Key Controls

- 2.29 Key controls for the scheme of virement are:
- the overall revenue budget is drawn up by the Cabinet and approved by the full Council. Chief Officers and budget managers are, therefore, authorised to incur expenditure in accordance with the estimates that make up the budget as set out in the budget book. The rules below cover virement; that is, switching resources between approved budget headings:
 - virement does not create additional overall budget liability. Chief Officers are expected to exercise their discretion in managing their budgets responsibly and prudently. For example, they should not support recurring revenue expenditure from one-off sources of savings or additional income, or creating future commitments, including full-year effects of decisions made part way through a year, for which they have not identified future resources. Chief Officers must plan to fund such commitments from within their own budgets;
 - the capital programme is drawn up by the Cabinet and approved by the full Council and contains details of approved expenditure on capital schemes.

Responsibility of the Cabinet

- 2.30 To approve revenue and capital budget virements or any inter-service virements where the purpose of the budget has been amended or in any case where arrangements have not been made for discharge of the function by an officer of the Authority and within the Policy and Budgetary Framework.

The possibility of delaying spend into future years may be required in some cases and should be observed following any request from the Corporate Director, Resources.

External audit is required to report on whether the Authority has complied with statutory requirements in respect of the preparation and publication of the Programme for Improvement.

REVENUE BUDGETING AND MONITORING

Budget Format

Why is this Important?

- 3.11 The format of the budget determines the level of detail to which financial control and management will be exercised. The format shapes how the rules around virement operate, the operation of cash limits, and sets the level at which funds may be reallocated within budgets.

Key Controls

- 3.12 The Key Controls are that the format:
- complies with all legal requirements;
 - complies with proper accounting and professional standards;
 - reflects the accountabilities of service delivery.

Responsibilities of the Corporate Director, Resources

- 3.13 To advise the Cabinet on the format of the budget that is approved by the full Council.

Responsibilities of Chief Officers

- 3.14 To comply with accounting guidance provided by the Corporate Director, Resources.

Revenue Budget Preparation and Medium-Term Planning

Why is this Important?

- 3.15 The Council is a large and complex organisation responsible for delivering a wide variety of services. It needs to plan effectively and to develop systems to enable scarce resources to be allocated in accordance with carefully weighed priorities. The budget is the financial expression of the Authority's plans and policies.

- 3.16 The revenue budget must be constructed so as to ensure that resource allocation properly reflects the service plans and priorities of the full Council. Budgets (spending plans) are needed so that the Authority can plan, authorise, monitor and control the way money is allocated and spent. It is unlawful for a local authority to budget for a deficit.
- 3.17 In considering the affordability of its capital plans the Council is required to consider all the resource currently available, and for the future together with an estimate of its requirements for the following year and each of the following two years. The Council is also required to consider known significant changes beyond this timeframe. This requires the development of rolling 3-year forecasts.

Key Controls

- 3.18 The Key Controls for budgets and medium-term planning are:
- budget managers are consulted in the preparation of the budgets for which they will be held responsible and accept accountability within delegations set by the Cabinet for their budgets and the level of service to be delivered;
 - a monitoring process is in place to review the effectiveness and operation of budget preparation and to ensure that any corrective action is taken.

Responsibilities of the Corporate Director, Resources

- 3.19 To prepare a report annually on a budget strategy for the following financial year for consideration by the Cabinet. This will take account of the Policy Framework, commitments, resource constraints and shall include medium term prospects. It will cover all the services of the Authority. The report shall be made in accordance with the Budget and Policy Framework Rules. The Cabinet having considered the report of the Corporate Director, Resources and having consulted upon any proposals in accordance with the Budget and Policy Framework Procedure Rules the Cabinet will then agree a budget strategy.
- 3.20 To prepare, after the budget strategy has been agreed by the Cabinet, in conjunction with the Corporate Directors and Chief Officers, estimates of the income and expenditure of the various service areas and submit them to the Cabinet. The Cabinet shall consider the aggregate effect of these estimates upon the Authority's financial resources and, subject to any other considerations of policy and to any amendments which it proposes to make, shall draw up proposals for the Budget and the amount of Council Tax and Housing Rents to be levied for the ensuing financial year to be referred to the Council. The inclusion of items in approved revenue estimates shall constitute authority to incur such expenditure save to the extent of which the Council shall have placed a reservation on any such items. Expenditure on any such reserved items may be incurred only when and to the extent that such reservations have been removed.
- 3.21 To prescribe the Budget format required.

