Policy/Strategy/Project/Procedure/Service/Function Title: Re-declaration of Additional Licensing Scheme in Plasnewydd Ward
New/Existing/Updating/Amending: New

Who is responsible for developing and implementing the Policy?	
Name: Will Lane	Job Title: Operational Manager
Service Team: Neighbourhood Services – Shared Regulatory Services	Service Area: Environment
Assessment Date: May 2020	

1. What are the objectives of the Policy?

<p>The Council is keen to ensure that all tenants in the city live in properties that are well-managed, dry, safe, warm and secure. Within the private rented sector, the Council has powers to ensure that shared houses meet certain standards and can make the landlords / agents comply with specific requirements.</p> <p>The Council has powers to licence certain types of properties across the city, these are known as HMOs (Houses in Multiple Occupancy). The Council has used its powers to extend the types of dwelling that can be licensed specifically in the Plasnewydd ward of Cardiff under an Additional Licensing Scheme which was introduced in 2014 for a 5 year period. Upon expiry of the 5 year term of the Scheme, the Council can re-declare Plasnewydd as an Additional Licensing area provided that it is satisfied that specific criteria are met. The Council is now considering whether to re-declare this Scheme for a further 5 year term.</p> <p>The objectives of re-declaring the Scheme include:</p> <ul style="list-style-type: none"> • Improvements to the quality of the accommodation including means of escape from fire, additional security measures and improved energy efficiency. • Improvements to Health & Safety by ensuring gas and electrical installations are safe and that there are no serious hazards in the property. • Improvements to the management of HMO's by ensuring that landlords are aware of their responsibilities and that ongoing management standards are maintained. • Sustainable improvements to the "street scene" by requiring suitable waste storage facilities. • Targeted localised action by increasing presence and regularly visiting HMOs, it is likely that a more long term sustained improvement to overall property conditions and neighbourhood environments will occur. • Consistent approach to Tenancy Management & Property Conditions for tenants living within the area. Licensed properties will abide by a common set of conditions controlling property maintenance and tenancy management. • Eradication of bad landlords who are not "fit and proper", e.g. with a criminal record or poor track record of managing properties cannot hold a licence.

2. Please provide background information on the Policy / Strategy / Project / Procedure / Service / Function and any research done [e.g. service users data against demographic statistics, similar EIAs done etc.]

In order to explore whether the Council wishes to renew Additional Licensing in Plasnewydd, it must first carry out a thorough appraisal and a consultation exercise with all stakeholders, prior to the re-introduction of any additional licensing discretionary powers.

Background information on Plasnewydd shows that it has approximately 18,166 residents (2011 Census) - 5.25% of the population of the city. This is an area with a lower proportion of families than the city as a whole with only 15% of households including dependent children compared to almost 28% of households in Cardiff. The population age profile is younger than for the city as a whole with 30% of residents in the 20-24 age group - almost 3 times higher than for the city as a whole. Less than 10% of residents are aged 60 and over (compared with over 27% for the city). There is also a high proportion of single people in Plasnewydd with approximately 70% of the local population aged 16+ being single compared with 45% in the city as a whole.

Over 11% of Plasnewydd households are made up entirely of full time students (more than 4 times higher than the city profile) and one person households (aged under 65) make up an additional 32% of the local population (compared with 22% for the city as a whole). The student population together with the fact that 13% of the Plasnewydd population arrived in the UK within the last 5 years (compared with 5% for whole city) suggests that there is a high level of movement in the area.

The ethnic mix of Plasnewydd broadly reflects that of the whole city, although proportionately the Asian population is almost double that of the city as a whole. There is a higher than average percentage of people who follow the Muslim faith (10.5% compared with 7%) and who have no religion (40% compared with 32%).

As part of the required process to make any new additional licensing designations, the Council has undertaken a consultation exercise with a variety of interested parties, namely:

- Councillors for Plasnewydd and Cathays
- Relevant MP and AM
- 3 Universities and the Students Union
- Council service areas including Planning
Waste Management and Recycling
Sustainability
Regeneration
Housing Options Service

- Cardiff Landlord Forum

- 277 Citizen Panel Members identified as living in Plasnewydd

Consultation was undertaken over a 9 week period using an online survey, with an option for a paper version or other assistance for those requiring it. Additionally written submissions were accepted from respondents.

Outcomes of the consultation show that, of the 26 private tenants who responded, 77% believe their landlord/agent manages their property well. In terms of the property conditions, 39% of the private tenants responding had reported concerns about their home to their landlord with only 30% of those landlords taking steps to put things right. The highest reported concerns were damp and mould, energy efficiency, general property condition and fire safety.

The top concern amongst tenants and residents (65%) is litter, rubbish and waste in gardens/forecourts in the Cathays area.
