**PUBLIC QUESTION FROM DEBORAH HUNT**

How will you, the Council, control the everyday flow of Tarmac's predicted 140 + lorries per day to and from Creigiau Quarry?

That's 140 lorries at an approximate rate of one every 4/5 minutes of the day. Please take into consideration, in answering, the width of the road and the ongoing traffic problem which already exists especially between the hours of 7.30 - 9.30 a.m. and 3 - 6 p.m.
