Corporate and Capital Financing Savings 2021/22

Ref	Saving Description	Reduction in Directorate Budgets £000	Contingency £000	2021/22 Saving £000
1	Single Status Budgets 2021/22 is the final year of capital financing repayments in respect of Single Status. The associated budget can be released one year early by funding the final year's instalment from earmarked reserves.	404	0	404
2	Building Services Pricing Model A sum of £500k was included within the 2020/21 budget in respect of the anticipated review of the building services pricing model. Due to the Coronavirus Pandemic, the review did not take place during 2020/21. As such, it is not anticipated that this sum will be needed in 2020/21, or in full in 2021/22. The quantum required will depend on the proposed pricing model and service delivery within FM in the future and further work will be undertaken to ascertain requirements over the medium term. Consideration will be given to transfer of the in year underspend to earmarked reserve as an interim support mechanism.	350	0	350
3	Reduction in Corporate Insurance Budget In line with recent claims experience and actuarial review of the fund.	100	0	100
4	Utilities in Core Buildings – City & County Hall Agile working has resulted in a reduction in energy use at County and City Hall. It is proposed to reduce directorate energy budgets by £110,000 retaining £25,000 of this as a corporate contingency in 2021/22 to allow for fluctuations in usage as new working practices are established.	110	(25)	85
5	Car Allowances Agile working has resulted in a significant reduction in car allowances paid during 2020/21. It is proposed to reduce budgets by £185,000 in 2021/22, which allows for an increase in activity compared with 2020/21. In addition, £45,000 will be retained as a corporate contingency in 2021/22 in recognition that there may be fluctuations in usage across directorates depending on their nature.	185	(45)	140
6	Fuel Reduction in fuel usage across the Council's vehicle fleet, with the exception of waste vehicles.	80	(20)	60
7	Direct costs of Postage Postage costs decreased by around 40% during the first half of 2020/21. It is proposed to reduce the budget by £54,000 in 2021/22 retaining £20,000 as a corporate contingency to allow for fluctuation in volumes.	54	(20)	34
8	PrintSmart - Variable Costs, General Printing and Stationery Agile working has seen a reduction in variable printing costs of over 60% as well as a reduction in the amount of general stationery used. The proposal reflects a prudent reduction in budgets based on ICT usage data.	95	0	95
9	Capital Financing Savings - Invest to Save Schemes Savings will be realised through the early repayment from Treasury Management Reserve, of capital financing sums outstanding in respect of a number of Invest to Save Schemes that are nearing the end of their repayment period. These include the Plastics Autosirter, Marion Centre, Schools ICT, Brindley / Coleridge Road security, Radyr LED pilot, Street Lighting Dimming and LED Principal Routes. The repayment of principal outstanding on these schemes will enable capital financing budgets to be released.	896	0	896
