Foreword

To meet the challenges of today and tomorrow, the public sector needs to adapt and respond as one.

Cardiff Public Services Board provides the forum for this to happen - for public sector partners to work together to drive forward economic growth for all, to address the causes of poverty and inequality and to manage demand for services and the impact of climate change in a resilient and sustainable way.

In May 2018, our Cardiff Well-being Plan 2018-2023 set out the steps we will take to tackle these challenges. A year in and the PSB has led the way in responding to some of the key issues facing the city – from responding to Brexit, advocating the Living Wage, making the shift to active modes of transport and developing an integrated approach to the planning of new communities.

The focus has also been on the voice of the child, with the launch of Cardiff's Child Friendly City Strategy and the new Family Support Service ensuring children and families are given the right support, in the right way and at the right time.

This annual report includes many more examples of the partnership work undertaken this year. It is clear that the PSB has already made significant strides forward in delivering its Well-being Plan and making Cardiff a greener, fairer and more prosperous city.

Introduction

About the Annual Report of the Cardiff PSB

This annual report outlines the work that the Cardiff Public Services Board has undertaken over the past 12 months to deliver on its [Well-being Plan](#) and provides an update on how the city is performing against the plan's outcome indicators.

The Well-being Plan sets 50 indicators for measuring the city's performance. [Cardiff in 2019](#) provides an interactive platform for comparing performance against the UK's Core Cities and other Welsh Local Authorities.

What is Cardiff's Public Services Board?

Cardiff's Public Services Board (Cardiff PSB) brings together the city's public service leadership and decision-makers, including those from the Local Authority, Health Board, Natural Resources Wales, Welsh Government, the Third Sector and the Fire, Police and Probation services. The purpose of the PSB is to improve the economic, social, environmental and cultural well-being of Cardiff by strengthening joint working across the city's public services.

What is a Well-being Plan?

Cardiff Well-being Plan 2018-2023 sets out the Cardiff PSB's priorities for action over the next 5 years, and beyond. The plan focusses on the areas of public service delivery which fundamentally require partnership working between the city's public and community services, and with the citizens of Cardiff.

The Well-being Plan should therefore be seen as a complementary document to the strategic plans of each PSB member, focusing on delivering 'collaborative advantage' in areas of city life and public services which cut across all public and communities services.

The Plan contains Well-being Objectives, high-level priorities that the Cardiff PSB have identified as being most important. It also contains 'commitments,' or practical steps that the city's public services, together, will deliver over the next 5 years. The PSB's Wellbeing Objectives are:

1. A capital city that works for Wales
2. Cardiff grows in a resilient way
3. Safe, confident and empowered communities
4. Cardiff is a great place to grow up
5. Supporting people out of poverty
6. Cardiff is a great place to grow old
7. Modernising and integrating our public services

How is the Well-being Plan being delivered?

The Cardiff PSB has put in place a number of programme of work in order to deliver in these areas where delivering improvement fundamentally requires partnership working across the public services. The partnership delivery framework, agreed by the PSB in May 2018, can be found in Appendix A.

Well-being Objective 1

A Capital City that
Works for Wales

Introduction

Cardiff is the economic, political and cultural capital of Wales. As well as playing a vital role in creating jobs and attracting investment into Wales, it is the home of Welsh sport, politics, music and the arts, hosting major international sporting and cultural events, and provides specialist public services for the people of the wider Capital Region.

A successful Wales needs a successful capital city. PSB members are committed to working together to make sure that Cardiff continues to attract and deliver major sporting and cultural events, tourists, investment, businesses and students in to Wales and to position Cardiff as a capital city of international significance in a post-Brexit global economy.

Overview of PSB work in 2018-19

Cardiff's economy continues to grow, creating jobs and attracting investment. Over the course of 2018/19, Cardiff PSB contributed towards the development of the city's **new economic strategy** – 'More and Better Jobs' and to the development of the Cardiff Capital Region City Deal.

