr Cymru. Water for the SEWCUS zone comes from over 40 sources, but mostly from five major reservoirs: Usky, Talybont, Llandegfedd, Taff Fawr (Llwynon, Cantref and Beacons reservoirs), and Pontsticill. The water company has determined that there will be (just) enough water for the SEWCUS zone to 2039/40 under a range of assumptions about future population, per person water use, leakage reductions and climate change (Figure 3.11.2). If, instead, population in the zone grows faster than expected, there would be a deficit in water supply¹⁶⁸.

Flooding poses a particular threat to Cardiff due to its coastal location, low lying areas and rivers

Because Cardiff is so low-lying, flood risk is potentially the most serious problem associated with climate change. The Environment Agency’s 2018 preliminary flood risk assessment for the Severn¹⁶⁹ identifies Cardiff - and particularly the communities of St. Mellons, Roath, Grangetown, Riverside and Canton – of being at significant risk of flooding. Figure 3.11.3 shows areas of Cardiff at risk of flooding.

In 2013, about 22,000 people in Cardiff were at low risk of flooding, 2,800 were at medium risk, and almost 1,000 were at high risk of flooding. This will have increased as Cardiff’s population has increased. Effects of flooding include subsidence, spreading of contaminants, increased insurance premiums and damage to the image of Cardiff. Economic activities and infrastructure are also affected, as can be seen at Table 3.11.1.

The natural environment can also be affected, for instance through flooding of sites for environmental permitting regulations (industrial emissions) and licensed abstractions (use of water for industrial purposes). This is particularly a problem in the south-east of Cardiff¹⁷⁰.

Figure 3.11.2 Water supply v. demand in the SEWCUS Water Resource Zone

¹⁶⁷ South East Wales Conjunctive Use System

¹⁶⁹ <https://cdn.naturalresources.wales/media/687716/pfra-severn.pdf>. (Dec. 2018)

¹⁷⁰ <https://www.cardiff.gov.uk/ENG/resident/Community-safety/Flood-and-Coastal-Erosion-Risk-Management/Documents/Cardiff%20Flood%20Risk%20Management%20Plan.pdf>

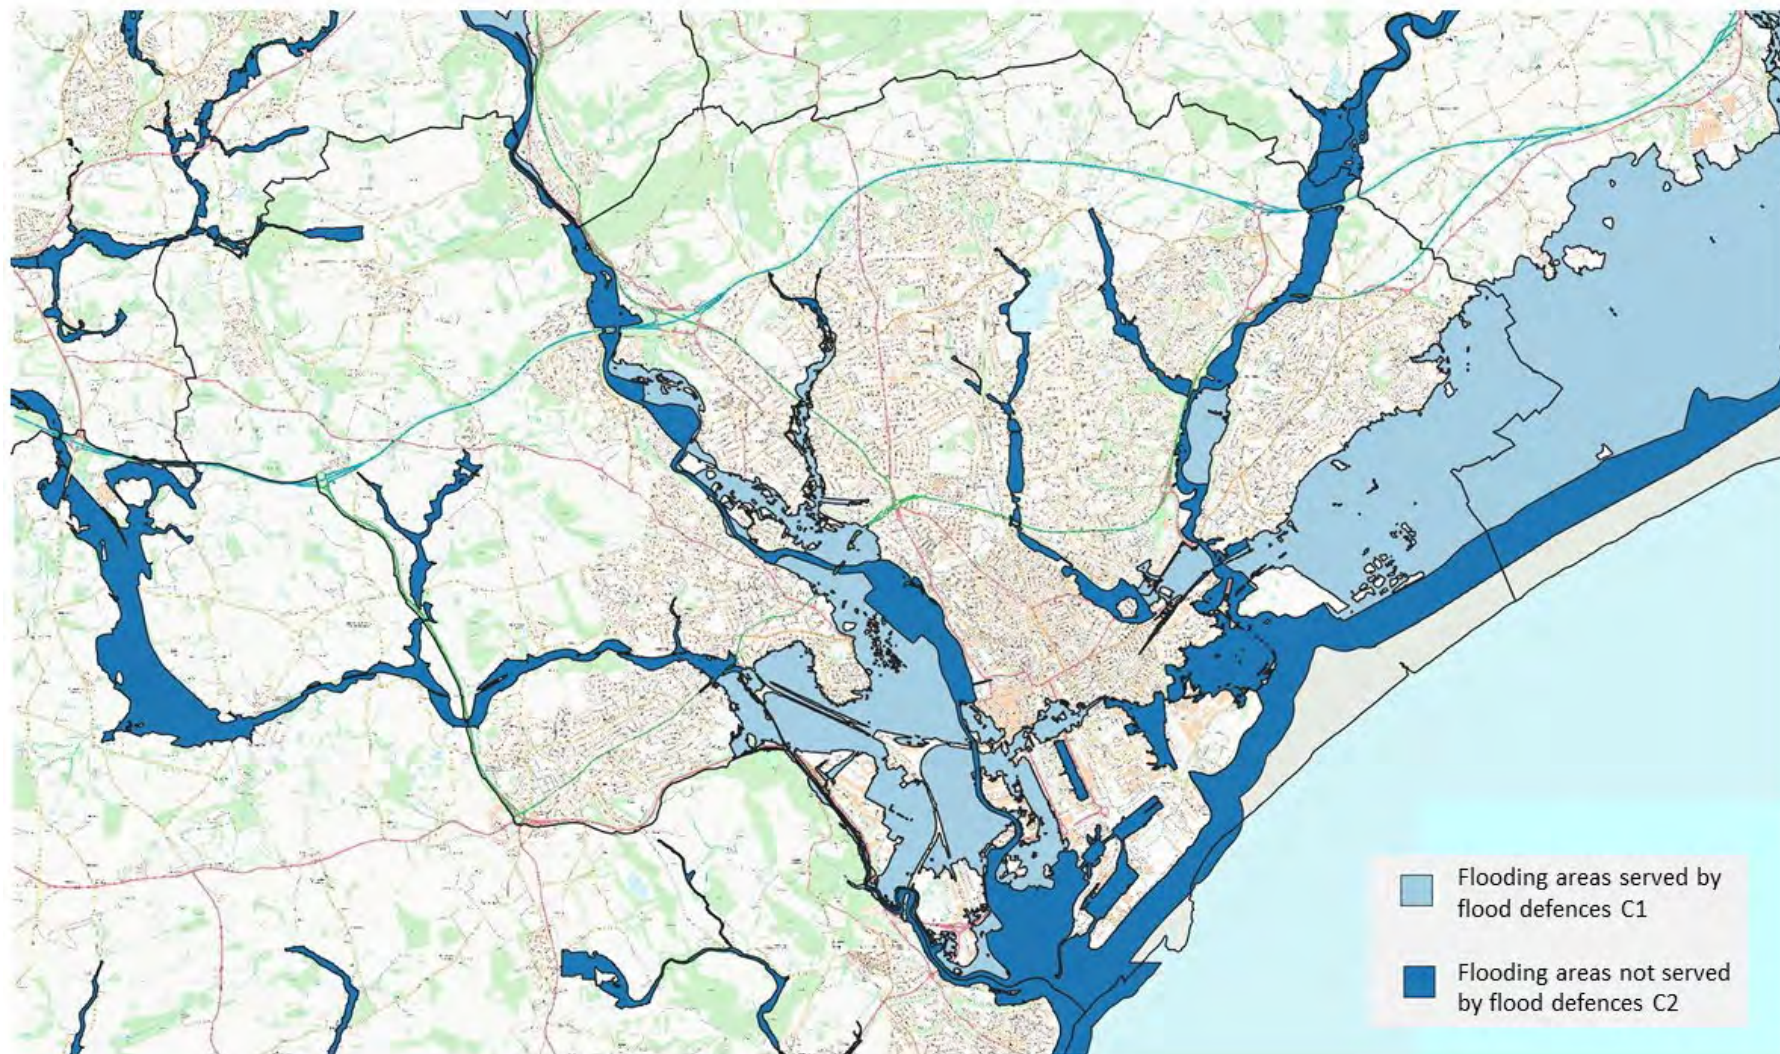

Figure 3.11.3 Areas at risk of flooding

The following factors affect flood risk in Cardiff:

- The completion of the Barrage enclosing Cardiff Bay has provided protection against tidal flooding for Cardiff Bay. During storm surges the sluices for regulating the water level within the Bay must be kept closed, creating a “tidal lock”. During times of tidal lock the water level in the Bay will steadily increase as both the Rivers Taff and Ely discharge into it. With sea levels predicted to increase as climate change occurs, the time the bay experiences tidal lock will grow, increasing the likelihood that the Taff and Ely will start to back up. This could have major implications for the Bay and development along the lower stretches of the Taff and Ely, particularly during times when the rivers are transporting large volumes of water as a result of heavy rainfall.
- Wentloog is at risk of flooding due to its low-lying nature, predicted sea level rise, and some areas where coastal defences are at risk of overtopping. This will place the mud flats and sea wall under increasing pressure, particularly during storm surges due to the tidal nature of the Severn Estuary. Several sites in the Wentloog area have extant planning permissions.
- The lower reaches of the River Rymney are at particular risk of flooding during the storm surges when the level of the estuary can rise dramatically, combined with predicted sea level rises and the increased flow volumes of the Rumney.
- Surface water flooding is also an issue. ‘Greener Grangetown’ is an example of how this can be dealt with through a sustainable drainage project.

Likely future without the plan

Water quality is an ongoing concern, with Cardiff’s rivers unlikely to reach ‘good’ condition by the European Water Framework Directive’s deadline of 2027 (though the UK may choose to implement different water quality legislation). Dŵr Cymru’s Water Resource Management Plan shows that water resources should be adequate to 2039. Flooding is already a significant issue in Cardiff, and is likely to become worse over time, with climate change and sea level rise.

	Total in the study area	Low flood risk (between 1 in 100 and 1 in 1000 per year)	Medium flood risk (between 1 in 30 and 1 in 100 per year)	High flood risk (greater than 1 in 30 per year)
People	278,654	22,010	2,808	938
Services*	296	30	7	0
Non-residential properties	17,674	1,849	325	127
Roads (km)	49	11	5	3
Rail (km)	43	4	2	4
Agricultural land (ha)	1,464	81	25	18

* schools, hospitals, nursing/care/retirement homes, police stations, fire and ambulance stations, prisons, sewage treatment works and electricity installations

Table 3.11.1 People and property in Cardiff at risk of flooding¹⁷¹

4 Existing sustainability problems and issues (Task A4)

The SEA Directive requires a description of “any existing environmental problems which are relevant to the plan or programme including, in particular, those relating to [Special Protection Areas and Special Areas of Conservation]” (Annex Id).

Based on the information in Chapters 2 and 3, Table 4.1 lists key current sustainability problems and issues for Cardiff. The final column of Table 4.1 summarises the likely future conditions in Cardiff if the current Local Development Plan were to continue, without the RLDP being put in place. This will be important later in the assessment process, when the ISA considers the cumulative impacts of the RLDP plus other actions.

Table 4.1 Key sustainability issues and main problems for Cardiff

Key:

Topic:	Main sustainability problem			Not main problem		
Current status, likely future:	Good condition	Relatively good condition	Intermediate condition	Relatively poor condition	Poor condition	Unknown condition

Topic	Current status	Likely future without the RLDP
1. Access, equality and population		
<ul style="list-style-type: none"> The population of Cardiff will increase by 2039, although forecasts differ about the scale of this increase. The cost of housing - particularly family housing - is excluding those on low incomes from entering the housing market. Providing an appropriate range and choice of housing for this population growth (including services and infrastructure) is a key sustainability issue. Cardiff has a much higher proportion of young adults and ethnic minorities than the Welsh average, and its population is ageing. Cardiff contains some of the most deprived areas in Wales - geographically there is a concentration of deprivation in the ‘southern arc’ although hotspots exist elsewhere. Unemployment benefits claims have doubled during the coronavirus pandemic. Cardiff has a significant number of homeless people. Many of these have been housed during the coronavirus pandemic, but their longer-term future remains uncertain. 		
2. Air quality		
<ul style="list-style-type: none"> There are four air quality management areas in Cardiff based on NO_x levels. Although air quality in the city is generally improving in line with national 		

Topic	Current status	Likely future without the RLDP
<p>trends, and this may be helped by changes post-pandemic, the Cardiff City AQMA in particular still consistently has NO₂ levels above legal standards.</p> <ul style="list-style-type: none"> Levels of particulates (PM₁₀, PM_{2.5}) are a concern. 		
3. Biodiversity, flora and fauna		
<ul style="list-style-type: none"> The city's internationally important nature conservation sites – the Cardiff Beech Woods SAC and the Severn Estuary SAC/SPA/Ramsar – are broadly in good condition, but are affected by recreational pressures and urbanisation. The Severn Estuary's wetland birds are particularly negatively affected by recreational pressures and habitat loss. Little information exists about Cardiff's biodiversity more generally, which will limit the ability to predict the impacts of the RLDP. 	?	?
4. Climate change		
<ul style="list-style-type: none"> Cardiff aims to become carbon neutral by 2030. CO₂ emissions are already reducing, but much too slowly to achieve this target without immediate additional action. Although walking, cycling and public transport use have gradually increased over time, before the coronavirus pandemic 50% of commuting journeys were still by car. Cardiff's growing population is likely to lead to more car journeys, with associated poor air quality, traffic accidents and poor health; although this may be partly offset by lifestyle changes post-pandemic. Cardiff is a major attractor of in-commuters from other parts of South East Wales. Energy use in buildings is responsible for about one-third of Cardiff's greenhouse gas emissions: new buildings need to be more energy efficient. 		
5. Cultural heritage and the historic environment		
<ul style="list-style-type: none"> Cardiff's cultural and historic attractions attract large numbers of visitors each year and perform an important national/regional role. A live music arena is expected to open in 2024. In 2015, 27 of Cardiff's listed buildings were at risk, and 116 were vulnerable. An increasing number of Cardiff residents speak Welsh. The Bilingual Cardiff Strategy Action Plan 2019 - 2022 supports using the Welsh language as a unique selling point for Cardiff. 		?
6. Economy		
<ul style="list-style-type: none"> Maintaining Cardiff's performance is vital for the economic well-being of the region and Wales. Cardiff has been experienced strong jobs growth, and almost half of Cardiff's employees are in one of the Welsh Government's priority sectors. However the coronavirus pandemic has had devastating effects on the retail and hospitality sectors. 		?

Topic	Current status	Likely future without the RLDP
<ul style="list-style-type: none"> Cardiff's workforce is polarised between more highly-qualified and low or unskilled workers; there are significant concentrations of unemployment in parts of the city; and the education and skill base of Cardiff's population varies significantly. Significant areas of employment land have been changing to other uses (notably housing) as a result of changing employment patterns and market conditions. 		
7. Health and well-being		
<ul style="list-style-type: none"> The health of Cardiff's population is generally slightly better than the Welsh average, but over half of Cardiff's adults are overweight or obese. The 'southern arc' of the city ranks poorly on a wide range of criteria in the Welsh Index of Multiple Deprivation. Health inequalities in the city are particularly stark, with the most disadvantaged groups in Cardiff having a healthy life expectancy 20+ years less than the least disadvantaged groups. The coronavirus pandemic has shown the importance of access to green spaces for mental and physical wellbeing. Crime levels in Cardiff have slightly fallen over time, but fear of crime has increased. 		
8. Land, soil and minerals		
<ul style="list-style-type: none"> Cardiff's ecological footprint exceeds the global 'fare share' Whereas almost all new housing was built on brownfield land ten years ago, most recently it has been 58-59%. The current LDP has allocated large new greenfield sites for development. Cardiff's allotments are important for people's health and food security, but they are oversubscribed, and more will be needed. Cardiff's grade 2 and 3 land is important for people's health a food security. 		
9. Landscape		
<ul style="list-style-type: none"> Cardiff has a distinctive landscape setting, and has six Special Landscape Areas where development may be restricted on landscape grounds. Cardiff has 1.17ha of functional open space per 1000 population, compared to the Welsh Assembly Government's recommended 2.43ha. If all types of open space are included, the figure is 8.03ha of open space per 1,000 population. 		
10. Waste		
<ul style="list-style-type: none"> Construction/demolition waste is the largest contributor to the waste stream, followed by commercial/industrial and municipal (household) waste. Little is known about quantities produced or proportion recycled. Total municipal waste production has stayed broadly the same over the past decade, but per-person waste production has dropped sharply. 		

Topic	Current status	Likely future without the RLDP
<ul style="list-style-type: none"> Recycling in Cardiff has increased sharply, from 10% in 2004 to about 60% currently. 	Yellow	Green
11. Water and flooding	Grey	Grey
<ul style="list-style-type: none"> Water quality in most of Cardiff's waterbodies is moderate (poor in River Ely) putting biodiversity and population health and wellbeing at risk. Water supplies are expected to be adequate over the RLDP period, although water efficiency measures are needed. Large areas of Cardiff are at flood risk due to the city's low-lying nature. The communities of St. Mellons, Roath, Grangetown, Riverside and Canton are at particular risk. 	Orange	Red

5 ISA Framework (Task A5)

Two Integrated Sustainability Appraisal (ISA) frameworks will be used to assess the sustainability of the emerging RLDP. These have been amended slightly in response to consultation comments. A policy-level framework – shown at Table 5.1 - will be used to assess the plan vision, objectives, strategic alternatives, and policies. Many of the objectives and indicators in the framework relate to each other: for instance, minimising the need to travel is good for health, air quality, biodiversity and community. Criteria will be:

--	Major negative compared to the current situation
-	Minor negative compared to the current situation
+/-	Both positive and negative
0	Neutral effect.
+	Minor positive compared to the current situation
++	Major positive compared to the current situation
?	Uncertain - Uncertain or unknown effect.

A site-level framework – Table 5.2 - will be used to assess candidate sites for development. This is because more detailed and quantitative information is needed to allow development sites to be assessed and compared. Additionally, some ISA criteria that are relevant at the strategic level are either not relevant at the site level (e.g. because the details of the potential future development are unknown or unclear) or would be similar for all sites (e.g. waste management). The distances in Table 5.2 are consistent with distances used by the Chartered Institute of Highways and Transportation for journeys on foot. Table 5.2 is based only on the location and characteristics of the site, not the characteristics of possible development on the site: this is because much of the impact of development relates to the site itself, and because proposed developments can change significantly from initial discussions with planners to final planning permission.

Tables 5.1 and 5.2 will inform, but not make, council decisions about what policies and sites to take forward. Where Tables 5.1 and 5.2 identify significant negative impacts (e.g. the site includes a Special Landscape Area), mitigation measures will be recommended (e.g. not building in the SLA part of the site).

Table 5.3 shows how the ISA frameworks fit with the Welsh Government's seven Well-Being Goals. The ISA process also supports the government's Well-Being Ways of Working:

- Long-term: The ISA identifies the likely future situation in the absence of the plan; predicts the emerging RLDP's impacts; and identifies long-term impacts and needs
- Integration: The ISA considers how the RLDP will impact on different sustainability objectives
- Involvement: Both the emerging RLDP and its ISA will be open to public involvement at various stages (see Sec. 1.1 and 6)
- Collaboration: The ISA has required, and will require, the collaboration of a range of players (e.g. planners, ecologists, transport planners) to identify significant impacts and propose mitigation for any significant negative impacts
- Prevention: The ISA by definition aims to prevent significant negative impacts of the emerging RLDP.

Table 5.1 ISA framework for the RLDP vision, objectives, strategic alternatives and policies

ISA objective	Sub Objectives: Will the vision/objective/alternative/policy...	Indicators and wished-for direction of change (↓ or ↑)
1. Help deliver equality of opportunity and access for all	<ul style="list-style-type: none"> • Meet the need of Cardiff's population for homes, jobs and community facilities • Address existing imbalances of inequality, deprivation and exclusion • Improve access to education, life-long learning and training opportunities • Improve access to affordable housing and employment opportunities, particularly for disadvantaged sections of society • Improve access to community facilities and services, particularly for young and elderly people • Support the regeneration of deprived areas 	<ul style="list-style-type: none"> • Population size • No. households and average household size • Average house price compared to average annual salary ↓ • No. and % of Cardiff's lower super output areas in the most deprived 10% lower super output areas for Wales ↓ • % of residents on unemployment benefits ↓ • No. and % of domestic units that are provided for affordable housing per year ↑ • No. homelessness presentations received by Cardiff Council per 1000 households annually ↓
2. Maintain and improve air quality	<ul style="list-style-type: none"> • Reduce the need to travel through the location and design of new development, provision of public transport infrastructure and promotion of cycling and walking • Avoid locating new development, including active travel routes, where air quality could negatively impact upon peoples' health • Help to meet air quality standards for people and ecosystems 	<ul style="list-style-type: none"> • No. air quality management areas ↓ • NO_x levels in AQMAs ↓
3. Protect and enhance biodiversity, flora and fauna	<ul style="list-style-type: none"> • Maintain and achieve favourable condition of international and national sites of nature conservation importance (SACs, SPAs and SSSIs) • Maintain extent and enhance the quality of locally designated sites (LNRs and SNCIs) and LBAP priority habitats • Protect and enhance protected species and LBAP priority species • Maintain and enhance connectivity of corridors of semi-natural habitats • Provide opportunities for people to experience wildlife and habitats • Help to provide a net benefit for biodiversity, consistent with Planning Policy Wales 10 	<ul style="list-style-type: none"> • No. and extent (in hectares) of designated sites of importance (SACs, SPAs, SSSIs, LNRs and SNCIs) ↑ • % of features of internationally and nationally designated sites in favourable condition (SACs, SPAs, SSSIs) ↑ • Area (in hectares) of ancient woodland cover ↑ • Total extent (in hectares) of LBAP priority habitats ↑

ISA objective	Sub Objectives: Will the vision/objective/alternative/policy...	Indicators and wished-for direction of change (↓ or ↑)
4. Reduce emissions of greenhouse gases and adapt to the effects of climate change	<ul style="list-style-type: none"> • Support energy conservation and energy efficient design • Promote renewable energy generation • Promote efficient land use patterns that minimise the need to travel • Promote sustainable modes of transport and integrated transport systems • Reduce vulnerability of the built environment to the effects of climate change • Help Cardiff to achieve the One Planet Cardiff vision to become a carbon neutral city by 2030 	<ul style="list-style-type: none"> • Emissions of greenhouse gases by end use and sector ↓ • Traffic volumes (million vehicle Km) ↓ • Mode of travel to the city centre for all purposes ↓ for cars/vans, ↑ for walking, cycling and public transport • Average household energy consumption (kWh) ↓
5. Protect and enhance historic and cultural heritage, including the Welsh Language	<ul style="list-style-type: none"> • Protect and enhance historic and cultural assets including scheduled ancient monuments, listed buildings, historic parks and gardens, historic landscapes and conservation areas • Encourage access to the historic and cultural heritage • Support local character and distinctiveness through good design • Support the use of the Welsh Language 	<ul style="list-style-type: none"> • % of listed buildings 'at risk' ↓ • % of conservation areas with an appraisal undertaken in the last 10 years ↑ • % of Cardiff residents who speak Welsh ↑
6. Help deliver the growth of a sustainable and diversified economy	<ul style="list-style-type: none"> • Increase the number and range of employment opportunities • Support and enhance the role of Cardiff as a key economic driver of South East Wales city region • Promote and support city and local centres, local employment opportunities and mixed use development • Support a post-pandemic green recovery 	<ul style="list-style-type: none"> • No. of jobs in Cardiff ↑ • Full time gross median pay (£/week) ↑ • % of residents working age population in employment ↑ • Amount of land (in hectares) available for employment ↑ for brownfield
7. Improve health and well-being	<ul style="list-style-type: none"> • Reduce health inequalities • Encourage and facilitate walking and cycling, particularly in green infrastructure • Protect, and improve access to, open space, the countryside and other opportunities for physical activity • Improve environmental quality by minimising adverse impacts on health and wellbeing from pollution, flooding and waste management disposal • Promote good design that minimises adverse impacts on health and wellbeing from crime and road traffic accidents 	<ul style="list-style-type: none"> • Gap between wards with the highest and lowest life expectancy, and healthy life expectancy ↓ • % of adults who are overweight or obese ↓ • Adults who reported meeting physical activity guidelines in the past week ↑ • No. people killed or seriously injured in traffic accidents ↓ • Crime levels and fear of crime ↓

ISA objective	Sub Objectives: Will the vision/objective/alternative/policy...	Indicators and wished-for direction of change (↓ or ↑)
8. Use soils and minerals efficiently and safeguard their quality	<ul style="list-style-type: none"> • Re-use derelict and other previously developed land • Remediate contaminated and unstable land • Safeguard soil quality including the best and most versatile agricultural land, and protect and enhance allotments • Safeguard mineral resources and encourage their efficient and appropriate use 	<ul style="list-style-type: none"> • % of housing on previously developed land ↑ • No. and area (in hectares) of potentially contaminated sites ↓ • Area (in hectares) of grades 1, 2 and 3a agricultural land ↑ • Area of allotments, number of plots ↑ • Landbank (in years) of mineral reserves ↑
9. Protect and enhance the landscape	<ul style="list-style-type: none"> • Protect and enhance the landscape including the countryside, areas of landscape value, river valleys, greenspaces and the undeveloped coastline • Protect and enhance Cardiff's Special Landscape Areas • Promote high quality design in keeping with its landscape context • Increase access to open space 	<ul style="list-style-type: none"> • Area (in hectares) of landscape protected by local landscape designations (Special Landscape Area and conservation areas) ↑ • Achievement of recreational open space requirements ↑ • Area of Cardiff within 400m of accessible natural green space ↑
10. Minimise resource use and waste, increase re-use and recycling	<ul style="list-style-type: none"> • Reduce Cardiff's ecological footprint • Promote resource efficiency and the use of secondary and recycled materials • Promote waste reduction, re-use, recycling and recovery 	<ul style="list-style-type: none"> • Ecological footprint ↓ • Commercial and industrial waste, construction/ demolition waste, and municipal waste arising per year ↓ • % of municipal waste composted or recycled ↑
11. Maintain and enhance water quality and resources, and manage flooding	<ul style="list-style-type: none"> • Conserve water resources and increase water efficiency • Improve the water quality of rivers, lakes, groundwaters and coastal areas • Ensure that a precautionary approach is applied, and that the location and design of new development manages the potential risks and consequences of flooding down to an acceptable level. • Ensure new developments have adequate sustainable drainage systems • Help to achieve water quality standards 	<ul style="list-style-type: none"> • % of river lengths achieving good ecological and chemical status or potential ↑ • Average water use per household per year ↓ • Quality of Cardiff's rivers ↑ • No. of planning applications in flood risk areas granted against NRW advice ↓ • No. of properties at risk from river and coastal flooding ↓ • % of new development with sustainable urban drainage systems (SUDS) ↑

Table 5.2 ISA framework for candidate sites

ISA objective	The candidate site is...			
	++	+	-	--
1. Help deliver equality of opportunity and access for all	In the lowest 10% LSOA for overall WIMD	In the lowest 20% LSOA for overall WIMD	In the lowest 50% LSOA for overall WIMD	In the top 50% LSOA for overall WIMD
	Would lead to a net gain/ improvement of a community facility			Would lead to a net loss / worsening of a community facility
	Would lead to a net gain/ improvement of housing			Would lead to a net loss of housing

Table 5.3 Links between the ISA objectives and the Welsh Government Well-being Goals

Well-being goal		ISA objectives
1	A prosperous Wales: An innovative, productive and low carbon society which recognises the limits of the global environment and therefore uses resources efficiently and proportionately (including acting on climate change); and which develops a skilled and well-educated population in an economy which generates wealth and provides employment opportunities, allowing people to take advantage of the wealth generated through securing decent work.	4, 6, 8, 10, 11
2	A resilient Wales: A nation which maintains and enhances a biodiverse natural environment with healthy functioning ecosystems that support social, economic and ecological resilience and the capacity to adapt to change (for example climate change).	2-4, 11
3	A healthier Wales: A society in which people's physical and mental well-being is maximised and in which choices and behaviours that benefit future health are understood.	2, 7
4	A more equal Wales: A society that enables people to fulfil their potential no matter what their background or circumstances (including their socio economic background and circumstances).	1
5	A Wales of cohesive communities: Attractive, viable, safe and well-connected communities.	1, 9
6	A Wales of vibrant culture and thriving Welsh Language: A society that promotes and protects culture, heritage and the Welsh language, and which encourages people to participate in the arts, and sports and recreation.	5
7	A globally responsible Wales: A nation which, when doing anything to improve the economic, social, environmental and cultural well-being of Wales, takes account of whether doing such a thing may make a positive contribution to global well-being.	3-6, 8-11

If further information becomes available, Table 5.1 will be amended. In particular, more information is needed on

- access to community facilities and services / achievement of '15 minute neighbourhoods'
- air quality at sensitive European sites (notably Cardiff Beech Woods SAC and Blackmill Woodlands SAC)
- protected species
- damage to ancient woodlands

- net benefit for biodiversity
- no. or % of new dwellings that are zero carbon
- renewable energy generated
- good design
- no. or % of jobs in the 'green/circular economy' sector
- time spent commuting into Cardiff in private cars v. via active travel
- ecological footprint (up to date information)
- industrial/commercial waste generated
- waste reduction and reuse.

Table 5.2 may also still be fine-tuned, depending on the GIS layers available at Cardiff Council.

6 Next steps

This Scoping Report, further updated as appropriate, will provide the framework for assessing how the Council is delivering sustainable development throughout all future stages of the preparation of the RLDP. Objectives and indicators set out in the report will be used to appraise and monitor the development of the RLDP. Future reports prepared as part of the ISA process will evidence this assessment as different stages of the RLDP are completed, culminating in the preparation of a Sustainability Report that will be subject to consultation alongside the deposited copy of the RLDP. Both documents will be subject to full consultation and be duly considered at the Public Examination into the RLDP.

“Delivering effective research and consultation and first class research and information services”

Cardiff Research Centre delivers key research, information and multimedia services for Cardiff Council and other key organisations in Cardiff and Wales.

Core services include:

- Collection, analysis and interpretation of primary survey data.
- Analysis and interpretation of a wide range of secondary demographic and socio-economic statistical data.
- Specialised studies on a wide range of topics including social, economic and demographic subjects.
- Quantitative and qualitative research and consultation projects.
- Management Cardiff Citizens’ Panel.
- Focus Group and meeting facilitation.
- Advice and support on all aspects of research and consultation.
- GIS mapping services
- Professional multimedia support in relation to presentations, conferences, meetings, graphic design services and internet development.

Background

The Replacement Local Development Plan (LDP) will help shape Cardiff for the next 15 years to 2036 ensuring the right development happens in the right place at the right time, benefitting communities and the economy and setting out which areas need to be protected.

The Council is right at the beginning of the process of preparing a new LDP and is keen to get the views of members of the public on the draft Vision, Issues and Objectives for the plan, and some of the big issues that the plan will need to consider, like housing growth, the future of work and travel and how Cardiff tackles the climate emergency.

A consultation was developed to gather feedback on the plan, and ask people to think about the balances the plan will have to consider. Given the COVID-19 restrictions in place at the time of the consultation, which restricted the number of people able to meet, particularly indoors, and forced the closure of public buildings such as Hubs and libraries, the consultation took place as an online survey.

Methodology

The Cardiff Research Centre worked closely with partnership organisations to ensure as representative a response as possible. In a bid to ensure the survey was promoted as widely as possible, the survey was promoted via:

a) Email

- Organisations known to work with less frequently heard groups
- Cardiff's Citizen's Panel

b) Internet/intranet

The survey was hosted on the Council website, with promotions on the home page and the Have Your Say section. A dedicated "Virtual Consultation Room" was set up on www.cardiffldp.co.uk, providing members of the public with the background to the plan and links to the consultation.

c) Social media

The survey was promoted via Facebook and Twitter throughout the consultation period. Social media 'boosts' were made to selected demographics with a traditionally low response rate.

Once the consultation closed, the responses were cleansed and validated, to remove blank or duplicate responses. A total of 1,215 responses were received for the survey overall, with respondents able to skip questions they did not wish to answer. The response rate for each question is included in the report.

Topic 1: New Houses and Homes

Issue: Where development should happen

Cardiff is a fast-growing city – 8,000 homes have been built over the last 10 years.

A growing city requires space for new housing.

Low housing supply can lead to ever-increasing house prices leaving more people struggling to afford a secure place to live. Growth therefore provides opportunities for providing a range and choice of homes and for more affordable housing.

However, it can also lead to pressures such as the need to release of greenfield land and provide supporting infrastructure such as transport facilities, schools and health facilities.

What kind of balance should the plan strike in addressing future growth for more homes?

A total of 1,157 responses were received for this question, giving a response rate of 95.2%

Respondents were asked to indicate the level of housing growth the plan should consider, rating from a score of zero for no housing growth, fifty for the midpoint, and one hundred for high housing growth. The resulting scores were used to calculate an overall score to indicate how much housing growth was preferred – a lower score signifies no growth, while a higher score indicates high housing growth.

Overall, 7.3% of respondents wanted to see no housing growth in the Replacement Local Development Plan, 12.9% wanted mid-level growth, and 7.0% high housing growth. Almost half (46.6%) indicated a lower level of growth (scoring 10 to 40) compared with a quarter (26.2%) who suggested a higher level (scoring 60 to 90). The overall score was **43.5**, suggesting a moderate level of housing growth is optimal.

Looking at scores by respondent group showed a broad consistency of opinion, with just 15.6 points between the highest and lowest scores, based on a 100 point scale

Respondents who identified as disabled, and those under the age of 35 wanted higher levels of housing growth, scoring 55.4 and 50.4 respectively.

Women, and those with children in their household indicated the lowest levels of housing growth (39.8 and 41.7 respectively).

Base sizes shown in brackets – caution should be taken with lower base sizes

While there was no clear correlation with level of deprivation, respondents living in the least deprived areas of the city wanted the lowest level of housing growth (35.9).

Base sizes shown in brackets – caution should be taken with lower base sizes

Please explain the reasons for your answer

Respondents were asked to provide reasons for their answer to the above question: 927 comments were received, and grouped into themes. The top three are shown below, with a full breakdown in Appendix 2:

Theme	No	%	Example comments
Houses needed/ Quality / Affordable housing / Social housing	278	30.0	<ul style="list-style-type: none"> - <i>There is a shortage of affordable housing especially for first time buyers in the city.</i> - <i>Currently my children will never be able to buy a house</i> - <i>We need more council housing and low rent costs</i> - <i>There is a need for affordable housing in Cardiff</i> - <i>More homes are needed but there is a growing need for cheaper good quality Council and Housing Association homes and not homes which require a mortgage for the privileged people who can afford them.</i> - <i>More good quality housing is essential.</i> - <i>Nowhere near enough housing</i>
Preserve Green Space	273	29.4	<ul style="list-style-type: none"> - <i>Cardiff is known for being a green city, yet these boundaries are continuously being pushed.</i> - <i>important to provide housing but still need protect land</i> - <i>A balance between housing need and the benefits of green spaces</i> - <i>Green spaces are fundamentally important to the wellbeing of the citizens. Any future building should be on brown field sites</i> - <i>We need more houses but part of Cardiff's charm is the proximity to green space.</i>
Need to improve infrastructure/ Services / Public transport	235	25.4	<ul style="list-style-type: none"> - <i>There should be no further land for housing until sufficient infrastructure has been provided to accommodate it.</i> - <i>traffic is out of control, we need to improve transports and roads before building more houses</i> - <i>More homes are needed, but the infrastructures always take so much longer to do, and the public transport links are just so poor to the areas now being built on further outside of the City</i> - <i>The housing supply is currently outstripping the infrastructure and needs to be reduced slightly until an infrastructure plan is delivered</i>

Broadly speaking, there are two ways of allocating land for new housing:

Brownfield: Often around city centres. Includes filling in gaps in existing neighbourhoods and building taller buildings. It can also include old industrial units, although these often come with much higher build-costs.

Green Field: This can typically be on old farmland, using green fields on the edge of urban areas to grow a city. Whilst the development costs are cheaper, so homes can often be more affordable, more infrastructure is needed such as public transport and new schools.

What kind of balance should the plan strike if the city is projected to need new housing?

A total of 1,154 responses were received for this question, giving a response rate of 95.0%

Over a third of those responding to this question (36.5%) felt that only brownfield sites should be used as land for new housing, compared with 2.3% who favoured greenfield sites, and 10.8% who chose the midpoint between the two.

This received an overall score of **22.7** out of 100, indicating the preference for brownfield over greenfield sites

Again, there was consistency of opinion across the demographic groups analysed, with just seven point across the range of scores.

Older respondents were most likely to indicate a preference for brownfield sites, with a score of 19.5, compared with 26.5 for those under 35

Base sizes shown in brackets – caution should be taken with lower base sizes

There was no clear pattern by level of deprivation, although those living in the least deprived area showed the strongest support for brownfield sites.

Base sizes shown in brackets – caution should be taken with lower base sizes

Issue: Homes of the future

The Plan looks forward 15 years to 2036 and helps determine the design of new houses which will be built in the future. The design of these new homes will need to address climate change and changes in lifestyle and technology.

Please rank the following in order of importance - A home that is...

A total of 1,058 respondents gave at least one answer for at least one option to this question, giving an overall response rate of 87.1%

Over two-thirds of respondents (67.6%) ranked “Energy efficient” as one of their top three most important considerations to ensure new homes will address changes in climate change and changes in lifestyle and technology, with 27.8% ranking this as the most important aspect.

This was followed by “Affordable to run”, with 48.8% ranking this in the top three, and “Environmentally friendly”, which was rated in the top three by 45.8% of the total votes for this option, including 19.1% rating it as most important.

Respondents answering “Something else” were asked to give more details. A total of 262 comments were received, and grouped into themes; the top three themes are shown below, with a full list in Appendix 3:

Theme	No	%	Example comments
Consideration of Environment/Nature	54	20.6	<ul style="list-style-type: none"> - <i>Design that incorporates old buildings and enhances rather than bulldozers local character</i> - <i>The earth is now at a point of no return. If you don't prioritise getting rid of fossil fuel boilers and cars we are not going to exist anymore and this earth will be a desert. WAKE UP!</i> - <i>Awareness of carbon footprint and consequences of creating housing development too far away from necessary communication and amenities</i> - <i>Target energy neutral, reduce/remove reliance on cement, drive developers to use solar/heat pumps/renewable materials, disconnect car reliance</i>
Sustainability	44	16.8	<ul style="list-style-type: none"> - <i>Good design and built to last using local materials and services.</i> - <i>Cardiff needs to respond to the climate crisis with a sustainable and energy efficient building stock. This also means retrofitting of existing buildings.</i> - <i>Target energy neutral, reduce/remove reliance on cement, drive developers to use solar/heat pumps/renewable materials</i> - <i>PassivHaus principles please</i>
Better design / quality / sympathetic to their settings	42	16.0	<ul style="list-style-type: none"> - <i>Better design and build quality is needed. Too many new build homes are architecturally depressing, not just for the people who live in them but those who have to look at them on a daily basis.</i> - <i>The aesthetic and quality of materials used. Innovative and attractive housing that is sympathetic with the surroundings.</i> - <i>The new builds should be visually beautiful. The aesthetic value of the buildings is often a feature not considered in the planning process, there are many positives that beautiful buildings bring to an area and are worthy of consideration.</i>

This pattern of responses was broadly consistent across the demographic groups analysed; there were no correlations with the level of deprivation.

Topic 2: New Jobs

Issue: A growing city - jobs

Cardiff plays a key role as the economic driver of South East Wales.

This helps thousands of people inside and outside Cardiff find good jobs and secure an income.

We have an opportunity to build upon the recent successes in creating new jobs. The Plan can set out how this can be achieved by identifying the locations and type of jobs we think we need by 2036 as well as seeking to make the best use of existing employment land. It can also set out the policies we will have in place to protect existing employment land and uses.

What kind of balance should the plan strike in addressing future jobs growth?

A total of 976 responses were received for this question, giving a response rate of 80.3%

Almost a quarter of respondents (22.5%) indicated the Plan should look for a middle ground in terms of the amount of space made available for employment; 12.8% wanted to see the maximum space made available, whilst 4.3% suggested no space should be made available for jobs.

The scoring system was applied, generating a total score of **58.7** out of 100, confirming the strength of opinion for a middle ground.

Please explain the reasons for your answer

A total of 696 comments were received, which have been grouped into themes. The top three are shown below, with the full list available in Appendix 4.

Theme	No	%	Example comments
Jobs vital for economy/ growth	209	30.0	<ul style="list-style-type: none"> - <i>The City needs growth in jobs and population in order to raise taxes to pay for social infrastructure</i> - <i>Young people need work and attraction of talent</i> - <i>employment is the future</i> - <i>Without jobs a city can go into decline.</i> - <i>more jobs are essential at the moment</i> - <i>creating new jobs is very important</i>
Do we need more space / lots of empty offices	162	23.3	<ul style="list-style-type: none"> - <i>Cardiff is full of empty office and retail space. Fill up what's there first please.</i> - <i>I would not support the building of more offices as they don't seem necessary now.</i> - <i>Many businesses are now looking to reduce office space in the centre of cities and are encouraging more homeworking. Building more office space in city centres is increasingly outdated and puts more pressure on a city's infrastructure.</i> - <i>Creating space for jobs does not mean that more jobs will happen. There must be coordinated approach</i>
COVID has changed how we work/home working	157	22.6	<ul style="list-style-type: none"> - <i>Due to the pandemic there are empty offices everywhere, people will likely work from home, there is no requirement for more buildings.</i> - <i>The Council needs to consider the direction employers will be taking post-pandemic. To what extent is more flexible working, including from home, likely to become the norm?</i> - <i>Covid has changed how business need and use space.</i> - <i>Covid and the focus on the capability to work from home has, I think, changed the need to build the amount of commercial properties that was needed previously</i>

There was, again, a broad consensus of opinion across the demographic groups analysed, with just 9 points difference.

Base sizes shown in brackets – caution should be taken with lower base sizes

There was no correlation of opinion with the level of deprivation.

Base sizes shown in brackets – caution should be taken with lower base sizes

Issue: Workplaces of the future

The Plan looks forward 15 years to 2036 and helps determine where new jobs will be located and the design of new workplaces which will be built in the future.

The design of these workplaces will need to address climate change and changes in lifestyle and technology.

Please rank the following in order of importance

A total of 976 respondents gave at least one answer for at least one option to this question, giving an overall response rate of 81.1%

“Re-purposed vacant retail floorspace in the city centre, district and local centres” was seen as the most important of the options provided, with 19.1% of respondents ranking this in first place, and a total of 55.6% of all respondents putting this in their top three.

This was followed by “Small employment hubs in accessible places” (placed in the top three by 89.3%, with 17.2% ranking this as most important), and by “Enhanced or refurbished existing employment areas” (ranked in the top three by 91.4%, and first by 12.5%).

Respondents answering “Something else” were asked to give more details. A total of 136 comments were received, and grouped into themes; the top three themes are shown below, with a full list in Appendix 5:

Theme	No	%	Example comments
Ensure empty properties repurposed	25	18.4	<ul style="list-style-type: none"> - <i>use up all existing disused workspace before building new - I've seen so many new buildings being erected near an identical building with a "to let" sign</i> - <i>It surely always makes sense to repurpose and reuse existing spaces before spending money on brand new out of town places usually with no close resources</i> - <i>Less destruction of our old buildings and architecture.</i>
Improve transport	19	14.0	<ul style="list-style-type: none"> - <i>Free travel for all to reduce carbon footprint</i> - <i>Good public transport at all hours.</i>
Working from Home	17	12.5	<ul style="list-style-type: none"> - <i>Allow people to work from home.</i> - <i>Supported home working by choice</i>

There was a broad consensus of opinion across the demographic groups analysed, with some notable exceptions:

Re-purposed vacant retail floorspace in the city centre, district and local shops

- Support highest amongst respondents from a Minority Ethnicity, with 62.5% ranking this in their top three most important options.
- Support lowest amongst younger respondents, of whom 46.7% ranked it in their top three.

More remote working, hybrid working, co-working

- Support highest amongst those from a Minority Ethnicity, with 65.3% ranking this in their top three
- Support lowest amongst with respondents identifying as disabled (36.8%) and over 55s (37.2%)

New, high quality modern campus style business parks in a quality environment

- Around a fifth of men, those identifying as disabled, and respondents aged 55 or over ranked this in their top three (22.5%, 21.8% and 20.2% respectively), around double the proportion of respondents with children in their household (11.6%), under 35s (11.2%) and women (9.8%).

Home working

- Over a third of respondents living in the most deprived areas of the city (37.9%) ranked this in their top three

A full breakdown of differences by demographic group is available in Appendix 6

Topic 3: New Infrastructure to support growth

Issue: Priorities for new infrastructure

As Cardiff continues to grow, new infrastructure will be needed alongside the new homes and jobs. This will include a wide range of community facilities such as schools and health centres as well as transportation solutions.

The plan must set out the things the city needs and how these can be put in place over the next 15 years.

Please rank the following themes in order of importance

A total of 953 respondents gave at least one answer for at least one option to this question, giving an overall response rate of 78.4%

Transport and Highways were seen as the most important priority for infrastructure, with around two-thirds of respondents (64.5%) ranking this in their top three, with 37.7% rating this as the most important priority.

This was followed by Health, placed in the top three by 57.5% of respondents, and ranked first by 19.7%, then by Green Infrastructure, in the top three of 51.2% of respondents overall, with 17.2% ranking this as most important.

Respondents were asked to list any other facilities not included in the above list – 206 comments were received, which were grouped into themes. The top three themes are shown below, with a full list available in Appendix 7.

Theme	No	%	Example comments
Difficult to rank	42	20.4	<ul style="list-style-type: none"> - <i>It is very hard to rank infrastructure all of which is essential to a functioning community. Infrastructure should be planned as a whole and no one element is more important than the other. Getting the infrastructure RIGHT is key</i> - <i>They are obviously all important!</i> - <i>No - they are all equally relevant. You cannot rank them!</i>
Transport	38	18.4	<ul style="list-style-type: none"> - <i>Accessible transport.</i> - <i>how about overhead mono rail system following existing road</i> - <i>Electric car charging infrastructure</i>
Road Network	31	15.0	<ul style="list-style-type: none"> - <i>Good roads for logistics and to bring more businesses to wales</i> - <i>Spend more for the car</i> - <i>The road network needs dramatically improving, ring roads etc.</i>

There were notable differences in priority across the demographic groups analysed, with

- Men were most likely to rate Transport and Highways in first place
- Schools were most important to respondents with children in their household
- Health infrastructure was most important to respondents who identify as disabled
- Green Infrastructure was seen as more important by those under the age of 35

A full breakdown showing differences of opinion is available in Appendix 8

Topic 4: Tackling the Climate Emergency

Issue: How to tackle the climate emergency

Climate change is now widely regarded as one of the most significant global challenges: almost 200 governments have endorsed the Paris Agreement to limit global temperature rise and Welsh Government has committed to reducing emissions of greenhouse gases by at least 80% by 2050.

In recognition of the risks posed to local residents Cardiff Council has declared a climate emergency. If no action is taken, threats such as rising sea levels/increased risk of flooding from rivers and surface water, more frequent extreme weather events and reduced biodiversity and food productivity become ever more critical.

Respond to the climate emergency presents opportunities as well as risks, for example new jobs in green industries; reduced fuel poverty and improved health that comes with better housing; improved air quality and greater active travel.

The plan offers a significant opportunity to take further steps in tackling climate change whilst providing a climate resilient development plan for Cardiff.

How do you think the plan can tackle climate change?

A total of 766 responses were received for this question, which have been grouped into themes. The top three themes are shown below, with a full list available in Appendix 9.