- 3.22 To advise on the medium term implications of spending decisions and prepare medium term plans.
- 3.23 To encourage the best use of resources and value for money by working with Chief Officers to identify opportunities to improve economy, efficiency and effectiveness, and by encouraging good practice in conducting financial appraisals of development or savings options, and in developing financial aspects of service planning.
- 3.24 To advise the full Council on Cabinet proposals in accordance with his or her responsibilities under section 151 of the Local Government Act 1972.
- 3.25 To ensure all matters required to be taken into account are reported to the Cabinet and Council when setting and reviewing prudential indicators.

Responsibilities of Chief Officers

- 3.26 To provide the Corporate Director, Resources with information to complete the medium term plan.
- 3.27 To prepare, in conjunction with the Corporate Director, Resources, estimates of income and expenditure.
- 3.28 To prepare budgets consistent with any relevant cash limits, with the Authority's annual budget cycle and with guidelines issued by the Cabinet. The budget format will be prescribed by the Corporate Director, Resources.
- 3.29 To integrate financial and budget plans into service planning and for them to link in with the Corporate Plan.
- 3.30 When drawing up draft budget requirements, to have regard to:
- spending / income patterns and pressures revealed through the budget monitoring process;
 - legal requirements;
 - policy requirements as defined by the full Council in the approved policy framework;
 - initiatives already under way;
 - Areas where savings/efficiencies can be made.

Resource Allocation

Why is this Important?

- 3.31 A mismatch often exists between available resources and required resources. A common scenario is that available resources are not adequate to fulfil need/desire. It is therefore imperative that needs/desires are carefully prioritised and that resources are fairly allocated, in order to fulfil all legal

responsibilities. Resources may include staff, money, equipment, goods, property and materials.

Key Controls

3.32 The Key controls for resource allocation are:

- resources are acquired in accordance with the law and using an approved authorisation process;
- resources are used only for the purpose intended, to achieve the approved policies and objectives, and are properly accounted for;
- resources are used with the minimum level of waste, inefficiency or loss for other reasons.

Responsibilities of the Corporate Director, Resources

3.33 To advise on Resources such as grants or the affordability of borrowing.

3.34 To advise on the suitability of proposals to introduce/modify financial procedures to control resources (e.g. stock control systems).

3.35 To assist in the allocation of resources to budget managers.

Responsibilities of Chief Officers

3.36 To work within cash limits and to utilise resources allocated, and furthermore to allocate resources, in the most efficient, effective and economic way.

3.37 To identify opportunities to minimise or eliminate resource requirements or consumption without having a detrimental effect on service delivery.

Revenue Budget Monitoring and Control

Why is this Important?

3.38 Proper budget management ensures that, once the budget has been approved by the full Council, resources are used for their intended purposes and are properly accounted for. Budgetary control is a continuous process, enabling the Authority to review and adjust its budget targets during the financial year. It also provides the mechanism that calls to account managers responsible for defined elements of the budget.

3.39 By continuously identifying and explaining variances against budgetary targets, the Authority can identify changes in trends and resource requirements at the earliest opportunity. The Authority itself operates within an annual cash limit, approved when setting the overall budget. To ensure that the Authority, in total does not overspend, each service area is required to manage its own expenditure within the cash limited budget allocated to it.

- 3.40 Chief Officers are expected to exercise their discretion in managing their budgets responsibly and prudently. For example, they should not support recurring revenue expenditure from one-off sources of savings or additional income, or creating future commitments, including full-year effects of decisions made part way through a year, for which they have not identified future resources. Chief Officers must plan to fund such commitments from within their own budgets.
- 3.41 For the purposes of budgetary control by managers, a budget will normally be the planned income and expenditure for a service area or profit centre. However, budgetary control may take place at a more detailed level if this is required.

