

**COUNCIL**

**27 January 2022**

**AMENDMENT TO MOTION 3**

Proposed by: Councillor Neil McEvoy

Seconded by: Councillor Keith Parry

Delete the final sentence of paragraph 4 and replace with: *'This is Blue Tory Britain and are Tory Wales.'*

Delete the final paragraph and replace with: *'Instruct officers to produce a detailed report on gas extraction in Wales, its effect on reducing Cardiff's carbon footprint, its potential effect on reducing energy bills for residents of the City with a view to Cardiff Council heading up a public/private partnership in the industry.'*

The Amended Motion would read as follows:

National Energy Crisis

This council recognises the unprecedented energy crisis facing many households across Cardiff, Wales and the UK. In the coming months more and more households will see increases of a magnitude never seen before as the energy price cap is removed or energy deals come to an end.

This comes on top of a cost of living crisis created by the Impacts of Brexit and the Covid Pandemic which have already seen an unprecedented squeeze on peoples incomes.

Inflation remains very high which is putting huge pressure on household budgets as earnings have not kept pace with prices, leaving family budgets squeezed and people worse off.

The additional costs of day to day living are already impacting negatively on every household across Cardiff but even more so on families who are living close to the bread line – many of them working families who nevertheless still need to visit food banks and will now be faced with the terrible choice of heating their home or putting food on the table. This is Blue Tory Britain and are Tory Wales

As a Council, we will continue to do everything within our power to help mitigate energy costs. This includes

- the targeted support available to improve the energy efficiency of homes and help those in fuel poverty,
- the work of our Money Advice Service in maximising the claiming of eligible benefits, and signposting residents to the available financial support options
- and our significant investment in existing Council homes, to make them cheaper to heat and live in.
- our Council Homes building programme, providing ever increasing numbers of low/zero carbon, energy efficient homes for social rent.

Instruct officers to produce a detailed report on gas extraction in Wales, its effect on reducing Cardiff's carbon footprint, its potential effect on reducing energy bills for residents of the City with a view to Cardiff Council heading up a public/private partnership in the industry.