Although the city's economy is growing, the number of jobs with hourly pay below the living wage is also high and growing. PSB members have therefore reiterated their commitment to **becoming accredited as Living Wage employers**, acting as advocates for encouraging more of the city's 'anchor' employers to recognise the benefits of the real Living Wage, and supporting the city's bid to become a **UK Living Wage City by 2020**.

The impact of the UK leaving the European Union remains a strategic issue facing Cardiff economy, communities and public services. Cardiff is one of the British cities most economically exposed to the risks of the EU leaving the European single market, with 61 % of Cardiff exports going to EU countries. The ongoing uncertainty around Brexit also presents a

serious risk to community cohesion, though reported hate crimes remain stable compared to the previous year. The potential increase in participation in far and extreme right wing groups and activities is an emerging risk, particularly in the event of a 'no deal' Brexit or a second referendum.

Cardiff PSB has played a leading role in the city's response to **Brexit**. [The 'Brexit: Implications For Cardiff'](#) report on the implications for the economy and public services has led the way in ensuring a coordinated understanding and response to the risks arising from the UK leaving the European Union. Building on this, with the initial Brexit deadline of 29 March 2019 approaching, the PSB established a Brexit Preparedness Group which met regularly to discuss organisational preparations and support available for staff, service users and residents. The webpage '[Cardiff and Brexit](#)' signposts businesses, EU residents and individuals to guidance and support.

The city is working to double the number of Welsh speakers in Cardiff, in line with Welsh Government's vision for **1 million Welsh Speakers** in Wales by 2050. **Cardiff's Bilingual Strategy**, launched in 2017, has been praised as an exemplar. Partners are working together to publish a new action plan for the city.

Well-being Objective 2

Cardiff grows in a
resilient way

Introduction

Cardiff is one of Britain’s fastest growing cities, and is by far the fastest growing local authority area in Wales. Successful cities are those in which people want to live and this growth is welcomed and a sure sign of strength for the city. However, this growth will bring challenges too, putting pressure on both the city’s physical infrastructures, community cohesion, its natural environment and public services. Managing the impacts of this population growth and of climate change in a resilient and sustainable fashion will be a major long term challenge for Cardiff.

Measuring Progress:

City Level Outcome Indicator PSB is seeking to impact	Cardiff in 2018	Cardiff in 2019	
Per capita CO2 emissions (t)	5.0	4.6	Green
% travel to work by sustainable transport	45.8 %	48.1 %	Green
Average NO2 concentration at residential locations	21	17	Green
Green Flag accredited parks	12	13	Green

% municipal waste reused/recycled/composted	58.1 %	58.3 %	Green

Overview of PSB work in 2018-19

Foremost is the work of Cardiff Council and Cardiff and Vale UHB/Public Health Wales on **air quality and active travel**. To improve air quality the PSB has overseen the consideration of a number of mitigating actions to tackle air pollution and increase active travel in key areas of the city centre. From these discussions and in response to the Annual Report of the Director of Public Health 2017, 'Moving forwards: Healthy travel for all' an active travel task and finish group led by Dr Tom Porter, Consultant in Public Health Medicine, developed [Cardiff's Staff Healthy Travel Charter](#). Approved by the PSB in April 2019, its members and a number of other organisations including the National Museum, Welsh Ambulance, Public Health Wales, HMRC, National Assembly, Office of Future Generations Commissioner and SportWales signed up to supporting staff to make active and sustainable travel choices and set 3 year targets. Collectively these organisations have over 33,000 employees.

The [Office of the Future Generations Commissioner](#) has produced a video outlining the importance of the Charter and its benefits. Going forward it is hoped that the charter will be adopted by organisations in the private and third sectors, universities and neighbouring local authorities.

Transport was also a major theme of the PSB workshop held in September 2018 on adopting an integrated approach to the **planning of the new communities** in Cardiff. Attended by representatives from across the public services, the Plasdwr development was used as a case study. It was agreed that an integrated approach to planning was being adopted, however further work was needed on the integrated planning and delivery of public services in these new communities, with the city's Community and Wellbeing Hub approach a best practice model to build on.

