1. Consultation methodology

Consultation on the Council's budget proposals for 2021/22 was undertaken by the Cardiff Research Centre. The consultation ran from 13th January to 10th February 2021, following the budget announcement from the Welsh Government on 22nd December 2020.

Throughout 2020, the COVID-19 pandemic had a major impact on both the delivery of Council services, and on the lives of residents. Lockdown restrictions were eased and re-introduced at various points throughout the year, both locally and nationally, in response to the spread of the virus. At the time of consultation, the whole of Wales was under Alert Level 4 which required residents to stay at home as much as possible, not to mix with other households, and non-essential shops and community buildings closed.

These restrictions made the traditional methods of engagement impossible. In previous years, paper copies of the survey would be made available to residents in public buildings such as Hubs, libraries and community centres across the city. The 2021-22 Budget Consultation was therefore delivered solely online.

Other methods used to promote the survey, such as emails to schools, and flyers and posters in GP surgeries were also not available this year, given the additional demands on these services.

The Cardiff Research Centre worked closely with partnership organisations to ensure as representative a response as possible. In a bid to ensure the survey was promoted as widely as possible, the survey was promoted via:

a) Email

- Organisations known to work with less frequently heard groups (see Appendix 6)
- Cardiff Youth Council
- Cardiff's Citizen's Panel

b) Internet/intranet

The survey was hosted on the Council website, and promoted to Council employees via DigiGov, Intranet and Staff Information.

c) Social media

The survey was promoted to almost 90,000 followers via Facebook and Twitter by the Corporate Communications Team throughout the consultation period. The Facebook campaign reached approximately 150,425 users, and on Twitter, 989,898 users.

Targeted promotion was facilitated via stakeholder's social media accounts and Facebook boosts aimed at those less frequently heard i.e. under 25's, Minority Ethnic groups and those living in the 'Southern Arc'¹ of the city. This reached around 125,200 users, with 2,973 clicks through to the survey itself.

¹ See Appendix 6 for map of 'Southern Arc'

A separate survey was distributed to secondary schools across Cardiff.

After data cleansing to remove blank and duplicated responses, **a total of 2,870 responses** were received from the main and youth surveys.

Scoring provided to each priority

Responses to the ranking questions were validated to exclude non-responses, therefore including only those giving at least one exclusive ranking score per priority.

Scores were calculated by assigning eleven points for each first place ranking, ten points for each second place ranking and nine points for each third place ranking, this combined figure was then divided by the overall number of respondents answering this question, to give a final score.

2. Results / Council Service Priorities

Q1. Here we have outlined some of the services the Council delivers to support our economy and our communities as we emerge from the Covid-19 crisis. We would like you to rank your top three priorities in order of importance.

Scores were calculated by assigning eleven points for each first place ranking, ten points for each second place ranking and nine points for each third place ranking, this combined figure was then divided by the overall number of respondents answering this question, to give a final score.

The three areas ranked as most important were:

1. Leading an economic recovery through supporting businesses and workers, and through delivering our major regeneration schemes
2. Investing in our schools and improving educational attainment, and supporting children and young people.
3. Keeping our communities safe and tackling anti-social behaviour

The different responses provided by demographic group are detailed in Appendix 2.

Q2. Please tell us why your highest priority is important to you

Respondents were asked to explain why they had voted for their highest priority. A total of 1,874 comments were received, which have been grouped in to themes, with the top three shown below for each of the top three priorities. A full list of themes is available in Appendix 3.

1) Leading an economic recovery through supporting businesses and workers, and through delivering our major regeneration schemes (449 comments were left in relation to this priority)

Theme	No.	%	Example Comments
Economic Recovery Key to everything else	212	47.2	<ul style="list-style-type: none"> – Focus needs to be on this to support any other objective. – Without an economic recovery, many of the other items cannot happen. – Everything depends on the economy. – Unless we recover economically, we will never be in a position to fulfil any of the above. – Without economic recovery, you can forget the rest.
Employment opportunities / Back to work	123	27.4	<ul style="list-style-type: none"> – If businesses flourish, there will be more employment. – It is vital to keep businesses running if they are viable, or will be post-Covid. This increases revenue for the LA and helps to prevent unemployment. – We need to generate more jobs to start recovery. – Successful economically will provide employment and opportunities, which in turn will raise living standards if fairly distributed.
Needed to generate income / Wealth	103	22.9	<ul style="list-style-type: none"> – Economic recovery will produce more tax revenue that can then be used to improve housing, healthcare, education etc. – We have to have a strong economy to give people jobs which will then mean they have money to spend and a sense of self-worth. – Economic recovery is critical to bringing back money to the city. A wealthy city can fund change. – Keeping people in work is the best way to seed potential for kids to achieve at school, people to take responsibility for their own health, improve their living situation and contribute through paying income tax and council tax.

