Statutory Officer Commentary on the Liberal Democrat Budget Proposals 2022/23

The proposal from the Liberal Democrat Group includes one new savings proposal, four new expenditure commitments, amendments to two fees & charges and a drawdown on reserves. The net effect of these proposals is to reduce the level of resources required by £1.613 million. This would facilitate a reduction in the proposed increase to the rate of Council Tax, with the amendment proposing an increase of 0.9%.

The proposals have not been subject to detailed discussions with directorates, nor have equality impact assessments been undertaken in respect of these. However, within this constraint, they have been reviewed as to their financial achievability and risk.

The proposed drawdown on reserves would see £1.4m from the Strategic Budget Reserve utilised to fund the Budget in 2022/23. This would leave a balance on the reserve of £5 million (assuming no further contribution to the reserve in the current year). As this funding would be one-off in nature, there is the question of how this would be addressed in 2023/24 so as not to leave a significant budget gap.

The new savings proposal is to further reduce the level of general contingency budget by £1.5 million, resulting in an overall decrease of £2.5 million from its existing £3 million level. This proposal would reduce the budget to £0.5 million, which would present a level of risk to the financial resilience of the Council going forward. The stated mitigation to this would be a further drawdown on reserves in order to fund any one-off Covid costs in 2022/23 thereby potentially freeing up some of the £10 million held as a Covid contingency figure, which could, in effect, top-up the general contingency in-year. However, this proposal further increases the risk that overspends could occur during 2022/23 and weaken the Council's financial resilience.

Furthermore, the increased use of one-off reserves and reduction in general contingency increases the risk in the face of significant uncertainty regarding the financial position over the medium term. Whilst financial planning assumptions have been refreshed across all Council services, there remains significant uncertainty regarding the financial position over the short / medium term including the exposure to additional cost in relation to demand-

led services, inflationary pressures, and the difficulty in judging what the long tail effects of COVID19 may be on the economy, public finances, and future demand on services. Should this proposal be taken forward, the risk that the Council may need to make unplanned use of reserves in the event of an overspend, would increase. As reserves can only be utilised once, there is a risk that this could result in a weakening of the Council's balance sheet and overall financial resilience.

The proposed reduction in the contingency budget would facilitate additional expenditure commitments along with the removal of the charge for bulky item collections. The planned income budget for this service in 2022/23 is £137,000, which would be lost by removing the charge. Further work will be required on the financial impact a free service will have on service demand levels. The second amendment to fees & charges would be an increase of 10% on the cost of Licences for Digital Advertising sites on the Highway, which would be expected to generate around £10,000.

The proposal includes an increase on the Empty Homes Council Tax Premium to 100%. However, progressing this proposal is not possible for 2022/23 due to statutory deadlines having been passed for any amendments to Council Tax Base. In order to increase the Council Tax premium to 100% for 2023/24 a timetable needs to be put in place which ensures appropriate consultation and consideration is undertaken prior to 2023/24 Council Tax Base calculation deadlines in December 2022. It is anticipated that the increase in Council Tax Premium will generate a net income of £400,000. In order to reflect the year delay of achieving this level of income, a drawdown of £400,000 from the Resources Reserve will be taken in 2022/23. The Resources Reserve is earmarked for matters related to Council Tax.

The first new expenditure commitment proposes an additional two Street Scene Local Action Teams. This would come at a cost of £500,000, supplementing the policy growth already contained with the Cabinet's budget proposal, taking the total number of new teams to five, rather than three, and the total funding to £750,000, with this being available on a recurring basis. The second new commitment relates to the introduction of a new Building Fire Safety Support Hub at a cost of £160,000 in 2022/23 falling to £40,000 in 2023/24. The third new expenditure commitment is a one-off amount of £300,000 to supplement the policy growth already contained with the Cabinet's budget proposal in respect of the Situational Response to Community Safety Issues, taking the total funding to £400,000. In addition, a proposed allocation of £600,000 (recurring) for socially valuable bus routes has been proposed.

In addition to the revenue proposals outlined above, proposals have also been put forward in relation to the Capital Programme. In the main these proposals seek to re-profile Capital expenditure, rather than enhance commitments or add to the programme, though a small reduction to the Capital Contingency does provide an offset to two additional amounts of £50,000 each on Alleygating and Road Safety Schemes.

The total net effect on the Capital Programme is zero, albeit there is some significant movement between years, with Footway Investment being brought forward into 2022/23 and both phases of the planned expenditure on the International Sports Village (Velodrome) proposed to be delayed by a year to provide further time to explore alternative options for delivering the expansion of Cathays High School without the need to relocate the existing velodrome.

Legal Implications

The legal context and implications set out in the main budget report also apply to these Proposals and regard should be had to the same.

As regards the proposals in respect of; reduction of General Contingency Budget, Drawdown from Strategic Budget Reserve and Drawdown from Resources Reserve, attention is drawn to the requirement, when the Council is considering its budget, to have regard to the S151 Officer's advice as to the robustness of the estimates and the adequacy of the proposed reserves in the budget proposals. The body of the report and this addendum setting out such advice, including advice on financial resilience, reserves and contingencies.

Any specific plans which are developed in relation to the proposals put forward will require evaluation in relation to the Council's wellbeing objectives.

As regards the proposals put forward consideration should be given to whether consultation is appropriate and or an equality impact assessment required . Where consultation and or an equality impact assessment is required, any decision taken to incorporate the proposals into the Council's budget will be an in principle decision and the details of the implementation proposals will have to be subject to consultation and equality impact assessments, which must be taken into account in a final decision on whether to implement the proposals or not.

As regards the proposed additional recommendation (2023/24 Council Tax base calculation be made assuming an increase in the Empty Homes Council Tax Premium to 100%), it is noted that the proposal is subject to considering the outcome of any required consultation, equalities assessment and due regard to all other material considerations including Welsh Government guidance, which are relevant considerations to ensure sound decision making .

As regards Capital and reprofiling of expenditure for International Sports Village, consideration would need to be given to the updating of any business case to reflect the new timelines and implications thereof, if any .