Following **Storm Emma** in March 2018 – or 'The Beast from the East' as it was called - which produced heavy snowfall and disruption across the city, the PSB commissioned a review of response systems, which made a series of recommendations for improving the public service response to extreme weather events. In response to this review a new partnership approach to access specialist vehicles – in particular 4x4s – has been established.

PSB members visited the award winning **Greener Grangetown partnership project** between Cardiff Council, Dŵr Cymru Welsh Water and Natural Resources Wales, which used the latest sustainable drainage (SuDS) techniques to clean and divert rainwater directly into the River Taff instead of pumping it away and discharging it out to sea. The scheme is delivering a wide range of benefits, including improved climate change resilience, reduced energy use and improved green infrastructure making the area more attractive to residents.

Consider joint working to ensure that all **public buildings are energy and waste efficient**.

Progress discussions on exploring the potential for **divesting public investments from fossil fuel companies**.

Well-being Objective 3

Safe, Confident
and Empowered
Communities

Introduction

Safe, confident and empowered communities are at the heart of well-being. They have a unique role to play when it comes to much of what we most value – our environment, safety, welfare, health and happiness. Moreover, communities often possess the knowledge, skills, passion, creativity and an understanding of the local area that service providers simply do not have. Ensuring that local communities are safe and empowered is therefore a fundamental component of a successful city.

Measuring Progress:

Overview of PSB work in 2018-19

Cardiff's successful programme of developing multi-agency **community and public service hubs** has continued, with the St Mellons Hub completed in the summer of 2018, consolidating the full range of local public services under one roof. Plans have also been agreed for the location of a new public services hub – including a café, library, information centre and a centre for domestic abuse services at the Cardiff Royal Infirmary.

In October 2018, a new partnership approach to **Community Safety** was approved by Cardiff PSB, including the establishment of a new Community Safety Board for Cardiff, co-chaired by the Police and Crime Commissioner, Alun Michael, and the Cabinet Member for Housing and Communities, Cllr Lynda Thorne. The group, which reports into the PSB, has agreed the following priorities for joint working between PSB members for the year ahead:

- City Centre and Street Sleepers
- County Lines and exploitation of the vulnerable
- Prevent and CONTEST
- Area Based Working

Work on each of these priorities will focus on both **building resilience** - helping communities to withstand and recover from adverse situations – and **addressing vulnerabilities** - identifying those in a community who are subject to harm or are likely to be exposed to harm and taking action at the earliest opportunity.

Cardiff's **Violence Against Women, Domestic Abuse and Sexual Violence (VAWDASV)** service was launched in 2018 and has been extended to enable support for children and young people. 'It's in our hands' was developed with partners and survivors of violence and abuse. At the heart of this service is working in partnership to challenge attitudes and behaviours that could result in VAWDASV, meet the needs of victims and explore new ways of working.

To develop a **jointly commissioned substance misuse service**, Cardiff and Vale Area Planning Board is in the process of strengthening its governance through the PSB and developing an alliancing approach to inform a new substance misuse services system. This will focus on harm reduction, improving outcomes for service users and ensuring effective and value-based services.

In December 2017, [Volunteer Cardiff](#) was launched, signposting Cardiff residents to all the opportunities, organisations and support available across the city. Volunteering has been expanded into all Hubs, libraries and Adult Learning settings with nearly 150 volunteers across the teams. Best practice is being shared to develop wider volunteering opportunities.

Cardiff's **Night Time Economy Strategy** was developed in partnership with the Business Improvement District and agreed by the PSB in 2017/18. In January 2019, Cardiff was awarded Purple Flag status in recognition of the quality, safety, diversity of its night time economy.

Well-being Objective 4

Cardiff is a great
place to grow up

Introduction

Cardiff is already a good place for many of its children and young people to grow up, with a fast improving school system alongside the advantages that a capital city can bring such as an extensive range of leisure, sporting and cultural opportunities. However, the inequality evident in Cardiff can have a profound effect on the lives of children and young people and their families, and children who are disadvantaged - whether through disability, poverty, family circumstances, illness, neglect or abuse - will require particular help and support from across the public and third sector services and from within their communities.