2) Investing in our schools and improving educational attainment, and supporting our children and young people. (281 comments were left in relation to this priority)

Theme	No.	%	Example Comments
Good Education is crucial	113	40.2	<ul style="list-style-type: none"> – Education is the foundation for not just the current generation but many to follow. – Without education, economic recovery cannot be achieved. – Education is the key to ensuring the city is a dynamic and attractive place for businesses and workers. Without this, the city will be less able to afford all other plans. – Tackling education inequality could help address poverty in the long term.
Children are the future	106	37.7	<ul style="list-style-type: none"> – Children are the future of the city. – Our children are our future! – Vital to support children's education and wellbeing - all investment for the future. – Young people are the future. – Children are our future leaders and need the biggest investment.
Too much time missed from education	84	29.9	<ul style="list-style-type: none"> – The younger generation have missed almost two years of education due to COVID -19. This gap needs to be filled with training opportunities etc. – Most disrupted education of a generation. Lifelong consequences for young people. – The children and young people have been robbed of their normal childhood and education, and every effort should be made to rectify this.

3) Keeping our communities safe and tackling anti-social behavior

A total of 122 comments were received for this priority, which have been grouped into the following themes:

Theme	No.	%	Example Comments
Safety should be priority/People don't feel safe	57	46.7	<ul style="list-style-type: none"> – You need to feel and be safe when you leave your house at any time of the day or night. – Antisocial behaviour and crime appears to be on the rise and it makes me feel unsafe. – The scourges of Cardiff are drugs and aggressive begging. I would like to feel safe again! – A safe community is integral to achieving each of the other goals
Antisocial behaviour out of control	50	41.0	<ul style="list-style-type: none"> – Anti-social behaviour keeps me trapped indoors and scared to go out even for a walk – We have seen an increase in anti-social behaviour and it's quite frightening how quickly you feel less safe in your area. – Antisocial behaviour is getting worse year on year, it is also become more aggressive in nature. – I have spent at least four years reporting anti-social behaviour of off road bikes in my area, i have been attacked a number of times and i want something done. – In Canton, where I live it's intimidating with down and outs drinking, arguing, swearing and urinating outside the church near the local canton Tesco. Youths run amok stealing -from breaking into cars, sheds houses, racing cars through the area late at night.
Crime is High	28	23.0	<ul style="list-style-type: none"> – Crime is getting worse and it has a huge impact on the victims that goes way past the day it is committed. – A lot of knife crime has occurred in recent months involving teenagers as well as adults. – Petty crime is increasing as Police are spending all their time on unnecessary CV19 enforcement

NB. Percentages do not total 100% as respondent comments could fall into multiple themes

Q3. We would also like you to tell us your lowest ranked priority

Respondents were then asked to identify which of the eleven priorities they felt to be of lowest importance.

‘Rebuilding Cardiff’s cultural scene post COVID-19’ was seen as of lowest importance amongst 15.1% of respondents, followed by ‘Tackling climate emergency through delivering our One Planet Cardiff Strategy’ (10.9%) and ‘Tackling the city’s housing crisis’ (9.8%).

There were differences of opinion by demographic group analysed, which are detailed in Appendix 2. There were no patterns correlating with level of deprivation.

Q4. Please tell us why your lowest priority is least important to you

Respondents were asked to explain why they had chosen their lowest priority. A total of 1,875 comments were received across all priorities. The table below identifies the priority which was deemed the lowest by respondents. 300 comments were left in relation to this priority, which have been grouped in to themes, with the top three shown below. A full list of themes is available in Appendix 4.

Rebuilding Cardiff's cultural scene post-Covid-19 (including arts, theatre, live music, etc.)

Theme	No.	%	Example Comments
More important issues	212	70.7	<ul style="list-style-type: none"> – There are more important things. – With everything that has happened, right now it feels like a 'nice to have'. Let's get the basics right first. – Children, vulnerable adults, climate change and the business economy are more important than entertainment at present. – In terms of a priority it's not something that a 'council' needs to throw resources at, for the most part a cultural scene will evolve naturally devised by people for themselves.
This will happen organically	61	20.3	<ul style="list-style-type: none"> – I feel that live music and culture will naturally happen once venues can open back up. Investment should be made elsewhere in the interim. – Because with economic recovery this sector will organically recover. – The cultural scene will still flourish after the crisis.
Private Sector/ Communities can assist	44	14.7	<ul style="list-style-type: none"> – If there is a demand for such things then private businesses will see the opportunity and respond accordingly. Public money should be focussed on services that only the council can/should provide. – This is something that can be left to the private sector. – This can potentially be driven by other agencies allowing the LA to concentrate on the other areas.

Q5. Do you have any other comments?

Respondents were given the opportunity to leave any additional comments they had in relation to the survey. A total of 623 comments were received, which have been grouped in to themes, with the top three shown below. A full list of themes is available in Appendix 5.

Theme	No.	%	Example Comments
Difficult to prioritise options provided	92	14.8	<ul style="list-style-type: none"> – You can't put any of these in the lowest priority these all improve the lives of citizens. – All the policies listed here are vital for Cardiff. Choosing between them is impossible really - maybe you could also ask for suggestions as to how money could be saved, or new ways of doing things. – It's hard to choose between mostly vital services. In a civilised society the authority would not have to make these kinds of choices. – All on the list are important.
Don't Waste Money / Unnecessary Projects / Overdevelopment	83	13.3	<ul style="list-style-type: none"> – Stop spending many millions of pounds on traffic calming schemes. – Stop ploughing money into projects that are not prioritised e.g. cycle lanes, paths, outdoor dining areas - back to basics every time. – Less vanity schemes, more true infrastructure provisions. – Construction and tearing down of the new music centre in Cardiff Bay seems entirely illogical and wasteful. – Wasting tax payers' money on the closure of Castle Street and rerouting cars and buses.
Invest in / Protect Green Spaces	50	8.0	<ul style="list-style-type: none"> – Stop destroying green spaces, stop building student flats and stop building offices. Build council housing. – The Council must stop allowing building on essential green spaces such as the Northern Meadows. These are irreplaceable and building on them is completely inconsistent with the Council's adoption of a Climate Emergency. – Stop talking about having a green policy and then continue to chop hundreds of trees down and build on green spaces. – Don't murder the meadows.