Key Controls

- 3.42 The Key controls for managing and controlling the revenue budget are:
- there is a nominated budget manager for each budget heading;
 - budget managers accept accountability for their budgets and the level of service to be delivered and understand their financial responsibilities;
 - budget managers follow an approved certification process for all expenditure;
 - income and expenditure are properly recorded and accounted for;
 - performance levels/levels of service are monitored in conjunction with the budget and necessary action is taken to align service outputs and budget;
 - specific budget approval is given for all expenditure;

Responsibilities of the Corporate Director, Resources

- 3.43 To establish an appropriate framework of budgetary management and control that ensures that:
- budget management is exercised within annual cash limits unless the full Council agrees otherwise;
 - all Corporate Directors and Chief Officers are furnished with periodical statements of receipts and payments and such other relevant information as he/she has which is sufficiently detailed to enable managers to fulfil their budgetary responsibilities;
 - in consultation with Corporate Directors and Chief Officers, reports are submitted, as determined by the Corporate Director, Resources, to the Cabinet, monitoring expenditure and comparing anticipated outturn with estimates;
 - each profit centre has a single named manager, determined by the relevant Chief Officer. As a general principle, budget responsibility should be aligned as closely as possible to the decision making processes that commits expenditure;
 - significant variances from approved budgets are investigated and reported by budget managers regularly.

- 3.44 To submit reports to the Cabinet and to the full Council, in consultation with the relevant Chief Officer, where a Chief Officer is unable to balance expenditure and resources within existing approved budgets under his or her control.
- 3.45 To establish procedures for the monitoring of prudential indicators.

Responsibilities of Corporate Directors and Chief Officers

- 3.46 To be responsible for keeping strict supervision of the expenditure of their respective service areas and for drawing the attention of the Corporate Director, Resources and the Cabinet and the Council to any contemplated expenditure not provided for in the estimates or which, if incurred, would exceed the amount allocated for the purpose in the estimates or not be in line with the Budget or the Policy Framework.
- 3.47 To maintain budgetary control within their service areas, in adherence to the principles above, and to ensure that all income and expenditure is properly recorded and accounted for.
- 3.48 To ensure that budgetary provision is identified for all expenditure incurred.
- 3.49 To ensure that officers responsible for committing expenditure comply with relevant guidance and financial regulations.
- 3.50 To ensure, after consultation with the Corporate Director, Resources that there is prior approval by the full Council or Cabinet (as appropriate) for new proposals, of whatever amount, that:
- create financial commitments in future years;
 - change existing policies, initiate new policies or cease existing policies;
 - materially extend or reduce the authority's services.
- 3.51 To ensure compliance with procedures regarding virement.

CAPITAL BUDGETING AND MONITORING

Why is this Important?

- 3.52 Capital expenditure (including use of capital grants and PFI/PPP projects) involves acquiring or enhancing fixed assets with a long term value to the Authority, such as land, buildings, infrastructure and major items of plant, equipment or vehicles. Capital assets shape the way services are delivered in the long term and create financial commitments for the future in the form of financing costs and revenue running costs.
- 3.53 The financing capacity of the authority is restricted by the affordability prudence and sustainability of the Capital Programme. This means that capital expenditure should form part of an investment strategy and should be carefully prioritised in order to maximise the benefit of scarce resources.

Key Controls

3.54 The Key Controls for capital programmes are:

- specific approval by the full Council for the programme of capital expenditure;
- a scheme and estimate, including project plan, options, progress targets and associated revenue expenditure is prepared for each capital project, for appraising by the Corporate Director, Resources;
- proposals for improvements and alterations to buildings must be approved by the appropriate Chief Officer in accordance with the Asset Management Plan;
- schedules for individual projects within the overall budget approved by the Council must be approved by the appropriate Chief Officer;
- accountability for each proposal is accepted by a named project manager;
- progress and expenditure should be monitored and compared to the approved budget.

Responsibilities of the Corporate Director, Resources

- 3.55 To issue guidance relating to the strategy and controls for capital schemes. The definition of 'capital' will be determined by the Corporate Director, Resources, having regard to Government regulations and accounting requirements.

INTERNAL CONTROLS

Why is this Important?

- 4.21 The Authority is a large, complex organisation which requires internal controls to manage and monitor progress towards strategic objectives.
- 4.22 The Authority has statutory obligations and, therefore, requires internal controls to identify, meet and monitor compliance with these obligations.
- 4.23 The Authority faces a wide range of financial, administrative and commercial risks, both from internal and external factors, which threaten the achievement of its objectives. Internal controls are necessary to manage these risks.

Internal Audit

Why is this Important?