Theme	No	%	Example comments
Renewable energy / sustainable infrastructure	168	21.9	<ul style="list-style-type: none"> - <i>Serious investment is needed to provide sound infrastructure for green energy. There should be a mandate placed on housing developers to provide charging points for all homes.</i> - <i>Energy efficient new homes. Improve energy efficiency of existing housing</i> - <i>Ensuring all new build / infrastructure is built with sustainability in mind. People's homes are increasingly becoming workplaces too - ensure that new homes are fit for this purpose and allow people to live sustainable lives.</i> - <i>All public buildings should generate own energy - solar panels etc.</i> - <i>Focus on zero carbon buildings and on low-carbon heating.</i>
Improved / Enhanced Public Transport / Infrastructure	149	19.5	<ul style="list-style-type: none"> - <i>Reduce journeys by fossil fuel vehicles</i> - <i>The plan should consider more strategic action on traffic and transport</i>

		<ul style="list-style-type: none"> - <i>Cheaper, faster, more reliable greener public transport with plenty of space to avoid overcrowding if looking to reduce the number of cars around the city. Incentivise the use of public transport by making it low cost and affordable.</i> - <i>Massively increase infrastructure for active transport and reduce city car use.</i> - <i>Green transport.</i>
<p>Reduce car use - Ban Cars / Sufficient local amenities</p>	<p>109 14.2</p>	<ul style="list-style-type: none"> - <i>Facilitating shift from car dependence through improved public transport options to all areas of the city.</i> - <i>Incentivise people to give up their cars</i> - <i>Less cars on the streets</i> - <i>Cut down on private vehicle use</i> - <i>Develop "15 minute communities" where work, shops, health & community centres are all within 15 mins walk for everyone - discourage motorised transport.</i>

Topic 5: Moving around the city

Issue: Modal split target

As Cardiff continues to grow, new transport infrastructure such as the South Wales Metro will be needed alongside the new homes and jobs. It is important that this seeks to reduce reliance on the car in order to reduce congestion and harmful emissions and seek to promote a modal shift to sustainable forms of travel such as buses and trains, and active travel such as walking and cycling.

Latest data shows that the modal split in the city is currently around 50% private car/sustainable forms of transport.

As the city grows, what degree of modal split should the plan seek to achieve between private car use and sustainable forms of transport?

A total of 1,031 responses were received for this question, giving a response rate of 84.9%

A fifth of respondents (19.4%) indicated that the plan should seek to prioritise sustainable forms of transport, compared with 4.3% prioritising private car use, with 12.2% favouring a balance between the two.

Scores were calculated according to the number of respondents giving each answer, with lower scores favouring private car use, and higher scores favouring sustainable forms of transport – an overall score of **58.3** was achieved, indicating a balance between the two, slightly favouring sustainable transport.

Respondents identifying as disabled were the only demographic group analysed to shift the balance in favour of private car use:

Base sizes shown in brackets – caution should be taken with lower base sizes

There was no clear pattern across areas with different levels of deprivation.

Issue: Delivering Sustainable Transport Infrastructure

In order to deliver a modal shift and reduce congestion and reliance on the car it will be important for the plan to provide for a range of sustainable forms of transport.

Please rank the following options in terms of where you think we should invest infrastructure resources

A total of 923 respondents gave at least one answer for at least one option to this question, giving an overall response rate of 76.0%

Almost three-quarters of respondents (72.5%) rated investing in bus infrastructure within their top three priorities, with 32.6% ranking this as most important.

Two-thirds (66.4%) prioritised investing on train infrastructure, with 19.2% rating this as the most important priority.

Both cycling and walking were ranked in the top three by over half of those responding to this question (54.4% and 51.2% respectively).

Looking at these results by the different demographic groups showed different priorities.

Amongst respondents aged 55 or over, 84.3% ranked investment in bus infrastructure in their top three priorities, compared with 55.0% of those under 35.

Younger respondents put more emphasis on active forms of travel, with 70.3% prioritising investment in cycling, and 60.4% in walking compared with 46.5% and 48.2% of older respondents, respectively.

Respondent living in the more deprived areas were more likely to prioritise investment in cycling and walking than more affluent areas. Respondents living in the least deprived areas were more likely to place a higher priority on investment in train infrastructure.

Charts showing these difference in detail are available in Appendix 10.

Please specify where else infrastructure resources should be invested

A total of 268 responses were received for this question, which have been grouped into themes. The top three themes are shown below, with a full list available in Appendix 11.

Theme	No	%	Example comments
Improved / Enhanced Public Transport / Infrastructure	109	40.7	<ul style="list-style-type: none"> - <i>Bus service in Cardiff is appalling.</i> - <i>New train stations are essential. There are so many existing lines that run through the city for miles without intermediate stops. Take London – all central rail and tube lines have stations that are 15-20 minutes walk apart. That should be the ambition for all existing lines within all urban areas.</i> - <i>Regular and cheap metro / trams</i> - <i>Have one payment system that's allows train and bus use combined</i> - <i>One ticket system to cover public transport, parking and cycle hire</i>
Road Infrastructure	35	13.1	<ul style="list-style-type: none"> - <i>The existing roads need maintenance and improvement to ensure they are still fit for purpose.</i> - <i>We must recognise that the global pandemic has led people to want to use private transport for their travel needs, the obsession with public transport will cost us dearly in the future, and is not in line with personal needs.</i> - <i>good roads and pavements - that will enable people to cycle and walk safely as well as drive</i>
Focus on reducing need to travel / Car free areas	20	7.5	<ul style="list-style-type: none"> - <i>Cars need to be actively discouraged and prevented</i> - <i>Car-free areas - big ones!</i>

Topic 6: Healthier Environments

Issue: Improving health and well-being

Across Cardiff, inequalities exist both in terms of health and deprivation. For despite Cardiff's economic growth during the last 30 years, the patterns of poverty and inequality that emerged a generation ago remain. Over 150,000 people in the city live in some of most deprived communities in Wales. In terms of health, there is an 11 year gap in life expectancy for men and a 9.2 year gap in life expectancy for women between our most deprived and our least deprived communities. In addition, 54% of the population of Cardiff is either overweight or obese.

Given this it is important that the plan provides an appropriate balance and ensures that improving people's health is a key consideration in new and existing developments across the city. A range of measures for the plan to consider are listed below.

How do you think the city could be a healthier place and improve wellbeing?

A total of 903 respondents gave at least one answer for at least one option to this question, giving an overall response rate of 74.3%

The most important action to make the city a healthier place, and improve wellbeing, was to give Improved Access To Green Space, ranked in the top three options by 53.2% of respondents, and as the single most important by 24.5%.

This was followed by Feeling Safe, with 36.8% putting this option in their top three (12.8% ranking it first), then by Improved Air Quality, which was selected by 35.5% of respondents, ranked first by 11.2%.

These results were also analysed by demographic group – women were most likely to rank Feeling Safe in their top three (41.6%), closely followed by respondents with children in their household (41.2%); less than a quarter of respondents under the age of 35 ranked this as one of their top three options.

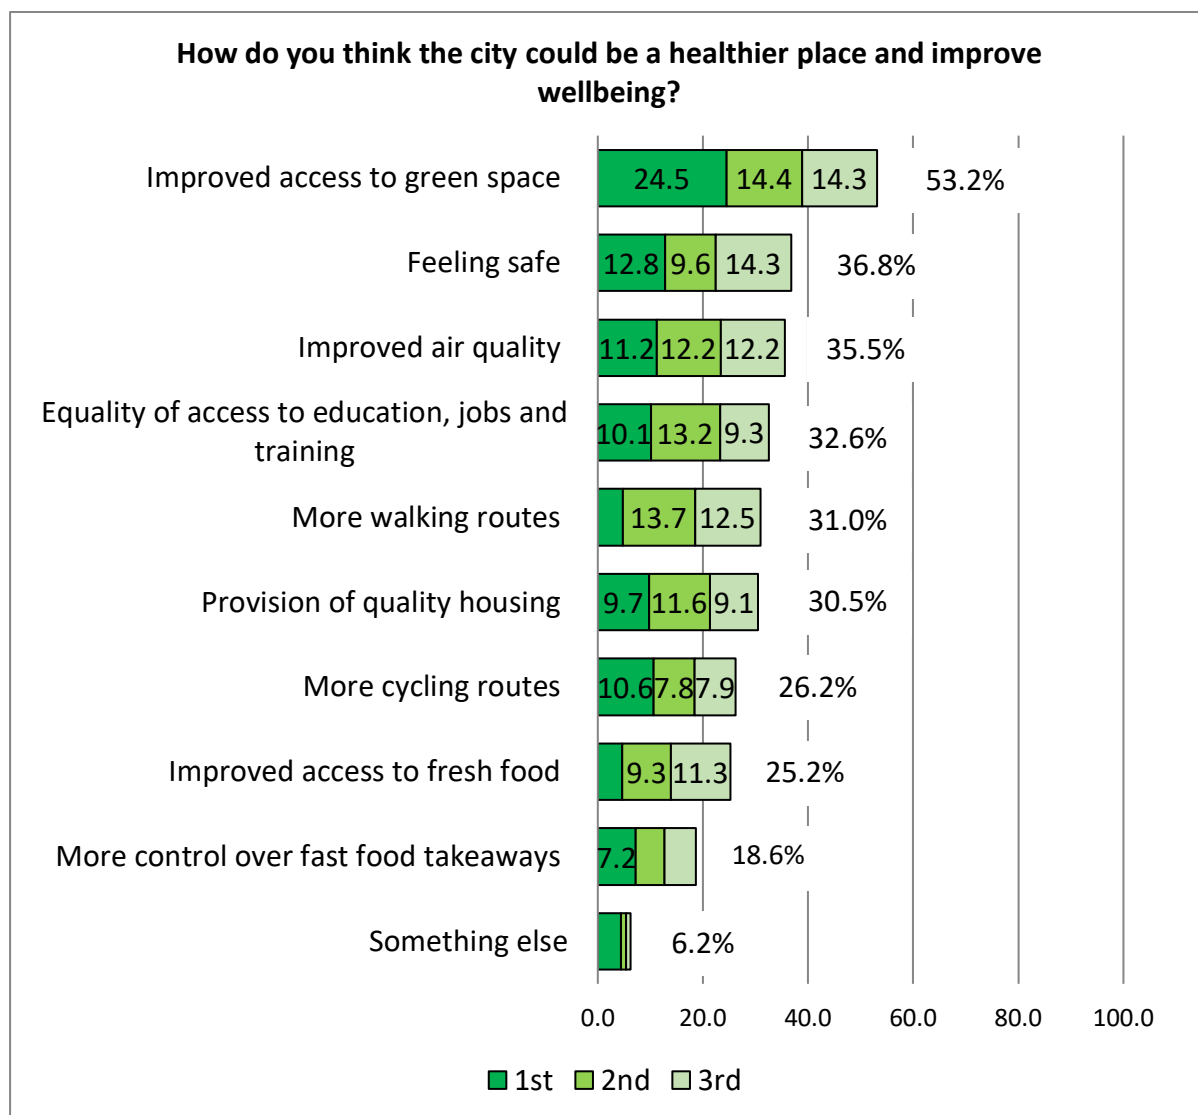

Respondents living in the more deprived areas of the city were a little more likely than those in more affluent areas to rank Feeling Safe in their top three.

More Walking Routes were more likely to be selected as an option to make Cardiff a healthier place and improve wellbeing, along with respondents living in more affluent areas of the city. Younger respondents were also more likely to select More Cycling Routes than other demographic groups.

Over a third of respondents who identify as disabled (36.4%) wanted to see Improved Access to Fresh Food.

Respondents under the age of 35 were notably less likely to think More Control Over Fast Food Takeaways would make the city a healthier place, with just 7.3% of respondents in the age groups selecting this option, contrasting with 26.8% of those over the age of 55.

A full breakdown of difference by demographic group is shown in Appendix 12.

Please specify what else you consider to be important

A total of 170 responses were received for this question, which have been grouped into themes. The top three themes are shown below, with a full list available in Appendix 13.

Theme	No	%	Example comments
Better awareness / education	26	15.3	<ul style="list-style-type: none"> - Awareness raising/education regarding the benefits of more healthy lifestyles (e.g.: Bristol Eating Better campaign). - Better education regarding health issues in our primary schools, how to keep fit and healthy. - Fresh food is available but people are lazy or not taught. Home economics should be back on the curriculum and also taught in hubs
More / Better community infrastructure / Facilities	24	14.1	<ul style="list-style-type: none"> - Investing in more community projects and youth groups and creating activities for young people and elderly. - We keep building houses but no amenities to improve wellbeing, e.g. Plasdwr should include tennis courts, football pitches, a lido. - Social isolation is a killer. We need better small scale social infrastructure and more community infrastructure, things like community food gardens (think Incredible Edible).
Retain / More Green Spaces	19	11.2	<ul style="list-style-type: none"> - Encourage use of green spaces and allow all homes to have a safe local place to exercise and enjoy nature helping mental and physical health - Need to protect and not destroy existing green areas, without the protection of these sites CCC will not have the best interests of the Environment at heart

Topic 7: Supporting the roles of the City Centre and Cardiff Bay

Issue: Future role of city centre

Cardiff city centre and Cardiff Bay play a key retail, economic and tourism role for the city and South East Wales. Supporting the role of the city centre and the continued regeneration of Cardiff Bay are key issues for the plan to address. In addition the plan will need to respond to the impacts of the Covid pandemic on high street retailing, the demand for traditional office accommodation and encourage more mixed uses within the city centre in addition to supporting its key retail role.

Overall, the plan provides an opportunity to consider how the city centre can continue to evolve and play a key role in the future of the city.

What do you think the future role of the city centre should be? Tick all that apply

A total of 962 responses were received for this question, giving a response rate of 79.2%

More than four in five respondents felt the future role of the city centre should be For Entertainment (89.4%), For Shopping (86.5%) and For Hospitality (84.4%).

Just over half (55.6%) felt it should be For Offices, and just under half (48.4%), For Homes.

Percentages do not total 100% as respondent were able to select multiple responses

Younger respondents, and those from a Minority Ethnicity were most likely to indicate the city centre should be used for Entertainment or Hospitality, contrasting with respondents who identify as disabled, and those aged 55 or over.

There was a correlation seen between level of deprivation and those thinking the city centre should be used for Hospitality, with more affluent areas more likely to see a role for Hospitality for the city centre in the future.

Respondents living in more deprived areas were more likely to see Homes as a future role for the city centre.

Older respondents were more likely to suggest Homes as a future for the city centre than respondents aged under 35.

Charts showing these breakdowns by demographic are available in Appendix 14.

Something else

Respondents answering “Something else” were asked to give further details. A total of 82 responses were received, and grouped into themes. The top three are shown below, with a full list available in Appendix 15

Theme	No	%	Example comments
Attractions / Tourism - Music / Murals / Arts / Culture / Sporting Events etc.	25	30.5	<ul style="list-style-type: none"> - <i>Interesting, unique attractions that differentiate Cardiff from any other UK city. There aren't enough well developed cultural attractions.</i> - <i>Arts and culture - music, murals, worships, creativity!</i>
Community Spaces / Socialising areas / Using Green Spaces	21	25.6	<ul style="list-style-type: none"> - <i>A social gathering place for all ages and communities</i> - <i>As a rich living green centre with gardens, a sanctuary for animals - a re-greening centre as a sanctuary for citizens.</i>
More Amenities	13	15.9	<ul style="list-style-type: none"> - <i>Leisure, sports, green spaces, health centre/dentist, community education, cycle paths, a Green healthy city</i> - <i>Creative production. Fitness and leisure. Education. Mixed use of all kinds, including those not yet imagined. Flexibility and adaptability.</i>

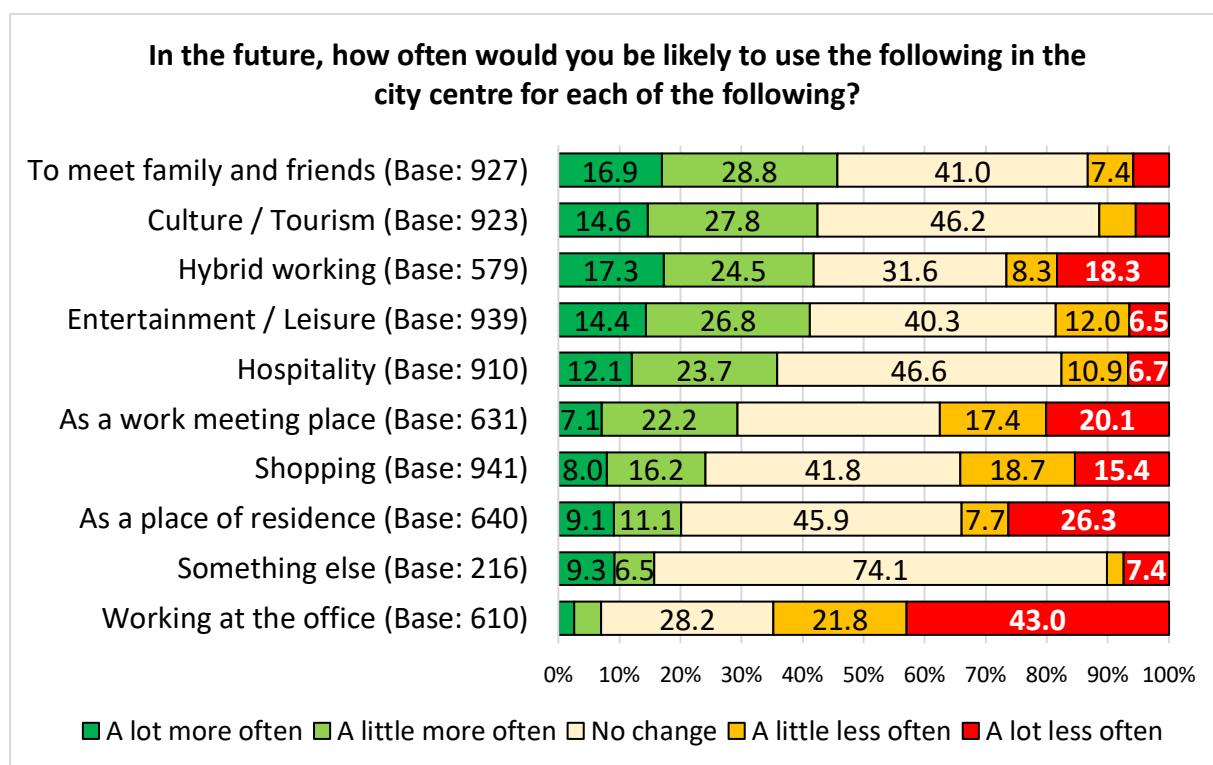

In the future, how often would you be likely to use the following in the city centre for each of the following?

Between 216 and 940 responses were received for the options included in this question, giving response rates between 17.8% and 77.4%

Respondents were more likely to use the city centre in the future as a venue to meet family and friends (45.7%), followed by Culture/Tourism (42.5%), Hybrid Working (41.8%) and Entertainment/Leisure (41.2%).

Just 24.1% of respondents indicated they would be likely to use the city centre for shopping in future compared with 34.1% stating they would be less likely to go shopping in the city centre in the future.

Almost two-thirds (64.8%) suggested they would be less likely to be working at an office in the city centre in future, compared with just 7.0% who felt this was more likely.

Base sizes shown in brackets – caution should be taken with lower base sizes

Respondents under the age of 35 were most likely to indicate they would be more likely to use the city centre:

- As a Place to Meet Family and Friends (67.2% compared with 38.1% of those aged 55 or over)
- As a place for Entertainment/Leisure (61.2%, compared with 32.2% of those aged 55 or over)
- For Hospitality (47.8%, compared with 28.9% of those aged 55 or over)
- For Culture/Tourism (57.8%, compared with 35.7% of older respondents)

Respondents identifying as disabled were most likely to indicate they would use the city centre for shopping in the future (38.5%).

A full breakdown by demographic group can be found in Appendix 16.

For what other purpose would you use the city centre?

Respondents were asked if there were any other purposes for which they would use the city centre: 66 responses were received, and grouped into themes. The top three are shown below, with the full list shown in Appendix 17.

Theme	No	%	Example comments
Commuting/Travel	11	16.7	<ul style="list-style-type: none"> - To commute into/out of - As a transport hub.
Exercise	9	13.6	<ul style="list-style-type: none"> - Exercise. The river is an amazing place for swimming and kayaking. Can we make more of our waterways as places for exercise? - For a stroll
Green space	9	13.6	<ul style="list-style-type: none"> - To enjoy green space - i.e. the castle - Enjoying green spaces like Bute Park, Cardiff Castle, walking by the river, boat trips, being able to pop for a coffee and some relaxation time somewhere quiet and pretty and not crowded

Topic 8: Post Pandemic Recovery

Issue: Helping the city recover from the pandemic

As the city recovers post-pandemic, the plan provides an opportunity to consider those areas of land use policy which require a new or amended approach to explicitly address the implications of the pandemic on the way we work, live, enjoy and move around the city. The concept of the 15 minute city has been proposed where all facilities are located within a 15 minute radius encouraging walking and cycling and less reliance on the car.

The plan provides an important opportunity to revisit existing policy approaches.

Please rank the following new or amended policy approaches in order of importance in responding to the pandemic

A total of 854 respondents gave at least one answer for at least one option to this question, giving an overall response rate of 70.3%

“Staying local – Creating 15 minute neighbourhoods” was rated as the most important policy approach to respond to the pandemic, with half (50.0%) of those responding to this question placing it in their top three, with 28.6% rating it as the single most important approach.

The pandemic also reinforced the importance of access to green spaces, with 41.2% of respondents choosing this approach as one of their top three.

There was generally a consensus of opinion across the demographic groups analysed, with a small number of notable differences:

Under 35s placed the highest level of importance on Active Travel (with 47.7% placing this in their top three), followed by men (46.0%, compared with 36.8% of women).

Respondents aged 55 or over, men, and those identified as disabled placed the highest importance on “Revitalising the city centre, and district and local centres”, with over 40% of each group placing this in their top three most important policy approaches, compared with around a quarter of respondents aged under 35, or those with children in their household.

More than half of women (52.6%) placed “Renewed importance of access to green spaces” in their top three most important actions, compared with 36.8% of men.

There were no significant differences of opinion by level of deprivation.

A full breakdown of differences by demographic group can be found in Appendix 18.

Please specify what else you consider to be important

Respondents answering 'Other' were asked to give more information: 69 responses were received, and grouped into themes. The top three are shown below, with a full list in Appendix 19

Theme	No	%	Example comments
New Approach	12	17.4	<ul style="list-style-type: none"> - Change the way Cardiff manages parks & verges to rewilding & local food, low maintenance approach - Place people and planet at the centre of every decision, above all else!
Improve Neighbourhoods / Encourage people to use local amenities / facilities	11	15.9	<ul style="list-style-type: none"> - Having attractive local neighbourhoods with good transport links and local amenities. - Investment in exciting children's play - eg. playgrounds including more money for maintenance.
Improved Road Infrastructure	8	11.6	<ul style="list-style-type: none"> - The use of electric cars is growing exponentially, take much more account of that in the plans

Topic 9: Creating places where people want to live, work or explore

Issue: Creating good places

It is important that the plan creates places where people want to live, work and explore. This involves identifying what people like about a place and how it can be improved through considering factors such as design, location, infrastructure and above all, the needs of people you're creating the place for.

What do you think is good about your neighbourhood?

A total of 904 respondents gave an answer this question, giving a response rate of 74.4%

Respondents were given a list, and asked to indicate which they felt applied to making their neighbourhood a good place to live.

The most common response, selected by almost three-quarters (73.1%) of respondents, was "Outdoor activities/open space/parks".

This was followed by "Close to public transport" (69.5%), a "Pleasant walking environment" (63.6%), and "Safe (low crime rate)", chosen by 61.5% of respondents.

Three in ten (29.1%) cited "Good community facilities/activities). 23.1% "Good cycling routes", and 12.6% stated there was "Good childcare provision".

Percentages do not total 100% as respondent were able to select multiple responses

There were some key differences across the demographic groups analysed.

Respondents living in the Southern Arc of Cardiff were less likely than other groups to list:

- "Outdoor activities/open spaces/parks" (66.7%)
- "Pleasant walking environment" (53.3%)
- "Safe (low crime rate)" (41.9%)
- "Good schools" (31.4%)
- "Family friendly" (36.2%)

Respondents living in the more deprived areas were notably less likely than those living in more affluent areas to cite:

- "Pleasant walking environment" (40.3% in the most deprived areas, compared to 69.7% in the least deprived areas)
- "Safe (low crime rate)" (25.8% in the most deprived areas, compared with 79.8% in the least)
- "Good health facilities" (29.0% in the most deprived areas compared with 43.3% in the least deprived areas)

Men were most likely to describe their neighbourhood as "Safe" – 66.7% compared with 57.1% of women.

Respondents with children in their household were most likely to cite "Good schools" (64.5%), "Family friendly" (57.5%), and "Good childcare facilities" (21.5%)

Older respondents were most likely to state "Good health facilities" (46.0%), "Good community facilities/activities" (32.3%)

Respondents from a Minority Ethnicity were least likely to cite "Good health facilities" (28.6%) or "Good community facilities/activities" (23.8%)

Around three in ten respondents from a Minority Ethnicity, or aged under 35 cited "Good cycling routes", compared with 18.5% of those aged 55 or over.

A full breakdown by demographic and geographic groups can be found in Appendix 20.

Respondents answering ‘Something else’ were asked to specify what this was: 47 responses were received, and grouped into themes. The top three are shown below, with a full list in Appendix 21.

Theme	No	%	Example comments
Proximity / Accessibility / Close to Local Amenities / Facilities	18	38.3	<ul style="list-style-type: none"> - <i>Good location to get to various locations.</i> - <i>Allotment, which is a great place to take grow your own food and get a good workout doing it!</i> - <i>Plenty of choice of places of worship.</i>
Negative Comments	12	25.5	<ul style="list-style-type: none"> - <i>Nothing is good we feel scared unsafe and minoritised and surrounded by crooks drug dealers and nasty creatures</i> - <i>Not an area I would choose if I could afford to move</i>
Community Spirit	7	14.9	<ul style="list-style-type: none"> - <i>Diversity within the community.</i> - <i>The good thing about my neighbourhood is the community, the people.</i>

What do you think could be done to improve your local neighbourhood?

A total of 868 responses were received for this question, giving a response rate of 71.4%

Respondents were then asked what could be done to improve their local neighbourhood.

The biggest response was “Provide good community facilities/activities”, mentioned by 47.1% of respondents.

Two-fifths of respondents (40.1%) wanted their neighbourhood to be made safer, and 37.3% wanted the provision of good cycling routes.

Percentages do not total 100% as respondent were able to select multiple responses

There were some notable differences across the demographic groups analysed.

Respondents identifying as disabled and those from a Minority Ethnicity were most likely to call for the provision of good community facilities/activities (60.2% and 59.3% respectively).

Men were less likely to feel the provision of good community facilities/activities would improve their neighbourhood (43.8%, compared with 53.0% of women)

Respondents under the age of 35 were most likely to cite the provision of good cycling routes would improve their neighbourhood, compared with 30.2% of those aged 55 or over. They were also more likely to want the provision of outdoor activities/open spaces/parks (39.7%), and of closer public transport (36.2%).

Around a third of respondents from a Minority Ethnicity, and those with children in their household, wanted their neighbourhood to be made more family friendly (32.1% and 31.3% respectively).

Respondents identifying as disabled were least likely to feel their neighbourhood could be improved by:

- Provision of good cycling routes (25.0%)
- Provide a pleasant walking environment (28.4%)

This group was more likely to cite “Provide good health facilities” (52.3%), and provision of closer public transport (35.2%)

Those living in the Southern Arc of the city were more likely to feel their neighbourhood could be improved by:

- Making it safer/lower crime rate (61.9%)
- Provide a pleasant walking environment (47.4%)
- Provision of outdoor activities/open spaces/parks (39.5%)

Looking at opinions by areas of differing levels of deprivation, some notable differences were identified:

- 82.8% of those resident in the most deprived areas wanted their local neighbourhood to be safe, compared with 17.6% of those living in the least deprived areas
- 45.3% of those in the most deprived areas wanted the provision of outdoor activities/open spaces/parks compared with 27.1% of those in the least deprived areas
- 43.8% in the most deprived areas wanted their neighbourhood to be more family friendly, compared with 18.1% of residents in the most affluent areas
- 29.7% of those living in the most deprived areas wanted good childcare provision, compared with 11.8% of those in the least deprived areas.

A full breakdown of these results is available in Appendix 22.

Respondents answering ‘Something else’ were asked to give further details. In total, 117 responses were received, which have been grouped into themes. The top three are shown below, with a full list in Appendix 23.

Theme	No	%	Example comments
More / Improved Local Amenities / Facilities	26	22.2	<ul style="list-style-type: none"> - <i>Community gardens and farmers markets. More sports facilities. Car charging points.</i> - <i>Make children’s playgrounds more exciting by adding more equipment; Change policies to not allow neighbours moving close to existing parks and playgrounds to have equipment removed due to noise etc.</i> - <i>We only have big supermarkets - no small neighbourhood shops. Hence people drive more, and few focal points exist for the community</i>
Retain / Protect Green Spaces	18	15.4	<ul style="list-style-type: none"> - <i>Not decimate our neighbourhood by taking away our peace, quiet and tranquillity. Preserve our air quality, green space, nature and wildlife.</i> - <i>Stop building on green belt land destroying habitats and green space.</i>
Improve Litter Issues	17	14.5	<ul style="list-style-type: none"> - <i>More bins & cleaning of the streets. Fine people who leave rubbish in their front gardens.</i> - <i>More street cleaning and drain maintenance. Bins that the seagulls can’t get into!</i>

Topic 10: Protecting Green and Blue Infrastructure

Issue: Green Spaces

Green spaces play an important role as a place for recreation, walking, cycling, etc. and it is important there are sufficient and accessible green spaces in the city for both residents physical and mental health. They also provide an important habitat to support wildlife and biodiversity.

In providing for future growth the plan will need to find an appropriate balance towards protecting green spaces and meeting the need for new homes and jobs.

How do you think the plan should find this balance?

A total of 905 responses were received for this question, giving a response rate of 74.5%

Just over half of those responding to this question (52.0%) felt that “all green space should be protected, even if that means houses, schools, infrastructure cannot be provided”; 44.0% felt that “green space should only be allowed to be lost if a clear social benefit is gained, such as the building of a new school or social housing, and if replacement green space is provided”.

Just 4.0% suggested that “green space can be lost for most development if absolutely necessary”.

Older respondents, and women, were most likely to support the protection of green spaces at the expense of the provision of new infrastructure (53.1% and 52.1% respectively); half of those aged under 35 (50.0%) felt that green space should only be lost if there is a clear social benefit, and replacement green space is provided

Base sizes shown in brackets – caution should be taken with lower base sizes

There was a correlation in answer by the level of deprivation, with those living in more deprived areas more likely to support the loss of green space for the gain of a clear social benefit, and replacement of the green space, whilst those in the more affluent areas were more likely to feel that green space should be protected at the cost of new infrastructure.

Base sizes shown in brackets – caution should be taken with lower base sizes

What other approaches would you suggest?

A total of 308 responses were received for this question, which have been grouped into themes. The top three themes are shown below, with a full list shown in Appendix 24.

Theme	No	%	Example comments
Green Spaces To Be Protected	78	25.3	<ul style="list-style-type: none"> - <i>Use of green space should only be sanctioned as a last resort when all other options have been exhausted and the decision making scrutinised to ensure it is the case.</i> - <i>Green spaces need to be protected and increased, there are enough brown field sites that can be redeveloped into housing.</i> - <i>Too much green space already used</i> - <i>Given the climate and biodiversity emergencies, there's no question now that all green space must be protected and alternative approaches taken. Perhaps we need to obsess less about growth and focus more on preservation - we cannot keep on infinitely growing - the planet can't take it</i>
Develop / Re-use Existing Buildings / Space	61	19.8	<ul style="list-style-type: none"> - <i>I cannot see the point of creating 'new' green spaces to replace existing, just be more creative about where to build what is deemed necessary</i> - <i>Green space only as last resort. Make use of existing built up spaces.</i> - <i>Always look for areas that need updating and can be "recycled" for other use before taking any green spaces away. These green spaces are vital to people's wellbeing but more importantly to nature and we are losing too much already.</i> - <i>Use brown land, rebuild or update empty houses</i>
Develop / Use Brownfield Land	47	15.3	<ul style="list-style-type: none"> - <i>Build on brown sites</i> - <i>Prioritise brownfield development and repurposing of existing redundant building</i> - <i>Better use of brownfield areas. Incentivise developers to use infill areas</i>

Issue: Nature and Trees

Trees play a key role in tackling climate change through their role as carbon sinks and also provide an important habitat to support woodland wildlife and biodiversity.

In providing for future growth the plan will need to find an appropriate balance towards protecting trees and meeting the need for new homes and jobs.

How do you think the plan should find this balance?

A total of 911 responses were received for this question, giving a response rate of 75.0%

Over half (56.1%) of those responding to this question felt that “trees should only be allowed to be felled if a clear social benefit is gained, such as the building of a new school or social housing, and if replacement planting is undertaken”, whilst just over a third (38.6%) felt that “no trees should be allowed to be felled, even if that means houses, schools, infrastructure, cannot be provided”.

Just one in twenty (5.3%) stated that “trees can be felled for most development if absolutely necessary”.

Respondents identifying as disabled were most likely to support the felling of trees for a clear social benefit, and if replacement trees are planted (62.% and 60.3% respectively), whilst respondents from a Minority Ethnicity, and those aged under 35 were most likely to state that no trees should be felled, even at the expense of the provision of new infrastructure (45.8% and 40.2% respectively).

Base sizes shown in brackets – caution should be taken with lower base sizes

There was no clear correlation by level of deprivation:

Base sizes shown in brackets – caution should be taken with lower base sizes

Topic 11: Protecting historic and cultural assets

Issue: Historic and cultural assets

As Cardiff continues to change, there is an increasing need to protect, promote, conserve and enhance its historic and cultural assets and recognise the important role they play in the economic, environmental and social fabric of the city.

What measures do you think the plan needs to put in place to protect the city's historic assets and further enhance and promote the city's role as a capital city and as an international destination for residents and visitors?

A total of 247 responses were received for this question, which have been grouped into themes. The top three themes are shown below, with a full list in Appendix 25.

Theme	No	%	Example comments
Better transport links	35	14.2	<ul style="list-style-type: none"> - Got to sort out public transportation, it is the weak link in Cardiff's offer - Cultural facilities in city centre are hampered by bad transport policies - Reintroduce a central hub for public transport.
Better Art/ Cultural offer	30	12.1	<ul style="list-style-type: none"> - A huge focus on culture, of which history is a part, through arts, crafts, and music. Expand the music scene. - More city wide co-ordination of historic and cultural assets. - Market Cardiff as a city of historical importance with incredible architecture, culture and make the visiting experience excellent for all ages
Green spaces	27	10.9	<ul style="list-style-type: none"> - Green spaces should be legally protected from future developments and to ensure our city does not become a concrete jungle; planning restriction should be tighter to ensure development is in keeping with environment and sustainable infrastructure and biodiversity wise. - Protect and improve the green areas of the city which are its key attraction

12: Vision and Objectives

The Plan will need to be guided by an over-arching Vision and we are consulting early in the process to share our initial thinking on the Vision for the plan in order to try to build consensus at an early stage and allow time to consider feedback ahead of further stages of engagement.

To create a fairer and more sustainable city by:

- Responding to the urgent future needs for new homes, jobs and infrastructure;*
- Positively tackling the challenges of climate change and post-pandemic recovery;*
- Creating a greener, more equal and healthier city which is easier to move around and enhances the wellbeing of future generations;*
- Using a placemaking approach, working with local communities to improve neighbourhoods and deliver high quality design;*
- Looking after our natural, historic and cultural assets*

Do you agree with the draft Vision for the plan?

A total of 865 responses were received for this question, giving a response rate of 71.2%

Overall, two-thirds (66.5%) of those responding to this question agreed with the draft Vision for the Replacement Local Development Plan, compared with 16.8% who disagreed.

Highest levels of agreement with the draft Vision came from respondents living in the Southern Arc of the city and those under the age of 35 (each 72.2%). Agreement was lower amongst those aged 55 or over (63.6%).

Base sizes shown in brackets – caution should be taken with lower base sizes

There was no clear correlation for agreement by level of deprivation, however support was highest amongst those in the most deprived areas (74.6%), and lowest amongst those living in the most affluent areas of the city (58.3%).

Base sizes shown in brackets – caution should be taken with lower base sizes

Let us know how you think the Vision could be improved

A total of 428 responses were received for this question, which have been grouped into themes. The top three themes are shown below, with a full list in Appendix 26.

Theme	No	%	Example comments
Stop building new/ expand & repurpose existing infrastructure	92	21.5	<ul style="list-style-type: none"> - <i>Tackle developers pulling the city apart. No use holding your hands up and saying "can't do anything, don't want a legal challenge". You would have the support of the public in doing so.</i> - <i>Need to improve existing housing stock and very carefully look to build newmore carefully than this vision implies!</i> - <i>Lose the focus on new homes, renovate and expand existing infrastructure rather than building on new land just because a housing crash</i> - <i>Reduce the emphasis on expansion. Work with Welsh Government and other local authorities to spread development wider across SE Wales</i>
Climate Change / Cleaner, greener city/protect green spaces	92	21.5	<ul style="list-style-type: none"> - <i>Doesn't go far enough about the environment. Tackling climate change should be at the core of every one of the values.</i> - <i>Its ok to say this but green issues need to be prioritised and scientists listened to</i> - <i>Not strong enough on the environment, Climate change isn't the only environmental catastrophe we face, our insect population has dropped by over 75% in 27 years.</i> - <i>I think the priorities are wrong. By having the 'new homes, jobs and infrastructure' at the start, you are already setting a tone for this being given more weight than green spaces and biodiversity.</i>
Improved Transport infrastructure- roads/public transport/accessibility	49	11.4	<ul style="list-style-type: none"> - <i>Transport is the only priority. The current thinking of transport capacity lagging demand is a disaster. Transport capacity needs to lead demand. That is to say you must put in the transport infrastructure first. Current policy has almost destroyed the city centre already.</i> - <i>You must focus on better integrated transport and cycling routes and more greenery in districts. Is there an option for cut and cover road in front of the castle to reopen this back up to pedestrians / public realm whilst keeping the busy road access?</i> - <i>The focus on active travel needs to go if you want any form of post-pandemic recovery.</i>

The LDP objectives aim to deliver the vision for the plan and respond to the key issues the plan needs to address.

Please rank the draft plan objectives in order of importance

A total of 798 respondents gave at least one answer for at least one option to this question, giving an overall response rate of 65.7%

Tackling Climate Change was seen as the most important of the draft plan objectives, with 45.4% ranking this in their top three, and 27.4% ranking this as the single most important.

This was followed by Healthier Environments, ranked in the top three by 38.8%, and first by 6.0%, and Protecting Green & Blue Infrastructure, ranked in the top three by 36.3%, and first by 10.2%.

Supporting the roles of the city centre and Cardiff Bay was seen as least important of the objectives listed, ranked in the top three by just 6.9% of respondents, and first by just 1.3%.

There were differences of opinion across the different demographic groups analysed.

Respondents under the age of 35 were most likely to rank “Tackling Climate Change” as their most important objective, with 33.6% ranking this as the single most important objective, and 57.9% placing it in their top three. They were also more likely than average to place importance on “Moving around the City”, with 32.7% ranking this in their top three.

Respondents over the age of 55 placed less importance on “Tackling Climate Change”, with 38.2% placing this in their top three most important objectives.

Women were more likely to include “Tackling Climate Change” (50.8%), “Healthier Environments” (44.8%) and “Protecting Green and Blue Infrastructure” (42.9%) in their top three; men were more likely to include “Provision of new infrastructure to support growth” (32.5%) and “Moving around the City” (31.8%).

Those identifying as disabled were more likely to support objectives to “Provide new houses and homes” (34.5%), “Post-pandemic recovery” (35.6%), and “Provision of infrastructure to support growth” (35.6%).

Respondents with children in their household were more likely to include “Tackling Climate Change” (53.3%) and “Healthier Environments” (46.2%) in their top three most important objectives

Those living in the most deprived areas of the city placed more importance on “Creating places people want to live, work and explore” (34.5%), “Provide new houses and homes” (29.1%) and “Provide new jobs and employment (23.6%). Those living in the least deprived areas placed higher importance on “Protecting green and blue infrastructure” (39.8%) and “Supporting the roles of the City Centre and Cardiff Bay” (9.5%).

A full breakdown is available in Appendix 27.

Would you add any other objectives?

A total of 208 responses were received for this question, which have been grouped into themes. The top three themes are shown below, with a full list available in Appendix 28

Theme	No	%	Example comments
Greener city	27	13.0	<ul style="list-style-type: none"> - <i>Moving around the city in a sustainable way</i> - <i>Biodiversity should be key</i> - <i>Creating a more beautiful and less generic looking city.</i>
Improved Transport infrastructure- roads/public transport/accessibility	27	13.0	<ul style="list-style-type: none"> - <i>Should not be any new homes until infrastructure has been put in place to cope with the 10,000 that have been built in last 8 years</i> - <i>The more equal city mentioned in the Vision is not in the Objectives I've noticed. Why's that?</i> - <i>Transport, transport, transport. The Metro plan must be front and centre of the LDP. All new developments must be Metro-centred, not built without consideration with a bus service added as an afterthought to an already congested roads. Public transport must be fast, clean, reliable, 24hr, cheap, safe. And make the developers pay for it.</i>
Question concerns / Queries	22	10.6	<ul style="list-style-type: none"> - <i>Again, ranking these is difficult. They all have to work well and together to achieve the vision.</i> - <i>I've no idea what Blue infrastructure means</i> - <i>These are a list of aspirations NOT reality! The net is far too wide and as a result, little will get done!</i>

13. Additional Comments

Do you have any other comments?

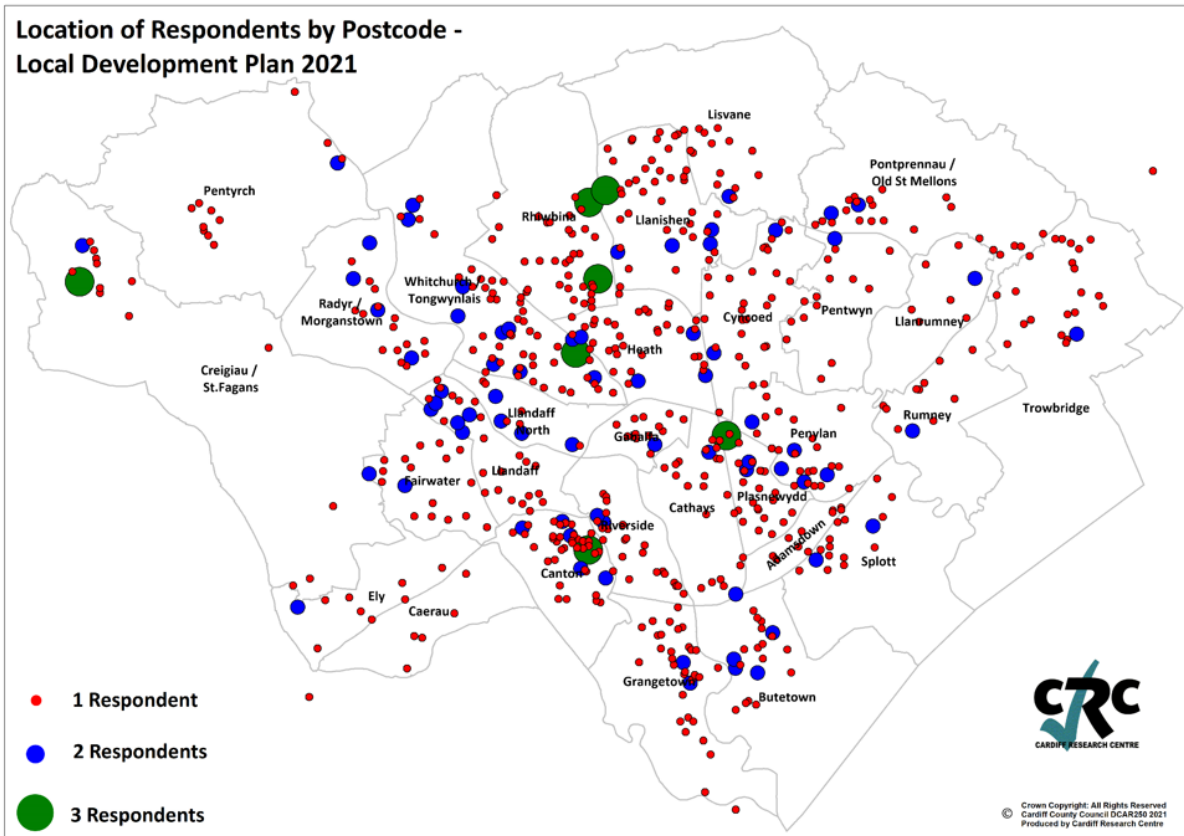

A total of 275 responses were received for this question, which have been grouped into themes. The top three are shown below, with a full list at Appendix 29.

Theme	No	%	Example comments
Protect Green Spaces / Address Climate Emergency	48	17.5	<ul style="list-style-type: none"> - <i>Address the climate emergency and stop destroying green spaces</i> - <i>Protect our green spaces and heritage. Cardiff is in danger of being destroyed by developers.</i> - <i>Cut out the obsession with building on greenfield sites</i> - <i>We need to be serious about tackling climate change. It is important that short term gain does not take priority over long term solutions.</i>
Survey Concerns / Consultation will be ignored	32	11.6	<ul style="list-style-type: none"> - <i>It makes little difference what is said as you do as you like anyway</i> - <i>Not really sure why you have bothered to ask as Cardiff Council will already have done deals with developers!</i> - <i>I realise my completing this questionnaire is a pointless and you will do what you want anyway. I do wonder why you bother to seek public opinion and then ignore it. Just more "box ticking" Sadly.</i>
Planning concerns	28	10.2	<ul style="list-style-type: none"> - <i>I would like to see more powers of objectivity in the planning department. They need better controls over quality and design of new builds to protect the city's skyline.</i> - <i>Do not make Cardiff look like every other city with too many ugly high rise buildings.</i> - <i>Stop allowing developers to build all this poor quality student accommodation. It's a disgrace to the city centre. Raise standards in building design</i>

Appendix 1 – Demographic Profile of Respondents

Please provide your full postcode

A total of 746 respondents provided their postcode. The map below shows the location of complete postcodes within Cardiff.

Of these, 222 respondents were identified as being resident in the Southern Arc of Cardiff.