5. Appendix 3 – Reasons for Choosing Highest Priorities

Please tell us why your highest priority is important to you

5.1 Leading an economic recovery through supporting businesses and workers, and through delivering our major regeneration schemes

A total of 449 comments were received for this priority, which have been grouped into the following themes:

Theme	No.	%	Example Comments
Economic Recovery Key to everything else	212	47.2	<ul style="list-style-type: none"> – Focus needs to be on this to support any other objective. – Without an economic recovery, many of the other items cannot happen. – Everything depends on the economy. – Unless we recover economically, we will never be in a position to fulfil any of the above. – Without economic recovery, you can forget the rest.
Employment opportunities / Back to work	123	27.4	<ul style="list-style-type: none"> – If businesses flourish, there will be more employment. – Not to me, but to the city. 			<p>their living situation and contribute through paying income tax and council tax.</p> <ul style="list-style-type: none"> – You have to generate income before you can spend it. It is far better for people to be working, earning cash and spending it locally rather than living on benefits.
Support Business and Community	84	18.7	<ul style="list-style-type: none"> – Unless Business is supported, the City will become unattractive to both residents and visitors. – Keeping people in work and with jobs supports the local community and keeps people in work. Not a massive fan of the regeneration schemes as not important atm. – Local business is important to communities and the city.
COVID hit economy hard	69	15.4	<ul style="list-style-type: none"> – Impact and fallout of COVID will be felt for years. – Brexit and covid are decimating wales. – Economic recovery post covid is vital to the ongoing success of the city mitigating against empty shop frontage and derelict units and revisiting how town centres are used.
Rebuild economy	49	10.9	<ul style="list-style-type: none"> – We need to avoid a total financial crash and also increase and maintain our green areas. – Because the economy has been destroyed. – We need to get the economy started.
Helps with Independence / Health Well Being	47	10.5	<ul style="list-style-type: none"> – Economic recovery is fundamental to the wellbeing of all the citizens of Cardiff. Without a visible economy, none of the other issues can be addressed. – If people have work, they have hope and everything else should follow. – Business recovery to support jobs, is vital to enable people to feel independent, that they are able to look after themselves and their families and able to contribute to society as a whole.
Allows Cardiff to compete and grow	28	6.2	<ul style="list-style-type: none"> – Covid-19 has hit businesses badly, the city must regenerate, and a thriving city drives the economy of a wide surrounding area. A city needs to draw people to it, to spend, work and live, it has to move forward. – Economic stability and attracting new business and growth to the capital should support other areas of the council and provide opportunities to enhance other aspects of the city and council priorities.

<p>Need to include support to small independent businesses</p>	<p>27</p>	<p>6.0</p>	<ul style="list-style-type: none"> - Supermarkets have made a killing at the expense of small shops. Same with big businesses. Help the businesses that don't have a big buffer to protect them. - So many small businesses have suffered over the past year it is so important to support and give as much help to these people.
<p>City needs to be Attractive to visit and to and settle in</p>	<p>27</p>	<p>6.0</p>	<ul style="list-style-type: none"> - It's about regenerating the city and making it a place for people to want to travel to, to stay in and for people to feel proud of. - A thriving local economy with bring people back in the city and help support a strong bounce back from the current economic crisis we are in.
<p>Without Support businesses will fail</p>	<p>24</p>	<p>5.3</p>	<ul style="list-style-type: none"> - Without support, an economic recovery will not occur which in turn will lead to many failed businesses empty commercial property decay and worst of all job loss, which turn leads to the city and its people suffering further. - Without a strong thriving economy, there will be no jobs and our high streets will become ghost towns.
<p>Drives Investment</p>	<p>23</p>	<p>5.1</p>	<ul style="list-style-type: none"> - Because more businesses will mean more investment money in the city. - Economic recovery will generate additional revenues that will allow the City to rebuild and reinvest in other priorities. Generating jobs and increasing household income is key to sustainable prosperity.
<p>People are struggling</p>	<p>19</p>	<p>4.2</p>	<ul style="list-style-type: none"> - Many people including my wife have lost their job because of Covid, my own wage is frozen yet you plan on increasing our bill yet again! Every year we get poorer.

