The Amended Motion would read as follows:

Cardiff's population is expected to grow by 90,000 according to the official WG/ONS projections for the period 2014-2039, and we already have a significant housing shortage. The LDP was adopted in January 2016 to help plan how Cardiff can grow sustainably, and protect the city from ad hoc sporadic developments. The 2nd annual monitoring report came to Cabinet in September 2018 showing overall good progress against the 107 indicators, with no red indicators.

Considering the major impact the LDP process will have on the city over the next 10 years, we call on this Council to consider and approve the following proposal:

- The Annual LDP Monitoring report should come before full Council for consideration and review. The report details progress against targets set, houses sold and whether trigger points for key infrastructure measures are being met; and
- A user- friendly document will be produced to keep residents informed of the key stages of the LDP, including a central online information point to maintain transparency and clarity; and
- that continues to recognise the hard work and expertise shown by the Council's Head of Planning and Planning Department who make themselves available to Elected Members and representative bodies on a daily basis; and
- notes that the new Older Persons Housing Strategy will be considered by Cabinet and will be brought to full Council for debate early in the new year. The strategy is based on independent research already undertaken to assess future housing and care needs across all tenures, and informs the LDP process; and
- notes this Council's Administration's commitment to the green wedge. Further, this Council believes that any future regional planning must not diminish Cardiff's ability to protect green spaces across the city.