- 4.30 The requirement for an internal audit function for local authorities is implied by Section 151 of the Local Government Act 1972, which requires that authorities 'make arrangements for the proper administration of their financial affairs'. The Accounts and Audit Regulations, more specifically, require that a 'relevant body shall maintain an adequate and effective system of internal audit of their accounting records and control systems'.
- 4.31 Internal audit is an independent and objective appraisal function established by the Authority for reviewing the system of internal control. It examines, evaluates and reports on the adequacy of internal control as a contribution to the proper, economic, efficient and effective use of resources.

Key Controls

- 4.32 The key controls for internal audit are:
- that it is independent in its planning and operation;
 - the Audit Manager has direct access to the Chief Executive, all levels of management and directly to elected members;
 - internal auditors comply with the Auditing Practices Board's guideline Guidance for Internal Auditors, as interpreted by CIPFA's Code of Practice for Internal Audit in Local Government in the United Kingdom;

The external auditor has rights of access to all documents and information which in his/her opinion are necessary to carry out his/her statutory functions.
- 4.46 The basic duties of the external auditor are defined in the Public Audit (Wales) Act 2004 and the Local Government Act 1999. In particular, section

16 of the 2004 Act requires the Auditor General for Wales to prepare a code of audit practice, which external auditors follow when carrying out their duties. The code of audit practice sets out the auditor's objectives to review and report upon the audited body's:

- arrangements to secure economy efficiency and effectiveness in its use of resources
- financial statements
- compliance with statutory requirements in respect of the preparation and publication of its Improvement Plan.

4.47 The Authority's accounts are scrutinised by the external auditors, who must be satisfied that the statement of accounts 'presents fairly' the financial position of the Authority and its income and expenditure for the year in question and complies with the legal requirements.

Key Controls

6 EXTERNAL ARRANGEMENTS

PARTNERSHIPS

Why is this Important?

- 6.1 Partnerships are likely to play a key role in delivering community strategies and in helping to promote and improve the well-being of the area. Local authorities are working in partnership with others – public agencies, private companies, community groups and voluntary organisations. Local authorities still deliver some services, but their distinctive leadership role is to bring together the contributions of the various stakeholders. They therefore need to deliver a shared vision of services based on user wishes.
- 6.2 Local authorities will mobilise investment, bid for funds, champion the needs of their areas and harness the energies of local people and community organisations. Local authorities will be measured by what they achieve in partnership with others.

General

- 6.3 The main reasons for entering into a partnership are to share risk, to access new resources, to provide new and better ways of delivering services and to forge new relationships.
- 6.4 A partner is defined as either:
- an organisation (private or public) undertaking, part funding or participating as a beneficiary in a project, or
 - a body whose nature or status give it a right or obligation to support the project.
- 6.5 Partners have common responsibilities:
- to be willing to take on a role in the broader programme appropriate to the skills and resources of the partner organisation;
 - to acknowledge that the best interest of the partnership is more important than the best interest of each participating group;
 - to acknowledge that the partnerships require a level of flexibility which may require non compliance with the Authority's Financial and Procurement & Contract Rules. Where this arises it should be formally approved by the Audit Manager;
 - to act in good faith at all times and in the best interests of the partnership's aims and objectives;
 - to be open about any conflict of interests that might arise;
 - to encourage joint working and promote the sharing of information, resources and skills between public, private and community sectors;
 - to hold confidentially any information received as a result of partnership activities or duties that is of a confidential or commercially sensitive nature;
 - to act wherever possible as ambassadors for the project.

EXTERNAL FUNDING

Why is this Important?

- 6.15 External funding is potentially a very important source of income, but funding conditions need to be carefully considered to ensure that they are compatible with the aims and objectives of authorities. Local authorities are increasingly encouraged to provide seamless service delivery through working closely with other agencies and private service providers. Funds from external agencies provide additional resources to enable the Authority to deliver services to the local community. However, in some instances, although the scope for external funding has increased, such funding is linked to tight specifications and may not be flexible enough to link to the Authority's overall plan.

Key Controls

- 6.16 The key controls for external funding are:
- to ensure that key conditions of funding and any statutory requirements are complied with and that the responsibilities of the accountable body are clearly understood;

Arrangements should be in place to ensure that any risks associated with this work is minimised and that such work is within the Authority's legal powers.