Will have a positive effect on all other priorities / Other priorities irrelevant if Strategy not implemented	76	31.9	<ul style="list-style-type: none"> – Unless we tackle the climate emergency all the other priorities are impossible and irrelevant. – If climate change is not tackled, all the other objectives will be pointless. – It is the basis for everything else. Hopefully it includes the re-greening of Cardiff starting with protecting all healthy mature trees and green spaces. – Without addressing the climate crisis, all other priorities become almost irrelevant and systems breakdown and society is unable to function. – Climate change if unaddressed will render all other objectives pointless in the face of major worldwide catastrophe - prioritising this is enabling all other progress. Without it, there will be no community to enjoy or city to live in.
Issue is time sensitive / No future unless issue is addressed	61	25.6	<ul style="list-style-type: none"> – We may be facing up to 5 degrees of warming by the end of the century, so the climate emergency is a time sensitive and very worrying issue that must be addressed NOW before it is too late. – We don't have long left to fix the climate. – If we don't tackle the climate emergency we won't have a future. – We MUST tackle climate change for the future of our children.
Green Spaces	23	9.7	<ul style="list-style-type: none"> – I feel like we're losing green space and after a year of reduced social isolation, space is even more important to us! Please don't just 'invest/regenerate' these spaces. Allows us space to breathe and walk! – Once parks and green areas are gone they are never replaced. Mother earth is not going to wait for us to repair her, the problem will get worse before better. – We want you to stop selling off our green spaces for profit. You run expensive marketing campaigns about planting saplings whilst granting planning permission to cut down entire meadows.

We're in a climate crisis	15	6.3	<ul style="list-style-type: none"> – Climate emergency - declared by Welsh Government. – We are in a global climate crisis. – Because we are in a global climate emergency.
Flood Risks	10	4.2	<ul style="list-style-type: none"> – Without tackling climate change what is the point? Cardiff will be under water. – Nothing else matters if Cardiff is under water. The Climate Crisis should always be number one on any list. Doing nothing is not an option, and future costs to remedy flood risks etc. will outweigh costs of acting now.
Air Pollution	9	3.8	<ul style="list-style-type: none"> – Climate change is vital, air pollution is a silent killer. Just in my street, I see homeless people every single day, desperate for something to eat and drink, browbeaten by circumstances. A home is the very least people deserve. – Homeless is a worldwide problem, and Cardiff is no different when it comes to this problem. Much needed accommodation.
Everyone deserves a Home	56	33.1	<ul style="list-style-type: none"> – Everyone deserves the dignity of a home. – A home should be a human right. – Everyone needs safe and secure housing to function to their fullest ability.
House prices / Rent too high	34	20.1	<ul style="list-style-type: none"> – House prices are ridiculous at the moment. We need to increase the supply of houses to reduce the prices. – Because housing is becoming increasingly unaffordable especially to vulnerable people and young people. – Rent in private housing is disproportionate to people's wages...plus the insecurity of long term renting. Dependant on the landlord. Plus council should maintain their properties to higher standards overall.....because it's a major investment for the future of Cardiff.

Waste Management concerns	20	21.3	<ul style="list-style-type: none"> – Waste management is appalling - Cardiff council need to get on top of this immediately. Missed collections are frequent. Green bags flying across the roads. Sort it out please. – I am proud to live in Cardiff but it is starting to look dirty and uncared for. – In general Cardiff is quite a dirty city e.g. city Centre pavements dirty and lots of chewing gum, lots of litter. This results in making Cardiff a depressing city to live in and the city Centre somewhere to be avoided. – The city looks very dirty. So many rubbish on the streets. Our city - capital of Wales - should be kept clean. – Living in Cardiff is like living in a RUBBISH DUMP. Litter all in the streets, collections every two weeks mean litter piles up. At the start of the pandemic the black bin collection was every week. THAT MADE A HUGE DIFFERENCE. Why can't that be all the time? Get a grip on the rubbish.
Bad impression for visitors	15	16.0	<ul style="list-style-type: none"> – Visitors to the city expect a clean environment as do residents. Our industry has been decimated by coronavirus and needs to be made a priority for the recovery of all artists, and in turn the wider community who benefit from access to the arts.
Important for Mental Health and Well-Being	33	38.4	<ul style="list-style-type: none"> – The mental well-being of Cardiff's citizens needs to be a priority as we move to recover from the pandemic and your cultural programme for the arts will be crucial to support their mental health. – Our mental health has been damaged throughout the covid lockdowns. Access to culture is important for all age groups and provides much needed relief for the audience, and provides support to various businesses, e.g. hospitality. – Important for our mental health especially as we recover from the pandemic; important contributor to making Cardiff attractive to visitors; always the first thing to suffer in a crisis and the last to recover.
Generates lots of income / Growth	32	37.2	<ul style="list-style-type: none"> – People live the city for culture. People visit the city for culture. Culture is essential for growth. – The arts are something distinctive to Cardiff and have an impact in multiple spheres - benefitting public health, public education, and the city's economic success. – Arts get people to socialise, using the spaces and stages, get to keep a city alive. I always go for food and drinks before seeing a show or a gig; it will help revive few industries at the same time.
Arts / Culture provide city with an identity	31	36.0	<ul style="list-style-type: none"> – The cultural scene in Cardiff is the heart and soul of the city and one of the industries worse hit by the pandemic, particularly live music venues. If