Overview of PSB work in 2018-19

Good progress has been made in relation to this Wellbeing Objective, with the PSB's Improving Outcomes for Children programme delivering a number of multi-agency projects to improve the lives of the city's children.

Launched by the Cardiff PSB on World Children's Day (20 November 2019), the [Child Friendly Cardiff](#) strategy, places the rights and voices of children and young people at the heart of Cardiff's policies, strategies and services; involving them in decision making and addressing the barriers which limit their life chances. The strategy is a significant step towards Cardiff's aim of being internationally recognised as **one of the UK's first Unicef Child Friendly Cities**. Work is progressing on a delivery plan setting out key actions and identifying lead delivery officers from across partnership organisations.

[In the following video](#), the Chair of the Children and Young People Advisory Board, Rose Melhuish and Board Member, Naz Ismail describe the changes that becoming a Unicef Child Friendly City could bring to Cardiff.

This year has seen the development of the **Cardiff Family Advice and Support** service that works across Housing, Education, Health and Social Care to ensure children and families are given the right support, in the right way and at the right time. It brings together a range of existing and new information, advice and assistance services for families, young people and children in Cardiff through a single point of entry for Early Help referrals. This is a brand new service and remains under development. Next steps for the service include setting up a referral form pilot with key partners in Education, Health and Housing, developing a website with the assistance of parents and young people and examining links with the Multi-Agency Safeguarding Hub.

Cardiff PSB has continued its support for the **Cardiff Commitment**, an initiative that aims to ensure all young people engage and progress in education, training and employment on leaving school. 181 organisations are supporting the Cardiff Commitment from the public, private and third sector. 'Open your eyes' week provided an opportunity for schools to engage with businesses and organisations around opportunities and career pathways.

Well-being Objective 5

Supporting people
out of poverty

Introduction

Cardiff’s strong performance across a range of well-being indicators disguises deep and entrenched inequalities across the city. Over 60,000 people in Cardiff live in the 10 % most deprived communities in Wales. If the ‘Southern Arc’ of Cardiff, from Ely in the West to Trowbridge in the East, was considered a single local authority area it would be the most deprived in Wales by a considerable margin.

Living in poverty can cast a long shadow over people’s lives – life expectancy and other health indicators are lower in the more deprived wards of Cardiff, air quality is poorer, there is less access to green space and crime in the city is concentrated in these areas. How to ensure that all citizens benefit from the capital city’s economic growth is one of the most complex and challenging issues facing Cardiff over the years to come.

Measuring Progress:

City Level Outcome Indicator PSB is seeking to impact		Cardiff in 2018	Cardiff in 2019	
Percentage of households in poverty (i.e. below 60 % of median income) by MSOA (after housing costs)		16 %	16 %

Overview of PSB work in 2018-19

The Inclusive Growth Board, which focusses on removing the barriers to employment and helping people, particularly those furthest from the labour market, into good quality work, has led a series of projects over the last year on behalf of Cardiff PSB. The most significant being the **integration of into work services**.

Previously, employment support services in Cardiff have been fragmented, with differing and complex eligibility criteria. This caused duplication in the services offered, as well as gaps in service provision, and made services unnecessarily complicated to access. The into work project has developed a fully integrated and comprehensive **Into Work Service**, that went live on the 1st April 2018, and has brought together a range of services and funding streams, providing **an easy-to-access Gateway to employment support services** in Cardiff.

The PSB has committed to being advocates for Cardiff **becoming a Living Wage city**. 93 employers have now been accredited through the Council's Living Wage Accreditation Support Scheme. This represents around 46 % of the total number of accredited employers in Wales.

Recognising the large and growing gaps in health outcomes across the city, the PSB commissioned research into **health inequalities**. This work, undertaken by Public Health Wales in April 2019, further demonstrated the scale of the health inequalities in Cardiff.