Appendix 2 – Breakdown of Results for Priorities for new infrastructure by Demographic Groups

Theme	No	%	Example comments
Houses needed/ Quality / Affordable housing / Social housing	278	30.0	<ul style="list-style-type: none"> - <i>There is a shortage of affordable housing especially for first time buyers in the city.</i> - <i>Currently my children will never be able to buy a house</i> - <i>We need more council housing and low rent costs</i> - <i>There is a need for affordable housing in Cardiff</i> - <i>More homes are needed but there is a growing need for cheaper good quality Council and Housing Association homes and not homes which require a mortgage for the privileged people who can afford them.</i> - <i>More good quality housing is essential.</i> - <i>Nowhere near enough housing</i>
Preserve Green Space	273	29.4	<ul style="list-style-type: none"> - <i>Cardiff is known for being a green city, yet these boundaries are continuously being pushed.</i> - <i>important to provide housing but still need protect land</i> - <i>A balance between housing need and the benefits of green spaces</i> - <i>Green spaces are fundamentally important to the wellbeing of the citizens. Any future building should be on brown field sites</i> - <i>We need more houses but part of Cardiff's charm is the proximity to green space.</i>
Need to improve infrastructure/ Services / Public transport	235	25.4	<ul style="list-style-type: none"> - <i>There should be no further land for housing until sufficient infrastructure has been provided to accommodate it.</i> - <i>traffic is out of control, we need to improve transports and roads before building more houses</i> - <i>More homes are needed, but the infrastructures always take so much longer to do, and the public transport links are just so poor to the areas now being built on further outside of the City</i> - <i>The housing supply is currently outstripping the infrastructure and needs to be reduced slightly until an infrastructure plan is delivered</i>

			<ul style="list-style-type: none"> - <i>There has been neglect of the need to provide infrastructure as described to support existing and ongoing housing development in the city.</i>
Too many developments	144	15.5	<ul style="list-style-type: none"> - <i>We are already experiencing overdevelopment of suburban and rural areas</i> - <i>We urgently need the exact opposite of the current super-heating approach of encouraging frenzied growth. Cool the growth and less new housing is needed</i> - <i>A great many new developments have already taken place.</i> - <i>Houses being built everywhere we look and according to recent evidence, the Cardiff population growth has been grossly exaggerated.</i> - <i>The city is now big enough and any further construction will clog the citys infrastructure up even more, build a new city elsewhere if you feel more housing is needed</i>
Balance growth / development	139	15.0	<ul style="list-style-type: none"> - <i>Cardiff needs to grow fast to become the world city Wales needs. But this should not be at the expense of what makes Cardiff great – a green, compact and liveable city</i> - <i>A balance is needed, between growth (which is inevitable) and too much encroachment on Green spaces</i> - <i>A balance between housing need and the benefits of green spaces</i> - <i>We need sustainable growth that doesn't destroy our green spaces. Reuse and adaption of existing buildings should be key and a vital role.</i>
Repurpose old/empty buildings	117	12.6	<ul style="list-style-type: none"> - <i>Although I fully understand the need for new housing, I thing that the priority should lie with revitalising run down areas and refurbishing abandoned buildings and plots across town.</i> - <i>we need to make uses of all the empty plots/housing before building massive developments on green open space.</i> - <i>we should also look at reusing and repurposing existing buildings, particularly as demand for city centre large office spaces and extensive student accommodation schemes are not being used to their full potential</i>

			<ul style="list-style-type: none"> - <i>Clear up some of the slums, and empty buildings, before you build on green field sites.</i>
Use Brownfield sites	106	11.4	<ul style="list-style-type: none"> - <i>Please use the existing brown sites and renovation of dilapidated houses first before building new houses.</i> - <i>Utilise brownfield sites more</i> - <i>Housing is needed and there is no problem as long as use brownfield sites as far as possible</i> - <i>Do not want to lose greenfield sites but happy for brownfield sites to be used.</i>
Replace/improve older stock	78	8.4	<ul style="list-style-type: none"> - <i>cleverer use of the what's already available should negate the need for too much more building</i> - <i>It would be better to use currently vacant houses as well as building more.</i> - <i>Existing housing developments need to be updated to improve communities</i> - <i>Use the ones empty, derelict or half built</i> - <i>You can renovate repurpose not build new green sites</i>
Houses needed / not flats	68	7.3	<ul style="list-style-type: none"> - <i>We need houses, not flats</i> - <i>I accept there should be growth but at the same time we should be building the right type of homes and not just large detached homes in affluent areas with a token gesture of social housing. There needs to be a wide mix of varying sized private homes.</i> - <i>Need to change some of the housing offered. There are a large number of blocks of flat around Cardiff South and central that are empty as they do not offer suitable housing</i> - <i>We need more HOUSES not flats, therefore more 2/3 bed houses to be built which will take more space but provide homes!</i>
Growth figures questionable	57	6.1	<ul style="list-style-type: none"> - <i>I think we need to start low and see how things play out. The growth figures have already altered once quite significantly.</i> - <i>As only a quarter of the original prediction of housing in the last survey was correct, the figure this time should adapt for that accordingly to save the city's character and green space.</i> - <i>Now that future population figures have been revised, do we need to build so many new homes?</i> - <i>Growth shouldn't become an end in itself.</i>

Homes for young people	52	5.6	<ul style="list-style-type: none"> - <i>There are no houses for young people to buy - I want to buy in Cardiff but there's no chance at the moment.</i> - <i>Currently my children will never be able to buy a house</i> - <i>We need more affordable housing for first time buyers</i> - <i>Young people are being shut out which is unfair. Cardiff needs young people to live thrive and work in the city.</i> - <i>You need to create opportunities for young people. The cost of housing, rented or owned, is ridiculously high</i>
Too much student accommodation	47	5.1	<ul style="list-style-type: none"> - <i>Cardiff has loads of empty high rise student flats in Cardiff that can't be let as it is</i> - <i>Repurpose student high rise for residential use</i> - <i>There is currently an excess in student accommodation compared to demand. Encouraging landlords to provide more permanent housing rather than temporary student accommodation could help housing needs.</i> - <i>There is too much development in city for 'students'!!!</i>
Developers breach/ include community facilities / Infrastructure	39	4.2	<ul style="list-style-type: none"> - <i>Time and time again you roll over on big developers and allow them to refuse to contribute towards community development and infrastructure.</i> - <i>Better use of current housing and improving community facilities is just as important.</i> - <i>It appears that all new developments take place before an adequate infrastructure is prioritized.</i>
Build more within the city region	33	3.6	<ul style="list-style-type: none"> - <i>There should be a limit to growth in Cardiff and efforts made to develop more deprived areas of Wales</i> - <i>It's time to expand beyond the M4 rather than building on the few green spaces that are left</i> - <i>Yes, we need more homes (especially affordable ones). But is Cardiff growing at the expense of other places in the metropolitan region (Valleys, Newport)?</i>
Private Landlord Concerns / Multiple properties	26	2.8	<ul style="list-style-type: none"> - <i>There is already too much growth. What you need to do is prevent landlords buying all the houses. There should be a maximum number of properties that</i>

			<p><i>landlords can own thus freeing up property for private buyers.</i></p> <ul style="list-style-type: none"> - <i>Stop people purchasing homes to let, and multiple properties in order to solve housing crisis instead of building more homes which will then be sold as 'buy to let'</i> - <i>Council needs to dissuade landlords from gobbling up housing</i>
COVID - change demand closer proximity to city	24	2.6	<ul style="list-style-type: none"> - <i>The city is too congested and polluted already. The pandemic has already influenced people to relocate to the valleys and wider area.</i> - <i>Covid has changed things. Office workers moving further out of cities.</i> - <i>Shift in working patterns to home working will mean people will not move to Cardiff to save a commute.</i>
Low energy homes needed	16	1.7	<ul style="list-style-type: none"> - <i>we need low energy homes that use green energy</i> - <i>Cost of housing is a real problem - new housing doesn't have to be environmentally damaging. I am all in favour of environmentally sensitive new housing</i>
Denser Communities	15	1.6	<ul style="list-style-type: none"> - <i>Build denser communities free from car dependency.</i> - <i>There is only so much space. So mixed density might be a way. Otherwise, there is just urban sprawl.</i>
Concerns around questions / more info required	15	1.6	<ul style="list-style-type: none"> - <i>The question does not address the core issue. The City needs to solve the homeless and housing issues but it is not just about numbers. It is about building the type of houses in the areas that they are required.</i> - <i>The question did not make clear where the housing would be and what type of housing, so it is hard to judge the impact</i>
Misc.	77	8.3	<ul style="list-style-type: none"> - <i>Homes are available... just not used or fit for habitation</i> - <i>Should be building more bungalows for the older generation and not too small so that houses can become available for families</i> - <i>We should have a more European balance on rental/ownership - not everyone needs to own their homes</i>
Total	927	-	-

Appendix 3 – A home that is... “Something else”

Theme	No	%	Example comments
Consideration of Environment/Nature	54	20.6	<ul style="list-style-type: none"> - <i>Design that incorporates old buildings and enhances rather than bulldozers local character</i> - <i>The earth is now at a point of no return. If you don't prioritise getting rid of fossil fuel boilers and cars we are not going to exist anymore and this earth will be a desert. WAKE UP!</i> - <i>Awareness of carbon footprint and consequences of creating housing development too far away from necessary communication and amenities</i> - <i>Target energy neutral, reduce/remove reliance on cement, drive developers to use solar/heat pumps/renewable materials, disconnect car reliance</i>
Sustainability	44	16.8	<ul style="list-style-type: none"> - <i>Good design and built to last using local materials and services.</i> - <i>Cardiff needs to respond to the climate crisis with a sustainable and energy efficient building stock. This also means retrofitting of existing buildings.</i> - <i>Target energy neutral, reduce/remove reliance on cement, drive developers to use solar/heat pumps/renewable materials</i> - <i>PassivHaus principles please</i>
Better design / quality / sympathetic to their settings	42	16.0	<ul style="list-style-type: none"> - <i>Better design and build quality is needed. Too many new build homes are architecturally depressing, not just for the people who live in them but those who have to look at them on a daily basis.</i> - <i>The aesthetic and quality of materials used. Innovative and attractive housing that is sympathetic with the surroundings.</i> - <i>The new builds should be visually beautiful. The aesthetic value of the buildings is often a feature not considered in the planning process, there are many positives that beautiful buildings bring to an area and are worthy of consideration.</i>
Need improved transport infrastructure	41	15.6	<ul style="list-style-type: none"> - <i>Transport infrastructure that does not increase pressure on existing areas and bottlenecks on roads. All these new developments need train stations.</i> - <i>Proper consideration for getting from A to B. Plasdwr assumes everyone can cycle the 6 miles to town or walk the mile plus to radyr station - many</i>

			<p><i>people cannot and also we live in wales, it rains a lot and it's dark a lot!</i></p> <ul style="list-style-type: none"> - <i>Easy green travel into the city centre</i>
Affordability	40	15.3	<ul style="list-style-type: none"> - <i>Affordable housing</i> - <i>Affordable to low income groups</i> - <i>affordable to run</i>
Green Space	37	14.1	<ul style="list-style-type: none"> - <i>green spaces and green energy with community areas</i> - <i>Within walking distance of a green space suitable for walking, running or exercise</i> - <i>Community gardens</i>
Bigger Houses	26	9.9	<ul style="list-style-type: none"> - <i>Bigger houses on new builds. Many new builds are way too small for the cost</i> - <i>Less shed-like houses that have more space for cars than the occupants</i> - <i>Housing must be family friendly and must not continue the trend of making homes smaller and smaller which developers have done to maximise profits.</i>
Access to local services	24	9.2	<ul style="list-style-type: none"> - <i>Near to doctors, chemist and dentist. Perhaps there could be facilities for all these things to be together so a person could be allocated to these nearby</i> - <i>Easy access to good schools</i> - <i>Family pub serving food. Supermarket sized to meet development ideally in walking distance. Adequate transport links to adjoining areas and town centre.</i>
Good Parking	17	6.5	<ul style="list-style-type: none"> - <i>Car parking should be on-site and include charging points for electric vehicles.</i> - <i>Off road parking for at least 2 cars per household</i>
Not Built on greenspace	17	6.5	<ul style="list-style-type: none"> - <i>No further destruction of green spaces.</i> - <i>Prioritising the planet and affordability for those who need it rather than turning every green space into housing developments</i>
Low Traffic	9	3.4	<ul style="list-style-type: none"> - <i>Low Traffic neighbourhoods, where cars are discouraged</i> - <i>Better public transport to encourage less need for car ownership</i>
To Feel Safe	8	3.1	<ul style="list-style-type: none"> - <i>the need to feel safe in your neighbourhood, therefore more police presence and less antisocial behaviour</i> - <i>Safe environments</i>

Less Development / Renovate existing structures	4	1.5	- <i>They're all important. But most important is thinking imaginatively about how we can re-use and upgrade our existing building stock, increasing density, tackling loneliness, increasing energy efficiency etc.</i>
Misc.	44	16.8	- <i>Evenly distributed social economics - ie not all social housing areas and not all executive home areas.</i> - <i>Homes for Veterans</i> - <i>Sense of community</i> - <i>Good broadband coverage</i>
Total	262	-	-

Appendix 4 - What kind of balance should the plan strike in addressing future jobs growth? Please explain your answer

Theme	No	%	Example comments
Jobs vital for economy/ growth	209	30.0	<ul style="list-style-type: none"> - <i>The City needs growth in jobs and population in order to raise taxes to pay for social infrastructure</i> - <i>Young people need work and attraction of talent</i> - <i>employment is the future</i> - <i>Without jobs a city can go into decline.</i> - <i>more jobs are essential at the moment</i> - <i>creating new jobs is very important</i>
Do we need more space / lots of empty offices	162	23.3	<ul style="list-style-type: none"> - <i>Cardiff is full of empty office and retail space. Fill up what's there first please.</i> - <i>I would not support the building of more offices as they don't seem necessary now.</i> - <i>Many businesses are now looking to reduce office space in the centre of cities and are encouraging more homeworking. Building more office space in city centres is increasingly outdated and puts more pressure on a city's infrastructure.</i> - <i>Creating space for jobs does not mean that more jobs will happen. There must be coordinated approach</i>
COVID has changed how we work/home working	157	22.6	<ul style="list-style-type: none"> - <i>Due to the pandemic there are empty offices everywhere, people will likely work from home, there is no requirement for more buildings.</i> - <i>The Council needs to consider the direction employers will be taking post-pandemic. To what extent is more flexible working, including from home, likely to become the norm?</i> - <i>Covid has changed how business need and use space.</i> - <i>Covid and the focus on the capability to work from home has, I think, changed the need to build the amount of commercial properties that was needed previously</i>
Repurpose empty units	94	13.5	<ul style="list-style-type: none"> - <i>Build on existing business locations</i> - <i>Use unoccupied space in town centre</i> - <i>We have too many empty shops & offices already.</i> - <i>Why can't redundant buildings be refurbished</i>

Balance growth to wider region	63	9.1	<ul style="list-style-type: none"> - Growth of jobs should not just be focussed on Cardiff, develop the Valleys and create jobs there - Jobs should be spread across the country not just Cardiff - Jobs are needed across Wales - it's too easy and unfair to suck them into the city
Need High skilled and variety of opportunities	62	8.9	<ul style="list-style-type: none"> - Quality is as important as growth - We need stronger high quality work in Wales - Need a range of employment to provide opportunities for all.
Reduce commuting	51	7.3	<ul style="list-style-type: none"> - Cardiff as with everywhere needs more jobs, but too many encourages commuting into Cardiff, which needs to be reduced, for environmental and quality of life issues for all - People need jobs where they live, who wants to spend time and money commuting?
Better transport links / Infrastructure	40	5.7	<ul style="list-style-type: none"> - Better transport links required to enable people to take up these jobs - Pointless creating so many jobs if the infrastructure isn't in place first
Jobs for local / young people	36	5.2	<ul style="list-style-type: none"> - jobs for young people - There should be jobs available for people in their own locality
Concerns around questions / more info required	30	4.3	<ul style="list-style-type: none"> - It is difficult to answer this question without knowing the figures - There is an ambiguity here with regards to the type of jobs, and how specific jobs are prioritised.
Need to preserve green space	24	3.4	<ul style="list-style-type: none"> - creating new jobs is a priority and locations for new jobs should be only on existing sites or disused sites - not new greenfield locations - Growth and loss of green space cannot carry on indefinitely.
Green economy	21	3.0	<ul style="list-style-type: none"> - We need to be prioritising green jobs and a green recovery - I would like to think that many new jobs will be created to diminish our reliance on coal and gas.
Support local business	17	2.4	<ul style="list-style-type: none"> - Grow business locally and do not import companies from elsewhere that bring their workers with them - We are not utilising the talent and opportunities available to build small cooperative style businesses and local markets.

Affordable housing more of an issue	15	2.2	<ul style="list-style-type: none"> - <i>more jobs mean more people and housing needed</i> - <i>to afford housing you need jobs</i>
Need a balance	13	1.9	<ul style="list-style-type: none"> - <i>Important to have a balance</i> - <i>It's about getting the balance right</i>
Create decentralised work hubs	12	1.7	<ul style="list-style-type: none"> - <i>Suggest a more decentralised hubs for organisations so that it recognises homeworking and collaboration spaces.</i> - <i>The need for additional space to work should be offset by more blended working conditions for those that can. More co-working spaces and hubs would be useful.</i>
Retain welsh graduates	6	0.9	<ul style="list-style-type: none"> - <i>I think it's important to retain Welsh graduates. These are all too easily lost to other cities with more opportunities.</i>
Misc.	110	15.8	<ul style="list-style-type: none"> - <i>Business drives new jobs not the plan. Who is qualified to predict how future jobs will look? Not the planners.....</i> - <i>Already a fair amount of vacancies in the city which employers are struggling to fill (I work in the labour market)</i> - <i>What is the point of expanding the city if there is no space set aside for jobs?</i> - <i>We need to radically rethink and reconfigure the economy post Covid and in the light of the climate emergency.</i>
Total	696	-	-

Appendix 5 – Workplaces of the Future: Something else

Theme	No	%	Example comments
Ensure empty properties repurposed	25	18.4	<ul style="list-style-type: none"> - <i>use up all existing disused workspace before building new - I've seen so many new buildings being erected near an identical building with a "to let" sign</i> - <i>It surely always makes sense to repurpose and reuse existing spaces before spending money on brand new out of town places usually with no close resources</i> - <i>Less destruction of our old buildings and architecture.</i>
Improve transport	19	14.0	<ul style="list-style-type: none"> - <i>Free travel for all to reduce carbon footprint</i> - <i>Good public transport at all hours.</i>
Working from Home	17	12.5	<ul style="list-style-type: none"> - <i>Allow people to work from home.</i> - <i>Supported home working by choice</i>
Adapt city centre - Commercial / Residential / Entertainment premises / areas	16	11.8	<ul style="list-style-type: none"> - <i>City centres need to adapt to the changing world. They need to be more innovative and offer a unique experience.</i> - <i>The key is a flexible and diverse range of options, particularly mixed-use options which can be reconfigured to respond to changing demands.</i>
Locality of employment	16	11.8	<ul style="list-style-type: none"> - <i>A sensible employer location policy (I suggest you use the Dutch ABC location policy)</i> - <i>Minimising travel.</i>
Cap Rent	10	7.4	<ul style="list-style-type: none"> - <i>affordable rates/rent</i> - <i>If the rates were realistic and helped small businesses then we would see less empty shops and more businesses willing to be on the high street.</i>
Hubs	10	7.4	<ul style="list-style-type: none"> - <i>Small hubs allowing small businesses to flourish at a reasonable cost</i> - <i>remote working, at home or at a local hub, will be significant in the future</i>
Environmental Impact	9	6.6	<ul style="list-style-type: none"> - <i>Reduction of environmental impact should be number one on list.</i>
Greener work places	8	5.9	<ul style="list-style-type: none"> - <i>Greening up all work areas. Living green walls, picnic and exercise areas, bicycle parking, living roofs, community growing areas, urban bee hives, green, green, green, green, green.</i>
Minimised Commuting	7	5.1	<ul style="list-style-type: none"> - <i>The need to travel for work should be minimised.</i>

Preserve Greenfield	4	2.9	- Consider transport and accessibility consistent with fewer car journeys, locating jobs near to residential areas, existing transport links
Health & Well being	4	2.9	- need to avoid loneliness of home workers
Business community to define	3	2.2	- Business will define the workplace it needs, not the planners.
Work/Life balance	2	1.5	- People should have options and flexibility to optimise work/life balance that suits them.
Misc.	45	33.1	- Quality control in terms of use and maintenance of properties so that commercial areas are well maintained and therefore desirable business locations. - These answers go on about city centres. The Welsh Valley towns need investments, not Churchill Way. - Retail restaurants and theatres, museums, art galleries.
Total	136	-	-

Appendix 6 - Workplaces of the Future by Demographic Groups

Base sizes shown in brackets – caution should be taken with lower base sizes

Appendix 7 - Priorities for new infrastructure: Please list any other facilities

Theme	No	%	Example comments
Difficult to rank	42	20.4	<ul style="list-style-type: none"> - <i>It is very hard to rank infrastructure all of which is essential to a functioning community. Infrastructure should be planned as a whole and no one element is more important than the other. Getting the infrastructure RIGHT is key</i> - <i>They are obviously all important!</i> - <i>No - they are all equally relevant. You cannot rank them!</i>
Transport	38	18.4	<ul style="list-style-type: none"> - <i>Accessible transport.</i> - <i>how about overhead mono rail system following existing road</i> - <i>Electric car charging infrastructure</i>
Road Network	31	15.0	<ul style="list-style-type: none"> - <i>Good roads for logistics and to bring more businesses to wales</i> - <i>Spend more for the car</i> - <i>The road network needs dramatically improving, ring roads etc</i>
Green infrastructure	29	14.1	<ul style="list-style-type: none"> - <i>More allotments in the parts of the city that do not currently have them. For instance Butetown, Adamsdown, Grangetown.</i> - <i>Low carbon, sustainability and environmentally responsible considerations should run through all of the above themes.</i> - <i>I personally include cycling withing Green Infrastructure. A better Green Infrastructure should lead to better health outcomes.</i>
Community services / facilities	26	12.6	<ul style="list-style-type: none"> - <i>Protection, enhancement and support for local communities.</i> - <i>Local shops</i> - <i>You always ignore the needs of retirees and the contribution that they can make to their community, they need a place where craftsmen can use their skills for the community.</i>
Active Travel	25	12.1	<ul style="list-style-type: none"> - <i>Active and public transport should not be listed in with road networks, we urgently need to move away from the cult of the car, deprioritising roads for cars and prioritising bus lanes, railways and cycle paths</i>

			<p><i>and footpaths without eating into our greenspaces and parkland</i></p> <ul style="list-style-type: none"> - <i>Please separate cycle paths from pedestrian paths. Current dual use doesn't work and is dangerous</i> - <i>Further cycling infrastructure improvements</i>
Preserve Green Space	24	11.7	<ul style="list-style-type: none"> - <i>Regarding green infrastructure- this should also include the 'natural undeveloped environment - not only man made green spaces. The destruction of Northern Meadows is a disgrace for a city which prides itself in being green</i> - <i>More space for allotments and community gardens.</i> - <i>Anything that stops environmental degradation comes at the top. If we heat up, flood, there is no LDP</i>
Health	22	10.7	<ul style="list-style-type: none"> - <i>Where's social care facilities? Dementia care? Day centres?</i> - <i>CAMHS!</i> - <i>Do you realise it takes a month to get a doctor's appointment in Creigiau! Disgusting..</i>
Schools	17	8.3	<ul style="list-style-type: none"> - <i>More Welsh medium schools, including a new Welsh medium secondary school in south Cardiff.</i> - <i>Schools at the centre of the community which has sport and leisure facilities at an affordable cost and accessible for the community.</i>
Arts and Culture	15	7.3	<ul style="list-style-type: none"> - <i>Culture / The Arts</i> - <i>Cultural spaces: theatres, galleries, community arts centres</i>
Reduce Bus/Cycle lanes	7	3.4	<ul style="list-style-type: none"> - <i>Stop building cycle paths, it's not going to turn the city into Amsterdam. People don't cycle in Wales because it's wet and hilly.</i>
Environmental Management	7	3.4	<ul style="list-style-type: none"> - <i>Avoid building on food plains - this would avoid flood defences. But the climate is changing - witness what has happened in western Germany recently.</i>
Parking	6	2.9	<ul style="list-style-type: none"> - <i>Provision for private cars</i>
Clean Air	4	1.9	<ul style="list-style-type: none"> - <i>Clean air for everyone especially for our Children. The current toxic levels of Pollution kill and damage health</i>
Places of worship	5	2.4	<ul style="list-style-type: none"> - <i>Churches and other buildings for religious and spiritual well-being that also promote good mental and physical health</i>
Digital	4	1.9	<ul style="list-style-type: none"> - <i>Telecommunications. Better connections.</i>

Reduce Car Travel	3	1.5	- <i>Low Traffic Neighbourhoods</i>
Housing	2	1.0	- <i>Affordable housing to buy or rent</i>
Misc.	29	14.1	- <i>Crematoria</i> - <i>Government offices e.g. benefits</i> - <i>Accessibility has not been mentioned!!!</i>
Total	206	-	-

Appendix 8 - Breakdown of Results for Priorities for new infrastructure by Demographic Groups

Base sizes shown in brackets – caution should be taken with lower base sizes

Appendix 9 – How do you think the plan can tackle climate change?

Theme	No	%	Example comments
Renewable energy / sustainable infrastructure	168	21.9	<ul style="list-style-type: none"> - <i>Serious investment is needed to provide sound infrastructure for green energy. There should be a mandate placed on housing developers to provide charging points for all homes.</i> - <i>Energy efficient new homes. Improve energy efficiency of existing housing</i> - <i>Ensuring all new build / infrastructure is built with sustainability in mind. People's homes are increasingly becoming workplaces too - ensure that new homes are fit for this purpose and allow people to live sustainable lives.</i> - <i>All public buildings should generate own energy - solar panels etc.</i> - <i>Focus on zero carbon buildings and on low-carbon heating.</i>
Improved / Enhanced Public Transport / Infrastructure	149	19.5	<ul style="list-style-type: none"> - <i>Reduce journeys by fossil fuel vehicles</i> - <i>The plan should consider more strategic action on traffic and transport</i> - <i>Cheaper, faster, more reliable greener public transport with plenty of space to avoid overcrowding if looking to reduce the number of cars around the city. Incentivise the use of public transport by making it low cost and affordable.</i> - <i>Massively increase infrastructure for active transport and reduce city car use.</i> - <i>Green transport.</i>
Reduce car use - Ban Cars / encourage home working / Sufficient local amenities	109	14.2	<ul style="list-style-type: none"> - <i>Facilitating shift from car dependence through improved public transport options to all areas of the city.</i> - <i>Incentivise people to give up their cars</i> - <i>Less cars on the streets</i> - <i>Cut down on private vehicle use</i> - <i>Develop "15 minute communities" where work, shops, health & community centres are all within 15 mins walk for everyone - discourage motorised transport.</i>
Increase / Improve Active travel infrastructure	97	12.6	<ul style="list-style-type: none"> - <i>Encourage active travel, by building well-designed cycle lanes in consultation with other cyclists.</i>

			<ul style="list-style-type: none"> - <i>By providing a properly maintained, smooth, joined-up network of routes for all non- motorised forms of transport alongside a cohesive, reliable and affordable public transport system</i> - <i>Make every road cycle friendly. Do more to tackle bike theft. Add more bike lock bays to district retail areas so we can cycle to shops</i> - <i>Ensure that people can walk or cycle to green biodiverse open spaces and as far as possible to work and leisure facilities.</i>
Preserve Greenspace / Build on Brownfield land	96	12.5	<ul style="list-style-type: none"> - <i>Stop development on existing green sites, taking away hedgerows, fields and trees which improve air quality</i> - <i>Stop destroying green spaces to build. Use brownfield sites</i> - <i>STOP building on Green areas, respect what we have now, at the moment CCC are paying lip service to the Environment</i> - <i>Stop allowing commercial developers build on green sites just to raise income</i>
Reduce emissions / Less pollution	50	6.5	<ul style="list-style-type: none"> - <i>Reduce car emissions in city centre and residential areas through greater promotion of active travel options.</i> - <i>More greenery, less pollution</i> - <i>Say no to incinerators and air pollution across Cardiff</i>
Greater Education / More public engagement	42	5.5	<ul style="list-style-type: none"> - <i>Education in schools regarding these issues, particularly in deprived areas is essential for next generation.</i> - <i>It needs to focus on including Cardiff residents in consultations like this, but also in decision making. It needs to be inclusive and participatory.</i> - <i>Tell others the plan to start. Educate - not speculate for others to provide you the answers</i>
Incentives / Support / Grants	41	5.4	<ul style="list-style-type: none"> - <i>Make it easier to recycle</i> - <i>To get shops and supermarkets to get rid of as much plastic waste as possible. Open up the paper making industry so that food can be put into receptacles that can be easily disposed of.</i> - <i>More recycling with less plastic use. Reduce single use and throwaway goods.</i>

Waste Management - Increase recycling / reduce packaging / ban single use plastic	41	5.4	<ul style="list-style-type: none"> - Encouraging large firms to become greener and offering grants to small businesses to help tackle climate change - Better incentives for doing this - Grants for improving housing efficiency
Electric vehicle infrastructure	33	4.3	<ul style="list-style-type: none"> - Switch to using electric vehicles - more electric charging infrastructure, council vehicles to be electric, buses to be electric. - Expand electric vehicle infrastructure and encourage people to buy EV's. Right now I would like to buy an EV but the infrastructure is insufficient - Support directly the roll out of Electric charging points as EV's are on their way and here to stay.
Issue is global not local	31	4.1	<ul style="list-style-type: none"> - The larger organisations are the bigger culprits and they should be more accountable - Almost irrelevant give the pollution from much larger countries - e.g. China - No matter what we do it will happen anyway , need countries like China and India and the US to get its act together
Flood Management	30	3.9	<ul style="list-style-type: none"> - Ensuring we do not build on flood-plains; being cognisant of how the green spaces in Cardiff help manage rainwater run-off etc. - More monies for Flood Defence schemes - Flood barriers
Increase green infrastructure	28	3.7	<ul style="list-style-type: none"> - Set up more green industries which will support the environment and provide job opportunities. Develop a greener and more integrated way of travel across Wales - Green economy - focus on jobs around installing insulation, solar panels, wind farms, rebuilding street infrastructure for walking/cycling/electric buses.
Greater adaptation green energies	24	3.1	<ul style="list-style-type: none"> - Solar, wind and tidal power can generate electricity can also help mine Zero Carbon Crypto Currency to help pay towards local services. - Renewable energy investments.
Less Development / Renovate existing structures	24	3.1	<ul style="list-style-type: none"> - Maintain, repair, reuse the buildings and facilities we currently have. - Slowing down new development, investing in repurposing existing, out of date buildings into new, more-environmentally friendly spaces.

Improved Road Transport Infrastructure	21	2.7	<ul style="list-style-type: none"> - <i>Stop narrowing roads which increases traffic which increases congestion which increases emissions, instead keep roads wide and free flowing.</i> - <i>Better roads, people in cars for less time, less traffic etc. People don't use the public transport, it's nowhere near good enough and will be outdated by the time a plan to improve it is finished.</i>
It can't	13	1.7	<ul style="list-style-type: none"> - <i>It cannot. Cardiff and its immediate environs are entirely subject to rising sea levels. We are unable to generate the finance necessary to prevent dynamic changes in habitable area.</i> - <i>It can't, it's too late for that now.</i>
Reduce fossil fuel usage	10	1.3	<ul style="list-style-type: none"> - <i>Ban the use of all diesel vehicles within Cardiff, starting with the most polluting which are commercial vehicles.</i> - <i>Reduce/eliminate burning of fossil fuels for: 1) electricity & heating in businesses & homes, 2) transport & travel, 3) manufacturing.</i>
Introduce Congestion Charge	8	1.0	<ul style="list-style-type: none"> - <i>There needs to be a congestion charge, which should include taxis and all commercial vehicles.</i>
Misc.	133	17.4	<ul style="list-style-type: none"> - <i>By being flexible enough to adapt to changes in trends; inherent to this is up-to-date data analysis.</i> - <i>Climate change is unimportant at this time.</i> - <i>Welcome but a generation too late.</i> - <i>By putting common sense before emotion</i> - <i>Develop a way that businesses can declare their emissions - including building developments, food production etc.</i>
Total	766	-	-

Appendix 10 – Breakdown of Results for Delivering Sustainable Transport Infrastructure by Demographic Groups

Base sizes shown in brackets – caution should be taken with lower base sizes

Appendix 11 – Please specify where else infrastructure resources should be invested

Theme	No	%	Example comments
Improved / Enhanced Public Transport / Infrastructure	109	40.7	<ul style="list-style-type: none"> - <i>Bus service in Cardiff is appalling.</i> - <i>New train stations are essential. There are so many existing lines that run through the city for miles without intermediate stops. Take London – all central rail and tube lines have stations that are 15-20 minutes walk apart. That should be the ambition for all existing lines within all urban areas.</i> - <i>Regular and cheap metro / trams</i> - <i>Have one payment system that's allows train and bus use combined</i> - <i>One ticket system to cover public transport, parking and cycle hire</i>
Road Infrastructure	35	13.1	<ul style="list-style-type: none"> - <i>The existing roads need maintenance and improvement to ensure they are still fit for purpose.</i> - <i>We must recognise that the global pandemic has led people to want to use private transport for their travel needs, the obsession with public transport will cost us dearly in the future, and is not in line with personal needs.</i> - <i>good roads and pavements - that will enable people to cycle and walk safely as well as drive</i>
Focus on reducing need to travel / Car free areas	20	7.5	<ul style="list-style-type: none"> - <i>Cars need to be actively discouraged and prevented</i> - <i>Car-free areas - big ones!</i>
EV Use / Cost / Charging	19	7.1	<ul style="list-style-type: none"> - <i>Stop making it more difficult and penalising car users and develop and encourage more self-sustaining and eco-friendly cars.</i> - <i>Electric charging points must be a priority</i>
Active Travel	15	5.6	<ul style="list-style-type: none"> - <i>Other active travel methods used by young people, like skating and scooters</i> - <i>Safe walking routes are most important but have been sacrificed to cycle routes in recent times.</i>
Not at the cost of Car owners	15	5.6	<ul style="list-style-type: none"> - <i>The purpose of the green target is to get net zero. If everyone is going to be in green electric vehicles then the council should not stop or demonise private car ownership.</i> - <i>Car/Vehicles - you are creating congestion by preventing traffic movement.</i>

Making it Inclusive - Consideration for the elderly / those with disabilities	11	4.1	<ul style="list-style-type: none"> - Remember disabled persons in any plan! - Equitable access: facilities for disabled people; safe travel for women; access for other vulnerable groups.
Parking - Improved Park & Ride Service. More / Better Car Parking Facilities	10	3.7	<ul style="list-style-type: none"> - Park and ride schemes. Not everyone has access to other forms of transport so provide a way to join them up and manage car use. - Better roads and car parking spaces. Not everyone can use public or active transport.
e-Scooters	10	3.7	<ul style="list-style-type: none"> - E-scooters are only going to become more popular. Support them with infrastructure and treat them as bikes on pathways separate to pedestrians - Allow & encourage use of electric scooters - these are ideal for movement in and around the city centre.
Car Hire	5	1.9	<ul style="list-style-type: none"> - Availability of hourly car hire
Taxis	5	1.9	<ul style="list-style-type: none"> - Taxis
Reduce Fossil fuel usage	4	1.5	<ul style="list-style-type: none"> - Get rid of diesel trains
Hydrogen Fuelled Vehicles	3	1.1	<ul style="list-style-type: none"> - Consideration of alternative fuels such as hydrogen.
Waterbus	3	1.1	<ul style="list-style-type: none"> - More water transport could make transport more fun and sustainable while assisting with tourism.
Misc.	21	7.8	<ul style="list-style-type: none"> - Future considerations for flying cars, helicopters and drone networks for both passengers and cargo - Let creative people lead on this - We are in an Emergency situation. Think of Childrens Lungs 1st

Base sizes shown in brackets – caution should be taken with lower base sizes

As a work meeting place

Shopping

Appendix 14 – Improving Health and Well-being: Please specify what else you consider to be important

Theme	No	%	Example comments
Better awareness / education	26	15.3	<ul style="list-style-type: none"> - Awareness raising/education regarding the benefits of more healthy lifestyles (e.g.: Bristol Eating Better campaign). - Better education regarding health issues in our primary schools, how to keep fit and healthy. - Fresh food is available but people are lazy or not taught. Home economics should be back on the curriculum and also taught in hubs
More / Better community infrastructure / Facilities	24	14.1	<ul style="list-style-type: none"> - Investing in more community projects and youth groups and creating activities for young people and elderly. - We keep building houses but no amenities to improve wellbeing, e.g. Plasdwr should include tennis courts, football pitches, a lido. - Social isolation is a killer. We need better small scale social infrastructure and more community infrastructure, things like community food gardens (think Incredible Edible).
Retain / More Green Spaces	19	11.2	<ul style="list-style-type: none"> - Encourage use of green spaces and allow all homes to have a safe local place to exercise and enjoy nature helping mental and physical health - Need to protect and not destroy existing green areas, without the protection of these sites CCC will not have the best interests of the Environment at heart
Better Active Travel Infrastructure	13	7.6	<ul style="list-style-type: none"> - Stop lumping cycling and walking together. It suits nobody. The sections of the Taff Trail which have dedicated cycling / walking areas are a joy to use. The rest of it...as a walker and a cyclist...are a nightmare, as a walker you have bikes dangerously close, as a cyclist you have pedestrians getting in the way. separate the two populations & it'll make a huge difference - Cycling isn't the only viable non-motorised form of transport, and infrastructure should account for this, especially in terms of surface quality. Provision should also be made for wheelchair use among these.

More help for those living in deprivation	13	7.6	<ul style="list-style-type: none"> - Address poverty - support for low income families and households. Community based approach. - Not helping those that are deprived today will build another generation (their children) who may well be deprived also.
Community Safety / ASB	12	7.1	<ul style="list-style-type: none"> - Target smoking and drug abuse - Women's safety. Most women do not go out at night unless there is no alternative.
Better Health Services	10	5.9	<ul style="list-style-type: none"> - Improved access to health services such as GPs, Consultants, Mental Health, etc. - Improvement to NHS, affordable access to Drs, Dentists, opticians and mental health specialists as well as other health care
Greater control	10	5.9	<ul style="list-style-type: none"> - Legislation, regulation and licensing to benefit and encourage and increase sustainable and eco-friendly businesses. Think globally, act locally! - Ban all polystyrene from take-aways.
Waste Management	8	4.7	<ul style="list-style-type: none"> - Waste management- if an area looks cared for, people feel cared for
Housing / Homelessness Issues	7	4.1	<ul style="list-style-type: none"> - Housing needs to not just be of quality, it needs to be affordable, energy efficient, appropriate and adaptable. Work with innovative housing providers, not traditional bricks and mortar builders to create housing for the future.
Generally against the push for Active Travel	6	3.5	<ul style="list-style-type: none"> - Stop emphasising cycling all the time some people cannot and have no desire to cycle. Be aware of people with reduced mobility and disabilities in your plans.
Improved / Enhanced Public Transport / Infrastructure	6	3.5	<ul style="list-style-type: none"> - cut the political spin and improve the public transport network : Cardiff council have embarked on a policy of destroying the public bus services in Cardiff
Employment opportunities	3	1.8	<ul style="list-style-type: none"> - Jobs! - provide self-worth, dignity, access to better housing and improved lifestyles.
Misc.	26	15.3	<ul style="list-style-type: none"> - More beautiful buildings that give a sense of place is often a forgotten aspect that impacts people mental well-being. Less depressing glass, steel and concrete and more beautiful buildings. - Getting communities back together again, with effective communication and regular meetings held - A four day working week
Total	170	-	-

Appendix 15 – What do you think the future role of the city centre should be?: Something else

Theme	No	%	Example comments
Attractions / Tourism - Music / Murals / Arts / Culture / Sporting Events etc.	25	30.5	<ul style="list-style-type: none"> - <i>Interesting, unique attractions that differentiate Cardiff from any other UK city. There aren't enough well developed cultural attractions.</i> - <i>Arts and culture - music, murals, worships, creativity!</i>
Community Spaces / Socialising areas / Using Green Spaces	21	25.6	<ul style="list-style-type: none"> - <i>A social gathering place for all ages and communities</i> - <i>As a rich living green centre with gardens, a sanctuary for animals - a re-greening centre as a sanctuary for citizens.</i>
More Amenities	13	15.9	<ul style="list-style-type: none"> - <i>Leisure, sports, green spaces, health centre/dentist, community education, cycle paths, a Green healthy city</i> - <i>Creative production. Fitness and leisure. Education. Mixed use of all kinds, including those not yet imagined. Flexibility and adaptability.</i>
A better mix - not shopping reliant	10	12.2	<ul style="list-style-type: none"> - <i>A hybrid solution is important - for example the predominance of large shops over the last decades has created a vacuum when they are no longer popular</i> - <i>Actually need less shopping for new things , and more facilities for mending / sharing / hiring / borrowing / second hand</i>
Travel Hubs	6	7.3	<ul style="list-style-type: none"> - <i>sustainable travel hubs - cycle parking, facilities for cyclists including bike repair, lockers etc, access to car clubs</i>
Misc.	13	15.9	<ul style="list-style-type: none"> - <i>We are the capital city of Wales, our city should reflect this, our city should be the ambassador for our country</i> - <i>Small independent businesses, not chains (shops and restaurants)</i>
Total	82	-	-

Appendix 16 – Breakdown of Results for “In the future, how often would you be likely to use the following in the city centre for each of the following?” by Demographic Groups

Base sizes shown in brackets – caution should be taken with lower base sizes

Appendix 17 – For what other purpose would you use the city centre?

Theme	No	%	Example comments
Commuting/Travel	11	16.7	- To commute into/out of - As a transport hub.
Exercise	9	13.6	- Exercise. The river is an amazing place for swimming and kayaking. Can we make more of our waterways as places for exercise? - For a stroll
Green space	9	13.6	- To enjoy green space - i.e. the castle - Enjoying green spaces like Bute Park, Cardiff Castle, walking by the river, boat trips, being able to pop for a coffee and some relaxation time somewhere quiet and pretty and not crowded
Independent shops, not chains	5	7.6	- I used to love the individual shops all over Cardiff Centre. Now it's mainly big chains like every other city. I'm not interested in going into town for that.
Leisure	4	6.4	- Recreation. Access to the parks and cycling through to the Bay. Kayaking or paddle boarding on the Taff.
Cultural Events	4	6.4	- Music! Books! Art! History!
Sport	4	6.4	- Sports events
Community spaces	4	6.4	- A place where services are accessible such as advice centres
Safer	3	4.5	- I do not feel safe in city centre, so avoid it
Education	3	4.5	- Education
Work	2	3.0	- unfortunately I work there
Health	2	3.0	- To visit doctors, dentists etc.
Library	2	3.0	- To use the library
Misc.	18	27.3	- Urban farm - Good question. City centres are no longer and will disappear - Dependent upon COVID. Would use centre for more of the above when threat of contagion gone.
Total	66	-	-

Appendix 18 – Post-Pandemic Recovery: Breakdown by demographic groups

Base sizes shown in brackets – caution should be taken with lower base sizes

Appendix 19 – Post-Pandemic Recovery: Please specify what else you consider to be important

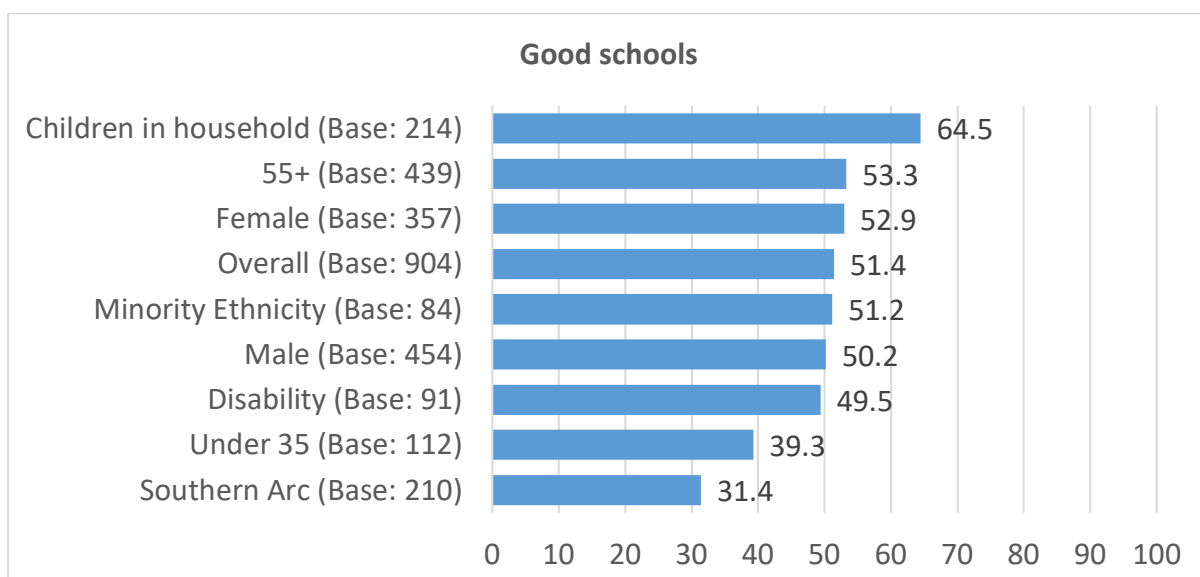

Theme	No	%	Example comments
New Approach	12	17.4	<ul style="list-style-type: none"> - <i>Change the way Cardiff manages parks & verges to rewilding & local food, low maintenance approach</i> - <i>Place people and planet at the centre of every decision, above all else!</i>
Improve Neighbourhoods / Encourage people to use local amenities / facilities	11	15.9	<ul style="list-style-type: none"> - <i>Having attractive local neighbourhoods with good transport links and local amenities.</i> - <i>Investment in exciting children's play - eg. playgrounds including more money for maintenance.</i>
Improved Road Infrastructure	8	11.6	<ul style="list-style-type: none"> - <i>The use of electric cars is growing exponentially, take much more account of that in the plans</i>
Retain / More Greenery / Use Brownfield Sites	8	11.6	<ul style="list-style-type: none"> - <i>Access to green spaces shouldn't mean channelling more and more people into fewer green spaces</i>
Question concerns / queries	6	8.7	<ul style="list-style-type: none"> - <i>Incredibly hard to prioritise these issues - a lot of them are interdependent</i>
Improved / Enhanced Public Transport / Infrastructure	4	5.8	<ul style="list-style-type: none"> - <i>Your policies keep mentioning public transport, but it's woefully inadequate & not fit for purpose!</i>
Better Education	3	4.3	<ul style="list-style-type: none"> - <i>Educating ignorant individuals to exercise common sense</i>
Access to Services	3	4.3	<ul style="list-style-type: none"> - <i>Health & wellbeing access to local services</i>
Safety	2	2.9	<ul style="list-style-type: none"> - <i>Clean and safe environment</i>
Misc.	16	23.2	<ul style="list-style-type: none"> - <i>Providing quality digital infrastructure in existing properties, my broadband is awful</i> - <i>Staying local - isn't that what it was like before?</i>
Total	69	-	-

Appendix 20 – Breakdown of Results for “What do you think is good about your neighbourhood?” by Demographic Groups

Base sizes shown in brackets – caution should be taken with lower base sizes

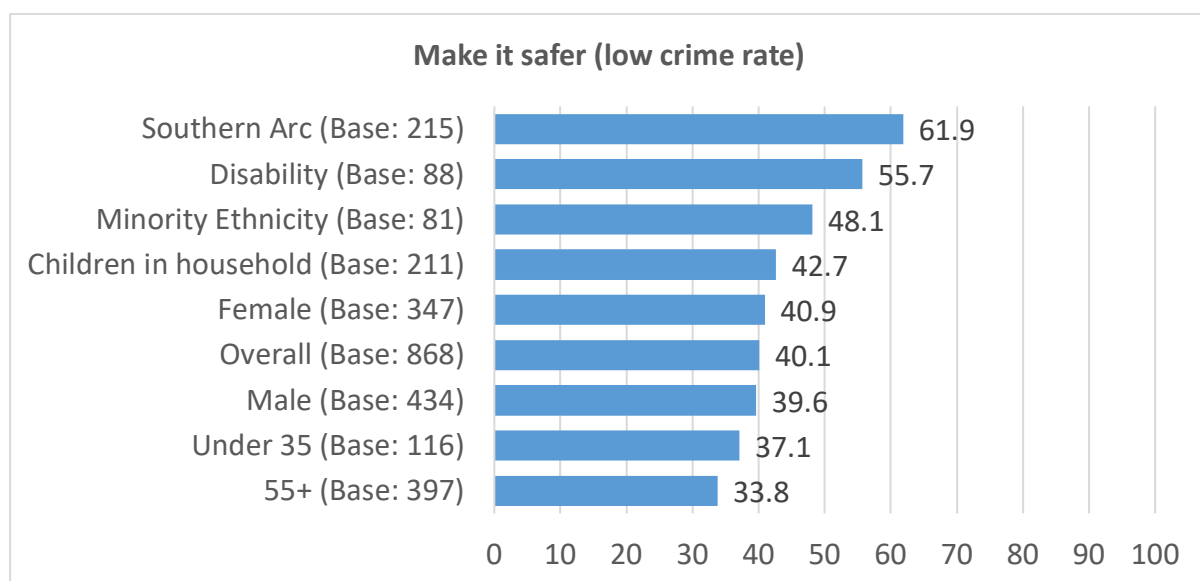

Appendix 21 - What do you think is good about your neighbourhood?: Something else

Theme	No	%	Example comments
Proximity / Accessibility / Close to Local Amenities / Facilities	18	38.3	<ul style="list-style-type: none"> - <i>Good location to get to various locations.</i> - <i>Allotment, which is a great place to take grow your own food and get a good workout doing it!</i> - <i>Plenty of choice of places of worship.</i>
Negative Comments	12	25.5	<ul style="list-style-type: none"> - <i>Nothing is good we feel scared unsafe and minoritised and surrounded by crooks drug dealers and nasty creatures</i> - <i>Not an area I would choose if I could afford to move</i>
Community Spirit	7	14.9	<ul style="list-style-type: none"> - <i>Diversity within the community.</i> - <i>The good thing about my neighbourhood is the community, the people.</i>
Affordability	3	6.4	<ul style="list-style-type: none"> - <i>Affordable</i>
Good Design	3	6.4	<ul style="list-style-type: none"> - <i>Aesthetically attractive Victorian terraces.</i>
Misc.	5	10.6	<ul style="list-style-type: none"> - <i>Welsh awareness</i> - <i>More community police presence</i>
Total	47	-	-

Appendix 22 – Breakdown of Results for “What do you think could be done to improve your local neighbourhood?” by Demographic Groups

Base sizes shown in brackets – caution should be taken with lower base sizes

Appendix 23 - What do you think could be done to improve your local neighbourhood?: Something else

Theme	No	%	Example comments
More / Improved Local Amenities / Facilities	26	22.2	<ul style="list-style-type: none"> - <i>Community gardens and farmers markets. More sports facilities. Car charging points.</i> - <i>Make children's playgrounds more exciting by adding more equipment; Change policies to not allow neighbours moving close to existing parks and playgrounds to have equipment removed due to noise etc.</i> - <i>We only have big supermarkets - no small neighbourhood shops. Hence people drive more, and few focal points exist for the community</i>
Retain / Protect Green Spaces	18	15.4	<ul style="list-style-type: none"> - <i>Not decimate our neighbourhood by taking away our peace, quiet and tranquillity. Preserve our air quality, green space, nature and wildlife.</i> - <i>Stop building on green belt land destroying habitats and green space.</i>
Improve Litter Issues	17	14.5	<ul style="list-style-type: none"> - <i>More bins & cleaning of the streets. Fine people who leave rubbish in their front gardens.</i> - <i>More street cleaning and drain maintenance. Bins that the seagulls can't get into!</i>
More Driving / Parking enforcement	12	10.3	<ul style="list-style-type: none"> - <i>Parking needs to be looked at around schools, the way parents park is careless and unsafe for both residents and children</i> - <i>Traffic speeds along my road at rush hour.</i>
Tackling ASB Issues	12	10.3	<ul style="list-style-type: none"> - <i>Too many unruly youths and too small police presence</i> - <i>Where I live crime and noise and vandalism is very high. These things ought to be prioritised and tackled.</i>
Cheaper / More Reliable / More Frequent Transport System	11	9.4	<ul style="list-style-type: none"> - <i>Improve frequency and connectivity of public transport - limited to city centre every half hour and less at weekends</i> - <i>Public transport is close but it is unreliable. Bus only scheduled every 30mins but it is always late or sometimes doesn't show up at all.</i>
Housing Issues - Less Developments / Renovate properties / affordable housing	10	8.5	<ul style="list-style-type: none"> - <i>Halt the building on greenfield sites. Some developers are motivated by greed, we have seen on TV developers saying they will not build in the valleys as there isn't enough profit. As someone</i>

			<p><i>formally from the valleys I see a need for high quality housing, infrastructure and work in the valleys not Cardiff. We need a South Wales holistic strategy, don't make everything Cardiff centric.</i></p> <ul style="list-style-type: none"> - <i>Renovation of run down properties.</i>
Less Traffic / Improve Air Quality	8	6.8	<ul style="list-style-type: none"> - <i>Reduce traffic and improve air quality</i> - <i>Mend the roads, improve the shockingly awful air quality</i>
Improve Road infrastructure	8	6.8	<ul style="list-style-type: none"> - <i>Repair and maintain the roads and pavements, including cleaning (weeds, leaves, etc.)</i> - <i>remove all traffic calming</i>
Misc.	12	10.3	<ul style="list-style-type: none"> - <i>Home Working is an issue with the number of noise pollution of incessant dogs barking. This needs to be tackled and dog owners educated about keeping barking under control.</i> - <i>More music venues</i>
Total	117	-	-

Appendix 24 – Green Spaces: What Other Approaches Would You Suggest?