	<p>nothing is done to support them, we risk losing them for good and with it a major attraction to the city.</p> <ul style="list-style-type: none"> – Culture is a pillar of society and civilisation. It is a language that brings people together. Creativity is paramount to wellbeing. – As a young artist based in Cardiff I feel the city has neglected its arts, venues and independent businesses. Even before Covid 19 venues were constantly fighting a battle to keep their place i.e. Gwdihw, Buffalo Bar, Tramshed, The Point, 10 Feet Tall, Flute and Tanark. On top of that touring bands would hardly play here, instead playing in Bristol instead. Young people born in Cardiff with a strong interest or pursuing Music or Arts tend to move to places like Bristol or Manchester, where music, arts and a vibrant and diverse culture is more celebrated. During Covid, the pressure is even harder on these ventures and I worry that Cardiff's interests are elsewhere, as usual. Cardiff is a small city but a capital city nonetheless and desperately needs a stronger cultural image to present to the rest of the UK and represent Wales. Cardiff is supposed to lean towards a more vibrant city lifestyle for the young people of Wales but instead it's seen as a city for stag do's and chains that leave visitors underwhelmed. When the Welsh people want a more culturally rich experience, they will move towards England or Scotland instead. I'm in no way saying this should be prioritised over people's health and well-being. But I feel this is something that isn't pointed out enough in Cardiff.
<p>Misc. / Other</p>	<p>– Splott has no cultural community. It's just houses there is nothing here to do which I think fuels a lack of pride in the neighbourhood/asb amongst young people/littering in the parks/no community based interactions besides standing in the street.</p>

Personal Experience	6	10.5	<ul style="list-style-type: none"> – I have experience in dealing with the social care system. – I use Cardiff social services a lot.
Service needs more funding	4	7.0	<ul style="list-style-type: none"> – Adult Social Services has been underfunded for years, and it's a disgrace that people are being penalised for doing the right thing by being forced to sell their homes, which they have worked hard for all their lives, to pay for the care in care homes if needed, which they have already

				<p>paid for thought and during their working lives by paying their taxes.</p> <ul style="list-style-type: none">– Social care in the whole of the UK is a disgrace and needs more investment.

6. Appendix 4 – Reasons for Choosing Lowest Priorities

Please tell us why your lowest priority is least important to you

6.1 Rebuilding Cardiff's cultural scene post-Covid-19 (including arts, theatre, live music, etc.)

A total of 300 comments were received for this priority, which have been grouped into the following themes:

Theme	No.	%	Example Comments
More important issues	212	70.7	<ul style="list-style-type: none"> – There are more important things. – With everything that has happened, right now it feels like a 'nice to have'. Let's get the basics right first. – Children, vulnerable adults, climate change and the business economy are more important than entertainment at present. – In terms of a priority it's not something that a 'council' needs to throw resources at, for the most part a cultural scene will evolve naturally devised by people for themselves.
This will happen organically	61	20.3	<ul style="list-style-type: none"> – I feel that live music and culture will naturally happen once venues can open back up. Investment should be made elsewhere in the interim. – Because with economic recovery this sector will organically recover. – The cultural scene will still flourish after the crisis.
Private Sector/ Communities can assist	44	14.7	<ul style="list-style-type: none"> – If there is a demand for such things then private businesses will see the opportunity and respond accordingly. Public money should be focussed on services that only the council can/should provide. – This is something that can be left to the private sector. – This can potentially be driven by other agencies allowing the LA to concentrate on the other areas.
Health & Well-Being	6	2.0	<ul style="list-style-type: none"> – Although this is essential for a lot of citizen's mental health and well-being, it's not as important as the others.

6.2 Tackling the climate emergency through delivering our One Planet Cardiff strategy

A total of 209 comments were received for this priority, which have been grouped into the following themes:

Theme	No.	%	Example Comments
All are important / others rank higher	106	50.7	<ul style="list-style-type: none"> – Whilst I agree climate change is important, Cardiff Council needs to focus on the residents of Cardiff first. – In the current climate unfortunately there are more pressing issues. – For now, this year, this is less of a priority. – I agree the climate is an issue but people are living in worse poverty so that is essential to sort. – Important but medium and long term aspiration. In the short term pursuing this would support jobs or growth.
Local Government actions has limited impact	40	19.1	<ul style="list-style-type: none"> – We are a tiny nation, if the likes of the USA/China/India to name a few are not interested what difference we our small nation make. – This is bigger than a LA grandstanding and going it alone. – We can start doing more for the environment after China and similar countries start doing more to make improvements. Whatever small change we manage to make is hugely off-set by them. – Think this can only be solved through wider national/international actions.
Lack of belief in climate emergency / More research is needed	20	9.6	<ul style="list-style-type: none"> – This is not an issue. As a scientist myself a lot of the forecasts are based on skewed and false information. – I don't believe the science is correct. – There is no “climate emergency”
More Information required	5	2.4	<ul style="list-style-type: none"> – It's just a bit vague. – Don't know enough about it.
Waste of time / money	4	1.9	<ul style="list-style-type: none"> – A lot of money is wasted on climate change which could be put to better use. – Waste of time.
Misc / Other	36	17.2	<ul style="list-style-type: none"> – You do not have a transport system which is required and were fed up of promises on it. – Let's do one thing at a time. – We are already doing enough on climate issues. – I think too much has been spent on cycle lanes and new build projects.

6.3 Tackling the city’s housing crisis by building 2,000 new Council houses, and delivering our new homelessness model to ending rough sleeping.

