## 2. Overview of the Proposal

### **What action is the Council considering and why?**

*Please provide a detailed outline of the proposal. This information will support your findings in the impact assessments.*

Section 39 of the Local Government and Elections (Wales) Act 2021 ('the Act') places a duty on principal councils in Wales to encourage local people to participate in their decision making. This includes where decisions are made in partnership with another body or the decision is delegated to an individual.

Section 40 of the Act requires a principal council to prepare and publish a public participation strategy specifying how it proposes to comply with the duty to encourage local people to participate in its decision making. A public participation strategy must, in particular, address:

- (a) ways of promoting awareness among local people of the principal council's functions;
- (b) ways of promoting awareness among local people of how to become a member of the principal council, and what membership entails;
- (c) ways of facilitating access for local people to information about decisions made, or to be made, by the principal council;
- (d) ways of promoting and facilitating processes by which local people may make representations to the principal council about a decision before, and after, it is made;
- (e) arrangements made, or to be made, for the purpose of bringing the views of the public to the attention of the Council's scrutiny committees in accordance with the requirements of Section 62 of the Local Government (Wales) Measure 2011;
- (f) ways of promoting awareness among members of the principal council of the benefits of using social media to communicate with local people.

In preparing a public participation strategy, a principal council must consult local people (i.e. people who live, work or study within the council's area) and such other persons as it considers appropriate.

The Administration's ['Stronger, Fairer, Greener'](#) policy statement, which was approved by the Council's Cabinet on 14 July 2022, includes the commitment to: *"Introduce a new Community Participation Strategy, amplifying the voices of people who are currently less likely to get involved in the decision-making process."*

The Council's [Corporate Plan 2023-26](#) also includes the commitment to: *"Develop a draft of the Participation Strategy for public consultation by June 2023 with a focus on improving engagement with seldom heard voices and amplifying the voices of people who are currently less likely to get involved in the decision-making process."*

Cardiff Council's Participation Strategy has two distinct components; part one focusing on consultation and engagement to promote citizen voice in decision-making and part two focusing on promoting participation in the democratic process.

The draft Public Participation Strategy for 2023-2027 outlines the Cardiff Council's objectives, approach and mechanisms for encouraging and enabling public participation, together with information on how local people can influence decision-making Cardiff Council's Draft Public Participation Strategy has been developed in line with our commitments and priorities, as well as the legislation set out in the Act.

It supports our values by setting out how we will encourage and enable local people and communities in the city to be actively involved in decisions that affect them. It outlines how people can influence the council's decision-making, the mechanisms already in place to encourage and support local people to participate in our decision making and an action plan to build on these.

Cardiff Council exists to serve and represent the interests of its citizens and communities and is strongly committed to fostering a culture of partnership with local people and communities, encouraging and supporting them to participate in our decision making, and keeping them informed about how their participation has influenced decisions.

The Cardiff Research Centre are committed, and excellent work is continually undertaken as outlined in the main body of the strategy. Baseline assessment of the consultation and engagement work was undertaken to identify and develop a demographic profile of survey respondents. The data was analysed and compared with demographic data taken from the 2021 Census and Mid-Year Population Estimates. The analysis identified a lower response rate evident for the following groups:

- Lower socio-economic wards – Southern Arc
- Older People (+75 years old)
- Children and Young People
- Black, Asian and Minority Ethnic Communities
- People who identify as Disabled

**What are the costs and/or savings?**

*What will the proposal cost and how will it be funded?*

*How might costs be reduced through involvement and collaboration, across Cardiff Council and/or with external stakeholders?*

*Are there savings and how will these be realised?*

Cost delivered within existing budgets, with citizen engagement an important component of shaping well informed and joined up policy.
