This study will provide independent assurance that planning authorities are supporting sustainable development and delivering for the future long-term wellbeing of their communities and for Wales</p> <p>We are planning to undertake fieldwork in Bridgend County Borough Council, Gwynedd County Council, Newport City Council, Torfaen County Borough Council and Ceredigion County Council.</p>	<p>Published 6th June 2019</p> <p>LINK to Published report</p>

<p>Review of Public Service Boards and the effectiveness of partnership working</p>	<p>This review will provide assurance and insight on how well PSBs are delivering the expectations of the Well-being of Future Generations Act, and by working together in tackling complex hard to shift problems. The review will take a strong focus on risk management and consider how well councils manage the transition from direct service providers towards a different role based on what will be affordable in the future.</p>	<p>In development.</p>
<p>Commercialisation in local government</p>	<p>Our review will focus on producing good practice case studies and support materials to help authorities develop their approaches to commercialisation. This will cover the key building blocks required to effectively manage commercialisation.</p> <p>The study will comment on long-term approaches to financial sustainability and how commercial activity supports organisations to deliver their wider wellbeing objectives and corporate priorities. Given commercialisation should have a strong ethical focus we are likely to touch on equality issues</p>	<p>Underway.</p>

and we will provide a commentary on how public bodies collectively are responding to ensuring fairness and accountability for commercial ventures.
