**Purpose of the Report**

1. To provide Members with an update in relation to the roll-out of the Recycling Strategy for Cardiff 2021-25 and the next steps needed to progress towards reaching the Welsh Government recycling target of 70% by 2025, and to hear from Councillors whose constituents are currently separating their recycling.

**Structure of the Papers**

2. Attached to this report is:
  - **Appendix 1** - Presentation - 'Delivering Segregated Recycling and the Cleansing and Enforcement Restructure'
3. Oral statements will also be made by Councillors in attendance, in person and remotely, at the meeting.

**Scope of Scrutiny**

3. During this scrutiny, Members have the opportunity to explore:
  - i. Services for residents
  - ii. Pilot area outcomes
  - iii. Timeline for changes
  - iv. Changes to Trade Waste
  - v. Benefits
  - vi. Challenges
  - vii. Future Steps

**Background**

4. Welsh Government is committed to supporting local authorities to improve recycling performance as it committed to becoming a zero-waste nation.

5. As a result Cardiff's recycling has improved, however, it still lags behind other Welsh authorities.
6. The legislative requirements for recycling performance as set by Welsh Government was for the council to achieve 64% by 2021/22 followed by 70% by 2024/25. Cardiff did not meet this target, however recent performance has suggested that we are moving closer towards this, **slide 3**.
7. The current service provision for residents is detailed in **slide 4**.
8. **Slide 5** provides information and some outcomes from the segregated recycling pilot areas.
9. The proposed timeline for introducing changes excluding flats and Houses of Multiple Occupation (HMOs) are outlined in **slide 7**.
10. **Slide 8** highlights changes to the trade waste, i.e the need to separate recycling, following the introduction of new legislation in October 2023.
11. The proposed restructure of Cleansing and Enforcement to meet the needs of the strategy is noted in **slide 9**.
12. **Slide 10** mentions the Benefits to the changes.
13. The next steps are noted in **slide 11**.

### **Previous Scrutiny**

14. In September 2022 the Committee commented on the final Strategy and made a number of recommendations, below, all of which were accepted:
  - i. The impact of the segregated recycling pilot in terms of reduced contamination and increased recycling rates are included in future communications
  - ii. Communications around the implementation of the strategy use language associated with the 'circular economy' to embed this in the public consciousness.
  - iii. Local councillors are included in any communications about the roll out of separated recycling in their area.
  - iv. Provisions are made to support and enable partially sighted/blind residents to recycle, e.g. braille tags to differentiate the containers.

- v. The Committee are kept informed of decisions in relation to preferred containers as the roll out progresses and different solutions are trialled, and in particular solutions for properties without frontages, flats and HMOs