A further in depth analysis of data/intelligence and existing interventions is currently being undertaken to identify action around a discrete number of issues relating to health inequalities.

The quality, availability and affordability of food has a significant role to play in addressing poverty, health inequalities and supporting the local economy. **Cardiff's Food Strategy** has been developed on the back of a study commissioned to look at best practice and understand the views of partners. The finalisation of the strategy has been delayed in order to ensure alignment with Welsh Governments obesity strategy 'Healthy Weight: Healthy Wales' will be brought to the PSB for consideration in Autumn 2019.

Like all major British cities, Cardiff has experienced a rise in the number of people **homeless and rough sleeping** over recent years. With the reasons that lead people to lose their home being complex and varied, it is rarely, just a housing issue. As a consequence, there is a need to recognise that the challenge of homelessness and rough sleeping goes far beyond housing and requires a co-ordinated multi-agency response to encourage individuals into services that can support. Close multi-agency working has continued to take place on this issue over the past year, particularly relating to the issue which emerged in 2018/19 with the use of tents in the city centre.

Progress against our commitments for Cardiff:

Commitments	Update

<p>Seek to increase the impact of public services as anchor employers on tackling poverty through adapting employment policies and exploring cross-public service approaches to ‘Social Responsibility’ policy and ‘Community Benefits.’</p>	<p>Cardiff Council’s Socially Responsible Procurement Policy was presented to Cardiff PSB in June 2018. Meetings have taken place to understand how this can be implemented and adopted in other public sector organisations. Cardiff PSB will consider Cardiff’s Modern Slavery Statement in July 2019.</p>
<p>Support a city wide Food Partnership to ensure citizens have access to sustainable, healthy and affordable food.</p>	<p>Cardiff Food Strategy has been developed in partnership through the Food Cardiff initiative. The implementation of the strategy has been delayed in order to ensure alignment with Welsh Governments obesity strategy ‘Healthy Weight: Healthy Wales’.</p> <p>The UK Sustainable Food Cities conference was held in Cardiff, with 160 delegates attending from Sustainable Food Cities and Networks from around the UK. The UK Food Power conference was held as a follow-on event, looking at ways of alleviating food poverty and tackling inequalities.</p>

Well-being Objective 6

Cardiff is a great
place to grow older

Introduction

How a society treats people as they get older reflects its values and principles, and sends an important message to future generations. Cardiff's ambition is for the city to be a great place to grow older, where older people are more empowered, healthy and happy, supported by excellent public and community services and integrated within all areas of community life.

Overview of PSB work in 2018-19

The Improving Outcomes for Adults programme has led on the development of a series of successful multi-agency projects supporting older people over the past year, reporting progress into both the Cardiff PSB and the Cardiff and Vale Regional Partnership Board (RPB).

An expansion of the existing model for the **First Point of Contact to Adult Services** has been piloted to enable patients to access Health, Council and third sector services from the hospital, thereby enabling far greater join-up between primary health services, social care and other community services. Initial analysis of this project showed it to be worthwhile with long-term prospects. As a result, plans for full implementation in 2019/20 have been put in place. Results show that 99% of clients felt able to live independently in their homes following support from the independent living services

During 2018-19 the Welsh Government (WG) approved the Cardiff and Vale Regional Partnership Board transformation proposals "**Me, My Home, My Community**", securing £6 million investment into well-being, social care and health services in one region to deliver seamless services in line with "Healthier Wales", WG's health and social care plan.

Dementia Friendly Cardiff officially launched in 2018 as a collaboration between Cardiff Council, Alzheimer's Society and the Health Board, with the support of the

Cardiff PSB. The project aims to deliver on a shared vision of working towards a city in which people affected by Dementia, as well as their families and their carers, can feel supported and live well with their diagnosis. Dementia Friendly Cardiff aims to make sure that people with dementia can live in supportive communities within the city and help them feel that they are not alone.

