2. Overview of the Proposal

What action is the Council considering and why?

Please provide a detailed outline of the proposal. This information will support your findings in the impact assessments.

Park venues are vital in providing accessible and affordable opportunities for communities to take up the game of tennis and get active, no matter their age, gender, background, ability, or disability. Tennis Wales insight and research shows that park venues are particularly important in driving improved female participation and access to tennis for those from lower socio-economic groups.

To introduce a management agreement with Tennis Wales, the National Governing Body for Tennis in Wales allowing them to invest in the tennis facilities. The agreement will allow Tennis Wales to provide playing opportunities, generate income to cover the costs of operation, sink fund and associated playing activities through a “smart” entry membership scheme. To secure and protect the future of tennis courts and tennis participation for future generations aligned to the objectives in the Cardiff Physical Activity and Sport Strategy.

The scheme has been operating at Heath Park successfully since 2016 and a report on the outcomes of the scheme is included in the Cabinet report as Appendix 1. The Lawn Tennis Association and Tennis Wales have been operating this scheme in partnership with Local Authorities across Wales and the UK for many years.

All the venues in the proposed programme require some form of investment or refurbishment work, to ensure that courts are at a standard that can provide opportunities to sustainably grow participation. The ability to invest in our parks tennis court stock has and will continue to be constrained owing to the competing demands within the Council’s capital programme and it is therefore important to take advantage of opportunities for securing external funding when they arise. Without external investment, there is a likelihood that our stock of tennis courts will become unsafe for use resulting in closure and reduced opportunities for participation.

The Tennis Wales proposal involves:

- Investing financially into the long-term security of park tennis courts, resurfacing, repainting and repairing existing facilities.
- Introducing online booking software so local people can find a court, book and pay online.
- Installing gate access technology to facilitate people playing and remotely manage courts across the city, creating a safe space to play, potentially reducing anti-social behaviour and misuse.

- Creating local opportunities to get involved in tennis through affordable and free tennis programmes and activities run by local coaches, promoting general play to open tennis up in Cardiff.

Tennis Wales is proposing to build on the success of Heath Park by investing in the following sites:

- Rumney Hill Gardens
- Roath Pleasure Gardens
- Hailey Park
- Victoria Park
- Heath Park (further investment)
- Llandaff Fields

What are the costs and/or savings?

What will the proposal cost and how will it be funded?

How might costs be reduced through involvement and collaboration, across Cardiff Council and/or with external stakeholders?

Are there savings and how will these be realised?

Tennis Wales has approached the Council seeking to invest in 6 Council owned park sites across the city to improve the quality of the current Tennis Courts and to introduce their Club Spark management system. It is anticipated that the level of investment in the 6 sites will be in the region of £750,000. To secure this funding via the LTA and Department for Culture, Media and Sport (DCMS), Tennis Wales are required to be the operator of the courts including management and maintenance for a minimum term of 10 years.

Achieving external funding will alleviate the need for the Council to consider capital funding where there are so many conflicting priorities and pressure on Council funding.

Socio-economic Duty

Is the change anticipated to reduce or contribute to inequality of outcome as a result of socio-economic disadvantage? (e.g. will the change negatively impact on those on low-incomes or those living in deprived areas?)

	Yes	No	N/A
Socio-economic impact		x	

Please give details/consequences of the differential impact, and provide supporting evidence, if any.

The introduction of a SMART membership at £39 per household at Heath Park has seen significant increases in participation without the fee being a barrier. Further evidence of this can be demonstrated at other Local Authorities where the LTA/TW scheme has been implemented and is deemed as affordable for those wishing to play tennis from this protected group.

Tennis participation in some of our lower socio economic areas of the City have very low participation rates in tennis e.g Rumney Hill Gardens is not recording any use partly due to the condition of the courts and lack of pro active targeting of local communities and schools.

Whilst the introduction of this small fee has not proven to be a barrier to participation, we recognise that this may be for some families and individuals and therefore a number of “free” activities will be included across all of the sites for coaching and activities.

The section below is a benchmark for Cardiff where this was introduced in a Manchester suburb in a low socio economic area:

- *In 2015, Manchester Council launched free online booking at Fletcher Moss Park, as part of an initial pilot.*
- *Two years later, following investment from the Council and LTA to resurface the courts, the Council launched charging at the site, supported by a Gate Access system*
- *Following the introduction of charging and installation of a Gate Access system at the pilot venue, usage grew significantly.*
- *Following the successful pilot at Fletcher Moss Park, the Council introduced charging at gate access at three further sites in 2021 – Alexandra Park, Wythenshaw and Greenbank Park.*

• *In 2020-2021, with four sites having adopted gate access and charging, Manchester Parks achieved strong participation outcomes:*

1. *Further growth of 8000 people on database, taking total number of contacts to over 14,000*
2. *49,000 court bookings*
3. *A vibrant community coaching offer reaching 350+ unique participants and 130 players regularly participating in the Manchester Local Tennis League*

What action(s) can you take to address the differential impact?

The £39 fee is for a household not individual. It allows for tennis all day and evening and every day of the year.

If a household has 4 members playing twice a week for 52 weeks of the year equates to 0.09 pence per person.

If one person from a household plays once a week for 52 weeks, equates to 0.75pence per week

Comparisons to other sports and leisure activities can be made such as Football, Rugby, Fitness Gyms, Badminton, Swimming, cinema, theatre, music events, soft play and gymnastics where this approach to Tennis fees is by far the cheapest sport and leisure activity.

Free access and coaching activity will be provided for those unable to afford the membership.

Welsh Language

Will this proposal have a **differential impact [positive]** on the Welsh language?

	Yes	No	N/A
Welsh language	x		

Please give details/consequences of the differential impact, and provide supporting evidence, if any.

Welsh speaking tennis players and participants will be encouraged through the provision of Welsh speaking coaches.

What action(s) can you take to address the differential impact?

Coaching activity will be provided through the medium of welsh through welsh speaking coaches and partnership with the URDD.

Consultation and Engagement

What arrangements have been made to consult/engage with equality/ community organisations, especially those who are representative of those you have identified as being likely to be affected?

No specific consultation has taken place. We are relying on the success of the pilot scheme in Heath Park and the LTA benchmarking data in Manchester and other Local Authority schemes where there has been unanimous success.