A total of 78 comments were received for this priority, which have been grouped into the following themes:

Theme	No.	%	Example Comments
Too many housing projects ongoing	27	34.6	<ul style="list-style-type: none"> – Too many builders already building too many houses due to very poor policy making by the council. – Too much expansion already. – There are countless new residential developments around Cardiff (e.g. Plas Dwr). These schemes should be providing more affordable housing than they are currently, planning policy needs reviewing.
Lots of empty properties in the city	26	33.3	<ul style="list-style-type: none"> – There are many properties that lie empty we should be using these before building more. – There are so many empty homes and nothing is done. Including those with overgrown gardens and mess just left to rot. More needs to be done with existing housing. There is enough. – Because repurposing buildings, and refurbishing empty stock might be an alternative to new builds.
Protect Green Spaces	20	25.6	<ul style="list-style-type: none"> – Green spaces are important. Plus there are many houses in the capital that lie empty that could be refurbished. There are many offices lying empty in the capital that could be repurposed. Tackle these first before denying the community of it's green spaces. – No more loss of our green spaces only build on brown spaces. – More building means our green spaces are eroded further. The planet is already choked and I fear for the future of our children, our environment and our biodiversity.
Building homes does not tackle homelessness	13	16.7	<ul style="list-style-type: none"> – Building homes for homeless does not address the underlying issues - it's like building more roads to deal with road congestion which is the wrong response. – Many choose to be homeless. This could have been tackled over previous years instead of now focussing on it.
Planning needs to change	12	15.4	<ul style="list-style-type: none"> – Because over the last few years the council has passed planning permissions for lots of student accommodation in the city. A number of these buildings are now being changed to general

			occupancy so I think the council needs to look at the planning department and procedures and tighten the control up in this area before they even think about building more houses. We also need our green spaces and they should not be taken for new houses until all other possibilities have been investigated.
Need affordable housing	7	9.0	– Building new homes is a good start but needs to be combined with introducing rent caps and better regulations to be effective.
Projects need additional infrastructure	3	3.8	– Because more and more homes are being built in Cardiff without the surrounding infrastructure being updated causing major traffic and flooding.
Very Costly	2	2.6	– The cost will be huge, and the 2000 houses will be occupied by people who cannot (or are unwilling to) pay their way in society, and will become a permanent drain on the Taxpayer of this city.
Misc. / Other	18	23.1	– If the "rebuilding full cost" is totally recoverable within 5 years then that would be the only justification for this proposal.

6.4 Investing in our parks and open spaces

A total of 215 comments were received for this priority, which have been grouped into the following themes:

Theme	No.	%	Example Comments
Not priority - more important issues at the moment	124	58.2	<ul style="list-style-type: none"> – Although important, other priorities are more important in the short term. – Because sadly at this time of crisis parks matter less – The issue is important, I just happen to think all other issues mentioned are of a higher priority – Our parks are great & priority must go elsewhere in the current climate & pandemic – Given the shortage of cash, and the other priorities, I think the parks/open spaces can look after themselves for a year or so.
We have great parks already	73	34.3	<ul style="list-style-type: none"> – We have excellent parks in Cardiff but this talks about investing in them, maintaining them as they are would be a priority but not further – Many are magnificent already – Our parks are already awesome – Cardiff already has great parks that are pretty well maintained.
Community Volunteer groups to help out	8	3.8	<ul style="list-style-type: none"> – Parks and open spaces should be maintained by the community
Misc. / Other	33	15.5	<ul style="list-style-type: none"> – There are a lot in the city so we just need to maintain what we have. – Parks and open spaces basically look after themselves, at least in the short run. – Parks and green spaces should already be covered in the climate strategy.

6.5 Helping older people live in their own homes for as long as possible

A total of 171 comments were received for this priority, which have been grouped into the following themes:

Theme	No.	%	Example Comments
All are important / others rank higher	79	46.2	<ul style="list-style-type: none"> – All of these issues are so important it's just that others rank higher. Having worked in housing I know how important it is to keep older people in their homes in terms of well-being, pressure on the NHS and better health outcomes. – I think it is important but not as important as others. – This is important but I don't think it is a priority for me this year as we need to focus on the economy and younger people. – It's important just the others are more important. – While important, I believe others are more important. Furthermore, if more houses became available that in turn could help the homelessness problem.
Well-being concerns	26	15.2	<ul style="list-style-type: none"> – A vulnerable elderly person needs support in the right environment and shouldn't be left by themselves, introduce them into the care home community where they will get the correct support. – From personal experience, I don't think this is always best for the individual. We did this with my mother and she was still very lonely and has been far happier since going into a home. – I can understand why this is an important priority for many. However, the evidence I've seen suggests a better strategy -- for mental as well as physical wellbeing of the elderly -- is probably supported, communal living. – I believe there are huge benefits to their mental health if they are able to live in a community and socialise with others.
Costs / Resources	15	8.8	<ul style="list-style-type: none"> – Whilst it is ideal to stay in your own home for as long as possible as you get older, the strain on resources is huge and needs a separate budget that is ring fenced for such a task. – This may not be the most cost effective option – This is very costly & timely not enough people to do this properly.