Some of the key achievements to date:

- There are now over 25,000 Dementia Friends across Cardiff and the Vale of Glamorgan who have participated in Dementia Awareness Sessions.
- A programme of face-to-face Dementia Friends Awareness sessions have been delivered to staff across the public sector.
- Dementia cafes have been delivered at Hubs and Libraries across the City.
- Grand Avenue Day Centre has opened as a Centre of Excellence to support those living with Dementia.
- A dementia friendly walk has been developed at Bute East Dock.

The **Get Me Home** project, progressed through the Improving Outcomes for Adults Programme Board, has improved the discharge process of patients receiving services at the University Hospital of Wales. A new collaborative way of working has been developed to improve the patient journey and increase integrated working between Cardiff Council, Health and Third Sector partners. Since the project commenced, the Get Me Home team has supported 166 patients and delivered 265 outcomes that have assisted discharge or helped independent living once patients return home.

Well-being Objective 7

Modernising and
Integrating our
Public Services

Introduction

Public services in Cardiff are undergoing a period of rapid change. Over the years ahead they will need to continue to adapt in response to the rapid growth in population, the changing expectations of citizens, the consequences of poverty and significant and ongoing resource constraints.

No single service can meet the challenges they face alone. New, integrated approaches to service delivery will be needed, characterised by a drive to break down and reshape organisational boundaries, systems and cultures around the needs of those receiving the service and the communities in which they live. Service providers in Cardiff have a strong track record of working together, but this now needs to go up a gear to create a culture of one public service with one purpose - to deliver for the people of Cardiff.

Measuring Progress:

City Level Outcome Indicator PSB is seeking to impact	Cardiff in 2018	Cardiff in 2019
To what extent do you agree that the quality of public services in Cardiff is good overall?	65.5	71.9

Overview of PSB work in 2018-19

Through the **Partnership Asset Management** programme, PSB partners are working together to review existing assets (buildings and land) and design the future specification of public services. At the heart of this work is the delivery of greater operational efficiencies through reduced costs alongside the alignment of asset planning and service planning, most notably through the development of Community and Wellbeing Hubs which bring a range of local public services together under a single roof.

Community and Wellbeing Hubs will also be at the heart of the city's new approach to **locality working and community engagement**. New inclusion officers based in local hubs will work alongside a newly created 'cohesion and community engagement' team in Cardiff Council to better join up consultation and engagement work with communities, and increase the participation of 'seldom heard' groups in public debate and decision making.

Cardiff Council is currently working to develop its vision to become a **'Smart City'** - a collaborative space where people are better connected and the use of digital technologies and data is seamlessly woven into day-to-day activities to help a city to address and prevent the social, economic, health and environmental issues it may face.

Progress against our commitments for Cardiff:

Commitments	Update
Adopt a cross-public services approach to the management of public property and assets.	As part of Ystadau Cymru and Welsh Government's Making Assets Work Review (MAWR), the Cardiff and Vale Sub Regional National Assets Working Group has undertaken an asset review identifying where there are opportunities for new partnership service provision to be explored. Members of the assets working group includes Cardiff Council, Vale of Glamorgan Council, South Wales Police, Cardiff and Vale University Health Board, Welsh Health Estates and Welsh Government.
Develop and appropriately skill the city's public service workforce to meet changing needs and demands.	Proposals are being developed for training on 'collaborative leadership' across public and third sector organisations.
Develop a joined up approach to consultation, engagement and research (integrated with the Community Involvement Plans outlined in Objective 3).	Action against this step will be progressed by Cardiff Public Services Board in 2019-20.
Seek to deliver public and third sector services and workforce that are representative of the city and its communities , especially BAME communities.	Action against this step will be considered by Cardiff Public Services Board in 2019-20.

“

Working together ... to create a culture of one public service with one purpose ”

Priorities for 2019/20

The PSB will:

Develop the **master planning** of new communities and undertake a **public services assets/land review**.

Contribute to the **development of Smart City approaches** to the delivery of public services and city infrastructure, aligned with the Smart City Strategy.

Consider **cohesion and community engagement**, particularly work to increase participation from 'seldom heard' groups.

Take forward proposals for **Public Sector Collaboration**.
