

**EXTRAORDINARY COUNCIL**

**9 DECEMBER 2022**

**AMENDMENT 1 TO NOTICE OF MOTION**

**Proposed by: Councillor Adrian Robson**

**Seconded by: Councillor Joel Williams**

Delete everything after the first paragraph and add the following:

All alternative avenues to secure the funding necessary to keep this building under public ownership are fully and transparently explored – including firstly asking the Welsh Government to consider taking on the ownership of this national building.

If, after taking these steps, the Cabinet still determines it is minded to proceed with changing the ownership and/or management of St David's Hall, then this Council calls for that to be achieved through an open tendering process to include;

- 1) A full business case, published by the Cabinet demonstrating why it considers the proposals would be of benefit to the community of Cardiff and the wider nation;
- 2) the Cabinet demonstrating how any such proposal would preserve the city's cultural heritage by providing safeguards that the Hall's current cultural and classical output and community events would be preserved at current levels or greater, and that the well-recognised excellent acoustics of the Hall would be unaffected by any proposed structural alterations or proposals to remove existing seating. A fund should also be established to assist with hiring costs to support the ongoing community events.
- 3) A full and meaningful consultation is undertaken with the public and key stakeholders on the merits of the proposals, and the outcome of this consultation is given due and proper consideration.

**The Amended Motion would read:**

This Council notes with alarm the speed at which the Cabinet may be moving towards a decision to change the ownership and/or management of the city's St David's Hall, regarded by many as the national concert hall of Wales, and before any such decision is taken demands that:

All alternative avenues to secure the funding necessary to keep this building under public ownership are fully and transparently explored – including firstly asking the Welsh Government to consider taking on the ownership of this national building.

If, after taking these steps, the Cabinet still determines it is minded to proceed with changing the ownership and/or management of St David's Hall, then this Council calls for that to be achieved through an open tendering process to include;

- 1) A full business case, published by the Cabinet demonstrating why it considers the proposals would be of benefit to the community of Cardiff and the wider nation;
- 2) the Cabinet demonstrating how any such proposal would preserve the city's cultural heritage by providing safeguards that the Hall's current cultural and classical output and community events would be preserved at current levels or greater, and that the well-recognised excellent acoustics of the Hall would be unaffected by any proposed structural alterations or proposals to remove existing seating. A fund should also be established to assist with hiring costs to support the ongoing community events.
- 3) A full and meaningful consultation is undertaken with the public and key stakeholders on the merits of the proposals, and the outcome of this consultation is given due and proper consideration.
