Background – Direct Payments

6. Direct payments can be provided to individuals with an eligible need for care and support, or to carers who have been assessed as requiring support services from the local authority.
7. Direct Payments are payments that local authorities can make to individuals so that they can organise their own services to meet their social care needs and offer an alternative to the local authority arranging social care services on the individual's behalf.
8. The individual with care and support needs then uses this money to arrange their own services to meet their identified needs. Committee Members are reminded that should an individual not wish to arrange their own care, then the standard model of the local authority arranging care services would be adapted. Furthermore, direct payments can be utilised for all, or part, of a person's care and support needs.
9. Some of the benefits of Direct Payments have been recognised as offering the individual:
 - Greater choice
 - Flexibility
 - Autonomy.
10. Welsh Government guidance states that:

“Where eligible care and support needs are identified ...direct payments must be made available in all cases where they enable personal outcomes to be achieved. A local authority must be innovative and creative when working in partnership with recipients or their representatives to explore ways a direct payment can be used to secure the personal outcomes. Direct payments must only be refused where it is clear after extensive exploration that a direct payment would not secure the outcomes required”.

Furthermore, “individuals must not be refused a direct payment purely because they are unable to manage the payment, or apprehensive about managing one. A local authority, in partnership with the person, must explore all options for supporting the individual to manage a direct payment. Where areas of difficulty are identified, local authorities must ensure the correct level of support to overcome such barriers is available¹”.

Background – Direct Payments Review

11. The [Adults, Housing & Communities Directorate Deliver Plan 2022/23](#) details a key priority for the service area during 2022/23 will be to increase the voice and control of citizens by improving access to advocacy and direct payments.

12. The Directorate Delivery Plan details that to achieve this, the service area will:

- Work to increase the supply of well-trained personal assistants by reviewing support for direct payments.
- Create marketing campaigns for Personal Assistant roles, building on existing Cardiff Cares Academy publicity, and updating relevant websites/social media accounts/job matching applications.
- Meet with local authorities who use micro-enterprises for Personal Assistant roles.
- Organise a schedule of dedicated local recruitment events for Personal Assistant roles across the city.