Not relevant to me / my family	14	8.2	<ul style="list-style-type: none"> – Not something affecting me or my family. – It isn't relevant to my family. – Not applicable to my family and there are a lot of new properties around aimed at older people.
Shouldn't be a concern of the council	5	2.9	<ul style="list-style-type: none"> – This isn't the council's responsibility. If anything, focus on quality care home provision. – If someone is unable to live in their own home, for whatever reason, then it would be up to that individual to make the necessary arrangements, why would that be a Council issue.
Older people should have the choice	5	2.9	<ul style="list-style-type: none"> – Where you live is down to individual choice. – Older people need choice about where they live including supported living schemes.
Support can be provided by family	4	2.3	<ul style="list-style-type: none"> – Think older people should be encouraged to live with younger relatives or volunteers rather than staying in their own home. – Support can be managed by family and local support at the moment.
Misc. / Other	26	15.2	<ul style="list-style-type: none"> – It will affect a small number of people. – They aren't contributing to society so they should minimise the costs on the public purse – Protecting old people from Covid at all costs has caused massive damage particularly to children. – I feel that this policy only caters to one demographic. – The council have already been very strong in this area already.

6.6 Reducing congestion and air pollution through investing in active and sustainable travel

A total of 179 comments were received for this priority, which have been grouped into the following themes:

Theme	No.	%	Example Comments
All are important / others rank higher	63	35.2	<ul style="list-style-type: none"> – They are all important but post covid emotional wellbeing, housing, reducing impact on users of social services will reduce costs. – Although important, within the immediate post-covid stage i believe this is less important in what we need to fully recover. – I feel this is less important than any other. – Although reducing pollution is very important at the moment I think there is so many other things to prioritise. – I place this in the box very reluctantly! In a sense all the issues are important.
Concerns around closing roads	24	13.4	<ul style="list-style-type: none"> – It creates more issues with productivity as well as pollution through traffic jams. – I don't think the town centre needs any more upheaval right now, and all of your schemes so far do not make the town centre accessible for all, if anything it has caused more congestion just outside the city centre in cathedral road. – Closing Castle Street did nothing to support this policy, instead it has increased congestion and pollution as it has forced people to drive further and for longer. – Pollution is important to me but you will use it as an excuse to waste money on things like closing down castle st for no reason.
Concerns around how Council tackle this issue	16	8.9	<ul style="list-style-type: none"> – The Council does not have a good track record of delivering sensible schemes that tackle pollution. – Because for Cardiff CC it is an excuse for congestion charges. – The council is already making life difficult for the motorist, adding more grief isn't fair.
Number of cars on road is in decline / congestion has reduced	13	7.3	<ul style="list-style-type: none"> – Because ways of working post-covid are likely to be very different, and are likely to result in reduced congestion and air pollution. – I believe that a large minority of people will continue to work from home and that there will be a natural decline in the number of cars on the road compared to previous years. – Travel has likely decreased during the pandemic with a mandate on WFH where possible. This to

			me would imply that there is less travel and so this can be less of a priority for the time being.
Costs	11	6.1	<ul style="list-style-type: none"> – This has the largest expenditure outlay and will cause the greatest pain for residents that live in the Cardiff Area. – We can't afford to waste money on vanity projects. – It's expensive and won't get used.
Issue already being tackled	8	4.5	<ul style="list-style-type: none"> – I believe that national Government is tackling this issue already. – This is already ongoing and covered.
Active travel isn't an option to all residents	8	4.5	<ul style="list-style-type: none"> – As an older person (62) who has never been able to ride a bike, I find the proposals for bike and walking concerning. Very supportive of electric buses and older people using those however. – I don't travel much, I am too old to ride a cycle and public transport never goes where I want to go - that it takes too long to have to do a double journey - into the city centre then back out again, usually to near where I started from but I can't walk so far these days.
Cycle lane issues / concerns	6	3.4	<ul style="list-style-type: none"> – Cyclists don't use the cycle lanes even when they're already there. – Bike lanes everywhere hasn't made a difference to how people travel. I just see more people abusing them and using the roads still dangerously.
Public transport issues	6	3.4	<ul style="list-style-type: none"> – Need to sort public transport first. – I believe it is the lack of affordable transport options that keeps people their cars. Our buses and trains are far too expensive to force a switch.
Difficult to achieve	3	1.7	<ul style="list-style-type: none"> – I think Sustainable travel (i.e. reducing cars on the road) will be very difficult to achieve unless there is a dramatic (and probably unaffordable) increase in bus routes and frequency of buses.
Misc. / Other	29	16.2	<ul style="list-style-type: none"> – Because it's minimal. – This is unlikely to benefit me as i live in East Cardiff and the priorities seem to be central and North Cardiff. – Covid will help with this. – Life has changed drastically.