Theme	No	%	Example comments
Green Spaces To Be Protected	78	25.3	<ul style="list-style-type: none"> - <i>Use of green space should only be sanctioned as a last resort when all other options have been exhausted and the decision making scrutinised to ensure it is the case.</i> - <i>Green spaces need to be protected and increased, there are enough brown field sites that can be redeveloped into housing.</i> - <i>Too much green space already used</i> - <i>Given the climate and biodiversity emergencies, there's no question now that all green space must be protected and alternative approaches taken. Perhaps we need to obsess less about growth and focus more on preservation - we cannot keep on infinitely growing - the planet can't take it</i>
Develop / Re-use Existing Buildings / Space	61	19.8	<ul style="list-style-type: none"> - <i>I cannot see the point of creating 'new' green spaces to replace existing, just be more creative about where to build what is deemed necessary</i> - <i>Green space only as last resort. Make use of existing built up spaces.</i> - <i>Always look for areas that need updating and can be "recycled" for other use before taking any green spaces away. These green spaces are vital to people's wellbeing but more importantly to nature and we are losing too much already.</i> - <i>Use brown land, rebuild or update empty houses</i>
Develop / Use Brownfield Land	47	15.3	<ul style="list-style-type: none"> - <i>Build on brown sites</i> - <i>Prioritise brownfield development and repurposing of existing redundant building</i> - <i>Better use of brownfield areas. Incentivise developers to use infill areas</i>
Preserve / Enhance / Protect Biodiversity	25	8.1	<ul style="list-style-type: none"> - <i>This is too vague a question. Some green space is full of biodiversity. Some green space has been destroyed by chemicals. We need to preserve and enhance the places that have biodiversity and use low biodiversity, well connected green space for housing</i> - <i>need to consider the biology of the green spaces and protect wildlife</i>

			<ul style="list-style-type: none"> - <i>Maintain green spaces better. Make sure they support biodiversity.</i>
Any green spaces used need to be replaced	14	4.5	<ul style="list-style-type: none"> - <i>Emphasis on replacement green space being provided.</i> - <i>Everything is a balance. And losses in one area really do need to be balanced by gains in another area.</i>
Role of developers	12	3.9	<ul style="list-style-type: none"> - <i>Developers should be absolutely compelled to honour their commitments to providing appropriate infrastructure, affordable housing etc.</i> - <i>Make the Developers responsibility to provide and fund Green space in any new development</i>
Consider Local Amenities When Planning New Builds	11	3.6	<ul style="list-style-type: none"> - <i>Housing cannot be the only thing provided in a new build estate. They require facilities that the community can use. A hub / library / community centre / swimming pools etc.</i> - <i>Use S106 obligations to ensure all new housing has access to green space</i>
More education / Community awareness / Community Engagement	9	2.9	<ul style="list-style-type: none"> - <i>Take children out into parks and teach them about wildlife</i> - <i>Community groups to be involved in management of green spaces, also get local school involved</i>
Stop developing	9	2.9	<ul style="list-style-type: none"> - <i>Stop building!</i> - <i>Stop the huge expansion of Cardiff</i>
Need to look at the bigger picture	7	2.3	<ul style="list-style-type: none"> - <i>Do joined up thinking i.e. talk to all those involved in providing transport, health and education facilities and all act together</i> - <i>Better joined-up thinking - e.g. not selling off NHS land for housing then appropriating nearby greenfield space for NHS development!</i>
Lack of trust in decision-makers	7	2.3	<ul style="list-style-type: none"> - <i>Sensible impartial decisions needed by experts not council.</i> - <i>Establish alternative planning committees i.e. non-political lay persons with no vested interest politically or financially to question decisions before planning consent.</i>
Build outside Cardiff	5	1.6	<ul style="list-style-type: none"> - <i>build new houses elsewhere, maybe even a new city/town, need to stop overloading Cardiff</i>
Transport	3	1.0	<ul style="list-style-type: none"> - <i>Actually build the metro.</i>
Northern Meadows	3	1.0	<ul style="list-style-type: none"> - <i>No greenspace development as it is clear the council can't make decisions correctly on this, the Northern Meadows, Danescourt and Flaxwood being prime examples.</i>

Put the environment first	2	0.6	- <i>The environment is the main concern.</i>
Misc.	43	14.0	- <i>Assessments of environmental and social impacts need to be very robust</i> - <i>This can only be assessed in context of what is required to keep within environmental limits overall whilst also supporting health equity. So it depends.</i> - <i>Stop student accommodation scam</i> - <i>Stop building with so much concrete</i>
Total	308	-	-

Appendix 25 – What measures do you think the plan needs to put in place to protect the city’s historic assets and further enhance and promote the city’s role as a capital city and as an international destination for residents and visitors?

Theme	No	%	Example comments
Better transport links	35	14.2	<ul style="list-style-type: none"> - <i>Got to sort out public transportation, it is the weak link in Cardiff's offer</i> - <i>Cultural facilities in city centre are hampered by bad transport policies</i> - <i>Reintroduce a central hub for public transport.</i>
Better Art/ Cultural offer	30	12.1	<ul style="list-style-type: none"> - <i>A huge focus on culture, of which history is a part, through arts, crafts, and music. Expand the music scene.</i> - <i>More city wide co-ordination of historic and cultural assets.</i> - <i>Market Cardiff as a city of historical importance with incredible architecture, culture and make the visiting experience excellent for all ages</i>
Green spaces	27	10.9	<ul style="list-style-type: none"> - <i>Green spaces should be legally protected from future developments and to ensure our city does not become a concrete jungle; planning restriction should be tighter to ensure development is in keeping with environment and sustainable infrastructure and biodiversity wise.</i> - <i>Protect and improve the green areas of the city which are its key attraction</i>
More attractions	26	10.5	<ul style="list-style-type: none"> - <i>Historic assets should be free for everyone. If Cardiff is to attract international visitors then a range of good quality and exciting attractions are needed. Theatres, Concert Halls, Conference facilities, Museums, visitor attractions that can relate to Cardiff. The Doctor Who exhibition was a huge attraction for visitors that was let go.</i> - <i>A proper local museum celebrating Cardiff's past</i>
Better promotion	23	9.3	<ul style="list-style-type: none"> - <i>Better media by the tourist board to promote</i> - <i>More about Cardiff, its people, its origins and tracking the journey to where we are today. I've lived here 2 years and honestly aside from loving the city don't feel particularly connected to its cultural identity and heritage. Placemaking, developing place</i>

			<i>attachment and place meaning are important and Cardiff should think local in its approach to culture.</i>
Clean City Centre	17	6.9	<ul style="list-style-type: none"> - <i>A cleaner city would help</i> - <i>Improve cleanliness and introduce stricter control/fines of littering and fly-tipping - a dirty and neglected looking city puts visitors off and has a major impact on quality of life/wellbeing</i>
Celebrate what we have	15	6.1	<ul style="list-style-type: none"> - <i>We have some beautiful buildings, regardless of their current use. Protecting these is key, stop building ugly high rises and ruining our lovely little city. We're a compact, pretty, green city on a beautiful river. We have great cultural spaces, such as a great museum, St Fagan's, libraries, theatres, stadia. Let's play up those features.</i> - <i>We have fabulous Welsh history and heritage - it should taught in schools and celebrated</i>
More events	14	5.7	<ul style="list-style-type: none"> - <i>make them more accessible to everyone, have more cultural events and concerts outdoors</i> - <i>More events and activities needed at places like Cardiff Castle - why is the Mansion House not used more?</i>
Anti-social behaviour	11	4.5	<ul style="list-style-type: none"> - <i>Anti-social behaviour in the city needs to be addressed, this was shown to be appalling at Roald Dhal Plas when the first lockdown was lifted which reflected very badly on the city's image. Tourists to the city need to feel safe.</i> - <i>Make the city centre safer - too much drug taking, homeless people begging. It feels very unsafe</i>
Cars	9	3.6	<ul style="list-style-type: none"> - <i>No congestion charges which will put visitors off. A day out is spoiled by public transport.</i> - <i>Close Castle Street to all vehicles</i>
Better policing	9	3.6	<ul style="list-style-type: none"> - <i>Clamp down on litter, graffiti and anti-social behaviour with a visible, walking, Police presence</i> - <i>Invest in better policing and prosecute offenders.</i>
Canals	8	3.2	<ul style="list-style-type: none"> - <i>Open up some of the canal systems and use as a transport/leisure/tourist attraction</i>
Empower/ support citizens	6	2.4	<ul style="list-style-type: none"> - <i>Use Cardiff residents as the best ambassadors for these sites by offering reduced entrance fees for Cardiff residents all year round and then prize draws for VIP invitations for specific events. The best promoters to visitors will then be those residents who attended and it could have a snowball effect of engaging others to see the value of our cultural</i>

			<i>assets. I would also encourage more visits to be organised for local and regional schools, as the children will then become ambassadors if they are well engaged on the visit.</i>
Better signage / information	4	1.6	- <i>Make directions better. Signposting is appalling for a capital city. Shocking for tourists</i>
Misc.	24	9.7	- <i>Protect our history, too much gets lost already. History keeps tourism, endless new developments do the opposite</i> - <i>Any alternative to it being a stag & hen do destination...the current trajectory of the city centre is facilitating this further. The river could be become more of an asset - Southbank is great example where you can be there to watch a performance at a theatre, but you can also just 'be' there.</i> - <i>The arcades are a particularly draw for visitors. Use of these units must be encouraged.</i>
Total	247	-	-

Appendix 26 – Let Us Know How You Think the Vision Could Be Improved

Theme	No	%	Example comments
Stop building new/expand & repurpose existing infrastructure	92	21.5	<ul style="list-style-type: none"> - <i>Tackle developers pulling the city apart. No use holding your hands up and saying "can't do anything, don't want a legal challenge". You would have the support of the public in doing so.</i> - <i>Need to improve existing housing stock and very carefully look to build newmore carefully than this vision implies!</i> - <i>Lose the focus on new homes, renovate and expand existing infrastructure rather than building on new land just because a housing crash</i> - <i>Reduce the emphasis on expansion. Work with Welsh Government and other local authorities to spread development wider across SE Wales</i>
Climate Change /Cleaner, greener city/protect green spaces	92	21.5	<ul style="list-style-type: none"> - <i>Doesn't go far enough about the environment. Tackling climate change should be at the core of every one of the values.</i> - <i>Its ok to say this but green issues need to be prioritised and scientists listened to</i> - <i>Not strong enough on the environment, Climate change isn't the only environmental catastrophe we face, our insect population has dropped by over 75% in 27 years, if we don't want to face food shortages and hand pollination we urgently need to increase biodiversity, ban pesticides and stop green field developments.</i> - <i>I think the priorities are wrong. By having the 'new homes, jobs and infrastructure' at the start, you are already setting a tone for this being given more weight than green spaces and biodiversity.</i>
Improved Transport infrastructure- roads/public transport/accessibility	49	11.4	<ul style="list-style-type: none"> - <i>Transport is the only priority. The current thinking of transport capacity lagging demand is a disaster. Transport capacity needs to lead demand. That is to say you must put in the transport infrastructure first. Current policy has almost destroyed the city centre already.</i> - <i>You must focus on better integrated transport and cycling routes and more greenery in districts such as Splott, Adamadown and Cathays. Is there an option for cut and cover road in front of the castle to</i>

			<p><i>reopen this back up to pedestrians / public realm whilst keeping the busy road access?</i></p> <ul style="list-style-type: none"> - <i>The focus on active travel needs to go if you want any form of post-pandemic recovery.</i>
Vision needs clarity / Could have been written better	45	10.5	<ul style="list-style-type: none"> - <i>I agree with that vision. The devil will be in the detail, which hasn't been put on the table yet...</i> - <i>This vision is empty, it's completely generic. A vision should set a clear idea of what to expect.</i> - <i>It's very wishy washy and like a sales pamphlet.</i>
Vision needs to be implemented	40	9.3	<ul style="list-style-type: none"> - <i>By following it up with real actions</i> - <i>Stop creating pointless and expensive 'Visions'; just get on with sorting the issues out.</i> - <i>The vision is wonderful, just make sure you abide by it / live up to it!</i>
Concerns around the ordering of visions / objectives	24	5.6	<ul style="list-style-type: none"> - <i>Priorities are wrong - Start focussing on what really matters to existing residents and stop trying to win votes.</i> - <i>Environmental issues need to be at the top of the vision. They affect our health and wellbeing and increasingly our survival.</i> - <i>The ordering seems to be wrong. Climate change has to be first. Empowerment and social integration through participation and connective social infrastructure seems to be missing. Local food production seems to be missing. There doesn't seem to be any mention of high quality design for the long term. Data gathering and digital infrastructure seems to be missing.</i>
Listen / Consult more with local residents	24	5.6	<ul style="list-style-type: none"> - <i>Create citizen's assemblies for Cardiff residents to make informed choices together about the objectives and how they can be delivered. This also insures your perspectives are diverse.</i> - <i>Let the people of the city have a vote on the plan</i>
Affordable sustainable housing/equality and diversity	23	5.4	<ul style="list-style-type: none"> - <i>I don't understand this obsession with building more houses that people cannot afford.</i> - <i>By avoiding the building of more homes. We need to stop landlords buying all the new build houses and actually allow first time. Users to buy affordable housing.</i>
Support for Education/ Tourism & culture/our heritage/Leisure and recreation	21	4.9	<ul style="list-style-type: none"> - <i>Less focus on new housing. Schools must be priority, having major impact on young people</i> - <i>Focus on history assets</i>

Vision is positive	18	4.2	<ul style="list-style-type: none"> - <i>These points are all agreeable.</i> - <i>The plan as it stands looks to be very good.</i>
Create jobs	14	3.3	<ul style="list-style-type: none"> - <i>I think the need for new homes is secondary to jobs and infrastructure - I don't think Cardiff needs more inhabitants at this point in time</i> - <i>Jobs, Infrastructure, environment yes - more houses NO, unless on brown field sites, but then that costs the developers more to clear!!</i>
Wales wide approach	8	1.9	<ul style="list-style-type: none"> - <i>I worry about the expanding nature of the capital to the detriment of other south wales areas. We need a wales wide cohesive approach</i>
Improved Active Travel Infrastructure	6	1.4	<ul style="list-style-type: none"> - <i>Cardiff desperately needs safe cycle routes, painted lines on a road are NOT safe!!!! they need to be separated from cars and pedestrians</i>
Help city centre business/networks	4	0.9	<ul style="list-style-type: none"> - <i>Help city centre businesses, do not make it difficult for people to visit the city centre by increasing parking fees and introducing congestion charges. This will encourage people to continue to purchase on line.</i>
Waste Management Issues	3	0.7	<ul style="list-style-type: none"> - <i>Improved recycling, e.g. more bottle banks as these are more efficient for glass and recycling bins in all parks as well as adequate bins for dog waste and general rubbish that are seagull safe!</i>
Misc.	75	17.5	<ul style="list-style-type: none"> - <i>Stronger controls on development.</i> - <i>Seek to actively improve the experience for all inhabitants now and not only the future beneficiaries.</i> - <i>More cultural mix across the whole city. People living, working and socialising more often together by providing more hang-out spaces and co-working etc.</i> - <i>How about making Cardiff a dynamic, outward-looking centre for innovation looking to establish creative connections with partners around the world.</i>
Total	428	-	-

Appendix 27 – Breakdown of Results for “Please rank the draft plan objectives in order of importance” by Demographic Groups

The following charts show ranking of the top three responses for each objective listed in the survey. The order matches that for overall responses overall, so differences of opinion by demographic group .are clearer

Appendix 28 – Would You Add Any Other Objectives?

Theme	No	%	Example comments
Greener city	27	13.0	<ul style="list-style-type: none"> - <i>Moving around the city in a sustainable way</i> - <i>Biodiversity should be key</i> - <i>Creating a more beautiful and less generic looking city.</i>
Improved Transport infrastructure- roads/public transport/accessibility	27	13.0	<ul style="list-style-type: none"> - <i>Should not be any new homes until infrastructure has been put in place to cope with the 10,000 that have been built in last 8 years</i> - <i>The more equal city mentioned in the Vision is not in the Objectives I've noticed. Why's that?</i> - <i>Transport, transport, transport. The Metro plan must be front and centre of the LDP. All new developments must be Metro-centred, not built without consideration with a bus service added as an afterthought to an already congested roads. Public transport must be fast, clean, reliable, 24hr, cheap, safe. And make the developers pay for it.</i>
Question concerns / Queries	22	10.6	<ul style="list-style-type: none"> - <i>Again, ranking these is difficult. They all have to work well and together to achieve the vision.</i> - <i>I've no idea what Blue infrastructure means</i> - <i>These are a list of aspirations NOT reality! The net is far too wide and as a result, little will get done!</i>
Improve/repurpose existing facilities and buildings	19	9.1	<ul style="list-style-type: none"> - <i>Encourage small businesses and start-ups to exist in disused buildings - they can offer innovation, a uniqueness and sense community pride as well as economic growth.</i> - <i>Using what we have better</i>
Key services -Education/ Health/ Police/ Tourism/ Leisure	16	7.7	<ul style="list-style-type: none"> - <i>New schools</i> - <i>Local sports/play facilities for children and young people. Development of community centres for local communities</i>
More community engagement / listen to people in the communities	14	6.7	<ul style="list-style-type: none"> - <i>Listen to communities.</i> - <i>Giving more weight to the concerted views of local communities in any planning decisions that impact them.</i>
ASB / Safety Issues	12	5.8	<ul style="list-style-type: none"> - <i>Make me feel safe as a woman walking around alone at night. Deal with crime to keep people safe specifically drug related activity</i>

			- 1) Improve Law and Order by correctly funding the Police to enable more active policing of our cities. (2) Tackle anti-social behaviours with ZERO TOLERANCE; (3) Tackle racial and other hate crimes with ZERO TOLERANCE.
Affordability/invest in poorer areas	9	4.3	- Not just building homes, but to make these affordable to those who work extremely hard in lower paid job roles, as a priority over those on benefits.
Waste Management	8	3.8	- Keep the place clean, the whole city is littered and filthy
Active travel	7	3.4	- Investing into sustainable travel modes especially walking and cycling
Child friendly city	7	3.4	- Child friendly city - access to local playground from any neighbourhood. Support outdoor learning in schools.
Less growth / More sustainability	7	3.4	- Change the focus on growth. Cardiff does not need to keep growing. That is not sustainable. Change the option to say 'Provision of new infrastructure that makes Cardiff sustainable'
Support small business not large companies	4	1.9	- Support local enterprise and voluntary sector initiatives above large corporate business. Make Cardiff the Creative Capital of Europe.
Protect Cardiff's Character / Make Cardiff Unique	4	1.9	- Protect Cardiff's unique character
Arts and Culture	4	1.9	- Support the Music City initiatives and the arts in general.
Misc.	39	18.8	- When promised section 106 payments from developers, make sure you get all the money! - Improve local planning laws to prevent large companies with money always winning and getting their way. - Reduce council tax - Future proof for the next 100 years
Total	208	-	-

Appendix 29 – Do You Have Any Other Comments?

Theme	No	%	Example comments
Protect Green Spaces / Address Climate Emergency	48	17.5	<ul style="list-style-type: none"> - Address the climate emergency and stop destroying green spaces - Protect our green spaces and heritage. Cardiff is in danger of being destroyed by developers. - Cut out the obsession with building on greenfield sites - We need to be serious about tackling climate change. It is important that short term gain does not take priority over long term solutions.
Survey Concerns / Consultation will be ignored	32	11.6	<ul style="list-style-type: none"> - It makes little difference what is said as you do as you like anyway - Not really sure why you have bothered to ask as Cardiff Council will already have done deals with developers! - I realise my completing this questionnaire is a pointless and you will do what you want anyway. I do wonder why you bother to seek public opinion and then ignore it. Just more "box ticking" Sadly.
Planning concerns	28	10.2	<ul style="list-style-type: none"> - I would like to see more powers of objectivity in the planning department. They need better controls over quality and design of new builds to protect the city's skyline. - Do not make Cardiff look like every other city with too many ugly high rise buildings. - Stop allowing developers to build all this poor quality student accommodation. It's a disgrace to the city centre. Raise standards in building design
More community engagement / listen to people in the communities	26	9.5	<ul style="list-style-type: none"> - Please listen to the residents who have to live and cope with some of the ridiculous plans you have for the city. We have to live here! - This is a very important plan but whatever comes of it can only succeed if the residents feel that their voices are heard and their opinions are being taken on board. Too often people complain that the Council will bash ahead with whatever they want to do without listening to the public.
Improve Public Transport Infrastructure	19	6.9	<ul style="list-style-type: none"> - Introduce a city wide tram system - 24 hour frequent and more extensive free public transport with more park and rides on outskirts of

			<i>city - but car routes MUST be kept open as not all can access buses etc. and until it is 24 hour and more routes.</i>
Stop Building	18	6.5	<ul style="list-style-type: none"> - <i>Yep Cardiff is big enough let's stop building!</i> - <i>Cardiff council seem to be intent on destroying the individuality of the city and obsessed with building. They have already admitted they will not need so many houses and yet they will no doubt allow the developers to build more and more executive homes. It is too late to rescue the city centre but the suburbs can still be saved. Start thinking outside the box</i>
More / Improved / Retain Community Amenities / Services	17	6.2	<ul style="list-style-type: none"> - <i>Lots of new housing estates have already been built i.e. St Edyrns, Radyr with promises of new schools but this HAS NOT happened. If planning is granted for new estates with provisions for builders to build schools they should be accountable for making sure school is built quickly</i> - <i>Sports access and availability crucial and making it free for young people/ families. Better cycle routes and safety to use this. Swimming pools crucial for children and tackle obesity</i>
Cars	17	6.2	<ul style="list-style-type: none"> - <i>Stop being such an anti-car government. Electric cars are here and green, we need good reliable road networks to keep the country moving otherwise we are going to move backwards not forwards</i> - <i>The city centre will become a no go zone for the majority of citizens who chose to drive. Post pandemic increasing numbers of citizens are avoiding public transport in favour of their car!</i>
Improved Transport Infrastructure	14	5.1	<ul style="list-style-type: none"> - <i>Improve the provision of transport infrastructure and improve the environment for locals before agreeing and bowing to developers demands which are basically coming to Town to make a lot of money so remember who are the public servants!!!</i> - <i>Park and Ride hubs just off the motorway, with charging points and regular, high speed electric vehicle service into the city centre is key to reducing pollution. It'll also reduce congestion for the residents of these areas. A new dual carriageway joining the A48 from the East to Cardiff Bay would improve traffic flow through the area.</i>
Developers to contribute to the community	12	4.4	<ul style="list-style-type: none"> - <i>I want Cardiff's LDP to work for the people of Cardiff, not the developers. I want phasing of developments to create whole new communities with working</i>

			<p><i>infrastructure and transport, not build the most valuable houses first. I want a Community Infrastructure Levy that benefits affected communities. I want communities consulted about S106 agreements.</i></p> <ul style="list-style-type: none"> - <i>the Council does not have a good track record of providing necessary infrastructure to support housing development. Developments have and continue to take place in the absence of new provision of transport links, schools and healthcare services. Increased traffic pressure on existing roads has worsened, rather than improved the local environment. An ill-judged attempt to withdraw local bus services was overturned in the light of local protests. In the light of these issues, the Council must do much more to engender trust if it wishes to secure support for further housing development</i>
Active Travel	12	4.4	<ul style="list-style-type: none"> - <i>I love our city it's a beautiful place to live please focus on cycling and walking and our green spaces that make it so wonderful to live</i> - <i>Stop wasting tax payer's money on hardly used cycle lanes. Stop this assault against the city with this nonsense utopia about cycling</i>
Look at other Models / Suggestions	10	3.6	<ul style="list-style-type: none"> - <i>See the ArchDaily website (www.archdaily.com, or follow on Facebook) for plenty of ideas on developing sustainable and liveable cities of the future.</i> - <i>Follow the Preston Model</i>
Growth unsustainable	7	2.5	<ul style="list-style-type: none"> - <i>Growth is often seen as an inevitable consequence of wanting to be better. I think I that making Cardiff the best it can be is more important than making Cardiff the biggest it can be.</i>
Green Infrastructure	6	2.2	<ul style="list-style-type: none"> - <i>Please do not dismiss the EV revolution that has begun. Road infrastructure and road journeys will always be the most important whatever the council's views and wishes are.</i>
Waste Management Issues	6	2.2	<ul style="list-style-type: none"> - <i>Help communities with rubbish collection disposing of waste. Community skips please. More accessibility of being able to speak to an actual person at the Council.</i>
Living Standards	4	1.5	<ul style="list-style-type: none"> - <i>I feel so strongly about building more housing that will be homes for life. Space indoors and outdoors, light, convenient and safe for all age groups.</i>

Jobs / Economy	3	1.1	- <i>Stop the destruction of the green sites around the outside of the city. Jobs growth should come before housing growth.</i>
Affordable Housing	3	1.1	- <i>A great deal of focus is often based on those on benefits, but those working in low paid jobs are forgotten - no access to social housing since these people help themselves and get work, with higher rent costs throughout the city and inability to purchase their own homes. There is little to no hope of progressing to owning their own homes, since the cost of the supposed affordable housing is still astronomical compared to lower paid job wages. The work that these people do, is invariably be much harder than higher paid job roles; often with thankless duties, in jobs few wish to undertake, but are essential to the infrastructure to any environment e.g. cleaners/carers & support workers/teaching assistances etc. This needs to be addressed so hope is given to those who will perhaps not progress to higher wage earnings.</i>
Health Concerns	2	0.7	- <i>Adamsdown and Splott have air pollution that is slowly killing children.</i>
Misc.	82	29.8	- <i>I would like proof my comments actually get read and considered</i> - <i>Get it right this time and employ a better level of expertise to make sure that happens!</i> - <i>Good luck!</i> - <i>Thanks for giving us an opportunity to voice our opinions.</i> - <i>Please use our council tax wisely</i>

Appendix 3 Part 2: Summary of Comments Received

Introduction

A total of 83 representations to the consultation were submitted to the LDP Inbox. The comments raised in these representations are summarised below against a number of themes. These were submitted by members of the public, Councillors, Senedd Members, land owners and the following organisations:

- ABP
- Cardiff and the Vale University Health Board
- Cardiff Conservatives
- Cardiff Cycle City
- Cardiff Cycling Campaign
- Cardiff Friends of the Earth
- Cardiff Green New Deal
- Cardiff Civic Society
- Climate Cymru
- Coal Authority
- CO-Hydro
- Glamorgan Gwent Archaeological Trust
- Gwent Wildlife Trust
- Liberal Democrats Cardiff
- Lisvane Community Council
- Llandaff Society
- Mineral Products Association
- Museums Wales
- Nant Fawr
- NE Cardiff Group
- Radyr Morganstown Association
- Radyr Morganstown Community Council
- South Wales Police
- St Fagans Community Council
- Watkin Jones Group
- Whitchurch Arts Library
- Whitchurch Tennis Club
- XR Cardiff

Theme - Draft Vision

- *Include a reference to **health** in the opening statement.*
- *'To create a fairer, healthier and more sustainable city'. Add moving around by **healthier** travel means.*
- *Add looking after the health of current populations as well as future.*
- *Support the vision to work closely with local communities to improve neighbourhoods from the outset.*
- *Add "more liveable" to "fairer and more sustainable" to the headline statement.*
- *Add "within a thriving region" after "city" in the headline statement.*
- *Remove "urgent" from the first bullet point.*
- *Replace "challenges of climate change" in the second bullet point with "climate and nature emergencies".*
- *Reorder so that the second bullet point comes first so reads:*

To create a fairer, more liveable and more sustainable city within a thriving region, by:

 - *Positively tackling the challenges of climate change climate and nature emergencies, and post-pandemic recovery;*
 - *Responding to urgent future expected needs for new homes, jobs and infrastructure;*
 - *Creating a greener, more equal and healthier city which is easier to move around and enhances the wellbeing of future generations;*
 - *Using a placemaking approach, working with local communities to improve neighbourhoods and deliver high quality design;*
 - *Looking after our natural, historic and cultural assets.*
- *Strongly support the vision, particularly easier to move around the city, including keeping traffic flows moving.*
- *Commendable ambition but requires more detail to be seen as credible Climate or ecological impacts fall down the order of priorities.*
- *Need to go much further in establishing a well-being economy which puts the climate and ecological emergency at the centre of decision making, which is backed up by a planning system geared up to do this.*
- *Huge amount of commendable ambition broadly stated within the visioning document which we support but it lacks detail.*

- *Agree with and support the draft vision set out by the Replacement LDP Consultation. Want to see a fairer, greener, healthier city in which ordinary people and communities have influence and power over shaping the future of their communities and city.*
- *Should set out a commitment and ambition to be a city **‘that does no harm’ rather than does little harm.***
- *Suggest adding a sixth bullet point: **‘Adopting a flexible approach that allows response and adjustment to changing circumstances.***
- *Planning rules need to be tightened so there is no wriggle room. Current rules to protect trees, green spaces and to promote affordable housing are too weak LDP vision gives no certainty this will be addressed. Need a new approach away from the current emphasis on high rises and facilities only accessible by car.*
- *Need a vision for a city which is proud to be a small liveable city, where historic buildings are protected and maintained.*
- *The vision of how Cardiff could function in 20 years’ time has to be a (relatively) traffic free (large) centre with streets taken over by the hospitality industry with transport heavily dominated by trams and ev taxis/ unscheduled small bus services. If we try to return to the status quo it will make this change more difficult. It’s time for a serious VISION, the current council statements are still dominated by yesterday’s thinking.*
- *Object to the Draft Vision and Objectives document, on the following ground :-*

Failure to address the environmental issue of the need for the protection and enhancement of the Wentloog Levels SSSI, and the need for a full SINC and brownfield survey from the point of view of the biodiversity value of Cardiff in pursuit of the formulation of the RLDP.

The deficient manner in which housing and demography are addressed in the document.

The failure to formulate the document in a manner which is in conformity with the requirements of the Welsh Government’s Development Plans Manual 2020.
- *Vision and objectives do not set out how the RLDP will address the “wicked” issues associated with delivering a sustainable city. The vision is more one of “motherhood and apple pie”, and could have been written about any medium-sized city in the UK. A further example of this is the matrices set out in appendices. They do not highlight any potential conflicts to be avoided through plan formulation in a manner in conformity with the Wellbeing of Future Generations (Wales) Act 2015, five Ways of Working.*
- *The local planning authority is reminded that paragraph 5.11 of the Development Plans Manual, in reference to setting a vision for the RLDP, states that :-*
 - ***“the vision should articulate how places are planned to be protected”***

In failing to set out the required very strong protective policy context, (ie that of ascribing an absolute constraint on development in all but wholly exceptional

circumstances in or otherwise affecting the SSSI), the local planning authority is not acting in conformity with this requirement.

- *Furthermore, paragraph 5.11 states that the vision should :-*

- ***“be consistent with Area Statements”***

5.1.4 The document makes no reference whatsoever to the Area Statement which includes Cardiff, and for this reason we object to it.

- *5.1.5 Additionally, paragraph 5.11 states that the vision should be :-*

- ***“based on a clear understanding of the ... environmental issues”*** and that :-
- ***“focussed statements which seek to address the main environmental issues identified in the area”*** should be included in the objectives.

The document contains no reference whatsoever to one of the major environmental issues, viz the continued destruction of the Wentloog Levels SSSI by inter alia sites allocated in previous generations of development plans in Cardiff. Neither does it make any statements committing itself to ascribing an absolute constraint on developments on/affecting the SSSI, merely restricting itself to the question on page 28 :-

“what measures need to be put in place to protect and enhance biodiversity?”

This statement is so anodyne that, in the context of the requirements of the Development Plans Manual, it is meaningless.

- *The consultation document proposes a suite of 5 planning pillars under the goal of creating a fairer and more sustainable city – this is not a place based vision but a series of statements that would apply to most locations in the UK.*
- *There is a lack of reference to existing Council visions and ambitions and how these have informed the LDP Vision.*
- *LDP Vision fails to demonstrate how it flows from the Council’s overall priorities and does not clearly express a well-crafted vision for the LDP.*
- *Vision needs to set out an aspirational place based socio-economic and environmental vision for growth and change in the built environment.*
- *The use of the word ‘urgent’ in ‘Responding to the urgent future needs for new homes, jobs and infrastructure’ implies a key temporal issues in respect of housing land supply, not just over the plan period as a whole but immediately.*
- *Sustainability needs to be at the top of the Council’s priority list.*
- *Take a more realistic view of population growth. Figures for existing LDP grossly inaccurate. Greenfield sites which have not yet received planning permission should be released and development focused on brownfield.*
- *The Vision reflect ‘business as usual’ with a few politically correct ‘add-ons’.*

- *The Vision Statement could refer to any city and needs to be improved and re-ordered to provide a context for a radically new spatial strategy. Suggest the following amendments:*
 - *To create a fairer and more sustainable city **Cardiff** by:*
 - *positively tackling climate change and post-pandemic recovery;*
 - *creating a greener, more equal and healthier city, easier to move around and*
 - *enhancing well-being;*
 - *using place-making, working with local communities to improve - **and increase the range of - local facilities, create 20 minute** neighbourhoods, and to deliver high*
 - *quality design;*
 - *looking after the city's natural, historic and cultural assets; and*
 - *responding to ~~urgent~~ **future** needs for homes, jobs and infrastructure.*
- *Support the recognition of the need for new homes, jobs and infrastructure.*
- *A creative focus through the development of a cultural strategy should be added to this vision and objectives. Cardiff is unusual in lacking a strong strategy for culture and creativity.*
- *The vision should be redrafted to be more engaging and statement of what the actual outcome will be.*
- *What does 'creating a fairer' City actually mean in relation to land use planning?*
- *Suggest that '**resilience**' should be embodied in the Vision.*
- *The Vision could be anywhere – it does not reflect the nature and character of Cardiff – we need a vision that feels like one that Cardiff citizens recognize.*
- *Welcome aim of fairer and more sustainable city – in particular the placemaking approach.*
- *Support concept of a 15 min city. Look forward to working with the Council with immediate effect.*
- *Would like the Vision to include aim of making Cardiff a vibrant city.*
- *Support reference to protecting natural, historic and cultural assets.*
- *Encourage Council to demand high quality design. Some poor buildings have been granted in the past.*
- *Vision should include defending Cardiff's role as location for new key national developments.*
- *Broadly support the Draft Vision – but many of residents' concerns can only be addressed in the final LDP.*

- Welcome aim to create a 'greener, more equal and healthier city' – this would be realised by improving links to the city centre.
- Public transport links need to be inclusive and accessible in nature.
- Environmental impact of the construction process and fully occupied developments should be assessed.
- Welcome the placemaking approach, but the Council must ensure commitments made by developers are actually delivered.

Theme - Draft Objectives

- *Suggest rewording and re ordering of the objectives as follows:*

1) *Responding to our expected needs*

Objective 1: Provide more good value suitable homes in the right places, to address the expected housing needs of Cardiff's diverse population

Objective 2: Provide more good jobs and optimise Cardiff's role as an economic driver of South East Wales, to improve the prosperity of the region.

Objective 3: Ensure the adequate and timely provision of new infrastructure, to support communities and expected growth

2) *Creating a more sustainable and healthier city which enhances the wellbeing of future generations*
Objective 5: Make the city easier to move around with a focus on sustainable and active travel
Objective 6: Create healthier environments, reduce inequalities and enhance wellbeing

Objective 7: Support a vibrant mixed-use City Centre, within a City of Villages with thriving district and local centres at their heart, and optimise Cardiff Bay's potential to provide core destinations for Cardiff and beyond

Objective 8: Ensure that the city positively adapts to the new challenges posed by the implications of the pandemic

Objective 9: Engage communities in participative placemaking to create sustainable places, improve neighbourhoods, optimise regeneration, enhance public spaces, effectively manage growth, and deliver developments of high quality design

3) *Looking after natural environment and our historic and cultural assets*

Objective 4: Respond to the climate emergency so Cardiff becomes a more resilient, carbon neutral city, and optimises opportunities for energy-efficient solutions

Objective 10: Respond to the nature emergency by protecting and enhancing Cardiff's Green and Blue Infrastructure, its biodiversity and other natural assets

Objective 11: Protect and enhance Cardiff's historic and cultural assets for community benefit together with supporting sustainable tourism and cultural sectors

- *Broadly agree with the objectives set out but an objective about making the planning system itself easier for people to understand, and to participate in, would be a valuable addition.*
- *Positively tackling climate change and post-pandemic recovery' should be at the forefront, followed by 'Creating a greener, more equal and healthier city, easier to move around and enhancing well-being.' Development must fit to these priorities, not the other way around as has happened in the past.*
- *Prioritise provision of new infrastructure, moving around the city, and supporting the role of the City Centre and Cardiff Bay.*
- *The objectives are also too vague – they should describe which urban places most need jobs and houses – we need Cardiff specific objectives.*
- *Support the council's vision to provide more dwellings within the council. We support the identified need for new homes and an increased target, which should be met through a combination of delivering the land bank in addition to new viable and deliverable sites that will be put forward through the Candidate Site Process.*
- *Amend –“Objective 1: Provide more homes to address future housing **needs and support economic growth in Cardiff and the wider region.**”*
- *Objective 1 should include ‘**current and future need**’.*
- *The Council should be exploring more than just the plausibility of the latest trend based projections and whether they can be assessed as a sound basis for policy formulation for the Cardiff Capital Region given the city's fundamental role in the future of SE Wales and Wales as a whole.*
- *The trend based projections need to be evaluated for a policy-on perspective to assess whether planning for trends delivers suitable outcomes. Housing supply and economic growth have a close relationship and PPW advises that household projections are only a starting point for the assessment of housing requirements.*
- *The 2018 household projections are ‘plausible’ in the sense they have been quality assured. Projections are trend based and the outputs are neutral of any policy considerations. Trends in population growth feed household projections and demographic change is strongly linked to housing provision. Where housing delivery has been suppressed this will feed the trends to inform projections. 2014 based household projections still form the basis from which to assess housing needs in combination with an affordability factor for each LPA reflecting a recognition that housebuilding has systematically been lower than needed ‘policy-on’ approach to housing.*
- *Due consideration must be given to the link between homes and jobs when developing the evidence base. This is fundamental to ensure that the level of housing provision does not undermine the realisation of economic ambitions. Cardiff is identified as part of a wider ‘National Growth Area’ in Future Wales, which provides the main focus for growth and investment in the South East region. Future Wales also recognises the*

importance of supporting Cardiff's status as an internationally competitive city and a core city in the UK stage. Delivering sufficient levels of housing will play an important role in achieving these ambitions.

- *It is important that the Replacement LDP continues to support the phased delivery of the strategic allocations identified in the adopted plan. By their nature and scale, such sites are delivered on a phased basis over a number of years – often crossing plan periods. The Replacement LDP must ensure that the current landbank of sites is realised and the trend of a greater diversity of housing is continued.*
- *Objective 1: Providing a range and diverse mix of homes is appropriate.*
- *It is premature to say that there should be a preference for 'Brownfield First.'*
- *A fall in delivery rates up to 2018 is noted – this lends itself to allocation of more modest sites. To reduce delay – sites should be allocated rather than rely on windfalls.*
- *Objective 2: Good to see that employment objective is routed in need in terms of sector and location. Due to COVID-19 it is important to reflect/reset to ensure what we need in the right locations. Some of the protection policies in the City Centre/Bay Business areas require re-validation.*
- *Objective 3: the programming of infrastructure is a fundamental issues that needs exploring. A clear set of infrastructure actions aligned to the spatial strategy is required. Existing/upgraded and new community facilities should be part of the placemaking process to inform the spatial strategy.*
- *Objective 5: The programming of infrastructure should be woven into the LDP – important for growth of the city and wider region. Need to address the 80,000 car journeys into Cardiff.*
- *Objective 5 add **healthy** travel opportunities.*
- *Objective 6 '**create healthier environments, reduce inequalities and improve and enhance wellbeing**'.*
- *Objective 7: Close scrutiny is required to ensure that strategies and policies are tested.*
- *The tone and intent of the objective is welcomed but this should not turn into protectionist policies.*
- *No reference to the Council's wider ambition to be a child friendly city particularly in Objectives 6 and 8.*
- *Objective 8 – Ensure that the city positively adapts to the new challenges posed by the implications of the pandemic – post pandemic themes cannot justify a separate Objective. Where there may be a post pandemic response to other topics/objectives, this should be set out in relation to those other topics/objectives. Delete Objective 8.*
- *Objective 9: As this key objective will be woven throughout the Plan should it not be in the Vision? High density mixed use development will not be possible in every instance.*

- *Objective 10: At the next stage of Plan consultation it is important for context and evidence for any Green Wedge designation. The matter of a Green Wedge should be considered in parallel to the Green Belt (NDF Policy 34).*
- *Objective 10: A key issue for the plan to address should be – can the city expand further into the countryside and if so, where are the more sustainable locations in landscape and other terms.*
- *Helpful to incorporate additional wording that also safeguards mineral infrastructure to accord with PPW11. All existing and potential new wharves and railheads should be identified for safeguarding within the LDP, to provide a full range of sustainable transport options (whether or not they are currently utilised).*
- *A revision to the extent of the Green Wedge would be justified if development would aid the achievement of the growth vision for Cardiff. The issue refers to the word 'form' and this requires further explanation for consultees to be able to comment. There is no reference to Green Belt in the consultation document - a tacit acknowledgement that Cardiff cannot unilaterally identify Green Belt boundaries outside the SDP process.*

Theme - New Houses and Homes

- *Need to review the future viability of developing strategic sites C, D and E reductions to these greenfield sites should be prioritised.*
- *Developers must include affordable housing in their developments, and Cardiff Council must implement its own policies to curb the activities of developers. The new LDP can address this inequality.*
- *The objective of 'more housing' does not address the fact that affordable and good quality housing is what is needed - the rental sector at the moment is heavily weighted in favour of landlords and letting agents, who are sometimes demanding a year's rent up front (in addition to rising rents and poorly maintained, damp, mouldy housing stock). Cardiff should have a much more ambitious vision for dealing with these issues, for example rent caps could be introduced.*
- *Needs to be a balance between building new homes and the infrastructure to support them.*
- *Need early consultation with the UHB for health care planning on planned population growth. Consultation needs to continue through to pre planning and planning application submission.*
- *Prioritise brownfield sites to enable use of existing infrastructure.*
- *Denser development which reduces the need for car use and can improve local community facilities and the use of local services. As population age's higher density walkable neighbourhood are important for independent living and healthier communities.*

- *The predicted noticeable increase in the over 65s and particularly the over 85s population will have an impact upon the health and social services. Need for lifetime homes and neighbourhood that support healthy travel and walking, with green spaces.*
- *Failure to curb developer greed, need to stop developers getting away without providing affordable housing.*
- *New homes need not always mean new builds. Far more could be done to release existing stock and to encourage conversions. This would have several advantages, including lower demand for land, reduced climate and ecological damage, and use of existing transport and other infrastructure.*
- *Conversion of larger properties subject to design and space standards, or conversion of commercial spaces.*
- *RLDP should promote good quality upgrading and reuse of existing properties as a policy priority rather than new build.*
- *Liveability of residential units that meet needs rather than just quantitate.*
- *Land within the city used for parking at out/edge of-town retail or office locations, or for car showrooms such as those along Penarth Road could via Planning and local taxation policies, plus compulsory purchase if necessary, could free up such sites for new homes, easing pressure on Greenfield sites.*
- *Greenfield should be seen as a last resort when other options have been exhausted. Council should use regulatory, tax and compulsory purchase powers that it already has to pursue this goal, and lobby Welsh Government for legislative change, within the devolved agenda, where necessary. We are now at a point where we cannot afford to lose more green land.*
- *In terms of growth the focus should be on jobs backed up by proper transport infrastructure. Need to work with neighbouring LDPS and SDPs.*
- *Growth should focus on brownfield recognising that there has already been a substantial greenfield release in the current LDP.*
- *Priorities for new homes should be in neighbourhoods with amenities, travel options, energy efficient and affordable to run.*
- *Consider houses that are physically and digitally secure.*
- *Cardiff's projected growth was hugely inflated in the previous LDP likely in part to a failure to engage.*
- *Question the make-up of the Citizens panel for consulting on the Cardiff Housing Market Assessment.*
- *Support the provision of necessary housing growth informed by Local Housing Market Assessments. Need to support the provision of suitable accommodation, including 1 and 2 bedroom properties to address stagnation of household formation and potential increase in the number of households facing homelessness as a result of the*

pandemic. As well as affordable housing need to make provision for a significant increase in social homes for rent, maximising s106 contributions. Need to be able to hold developers to account for their community contributions.

