Cardiff Council have committed to delivering 3,000 new affordable Council homes, with 1,000 new homes to be completed by December 2022. The new build targets have been set in direct response to the increasing demand we face for affordable housing in our city.

The Council intend that by increasing housing supply, we will be directly targeting accessibility issues and downsizing by delivering larger family homes, specialist properties or adapted properties that are not currently being delivered in volume through more traditional delivery routes. The Council's aim is to build in volume and at pace to match the levels of demand as evidenced by the Council's housing waiting list.

The Council have a multifaceted approach to increasing the number of Council homes; we have the Cardiff Living programme, the enabling work with developers on LCHO homes and also the additional build programme.

Whereas the Cardiff Living programme is a Development Agreement direct with Wates, the Additional Build Programme will see the Council forming project teams, commissioning surveys and technical advice and progressing tender opportunities for works and services in order that we are able to deliver on our ambitious Additional Build Programme.

Our overarching Procurement Plan sets out the approach to procurement for these goods and services, which are fully in accordance with the Council's own policies, regulations and governance.

There will be a positive impact to socio-economic duty as the driving factor behind the Council's housebuilding programme is to increase the number of affordable, sustainable and energy efficient homes across the city.