6.7 Leading an economic recovery through supporting businesses and workers, and through delivering our major regeneration schemes

A total of 99 comments were received for this priority, which have been grouped into the following themes:

Theme	No.	%	Example Comments
Regeneration not a priority	37	37.4	<ul style="list-style-type: none"> – I don't think regeneration is needed. – Regeneration can wait until next year. Concentrate on putting resources into what we already have. – Everything else seems more important to me. – Economic recovery yes. But don't use it as an excuse to carry out unnecessary 'regeneration' work when there are more important things that need attention first.
Don't waste money	28	28.3	<ul style="list-style-type: none"> – Expensive waste of money during present crisis. Money better directed to getting house in order and reduce debt. – The council needs to balance the revenue budget before it indulges in regeneration schemes that may or may not work. – I'm not convinced 'major regeneration' schemes are good value for money. Additionally they tend concentrate on small areas.
Private Sector to do this	26	26.3	<ul style="list-style-type: none"> – Businesses can enable this themselves. – I believe that business recovery and regeneration should be left to market forces. – Private sector should lead and would thrive anyway.
Other Pressing issues	21	21.2	<ul style="list-style-type: none"> – There has been way too much focus on the economy instead of on the welfare of individuals for far too long, but especially so during the pandemic. – Business have had a lot of money and support and are always put first. We need to think about our green spaces and environment for the first time.
Welsh Government Issue	11	11.1	<ul style="list-style-type: none"> – The welsh government should be helping all businesses across wales to recover from the pandemic. Regeneration schemes is not a priority using residents money.
Support Business	9	9.1	<ul style="list-style-type: none"> – I am happy for the Council to be supporting and encouraging small and medium scale business, but big business should be socially responsible and giving back to Cardiff, it's council and its people and communities.

Hard to choose	7	7.0	– I found it extremely difficult to choose. I suppose I am concerned that this may not work and that some of these schemes will be white elephants.
Misc. / Other	11	11.1	– Traditional economic regeneration needs re-evaluating post covid.

A total of 86 comments were received for this priority, which have been grouped into the following themes:

Other Areas more important	37	43.0	<ul style="list-style-type: none"> – It's an important duty, but not necessarily the top priority. – Although a Beautiful clean city is always desirable, but I believe money should be spent on healing rather than cleaning. – The rest are all critical, clean streets is more of a luxury. – People come first not rubbish.
Residents could assist	35	40.7	<ul style="list-style-type: none"> – Because communities do this themselves anyway. – Volunteers can be used to help clean streets. – I think that this is the area where local communities can take responsibility. Our family does regular litter picks around our neighbourhood.
Already taking place	15	17.4	<ul style="list-style-type: none"> – I believe the council already do this so well. – Cardiff Council are already acting positively.
Hard to choose	6	7.0	– It's almost impossible to select lowest priority from this list.

Not priority - Tackling the other important issues will help this problem	47	60.3	<ul style="list-style-type: none"> – It's still important but might be eased indirectly by the other priorities in the list – All of the priorities are important but I believe that by prioritising some of the other issues, such as supporting young people and investing in parks and open spaces, that anti-social behaviour can also be improved upon – Addressing the other issues will lessen anti-social behaviour – I feel like delivering on other points will help with anti-social behaviours
Communities are already safe	14	17.9	<ul style="list-style-type: none"> – Although keeping communities safe is important, in general I feel that Cardiff is already a safe city to live in and so this does not need to be the focus at the moment. – I think our communities are pretty safe
This is police priority not Local Authority	8	10.3	<ul style="list-style-type: none"> – This is a police priority - and they receive enough money to do so. Leave this to them.
Misc. / Other	16	20.5	<ul style="list-style-type: none"> – Policing often has adverse effects and provoked more hate towards authority – Satisfaction and inner peace come from having a purpose in life, the beauty of an environment, and a clean and peaceful community to live in, not through an external structure.

6.10 Investing in our schools and improving educational attainment, and supporting our children and young people.

A total of 7 comments were received for this priority, which are listed below:

Comments
<i>– I feel there has already been massive investment in this area</i>
<i>– Our young people waste many opportunities given to them that the over 50s would cherish.</i>
<i>– A large portion of the budget is given to this.</i>
<i>– In particular - improving educational attainment. Less emphasis on achieving educational targets, and more emphasis on children's natural development and happiness.</i>
<i>– Lots of money going into this already.</i>
<i>– Invest in education yes, but consider different approaches and sustainability of continuing to deliver education from bricks and mortar i.e. too many specialist buildings</i>
<i>– I do not have children, so I have no direct interest in the priority in question.</i>

Supporting vulnerable children and families through our care system

A total of 15 comments were received for this priority, which are listed below:

Comments
<i>– Too much funding already given in this area could be better used elsewhere.</i>
<i>– These are issues for national govt.</i>
<i>– If the central point is the care system, then you have lost every other opportunity to keep children in their own communities with support not care.</i>
<i>– I know people (direct family) who've had social services invasively hounding them for years to make lifestyle changes and to get off the dole, it's a complete waste of money trying to help people who don't want to be helped and the benefits system encourages them to NOT seek self-sustained work.</i>
<i>– I think our benefit system needs a major review, as I believe this country spends far too much in this area. Children become 'vulnerable' as the parents do not prioritise their children when deciding on how the money is spent.</i>
<i>– Social services need to support families not remove children.</i>
<i>– They are all important but not having any children is the reason I have picked that one.</i>
<i>– Because I don't rate your care system, there are better ways of tackling these issues.</i>
<i>– This safety net has no limit. We need to strike the balance between support and building a community that creates good living conditions and employment for all.</i>
<i>– The care system is not the best place for vulnerable children.</i>
<i>– Believe have enough support.</i>

- *There is a prevailing 'have a baby get a house' attitude. People need to find an education style that suits them (and have appropriate teachers) and actually be enthusiastic about work.*
- *In my limited experience of social services, the process is at best mixed and often counter-productive.*
- *Sounds harsh but a lot of these vulnerable people don't help themselves.*