- *Need to make reference to safe homes in terms of fire safety and the accessibility of housing stock beyond the mention of lifetime homes.*
- *Whilst some greenfield housing may be necessary need to draw clearer distinction's where sites are of significant environmental value or in areas at risk of flooding, provide natural sinks or access to green spaces for residents including areas like Whitchurch and Tongwynlais where there will be significant greenfield building and worsening flooding.*
- *Urgent need to boost the supply of market and affordable homes for people to live and to support economic recovery, resilience and growth.*
- *The need for new homes should be assessed using an aspirational, forward-looking approach that takes account of the role of Cardiff as a key driver of growth in the South East Wales region and in Wales as a whole and as a UK Core City, as identified in Future Wales.*
- *Provision of a sufficient supply of high quality housing will be crucial in order for Cardiff to achieve its potential in relation to these national policy designations, in order to support a suitably sized workforce and to attract and retain young and highly skilled workers to drive innovation and prosperity.*
- *The assessment does not place undue emphasis on the results of the latest Welsh Government household projections. The need to support a more balanced population age structure is recognised in Future Wales, which states that there is a need to "think about how we will retain and attract young people to all parts of Wales". This is absolutely vital in order to sustain services as well as providing the needed labour force to support economic growth.*
- *The old-age dependency ratio is also expected to increase in Cardiff from 21.3% in 2020 to 26.0% in 2036. Unless this issue is addressed, Cardiff, along with the rest of Wales, will be faced with increasingly stretched social care budgets and a proportionately shrinking workforce to fund essential public services and drive the regional economy. This outcome would clearly be out-of-sync with the emerging LDP Vision for Cardiff, its role identified in Future Wales and the aims of the Cardiff Capital Region City Deal.*
- *The emerging LDP should provide policies promoting prosperity and wellbeing through alignment with positive economic and social objectives, including those within the Cardiff Capital Region City Deal. In particular, there is a need to attract and retain younger people and workers in order to boost the economy, provide skilled jobs and improve productivity. Furthermore, the focus on universities in Future Wales should also be reflected in the aim to retain graduates and skilled workers more generally, and particularly in Cardiff.*

- *Larger, greenfield developments can play a particularly important role in the delivery of affordable housing and are often able to provide a higher level of affordable housing than brownfield sites due to less on-site constraints such as contamination.*
- *The difficulties in bringing forward development in Cardiff at pace prior to the recent uptick emphasises the importance of making available a sufficient land supply in order to provide multiple routes for development to come forward.*
- *Endorse the recognition that further sites will be needed in order to meet future need. With the allocated strategic sites in the adopted LDP now beginning to deliver at pace, there will soon be a need to start bringing forward new allocations to meet future need, taking into account the lead times for commencing development the emerging housing requirement for the Replacement LDP should take into account: 1 The need to attract and retain a suitably sized workforce to align with national, regional and local economic aspirations for Cardiff, including its role in the wider region and the UK and to support the Cardiff Capital Region City Deal; 2 The need to boost delivery of both market and affordable housing; and, 3 The need to attract and retain young people to balance the age profile of the population and address old age dependency ratios.*
- *Cardiff must not continue to chase a vision if it is clear that current problems are not being resolved.*
- *Affordable housing must be a priority if Cardiff is to solve its homeless problem.*
- *Purpose built student accommodation (PBSA). Policies should not seek to prioritise conventional housing over– this stock plays a significant role in freeing up traditional stock in the market for other households – policies should reflect this.*
- *No mention of Build to rent or co-living tenures – need to recognise the benefits and plan for their use.*
- *Ensure that any figures on population and numbers of households predicted until 2036 are as accurate as possible and reviewed regularly.*
- *Question where the people to buy and live in the new strategic sites are... Houses already built and for sale across the city are vacant.*
- *Question whether Cardiff needs any more high rise buildings/flatted developments building on every available space to the detriment of the historic centre.*
- *Need to do more on affordable housing/Council needs to be more ambitious in its building and maintenance plans. Failure to secure affordable housing need to stand up to landowners and developers and deliver for the people.*
- *Need to stop allowing car based estates unless they have good public transport and active travel facilities in place and facilities are planned to be built with the houses.*
- *Development needs to be sustainable - This means eco homes wherever possible - ensuring o retrofitting in the future.*

- *It also means brown sites must be used and creative use of existing derelict buildings over the use of precious green space.*
- *Affordable housing: developers get away with building very little or no affordable housing. This needs addressing and leaves developers with the upper hand.*
- *Retro-fitting existing buildings meet Cardiff housing needs and improvements should be prioritised over new builds and developments.*
- *Development on greenfield sites must be avoided.*
- *Concerned about the way in which the document addresses the issues of housing and demography, because an unjustified level of pressure for housing would result in pressure to allocate land in environmentally damaging locations in Cardiff, including for example the Wentloog Levels SSSI.*
- *It is important to stress at the outset that, contrary to the impression given by the document, demography is not a policy-neutral factor in plan formulation. Cardiff appears to adhere to the theory of demographic agglomeration - that a higher level of population growth, far from being a challenge to the environmental fabric of the city, is actually a desired outcome. This is based on the contested and controversial theory that an artificially-inflated population will, of itself, drive economic development and thereby raise living standards for all. However, what Cardiff's RLDP plan formulators have failed to acknowledge is that neighbouring local authorities are also pursuing the same agenda. It is clearly not possible for Cardiff, Bristol Newport, Rhondda Cynon Taff and Blaenau Gwent for example to all increase their populations. Instead, we consider that the local planning authority should plan for a stable population.*
- *Object to statement that **"New homes... support the continued economic growth of the city"**. This is a reflection of the agglomeration theory of demography and housing, and should be removed from the document.*
- *ONS demographic projections are not predictions - they are based on a number of scenarios and assumptions. The document, in relying on the 2018 ONS/ Stats Wales projections, has failed to take into account two of the most important trends in demography in the UK emerging since 2018 - Brexit and the COVID-19 pandemic. Trend- based population projections from 2018 did not take account of very markedly falling numbers of in-migrants from the European Union as a result of Brexit. This trend is already manifesting itself. The COVID-19 pandemic has already resulted in a large move from urban to rural locations for housing, due to large and permanent increases in the levels in working from home, and this trend will continue and accelerate. The local planning authority is reminded that the Welsh Government has a long- term goal of 30% of workers working at or near home, as this will have a major impact on the population of Cardiff during the plan period.*
- *A very marked downturn in new births during the pandemic has also been observed, and the document fails to take this into consideration.*
- *The next ONS/States Wales projections will be published in 2022 therefore consider that no firm commitment can be given to levels of housing and employment land*

provision at this stage in plan formulation. It seems very likely that, given that Cardiff's previous population growth was based mainly on in-migration rather than natural growth, and given the above trends, Cardiff's growth will, in common with all other local authorities in Wales, be far lower than hitherto expected, and the local planning authority must make provision for this in the RLDP, and could even be below zero. Whilst reference is made to this in the document, the main body of the text does not reflect this phenomenon at all.

- *Clarification is required in respect of bullet point 1 of section three of the housing chapter, which states: - “**delivering current landbank of circa 25,000 homes**”. It is not clear whether this means housing sites with extant planning permission but not yet constructed, or all housing allocations in the current LDP which have not been built out. If the latter, object to this, because it is bad planning practice to “roll forward” old allocations from previous development plans, a practice which skews LDP housing calculations, and adds pressure for housing in unsustainable locations.*
- *Cardiff needs more housing to meet demand. There is a desperate need for more social housing and affordable private housing. Many residents in Cardiff live in overcrowded, inadequate conditions and pay rents which are barely affordable. The plan should ensure that the pace of building social housing increases and that the diversity of the social housing stock matches the wide range of needs of residents. We believe that more affordable private housing should also be built, by which we mean housing that can be both bought and rented at reduced market rates.*
- *Affordable Housing requirements /policy needs to be supported/ strengthened to combat inequality.*
- *Homes need to be truly sustainable requiring the proper consideration of the raw materials required to develop them and where these raw materials will be derived. The new homes must also be developed in locations which avoids sterilising mineral resources and infrastructure.*
- *Why continue to use every available space for more housing?*
- *Vital that as a city Cardiff meets the housing needs of our population, however infrastructure should be in place before houses are built.*
- *Affordable housing must be of high quality design.*
- *Development must be sustainable – eco homes wherever possible. The use of brownfield sites and use of derelict buildings over green space.*
- *Current greenfield development are primarily for executive homes in suburbs. Need to provide sufficient homes for young families and older people who wish to downsize without leaving their communities. Halt the proliferation of blocks of flats.*
- *The forecast for housing requirements to 2036 needs to be reduced to reflect the fragility of the economy, affordability, housing types and tenure and the impact of student housing and under-occupied dwellings on supply.*
- *Access to cultural venues should be an key part of planning new housing areas*

- *Improve access to cultural venues in local neighbourhoods and provide low cost spaces for people to use.*
- *Report that the need for housing was grossly exaggerated.*
- *Development in Cardiff has the appearance of being developer led.*
- *The design of new housing also needs to be reconsidered.*
- *Objective 3 refers to “future growth”. Why the obsession with growth, surely change is more appropriate?*
- *Bungalows, not high rise are especially needed for older people.*
- *Support need for Cardiff residents to have access to good housing at a range of prices.*
- *Hope that the large stock of existing land for housing will be taken account of – including impact of Brexit.*
- *Only 526 of 7,900 at Plasdwr have been built. Hope that the build rate will be taken into account and not allocate more land. We would object if land west of Pant Tawel lane was allocated for housing in the new LDP.*
- *Need to ensure proper drainage plans for housing sites.*
- *New housing sites should include adequate open spaces.*
- *Should provide for those in need of emergency housing – shelter for the homeless.*
- *The RMA would like to see robust and transparent evidence on any future housing needs/growth.*
- *There must be a recognition of the needs of working from home/hybrid working due to Covid-19.*
- *Cardiff’s role as a Capital City must not be at the detriment of the local residents. Need to see an improved efficiency of the highway network.*
- *Would like to see co-ordination between LDP’s across SE Wales region and analysis of data should look at the whole region not just Cardiff.*
- *The Ryan Family owns land at Henstaff Court in land identified for future expansion under Policy KP1 of the existing LDP. The land has previously been considered and found to be a sound addition in order to provide housing growth if needed. We support the Council’s desire to respond to urgent future need for new homes and Land at Henstaff Court is proposed to meet that need.*
- *The promotion of greenfield sites should be seen as a chance to provide for new homes across different locations.*
- *We question the reference to reduced growth assumptions – concerns for the implications on the LDP.*

- *With regard to low build rates – more homes will still be needed looking forward to 2035 – which highlights the need for deliverable sites.*
- *Allocating Henstaff Court for development would address the under provision of affordable family housing.*
- *The growth in population and reducing household size over the new Plan period will require additional housing sites to be found – we are keen to promote land at Henstaff Court for future growth in relation to Strategic Site D in the new LDP.*
- *Stronger LDP policies on HMOs for eg 10% limit with 50m locality, policy mandating enhanced sound proofing/cycle storage.*
- *Based on the geographical and environmental constraints surrounding the city, there are limited options for Cardiff's growth. North West Cardiff represents the logical area for the next phase of growth. This location for development links with and will support the development of the South Wales Metro corridor.*
- *Object to proposed development between Pontprennau and Lisvane.*
- *Recognise there are limits to the concentration of HMOs that are permitted, based on a 50m radius from the proposal. However flat conversions are not included in this calculation, despite having a similar impact in local communities. This anomaly should be addressed.*
- *Opportunity for land at Mynachdy to be a candidate site for the development of low-cost housing suitable for elderly people.*
- *There is also the problem highlighted recently by a Wales Online report that the need for housing was grossly exaggerated.*

Theme - New Jobs and Economy

- *Need to maximise the effectiveness of the City Centre Land Use and Floorspace Survey... Identifying space that is currently occupied or vacant would enable planning committee to better scrutinise future applications based on current and likely future demand.*
- *The Port represents a significant asset to Cardiff, facilitating economic development and many direct and indirect benefits arising from its operations.*
- *LDP needs to provide a more positive and flexible policy approach to the Port to enable the best and most effective use of the Port. A port-specific related policy that provides the direction of travel within the area while excluding the Port from the more general employment land protection policies.*
- *Non Port uses are possible at some locations, with land available to anchor new investments in communities.*

- *Need to broaden uses to include wider employment uses on port land not just port related uses. As well as industrial and logistical uses other uses such leisure, residential and mixed uses are possible.*
- *An important question for the RLDP is how land use policy could improve the quality, not just increase the quantity, of jobs within the city.*
- *Page 11 repeats the assumptions that have driven planning policy around jobs for many years: Cardiff is the economic driver of the city region; it has the fastest jobs growth of any UK core city; office space is in short supply; it has a well-qualified workforce but productivity lags other core cities with few HQ operations. These premises have provided the rationale for the “build it and they will come” approach to office construction in the Central and Bay Business Areas. City leaders have been keen on the advantages of agglomeration but less keen to acknowledge its disadvantages. A bigger city is viewed as inherently a better one.*

The Replacement LDP is a good time to review, rather than just repeat, these assumptions, particularly in the context of the climate and nature emergencies, post-pandemic challenges and rapid technological change.

- *RLDP should recognise the importance of employment at or close to where workers live. This offers potential benefits in reducing pressure on the environment and on transport networks.*
- *Growth should be placed on jobs – bringing businesses into the city.*
- *Priorities for workplaces of the future are city centre commercial and offices premises with a focus on public and active travel which could help protect older buildings where they merit retaining, jointly prioritise live work units and more remote/hybrid working, small employment hubs in accessible locations.*
- *Principle of facilitating the development of high value cluster of specialist sectors as part of creating long term employment opportunities should not be at the expense of indigenous business and operations. Investment and development should not price out established small businesses. No specific mention is made of those communities with largest populations of Black, Asian and Minority Ethnic communities, who experience disproportionate levels of unemployment and deprivation.*
- *Endorse draft Objective 2, which seeks to provide more jobs and recognises Cardiff’s key role as the economic driver of South East Wales. This policy objective should be linked with Objective 1 above in order to support a suitably sized workforce to drive increased prosperity.*
- *Cardiff’s economy is relatively small when compared to the other UK Core Cities, it has a lower representation in high tech sectors compared to the other Core City regions and productivity lags behind the Core City average. Its slow recovery following the 2008 recession has also shown that it is vulnerable to economic shocks. This indicates that the success of the region is not assured. In addition, Cardiff faces tough local competition for investment from its nearest Core City neighbour, Bristol, which ranks at the top of the Core Cities group on numerous metrics. Hence, it is vital that Cardiff is supported to grow and prosper.*

- *Emphasise the importance of planning for aspirational growth in Cardiff in order for the city to fulfil its potential as the economic driver of South East Wales. Hence, it is important to ensure that the labour force projections and econometric forecasts to be considered in the preparation of the emerging LDP are not constrained by past trends.*
- *Need a regional approach. Care needs to be taken before dedicating too much land to offices until there is greater understanding of the medium to long term impact of COVID-19. Developing remote working hubs, located in areas with good public transport and with potential for walking/cycling.*
- *Home working has risen but will recover, we need to work in teams for cross functional innovation. It might settle on a 3 or 4 day week at the desk though. Many jobs cannot be done at home, eg hospitality related and manufacturing, the focus on home working is a SE of England fixation.*
- *Prioritise the set-up and development of SMEs in Cardiff.*
- *When developing new employment sites, consideration of the raw materials required to develop them and where these raw materials will be derived is necessary. The new sites must also be developed in locations which avoids mineral resource and infrastructure sterilisation.*
- *Establish new jobs in the Valleys rather than greenfield locations to reduce commuting to the city and regenerate Valleys.*
- *New jobs in green technologies would benefit the poorer areas of the City Region and assist green targets.*
- *Need specific policies to support growth of the foundational economy, delivering jobs from the bottom up to ensure more distributed local employment opportunities and reduce need to travel by car.*
- *Employment Land Review should be accompanied by a reassessment of need for retail floorspace.*
- *A thriving culturally attractive city centre is important for Cardiff to compete as a place to live and work.*
- *National Museum Cardiff and St Fagans National Museum of History play a key part in the economy of Cardiff as an employer, it is important that for the city centre to thrive jobs are created and continued.*
- *The comment in the draft plan that office space is in short supply is surely outdated, given that significant numbers of employees are now working remotely, potentially for the long term.*
- *Rethink and reinvent, rather than slavishly trying to make work the existing commercial space.*
- *Do NOT make St Mellons in East Cardiff the Car Park of South East Wales to service this venue and central Cardiff large scale, sporting, entertainment and business events.*

- *High density mixed use is a term used a lot in the consultation – high density does not sit comfortably with pandemics.*
- *Cardiff should be home to a wide range of jobs – manual, non manual, skilled and non skilled.*
- *The Council should press Welsh Government to introduce business friendly policies.*
- *Cardiff residents should be encouraged to become entrepreneurs.*
- *Barriers to business should be removed – support small local businesses.*
- *The arts sector has a key role to play in the economy and should be supported.*

Theme - New Infrastructure

- *Need to assess what infrastructure has been lost due to viability factors and put in place a viable framework to minimise loss in the future.*
- *A focus on wider infrastructure which creates healthy environments is crucial, green spaces, play areas, cycle and walking routes, community facilities are all important in creating a healthy environment.*
- *Crucial to liaise at an early stage in planning on current and future health care provision capacity.*
- *Important to recognise developing where appropriate public assets as shared multi-functional spaces to enable shared efficiencies and collaborative working across partner organisations to promote physical, mental and social well-being.*
- *Fears that promised improvements will not in fact occur have sometimes been realised. The plans originally approved can be modified after permission has been granted, and while 'Living Decision Notices' may need to be changed when circumstances do, they can also provide a mechanism for developers to renege on promises. Enforcement is not always as strict as it should be, and if a builder goes into liquidation (whether forced or by choice to avoid commitments) there is little that can be done, while Council, with other demands on its resources, is reluctant to step in and fill the gap.*
- *Adequate infrastructure is not just a question for brand-new developments but also for those within the built-up area of the city, where local facilities, such as health, education or parks, are often already stretched after over a decade of austerity.*
- *Transport improvements, should be installed first with new homes around that.*
- *Great scope for co-production between professionals and local residents in a Placemaking ethos of partnership and engagement for community infrastructure. - Co-production could come in many forms, from restoration of buildings which have fallen into disuse, sometimes of historic value to new constructions, or improvements*

- to open spaces. Resident involvement ensures that what is delivered meets local requirements, while professionals bring the skills to make this a success.*
- *RLDP should include policies to facilitate these, both by smoothing the way for planning applications around them, and by requiring community involvement in infrastructure provision in developments. As well as creating facilities of lasting value, well-run projects can themselves play a positive role in building community cohesion and strengthening links with public bodies.*
 - *For any new developments it is critical to get infrastructure in place first. This includes transport, utilities, community facilities and communications but there are many more. Communications must be futureproofed – e.g. the installation of 5G masts on new estates before houses are constructed/occupied.*
 - *Priority should be a high quality, fully accessible to people of all abilities, comprehensive walking and cycling network linking homes to key destinations.*
 - *Cycle infrastructure should be on space taken from motor vehicles rather than pedestrians or green spaces. Where not feasible on a particular route convert equivalent areas of road space to green space in suitable alternative locations.*
 - *Need strong commitment that active travel infrastructure is in place first.*
 - *Need a commitment for the provision of secure cycle storage for new development and on street bike hangars and storage for existing properties. Need to set out maximising the use of cargo bikes and e bikes. Electric Charging facilities must not obstruct cycling or walkers or take space from them.*
 - *Welcome the commitment to a 15 minute neighbourhood and the locality approach. Concerned lack of detail stands opposed to the approach of zoning of development across the city which will lead to facilities placed at a distance from many communities.*
 - *Seek a policy that masterplans all brown field sites to ensure increased urban population is matched or outstripped by increased infrastructure transport/green space/schools/GPs etc and new retail and community development are fully integrated.*
 - *Endorse the proposed objective to ensure the timely provision of new infrastructure in order to support wellbeing and to ensure the lack of infrastructure does not constrain future growth. This commitment to providing new and better infrastructure must be central to the LDP in order to reflect Cardiff's role as a capital city.*
 - *Where possible, new development should make use of existing and planned infrastructure in Cardiff, thereby helping to support the continued maintenance of walking and cycling routes and the operation of public transport services. This will also support more efficient patterns of development and reduce the need for car based travel.*
 - *Large strategic sites will offer opportunities to support the coordinated delivery of other types of infrastructure, for example community services, schools and health*

services. Greenfield sites will often offer increased opportunities for these added benefits when compared to brownfield locations.

- *Viability studies should be made public.*
- *Fundamental problem with the development on strategic sites that infrastructure is not being provided in a timely manner. City is not creating sustainable communities.*
- *Priority must be given to making a success existing sites. Distinction between essential and necessary helps developers avoid responsibilities.*
- *Planning policies need to be stronger.*
- *Cardiff has failed to introduce CIL losing many millions to the detriment of the City and its residents.*
- *Existing strategic sites have been created with no new facilities leading to car travel – no 20 minute neighbourhoods.*
- *Create outside and partly sheltered areas for young people to socialise in all communities.*
- *More bike parks, skateparks, green areas and play areas for older kids - areas that are free to use, convenient and have accessible toilets and facilities for public use.*
- *Protect and develop communal community areas and facilities, and support communities to manage their own assets.*
- *Helpful to assess the raw material requirements to deliver the infrastructure through an appropriate resource assessment and consider the supply chain options necessary to ensure the sustainable delivery of such.*
- *Should be a priority for a formal mechanism for making clearer the process by which Section 106 contributions from developers are allocated – and that developers should be held publicly accountable.*
- *Protect sports facilities and those provide in new development should be of an appropriate size and not squeezed into flood risk areas.*
- *Access to culture will be vital to Cardiff over the length of this plan. Museums and other cultural facilities should be considered alongside other community facilities.*
- *Post pandemic these will be important aspects for recovery.*
- *Transport links to St Fagans should be improved – in particular greener solutions such as rail.*
- *Need for more recycling centres.*
- *Need improved broadband and mobile phone servers.*
- *New infrastructure should cater for young people.*
- *Maximum benefits should be obtained from future S106 agreements*
- *We support the use of electric cars.*

Theme – Climate Change

- *A Flood Consequences Assessment and a Renewable Energy Assessment isn't sufficient to respond to the global threat. Need to stimulate new ideas through creation of Citizens Assemblies.*
- *Need to rethink where buildings are located and how they are built.*
- *Repurpose buildings rather than demolish.*
- *Thousands of homes in Cardiff could be under water within three decades. No more building should happen on flood plains.*
- *Need bold and innovative ways of responding to the climate emergency New homes should be carbon neutral, use sustainable materials and are environmentally friendly, support electric vehicle charging and able to store bicycles.*
- *Significant proportion of Cardiff residents want to be able to cycle and walk more (Cardiff Bike Life Survey).*
- *RLDP must respond to the defining challenge of climate change. Need drastic action against flooding.*
- *The vital ambition of carbon neutrality is missing from its proposed objectives. This must be integrated as a principle, in line with the One Planet progress report.*
- *Allow Prioritising determining applications for renewable energy, flood defences and other green initiatives.*
- *Need to encourage energy efficiency in development and how will be enforced.*
- *Reserve land for a potential Cardiff Lagoon.*
- *Bikes have zero emissions – bringing about a significant modal split from cars to bikes would be a major contribution to reducing the city's carbon footprint.*
- *No mention of the nature or biodiversity crises, which are separate to that of the climate crisis and the administrations One Planet Cardiff Strategy.*
- *LDP should set out a roadmap for the Council to sign up to a Green Building Council Zero Carbon Buildings framework.*
- *LDP should recognise the need for the Council to work collaboratively with the development industry to identify feasible ways for new development to contribute towards addressing climate change.*
- *There are many opportunities for new development to assist in addressing the threat of climate change. However, it is important for the Council to balance increased regulatory requirements with the need to ensure that much-needed sustainable development (with the benefits that it brings) remains viable and is not prevented from coming forward.*
- *It is considered that, in general, proposals to increase requirements through the built fabric are best placed to be managed through the building regulations framework, rather than the planning system. This will help to ensure consistency in application and reduce uncertainty for the development industry.*

- *The City must adopt an effective requirement for handling rainfall events/flood defences.*
- *Buildings should not be permitted without energy efficiency measures.*
- *Construction is responsible for large amounts of greenhouse emissions – use of recycled materials will significantly reduce emissions. Ensure that existing buildings are developed where possible.*
- *Fail to mention carbon neutrality potentially diverging from the One Planet Strategy.*
- *Business as usual is not tenable. Replacement LDP must set the framework and decision making must reflect the framework.*
- *No mention of getting carbon emissions down to net 0 by 2030.*
- *Strategic Flood Risk Plan for Cardiff should be made a high priority.*
- *Climate change is accelerating, which means sea levels are rising rapidly. Many coastal and low-lying areas in and near Cardiff could be submerged by 2050. The Replacement LDP. Must ensure that flood risk and potential flood risk areas are identified and finances are made available for work to be carried out on the erosion of the coast and land identified as at risk of flooding. Need to prioritise funding, 18million set by Council for 2021 compared to 61 million for cycle routes and improvements to transport infrastructure and active travel routes.*
- *Aim for Carbon Neutral.*
- *Plan for climate change and consider its differential impact.*
- *Flooding: climate action needs to be at the heart of the LDP. It's the most important issue facing every area in the world, especially Cardiff prone to risk of flooding and being underwater within decades. Soil sealing is linked to this and is an urgent issue which needs to be factored into when developing over soil and green space. Can brown sites please be used as an alternative and sustainable drainage, to ensure areas aren't prone to flooding as a result?*
- *Overall, I urge Cardiff Council to put residents first and ensure the LDP is sustainable and puts climate friendly policies in place in the LDP. Climate change is the single biggest issue facing us all, so there's no time to waste in allowing poor development to affect our city further.*
- *The LDP needs to include One Planet Cardiff Strategy and its commitment to become carbon neutral by 2030.*
- *Cardiff One Planet aspires to a carbon neutral Cardiff by 2030.*
- *In order to achieve this, it will be necessary, when considering a proposal for development, to estimate how much carbon will be released by any demolition and development over the life cycle of the development.*
- *Each proposed scheme should be evaluated in this way.*
- *There should be an option to reject the proposal if the damage caused by carbon output is not warranted by the benefits of the development.*
- *Cardiff is the 6th most at risk city in the world from climate induced flooding. City Council has a responsibility to treat their decisions with the utmost seriousness in the light of this and ensure that any plans embed mitigations for this.*

- *Plan needs to enshrine sustainability and zero emissions from the start and a carbon net zero deadline for 2030 at the latest.*
- *All new housing should also be equipped or readily adaptable to cater for foreseeable or likely future policy shifts such as a move away from natural gas for heating, micro energy generation leading low-carbon/carbon neutral homes, and increased electric vehicle ownership.*
- *The Climate Emergency should be central and foremost to every development.*
- *Must consider the raw material requirements of delivering green energy solutions from the foundations for wind turbines, to glass for solar panels and the elements required for energy storage. For flood alleviation schemes, the plan should examine the resource requirements and supply chain considerations for the raw materials for the “hard” schemes as well exploring any potential opportunities to develop “soft”, nature based schemes within mineral workings, from flood capacity to water management through appropriate planting.*
- *Short term proposals ignore climate change.*
- *Prioritise electric charging points for vehicles to help cut emissions.*
- *This LDP is the last chance for Cardiff to get on the map as a champion in the fight against climate change.*
- *Every decision should consider the climate crisis and target carbon zero.*
- *Use natural solutions to protect Cardiff from effects of flooding.*
- *Climate action needs to be at the heart of the LDP especially as Cardiff is prone to flooding.*
- *Soil sealing is also an urgent issue. Use brownfield sites and sustainable drainage.*
- *Planning decisions short sighted – lack of respect for green spaces especially with the climate emergency.*
- *Impact of climate change is of major importance with Cardiff being a coastal city it is extremely likely that flooding incidents will occur more frequently in future.*
- *There appears to be little sense of urgency tackling the Climate Emergency.*
- *The National Museum of Wales declared a climate emergency in 2019.*
- *The museums are committed to being sustainable in all of their operations.*
- *Cardiff is one of the world’s cities most at risk of flooding. It not only needs greater flood protection, but the LDP needs to prevent any further new build on flood risk sites.*
- *Cease all existing and prevent future biomass energy production.*
- *Renewable energy, produced on appropriate sites in appropriate locations – is the only way Wales should go.*
- *There is no reference to the Council agreement to reach Zero carbon by 2025 – this a serious omission.*
- *Congestion charge should be considered.*
- *Cardiff Council and Welsh Government should decrease the amount of traffic entering the City.*

- *Welcomes this as a key Objective for the new LDP.*
- *Planning for new developments must not ignore the reality of car ownership in the 21st Century – must be sufficient parking provided.*
- *Support the idea to “promote an increase in tree canopy cover across the city” we would also like to see the maximised retention of existing green spaces and green infrastructure.*
- *Provide assurances that the climate and ecological emergency will be taken seriously in all planning decisions through to 2036, proportionate to the global climate crisis. The planning system must work in tandem with your own One Planet City strategy. Any proposed developments must meet strict climate neutral benchmarking tests set within the LDP and work in tandem with OPC.*

Theme – Movement and Active Travel

- *Need an assessment of public transport cost and frequency in Cardiff compared to other UK cities where public transport network is integrated and had led to a dramatic modal shift.*
- *15min city concept should be adopted so people don't have to travel and end out of town development.*
- *Need to accelerate the shift away from private cars to reduce emissions.*
- *Need to take strong action to prioritise active and green travel. Disincentivise private car use making some car owners unhappy is the only way to encourage other forms of travel, alongside better public transport, pedestrian and cycle infrastructure.*
- *Emphasise the benefits to physical and mental health, through active travel, as well as to congestion and air quality.*
- *Be specific about active travel and public transport being inclusive, for people of all ages, genders, abilities and disabilities.*
- *Infrastructure and services need to avoid marginalising people unintentionally. Very few people can't undertake active travel with proper facilities.*
- *Add specific ambitions for walking for eg regular benches/rest areas, consistent wayfinding.*
- *Any development to the port needs to recognise the impacts of maritime air pollution, emissions from shipping can be substantial.*
- *Reducing private car use is essential to protect the environment, to reduce congestion, and to improve health and wellbeing. But this must be done in ways that do not worsen life for those who today depend on a car for essential tasks, such as going to work or accessing services.*
- *To deter car use must go hand-in-hand with improved alternatives, especially for those living in places currently badly served by public transport, or with inadequate*

local facilities. This demands a regional perspective on transport policy and provision, given how many people from outside the city depend on it for work or services.

- *Road charging should be applied to everyone.*
- *Parking policy needs to change allowing too much for out of centre retail which needs to be halted and reversed. Introduction of a workplace parking levy should be considered.*
- *Cycleways should be created out of roadspace and not tarmac cycleways through parks.*
- *More attention needed for pedestrians.*
- *Moving rapidly away from fossil fuels for transportation is vital, but we still need to find ways to reduce the use of cars.*
- *Should prioritise investing resources for trains and buses.*
- *No mention of trams or trams/trains.*
- *Need to protect potential transport routes from development. Vital transport hubs link up.*
- *Provision of high quality active travel infrastructure is key.*
- *Modal shift could be achieved quicker if the use of the car is made less attractive, need to see more roads and streets restricting access to cars, development of low traffic neighbourhoods, changes to parking policies to achieve the changes, introduction of fair road charging and a workplace levy.*
- *Need to promote active travel particularly in schools and work places. Need a comprehensive signage system to indicate time to cycle to key destinations.*
- *Accurate assessment of effectiveness of measures is needed and need to set targets. Consider Council should aim for 20% if all journeys to be made by bike by 2030.*
- *Need to expand the Nextbike Scheme. Working with neighbouring authorities to develop similar schemes for the Metro/rail station. Need to make electric assisted bikes available for outlying areas.*
- *Important to encourage alternative modes of transport to the car and cycling should play an important part together with better public transport and opportunities to walk however designating the trail to the south of the Llanishen and Lisvane reservoirs is inconsistent with objectives, adverse impact on walkers, the SSSI and ecosystems.*
- *Lack of walking strategy integrated with the Council's modal shift and transport strategy leaves pedestrians disadvantaged. LDP must prioritise the public transport network.*
- *Need to set out clearly how the 20 minute neighbourhood are to be achieved, going beyond transport infrastructure.*

- *With any interventions should have before and after data so there is a bench mark. Make use of experts at the local universities.*
- *Support cycle lanes on repurposed road space but not through parks. Floodlight cycle lanes through parks changes the dynamic to the detriment of one user over another resulting in serious equality issues and very bad for wildlife.*
- *Propose all new properties conversions have installed or will be easily adaptable for on street electric vehicle charging, submit an active travel plan for number of residents they expect and offer a voucher for buying a bike, pay a contribution to active travel and public transport in the locality.*
- *Need for the Council to continue to work collaboratively with the development industry to identify feasible ways for new development to support sustainable and active travel. Larger greenfield developments in particular provide opportunities for master planning to create sustainable neighbourhoods that include walking and cycling networks and support bus or Metro links.*
- *Reducing the length of commuting distances or the need for commuting entirely, through enabling home working, should also form part of the approach to improving ease of movement across Cardiff.*
- *Meeting the need for housing in Cardiff will provide a wealth of opportunities to support ease of movement and active travel, through providing links to existing and new walking, cycling, bus and Metro networks.*
- *Too much focus on bus improvements which are failing to reduce car usage. The City and the Region need a rapid transit system (metro).*
- *People need to feel safe when cycling and walking. Cycle and footpaths should not be combined and should be well maintained.*
- *Support safe segregated well lit well maintained cycle pathways using road space as cyclists need a safer environment and the population needs to embrace active travel more. Against shared use pathways and the use of the Nant Fawr and Rhydypenau Wood Trails as the cost to the environment and the detriment to walkers are too much - the route takes from nature / other active travel not from roads. Safe Cycle routes should be segregated/well lit take road space not walking routes/trails.*
- *Council is focused on leisure routes or direct commutes to the city centre which don't access the local facilities which disadvantages women, kids and older people. Little regard for elderly, disabled and women. Segregated routes past houses on well-lit routes are much safer than going through parks and woodland trails. Use of walking/trails are unsuitable for cycling pathways/superhighways nor for significant numbers of bikes.*
- *The National Museums have committed to Cardiff's Healthy Travel Charter. The museums are supportive of healthy travel choices and hybrid working allowed less journeys into the office.*
- *Congestion charge should be considered.*

- *Cardiff Council and Welsh Government should decrease the amount of traffic entering the City.*
- *Need for all forms of public transport to be better integrated and link with active travel.*
- *Supports the creation of more and better active travel routes and usable Public Transport routes through and across the City as a driver to reduced use of personal car journeys.*
- *Develop safe cycle ways on existing road routes instead of tarmacking walkways in green areas- and presenting those developments as viable and credible in public consultations.*
- *Consider the needs of children in developing safe cycleways for everyday travel (not just leisure).*
- *Make Cardiff a 15 minute City.*
- *Need to promote affordable public transport and active travel/take road space from cars. Bike lanes should not be built in parks/prevent any further development only reached by car/tax parking.*
- *Dates for EV only production are being announced for 2028-2030 well before the ban on new petrol and diesel sale. This suggests a rapid switch of the population of cars not a slow change starting in 2030/35. Charging capacity will be an issue, for the grid as well as for forecourts - just about the time period for the LDP so we need to look beyond the status quo.*
- *Rush hour will fade as work times will vary and smart travel widens. Travel patterns will be more variable/spread out.*
- *Buses are not popular but are still essential in the absence of a light tram system, ie they are a short term need.*
- *Cycling use has risen but not by as much as expected (London data) so do not expect miracles.*
- *There are more cars than ever, and car use is still the preferred option and will rise unless an alternative is better.*
- *The pollution issues are broadly the same for EV as for other cars. EV autonomous vehicles threaten to increase journeys like taxis mainly used by one passenger.*
- *The plan for traffic in the city needs a thorough review is correct. Castle St reopening - understand the issues but will not get this is an opportunity again.*
- *It is not acceptable just to reroute traffic through existing residential areas, but with the road pattern in Cardiff as it is this is the only way but must be accompanied by a serious reduction in traffic, ie public transport and exterior P&R.*
- *How should travellers into Cardiff be routed - favour redirection down to the Bay with a big P&R by the docks with enhanced Metro.*

- *Cycle friendly city and prioritising people over cars: development must prioritise walking and cycling but this means a proper transport system for Cardiff - metro, tram lines, cycle lanes, and a proper public transport system. The council shouldn't agree for development to happen and allow congestion to increase without sufficient Public transport in place first. Developers have the upper hand and all they care about is making money - not the impact on existing services such as healthcare and education and congestion. This is where the Council comes in through sufficient protection for residents and a sustainable LDP.*
- *The public transport infrastructure proposals are so vague. Without an effective, efficient public transport system accessible to all areas of the city, our future development will be undermined. Can you work this up more to reassure citizens you also think it is important?*
- ***Object** to reference at page of the document to the need for the Eastern Bay Link. One option for this proposed new highway would impact on the site integrity of the Severn Estuary Special Protection Area.*
- *The plan must clearly integrate the Council and Welsh Government policies aiming at increasing the number of residents using public transport and active travel.*
- *Concern over more and more congestion.*
- *Prioritise sustainable development by making sure there are public transport links and walking and cycling infrastructure.*
- *In favour of proposal to build a cycle route from Cardiff High School beside the reservoirs to Lisvane but it cannot be a continuation of the existing gravel track between the high school and Rhydypenau Rd.*
- *Reduce car traffic, increase public transport and cycle ways and make affordable for all.*
- *Do not invest in big cycle highways which mean cutting trees down in parks.*
- *Prioritise people over cars.*
- *Prioritise walking, cycling and public transport.*
- *Improve public transport. Bus services to outlying areas are infrequent.*
- *RLDP must include proposals to tackle the current sustainable infrastructure deficit and deliver on this before further land releases.*
- *Poor air quality a key concern – all buses need to be electric and powered from renewable resources as soon as possible.*
- *The National Museums have committed to Cardiff's Healthy Travel Charter. The museums are supported of healthy travel choices and hybrid working allowed less journeys into the office.*
- *Needs more explicit support for cycling as a central element in the city's future development.*

- *Due to increase in traffic congestion on Heol Pontprennau and resultant decrease in air quality. Access to the site should be via a new junction on the A4232 via St Mellons Road and speed limit on M4 between Junction 30 and 32 should also be reduced to 50 mph. Provision of new schools should also be looked at given it took 20 years to happen for Pontprennau.*
- *Outstanding problems with the present LDP:*
 1. *The lack of evidence of any success to date in achieving the modal split target.*
 2. *In North West Cardiff the development of Plasdwr where there are numerous new houses and highway alterations, but there is no sign of the provision of any of the necessary infrastructure or of the parkland suggested by the “garden city” name given to the development.*
 3. *The total lack of any regional plan beyond the boundaries of Cardiff.*
- *There is also considerable need to improve the efficiency of Cardiff’s highway network for the benefit of all its users and for all forms of transportation.*
- *Concerns regarding parking - Cardiff needs to rethink its requirements of developers to provide adequate levels of off street parking and greater road widths to address this. Consequently Cardiff needs to start thinking differently, not just carrying on with the same policies.*

Theme – Health and Wellbeing and Equalities

- *Need a commitment to the installation of more permanent air quality monitoring stations in known high pollution areas to track the problem in real time rather than sporadic data as with current Air Quality Management Systems.*
- *Vital the LDP addresses inequalities in opportunities, employment and health status, access to green open space.*
- *The LDP must address diverse needs: there is no mention of race equality, despite all the evidence that this is significant for housing or health.*
- *Stress the importance of the Health Impact Assessment of the LDP and major developments...*
- *Obesity is a key issue in Cardiff – environment play a key role in how active people are and the food they eat.*
- *Need to consider fat food takeaways and how they can be managed and restricted particularly around schools.*
- *Reference the Cardiff Wellbeing Assessment as a source of existing evidence.*
- *RLDP needs to set clear policies which have health and well-being for all at their heart.*
- *Must address diverse needs. For example, there is no mention of race equality, despite all the evidence that this is significant for housing or health.*

- *Inequality of green space. It's a myth that Cardiff is a green city. Many areas of the city have well below UK average access to green space. This inequality was highlighted by the pandemic.*
- *Appreciation of inequalities and of how Cardiff residents have diverse needs which must be taken account of in planning policy.*
- *A well-planned city must be inclusive for all. An important part of delivering this will be breaking down unnecessary physical barriers and exclusions imposed on disabled people by poor design of buildings and places.*
- *No mention the question of race equality.*
- *The proposed Vision for the RLDP has fairness at its heart and so must consider how the development of our city can promote race equality.*
- *Local Housing Market Assessment only refers to the needs of different age groups should be extended to cover all groups with specific housing needs, including needs of key groups (Black, Asian and minority ethnic people, disabled people, homeless people, older people, those with mental health conditions, ethnic minority women, etc.).*
- *Priorities should be feeling safe, access to green space and equality of access to education, jobs and training.*
- *Increase the provision of land for biodiversity – not just green space.*
- *Modal shift away from the private car will help address issues of air quality and noise pollution, employment and services more accessible to those on lower incomes who can't afford a car but can a bike and result in increasing levels of physical activity.*
- *Significant inequalities and disparities across Cardiff must inform the way in which Cardiff grows, including the provision of homes, access to green space, public transport, and employment infrastructure. The LDP documents make no reference to race equality, despite implications across housing, employment, health, access to the natural environment, and pollution for Black, Asian and Ethnic communities in Cardiff.*
- *LDP must consider the impact of development on affordability and the existing culture of communities. Whilst development and re-development bring investment into the infrastructure of communities – including housing supply, employment, and transport – it also has the potential to increase property and rental prices and displace communities. This has the unintended consequence of displacing existing communities, predominantly low-income households.*
- *Need to reference to the Authorities statutory obligations under the Crime and Disorder Act 1988 to prevent crime and the creating of safer and of more sustainable development through the consideration of Crime Prevention through Environmental Design. Such strategic references have played a key part in making many developments and communities safer and more secure.*
- *New development can make an important contribution through the delivery of mixed communities that include a range of housing tenures and sizes, with a focus on green infrastructure, public amenities and active travel opportunities.*

- *New greenfield sites are also able to deliver new health facilities.*
- *Objective linked to movement and active travel. Improved air quality needs people to get out of their cars – need a viable alternative to the car – a rapid transit system is needed and the adoption of policies that do not make the situation worse such as ribbon development along the A4119 causing bottlenecks and poor air quality worse.*
- *Small industrial/manufacturing workshops on sites around the city are important to reduce inequalities.*
- *Need to ensure that improving people’s health is a key consideration of development proposals. Make greater use of the Wellbeing of Future Generations act for clear policy to reject proposals that do not meet the City’s standard.*
- *Whitchurch Tennis Club is a premier tennis facility, a community asset used by a number of schools, with holiday camps, use of the outdoor space as a result of covid for wheelchair tennis clubs, netball clubs, Pilates and fitness clubs.*
- *Seek protection afforded by planning policy to protect and preserve existing sporting and community assets.*
- *Improve the air quality in Cardiff - disrupt the growth of car use by creating great alternatives*
- *Adhere to the principles of the Wellbeing of Future Generations Act and the Socio Economic duty.*
- *Protection of trees is important for health and well-being.*
- *Strongly support the development of a railway station at Mynachdy as soon as possible as part of the Metro programme.*
- *No reference to race or children.*
- *The role of museums and cultural facilities will play a key role here.*
- *Amgueddfa Cymru exists to help people and communities in Wales to have a better and culturally richer life.*
- *There should be more, local swimming pools, public and private, gyms, fitness studios, teen playgrounds and community gardens.*
- *More outdoor leisure facilities including reinforcing and investing in the many neglected public footpaths for walking and cycling should be provided.*
- *The Council should allocate more money to fund children’s parks and playgrounds.*
- *Crime is mentioned but anti-social behaviour should be dealt with.*
- *More farmers markets should be supported.*

Theme – City Centre and Cardiff Bay

- *Agree that a mixed use City centre will be key to regeneration but need the right balance not over reliance on offices and reduction in leisure as in recent years.*
- *Need a dedicated city centre regeneration strategy with extensive public engagement.*
- *The Port should be excluded from a Cardiff Bay Business Area which would duplicate matters and may restrict the flexibility sought in the Port area.*
- *Focus is on the city centre with little said about the poorer wards who have long been deprived the things that would make '20-minute neighbourhoods' a reality - e.g. thriving local high streets with a wide choice of small independent businesses, shops, cafes et; a range of public and community spaces for people and community groups to operate from.*
- *Important to have mixed uses for a range of ages and keeping control over the number and size of licensed premises.*
- *Need to repurpose the city centre and empty shops and offices post covid.*
- *For Cardiff City Centre to thrive, then out/edge of-town shopping will have to be discouraged, which will also help the modal shift from private cars This implies that the Replacement LDP should go further than the Adopted LDP and seek not only to halt the growth of retail parks but, over time, to shrink or close some.*
- *City Centre is going to be far more mixed use, supports tourism. Operates as a transport hub, role of universities in supporting students and city centre student facilities, helps retain students after graduation, supports museums, links with Cardiff Bay and the suburbs.*
- *Too much focus on the City Centre and the Bay need to consider. Need to create well connected, vibrant district shopping and employment centre.*
- *LDP should outline how it will balance development whilst meeting the needs of communities in an affordable way, for example through mixed tenure of housing and provision of community buildings.*
- *Concern that the City is determined to continue a high risk strategy of chasing signature projects. Question whether there is any point protecting the retail role of the city centre which were struggling before the pandemic. Question the objective to establish the Bay as a leading UK urban destination – need to offer a variety of attractions including St Fagans Museum.*
- *Change the city centre into a more social and green area where nature and the arts dominate.*
- *Why demolish Queen's Arcade to replace it with something similar?*
- *Why house a Military Museum in the Bay on the only green site available?*
- *The proposals for an indoor arena in the Bay are unnecessary.*

- *National Museum Cardiff plays a key role for the centre of Cardiff and will continue to attract visitors and facilitate wider benefit for the area.*
- *It is vital that the “cultural quarter” around National Museum Cardiff is physically and psychologically far more accessible from Queen Street.*
- *Protecting and developing city centre is of key importance – as retail moves online and Covid changes how we work.*
- *Agree that district and local centres need to be supported. Station Road area as a local centre and wish to protect and develop its role.*
- *These developments are supported but will only be of benefit to Radyr residents if the infrastructure is in place for them.*
- *Do not want through travel of visitors from beyond the city to have a detrimental impact on local residents.*
- *Support the development of local centres.*
- *Footfall in the high street will need to be managed back if retail is to survive, like the idea of more outside eating and experiences creating a non-stop party atmosphere. Towns need people to use them and people need a reason to be there.*

Theme – Post Pandemic Recovery

- *Need to consider the future of the city centre for eg re purposing parts of the city centre to create parks.*
- *Importance of access to green space for exercise and mental well-being continues to be a priority.*
- *Travel changes to cycling and walking should be sustained and enhance.*
- *Seen an increases in home working if this trend continues homes should be designed for this or the creation of local work hubs.*
- *Priorities post pandemic active travel, staying local and revitalising the city centre, district and local centres.*
- *Increase in walking and cycling has meant that shared paths no longer function effectively due to the numbers using them. Need separate walking and cycling infrastructure.*
- *Consider that people who cycle or walk spend more locally than people driving cars therefore investing in cycling and walking infrastructure will aid viability of district and local centres.*
- *Leisure cycling can assist in reviving tourism. Need to ensure the infrastructure is in place to support this.*

- *Would like to see a greater detail around place making, including on how communities shape the priorities for their communities. We would welcome consideration of how the council and LDP can enable local people to protect the things they value in their neighbourhood through community land trusts.*
- *The trend towards increased working from home will require the provision of a range of housing types and sizes at a range of densities, including attractive, larger homes with spare bedrooms to support home working. The provision of attractive work hubs in neighbourhood centres, together with access to local green spaces and facilities in well-designed neighbourhoods will also be important in supporting wellbeing and can be easily incorporated in planned developments.*
- *The inclusion of a policy focus on reawakening Wales' cultural sectors is also welcomed. The achievement of this aim will require attracting and maintaining younger people through provision of a sufficient supply and range of high-quality housing.*
- *The inclusion of a policy focus on reawakening Wales' cultural sectors is also welcomed. The achievement of this aim will require attracting and maintaining younger people through provision of a sufficient supply and range of high-quality housing.*
- *Prioritise new working and meeting hubs throughout the city rather than focusing on the city centre as a high density major financial and service sector The 20 minute neighbourhood needs to become the standard.*
- *Pandemic showed that people need easy access to open spaces, more green space and trees.*
- *Role of culture should be factored into the thinking in respect of these plans.*
- *Council needs to understand how Covid will affect work and travel patterns.*
- *Support residents working from home, developing spaces they could use locally.*
- *The post pandemic world brings opportunity to develop new services and more co working spaces.*
- *Increased trend of working from home will mean increased use of broadband etc.*
- *Local services should be provided to avoid travel into the City Centre.*
- *Working practices and travel patterns will have changed and this provides an opportunity for change.*

Theme – Placemaking Approach and High Quality Design

- *Concern at a lack of new evidence being sought.*
- *Need to maximise community involvement.*
- *The LDP should help local people to protect the things they cherish in their neighbourhood with the creation of community land trusts.*

- *We need to move towards twenty minute neighbourhoods where all the facilities citizens need are within a 20-minute walk.*
- *The council must work with community - a much more collaborative and helpful approach, and that was not evident in the LDP.*
- *The 20 minute neighbourhood or 15 minute city concepts create healthy and sustainable communities where services and amenities are within a 15-20 minute walk or a short cycle ride.*
- *Placemaking approach enables consideration to be given to the environmental impact of a development, the impact on health and how well it integrated into the existing neighbourhood.*
- *Involvement of local communities in the planning and development of their local area is important.*
- *Involving the local community in developing proposals is the first principle of the Placemaking Wales Charter and must be at the heart of the Placemaking objective. It is not just a matter for new communities but also for existing ones, which are impacted by developments in their area or nearby.*
- *Communities – whether established or newly forming – should be involved from the outset in Master planning.*
- *Community Asset Transfers can empower local groups to protect the things they cherish in their neighbourhood but must not become a means of Council cutting budgets or avoiding ongoing support.*
- *Create 20 minute neighbourhoods where all facilities are within a 20 minute walk.*
- *Support placemaking approach.*
- *Need explicit commitment to creating more 20 minute neighbourhood with key services within easy walking and cycling distances.*
- *Missed opportunity to define ‘Liveable Neighbourhoods’*
- *Give more consideration to the concept of City of Villages.*
- *Lack of planning in Cardiff, no thought as to how constituent parts fit together.*
- *Refer to Policy 2 in Future Wales sets out that the growth and regeneration of towns and cities should be based on the following strategic placemaking principles. Large strategic sites (such as an extension to Plasdŵr to the north or west) will offer opportunities to provide master planned communities incorporating work hubs and local services in neighbourhood centres, access to green spaces and a range of housing types and densities, whilst linking with walking, cycling and public transport networks.*
- *Commitment to supporting development in the most sustainable locations sometimes these are greenfield.*
- *Endorse the proposed place-making approach and commitment to high quality design, to ensure that future growth can be effectively managed.*

- *Focuses on taking steps to create sustainable places whilst supporting growth is welcomed. This represents positive planning.*
- *Master planning process can establish design principles and manage capacity for change.*
- *Support the intention of 'working with local communities to improve neighbourhoods.*
- *Need to increase the range of local facilities in line with the 20-minute city providing a resident's daily and weekly needs within a 10 minute walk.*
- *Success of this objective rests with the Council.*
- *Move to brownfield site development as a priority/stop allowing trees to be cut down/upfront delivery of infrastructure and facilities/have energy standards for all new development.*
- *The use of appropriate materials is integral to placemaking. PPW recognises that suitable building stone is important for the restoration of historic buildings and may be available from small operations in specific locations to supply local markets. Further, dimension stone is used in new buildings where it is important to maintain local building character. It may be necessary to obtain dimension stone from geological formations which are restricted in occurrence in order to obtain a particular colour. Use of local materials may play a significant role in creating sustainable places, maximising regeneration opportunities, enhancing public spaces and delivering new developments of high quality design.*
- *Utilise existing buildings instead of greenfield sites and repurpose the city centre and empty buildings.*
- *Give communities ownership of their areas.*
- *Develop the 20 minute neighbourhood.*
- *Museums are not mentioned specifically in the list provided but consideration must be given to existing key locations in Cardiff as well as planned into future developments.*
- *Agree that placemaking can be an important tool to develop safe, vibrant and attractive communities.*
- *Request Station Road area is made a more attractive community destination eg. A community square.*
- *Request that the 7,000 homes near Radyr be built to a high quality.*
- *Request a retail site near our community.*
- *Would like to see safer cycling across Plasdwr.*
- *We want the promised amount of green space to be kept without any loss to housing.*
- *All of the promises community facilities must be delivered.*
- *Welcomes the proposed protection and enhancements to the key natural assets, particularly the river Taff.*

- *Developments should protect existing green infrastructure.*
- *Re-develop brownfield rather than greenfield sites.*

Theme – Green Infrastructure and Natural Assets

- *Biodiversity emergency is an afterthought. Whilst the Green Infrastructure Assessment and Settlement Boundary review provide some value need more. Suggest mechanisms like the Citizens Assemblies would be beneficial.*
- *ABP recognise the presence of two “Sand Wharf Protection Areas” within the Port. ABP recognise the value of the wharves but request flexibility to relocate across the Port in accordance with commercial demand, including consolidation, re-provision or loss in line with the long-term strategy for the Port.*
- *Imperative that current biodiverse areas are properly protected, including mature trees, new development is nature friendly and integrated into developments, urban biodiversity mustn't be an add on.*
- *Nature in crisis We need to protect habitat and create new habitat; provision of wildlife corridors in existing streets and new builds, hedgehog highways, bird and bat nesting and roosting boxes, wildlife friendly planting and less mowing. The LDP should protect and create green space, for the health: cities such as Birmingham and Nottingham have twice as much per capita public open space as Cardiff – and they are being imaginative in creating more parks and wildlife areas, by eg turning a disused shopping centre into a park and wetland.*
- *Many areas of the city have well below UK average access to green space. This inequality was highlighted by the pandemic.*
- *More priority should be given to existing over developers to buy land and community voices should carry more weight in planning decisions.*
- *Biodiversity has never been more threatened.*
- *An essential part of the Evidence Base for the RLDP must be a comprehensive survey and inventory of biodiversity in the city. We cannot protect and enhance habitats if we do not know what exists today.*
- *Need to protect habitats, provide wildlife corridors in existing streets and new builds, hedgehog highways, bird and bat nesting and roosting boxes, wildlife friendly planting and mowing*
- *Protection of green space, and creation of green space, for the health and well-being of all. Cities such as Birmingham and Nottingham have twice as much per capita public open space as Cardiff – and they are being imaginative in creating more parks and wildlife areas. Turning a disused shopping centre into a park and wetland for example.*

- *Need to address open green space deficits in central/southern Cardiff.*
- *The protection and creation of green space is essential for the health and well-being of residents. Cities such as Birmingham and Nottingham have twice as much per capita public open space as Cardiff – and they are being imaginative in creating more parks and wildlife areas. Many areas of Cardiff have well below UK average access to green space, an inequality was highlighted by the pandemic. The LDP must do more to drive forward urban greening.*
- *Open space is under pressure from development but the consultation does not draw a correlation with how development should or shouldn't take place, for example to protect urban sinks or watercourses and urban sinks. We welcome efforts to make Cardiff's blue spaces more accessible.*
- *Loss of mature trees eg Suffolk House, The Rise. Urge the Council to adopt a methodology such as Capital Asset Valuation of Amenity Trees (CAVAT) for developments. with the principle that that for eg all development have to be CAVAT neutral within 5 years.*
- *Within the Cardiff City Council area there are recorded risks from past coal mining activity at surface and shallow depth. The recorded features include; mine entries, shallow workings and reported surface hazards.*
- *Need to maintain /increase access to green space – identify sites that can be repurposed to green spaces, raise the bar for building on green space, every development needs to demonstrate a net gain of trees. Presumption against the loss of mature trees unless it meets a high bar of public interest.*
- *It is important to emphasise the value of the master planning process in the design of high quality neighbourhoods that promote ecological connectivity and support biodiversity net gain.*
- *Cardiff has relatively little open spaces compared to other cities, with many areas of the city well below UK averages – need to address this inequality.*
- *A Green Belt is essential to protect the green backdrop.*
- *City should support local groups tree planting/creating wildlife areas/meadows/allowing them a level of responsibility for the management of local green areas. Need programmes to protect the rivers from pollution and waste to achieve clean rivers.*
- *The Green Wedge is an important land feature for the city and should remain so for future generations.*
- *40% tree cover.*
- *A biodiversity action plan.*

- *Protection for green areas and biodiverse areas- a map for the public to know what is protected from development.*
- *Protection of the river corridors and further joining up of riverside and green areas.*
- *Wanted to stress the vital importance of having clean places to swim around Cardiff. Can the water quality of our rivers and sea be taken seriously so that improvements enable residents to enjoy swimming in and around fresh water and sea?*
- *The creation of new green spaces and wetland. Other cities such as Nottingham are now creating new green spaces in their city centres.*
- *No substantial development should take place on or otherwise adversely impacting upon the Wentloog Levels SSSI, object to the fact that the RLDP does not contain a commitment to this effect.*
- *The local planning authority is reminded that the Wentloog Levels (as part of the wider Gwent Levels) has been designated pursuant to Policy 9 of the National Development Framework (“Future Wales”) as one of only nine National Natural Resource Management Areas (NNRMAs) in the whole of Wales. The document fails to refer to this important designation, and impact it should have on development plan formulation, and for this reason, we object to it.*
- *Object to the way in which the natural environment is addressed in the RLDP. The natural environment section is almost purely descriptive, and sets out no actual commitments, unlike other sections of the document which set out definite commitments, for example the Arena project. We consider that the environment section should be the subject of a fundamental re-write, with concrete commitments, chief amongst which should be a commitment to an effective absolute constraint on development on or otherwise affecting the Wentloog Levels SSSI.*
- *The section entitled “New Evidence Requirements to Help Address Issues” is wholly deficient, and objects to it. We are firmly of the opinion that a full brownfield survey from the point of view of biodiversity (not merely development potential), and a full potential SINC site survey, covering the entire land surface of the local planning authority area should be included in the list of new required evidence.*
- *Land left for nature is of paramount importance. Biodiversity and ways to help it flourish within the city boundaries should also be embedded in the LDP and consulted on with residents of the city.*
- *Support the principle of including a Green Belt or Green Wedge and would want such a policy to be operated to the maximum in order to protect our rural communities.*
- *The greening of the centre should be serious as in Singapore or Nottingham.*
- *Every mature tree in Cardiff should be precious that developers need to work around, not destroy.*
- *Concern over loss of trees.*

- *Preservation of mature trees and green space needs to take greater prominence in the LDP. Too many are being lost. Mitigating by planting new trees is not always sufficient.*
- *Refers to Wrexham County Borough Tree and Woodland Strategy 2016 – 2026 as a good practice initiative.*
- *Cardiff should be doing all it can to protect and enhance natural green spaces, creating green, natural corridors throughout the city and protecting all existing green infrastructure.*
- *Protect green corridors and green spaces. Green Wedge should be legally protected and development sprawl refused.*
- *Disappointed there is more detail on Green Infrastructure in Appendix than main text.*
- *Integration of Green Infrastructure, Heritage and Culture vital to create a distinctive future for City.*
- *Maximise the use of green spaces for the sustainable growing of food for our local communities.*
- *The wellbeing value of the protection of greenspaces cannot be underestimated.*
- *Should rule out development on the Wentloog SSSI and every scrap of the Wentloog Levels should be protected as a Community Green Infrastructure.*
- *Prevent plastic pollution to enter the River Taff.*
- *Council should make better use of the Taff – increase leisure use.*
- *Housing site at De Braose Close should not be permitted – should be part of green corridor.*
- *Fields west of Pant Tawel lane should be kept.*
- *Develop strategy for Hermit Woods.*
- *Transport for Wales’s compounds should be returned to green spaces.*
- *Welcome the proposed protection and enhancements to the key natural assets, particularly the river Taff.*
- *Developments should protect existing green infrastructure.*
- *Re-develop brownfield rather than greenfield sites.*
- *Dismayed to see such large areas of green land being built upon when we are trying to conserve nature, biodiversity and good air quality. Live in Pontprennau peace and tranquillity sorely missed in more compact built up areas. It seems that what has been nurtured in our area is being destroyed. Worry for the local wildlife. Appreciate steps are being taken to minimise impact on local residents but fear that these are being overridden by greedy developers and lack of care for the landscape, local residents,*

nature and wildlife. Request that our local protect our local environment for the future of our community.

- *Similar encouragement and support should be given around preservation or creation of green spaces or the reuse of buildings for community purposes.*
- *Most of Adamsdown ward is an SOA of deprivation. The Integrated Sustainability Appraisal needs to take account of shortage of green space in the area.*
- *The existing LDP has failed to protect the small amount of green space the ward has.*
- *The Integrated Sustainability Appraisal needs to protect all of Adamsdown's green spaces from being built on.*
- *Any future development of existing buildings in Adamsdown should be required to show how it would increase the amount of green space in the community.*

Theme – Historic and Cultural Assets

- *Consider successive administrations have resulted in the loss of cultural heritage. Need to look to lessons from Liverpool's removal from the UNESCO World Heritage Site. Need to identify what remains and development likely to have a negative impact.*
- *Iconic buildings such as the neglected Coal Exchange, and much-loved local landmarks that tend to fall to development, such as Guildford Terrace, where only the facades remain, need to be valued in the new LDP.*
- *Suggest that a series of story boards be incorporated into the plans to highlight our lost historic sites like the Greyfriars Monastery and the Cory Hall as well as our remaining historic buildings.*
- *Cardiff has a proud history and a bright future. It is important that our children and grand children see visible signs of our heritage around the capital so that they can be proud of how far we have come.*
- *Cardiff Council can do much more to protect and enhance the built heritage of our city. To do this, it has to show real commitment to achieving this to protect local distinctiveness requires local communities to be engaged.*
- *Iconic buildings such as the neglected Coal Exchange, and much-loved local landmarks that tend to fall to development, such as Guildford Terrace, where only the facades remain, need to be valued in the new LDP.*
- *Need to clearly demonstrate how the enforcement of the existing protections/legislations will be implemented.*
- *Increasing pedestrianisation and restricting vehicle access protects historic assets by reducing damaging pollutants, maximises the cities attractiveness for tourism and the night-time economy.*

- *Must include assets of community value, not just assets of a particular historical or cultural significance, for example the Paddle Steamer, Guildford Crescent, Mynachdy Institute, and the Coal Exchange.*
- *Welsh Language should have greater prominence in everyday life - All new development if named should be Welsh or bilingual, all parks, streets cycle paths, footpaths bus and train stations developed by public bodies have a Welsh name.*
- *Consider that little attention has been given to this to date.*
- *Old Whitchurch Hospital – Grade 2 Listed Structure with lots of space to be used for well-being services. Would like to see space such as the theatre used for community performance groups. Hope the plan would include provision for improvement and renovation of the theatre.*
- *Council's approach to the city's heritage is pitiful. Want to live in a capital which has some pride in its history as a multi ethnic Welsh city.*
- *Prioritise cultural heritage and community cohesion in respecting communities (Bute Town) and communities of interest/ identity (LGBTQIA bars, allotment owners, small music venues, Muslim community etc).*
- *Historical and Cultural Assets includes the recognition of the range of historic assets, both designated (protected as Scheduled Monuments or Listed Buildings) and non-designated, and the need to both protect and preserve these as part of Cardiff's heritage. Understanding these as a resource will contribute to a better appreciation, both from a development management viewpoint and as keyed in with the well-being goals.*
- *It should also be noted that Legislative and Policy changes have occurred since the last LDP and these include the Historic Environment (Wales) Act 2016, mentioned in the Sustainability Report; and the legislative cascade includes TAN24: The Historic Environment 2017, and Planning Policy Wales 2021 Edition 11. Further Best Practice guidance on managing change in the historic environment is provided by Cadw.*
- *When considering cultural assets must be first and foremost about people rather than money and profit.*
- *The objectives of the Council and the Welsh Government to increase the number of Welsh speakers need to be embedded in LA planning policy. Suggestions include ensuring that all new schools are Welsh medium, widening access to existing Welsh-medium schools and ensuring that all new developments – streets, footpaths, parks, buildings – have Welsh names.*
- *The use of appropriate materials will be necessary to protect and enhance Cardiff's historic and cultural assets together with supporting sustainable tourism and cultural sectors.*
- *Protect community heritage.*
- *Disappointed there is more detail on Heritage and Culture in Appendix than main text.*
- *Integration of Green Infrastructure, Heritage and Culture vital to create a distinctive future for City.*

- *Important that the LDP provides enhanced protection for Cardiff's historic and cultural assets. This protection needs to exist at both macro and micro levels.*
- *Cardiff Council should avoid loss of built heritage.*
- *Poor buildings in City Centre should be replaced with better quality buildings.*
- *Work with Welsh Language Commissioner to operate with Promotion Standards.*
- *Work with Council and Cadw to develop management strategy for Mound and Cooking Mound in Radyr woods.*
- *The East of Cardiff lacks any kind of arts centre currently and there should be one as the nearest is otherwise Canton or Newport Riverside.*
-

Theme – Regional Planning

- *Need to take a wider view across the region.*
- *Need to work in partnership with neighbouring Councils – decisions such as flooding issues need a river catchment solution and not be made in isolation as do transport, employment and housing issues.*
- *Cardiff's future cannot be determined without taking a wider view across the region, which opens up options for responding to matters like flooding, housing and transport. This is barely mentioned in the LDP consultation paper.*
- *Need better alignment between the LDP and the SDP. Cardiff's future cannot be determined without taking a wider view across the region, which opens up options for responding to matters like flooding, housing and transport. The issues around employment land and retail locations cannot be resolved purely from a Cardiff perspective. They are inherently regional, as people cross authority boundaries to work or shop. Until an SDP is available, Cardiff Council should strive for a common approach with neighbouring authorities. This is barely mentioned in the RLDP consultation paper.*

Theme – Consultation Process

- *Consult communities in a meaningful way not just a box-ticking exercise.*
- *Consultation inaccessible – particularly for disadvantaged groups who have the most need to be involved. Need to stop consultation until able to engage with all sectors of society and create a consultation that represents the needs and opinions of the whole of Cardiff.*
- *Consultation process flawed as no face to face events held.*
- *Consultation document not easy to read and a barrier for many people.*
- *Welsh language treated less favourably than English.*

- *Consultations should not be purely by digital means, there needs to be a combination of methods, as some simply can't.*
- *Developing the RLDP requires intensive work across all sectors and with communities.*
- *Take into account the impossibility of respondents judging priorities for land use without more detailed information.*
- *Continue to engage communities in coming to a view on the optimum balance of types of land use in the light of the limited capacity of the City to absorb new development.*
- *Difficulty filling in online consultation. Consultation deadline should be extended. Suggest community engagement in each ward (officer presence).*
- *Document is insular, lacking in substance and unable to decide between moving forward with new ideas or staying in the past. The paper at times appears to acknowledge past and current issues (such as delays in providing the necessary infrastructure) but at other times seems content to continue down the very path that has led to these difficulties.*
- *Disappointed in the online survey. More information is needed for a meaningful response on many issues. It is also questionable for responders to when all of the choices will be needed. The consultation seems designed to achieve the answers that Cardiff wants to receive, rather than to gain a genuine understanding of what people and communities want to see.*
- *To really work with local communities the Council must understand what people want and what they value; please do not assume that the Council, it's officers or developers know what people value the Council must listen, not lecture; not claim to listen and then continue on a pre-decided route. There will be many different voices, with different views, but that does not justify the Council and its officers, ignoring residents as has happened previously.*
- *Engagement needs to build in resources and expertise to engage fully with citizens.*
- *Concern that the document is inaccessible and the lack of consultation in particular the Virtual Consultation Room.*
- *Halt the LDP process until a public engagement programme is provided which sets out the plans for citizen engagement.*
- *Carry out further consultation and public engagement in addition to this initial consultation.*
- *Consultation questions too binary.*
- *Many groups will be underrepresented in this consultation and request the consultation process is stopped until such time that assurance can be provided regarding engaging with diverse groups.*
- *Consultation needs to be more inclusive. Those in need of social housing and are currently homeless will not be able to take part in the online consultation.*
- *I also I request that the consultation deadline for this phase of 23rd be July be extended. Developers have until end of August to submit candidate sites so there would be a logic*

in that or a later date applying for citizens as well. This would also allow time for Cardiff Council to engage in public meetings and events to discuss and explain the LDP and consultation process in more effective ways than the on-line survey which is not appropriate for this type of consultation.

- *I would like to strongly request that at this time, the Council halts the LDP process until it is in a position to provide a public engagement programme which sets out Cardiff Council's plans for comprehensive citizen engagement going forward.*
- *The council must "provide opportunities for the whole community (different age groups, local community groups, hard to reach groups and protected characteristic groups) including businesses, to engage at appropriate stages in the process." Until the above can be delivered, please pause the LDP process.*
- *If the Council is serious about consultation and involving residents need to broaden approach Process not user friendly and not publicised widely enough and made accessible enough. Online consultation not user friendly need to use libraries and community centres.*
- *Listen and take into account the views of residents*
- *if we are to have any hope of coping with the climate and nature emergency, we have to move beyond the politics that have so far held us back, and into listening, dialogue and towards unity and action.*
- *We therefore believe citizens should be empowered to hold the power.*
- *Inadequate arrangements/shamelessly hidden behind the excuse of covid restrictions. Digital exclusion particularly effects the poorer and older groups discriminating against them. Extend the consultation to hold meetings especially in deprived multi ethnic wards.*
- *Lack of public discussion and engagement and the LDP should not be rushed through.*
- *Language used throughout isn't consistently everyday language and may create barriers to engagement.*
- *Online platform whilst engaging and interactive will be difficult for some to access.*
- *LDP should emphasise not only the need to positively engage with local communities but also highlight the Council's commitment to work together with stakeholders, including developers in order to deliver high quality sustainable neighbourhoods.*
- *Level of engagement disappointing. Use my privilege to ask that consultation is stopped until proper engagement with diverse groups is assured.*
- *Limitations of the consultation process being a managed online exercise which excludes citizens. Virtual room only contains uploaded documents difficult to print of, room not supported by a chat function or interactive, focus is on a guided online survey which can exacerbate the balance of power where individuals are reduced to numbers and percentages.*

- *Town halls meetings enable citizens to listen to the views of others and challenge those with power and citizens assemblies.*
- *Approach of identifying strategic sites for housing development should be reconsidered. LDP should identify potential sites of varying sizes, for which rapid approval could be given, if and when the need arises, but which should not be assumed to be required until expected growth is more certain. A Placemaking approach (see 3.9.1) should encourage local residents or community groups to suggest locations that might be suitable for housing in their area. Such proposals should not be expected to be of the same standard as the Candidate Site Submission Guidance.*
- *Serious misgivings with the finalised delivery agreement, and the depth and scope of public engagement. Public engagement at this stage has been severely lacking even with consideration for the Coronavirus pandemic. Want this stage extended and present to public in community hubs, Councillors, walk in public meetings and citizens assemblies. Need assurances of a commitment to improved community consultation, including under represented voices. Demand implementation of citizen's assemblies, town hall meetings for the remaining stages of the LDP Review. Would like an Independent Commissioner for planning and a dedicated team to empower the public to challenge planning decisions.*
- *Demand that the replacement LDP process is halted until such a time that clear plans for authentic engagement are published prioritising the public and those least likely to have their voices heard particularly young people instead of favouring the usual suspects and the developers.*
- *Need to make engaging easy and advertise it everywhere.*
- *Online consultation very confusing.*
- *Level of engagement with citizens not enough.*
- *Put the needs of the people and the planet first and declare your accountability to citizens, not developers.*
- *Some of the groups who will be most impacted by planning decisions in the future are excluded from your consultation methodology to date.*
- *Ask Cardiff Council to pause this consultation and provide communities with a further three weeks to respond to this current stage and publish a programme of engagement for the rest of the consultation which better befits the development of this important plan by mid-August.*
- *Stop the LDP process until you're able to provide a public engagement programme.*
- *Take note of local groups like Cardiff FoE, Green New Deal, Cardiff Civic Society, Cardiff Extinction Rebellion and Reclaim Cardiff.*
- *Survey very time consuming and not fit for purpose.*
- *Organise real engagement events and relaunch the process.*

- *Suspend consultation and provide a public engagement programme for meaningful public engagement.*
- *The current consultation does not allow for valid representation of public views. We are being pushed into making artificial choices which don't truly reflect how we feel.*
- *Please could you halt the current consultation until you have plans for proper citizen engagement, through a public engagement programme?*
- *There is a disconnect between policy and decision making. Becoming a fairer and more sustainable city needs to underpin every policy in the LDP including all SPG and all decisions and services.*
- *A fairer city means involving those affected by decisions in decision making. Relying solely on online consultation excluded many people from the process. Diversity of the city is unlikely to be represented in the responses. Need a robust plan for citizen's engagement including children and young people.*
- *Need a change in direction in how the Council interacts with citizens and makes its decisions.*
- *There will need to be local people's assemblies and citizens assemblies set up in all local areas with facilitated forums to discuss the issues.*
- *This needs to include fair representation for diverse groups and child care facilities.*
- *Use data mapping (passive existing data and active data made with citizens) as part of the consultation process.*
- *We await with interest the results of this exercise.*
- *Would like to see the highest possible standards in terms of notification to residents of new developments, ease for residents to submit comments and increasing the opportunities to speak to officers and decision makers.*
-

Theme – Candidate Site Process

- *Convinced that asking for development sites before declaring the future vision is back to front particularly as it is not acceptable to just reroute traffic through existing residential areas. The constraints map is not forward looking enough.*
- *Note the call for Candidate Sites as currently issued, we are concerned that this means the new LDP will again be led by what Developers are seeking.*
- *We would like to see the option for communities to propose Candidate Sites rather than proposals having to come from owners or potential developers of sites.*

Other Comments

- *Council should promote creation of community land trusts to allow people to buy buildings and green spaces in their neighbourhood they value.*
- *Need to create community land trusts to enable local people to protect what they cherish.*
- *More important than ever that assumptions the LDP is based on are thoroughly researched and reviewed by experts.*
- *LDP needs to be focussed, perhaps shorter, and easier to access.*
- *LDP constraints map designates the trail to the south of the Llanishen and Lisvane Reservoirs as a recreational route and a cycle way. Inconsistent with Objectives 4 and 10 and appendix C of the adopted LDP and the Rights of Way Improvement Plan which shows this as a designated walking route only.*
- *Concern of core cycle routes crossing through 2 woodlands.*
- *Could the existing HMRC site in Ty Glas, Llanishen be considered as a possible site for the new Velindre Cancer Centre and avoid the need for development for the Northern Meadows 'greenfield' site.*
- *The area with which we are concerned includes the Sites of Importance for Nature Conservation 113 Nant Fawr (northern section), 114 Nant Fawr Community Woodlands, 115 Nant Fawr Meadows and 144 Rhyd-y-Pennau Complex. These sites are related to the SSSI 10 Lisvane Reservoir and Site of Importance for Nature Conservation 96 Llanishen reservoir.*

We write with respect to two features in the region we specify above: The Strategic Recreation Route (blue solid line) and the Cycleway (dotted green line) in the Nant Fawr Corridor.

The Strategic Recreation Route appears to be the Nant Fawr footpath which we personally know very well. This is a well-used footpath in a semi-rural setting, offering us and many other people calm, refreshment and recreation within an urban area. We trust that this footpath will be retained for the health and wellbeing of everyone. The proposed Dwr Cymru Welsh Water Visitor Centre and paths around Llanishen and Lisvane reservoirs will be valuable additions.

The Cycleway however appears to be a new feature which Cardiff Council is proposing for this Development Plan. We are extremely concerned about the effects of a cycleway in this area for nature conservation.

We believe a cycleway here will have a serious effect on nature conservation. We ask you to reroute the cycleway outside the Sites of Importance for Nature Conservation 113, 114, 115 and 144.

- *The uplift in the value of all land due to planning needs to be subject to CIL which should be levied on the landowners, not developers.*

- *Document contains only one reference to agricultural land and few to allotments. Need to protect agricultural land, allotments and large gardens from development and allocate new areas for allotments in RLDP.*
- *Need to protect the Northern Meadow and reconsider building the hospital. Need to consider brownfield sites to protect this green space.*
- *Development in Cardiff has the appearance of being developer led.*
- *The Covid pandemic has changed the way people work and where they do it.*
- *The design of new housing also needs to be reconsidered.*
- *The other problem faced by the city centre arises from climate change.*
- *Buildings should be designed to be low level not high rise.*
- *Need to compensate for nursery, after school and youth provision lost by redeveloping Howard Gardens.*
- *The area around City Road and Newport Road needs further greening.*
- *The new LDP needs to address the HMO issue in Cathays.*
- *Any future proposals in Cathays should have to demonstrate how they will increase green space.*
- *Llanedeyrn and Pentwyn – well-designed streets offer opportunities for walking and cycling. Green spaces should be used for more fruit trees.*
- *Pentwyn has no town centre and declining amenities – further thought needs to be given to how it could be made a more coherent community with new leisure centre and new shops.*

Cardiff Council & Levett-Therivel

Integrated Sustainability Appraisal of the Cardiff Replacement Local Development Plan: Appraisal of the vision and objectives

August 2021

1. Introduction

Integrated sustainability appraisal (ISA) involves assessing how sustainable an emerging plan's vision, objectives, alternatives, draft policies and sites are. This is done by testing them against an 'ISA framework' of sustainability objectives. Where the emerging plan has gaps or possible negative impacts on these ISA objectives, the ISA proposes ways to fill gaps, reduce negative impacts and enhance positive impacts.

Levett-Therivel have appraised the vision and objectives of the emerging Cardiff Replacement Local Development Plan (RLDP) against an ISA framework put forward in an ISA scoping report of March 2020, and updated in August 2021 (shown at Appendix A). Section 2 presents the appraisal. Section 3 presents suggestions for improving the vision and objectives to make them more sustainable, and the Council's response to those suggestions.

Cardiff Council consulted on the vision and objectives of the emerging RLDP for eight weeks, from March 2021. It is this version of the vision and objectives that has been appraised so that the ISA comments can be considered alongside the LDP consultee comments to enable the LDP team to finalise the plans vision and objectives. Due to the iterative nature of the ISA process the updated version of the vision and objectives will be subject to a further appraisal during Preferred Strategy preparation stages.

2. Integrated sustainability appraisal of RLDP vision and objectives

Table 1 shows the results of appraising the RLDP vision and objectives against the ISA objectives of Appendix A.

Table 1. Appraisal of RLDP vision and objectives

Key:

+	-	+/-	
Positive impact likely	Negative impact likely	Impact could be positive or negative, depending on how the RLDP is implemented	No significant impact likely

ISA objective	1. Equality	2. Air	3. Biodiversity	4. Climate	5. Heritage	6. Economy	7. Health	8. Soils	9. Landscape	10. Resources	11. Water
Plan vision/objective											
To create a fairer and more sustainable city by: <ul style="list-style-type: none"> • Responding to the urgent future needs for new homes, jobs and infrastructure; • Positively tackling the challenges of climate change and post-pandemic recovery; • Creating a greener, more equal and healthier city which is easier to move around and enhances the wellbeing of future generations; • Using a placemaking approach, working with local communities to improve neighbourhoods and deliver high quality design; • Looking after our natural, historic and cultural assets 	+		+	+	+	+	+	+			
1. Provide MORE homes to address future housing needs. The Plan will: <ul style="list-style-type: none"> • Provide a range and choice of new homes of different tenure, type and location in response to specific housing needs • Prioritise opportunities for new homes in sustainable brownfield locations • Set targets for the delivery of affordable housing • Provide a diverse mix of housing including responding to the needs of older people and other groups who need specialised housing • Set out the approach to the sub-division of existing homes. 	+		-				+	+/-			
2. Provide more jobs and maximise Cardiff's role as Capital City of Wales and economic driver of South East Wales to improve the prosperity of the region. The Plan will: <ul style="list-style-type: none"> • Ensure a range and choice of employment sites in response to employment needs • Facilitate the development of high-value clusters of specialist sectors • Ensure the protection of existing employment land which contributes to the required supply of sites to meet employment needs • Support the economic recovery of the city post-Covid-19 and respond to the change in work practices through increased working from home and need for new working and meeting hubs throughout the city. 			-	+		+		-	-		
3. Ensure the timely provision of new infrastructure to support future growth. The Plan will: <ul style="list-style-type: none"> • Identify key infrastructure required, how and when it will be delivered including: <ul style="list-style-type: none"> ○ Transportation- Different modes, public transport and Metro ○ Affordable, high quality digital infrastructure ○ Social/Community Infrastructure 		+		+		+	+			+?	

ISA objective	1. Equality	2. Air	3. Biodiversity	4. Climate	5. Heritage	6. Economy	7. Health	8. Soils	9. Landscape	10. Resources	11. Water
<p>Plan vision/objective</p> <ul style="list-style-type: none"> ○ Schools, health facilities, sport/recreation, waste facilities, burial provision ○ Environmental - Contributions to combat climate change and creating new accessible greenspace ● Support Cardiff's higher education institutions/ infrastructure in recognition of their key role as part of a learning city and contribution to economic development ● Support measures to improve digital connectivity across the city to meet the demand from increased working from home post covid and facilitate new working meeting hubs across the city. 											
<p>4. Respond to the climate emergency so Cardiff becomes more resilient, reduces its carbon footprint and maximises opportunities for energy-efficient solutions. The Plan will:</p> <ul style="list-style-type: none"> ● Set out how Cardiff can become more resilient and adapt to combat the impacts of climate change including: <ul style="list-style-type: none"> ○ The role of ecosystems in addressing carbon storage, natural flood management, air quality, heat islands and noise pollution ○ Guidelines for the design of resilient new developments ○ Managing flood risk ○ Facilitate the provision of infrastructure for cleaner vehicles ● Set out measures to reduce Cardiff's carbon footprint and mitigate the effects of climate change through reducing energy demand including: <ul style="list-style-type: none"> ○ Locating development in sustainable locations to minimise the need to travel and reduce car dependency ○ Improve energy efficiency and the generation of renewable and low carbon energy in new developments ○ Promoting an increase in tree canopy cover across the city ○ Promote high quality design and environmental performance of new homes. 			+	+			+		+		+
<p>5. Make the city easier to move around with a focus on sustainable and active travel. The Plan will:</p> <ul style="list-style-type: none"> ● Set out how people can move around the city in a more sustainable and integrated manner with new development well located to transport infrastructure 	+	+		+			+			+	

ISA objective	1. Equality	2. Air	3. Biodiversity	4. Climate	5. Heritage	6. Economy	7. Health	8. Soils	9. Landscape	10. Resources	11. Water
Plan vision/objective <ul style="list-style-type: none"> • Reduce the need to travel, reduce reliance on the car, reduce congestion and reduce harmful emissions • Set a modal split target • Promote sustainable forms of transport and the more effective integration of public transport including new transport interchanges • Promote active travel- Walking and cycling • Capitalise on national and regional investment in sustainable transport infrastructure including the Metro. 											
6. Create healthier environments, reduce inequalities and enhance wellbeing. The Plan will: <ul style="list-style-type: none"> • Support the delivery of healthier, accessible environments to help tackle obesity and promote healthier lifestyles • Set out how air quality can be enhanced • Promote the role of greenspaces in delivering wellbeing benefits • Manage waste and control pollution • Support the regeneration of local neighbourhoods, particularly the ‘Southern Arc’ of deprivation • Promote safer environments which reduce the scope for crime • Facilitate equitable access and opportunity to Welsh Medium education in all areas of the city so that the language continues to thrive. • Promote the provision of services and jobs in areas of highest need to reduce inequalities • Promote the role of Soundscapes in controlling noise pollution. 	+	+					+			+	
7. Ensuring a vibrant, mixed-use City Centre and developing Cardiff Bay’s full potential to provide core destinations for Cardiff and beyond, whilst supporting the key role of district and local retail centres as the heart of local neighbourhoods. The Plan will: <ul style="list-style-type: none"> • Maximise the key strategic role of the City Centre as a high density, major financial and service sector hub of national significance and generate the agglomeration effect in attracting further investment • Maximise the potential for high density mixed use development related to the regional sustainable transport hub • Support the ability of the city centre to adapt by encouraging mixed uses and further investment alongside the key retail role 						+		+			

ISA objective	1. Equality	2. Air	3. Biodiversity	4. Climate	5. Heritage	6. Economy	7. Health	8. Soils	9. Landscape	10. Resources	11. Water
<p>Plan vision/objective</p> <ul style="list-style-type: none"> • Continue the regeneration of land south of the regional transport hub • Ensure centres can operate as flexibly as possible where a variety of retail, employment, commercial, community, leisure, health and public sector uses come together in a hub of activity to make them viable as go-to destinations once more by setting out a vision for each centre, establishing boundaries and identifying sites for redevelopment. • Promote a new chapter in the regeneration of Cardiff Bay as a high density, mixed-use destination to identify: <ul style="list-style-type: none"> ○ The provision of supporting sustainable transport infrastructure ○ Enhancements to the Mount Stuart Square area and development of an arena at Atlantic Wharf including linkages to the Bay Waterfront ○ Future phases for the International Sports Village site ○ Regeneration of the Roath Dock/ Roath Basin and Alexandra Head areas. 											
<p>8. Ensure that the city positively adapts to the new challenges posed by the implications of the pandemic. The Plan will:</p> <ul style="list-style-type: none"> • Pick up on lessons learned to ensure that the city is more resilient and adaptable in the event of future pandemics • Support the economic recovery of the city after the pandemic has passed and restrictions eased • Identify wider changes required which also help the decarbonisation agenda, tackle climate change and improve general health and well-being • Identify any required positive permanent changes in places and as part of new development • Respond to the change in work practices post-Covid through increased working from home and need for new working and meeting hubs throughout the city. 		+		+		+	+				
<p>9. To use a placemaking approach which creates sustainable places, maximises regeneration opportunities, enhances the role of public spaces, ensures that future growth can be effectively managed and delivers new developments of high quality design. The Plan will: Use the placemaking principles as an overarching approach in plan-making to ensure:</p>							+	+	+	+	

ISA objective	1. Equality	2. Air	3. Biodiversity	4. Climate	5. Heritage	6. Economy	7. Health	8. Soils	9. Landscape	10. Resources	11. Water
Plan vision/objective <ul style="list-style-type: none"> • People and Community – The needs, health and well-being of all people are considered at the outset • Location - Development is promoted in the most sustainable locations and land is efficiently used with a ‘brownfield first’ priority • Movement - Sustainable and active travel are promoted as part of a more integrated movement network • Mix of Uses - Promote high density mixed-use development • Public Realm - Well designed and connected public spaces • Identity - Features of local distinctiveness are respected in new development • High quality design of new development. 											
10. Protect and enhance Cardiff’s Green and blue Infrastructure, its biodiversity and other natural assets. The Plan will: <ul style="list-style-type: none"> • Identify and set out how key natural assets of the city will be protected and enhanced including: <ul style="list-style-type: none"> ○ Open spaces, parks and allotments ○ The strategically important river valleys of the Ely, Taff, Nant fawr and Rhymney ○ The countryside, including strategically important ‘green backdrop’ formed by the ridge north of the City ○ Cardiff’s rich biodiversity and wildlife resource including designated sites and other features/networks including trees and hedgerows. • Recognise the wider role that green infrastructure can play in contributing to tackling climate change and providing healthy environments • Ensure natural resources are protected including mineral and sand/gravel resources and reserves. 			+	+					+/-	+	
11. Protect and enhance Cardiff’s historic and cultural assets together with supporting sustainable tourism and cultural sectors. The Plan will: <ul style="list-style-type: none"> • Identify and set out how key historic and cultural assets of the city will be protected and enhanced including: <ul style="list-style-type: none"> ○ The city’s Conservation Areas, Listed Buildings, Ancient Monuments, Registered Historic Landscapes and areas of archaeological importance ○ Other non-designated features which make important contributions to Cardiff’s historic and cultural distinctiveness • Maximise Cardiff’s role as an international tourism destination and host city of major events 					+	+					

ISA objective	1. Equality	2. Air	3. Biodiversity	4. Climate	5. Heritage	6. Economy	7. Health	8. Soils	9. Landscape	10. Resources	11. Water
Plan vision/objective <ul style="list-style-type: none"> • Set out how Cardiff's night time economy and music scene can form part of a vibrant and diverse city centre • Set out how the Welsh Language can be protected and enhanced in line with relevant legislation. 											

3. Suggested modifications to the RLDP vision and objectives

Table 2 shows modifications to the RLDP vision and objectives suggested as a result of the appraisal of Table 1. They include gaps (e.g. young people, reuse/recycling, healthy food, Gypsies and Travellers); ways of reducing negative impacts (e.g. prioritising the use of brownfield land for employment as well as housing sites, focus on achieving environmental targets); and clarifications (e.g. 'Soundscapes', 'Southern Arc'). The final column of Table 2 shows changes to the vision and objectives made by the Council in response to the appraisal. Where no changes has been made, an explanation is given about why.

Table 2. Suggested modifications to the RLDP vision and objectives, and Council response

Vision or objective	Suggested modification	Council response
General	The plan objectives are a somewhat-confusing mixture of doing ('provide', 'ensure', 'reduce') and preparing/planning to do ('investigate', 'set out an approach', 'set out how'). Do they need to be more consistent, one way or another (e.g. all doing)?	As the plan is at an early stage no preferred approach has been determined for some aspects of the plan. For these issues, the objectives are to 'investigate' etc. Where a preferred approach is known, it is stated in the objectives.
	Refer to environmental targets/standards: climate change objectives, achievement of air and water quality standards, biodiversity net gain.	Objective 4 changed to refer to One Planet Cardiff and Objective 6 changed to refer to air and water quality standards. The correct reference in the Welsh context is biodiversity enhancement as referenced in objective 10 and no further changes are therefore required.
Vision	Third bullet point: A "healthier city which is easier to move around" could encourage car-based travel. Better to stress accessibility rather than mobility, e.g. 15 minute neighbourhood approach.	Agree.
Objective 1	Bullet points 1 and 4 seem to duplicate each other.	Agree bullet points 1 and 4 merged.
	Add reference to Gypsies and Travellers.	Reference to Gypsies and Travellers added.
Objective 2	Objective 1 includes reference to prioritising brownfield land for housing, but Objective 2 does not do this for employment land.	Add "Prioritise opportunities for new employment sites in sustainable brownfield locations".
Objective 3	The list of infrastructure does not include water, wastewater and energy.	Water, wastewater and energy added.
Objective 4	Include reference to the One Planet Cardiff Strategy.	Include "in line with the One Planet Cardiff Strategy to become a carbon neutral city by 2030." Remove "reduces its carbon footprint" as this is covered by the above.
	Bullet point 2, sub-bullet point 2 limits improvements in energy efficiency etc.	Reference to new developments removed.

Vision or objective	Suggested modification	Council response
	to new developments. Widen this to all developments.	
Objective 5	“Capitalise on national and regional investment in sustainable transport infrastructure including the Metro” sounds odd. Reword to emphasise linking new development to sustainable transport infrastructure rather than capitalising on investment.	Agree amend to read “Integrate new development with national and regional investment in sustainable transport infrastructure including the Metro”.
Objective 6	Refer to access to healthy food.	Add “and access to healthy food” after tackle obesity in bullet point 1.
	Given the Welsh Government emphasis on future generations, refer to young people.	Add “To support strong and cohesive communities which recognises Cardiff’s commitment to make Cardiff a Child Friendly City and Age Friendly City”.
	Refer to reuse and recycling.	Reuse and recycling added.
	Remove reference to Southern Arc of deprivation.	Replace with “communities in the Southern Arc”.
	Access to Welsh Medium education sounds like it would fit better under Objective 11 on culture.	The point of the objective is to provide equality of access to Welsh Medium education, i.e. emphasis is on access so this point should remain under Objective 6.
	Clarify what Soundscapes are.	Replaced with “Promote the role of natural and hard infrastructure to reduce noise pollution”.
Objective 7	Last bullet point: “to identify” doesn’t fit with subsequent bullet points.	Agree amended to “with”. Also for clarity amend second bullet to “Maximise the potential for high density mixed use development related to the sustainable regional transport hub at Central Square”.
Objective 9	Include reference to dealing with need (e.g. for accessible food, green areas) or redressing imbalances.	As set out above, objective 6 amended to add reference to access to healthy food and issue relating to green areas is already covered in objective 6 where reference is made to promoting the role of greenspaces in delivering wellbeing benefits.
Objective 10	Refer to achievement of biodiversity net gain.	The objective is worded correctly in the Welsh context as it refers to biodiversity enhancement.

Appendix A. ISA framework (from ISA scoping report of March 2020, updated in August 2021)

ISA objective	Sub Objectives: Will the vision/objective/alternative/policy...
1. Help deliver equality of opportunity and access for all	<ul style="list-style-type: none"> • Meet the need of Cardiff's population for homes, jobs and community facilities • Address existing imbalances of inequality, deprivation and exclusion • Improve access to education, life-long learning and training opportunities • Improve access to affordable housing and employment opportunities, particularly for disadvantaged sections of society • Improve access to community facilities and services, particularly for young and elderly people • Support the regeneration of deprived areas
2. Maintain and improve air quality	<ul style="list-style-type: none"> • Reduce the need to travel through the location and design of new development, provision of public transport infrastructure and promotion of cycling and walking • Avoid locating new development, including active travel routes, where air quality could negatively impact upon peoples' health • Help to meet air quality standards for people and ecosystems
3. Protect and enhance biodiversity, flora and fauna	<ul style="list-style-type: none"> • Maintain and achieve favourable condition of international and national sites of nature conservation importance (SACs, SPAs and SSSIs) • Maintain extent and enhance the quality of locally designated sites (LNRs and SNCIs) and LBAP priority habitats • Protect and enhance protected species and LBAP priority species • Maintain and enhance connectivity of corridors of semi-natural habitats • Provide opportunities for people to experience wildlife and habitats • Help to provide a net benefit for biodiversity, consistent with Planning Policy Wales 10
4. Reduce emissions of greenhouse gases and adapt to the effects of climate change	<ul style="list-style-type: none"> • Support energy conservation and energy efficient design • Promote renewable energy generation • Promote efficient land use patterns that minimise the need to travel • Promote sustainable modes of transport and integrated transport systems • Reduce vulnerability of the built environment to the effects of climate change • Help Cardiff to achieve the One Planet Cardiff vision to become a carbon neutral city by 2030
5. Protect and enhance historic and cultural heritage, including the Welsh Language	<ul style="list-style-type: none"> • Protect and enhance historic and cultural assets including scheduled ancient monuments, listed buildings, historic parks and gardens, historic landscapes and conservation areas • Encourage access to the historic and cultural heritage • Support local character and distinctiveness through good design • Support the use of the Welsh Language
6. Help deliver the growth of a sustainable and diversified economy	<ul style="list-style-type: none"> • Increase the number and range of employment opportunities • Support and enhance the role of Cardiff as a key economic driver of South East Wales city region • Promote and support city and local centres, local employment opportunities and mixed use development • Support a post-pandemic green recovery

ISA objective	Sub Objectives: Will the vision/objective/alternative/policy...
7. Improve health and well-being	<ul style="list-style-type: none"> • Reduce health inequalities • Encourage and facilitate walking and cycling, particularly in green infrastructure • Protect, and improve access to, open space, the countryside and other opportunities for physical activity • Improve environmental quality by minimising adverse impacts on health and wellbeing from pollution, flooding and waste management disposal • Promote good design that minimises adverse impacts on health and wellbeing from crime and road traffic accidents
8. Use soils and minerals efficiently and safeguard their quality	<ul style="list-style-type: none"> • Re-use derelict and other previously developed land • Remediate contaminated and unstable land • Safeguard soil quality including the best and most versatile agricultural land, and protect and enhance allotments • Safeguard mineral resources and encourage their efficient and appropriate use
9. Protect and enhance the landscape	<ul style="list-style-type: none"> • Protect and enhance the landscape including the countryside, areas of landscape value, river valleys, greenspaces and the undeveloped coastline • Protect and enhance Cardiff's Special Landscape Areas • Promote high quality design in keeping with its landscape context • Increase access to open space
10. Minimise resource use and waste, increase re-use and recycling	<ul style="list-style-type: none"> • Reduce Cardiff's ecological footprint • Promote resource efficiency and the use of secondary and recycled materials • Promote waste reduction, re-use, recycling and recovery
11. Maintain and enhance water quality and resources, and manage flooding	<ul style="list-style-type: none"> • Conserve water resources and increase water efficiency • Improve the water quality of rivers, lakes, groundwaters and coastal areas • Ensure that a precautionary approach is applied, and that the location and design of new development manages the potential risks and consequences of flooding down to an acceptable level. • Ensure new developments have adequate sustainable drainage systems • Help to achieve water quality standards

Appendix 5: Engagement Plan for Strategic Options and Sites Consultation

Introduction

The next stage in the preparation of the Replacement LDP is consultation on strategic options, which will commence in late November 2021 and run for 10 weeks until early February 2022.

This consultation plan sets out the consultation and engagement we will undertake as part of this next stage under the following headings:

1. Use of Social Media

We will use the Council's Facebook, Twitter and Instagram sites to publicise and explain the consultation process, with a comprehensive and targeted campaign of posts over the 10 week consultation period using the agreed LDP Branding.

2. On-line Survey

We will develop an accessible on-line survey so residents and stakeholders can make their comments on the consultation easily on-line. This will be hosted on the Council's Replacement LDP website and will be publicised via the social media campaign and mail out to residents and stakeholders on the LDP consultation database.

3. Virtual Consultation Room

We will host a fully bi-lingual virtual consultation room on the Council's Replacement LDP webpage, which will include a short film explaining the consultation process and how people can engage in the process, a range of display panels, the on-line survey and copies of the consultation documentation.

4. Launch Event

We will host a launch event at the start of the consultation period. This will be a virtual event and will explain the consultation process and how you can get involved and will be open to residents and stakeholders to attend.

5. A Broad Range of themed Focus Workshops

We will engage directly with stakeholders through a broad range of themed focus workshops and we will work with partner organisations to support these sessions to foster open discussion of issues participants consider the new LDP should address. The themed workshops we proposing are listed below but this is not exhaustive and we are happy to consider further suggestions:

- Focus Workshop 1 – Representatives of Black and Minority Ethnic Groups
- Focus Workshop 2 – Representative of Homeless Groups and those on Council Waiting Lists
- Focus Workshop 2 – Representatives of Environmental Groups

- Focus Workshop 3 - Representatives of Young Peoples Groups
- Focus Workshop 4- Representatives of Older Peoples Groups
- Focus Workshop 5 – Representatives of unemployed Groups
- Focus Workshop 6 – Representatives of disabled and Access Groups
- Focus Workshop 7 – Representatives of Landowner/developer Groups
- Other Groups to be confirmed such as the Cardiff Music Board, Landlord’s Forum, Heritage and Civic Societies

These workshops will be held virtually or via a hybrid approach depending on Covid restrictions at the time of the consultation.

6. Public drop in face to face events

A series of public drop in face to face events will be arranged across the city so residents and stakeholders have an opportunity to talk through the consultation exercise with Officers face to face within the LDP Team. The precise format of these events will depend on the Covid restrictions in place at the time of the consultation. However, steps will be made to ensure the ability to talk direct with Officers be this either in an outside location, pre-arranged appointment system or an indoor drop in event.

7. Engagement with stakeholder groups and networks

Officers will be available to attend meetings of stakeholder groups and networks to brief them on the consultation process and how they can comment and gather feedback to feed into the new LDP preparation process.

8. Engagement with Community Councils

Prior to the launch of the consultation a virtual briefing session will be held with Community Council’s to explain the purpose of the consultation and how they and their local areas can get involved in the process and how they can disseminate information to their local area. Following this Officers in the LDP Team will be available to respond to any queries and provide further information.

9. Engagement with Members

Prior to the launch of the consultation a virtual Member briefing session will be held to explain the purpose of the consultation and how they and constituents can get involved in the process and how they can disseminate information to their local area. Following this Officers in the LDP Team will be available to respond to any queries and provide further information.

10. Scrutiny Process

Prior to the launch of the consultation a process will be agreed with the Chairs of the Scrutiny Committee’s to ensure they can feed their comments into the consultation process.

23rd Sep 2021

Councillor Caro Wild,
Cabinet Member for Strategic Planning & Transport
Sent via e-mail

Dear Councillor Wild,

CARDIFF REPLACEMENT LOCAL DEVELOPMENT PLAN: VISION, ISSUES AND OBJECTIVES & INTEGRATED SUSTAINABILITY APPRAISAL SCOPING REPORT

On behalf of all of Cardiff Council's Scrutiny Committee Members, we would like to thank you, your Cabinet colleagues, and officers for attending the September Scrutiny meetings and providing Committee Members with an opportunity to feedback on the proposals contained in the Cardiff Replacement Local Development Plan Report to Cabinet.

The observations and recommendations offered by each Scrutiny Committee are provided in this letter.

Children & Young People Scrutiny Committee

CYPSC Members noted the statements from the Cabinet Members, particularly the commitment for the LDP to have children and young people at the heart of its development. Members documented the commitment from all Cabinet Members that embedding a child friendly approach was critical in the development of the Plan.

CYPSC Members endorsed the Cabinet Members' commitments to engage with children and young people and welcomed the news that a range of methodologies (including working with schools, use of a variety of digital platforms, social media etc) would be adopted to encourage this. Councillor Wild gave an assurance that he was working with Cllr Merry and officers within Education and Planning to develop a more detailed plan for engaging with children & young people and CYPSC Members would welcome the opportunity to be briefed on this in due course.

More widely, CYPSC Members asked about engagement with diverse groups and were informed that further work was being done on this within the corporate framework, which needed to be fit for purpose and bespoke to the individual groups and communities affected. CYPSC Members would therefore request that further details on how the Council will engage with diverse groups and individuals be submitted to all scrutiny committees when available.

CYPSC Members welcomed the acknowledgement that schools are recognised as being at the heart of the community and the 15-minute communities' approach. CYPSC Members

would like to support this statement and would call for a higher priority to be given to schools in future planning and decision making for the city. CYPSC Members believe that schools play an important part in how the city operates on a daily basis, and consideration must be given to their impact environmentally in terms of reducing emissions through private vehicle use and resulting impact on pollution, air quality, health etc.

In addition, schools must not be seen as a separate entity, but a crucial part of the community, connected with the services around them (including youth facilities). In line with other issues the Committee considers on a regular basis, schools serve an important role socially, for example the role of schools in the pandemic recovery, home schooling, summer of smiles, social interaction and improving aspirations for young people. Linked to this, Members would welcome any views on linking school curriculum development and careers advice to growth sectors, which they were unable to consider in detail at the meeting.

CYPSC Members also felt strongly about the economic impact on schools, particularly any provision (e.g., sports) being provided within schools by external providers and to ensure that this does not result in a cost bearing for the school. Any facilities should be consulted on, to ensure that this is what the community needs and must be cost neutral. CYPSC Members would seek assurances on this.

CYPSC Members agreed that it is crucial that the various strands of other plans and strategies such as the Transport Plan, One Planet Cardiff, Corporate Plan, active travel, safe routes, school catchment, the 21st Century schools programme, Child Friendly City objectives, Infrastructure plan etc are all linked together. Members would welcome feedback on this.

CYPSC Members asked whether any review was being undertaken on the current LDP and proposals for the Replacement LDP – have current commitments been met? Are there factors that connect the two? What needs to be transferred from current to replacement plan? Members would welcome further details on this, and any review be shared with all Scrutiny committees for further consideration.

Community & Adult Services Scrutiny Committee

The vision cited at the meeting, to create exemplar communities that are the best in the UK, was pleasing to hear and Committee Members urge you to ensure that this becomes a central, leading theme throughout this LDP process and therefore **recommend** the draft RLDP vision be amended to ensure this significant objective, to provide exemplar houses and communities which are the best in the UK is included.

In line with this vision, the Committee explored how the RLDP would ensure private housing developers contribute to ensuring this vision is achieved and Members highlighted the importance of the RLDP containing enough detail and authority to ensure developers adhere.

The response to this query was welcoming and it was confirmed the RLDP will reinforce the current LDP by providing clear, explicit instruction to developers along with the continued production of other documents such as Masterplans, SPGs and design guidance to ensure this objective is achieved.

During the meeting Committee raised the overestimation of previous populations projections, and clarity was sought on if this meant that additional large parcels of land are now not required within the RLDP. Members note the comments made in response surrounding the fluidity of projections and welcome the focus on quality of developments highlighted by officers. However, it is still unclear to Members if this previous over projection means additional development sites do not need to be sought within the Plan and would welcome further clarity on this point. Further to this, given the importance of the RLDP and its lasting ramifications, Members wish to highlight some of the answers provided by officers at the meeting proved lengthy and vague and were at times difficult to decipher. Members appreciate the RLDP is a complex process however wish to stress that when communicating the topic, this is done in a clear, engaging, and clarified manner to ensure thorough understanding is obtained.

Members welcomed the recognition surrounding the importance of the Plan addressing the need for affordable housing, houses for younger disabled people and liveable communities through the development of sufficient and timely infrastructure and, as offered at the meeting, Members would welcome sight of the draft Masterplans regarding community infrastructure. Regarding the issue of the viability for private developers including affordable housing in their developments, Members would appreciate further clarity on how this will be addressed.

Given the importance of the RLDP, the limited response to the public consultation was disappointing. Indicating to Members it does not provide adequate feedback from Cardiff residents nor insight from harder to reach groups. It is vital that the Plan facilitates the opportunity to engage with Cardiff residents and amplifies their voices; particularly those hardest to reach and Members welcome the intention to broaden the consultation process during the Plans next steps. However, Members do wish to stress that when broadening consultations, a cautious approach should be applied to ensure feedback is received from relevant individuals who live in Cardiff. In line with this, Members **recommend** additional avenues for generating public awareness and encouraging engagement with the Plans future consultations is sought through the use of local radio and television stations, particularly if social distancing restrictions remain or increase, and, when restrictions allow, in-person consultation exercises or public drop-in sessions are conducted.

To address the issue of density, Members highlighted the need for minimum standards for accommodation sizes and **recommend** at an appropriate time a square footage limit for properties be included in the Plan.

Economy & Culture Scrutiny Committee

Members explored the role of the Replacement LDP in protecting and enhancing specific areas that fall within this Committee's terms of reference. Specifically, Members note:

- Music – the Head of Planning has attended several Cardiff Music Board meetings to discuss and understand their views on the interface between planning and the music ecology of Cardiff, including the Night-time Economy.
- Sport & Leisure – parks officers will be involved in the process of checking candidate sites to ensure potential for green space, playing fields, playgrounds and similar are appropriate and not subject to flooding or other issues that will make them unsuitable or difficult to manage
- Employment Land – there is clear recognition of the need to protect existing employment land and to ensure good quality employment land is allocated that can provide good employment opportunities. Members also note Councillor Goodway's point that the current administration has agreed employment areas, as set out in the current Economic Strategy, with Cardiff East focusing on industrial employment, Cardiff North focusing on innovation & science employment etc., and that the replacement LDP needs to facilitate delivery of this policy. Members were interested in the discussion that followed regarding the role of Welsh Government and future Corporate Joint Committees and note Councillor Goodway's belief that these will have a light touch and replicate the current City Deal in terms of interface between regional and local policy.
- Climate Emergency – proposed objectives, coupled with the aim to deliver One Planet Cardiff, aim to protect and enhance Cardiff's green and blue spaces, including the seascape. These ensure that the replacement LDP goes further than carbon neutrality and promotes biodiversity, sustainability, and mechanisms to tackle the climate emergency.

Members understand the Preferred Strategy and Deposit Plan will contain detailed policies that aim to protect and enhance the natural and built environment of Cardiff, as well as setting out new development. Members will look to test these, to ensure they provide sufficient support in the key areas set out above.

In addition, Members explored the proposed approach to future consultation on the replacement LDP and were keen to understand how these will include under-represented groups, particularly applicants on the Housing Waiting List, people who are homeless, children and young people. Members were pleased to hear plans include focused workshops

for these groups and bespoke accessible branding to encourage engagement. Members also sought clarification on how key stakeholders in the culture, music and sports sectors will be involved and note that several stakeholder groups from these sectors are included in consultation plans and that officers are happy to receive suggestions of groups to add to these.

Finally, Members discussed the difference in population projections for the existing LDP and the replacement LDP. Members note that future consultation will include ranges of population projections, with narrative on spatial distribution of growth. Members also note the points made by the Director of Planning, Transport and Environment, Andrew Gregory, that it is important to find the middle ground in population projections and growth to avoid stop-start allocations and build.

Environmental Scrutiny Committee

Members welcomed the statements made by the Cabinet Member and Officers, particularly the point that the LDP needs to go beyond that of simply a tool for land use policy but rather a document that is a Corporate Vision of how Cardiff can move forward, aligning with major Council Strategies such as the Post Pandemic Recovery and the One Planet Cardiff Strategies.

Members note the comments made in relation to the above and further overlapping agendas across the Council and the critical nature of these strategies coming together collectively in order to get the added value. Carbon neutral was a key example discussed and Members expressed concerns over the achievement of this against the pressures for development which in itself, creates carbon. The Committee were reassured of the benefits that were already evident from interconnecting approaches such as the One Planet Cardiff work and the Transport White Paper targets with evidence suggesting that this work will eventually achieve 20% of the target set for the conversion of the City to zero carbon by 2030. Officers advised that the integration of further strategies, including the LDP, will drive forward low carbon development, which is critical to achieving carbon zero as well as economic recovery.

On the subject of open space, the Committee noted the comments made by officers that protection of open space and access to it had been clearly evident in the results of the consultation over the RLDP. Members were reassured that one of the main aims of the RLDP was to supercharge green in the City; to encourage new development that secures aspects such as green infrastructure, parks, and supports the Council's policy and National policy in tackling climate change.

The Committee highlighted concerns over houses that have been built under the current LDP with virtually no uptake of sustainable energy regeneration or micro generation. Members

explored how this was to be achieved under the Replacement LDP, particularly through private development. Officers advised that there were strong targets and requirements under the One Planet Cardiff Strategy as well as strong policy requirements within Planning Policy Wales in the National Planning Framework. Changes to building regulations, Officers stated, were also putting requirements on developers to ensure they consider the Environmental impact and build appropriately as was intervention by the Council and other partners. All these aspects, as well as others, we were informed, can be incorporated into a new Policy Framework under the RLDP. Whilst appreciating this, Members expressed concerns that historically there have been issues over policies not being strong enough, regulations and SPG not robust enough and not up to date, that has meant developers have not had to meet requirements. Members stressed the importance of having strong enough policy and framework that committed developers and agreed to explore this further through future consideration of the RLDP process.

In relation to the consultation undertaken, the Committee commented on the low number of respondents from the 16-24 category and questioned how this was to be addressed for future consultation over the RLDP. Members noted the response from Officers that there were plans for more engagement with schools to directly engage children and young people, however it was noted that some of this category would encompass university students. Given the previous controversy over student accommodation under the current LDP, the Committee **recommend** that the Council also engage university students directly as the current response indicates that online engagement may not be as effective.

The Committee requested to receive information as part of their future consideration of Waste management on the proposed 'pop-up' recycling services referred to by Cllr Michael in order to address the concerns of some Members over the loss of the recycling facility in the North of Cardiff.

The Committee queried how leaders and representatives of various focus groups were being identified, such as those from BAME backgrounds or people with disabilities, as sometimes these are not necessarily representative of the group concerned. Members asked for clarification as to how these groups were consulted, how representatives were identified, and how many of the 1215 responses were from BAME backgrounds or from people with disabilities. Furthermore, Members **recommend** that future consultation look to engage with Council Members who are from these backgrounds and utilise their knowledge of these communities. Members expressed awareness of considerable engagement with BAME communities during the pandemic over Covid related issues, but simply via different and innovative approaches. The Committee proposed that these be explored to improve the Council's own engagement with these groups, particularly for the RLDP.

During their discussions, Members sought reassurance that the Bus Strategy would be incorporated in the future RLDP. Members note the point made by Officers that planning identifies development in sustainable locations and recognises therefore a direct link between access and connectivity to a frequent and reliable bus service and the location of development.

The Committee touched upon the difference between Community Infrastructure Levies and Section 106 agreements to which Officers clarified that the former was a fixed landcharge. Members welcomed the offer to explore this in further detail at a future Scrutiny Committee.

Members referred back to a previous UK Government funded Eco3 Retrofit Scheme that the Council had decided a few years ago not to participate in. The Committee requested clarification on whether the Council would now be reconsidering taking part in this annual fund.

Following their discussion, the Committee agreed that they wished to progress Scrutiny of the next stages of the RLDP via a Task and Finish Group whereby there is cross-representation from all 5 Scrutiny Committees in order to ensure that all aspects affected by the RLDP are able to be considered.

Policy Review & Performance Scrutiny Committee

Members wish to thank you for the positive comments made regarding the Committee's discussion on this item and hope this reflects the overall value of Scrutiny within the RLDP decision-making process.

During our discussion, Members explored if sites currently approved will adequately address population projections and were informed that at present this is difficult to predict. Further, detailed analysis on the population projections and of the potential housing capacity of existing approved planning permissions for large sites will be conducted. When assessing population projections, Members wish to highlight that the impact of both Brexit and the Covid pandemic be recognised, along with the needs of vulnerable groups, such as those on the housing waiting list and those seeking affordable housing.

The Committee highlighted the constraints of online consultations and difficulties of certain groups in engaging with such methods. In addition, we also reiterated the importance of ensuring wide-ranging public awareness of a consultation to stimulate engagement. In line with this, and as a supplement to the recommendations already detailed in this letter, the Committee **recommend** that specific, targeted messaging is deployed during the consultation

process to both raise awareness and encourage engagement. This should include developing a young person focused consultation through social media and working more closely with schools and workplaces to disseminate information about the consultation. Further to this, hard copies detailing the RLDP should also be available within the city's libraries and hubs along with an accessible handout, presented in an engaging manner to stimulate public interest and engagement.

Members sought clarity on the scope of the candidate sites and were informed that it is currently too early in the process to advise. However, as highlighted at the meeting and welcomed by yourself and officers, Members **recommend** that prior to the potential candidate sites being launched, Councillors in affected wards are provided with a confidential high-level briefing to ensure they are pro-actively informed. It is also to note, the date cited at the meeting on when information on the potential candidate sites would be available was unclear to Members as both September and November were referenced. Members would welcome confirmation on the exact date this information will be known and in the public domain. We will also expect clarification, for each site, on whether it is brownfield, greenfield or mixed.

Members note and welcome the comments made regarding placemaking, housing design and quality being an essential objective for the Plan and note this will be reinforced through the development of an Infrastructure Plan. The Committee also sought assurance on the policy of zero carbon being applied to existing approvals and note that this is being applied in line with Welsh Government policy framework along with the Council's specific policy such as One Planet Cardiff. In line with this, Members **recommend** the LDP objectives be revised to include the importance of addressing embodied carbon, particularly in existing buildings and to acknowledge and give due consideration to carbon use when demolishing existing buildings.

The Committee highlighted and welcomed the policy to increase tree canopy cover and the subsequent difficulties in determining appropriate sites. We were assured that this will be mitigated through continued liaison with landowners and elected Members along with the implementation of schemes such as the Coed Caerdydd project.

Finally, Members highlighted the importance in maintaining and protecting buildings of historical value and sought assurance that affordability of such works has been considered and Members note and welcome the assurance and detail provided at the meeting on how this will continue to be managed.

Requests following this scrutiny

For ease of reference the requests contained in the letter are as follows.

- A copy of a detailed plan for engaging with children & young people during this process, which is currently being developed between Education and Planning;
- Further details on how the Council will engage with diverse groups and individuals, when available, and this be submitted to all Scrutiny Committees;
- Views and feedback on ensuring that schools are recognised as a priority for future planning and decision making for the city, to include assurances regarding environmental, social and economic factors. In addition, CYPSC Members would wish to receive further information on linking school curriculum development and careers advice to growth sectors, which they were unable to consider in detail at the meeting;
- Further details on how the LDP will be linked with other major plans and strategies; and
- Details/outputs from any review being undertaken on the current and replacement LDPs and shared with all Scrutiny Committees, to address the following:
 - Have current commitments been met?
 - Are there factors that connect the two?
 - What needs to be transferred from current to new plan?
- If further land needs to be sought in the RLDP following the overestimate of previous population projections.
- How the issue of viability amongst private housing developers will be addressed.
- Sight of the draft master plans regarding community infrastructure
- The date, information on public candidate sites will be shared with Members and be placed in the public domain.
- Clarification as to how people from BAME backgrounds or people with disabilities were consulted, how representatives were identified, and how many of the 1215 responses were from BAME backgrounds or from people with disabilities.
- Clarification on whether the Council would now be reconsidering taking part in this annual UK Government funded Eco3 Retrofit Scheme.

Recommendations to be monitored following this scrutiny

To summarise, the Scrutiny Committees makes 8 formal recommendations which are set out below. As part of the response to this letter we would be grateful if you could, for each recommendation, state whether the recommendation is accepted, partially accepted or not accepted and summarise the Cabinet's response. If the recommendation is accepted or partially accepted, I would also be grateful if you could identify the responsible officer and provide an action date. This will ensure that progress can be monitored as part of the approach agreed by Cabinet in December 2020.

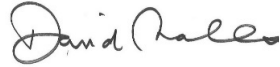

Recommendation	Accepted, Partially Accepted or Not Accepted	Cabinet Response	Responsible Officer	Implementation Date
1. The draft RLDP vision be amended to ensure the objective, to provide exemplar houses and communities which are the best in the UK is included.				
2. The LDP objectives be revised to include the importance of addressing embodied carbon, particularly in existing buildings and to acknowledge and give due consideration to carbon use when demolishing existing buildings.				
3. Additional avenues for generating public awareness and encouraging engagement with the Plans future consultations is sought through the use of local radio and television stations, particularly if social distancing restrictions remain or increase, and, when restrictions allow, in-person consultation exercises or public drop-in sessions are conducted.				
4. Specific, targeted messaging is deployed during the consultation process to both raise awareness and encourage engagement. This should include developing a young person focused consultation through social media and working more closely with schools and workplaces to disseminate information about the consultation. Further to this, hard copies detailing the RLDP should also be available within the city's libraries and hubs along with an accessible handout, presented in an engaging manner to stimulate public interest and engagement.				
5. That future consultation look to engage with Council Members from BAME backgrounds and utilise their knowledge of these communities. Members expressed awareness of considerable engagement with BAME communities during the pandemic over Covid related issues, but simply via different and innovative approaches. The Committee proposed that these be explored to improve the Council's own engagement with these groups, particularly for the RLDP.				
6. That the Council also engage university students directly as the current response indicates that online engagement may not be as effective.				
7. Prior to the potential candidate sites being launched, Councillors in affected wards are provided with a confidential high-level briefing to ensure they are pro-actively informed.				

8. At an appropriate time, a square footage limit for properties be included in the Plan.

**REPORT OF DIRECTOR OF GOVERNANCE AND LEGAL SERVICES
AND MONITORING OFFICER**

ALLOCATION OF SEATS AND APPOINTMENTS TO COMMITTEES**Reason for this Report**

1. The Council is requested to review and determine the allocation of seats on Committees to political groups in accordance with the Political Balance Rules; and to receive nominations and make appointments of Members in respect of any changes to be made, in accordance with Party Group wishes.

Background

2. At its Annual Meeting on 27 May 2021, Council determined the establishment of its Committees, together with their size and terms of reference, and the allocation of seats on committees to political groups in accordance with legislation.
3. The Local Government and Housing Act 1989 requires the Council to allocate Committee seats to political groups in proportion to the size of the groups on the Council as far as is reasonably practicable.
4. After any change in the political composition of the Council, as soon as reasonably practicable, the Council is required to review and determine the allocation of committee seats to political groups in accordance with the political balance rules.

IssuesPolitical Balance

5. Following the resignation of Councillor A Gibson from the Propel Party on 4th August 2021, and the resignation from the office of Member of the Heath and Birchgrove Independent Member with effect from 29th September 2021, the composition of the Council will be as set out in Table A:

TABLE A - Composition of the Council as at 30 September 2021:

Groups and Independents	Number of Councillors	Political Balance
Labour	38	50.67%
Conservative	21	28.00%
Liberal Democrat	11	14.67%
Propel	3	4.00%
Independent Member (Ely)	1	1.33%
Vacancy Heath Ward (29 th September 2021)	1	1.33%

Allocation of Seats

6. The total number of seats on the Committees which are subject to the political balance requirements is 144, as detailed in **Appendix A**. Based on the current composition of the Council (shown in Table A), the proportional allocation of seats on those Committees is as set out in Table B:

TABLE B – Allocation of Seats in accordance with Political Balance

Groups and Independents	Number of Committee seats
Labour	73
Conservative	40
Liberal Democrats	21
Propel	6
Independents	4
Totals	144

7. The proportional allocation of seats has changed and has been re-balanced, in consultation with party group leaders and whips and the independent Member, as follows:
- The Labour Group is to transfer 2 seats (one on Democratic Services Committee and the other on Council Appeals Committee) to the Independent Member
 - The Conservative Group is to transfer 1 seat (on Public Protection Committee) to the Independent Member
 - The Propel Party is to transfer 1 seat (on Community & Adult Services Scrutiny Committee (CASSC)) to the Independent Member

(There are no changes to the Liberal Democrat group allocation.)

8. This revised allocation has meant that the overall political balance is now within + 0.24 and - 0.32 of a committee seat for all political groups. However, Members should note that the political balance requirements will need to be revisited once a new Member is elected to fill the current vacancy.

Nominations and Appointments to Committees

9. Groups may wish to make known their nominations in respect of any changes to the Members who are to represent the group on each committee at the Council meeting. Alternatively, the Director of Governance and Legal Services and Monitoring Officer may be asked to exercise her delegated authority (reference LD17) to make appointments to fill committee seats or any changes to be made in accordance with the wishes of the political groups and then report the appointments and any changes to the next Council meeting for information.
10. It is the duty of the Council to make appointments as soon as practicable and to give effect to the stated wishes of party groups regarding who is to be appointed to the seats allocated to that particular group.

Legal Implications

Political balance

11. Sections 15 to 17 of the Local Government and Housing Act 1989 (“the 1989 Act”) and the Local Government (Committees and Political Groups) Regulations 1990 (“the 1990 Regulations”) lay down requirements designed to ensure that there is political proportionality on Committees. The rules apply to all ordinary committees, advisory committees, scrutiny committees, the Democratic Services Committee, Audit Committee and joint committees where the Council appoints three or more seats. The rules do not apply to the Standards and Ethics Committee or the Licensing Committee. However, by custom and practice, the Council has elected to apply the political proportionality rules to the Licensing Committee; and has appointed one Member from each of the three largest political groups to the Standards and Ethics Committee to ensure political balance
12. After any change in its political composition, as soon as reasonably practicable, the Council is required to review the political make up of its Committees, and determine the allocation of seats to political groups in accordance with the principles set out in Section 15 of 1989 Act, those principles being:
 - (a) not all seats on a Committee should be allocated to the same political group;
 - (b) the majority group on the Council should form the majority on the Committee;
 - (c) subject to (a) and (b), that the proportion of seats allocated to each political group on the total of all Committees should be the same as the proportion of Council Members who belong to that group; and
 - (d) subject to (a)–(c), that the proportion of seats allocated to each political group on each Committee should be the same as the proportion of Council Members who belong to that group.
13. Where not all Members of an authority belong to a political group, then any seats remaining unallocated after the proportional allocation of seats to the political groups, are allocated to those Members not belonging to a political group (Regulation 16 of the Local Government (Committees and Political Groups) Regulations 1990, ‘the 1990 Regulations’).

14. Where a local authority has determined the allocation of political groups on a Committee, it is under a duty to give effect to the wishes of those groups with regard to the identities of the persons who are to represent that group on the Committee (pursuant to Section 16 of the 1989 Act). Regulation 14 of the 1990 Regulations requires political groups to be notified of their allocation on a committee in order that they may nominate individuals to serve on that committee. Regulation 15 contains a residual power for the Council to make appointments if the political groups fail to do so. However, apart from this provision, the Council has no discretion in the matter - its function is simply to make appointments, which give effect to the wishes of the political groups.
15. The wishes of a political group are to be taken as those expressed to the Proper Officer (a) orally or in writing by the leader or representative of the group; or (b) in a written statement signed by a majority of the members of the group. In the event that different wishes of a political group are notified, the wishes notified in accordance with point (b) shall prevail (Regulation 13).
16. A political group is identified when two or more members of the Council who wish to be treated as a political group write to the Proper Officer to inform him of that fact and of their name and the identity of their leader. A person joins a particular political group by sending a notice signed by him/her and the leader of the group. People may cease to be members of the group by notifying the Proper Officer (the Monitoring Officer) of their resignation, joining another group, or being ousted by a notice signed by a majority of the members of the group.
17. Full Council is responsible for determining the composition of its committees and making appointments to them, except as lawfully delegated. Under its approved Scheme of Delegations (Section 4E, delegation reference LD17), Council has delegated authority to the Monitoring Officer 'To appoint councillors or non-councillor members to committee seats allocated to political groups or nominating bodies (or to make changes, fill vacancies or give effect to temporary membership changes – "substitutions") in accordance with the wishes of political groups or member nominating body.'

Financial Implications

18. There are no direct financial implications arising from this report. Remuneration payments are to be made in accordance with the rates applicable through the Members' Schedule of Remuneration, and contained within the allocated budget.

RECOMMENDATIONS

The Council is recommended to:

- a. approve the revised allocation of seats on Committees as set out in **Appendix A**;
- b. in accordance with nominations from the groups, make any changes to the appointments of Members to the seats allocated to each group;
- c. appoint Councillor Gibson (Independent Member) to the Community & Adult Services Scrutiny Committee.

- d. request the Monitoring Officer to make appointments in respect of any remaining vacancies in accordance with any further nominations or changes received from the relevant political groups following this meeting, and to report to the next Council meeting the details of all appointments to committees for information.

DAVINA FIORE

Director of Governance and Legal Services and Monitoring Officer

**REPORT OF DIRECTOR OF GOVERNANCE AND LEGAL SERVICES
AND MONITORING OFFICER**

**APPOINTMENT OF AN INDEPENDENT MEMBER TO THE GOVERNANCE AND
AUDIT COMMITTEE****Reason for this Report**

1. To receive the recommendation of the Governance and Audit Committee for the appointment of an Independent Member to the committee.
2. To appoint the recommended candidate as an Independent Member of the Governance and Audit Committee.

Background

3. At the Annual meeting on 27 May 2021 Council approved the establishment and terms of reference of the Governance and Audit Committee, and the composition of the committee of 12 Members comprised of 8 Elected Members and 4 Independent Members.
4. Following the resignation of Ian Arundale as an independent member of the Audit Committee on 23 March 2021, the Governance and Audit Committee established an appointments panel to recruit an Independent Member to serve on the committee in his place.
5. A recruitment exercise was undertaken and the notification of vacancy was published in local newspaper and on the Council's website. The Council website also provided additional information about the role and the requirements of being an independent member of the committee.

Issues

6. The recruitment exercise concluded on the 24 September with the Appointment Panel interviewing all shortlisted candidates.
7. The Panel is to report its recommendation on appointment to the meeting of the Governance and Audit Committee to be held on 28 September 2021.
8. The Committees recommendation on appointment will be included on the amendment sheet for Council which will be published on 30 September 2021.

Legal Implications

9. The Local Government (Wales) Measure 2011 (section 82) provides that there must be at least one lay member on the Governance and Audit Committee or up to a third of the total membership. The current composition of the Governance and Audit Committee includes four non - councillor 'Independent Members' seats and 8 Councillors. This proportion of Independent Members is one third of the Committee members, which is currently the maximum permitted by law. However, Members should note that from May 2022, there will be a requirement that one third of the Committee are lay members (under the Local Government and Elections (Wales) Act 2021).
10. The Committee can include no more than one Cabinet member, who may not be the Leader. The Governance and Audit Committee is subject to the political balance rules. Statutory Guidance recommends that all Members of the Committee should display independence of thinking and unbiased attitudes, and must recognise and understand the value of the audit function.

Financial Implications

11. There are no direct financial implications arising from this report.

RECOMMENDATIONS

The Council is recommended:

12. To receive the recommendation of the Governance and Audit Committee for the appointment of an Independent Member to the committee; and
13. Subject to the receipt of satisfactory references, to appoint the recommended candidate as an Independent Member of the Governance and Audit Committee for an initial 5 year term of office, with the possibility of reappointment for one further 5 year term.

DAVINA FIORE

Director of Governance and Legal Services and Monitoring Officer

24 September 2021

COUNCIL:**30 SEPTEMBER 2021**

REPORT OF THE HEAD OF DEMOCRATIC SERVICES

SUBSTITUTION TO COVER FAMILY ABSENCE**Reason for this Report**

1. To agree a substitution for a senior salary holder to cover the family absence of an Elected Member.

Background

2. Under Part 2 of the Local Government (Wales) Measure 2011 and Regulations made thereunder (The Family Absence for Members of Local Authorities (Wales) Regulations 2013, 'the Family Absence Regulations'), elected Members are entitled to a period of family absence. As required under Regulation 37 of the Family Absence Regulations, the Council has adopted Family Absence Procedure Rules, set out within Part 4 of the Constitution, reflecting the legislative requirements.

3. The Family Absence Procedure Rules, Rule 11, provides that:

'In accordance with the determinations of the Independent Remuneration Panel for Wales, a Member on family absence is entitled, for the duration of the absence, to retain a basic salary and any senior salary for which the Member is eligible.'

4. Council, at its Annual meeting on 27 May 2021, approved the Members' Schedule of Remuneration 2021-22, reflecting the determinations of the Independent Remuneration Panel for Wales ('the IRPW'), which has statutory power to recommend the levels of salaries, allowances and expenses payable to Councillors and Co-opted Members.

Issues

5. In accordance with the provisions of the Family Absence Procedure Rules, Councillor Rhys Taylor, Leader of the Liberal Democrat Group, has notified his intention to take family absence for a 3 month period commencing on 11 October 2021.
6. Under the Members' Schedule of Remuneration, the Leader of the Liberal Democrat Group is a senior salary holder. Paragraph 8 of the Members' Schedule of Remuneration deals with 'Family Absence' and confirms that a Member taking family

absence is entitled to retain their basic salary and any senior salary for which they are eligible for the duration of the absence (paragraphs 8.2 and 8.3).

7. The Members' Schedule of Remuneration also makes the following provision in respect of substitution for a Member on family absence:

8.4 If the authority agrees that it is necessary to make a substitute appointment to cover the family absence of a senior salary holder the Member substituting will be eligible if the authority so decides to be paid a senior salary.

8.5 If the paid substitution results in the authority exceeding its maximum number of senior salaries, an addition to the maximum will be allowed for the duration of the substitution.

8. Councillor Taylor has requested that Councillor Emma Sandrey, Deputy Group Leader of the Liberal Democrat Group substitute as Group Leader for his 3 month period of family absence and be paid the associated senior salary, pro rata, for this period.
9. In considering this matter, Council will be mindful of the important role of Group Leaders in facilitating internal governance, ethical standards and relationships.
10. If the Council approves a paid substitution for family absence, the IRPW must be informed within 14 days of the date of the decision, of the details including the post and duration of the substitution; and the Council's schedule of remuneration must be amended to reflect the implication of the family absence (IRPW determinations 19 and 20, IRPW Annual Report 2021)

Legal Implications

11. Relevant legal provisions are set out in the body of the report.

Financial Implications

12. If a paid substitution is approved for this 3 month period, the Members Services budget will need to absorb an additional cost of £935. This assumes the promotion of a member on a basic salary, £14,368 to the Band 5 salary, £18,108, as per the Members' Schedule of Remuneration. Due to in-year efficiencies and other changes within the area, this additional cost can be absorbed by the existing budget.

RECOMMENDATIONS

The Council is recommended to approve the substitution of Councillor Emma Sandrey to cover the family absence of Councillor Rhys Taylor, as Leader of the Liberal Democrat Group and senior salary holder, for a period of 3 months commencing 11 October 2021.

Gary Jones

**CARDIFF COUNCIL
CYNGOR CAERDYDD****COUNCIL: 30 SEPTEMBER 2021**

STATEMENT OF THE LEADER

Covid-19 Update

Covid-19 cases in Cardiff have remained high in recent weeks; however, these infections have not led to the significant levels of hospitalisations seen in previous waves due to the widespread protection provided by the mass vaccination programme. As of 22 September 2021, Public Health Wales data showed that the case rate in Cardiff was 433.9 per 100,000 population over the 7-day period to 18 September 2021 – which, although significant, is below the Welsh average of 559.9 per 100,000 population – and test positivity was 13.5%, also below the Welsh average.

Cardiff & Vale University Health Board (UHB) has seen an increase in average daily Covid-19 hospital admissions; however, despite the rise in the number of cases, the rate remains relatively low and the UHB will continue to monitor this rate carefully as we await further conclusive data. Consequently, we are not yet out of this crisis, and as councillors and community leaders, we must continue to emphasise the need for citizens to behave responsibly and help prevent the spread of the virus.

Whilst the Welsh Government relaxed the majority of remaining public health restrictions on 7 August 2021, as Wales moved to alert level zero, it has been confirmed that a 'NHS Covid Pass' showing an individual's vaccine status will be required by those aged over 18 for entry to nightclubs, indoor non-seated events (over 500 people), outdoor non-seated events (over 4,000 people) and other large events (over 10,000 people) from 11 October 2021 to help curb the spread of the virus. Despite the high levels of the virus and increasing pressures on the Health Service in Wales, the First Minister confirmed earlier this month that the alert level will stay at zero for the time being.

Mass Vaccination Programme

The roll-out of the mass vaccination programme has continued to progress at pace. As of 21 September 2021, Cardiff & Vale University Health Board (UHB) has administered 711,750 vaccination doses – 370,513 first doses and 341,237 second doses. Crucially, over 85% of all people aged over 50 or in a vulnerable group have received their second dose, with general vaccination rates high. Good progress has also been made in vaccinating young people, with nearly 70% of people aged 18-29 now fully vaccinated and just over 70% of 16- to 17-year-olds having received their first dose. Vaccinations have also commenced for 12-15 year olds who are immunosuppressed or have underlying health conditions and will be rolled out more widely to this age group next month.

A booster vaccination programme for those aged over 50 in priority groups 1-9 commenced earlier this week in the Cardiff & Vale area, starting in care homes. As has happened throughout the pandemic, we are working in close partnership with our UHB colleagues to support this work.

Cardiff Public Services Board (PSB)

On 22 September 2021, I attended a meeting of the Cardiff Public Services Board (PSB) where the PSB Climate Emergency Board (CEB) provided an update outlining initial collaboration outcomes and a proposed action plan. Engagement for behavioural and cultural change, low emission fleets and infrastructure, low-carbon public procurement and tree planting have been agreed by the CEB as the most impactful areas for joint work and collaboration. The Board also discussed the Age Friendly City initiative, outlining Cardiff's draft submission to join the World Health Organisation's Global Network for Age-friendly Cities in advance of its consideration by the Council's Cabinet in October 2021; as well as the Child Friendly City initiative, setting out the roadmap to accreditation to be provided including the expectations of UNICEF over the coming months.

It was apparent from discussion at the PSB meeting that the additional and significant demand pressures being felt by many council services in the wake of the pandemic, particularly those relating to providing care and supporting our most vulnerable people, are being felt across the city's public services. Despite the improved public health position, it was clear that the indirect impacts of the pandemic on our public services and communities are severe and will continue to be so for some time to come. The long tail of the pandemic, combined with major and UK-wide workforce challenges, will continue to affect adversely council services for the foreseeable future, with managers and staff working incredibly hard and creatively to ensure the delivery of vital public services in the face of difficult and growing pressures.

South East Wales Corporate Joint Committee (CJC)

I attended a meeting of the Cardiff Capital Region (CCR) City Deal Cabinet on 20 September 2021, which considered a report relating to the South East Wales Corporate Joint Committee (CJC) that was established on 1 April 2021 by Regulations (the Establishment Regulations) issued by the Welsh Government earlier this year. The functions to be exercised by the South East Wales CJC, which are to prepare, review and revise a Strategic Development Plan; develop a Regional Transport Plan; and undertake the economic well-being function, do not come into effect until 28 February 2022.

The CCR Regional Cabinet agreed to 'lift and shift' the current City Deal arrangements to the statutory CJC, which is a corporate body and would act as the decision-making body in place of the existing CCR Regional Cabinet. The CJC would also act as the conduit for project delivery in place of the Accountable Body, a role which is currently undertaken by Cardiff Council. A Transition Plan was also approved, together with the establishment and terms of reference of a Transition Board that will oversee this process. A report on various matters relating to the South East Wales CJC will be brought forward for consideration by Cabinet and Council later this year.

Afghan Citizens Resettlement Scheme

Earlier this month, 40 Afghan families fleeing their home country in the wake of the Taliban seizing control began arriving in Wales, where they joined 10 other Afghan families who have already been welcomed to Wales. All of these families have connections to Welsh elements of the Armed Forces, having worked with or alongside our troops in Afghanistan, and now it is our turn to support them in their time of need. So, for me, it is a privilege to be able to welcome them to Wales and to Cardiff. These families will be housed in Home Office-funded temporary accommodation until they are found new homes across Wales. Some of them will be resettled in Cardiff, and the Council has been working with our partners to ensure their smooth transition into their new communities, of which they will soon become important and valued members. Our city has a long and proud history of welcoming people of all races and creeds, and we have been doing everything in our power to ensure that we continue this tradition in our work to welcome and integrate the Afghan families.

Race Equality Taskforce

On 8 September 2021, I attended a meeting of the Race Equality Taskforce, where I heard presentations with the latest updates on the Taskforce's work and spoke in praise of the fantastic city-wide effort that the Taskforce is leading to deliver race equality in Cardiff. There is already an ambitious and comprehensive programme of work emerging from the Taskforce for the Council and its partners to progress, encompassing workstreams of employment, education, citizen engagement and criminal justice. Members of the Taskforce have brought forward strong draft proposals across these areas of work, including to increase employment in ethnic minority communities, engage with local communities around the Atlantic Wharf and Indoor Arena development, deliver anti-racism training in schools, divert ethnic minority groups away from the criminal justice system and help the Council formulate appropriate goals in their action plan for the 'Diverse Council Declaration'.

This work has been progressed at pace during a challenging year and I extend my thanks to all Taskforce members, Council officers and our partners, who have got us this far and delivered on a high-quality road map for a more equal city. I am particularly pleased that the Taskforce has been given the opportunity to shape Cardiff's recovery plan from Covid-19, as well as our economic development plans for Atlantic Wharf, a flagship initiative for this administration that must deliver on meaningful social, community and employment benefits for the residents of our city's most diverse neighbourhoods. I look forward to receiving further updates from the Taskforce and this administration will continue to support this critical initiative.

Betty Campbell Monument

On 29 September 2021, I will attend the unveiling of a permanent bronze monument in Central Square to honour the late Betty Campbell MBE (1934-2017), following a campaign by the Monumental Welsh Women group. Betty Campbell was Wales' first Black head teacher, a champion of equality and diversity and was an elected member of this Council from 1999 to 2004. Significantly, this will be the first ever statue of a named, non-fictionalised woman to be erected in an outdoor public space in Wales.

Betty Campbell was born in Butetown and dedicated her life to improving and promoting education, Black, Asian and Minority Ethnic history, equality of opportunity, representation of women, community support and development. Her work as an educator and community leader was recognised internationally. Our city and nation owe her a great debt of gratitude, and it is my hope that this new monument will become a symbol of ambition and hope that will inspire future generations to continue our city's journey towards true equality for all of our communities. It will be my honour to speak at this event and pay tribute to her life.

Housing 2021 Conference

On 7 September 2021, I attended the Chartered Institute of Housing Annual Conference, 'Housing 2021', in Manchester, which was the first major conference that I have attended in-person since the start of the pandemic. I was pleased to speak and participate in a panel discussion session, entitled "Wales: A comprehensive path to achieve Net Zero". I was proud to highlight the incredible work that we are doing in Cardiff around low and near-zero carbon housing, including our mixed-tenure scheme on the former Eastern High site and our Passivhaus schemes. Beyond housing, I also discussed the Council's broader One Planet Cardiff agenda, including our plans to transform public transport and active travel in Cardiff, and our low carbon and renewable energy schemes.

Councillor Huw Thomas
Leader of the Council
23 September 2021

SOCIAL CARE, HEALTH & WELL-BEING STATEMENT

Increased Pressures on Services

The pandemic is continuing to pose unprecedented challenges to council services, in particular to Adult Social Care. The number of cases requiring social work assessment has risen significantly, as has the demand for home care. Over the summer, referrals for domiciliary care were 35.5% higher than in the same period in 2019/20.

There are significant issues in the domiciliary care sector with pressures on capacity and staffing. Currently, more than 90 residents are waiting for a package of care and supply is very slow. This is largely due to the challenges that providers are facing in recruiting and retaining staff. The Community Resource Team (CRT) homecare services are also facing the same challenges. Added to this, many staff are now suffering with Covid-19, further depleting available services. The shortage of carers is impacting on both the time taken to put care in place, and on timely hospital discharge.

The previous quarter in 2021/22 also saw a 24% increase in referrals to the Adult Safeguarding Team compared to previous years. Despite this increase, improved processes and procedures have allowed the team to continue to deal with 99% of enquiries within required timeframes.

Cardiff Cares Academy

To address the shortage in the social care workforce, the Into Work Service has teamed up with Adult Services to create a new Cardiff Cares Academy. This Academy will identify and train new carers, ensuring that they have the knowledge and skills needed to work in the sector, and who undergone the necessary vetting.

A new training package has been developed for this purpose and a volunteer scheme is being put in place, which will help new carers gain some vital experience. The aim is to create 'care-ready' applicants for available social care positions. A dedicated mentor and employer liaison officer will be employed shortly to take this work forward.

Occupational Therapists are helping to assess those who need assistance as part of a 'Trusted Assessor' pilot project, with the aim of using aids and adaptations to reduce the need for care. Whilst the project is in its early stages, thus far it is proving successful with alternatives to home care being identified in all cases assessed to date.

Letters have been sent to individual service users to let them know about the problems the care sector is currently experiencing and seeking their understanding during this

difficult period, explaining that a change of carer or alternative visit time may be necessary.

Covid-19 in Care Homes

There are an increasing number of care homes with Covid-19 outbreaks at present. The pattern of positive cases is also changing, moving away from staff-only outbreaks to more residents testing positive. This is thought to be due to a number of factors: including, carers socialising together outside work, and the increase of visitors to residents' own rooms. A significant number of care homes with outbreaks cater for those living with dementia who also require nursing care. This is posing severe limitations on the ability of these homes to take new clients, thus preventing timely discharge from hospital.

To address this, officers are holding fortnightly multi-agency meetings to review every care home in outbreak and share intelligence. Officers also hold regular telephone discussions with affected providers to talk through their Infection Protection and Control measures, with an offer of a multi-agency supportive management meeting. A multi-agency supportive management meeting also takes place if Shared Regulatory Services and/or Public Health Wales have identified any concerns regarding a lack of appropriate Infection Protection and Control measures. Consideration is given to applying the escalating concerns procedures, if it is felt that the outbreak is part of wider concerns regarding quality of care and support, and/or management and leadership in the care home.

The Covid-19 vaccination booster programme is being rolled out currently in care homes and should be completed over the next few weeks, with care home residents being vaccinated first before the wider roll-out of booster vaccinations.

New Cardiff and Vale College & Learning Disabilities Day Service Pilot

Learning Disabilities Day Service officers together with colleagues from the Vale of Glamorgan have been working with Cardiff and Vale College (CAVC) to develop a new part-time college course for school leavers with a learning disability and complex support needs. Until now, school leavers with such needs wishing to continue in further education accessed this provision outside Cardiff, often at a residential college. Whilst this works for some, a number of young people and their families wanted to stay local. The Day Service Team has therefore worked with CAVC to develop a new part-time pre-entry level 'Towards Independence' course, which offers an individualised learning pathway for students and is provided at CAVC's Dumballs Road site alongside other learners. The part-time nature of the course also allows students to learn at their own pace.

This year, four young people will be supported to attend CAVC by the Complex Needs Day Service. One young person has profound and multiple learning disabilities and uses eye gaze technology to communicate. Both he and his family were keen that he continued in education; however, until now, the only college with the facilities to support him was based in England requiring him to live away from home during term time. Both he and his family were not ready for such a move and so are really pleased that a new local offer has been developed that can meet his specific needs.

First Point of Contact

The hospital-based 'Pink Army', which aims to support patients in their journey from hospital to home, has received additional funding to extend their work and double the number of patients they support. So far this year, the hospital team has supported 1,188 patients with discharge, while the community team is helping 80% of people contacting the service to stay independent at home without onward referral to social care services.

Community Engagement

At the end of July 2021, Independent Living Services held its third Digital Festival over a period of three days. Council officers and partners involved in supporting older and vulnerable Cardiff residents to remain healthy and connected came together to offer activities including, low impact exercise, singing, creative writing, as well as information sessions on online security and falls prevention. The event also included a goody bag and free meals provided by Youth Foods. The feedback from those who attended the event was really positive.

Councillor Susan Elsmore
Cabinet Member for Social Care, Health & Well-being

COUNCIL: 30 SEPTEMBER 2021

EDUCATION, EMPLOYMENT & SKILLS STATEMENT

Covid-19 Guidance for Schools (September 2021)

The latest guidance from Welsh Government shows that the country is in a phase of transition from pandemic to endemic. This means that there will continue to be changes in the measures taken to prevent the virus coming into schools and that it is likely that we will continue to see difficult times in terms of case numbers rising. It is also clear that Covid will need to be managed in the context of responding to other respiratory viruses – particularly in the autumn and early spring terms.

The Council needs to continue to adapt and respond accordingly in a proportional way. There will be a continued focus on the use of lateral flow device (LFD) testing for staff and secondary learners during this period as well as the reinforcement of the message to stay at home if an individual presents with symptoms. The continued messaging around hand washing, “Catch it, Bin it, Kill it”, and ventilation is also crucial.

The operational guidance from Welsh Government ceased on 20 September 2021 and has been replaced with the control decision framework so that schools, as directed by local Public Health Wales teams, can tailor interventions to reflect local risks and circumstances

The overall alert level is set at a national level; however, at a local level, Incident Management Teams will meet weekly to agree local risk ratings and the mitigations that need to be in place to manage them. The Council will then work with schools to manage this.

The hierarchy of controls and risk assessments will inform which reasonable mitigations are required and what activities can be undertaken in schools. Additionally, LFD tests will inform infection rates and what proportionate responses may be required (so for example, at a certain rate schools may choose not to hold assemblies).

The Council will continue to communicate changes to both risk levels and local mitigations to schools.

A-Level, AS Level and GCSE Results 2021

Cardiff's schools and students celebrated their success in WJEC A-Levels on 10 August 2021, which saw a rise in the number of students who received A* and A grades. 55.3% of students secured three A* to A grades, 94.3% received three A* to C grades, and 99.9% secured A* to E grades.

Wales-wide figures showed 21.3% of pupils secured A* grades, up 5% on last year; 48.3% secured A* to A, up 6.5% on 2020; with 99.1% getting A* to E grades.

WJEC GCSE learners in Cardiff received their grades on 12 August 2021, with over a third of grades (34.5%) awarded at A* to A, a 2.8 percentage point increase in 2021. 77.7% of grades were A* to C and 98.3% were A* to G.

Congratulations to everyone who has worked so hard to achieve these results.

Summer 2022: Learner Survey Outcomes

On 3 September 2021, the WJEC published the results of the consultation conducted in June on their proposed changes to GCSE, AS and A Level qualifications in 2022. Around 950 learners, parents and carers from across Wales took part in the survey. A copy of the [report](#) is available on the WJEC website.

Qualifications Wales has confirmed that approved GCSE, AS and A Level qualifications will be assessed via exams and non-examination assessments as normal in summer 2022, but reflecting adaptations made during 2020 and 2021. Details of the specific adaptations for each subject have been published on the WJEC website.

School Holiday Enrichment Programme (SHEP) – Food and Fun 2021

Thanks to additional Welsh Government funding, Food and Fun was extended this summer and was delivered in 28 schools across the city (two English-medium secondary schools, one Welsh-medium secondary school, one pupil referral unit, one special school, one Welsh-medium primary school and 22 English-medium primary schools).

Over 22,000 healthy breakfasts and lunches were prepared by Education Catering Teams and served to over 1,200 children. 46 school staff were trained in Nutrition Skills for Life to enable delivery of fun nutrition education sessions for children to promote healthy eating. In previous years, families of children attending Food and Fun sessions were invited into school to eat lunch together. This year, more than 5,000 family food bags, including ingredients and step-by-step recipes developed by dietitians from Cardiff and Vale University Health Board, were distributed to families across the city, enabling them to prepare meals, cook and eat together.

Each school was also supported with physical activity sessions delivered by Sport Cardiff. Over 30 partner organisations also supported the delivery of fun enrichment activities, including visits by the emergency services, dance, music, football, cricket, launching rockets, drama, gardening, water safety, rail safety, internet safety, science, construction, flying drones and many more. These activities all contributed to #makingmemories ensuring children have had a fun summer.

I was delighted to visit projects at Bryn y Deryn Pupil Referral Unit, Ysgol Glantaf, Tongwynlais Primary School, Bryn Celyn Primary School and Greenhill Special School. I know from the conversations with staff how valuable they found the scheme and, for those running the scheme for the first time, how supported they felt by the team.

Summer of Smiles Festival

During the school summer holiday, officers from the Child Friendly City Team worked with a wide range of council officers and partners across the city to deliver the Summer of Smiles Festival. This exciting work aimed to help children and young people to reconnect, improve wellbeing, build confidence, and have fun.

Over 20,000 children and young people benefitted from the programme with over 5,000 adults also attending activities. The varied activity programme was based on four themes – Science and Technology; Sport and Adventure; Play and Family Fun; and Creative and Arts. Highlights included:

- Turning Churchill Way into a pop-up park
- Hosting a three-week festival site on City Hall Lawn
- Staging a junior triathlon
- Abseiling from the Wales Millennium Centre
- Transforming Flat Holm into a Pirate Island for children in care and young carers

With the support of the Digital Team, the newly formed Young Creators group reported on the Summer of Smiles activities across the city. A number of their films are available to view on YouTube (<https://youtu.be/gPvbqhqhswU> / <https://youtu.be/Eem7fF6HbUY> / <https://youtu.be/EWwuBWv1Szc>)

Neighbourhood and specialist youth provisions also supported a large number of young people to attend various activities as part of the festival. This added huge value to the summer programme and enabled young people to gain new experiences and try out new activities. I want to thank Welsh Government for supporting this important work, which contributes to the city's ambition to respect the needs of children and young people and to make Cardiff a great place to grow up.

Cardiff Youth Service Summer Provision 2021

Despite the challenges presented over the last year, summer 2021 has seen young people out and about, enjoying themselves whilst participating in a diverse range of youth provision. Staff have worked extremely hard for the duration of the summer to ensure an exciting and engaging summer programme was delivered across the city. Some of the highlights are detailed below:

Roadshows

Youth Service Teams, along with a variety of supporting partners in each community, delivered ten roadshow events across the city. Venues included Splott Park, Ely Recreational Ground, Pentwyn MUGA/Skate Park, Eastern Leisure Centre, Butetown, Grangetown and Riverside. Neighbourhood Area Teams worked with local partners to ensure each event was targeted, meaningful and engaging for the young people in that area. Each event provided a range of activities and opportunities for further support. The Post-16 Team delivered five bespoke roadshows focused on education, training and employment.

Neighbourhood Area Teams

Neighbourhood youth centres all delivered an engaging and exciting six-week summer programme, which involved some centre-based activities including arts, cooking, life skills and music. Local trips to surrounding areas included bike rides, day walks, Duke of Edinburgh Award expeditions, go-karting, and picnics. Young people really enjoyed the adventurous outdoor activities, including mountain biking, gorge walking and stand-up paddle boarding provided by the Urdd and Storey Arms Centre.

The Inclusive Team also provided five weeks of activities for young people who attend groups such as Young Carers, Inclusive Youth Clubs and Girls Groups. 26 young people completed their Bronze Duke of Edinburgh Award this year, which is an amazing achievement. Throughout all of this work, young people had the opportunity to relax and meet their friends in a safe space, try new activities, gain new skills and experiences, grow in confidence and overcome barriers such as social anxiety.

Summer Transition to Year 11

The Pre-16 Youth Mentors have made an offer of support to every Year 11 leaver this summer. Despite the challenges presented by Covid-19, Youth Mentors have helped young people to attend appointments and interviews with Careers Wales, the Into Work Advice Service, training providers and colleges. They have also supported young people to overcome personal barriers to engagement and/or progression such as transport difficulties, mental health, financial issues and self-confidence. Neighbourhood Area Teams have also provided weekly drop-in sessions which have been well attended.

Post-16 Provision

Over the summer, the Post-16 Team delivered a range of bespoke projects which targeted young people not in education, training, or employment (NEET) in neighbourhood communities across the city. All young people who attended a project have been linked to a youth mentor for ongoing support. A highlight has been the 'Recipe for Life' project, enabling young people to gain real-life experience of the hospitality industry whilst improving confidence, developing new skills, gaining an accreditation, and securing employment or training at the end of the course.

Street-based & Youth Bus Teams

Throughout July and August, the Street-based Team delivered youth work across the city, supporting neighbourhood programmes and events. Community engagement and partnership work has been very positive resulting in some very exciting projects or developments for ongoing work in areas such as Grangetown, St Mellons, Caerau and Adamsdown. The team is also supporting the City Centre Skaters project, enabling young people to have their voices heard on safe places to skateboard as well as on issues they are passionate about. The Youth Bus Team was also out and about six days a week covering communities across the city and supporting many events. A highlight was the regular weekly support for the 'Fit 'n' Fed' projects with Fairwater and Western Leisure Centres and building good relationships with young people in these areas.

New Pop-Up Provision

Consultation carried out prior to and during the summer highlighted areas in need of youth provision. Additional funding has enabled opportunities to create a number of new pop-up youth provisions with other partners in the community. Two of these are highlighted below:

- The Girls Group in Grange Gardens was formed during the summer providing young females a safe space to meet weekly, to socialise with friends, gain new experiences and feel supported with their personal development and progression routes.
- Caerau was identified as an area needing further support directly after school. A twilight provision has been developed with various partners across the area to provide activities and youth work support to young people in the area, linking up youth support services and providers.

Emotional Health & Homelessness Team

Over the summer, the Emotional Health & Homelessness Team supported roadshow events in Ely, Llanrumney, Pentwyn, Splott and Riverside. Resilience Workers delivered targeted interventions using the iCare Programme with 87 young people. The iCare programme has been developed with young people to help support and build emotional resilience and wellbeing through self-care activities. A journal focuses on building self-care activities, looking at personal strengths, identifying support networks and reframing the young person's outlook on life. Initial feedback from evaluations completed was very positive with 98% of participants finding the activities within the programme interesting and helpful and 100% feeling valued and listened to.

Digital Youth Work

The Digital Team has been working with young people at some of the roadshows and at various projects to record young peoples' experiences; from white water rafting and Duke of Edinburgh Award expeditions to interviewing young people. The group has edited the footage and created really interesting films, some of which are available on the Cardiff Youth Services YouTube channel.

The Digital Team also partnered up with Techno Camps to provide a four-day computer science programme for young people aged 11-16 to learn how to code and programme. Cardiff Commitment representatives from Microsoft and Admiral also joined sessions to discuss coding and programming in the workplace. As a result of this project, the team will now be working with a group of young people and Techno Camps to develop a digital space with lots of opportunities for young people.

The team's newly developed website provides a more detailed view of youth support services and provision across the city at: www.cardiffyouthservices.wales

Councillor Sarah Merry
Cabinet Member for Education, Employment & Skills
23 September 2021

This page is intentionally left blank

STRATEGIC PLANNING & TRANSPORT STATEMENT

AGENDA ITEM:

City Travel Trends

Total travel demand has returned to pre-pandemic levels, whilst it is estimated that only 60% of employees are commuting to work. The AM-peak is less pronounced than pre-Covid and congestion remains reduced during both peak periods. Traffic across the day has returned to near pre-pandemic levels across Cardiff as a whole. Traffic and parking demand levels in the city centre are also around 80% of pre-pandemic levels.

Walking is up 30% and cycling is 10% higher than in 2019. Current cycle hire usage is also around 30% higher than the equivalent period in 2019. Public transport use of bus and rail has returned to around 80% of pre-pandemic levels. Rail patronage has increased to around 60% on a weekday and over 80% on the weekend.

Active Travel Network Map Consultation

Public consultation on the Active Travel Network Map was launched on 9 August 2021, which sets out proposals for walking and cycling in the city over the next 15 years. The consultation closes on 31 October 2021.

Cycleways

Cycleway works on Newport Road are ongoing and should be completed within the next month.

Work to construct Cycleway 1.2 (Cathays Terrace to University Hospital of Wales) has started this month.

Further design and feasibility work is ongoing on several other key routes, including

- **Cycleway 2:** Development of options for a segregated cycle route along the Newport Road corridor.
- **Cycleway 4.2:** Development of more detailed proposals following the recent public engagement on route options.
- **Cycleway 5:** Consultation on the section of segregated cycle route along Lawrenny Avenue connecting to the new Fitzalan High School, as well as further study work to develop route options for onward connections to Caerau and Ely and proposals for the section of route linking Wellington Street and Lawrenny Avenue.

- **Roath Recreation Ground/Roath Park Corridor:** Development of options for a strategic connection between the City Centre and north-east Cardiff via Richmond Road, Albany Road and the Roath Recreation Ground/Roath Park Corridor.

Options for all of these routes will subject to public consultation over the coming 12 months.

Electric Bikes

The first 50 electric bikes of the Council's new 'e-bike' fleet were introduced last month, supported by a new brand for the scheme reflecting sponsorship of the scheme by OVO Energy. The new e-bikes are proving to be popular, accounting for 15% of all OVO Bike (formerly Nextbike) rentals.

An initial six rental stations have been installed at Cardiff International White Water, Wales Millennium Centre, County Hall, City Hall, Penylan Library & Community Centre and Llanishen Leisure Centre. It will also now be possible to use an OVO e-bike to cycle between Cardiff and the Vale of Glamorgan, where a fleet of 50 e-bikes was also launched in Penarth last year and have proved incredibly popular with the public.

20mph Limits

The majority of areas in the city located below the A48 that are suitable for 20mph limits have been completed. The Welsh Government Phase 1 Default 20mph Project for in the 'Central North Cardiff' area, which covers Llandaff North, Whitchurch & Tongwynlais, Rhiwbina and Heath wards is now being consulted upon. Cardiff is one of eight local authority areas in Wales trialling the technical approach, which supports a change in the default speed limit from 30mph to 20mph.

Highways

Localised footway and carriageway improvements are ongoing throughout the city, along with footway reconstruction. The resurfacing of significant lengths of the city's high-speed routes (A48, A4232 and A4234 Central Link) has been delivered successfully. An extensive surface treatment programme that will apply surfacing to circa 60 roads throughout the city has also commenced. Assessment and preparation work for further capital schemes is ongoing with a view to delivery in 2021/22.

Replacement Local Development Plan (LDP) Process

Following consideration of the Replacement LDP vision and objectives at this month's Council meeting, the next stage in the preparation of the Replacement LDP is consultation on the strategic options. This consultation will seek views on the levels of housing and jobs growth for the city to 2036 and spatial options for the delivery of this growth. The consultation is planned to take place for 10 weeks between 30 November 2021 and 8 February 2022 and will include a number of targeted workshops – for example, with groups representing black and ethnic minorities, homeless people and those on the Council's housing waiting list,

unemployed people, young and older people, disabled people and environmental groups. As with the previous consultation, it will be publicised via social media with an online survey for residents to complete and virtual consultation room for residents to find out more information on the consultation. There will also be briefing sessions with elected members prior to the launch of the consultation. Residents will be able to meet officers face-to-face during the consultation with the format dependant on Covid-19 restrictions applicable at the time. Following this, the next stage in the preparation process will be consultation on the Preferred Strategy in autumn 2022 following consideration by Cabinet and Council in September 2022.

Councillor Caro Wild
Cabinet Member for Strategic Planning & Transport
23 September 2021

INVESTMENT & DEVELOPMENT STATEMENT

International Arena

Councillors will be aware that Cabinet, at its meeting on 23 September 2021, received the Full Business Case relating to the proposed Indoor Arena in Butetown and confirmed the consortium led by Live Nation, as the preferred bidder. I am sure that Councillors will be reassured that the business case demonstrates that the project can be delivered within the agreed funding envelope and will welcome the progress that has been made in bringing the project to this stage. It will undoubtedly deliver a clear signal of continued business confidence in the city and its economy.

The Leader and I, together with our officials, met with the senior leaders of the consortium when they visited Cardiff on 16 September. We were encouraged by the degree of confidence they have in the Cardiff project and were reassured to learn that they are taking forward arena developments in the USA, the Middle East and elsewhere.

The Council will now enter into a Development Finance Agreement with the successful bidder to enable a planning application to be submitted in October 2021. Detailed designs will be developed in anticipation of the construction and I will ensure that the comments made by the Economy & Culture Scrutiny Committee regarding the design are taken into account.

I can confirm that, in principle, all of the relevant contracts are now agreed and will be signed once planning permission is granted and all other conditions placed upon the developer are met without the need to refer back to Cabinet or to Council.

It is anticipated that financial close will occur in the spring of 2022 and for work to start on site shortly afterwards.

International Sports Village

Councillors will be aware that this development has been the cause of considerable frustration to successive Administrations since the project was first conceived in 1999. However, I trust that Members will welcome this Administration's commitment to take control of the development in order to deliver on its ambitions and to support residents that have been adversely affected by the delay in taking the development forward.

Councillors will be aware that Cabinet, at its meeting on 23 September 2021, resolved to acquire some ten acres of land on the peninsular site which will enable the Council

to terminate the previous Development Agreement with Greenbank Partnership Ltd and to progress the completion of the wider development of the site.

The Cabinet decision effectively gives the Council full control over all of the land on the development site which will allow the Council to work on the basis that any future sales will require a commitment to develop and deliver expeditiously and ensure that no land banking activity can take place. I trust that this will provide some comfort to the residents who have been adversely impacted by previous developer's lack of progress.

With regard to the operation of the leisure facilities, the intention is to seek a single operator in a bid to establish the site as a single marketable leisure destination.

City Centre and Economic Recovery

Councillors will be aware that, despite the relaxation of some of the Covid-19 restrictions, the national economy is yet to recover to pre-pandemic levels. The Council has been working with businesses and with workers to mitigate the impact of the pandemic, as well as to help businesses deal with recruitment pressures faced by some sectors.

The Council's Into Work Service is continuing its employment support work, which now includes working directly with sectors facing job shortages to link them with job seekers in Cardiff.

The Council also continues to work with businesses in the city and the city centre to provide support, including our support for grassroots music venues through the "Live and Unlocked" events that saw ticket revenues go directly to the city's venues and artists.

The Council's work in the city centre has also seen a greater return of footfall compared to other UK cities, with footfall in August 2021 just 5% down on the same period in 2019. This compares with the regional UK city average of 27% and a UK wide figure of 23%. It is worth noting that in August there were periods where footfall exceeded that of the equivalent period two years ago, and with the return of major events later this year we expect to see continued growth in visitor numbers.

The Economic Development Team continues to provide direct support to businesses who remain affected by the pandemic restrictions, with some £1million of additional support provided in the last month.

Councillor Russell Goodway
Cabinet Member for Investment & Development
23 September 2021

CULTURE & LEISURE STATEMENT

Covid-19 Impact on Culture & Leisure

It gives me great pleasure, after 18 long months, to update Members on the re-opening of many of our cultural venues and some of our exciting plans for the future. Covid-19 had a devastating impact on my portfolio, but I have been greatly encouraged to see people enthusiastically return to our venues to enjoy activities that have been so clearly missed. I would stress that we must remain vigilant. Covid is still with us and is likely to have a major impact on service delivery for some months to come. It is critical that we continue to consider the safety of our patrons, promoters, clients and staff as we rebuild the sector. The public's ongoing support in complying with the few remaining safety asks made of them when attending these venues and activities will be pivotal to them remaining open. It is disappointing to hear reports of staff being abused when, for example, patrons are requested to wear face coverings in crowded/public areas. We have fought long and hard to re-open our sector and it will be a travesty if that progress is undermined and we have to close our doors again.

Museum of Cardiff

It has been a busy summer for the team at the Museum of Cardiff as they prepared to welcome visitors back to the museum, as well as delivering activities online and outside. The Museum re-opened its doors on 1 September 2021 after almost 18 months of closure. Visitors can enjoy extra fun activities, including free *Cardiff Characters* gallery trails and *My Museum* family learning packs. QR codes have also been added to the displays enabling visitors to download information about the objects using their smartphones.

The Museum has continued to run online reminiscence sessions in partnership with Independent Living Services, including participating in the 50+ virtual summer festival. Particular highlights include collaborating with the Hubs & Libraries team to run a session about memories of the Old Library and with the Sherman Theatre's 'Love Letters to Cardiff' project to run a session reminiscing about people's love for the city. Officers have also delivered a Dementia Friends information session for staff at Aelwyd Housing Association.

The Museum's Learning and Outreach Officer also developed and delivered new *There's a Museum in my Kitchen* virtual sessions as part of the *Food and Fun* summer programme. Workshops were facilitated in seven schools, enabling approximately 230 pupils to take part. In addition, the Museum teamed up with ACE (Action in Caerau & Ely) and the CAER Heritage Project to run an activity at the Summer of Smiles 'Time Travelling' fun day at Trelai Park.

St David's Hall

St David's Hall opened its doors to a sold-out performance of Jimmy Carr on 31 August 2021. A few days later, the Hall hosted four full-house performances of *Riverdance* with standing ovations every night. With the new season launched and rescheduled shows now going ahead, booking at the box office has been brisk with a full calendar of events right up to Christmas and beyond. The newly improved ventilation system in the Hall ensures that audiences can enjoy performances in the knowledge that the air in the auditorium and foyers changes six times an hour. The newly-branded Cardiff Classical Season recently launched with the BBC National Orchestra of Wales will also commence its 17-concert series on 30 September 2021.

New Theatre

After the Covid-enforced delay, I am pleased to report that the property lease for the New Theatre has been concluded. The Theatre is now run and managed by HQ Theatres & Hospitality and they presented their first public performance on 19 September 2021. I am sure that Members will be happy to join me in wishing both HQ Theatres and their new staff team every success for the future. We look forward to working with them as a welcome addition to the wider cultural Cardiff family.

City Hall

City Hall hosted its first dinner for 400 guests on 3 September 2021 and will have hosted a further six dinners by the end of this month. In addition, the venue will host a wedding fair and a national RAF Wales and Battle of Britain exhibition, including a Red Arrows fly past. City Hall has continued to support the neighbouring Law Courts over past months, providing a safe and secure waiting area for jurors due to attend Crown Court. We were also proud to be able to continue to support the Welsh Blood Service donation sessions throughout the Covid-19 pandemic. Encouragingly, the volume of conference & events enquiries has continued to rise in recent weeks and the Conference & Events Team, with the support of our Health & Safety Team, is working hard to meet demand, whilst also supporting clients in ensuring that their events are managed safely.

Events

The Events Team has had little respite during the last 18 months and this summer has been no different. Following 18 months of helping to deliver and support other council services during the pandemic; developing and running the Castle Street Café, and providing city centre marshalling support, including the 2020 Christmas 'Elf & Safety' team, the Events Team's focus has turned to supporting the music sector.

Cardiff Castle was the host venue for a series of music events. These included Live Under the Stars; three music concerts featuring Kaiser Chiefs, The Foals and Shangri La and, last but not least, Live and Unlocked; where Cardiff Castle provided the August Bank Holiday venue for our grassroots music venues to take to the stage and showcase the important role they play in the city. I would like to thank Fuel, Pulse, Porter's and the Moon Club for their support.

More recently on 16-19 September 2021, the Council hosted the largest series of events on its land since before the initial lockdown in March 2020. The event organisers, Titan, attracted some of the world's biggest music artists to perform in Cardiff Bay, which over a four-day period saw more than 33,000 people in attendance. The Titan 'Bay Series' was the first of its kind to take place at the Alexandra Head site and proved to be a safe and highly successful music festival. Public feedback has been very positive, with the event organisers looking to repeat the event in 2022.

I would like to take the opportunity to put on record my sincere appreciation to all our multi-agency partners who have worked with us throughout the summer to ensure that we were able to deliver a Summer of Smiles; most especially, the Chair and members of the city's Events Liaison Panel. Everyone, without exception, has worked tirelessly with us to ensure that we were able to host and support these activities and events, with public safety remaining paramount in all our endeavours.

Whilst the summer delivery programme has certainly kept us busy, planning for Christmas has also been at the forefront of our thinking and we are now in the process of finalising the final Christmas programme, full details of which I aim to share next month. Highlights will include the annual Christmas Market, Santa's Grotto and Carousel, the winter food offer on Working Street and two new exciting initiatives.

Firstly, Winter Wonderland will be split over two sites this year. The Ice Rink and Ice Walk will be hosted in Cardiff Castle, whilst the Alpine Village, funfair and a new ticketed Ice Bar will be located on City Hall Lawn. This will provide greater space on both sites for people to enjoy the attraction and will give us greater flexibility in respect of any required Covid mitigations.

Secondly, Bute Park will also welcome a new Christmas light trail. From 25 November 2021, the Park will host an enchanting fairy tree avenue, mesmerising lily pond, flickering fire sculptures, spectacular mirror ball displays, and huge illuminated trees all culminating in a sea of light installation.

Public Space Protection Order for Dog Controls

On 4 October 2021, a new Public Space Protection Order (PSPO), designed to help improve public and green spaces, will come into force across the city. The PSPO, under the Anti-Social Behaviour Crime and Policing Act 2014, will allow the Council to undertake enforcement action against dog owners who allow their pets to foul in an area of public land without cleaning up after them. The Order, developed following public consultation, also requires:

1. any person in charge of a dog to carry dog waste bags and produce them if requested by a Council or Police Officer;
2. that dogs are kept on a lead whilst in a cemetery;
3. that dogs are kept under proper control in public areas; and
4. excludes dogs from certain public spaces including children's play areas and games areas.

If breached, an authorised officer could issue a Fixed Penalty Notice of up to £100, which could rise to £1,000 if left unpaid.

The dog controls will be exempt for persons, who have a disability that affects the person's mobility, manual dexterity, physical co-ordination or ability to lift, carry or otherwise move everyday objects, in respect of a dog trained by a registered charity and upon which the person relies for assistance.

The dog control signage across the city will also support the Child Friendly Cardiff and Outdoor Cardiff campaigns to improve the city environment for children and promote the use of outdoor spaces across Cardiff for everyone.

The PSPO can be modified and will be reviewed at least every three years to ensure that any controls remain appropriate. Further details of the PSPO can be found on the Council's website: <https://www.cardiff.gov.uk/ENG/resident/Leisure-parks-and-culture/Public-Spaces-Protection-Orders/Pages/default.aspx>

Parks

Members will be aware of the deplorable acts of vandalism, criminal damage and anti-social behaviour that occurred earlier in the month in Bute Park, Insole Court, Caerleon Park and Coleford Drive Open Space. I am appalled by them and the impact that they have had on local communities, the staff who work hard to maintain the areas and the Council as a corporate body. I am fully committed to working with South Wales Police and other stakeholders to address the current issues and to ensure that residents and visitors to our city can feel safe and continue to enjoy our parks and public open space provision.

Coed Caerdydd

At previous Council meetings, I have updated Members on the status of our Coed Caerdydd project, which aims to increase tree canopy across the city over time. You may also recall that, last month, I invited all Members to participate in an initial consultation exercise aimed at understanding local perspectives and I would encourage those who have not completed the consultation questionnaire to do so. I can also confirm that from November 2021, the Coed Caerdydd Project Manager will be commencing a face-to-face virtual programme of consultation meetings to update on the progress of the project.

Councillor Peter Bradbury
Cabinet Member for Culture & Leisure
23 September 2021

FINANCE, MODERNISATION & PERFORMANCE STATEMENT

Carer Confident Level 2 Accomplished Status

Cardiff Council has been awarded Carer Confident Level 2 Accomplished status. Carer Confident is the Employers for Carers benchmarking scheme and assists employers in building a supportive and inclusive workplace for employees who are, or will become, carers and to make the most of the talents that carers bring to the workplace. The award of this status is made to employers who have demonstrated that they have built an inclusive workplace where carers are recognised, respected and supported. Carer Confident employers recognise the importance of retaining valued members of staff, reducing absence and unnecessary recruitment costs, and increasing staff resilience engagement and productivity. The Council is among a distinguished list of employers who have achieved Accomplished status, including BT, Department of Work & Pensions, Crown Prosecution Service and HMRC.

Websites

The Council's website (www.cardiff.gov.uk) had 205,677 visitors last month viewing 786,513 pages of information. 68.1% of visitors chose to view the website via a mobile device. £2.4million was received in online payments, which included £299.8k from penalty charge notices, which was the highest amount received so far this year now that Covid restrictions have eased and more traffic is on the city's roads. The Council has also increased its compliance against the latest version of the Web Content Accessibility Guidelines (WCAG 2.1), which the Council has a legal duty to meet. Accessibility AA standards have increased to 90.6%, which puts Cardiff in 4th place out of the 22 Welsh local authorities, up from 13th place at the start of the year.

Visits to the OutdoorCardiff website (www.outdoorcardiff.com) have increased by 50.2% compared to last year, with users looking to get outdoors, including visiting local parks and walking trails in the city. Use of the website has increased significantly since the start of the Covid-19 pandemic. The Council has also launched a new website for the Onsite Construction Academy www.onsiteconstructionacademy.co.uk to promote training and work experience to help with career progression.

BOBi (Chatbot)

Last month, BOBi was presented with 6,504 chats, an increase of around 1,000 from the previous month. The most common transactions were collection calendar lookups and requests for details about waste collection changes, recycling centre bookings and missed collections. Feedback from customers remains good, with 79.86% of marked chats being scored as Very Good, Good or OK.

CardiffGov Mobile App

The CardiffGov app was downloaded a further 1,416 times in August 2021. The total number of downloads has reached 48,247. Currently, the development cycle continues to be focussed on accessibility improvements in the design of the app to ensure that the platform and services can be accessed by as many residents as possible. In addition, the app has been improved to enable customers to book multiple recycling centre visits on the same day, to expand the search of nearest recycling bag and food caddy liner suppliers from 1km to 5km and to include a new service for reporting drug-related littering.

Into Work Service

During the past few months, demand for the Into Work Service has risen dramatically in line with the end of UK and Welsh Government support schemes. In addition to unemployed people requiring support finding and securing employment, large numbers of people are seeking support to re-skill into different employment sectors. Last week saw the biggest increase in demand for Job Club support, with a 42% rise of people seeking support with job searching, CVs and Universal Credit – with 20 people queuing outside Central Hub's Job Club waiting to speak with Advisors. Additional spaces in Hubs have been made available to the Into Work Service to cope with the increase in footfall, as well as space within the city's three Jobcentres. Referrals to employment projects have also risen within the last month as furlough comes to an end, a rise of 40% from the beginning of the year. Mentors' caseloads are at an all-time high, with an average of over 45 per mentor (regular caseload figure pre-Covid was between 25 and 30). Managers are looking at alternative funding streams to secure additional posts in response to the pressures on the service.

Cardiff Works

Cardiff Works has seen a huge increase in demand in the past few months for skilled, work-ready candidates within council services. To cope with staffing placement orders, the team has organised Cardiff Works sign-up sessions within local communities to raise awareness of the current roles available. In partnership with Adult Learning, Cardiff Works is hosting week-long 'Get Into Cardiff Works' courses in Hubs across the city. The aim of the course is to provide an alternative pathway into Cardiff Works and feedback has shown that young people in particular, as well as those with limited work experience, struggle to register successfully and secure work within the Council. The course teaches essential administration skills and automatically registers the candidate with Cardiff Works without the need for them to sit an assessment. The new course has been piloted at Grangetown Hub and has seen 20 young people successfully complete the training. Further courses are being planned with the Adult Learning Team and will see the course run on a monthly basis, alternating from each of the Hubs across the city.

Cabinet Member for Finance, Modernisation & Performance
23 September 2021

HOUSING & COMMUNITIES STATEMENT

Meeting with the Deputy Minister for Mental Health and Wellbeing

On 31 August 2021, along with members of our Homeless Multi-Disciplinary Team and colleagues from Health, I met with the Deputy Minister for Mental Health and Wellbeing, Lynne Neagle MS. The purpose of the meeting was to talk to the Deputy Minister about the roll-out of Buvidal in Cardiff and the great work of our Homeless Multi-disciplinary Team during the pandemic. During the visit, the Deputy Minister met a woman who had struggled with homelessness, mental health issues and addiction throughout her life, but through treatment with Buvidal had now made significant progress, both mentally and physically, including returning to work and re-engaging with her family.

Buvidal is a ground-breaking new treatment for heroin addiction and was rolled out at scale for the first time during the pandemic. It has been a game changer for many living with drug dependence and I am proud that our Multi-disciplinary Team, alongside partners in Health, have played a significant part in leading the way in the roll-out of Buvidal during the pandemic. For many clients in Homelessness Services, substance misuse is as a result of significant trauma, not just a lifestyle choice. We are already seeing the positive impact that Buvidal has had on individuals, with life-changing results being achieved.

Homelessness

Homelessness Prevention Services are currently under immense pressure due in part to a lack of suitable private rented accommodation in the city. Many private landlords are selling their properties as property prices have increased and private rents have risen to a level that many people cannot afford. The Housing Options Service currently has greater demand from clients at risk of homelessness and the Prevention Team is finding it more difficult to find accommodation in the private sector due to a lack of availability. Whilst officers try to source alternative accommodation, they have experienced instances where properties are being secured by other prospective tenants before they have even been viewed, with some even offering to pay higher than the rent asked in order to secure the properties.

A lack of private rented accommodation means that less people are prevented from becoming homeless and the Council is also unable to move people on from temporary accommodation as quickly as we would like. These two factors have led to an increase in the demand for temporary accommodation in the city, particularly by families.

In the last six months, the number of people requiring temporary accommodation has increased by over 150, although with mediation and negotiation, not all have needed to be placed in temporary accommodation at the present time. Homelessness

Prevention Services are looking at innovative ways to address these pressures, which are likely to increase as many Welsh and UK Government financial support schemes come to an end.

Housing Applications and Enquiries

There has been an increase of over 50% in the number of housing applications being made, with urgent applications increasing by 119%. Around 4,000 calls per month are being made to our Housing Enquiries phone line, which is an increase of 75% compared to this time in 2019. There has also been an increase of 126% in demand for housing waiting list appointments and the number of emails received by the Housing Solutions Team has increased by 256%.

Responsive Repairs

There has been a 10% increase in the number of responsive repairs requested compared to the same period in 2019, with around 6,000 requests now being made each month. Officers are also continuing to deal with the backlog created during lockdown.

Advice Services

Last month was the busiest month of the year for all advice services. Contacts to the Money Advice Team increased by 385% on the previous month and the team has supported the highest number of clients since the pandemic started. Both the Adviceline and Housing Helpline assisted with 9,000 calls in August 2021, the highest number ever recorded and an increase of 72% on the previous month.

The demand for financial assistance has also continued to increase. The numbers receiving Free School Meals have increased from 12,005 to 15,476. Changes to eligibility criteria now mean that more families can also apply for school uniform assistance. 6,389 applications have been made since July 2021 – the caseload was only 700 in 2019.

Community Hubs

I know that a lot of people have been feeling isolated during the pandemic and, although our Hubs and Libraries have made sure that they offered a digital programme of events to support vulnerable people in Cardiff, it is really pleasing that a comprehensive and varied face-to-face events programme has returned to the Hubs within the city. Events have included monthly coffee mornings, reading groups, Meet Up Mondays, Knit and Natter, Friends and Neighbourhood Groups, and craft and sporting activities. Face-to-face Storytime and Rhyme Times have also returned. I was particularly moved to hear about the impact of the first Rhyme Time at Grangetown Hub where several of the babies had never attended an 'in person' Rhyme Time or been in a group session of any type. Staff have said that the babies were mesmerised and the parents said that they were really happy to be doing something so simple yet so special with their little ones for the first time.

The outside spaces at our Hubs have also been fully utilised. Staff were really pleased to welcome BBC Wales personalities Derek Brockway and Sue Charles to Llandaff North and Gabalfa Hub to launch the opening of the gardening area and outside gym

equipment. Community members came along and tried out the exercise machines, exchanged plants and were shown around the community garden by Fork 'n' Trowels – the on-site community gardening group.

Hubs have also been supporting events taking place within the wider community. A great example of this were the preparations for the Butetown Carnival, which took place at Butetown Pavilion Hub throughout August 2021. Parents and children from the local area took part in creative sessions at the Hub creating head-dresses and costumes for the Carnival parade. The Hub staff even attended the parade during the Bank Holiday weekend to cheer on the children.

The Hubs and Libraries will continue to develop and build upon a community events programme designed to help communities re-engage and recover.

Councillor Lynda Thorne
Cabinet Member for Housing & Communities

CLEAN STREETS, RECYCLING & ENVIRONMENT STATEMENT

Opening of Reuse Shop at Lamby Way

The reuse shop at Lamby Way is now open daily 8.30am to 4.30pm to receive donations and for people to purchase items to reuse. Wastesavers – a social enterprise which works with local councils to reduce the amount of good items going to waste – is working in partnership with Cardiff Council to operate the shop. The official launch of the reuse centre will take place on 13 October 2021.

Garden Waste Collections

Garden waste collections are now on a four-week collection cycle. If residents want further information on their collections, they can access information both online on the Council's website at: [Check my collection dates \(cardiff.gov.uk\)](https://www.cardiff.gov.uk) or via the CardiffGov app. To support residents, there has also been an increase in the number of booking slots at both recycling centres from 20 to 30 bookings every 30 minutes.

HGV Drivers

Driver shortages continue to be a UK-wide problem post-Brexit. Recycling and Neighbourhood Services are working with the Trade Unions to identify a progression route for internal candidates to train as frontline drivers to provide a sustainable position as we move forward from now and into 2022. The service area continues to actively advertise and recruit drivers. All statutory waste collections have been made to schedule since changes were made to garden waste collections last month.

Cardiff Dogs Home

The Rescue Hotel Veterinary Health Centre, based at Cardiff Dogs Home, was officially opened on 21 August 2021 by Sam Warburton OBE, former Wales and British Lions rugby team captain and Cardiff Dogs Home charity ambassador. The new vet centre aims to keep prices affordable in order to help as many dogs as possible and is open to members of the public, whether they have taken on a dog from the Dogs Home or elsewhere. Demand is already high and 13 dogs were neutered in the first surgery on 6 September 2021. Examples of the fees being charged include:

- Bitch spay £175;
- Dog castrate £100;
- Dog vaccinations from £25; and
- Dentistry £150-350 (depending on amount of work needed).

Microchipping, flea and worm treatments and euthanasia services are also provided. More information can be found on the new website at:

<https://therescuehotelhealthcentre.com/>

The Rescue Hotel has paid for over £36,000 worth of veterinary treatment for dogs at Cardiff Dogs Home and over £10,000 in canine behaviourist input. Their commitment and contributions to this service are second to none and staff look forward to working closely with them in the future.

Volunteers arranged a sale at Cardiff Dogs Home on 4 September 2021, which was very well attended. The event raised a further £1,200 for the kennel fund, which now stands at £125,434.

Dog walking inductions are back in full swing at the Dogs Home and around 20-30 people are being inducted each week whilst still observing Covid-19 protocols. The demand is very high and all current sessions are being booked up quickly in advance. A Kickstart corporate trainee started work at the Dogs Home last month and the service is also looking to take on a Bright Start trainee start in the autumn.

Cardiff Dogs Home was also featured on BBC Crimewatch on 15 September 2021 in relation to dog theft and owners keeping their dogs safe. The Dogs Home team has also produced a Facebook live event with Wales Online to promote rehoming some of our longer-term dogs that need forever homes. Another event will happen in the near future.

Bereavement Services

The Council's Bereavement Services have, once again, been recognised at a national level for their outstanding service to the bereaved of Cardiff, after being named as a finalist in this year's APSE Service Awards for Best Cemetery & Crematorium Team.

Cardiff Coastal Defence Scheme

A planning application for the construction of a series of fluvial and coastal flood defences in Cardiff (ref: 21/02138/MJR) was submitted earlier this month. The application is seeking approval of a scheme to construct rock armour revetments, concrete erosion protection mats, earth bunds, flood gate (at the Rhymney River Motorboat, Sail & Angling Club) and sheet piling in order to reduce the risk of failing coastal flood defences and the release of contaminated landfill material into the Severn Estuary from Lamby Way Tip and the Rover Way Frag Tip, in the immediate future and over the next 100 years. The scheme will also reduce and manage the flood risk to approximately 2,326 residential and approximately 204 commercial properties over the same period.

Following the submission of the draft Full Business Case to Welsh Government, comments have been received and discussion workshops are taking place. The Marine Licence Application was submitted to Natural Resources Wales and has been validated. Public notices are also being published in the Western Mail newspaper on 17 & 24 September 2021.

Councillor Michael Michael
Cabinet Member for Clean Streets, Recycling & Environment
23 September 2021

CHILDREN & FAMILIES STATEMENT

Falconwood Assessment Centre

Members may recall that I reported on the progress at Falconwood Assessment Centre in my last statement in July 2021. I am pleased to confirm that the home was registered by Care Inspectorate Wales during August and our residential team has already welcomed the first three young people to the home. The delivery of this new centre is the first in our ambitious development plan to increase in-house residential provision, with the aim of reducing out-of-county placements and to better meet the need of those on the edge of care or care-experienced children and young people in our city.

National Transfer Scheme

Officers from Cardiff Council, together with colleagues from Newport City Council, are working with key partners, including the Wales Strategic Migration Partnership (WSMP) and Welsh Government to scope and develop a National Transfer Scheme (NTS) delivery model for Wales. The NTS is a UK Government scheme that forms the basis of a voluntary agreement made between local authorities in the UK to ensure a more equitable distribution of Unaccompanied Asylum Seeking Children (UASC) across local authority areas. It is intended to ensure that local authorities do not face a disproportionate responsibility in accommodating and looking after unaccompanied children, simply by virtue of being the point of arrival or entry. In recent months, UASC arrivals have increased significantly and Kent County Council Children's Services have been unable to accept any unaccompanied minors into their care as they are unable to meet their statutory duties to safeguard these young people. Therefore, children arriving in the UK via cross-channel routes into Kent are currently being supported by the Home Office. Cardiff Council has successfully placed six UASCs since June 2021, including one child who was placed with family members in the area.

Cardiff Family Advice and Support (CFAS)

Referrals to the Family Help and Family Help Disability Teams remain consistently high. Between July and August 2021, 147 cases were stepped down from the Multi-Agency Safeguarding Team (MASH) compared to 94 cases during the same period in the previous financial year. Referrals to the Family Help Teams by the Family Gateway also increased in July and August 2021 compared to the same period in the previous financial year. There are currently a total of 539 open cases for Family Help and the Family Help Disability Team compared to 344 open cases during the same period in the previous financial year.

Families supported by the Family Help Disability Team are receiving an average of 13 weeks of intervention, which has more than doubled since May 2021 when the average intervention period was five weeks. This is reflective of the complexity of recent referrals and the fact that more direct work in being undertaken with multiple family members, often on a range of issues.

Cardiff Parenting

169 new referrals were received across Parenting Services last month, compared with just 60 in August 2020 and 149 in August 2019. Teams completed 1,574 contacts in total with parents and carers last month, which is comparable to the same time last year, but lower than 2019 when we were able to provide summer trips and large-scale summer events (3,132 contacts in total in August 2019). 437 contacts were made for formal parenting programmes and interventions, compared to 521 in August 2020 and 172 in August 2019.

Our one-to-one psychology-led teams have seen an increase in complexity of cases from referrals for teenagers and young people, Children's Services Pre-Birth Team and very young infants referred by Health Visitors and Children's Services. For example, there has been an increase in neurodiversity and sensory needs; hospitalisation for a pattern of eating non-food items; children with anxiety/ fear of unusual things (e.g. colours), which affects day-to-day function and quality of life; cases where parents are having difficulty putting in place boundaries/ placing expectations on children following suicide attempts (aged 14-17), and current and historic sexual abuse.

The length of parenting interventions is now up to 20 weeks due to the need to work through complex needs and change processes. In 2019/20, the average length of intervention was 12-13 weeks, rising to 14-15 weeks by November 2020 and it has increased steadily since then. The number of contacts by these teams has also increased over the last three years from 147 in August 2019 and 180 in August 2020 to 228 in August 2021. The Child Development Fund has enabled us to employ more staff to deliver this service.

Summer of Smiles Festival – Pirate Island Adventure

Last month, care-experienced children and young people, and young carers took part in four days of Pirate Island Adventures at Flat Holm Island as part of the Summer of Smiles Festival. This activity was organised in partnership between Child Friendly Cardiff, Children's Services and the Harbour Authority. Each group was hosted by pirates played by actors from LaLaLa Productions. After being welcomed into the motley crew, participants travelled by boat to Flat Holm Island where they took part in a treasure hunt involving games and tasks, before returning to the mainland where they received a certificate and treasure.

Councillor Graham Hinchey
Cabinet Member for Children & Families
23 September 2021

**CITY & COUNTY OF CARDIFF
DINAS A SIR CAERDYDD**

COUNCIL:

30 September 2021

REPORT OF DIRECTOR GOVERNANCE & LEGAL SERVICES

APPOINTMENT OF LOCAL AUTHORITY GOVERNORS TO SCHOOL GOVERNING BODIES

Reason for this Report

1. To appoint Local Authority School Governors to fill vacancies.

Background

2. Section 19 of the Education Act 2002 makes provision for the governing bodies of maintained schools to include Local Authority appointed governors, with further detail contained in the Government of Maintained Schools (Wales) Regulations 2005. When Local Authority school governor vacancies arise, either by appointees reaching the end of their term of office or resigning, it is the statutory duty of the Council to fill the vacancies as soon as possible.
3. The Local Authority Governor Panel was constituted at the Annual Council in May 2015 to advise the Council on appointments and removal of governors to those places allocated to the Local Authority.

Issues

4. The Local Authority Governor Panel met on 20 September 2021 to consider new applications to fill current and future vacancies due to arise by 31 December 2021. The recommendations of the panel, in respect of new appointments and re-appointments, are contained in Appendix 1 to this report.

Reasons for Recommendations

5. To ensure that the Council fulfils its statutory functions in respect of the appointment of Local Authority governors for maintained schools.

Legal Implications

6. As noted in paragraph 2 of the report, the Council is required, pursuant to the Education Act 2002, section 19 and regulations made there under, to appoint local authority governors to the governing bodies of maintained schools, in accordance with those statutory provisions. Appointments are for a fixed term of 4 years from the date of the appointment and governors may be re-appointed for a further 4 year term.

7. Appointments to outside bodies are a local choice function, which is reserved under the Council's Constitution to full Council. Accordingly, the appointment of Local Authority governors to governing bodies requires the approval of full Council.
8. Members will note that this report recommends the appointments and re-appointments of local authority governors, as set out in Appendix 1, for a further 4 year term.

Financial Implications

9. There are no financial implications arising from this report.

Recommendation

10. That, in accordance with the recommendations of the Local Authority Governor Panel, the Council approves the new appointments and re-appointments of Local Authority governors to the school governing bodies as set out in Appendix 1, each for a term of 4 years from the date of the appointment.

Davina Fiore
Director Governance & Legal Services
23/9/2021

The following Appendix is attached:

Appendix 1 List of Local Authority school governor vacancies and recommendations for appointment by the Local Authority Governor Panel for the period 1 September 2021 to 31 December 2021.

The following Background Documents have been taken into account: N/A

**LA Governor Vacancies - Recommendations from LA Governor Panel
1 September 2021 to 31 December 2021.**

Appendix 1

- i. All appointments in the list are recommended by the LA Governor Panel and will have satisfied the required application process.
- ii. All terms of office unless otherwise stated are for 4 years.

Existing LA Governor Vacancies

CYNGOR CAERDYDD CARDIFF COUNCIL

COUNCIL:

22 JULY 2021

REPORT OF THE DIRECTOR OF GOVERNANCE & LEGAL SERVICES

COMMITTEE MEMBERSHIP

Reason for Report

1. To receive nominations and make appointments to current committee vacancies as set out in the report and in accordance with the approved allocation of seats and political group wishes.

Background

2. The Annual Council meeting 27 May 2021 established the Committees and Panels of the Council and their composition. The seats allocated to political groups on each committee were calculated in accordance with political balance, and nominations were received for each committee from the political groups.
3. In accordance with the Welsh Audit Office Statement of Action P3b (report March 2016), Membership of Committees is a standing item on monthly Group Whips meetings and Full Council, as appropriate.

Issues

4. The Annual Council 27 May 2021 received nominations to committee seats. Not all seats were filled and the vacancies that remain are as follows:

Committee	Vacancy	Group	Nomination Received
Corporate Parenting Advisory Committee	1 vacancy	1 x Propel	
Public Protection	1 vacancy	1 x Propel	

5. Further nominations to fill existing vacancies received from political groups prior to Full Council on 22 July 2021 will be reported on the amendment sheet.

Legal Implications

6. The Council is under a duty to make appointments to Committees, in accordance with the approved allocation of seats to political groups, so as to give effect to the wishes of the political groups (pursuant to Section 16 of the 1989 Act).
7. The size and composition of the Local Planning Authority Committees (Wales) Regulations 2017 (made under section 39 of the Planning (Wales) Act 2015), provide that in relation to the size and composition of planning committees where wards have more than one elected Member, only one Member may sit on the planning committee, in order to allow other ward Members to perform the representative role for local community interests.
8. The Council's Planning Committee Procedure Rules currently provide for the establishment of the Planning Committee, and Rule 1.1A(ii) reflects the requirements of the above Regulations.

Financial Implications

9. There are no financial implications directly arising from this report.

RECOMMENDATION

The Council is recommended to appoint to the vacancies on Committees in accordance with the approved allocation of seats and Party Group wishes, as set out on the Amendment Sheet.

DAVINA FIORE

Director Governance and Legal Services
